For example, the 34 Act Order permits a foreign private issuer with a fiscal year that ended on December 31, 2001 for which Andersen had been engaged as the independent public accountant to examine the financial statements to file timely its annual report on Form 20–F responding to all items required in the report by July 1, 2002,[95] but include the financial statements and the reconciliation to U.S. GAAP on an unaudited basis.[96] Under the 34 Act Order, the foreign private issuer must then file the audited financial statements and reconciliation, any required selected financial data, a discussion of any material changes from the unaudited financial statements and any other section of the annual report that should be amended to reflect any changes in the financial statements as an amendment no later than August 30, 2002.[97]

4. Employee Benefit Plan Annual Reports on Form 11–K

For non-ERISA[98] employee stock purchase, savings and similar plans subject to Section 15(d) of the Exchange Act, the 34 Act Order applies to plans with a fiscal year ending between and including November 30, 2001 and April 15, 2002. The 34 Act Order maintains the existing filing deadlines for Form 11–K,[99] but permits non-ERISA plans whose annual reports would need to include audited plan financial statements for which Andersen had been engaged as the independent public accountant on or after March 14, 2002 to file their annual reports on Form 11–K with unaudited plan financial statements. The 34 Act Order's conditions require the plan to provide disclosure reflecting the guidance in Temporary Note 2T to Article 3 of Regulation S–X in the report. Further, within 60 days of the original due date for filing, the plan must file an amendment presenting the financial statements audited by an accountant other than Andersen and a discussion of any material changes from the unaudited financial statements filed originally.

Exchange Act Rule 15d–21[100] provides plans with the alternative of including audited financial statements in the annual report of the issuer of the stock or other securities offered to employees through their participation in the plan. If the plan follows this alternative procedure, the 34 Act Order permits unaudited plan financial statements (with appropriate disclosures) to be filed in the annual report (or an amendment thereto) of the issuer within 120 days after the end of the fiscal year of the plan. The 34 Act Order's conditions require audited plan financial statements to be filed as an amendment within 180 days after the end of the fiscal year of the plan. Plans with fiscal years that end within 62 days before the end of the fiscal year of the issuer that elect to furnish the information as part of the issuer's next annual report, as permitted by Exchange Act Rule 15d–21(b), will not be affected.

For example, the 34 Act Order permits a plan with a fiscal year ending December 31, 2001 for which Andersen had been engaged as the independent public accountant to examine the plan's financial statements on or after March 14, 2002, to file timely its annual report on Form 11–K by April 1, 2002,[101] but include the plan financial statements on an unaudited basis.[102] Under the 34 Act Order, the plan will then file its audited plan financial statements, a discussion of any material changes from the unaudited plan financial statements and any other section of the annual report that should be amended to reflect any changes in the financial statements as an amendment by May 31, 2002.[103]

If the alternative procedure in Exchange Act Rule 15d–21 is followed, the 34 Act Order permits unaudited plan financial statements to be filed in the annual report of the issuer, or as an amendment to that report, by April 30, 2002. Under the 34 Act Order's conditions, audited plan financial statements, a discussion of any material changes from the unaudited plan financial statements and any other section of the annual report related to the plan that should be updated will need to be filed as an amendment by July 1, 2002.[104] If the plan has a fiscal year that ends within 62 days before the end of the fiscal year of the issuer, it may elect to file the plan financial statements in the issuer's next annual report pursuant to Exchange Act Rule 15d–21(b).

Plans subject to ERISA will remain subject to the existing requirements for filing plan financial statements.

5. Filings on Schedules 14A and 14C

For issuers that file proxy statements or information statements that require audited financial statements pursuant to Item 13 or Item 14 of Schedule 14A[105] or Item 1 of Schedule 14C,[106] the 34 Act Order permits the filing of unaudited financial statements of issuers and, where applicable, of acquired companies, where the independent public accountant of the entity in question had been Andersen on or after March 14, 2002.[107] For issuers that are not registered investment companies, the relief provided by the 34 Act Order applies to proxy statements or information statements that are sent on or before September 13, 2002. For registered investment companies, the relief provided by the 34 Act Order applies to proxy statements or information statements that are sent on or before August 13, 2002. The 34 Act Order's conditions require the proxy statement or information statement to include disclosure reflecting the guidance in Temporary Note 2T to Article 3 of Regulation S–X.

Under the 34 Act Order, these issuers must file revised material or amend documents incorporated by reference, as appropriate, containing financial statements audited by an accountant other than Andersen for the required periods by the earlier of 60 days[108] from the date when the financial statements were required to be included in the proxy statement or information statement and the date the audited financial statements are filed in the annual report of the registrant,[109] if the solicitation for purposes of proxy statements (or corporate action for purposes of information statements) has not been completed by such date. The revised material or amended documents must present the audited financial statements, a discussion of any material changes from the unaudited financial statements and any other section of the materials that should be updated to reflect the changes in the financial statements.[110]

Additionally, the Commission recognizes that issuers sending their proxy statement or information statement prior to obtaining their audit report will be unable to provide disclosure regarding audit committee reports pursuant to Item 7(d)(3)(i) of Schedule 14A and audit fees pursuant to Item 9(e) of Schedule 14A or Item 1 of Schedule 14C. The 34 Act Order permits the omission of this information for issuers with a fiscal year end between November 30, 2001 and April 15, 2002 from proxy statements and information statements in full satisfaction of those disclosure requirements if the issuer meets the 34 Act Order's conditions.

The 34 Act Order's conditions require the issuer to send its proxy statement or information statement on or before September 13, 2002.[111] Further, the issuer must respond to all other applicable disclosure requirements in their proxy statement or information statement. Under the 34 Act Order, the issuer will then include disclosure in response to Items 7(d)(3)(i) and Item 9(e) of Schedule 14A in their amended Form 10–K or Form 10–KSB, if this information was required in the Schedule 14A or Schedule 14C.

6. Annual Reports to Shareholders in Connection With Annual Meeting Proxy Solicitations

Issuers furnishing proxy statements or information statements in connection with their annual meeting of security holders, or written consents in lieu of annual meetings, at which directors are to be elected, must accompany or precede that proxy statement with an annual report to shareholders. That annual report to shareholders must satisfy the requirements of Exchange Act Rule 14a–3(b)[112] for proxy statements and Exchange Act Rule 14c–3[113] for information statements. The 34 Act Order applies to issuers with a fiscal year ending between and including

[93] General Instruction A.1. to Form 10–Q and Form 10–QSB set the due date for these reports at 45 days after the end of the issuer's first three fiscal quarters. As with reports on Form 10–K and Form 10–KSB, one-time extensions of time to file the report are available under certain circumstances under Exchange Act Rule 12b–25. If the issuer complies with that rule, it can file its quarterly report no later than the fifth calendar day following the prescribed due date for that report, and the report will be deemed to be filed on the prescribed due date. *See supra* note 89 for additional relief provided by the 34 Act Order regarding Exchange Act Rule 12b–25.

[94] If Andersen or a foreign affiliate of Andersen had been engaged originally as the independent public accountant for the foreign private issuer's financial statements, selected financial data required by Item 3.A. of Form 20–F (and any reconciliation of that data to U.S. GAAP and Regulation S–K if required by Instruction 2 to Item 3.A. of Form 20–F) must also be provided.

[95] General Instruction A.(b) of Form 20–F sets the due date for these annual reports at six months after the end of the fiscal year covered by the report. June 30, 2002 falls on a Sunday, so the report will be due by July 1, 2002 for foreign private issuers with a December 31 fiscal year end.

[96] As with reports on Form 10–K and Form 10–KSB, one-time extensions of time to file the report are available under certain circumstances under Exchange Act Rule 12b–25. If a foreign private issuer complies with that rule, it can file its annual report no later than the fifteenth calendar day following the prescribed due date for that report, and the report will be deemed to be filed on the prescribed due date. *See supra* note 89 for additional relief provided by the 34 Act Order regarding Exchange Act Rule 12b–25.

[97] As with reports on Form 10–K and Form 10–KSB, reliance on the 34 Act Order is conditioned upon filing of the amendment in 60 days after the original due date of the report, excluding any additional period foreign private issuers had to actually file the report under Exchange Act Rule 12b–25. Extensions under Exchange Rule 12b–25 are not available for filing the amendment.

[98] ERISA stands for the Employee Retirement Income Security Act of 1974, as amended [29 U.S.C. §§ 1001–1461].

[99] 17 CFR 249.311.

[100] 17 CFR 240.15d–21.

[101] General Instruction A. to Form 11–K sets the due date for these reports at 90 days after the end of the fiscal year of the plan for non-ERISA plans. March 31, 2002 falls on a Sunday, so the report will be due by April 1 for plans with a December 31 fiscal year end.

[102] As with reports on Form 10–K and Form 10–KSB, one-time extensions of time to file the report are available under certain circumstances under Exchange Act Rule 12b–25. If a plan complies with that rule, it can file its annual report no later than the fifteenth calendar day following the prescribed due date for that report, and the report will be deemed to be filed on the prescribed due date. *See supra* note 89 for additional relief provided by the 34 Act Order regarding Exchange Act Rule 12b–25.

[103] As with reports on Form 10–K and Form 10–KSB, reliance on the 34 Act Order is conditioned upon filing of the amendment in 60 days after the original due date of the report, excluding any additional period the plan had to actually file the report under Exchange Act Rule 12b–25. Extensions under Exchange Rule 12b–25 are not available for filing the amendment.

[104] 180 days after the end of a fiscal year of a plan with a December 31 fiscal year is June 29, 2002, which falls on a Saturday. Accordingly, the amendment will be due by July 1, 2002.

[105] 17 CFR 240.14a–101.

[106] 17 CFR 240.14c–101.

[107] Under the 34 Act Order, the entity in question must also have a fiscal year ending with a date between and including November 30, 2001 and April 15, 2002 (for entities that meet the requirements of Rule 3–01(c) of Regulation S–X (or Item 310(b) of Regulation S–B if the entity is a small business issuer)), a fiscal year ending with a date between and including December 29, 2001 and April 15, 2002 (for entities that do not meet the requirements of Rule 3–01(c) of Regulation S–X (or Item 310(b) of Regulation S–B if the entity is a small business issuer)) or a fiscal year ending with a date between and including January 1, 2002 and April 15, 2002 (if the entity is a registered investment company).

[108] This period is 106 days for an issuer that does not meet all of the conditions in Rule 3–01(c) of Regulation S–X (Item 310(g) of Regulation S–B for small business issuers).

[109] Or the annual report to shareholders in the case of a registered investment company.

[110] Unless the company is eligible to rely on Regulation S–B for its disclosure requirements, if Andersen had been engaged originally as the independent public accountant to examine the company's financial statements, selected financial data required by Item 301 of Regulation S–K based on the audited financial statements are also required to be provided if this information would otherwise have been required in the proxy statement or information statement.

[111] This date is August 13, 2002 in the case of an issuer that is a registered investment company.

[112] 17 CFR 240.14a–3(b).

[113] 17 CFR 240 14c–3.

2002
UMI

November 30, 2001 and April 15, 2002 for proxy statements or information statements sent on or before September 13, 2002.

Where their annual reports will include financial statements as to the examination of which Andersen had been engaged as the independent public accountant on or after March 14, 2002, the 34 Act Order permits issuers to provide those financial statements on an unaudited basis, if the document containing the unaudited financial statements includes disclosure reflecting the guidance in Temporary Note 2T to Article 3 of Regulation S–X. The 34 Act Order's conditions require any issuer that does not include audited financial statements to inform its shareholders (i.e., through a press release [114] and posting the audited financial statements on the issuer's website, if it has one) when it files or amends its Form 10–K or Form 10–KSB to include the financial statements audited by an accountant other than Andersen, if the issuer's solicitation or corporate action has not been completed before the time the audited financial statements are filed.

7. Tender Offer Filings on Schedules TO

For offerors that commence tender offers that require financial statements pursuant to Item 10 of Schedule TO,[115] the 34 Act Order permits the filing of unaudited financial statements where the independent public accountant of the entity in question had been Andersen on or after March 14, 2002. The relief provided by the 34 Act Order applies to a Schedule TO filed on or before September 13, 2002 that would need to contain audited financial statements of an entity that has a fiscal year ending between and including November 30, 2001 and April 15, 2002 and where Andersen had been engaged as the independent public accountant on or after March 14, 2002 to examine those financial statements. The 34 Act Order's conditions require the Schedule TO to include disclosure reflecting the guidance in Temporary Note 2T to Article 3 of Regulation S–X.

Under the 34 Act Order, the offeror must file revised material or amend documents incorporated by reference, as appropriate, to provide the financial statements audited by an accountant other than Andersen no later than the earlier of 60 days from the date the audited financial statements were required to be included in the Schedule TO and the date the audited financial statements are filed in the annual report of the registrant,[116] if the tender offer has not been completed by that date. The 34 Act Order's conditions require the revised material or amended documents to present the audited financial statements, a discussion of any material changes from the unaudited financial statements and any other section of the materials that should be updated to reflect the changes in the financial statements.[117]

V. Special Case-by-Case Matters

A. Item 7 of Form 8–K—Financial Statements in Business Combination Transactions

Item 7 of Form 8–K requires the filing by an acquiring company of financial statements of a target company and *pro forma* financial statements within 75 days of the consummation for certain business combination transactions. The Commission invites acquiring companies to seek accommodation, such as extensions of time to file, or other relief, such as permitting use of unaudited financial statements if the acquiring or target company had Andersen as its independent accountant and audited financial statements are not available and cannot be obtained without unreasonable effort and expense, in writing under Rule 3–13 of Regulation S–X. Letters should name all parties involved and state the relief or accommodation sought, the reason(s) the relief or accommodation is being sought and any other relevant information. Letters should be addressed to the Commission at 450 Fifth Street, NW, Washington, DC 20549–0410 (Facsimile: 202–942–9582). For purposes of the significance tests of Regulation S–X used to determine whether financial statements of a target company and *pro forma* financial statements are required, if Andersen was the independent accountant of the issuer, the issuer should use the most recent annual consolidated financial statements filed at, or prior to, the date of acquisition, even though the most recent filing may include unaudited financial statements.

B. Other Matters

We encourage issuers to contact the staff of the Commission and request consideration of the appropriateness of Commission or staff action in connection with their specific factual situation. Some of the areas where these types of requests may be appropriate include: companies with uncommon fiscal year ends, change in fiscal year end and the resultant need to file transition reports pursuant to either Exchange Act Rule 13a–10 [118] or Exchange Act Rule 15d–10,[119] special financial reports required by Exchange Act Rule 15d–2,[120] filings by Canadian issuers under the Multi-Jurisdictional Disclosure System [121] and issues concerning the need to recirculate a prospectus, resolicit a proxy statement or extend an offering.

VI. Broker-Dealers and Transfer Agents Registered Under the Exchange Act; Other Market Regulation Guidance

The 34 Act Order provides affected registered broker-dealers and transfer agents extensions of time to file audited financial statements and audited internal controls reports, respectively, under specified conditions. The 34 Act Order also permits affected registered broker-dealers to furnish unaudited annual financial statements to customers and certain other persons under specified conditions. The relief provided by the 34 Act Order is available with respect to registered broker-dealers and transfer agents that are unable or elect not to obtain from Andersen a manually signed audit report for those financial statements, or a manually signed internal controls report, so long as such manually-signed reports were not received on or before March 14, 2002.

A. Broker-Dealer Financial Statements

The relief provided by the 34 Act Order applies to broker-dealers with a fiscal year ending between and including January 14, 2002 and April 15, 2002. Paragraph (d) of Exchange Act Rule 17a–5 [122] generally requires a registered broker-dealer to file with the Commission annually, on a calendar or fiscal year basis, specified audited financial statements no later than 60 days after the date of the financial statements. The 34 Act Order permits eligible broker-dealers to file their audited financial statements within 60 days after the date the statements otherwise would have been required to have been filed under paragraph (d)(5) of Rule 17a–5. For example, the 34 Act Order permits a broker-dealer with a fiscal year that ended on January 31, 2002, for which Andersen had been engaged as the independent public accountant to examine the broker-dealer's financial statements, and for which the manually-signed audit report has not been received on or before March 14, 2002, to file its audited financial statements no later than May 31, 2002.

In addition, paragraph (c) of Exchange Act Rule 17a–5 generally requires a registered broker-dealer to send to its customers and certain other persons [123] certain audited financial statements within 105 days after the date of the end of the calendar or fiscal year.[124] The 34 Act Order maintains the existing deadline under Rule 17a–5(c), but permits eligible broker-dealers to furnish financial statements on an unaudited basis. For example, the 34 Act Order permits a broker-dealer with a fiscal year that ended on January 31, 2002, for which Andersen had been engaged as the independent public accountant to examine the broker-dealer's financial statements, and for which the manually-signed audit report has not been received on or before March 14, 2002, to furnish unaudited annual financial statements to customers and such other persons no later than May 16, 2002.

B. Transfer Agent Internal Control Reports

Paragraph (a) of Exchange Act Rule 17Ad–13 [125] generally requires a registered transfer agent to file annually with the Commission and the transfer agent's appropriate regulatory agency a report prepared by an independent accountant concerning the transfer agent's system of internal accounting control and related procedures for the transfer of record ownership and the safeguarding of related securities and funds. That internal controls report must be filed within 90 calendar days of the date of the accountant's study and evaluation. The 34 Act Order permits eligible transfer agents to file their internal controls reports within 60 days after the date the reports otherwise would have been required to have been filed under paragraph (a) of Rule 17Ad–13. For example, the 34 Act Order permits a transfer agent, for which Andersen had been engaged to prepare its annual internal controls report and had conducted its study and evaluation as of January 31, 2002, and for which a manually-signed report has not been received on or before March 14, 2002, to file such report no later than June 30, 2002.

C. Other Market Regulation Guidance

1. Listing Requirements of Self-Regulatory Organizations

Self-regulatory organization ("SRO") listing standards typically require issuers to distribute to shareholders an annual report containing audited financial statements within a prescribed period after the end of the issuer's fiscal year and no later than a prescribed number of days before the issuer's annual meeting.[126] The Commission will work with applicable SROs to encourage them to grant relief to listed companies that are audit clients of Andersen that is consistent with the relief being issued by the Commission today.

2. SRO Member Firm Audit Requirements

To the extent that SRO rules require broker-dealer member firms to file annual audited financial statements,[127] the Commission will work with such SROs to encourage them to grant relief to member firms that are audit clients of Andersen that is consistent with the relief being issued by the Commission today. In addition, the Commission urges broker-dealer audit clients of Andersen with fiscal years ending before January 14, 2002 that have encountered delays in completing their audited financial statements to contact their designated examining authority for an appropriate extension of time to file under Exchange Act Rule 17a–5.[128]

3. Municipal Securities Issuers: Contractual Requirements to Provide Audited Financial Statements

Exchange Act Rule 15c2–12 [129] generally requires underwriters participating in municipal securities offerings to reasonably determine that issuers and certain other "obligated persons" have contracted to provide annual financial statements to certain information repositories,[130] and to disclose in material event notices [131] and future official statements [132] failures to do so by the contractual deadline. The Commission urges municipal securities market participants to interpret the filing of annual audited financial statements within 60 days of the contractual deadline, by municipal securities issuers and obligated persons with a fiscal year ending between and including September 15, 2001 and April 15, 2002 that are audited by Andersen, as not creating a material breach of their contractual undertaking. This interpretation would be appropriate, however, only if the issuer or obligated person files unaudited financial statements with the appropriate repositories by the contractual deadline.

VII. Registrants Under the Investment Company Act of 1940 and the Investment Advisers Act of 1940

The Commission is also issuing an order under the Investment Company Act [133] and Investment Adviser Act [134] that address issues investment companies and investment advisers may face that are unable to obtain the services of Andersen or that choose not to continue to engage Andersen as their independent public accountant.

A. Registrotion Statements and Reports Under the Investment Company Act

1. Eligibility

The 40 Act Order provides relief for investment companies with obligations to file amendments to registration statements under the 1940 Act, annual reports to shareholders, and annual

---

[114] The press release is to announce that the audited financial statements are available and may be found in the issuer's filing on the Commission's website at www.sec.gov and on the issuer's website, citing the address, if the issuer has a website.

[115] 17 CFR 240.14d–100.

[116] Or annual report to shareholders in the case of a registered investment company.

[117] Unless the offeror is eligible to rely on Regulation S–B for its disclosure requirements, if Andersen had been engaged originally as the independent public accountant to examine the offeror's financial statements, selected financial data required by Item 301 of Regulation S–K based on the audited financial statements must also be provided.

[118] 17 CFR 240.13a–10.

[119] 17 CFR 240.15d–13.

[120] 17 CFR 240.15d–2.

[121] As a general matter, it is the view of the Commission that MJDS filers on Forms F–7, F–8, F–9, F–10 or F–80 [17 CFR 239.37, 239.38, 239.39, 239.40 or 239.41] under the Securities Act will be in compliance with the requirements of the form relating to consents of Andersen if the issuer meets the eligibility requirements and conditions of new Securities Act Rule 437a.

[122] 17 CFR 240.17a–5.

[123] Subparagraph (c)(1) of Rule 17a–5 requires registered broker-dealers to file specified customer statements with the Commission, at its principal office in Washiogton, D.C., with the regional office of the Commission for the region in which the broker-dealer has its principal place of business, and with each national securities exchange and national securities association of which it is a member.

[124] Specifically, the audited financial statements must be sent to customers no later than 105 days after the date of the audited report required by paragraph (d) of Rule 17a–5.

[125] 17 CFR 240.17Ad–13.

[126] *E.g.*, NYSE Listed Company Manual Para. 203.01; NASD Rule 4350(b); Amex Listing Standards, Policies and Requirements Sections 610–611.

[127] *E.g.*, NYSE Rule 418; CBOE Rule 15.6.

[128] Subparagraph (l)(1) of Exchange Act Rule 17a–5 permits a broker-dealer's designated examining authority to extend the period for filing annual audit reports under paragraph (d) of Exchange Act Rule 17a–5.

[129] 17 CFR 240.15c2–12.

[130] Annual financial information is to be furnished to each nationally recognized municipal securities information repository and to the appropriate state information depository, if any. (Rule 15c2–12(b)(5)(i)(A)–(B)).

[131] Rule 15c2–12(b)(5)(i)(D).

[132] As defined in Rule 15c2–12(f)(3), the required "final official statement" must include a description of any instances in the previous five years in which the issuer or obligated person failed to comply, in all material respects, with any previous undertakings in a written contract or agreement specified by Rule 15c2–12(b)(5)(i).

reports on Form N–SAR.[135] An investment company is eligible for the relief (an "Eligible Fund") if—

- Andersen had been engaged on or after March 14, 2002 as the fund's independent public accountant;
- The Eligible Fund, on or before March 14, 2002, had not obtained a manually signed audit report from Andersen in respect to those financial statements; and
- The Eligible Fund is unable to obtain from Andersen or elects not to have Andersen issue a manually signed audit report with respect to its financial statements.

2. Registration Statement Under the Investment Company Act

For Eligible Funds with a fiscal year ending between January 1, 2002 and April 15, 2002, the 40 Act Order permits them to file a post-effective amendment to their 1940 Act registration statements within six months after their fiscal year end (rather than 120 days) if the fund has timely filed its Form N–SAR as provided in the order. The 40 Act Order thus conforms the 1940 Act registration statement updating requirements to those we are today adopting in 1933 Act Rule 427T.

3. Annual Reports to Shareholders

For Eligible Funds transmitting annual reports to shareholders and that have fiscal years ended between January 1, 2002 and April 15, 2002, the 40 Act Order permits them to mail their annual reports to shareholders with unaudited financial statements that also contain the disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X. The Eligible Fund must file an amended annual report within 60 days of the original due date containing financial statements audited by another independent public accountant and a discussion of any material changes from the unaudited financial statements filed originally. [136]

Most closed-end funds annually furnish shareholders a proxy statement (or information statement) that must be accompanied or preceded by an annual report. The 40 Act Order's conditions require a closed-end fund, when it amends its annual report to include the audited financial statements, to inform its shareholders through a press release and by posting the audited financial statements on the company's web site (if it has one) if the company's solicitation or corporate action has not been completed before the time the audited financial statements are filed.

4. Form N–SAR

For Eligible Funds filing annual reports on Form N–SAR with fiscal years ending between December 15, 2001 and April 15, 2002, the 40 Act Order permits them to file their Form N–SAR with unaudited financial information and without the report of independent accountants on internal controls so long as the Eligible Fund files an amendment providing audited financial information and the report of the independent accountants on internal controls within 60 days of the original due date for the filing.

Investment companies for which Andersen has been acting as independent accountant may report a change in accountant under item 77K of Form N–SAR consistent with our statement on change in accountants as described above in Section II.B.10. of this release.

B. Selection of Independent Public Accountant

Section 32(a)(1) and Rule 32a–3 under the Investment Company Act set forth certain periods at the beginning of each fiscal year during which registered management investment companies (mutual funds, closed-end funds and business development companies) must select an independent public accountant.[137] Some investment companies for which Andersen serves as independent public accountant may need additional time as a result of recent events. The 40 Act Order provides an additional sixty days for an investment company to select an independent public accountant whose financial statements for its last fiscal years was audited by Andersen and whose fiscal year ended on or before April 15, 2002.

Section 32(a) provides that a new accountant may be selected due to the death or resignation of the accountant by a vote of a majority of members of the investment company's board of directors (*i.e.*, without shareholder ratification), but does not address how a fund whose board of directors has terminated the appointment of the accountant may select a new one. The 40 Act Order permits a fund that had selected Andersen as its independent public accountant on or before March 14, 2002, and thereafter terminated the appointment, to select a new independent public accountant by a majority vote of the independent directors of the fund.

Section 32 requires the directors to select the investment company's independent public accountant at a meeting at which their votes would be cast "in person." In light of the events surrounding Andersen, the 40 Act Order permits companies making selections pursuant to the provisions of the 40 Act Order to cast their votes in a meeting in which directors may participate by any means of communicating that allows all directors participating to communicate with each other simultaneously during the meeting.

C. Verification of Assets in Custody

Various Investment Company Act rules (Rules 17f–1, 17f–2, 6e–2 and 6e–3(T)) regarding custody of securities or similar investments of a management investment company or insurance company separate account require that the securities and other investments be verified by actual examination periodically by an independent public accountant.[138] Because clients of Andersen may decide to retain a new independent public accountant and may need additional time to complete their verifications, the 40 Act Order allows an additional 60 days to complete these verifications for investment companies with a fiscal year ending between January 1 and April 15, 2002.

D. Balance Sheets of Investment Advisers

Investment Adviser Act Form ADV requires an investment adviser to include on Schedule G of the Form a balance sheet for its most recent fiscal year, audited by an independent accountant, if the adviser has custody of client funds or securities or if the adviser requires prepayment of more than $500 in fees per client and six or more months in advance.[139] The 40 Act Order permits an adviser that had engaged Andersen (or a foreign affiliate of Andersen) to examine the balance sheet to be included in Schedule G to use an unaudited balance sheet to satisfy the requirements of Schedule G for 60 days if the adviser—

- Had not, on or before April 14, 2002, obtained a manually signed unaudited report from Andersen (or a foreign affiliate of Andersen);
- Is unable or elects not to have Andersen issue a manually signed audit report from Andersen in respect to that balance sheet; and
- Has a fiscal year ending between December 1, 2001 and April 15, 2002.

At the end of the 60-day period the adviser must resume furnishing or offering to furnish a disclosure statement containing an audited balance sheet. The 40 Act Order imposes no additional filing requirements.

E. Exemptive Orders

In the past, the Commission has issued a number of orders under the Investment Company Act and the Investment Advisers Act and the rules thereunder exempting investment companies, investment advisers and others from provisions of these statutes and rules. Some of these orders are conditioned upon the involvement of an independent accountant preparing a report, conducting an audit, reviewing various systems or procedures, monitoring ongoing transactions or providing other services. Persons relying on these orders that have retained the services of Andersen will not be in violation of the applicable provisions of law or rule because of an inability to comply with the conditions or representations as a result of their inability to obtain the services of or elects not to continue to engage Andersen. We have provided persons relying on these orders an additional 60 days to comply with the requirements of their orders.

VIII. Registrants Under the Public Utility Holding Company Act of 1935

The Commission is issuing another order under the Public Utility Holding Company Act of 1935 [140] that addresses issues that registered public utility holding companies may face as a result of the circumstances surrounding Andersen.

A. Annual Reports on Form U5S

Public utility holding companies registered under the Public Utility Holding Company Act of 1935 are required to file with the Commission annual reports on Form U5S.[141] Form U5S includes requirements that a registered holding company incorporate by reference annual reports filed by any of its system companies under the Exchange Act ("1934 Act Reports") as well as the opinion of its independent accountant with respect to the holding company's consolidated financial statements.

The 35 Act Order permits registered public utility holding companies with a fiscal year ending between November 30, 2001 and April 15, 2002 that have retained Andersen as their independent accountant to file their annual report on Form U5S with unaudited financial statements. Specifically, the 35 Act Order permits registered public utility holding companies to incorporate by reference 1934 Act Reports that meet the requirements of the 34 Act Order provided they amend their filing to include any amended report filed in accordance with the 34 Act Order as well as the opinion of their independent accountants within 60 days.

B. Computations Required by Certain Rules and Orders

Rules 53 and 58 under the Public Utility Holding Company Act of 1935 establish safe harbors that permit registered public utility holding companies to invest up to a specified amount in various types of non-utility activities without seeking prior Commission approval.[142] In computing the permitted level of investment, registered public utility holding companies relying on the rules are required to use financial information included in their filings on Form 10–Q and Form 10–K. Other registered utility holding companies with orders under Sections 53, 54 [143] and 58 of the Public Utility Holding Company Act of 1935 permitting them to exceed these safe harbors are required to make analogous computations pursuant to the terms of their orders. The 35 Act Order makes clear that with respect to any computation required by Rule 53(a)(1) or Rule 58(a)(1) or any similar computation required by these rules or orders, a registered public utility holding company that is filing annual reports of Form 10–K or quarterly reports on Form 10–Q in reliance on the 34 Act Order may rely on the financial statements included in those filings in performing the required calculations.

IX. Consideration of Comments

We are publishing final rules and temporary final rules, rather than a notice of proposed rulemaking, for reasons stated in the section entitled "Procedural Matters." We will, however, consider any comments concerning whether other temporary or permanent rule changes are needed.

X. Procedural Matters

The Administrative Procedure Act generally requires an agency to publish notice of a proposed rulemaking in the **Federal Register**.[144] This requirement does not apply, however, if the agency "for good cause finds * * * that notice and public procedure are impracticable, unnecessary, or contrary to the public interest." [145] The Commission believes that it is appropriate to adopt the rules immediately for two reasons. First, some Andersen clients that end their audit relationship with Andersen may be in the middle of, or about to begin, raising capital publicly but will not have the required audited financial statements available when they are needed. The rules are needed immediately to remove regulatory impediments to their capital-raising plans with minimal market disruption. Second, information needs to be available to the investing public, beginning immediately, about the assurances issuers to whom Andersen issues reports after March 14, 2002 have received from Andersen concerning Andersen's quality control procedures in place during the audit. Accordingly, the Commission for good cause finds that delaying adoption of these rules until after a notice and comment period would be impractical and contrary to the public interest.

The Administrative Procedure Act also generally requires that an agency publish an adopted rule in the **Federal Register** 30 days before it becomes effective.[146] This requirement, however, does not apply if the agency finds good cause for making the rule effective sooner.[147] For the same reasons as it is waiving notice and comment, the Commission finds good cause to make the rules effective immediately.[148]

XI. Paperwork Reduction Act

This Paperwork Reduction Act ("PRA") information pertains to both the rules adopted today and the accompanying orders attached to this release as Appendices A–C. Certain provisions of the rules and accompanying orders contain a "collection of information" requirement within the meaning of the Paperwork Reduction Act of 1995.[149] We submitted this requirement to the Office of Management and Budget ("OMB") for review in accordance with 44 U.S.C. 3507(j) and 5 CFR 1320.13. The title for

the collection is Temporary Relief for Certain Entities Audited by Arthur Andersen LLP.

As discussed above, the Commission is adopting rules and issuing orders to mitigate the potential consequences to the markets as a result of Andersen's indictment. In order to minimize any market disruption, the Commission is providing relief with respect to certain filing and other requirements for certain clients of Andersen. The collection of information adopted today is necessary to ensure that the market receives disclosure from clients of Andersen that are taking advantage of this relief. The collection of information will supply investors with information they may not otherwise have and will help prevent confusion.

Temporary Relief for Certain Entities Audited by Arthur Andersen LLP. This collection of information encompasses certain new disclosures required by certain clients of Andersen. In general, public companies for whom Andersen does not complete audits or reviews will be allowed to file unaudited financial statements, rather than audited ones, in order to meet existing periodic reporting, proxy statement, tender offer, and registration requirements, as long as they disclose that the financial statements are unaudited (or not reviewed), provide audited (or reviewed) financial statements at a later date, and explain any material differences between the unaudited and audited financial statements. In some cases, issuers must alert the public through a press release that the audited financial statements are available and post the audited financial statements on their websites (if they have websites). Certain investment advisers may provide clients and prospective clients with unaudited balance sheets, with appropriate disclosure, and provide audited balance sheets at a later date. Clients that wish to file financial statements audited by Andersen must file a letter with affected filings concerning representations received from Andersen regarding Andersen's audit quality controls. In certain cases where Andersen clients were required to submit a consent or a reissued accountants' report from their auditor, but cannot obtain the consent or the reissued accountants' report, those requirements have been waived provided the filing includes appropriate disclosure. Because the rules regarding waiver of consents and reissued accountants' reports are permanent, these aspects of the collection of information also have been submitted to OMB for regular review as a stand-alone collection of information.

This collection of information imposes a minimal and temporary burden on some Andersen clients. It is difficult to estimate with precision the burden imposed by this collection of information requirement. We estimate that there are approximately 2,400 clients of Andersen potentially affected by this collection of information. However, some clients may not be subject to the collection of information because these clients may already have filed financial statements audited by Andersen.

We estimate for purposes of the PRA that approximately 1,979 Andersen clients will make new disclosures associated with one periodic report (two burden hours per filing) and approximately 325 will make new disclosures associated with two such reports; approximately 130 Andersen clients will make new disclosures associated with one registration statement each (three burden hours per filing); approximately 2,304 Andersen clients will make new disclosures associated with one proxy-related filing each (two burden hours per filing); approximately 22 Andersen clients will make new disclosures associated with one tender offer-related filing (two burden hours per filing); approximately 83 Andersen clients will make disclosures associated with investment adviser balance sheet requirements (one hour per disclosure); and approximately 2,400 Andersen clients will make one disclosure relating to Andersen's audit quality controls (one burden hour per filing). We recognize that the assumptions necessarily overcount the potential burden, as they assume all clients will both continue to be audited by Andersen and decide not to have Andersen complete the audit. We make these assumptions because the overall burden estimate is minimal and because we cannot estimate which option Andersen clients will choose. Thus, for PRA purposes, we have estimated that the total number of burden hours associated with this collection of information is 12,783.

Waiver of Auditor Consent and Reissued Accountants' Report. The Commission has also submitted, for regular review pursuant to 44 U.S.C. 3507(d) and 5 CFR 1320.11, as a separate collection of information that will not be temporary, two aspects of the above-described collection of information. First, companies currently need to include in their registration statements the consent of auditors for use of their reports related to the three previous years' audits. For Andersen clients unable to obtain these consents, the rule amendments waive the obligation to obtain an auditor's consent for years before 2001, provided that the company discloses any limitations on remedies resulting from the lack of consents. Second, certain issuers that change auditors need to obtain from their predecessor auditor a reissued accountants' report for previously audited financial statements. Under the new rules, if the issuer is unable to obtain the accountants' report after reasonable efforts, the issuer may provide a copy of the latest previously issued accountants' report, as long as it discloses that the report is a copy of a report previously issued and that the report has not been reissued by Andersen. This collection of information is necessary to advise potential purchasers of securities and investors of certain information that they would not receive otherwise.

For the purposes of the collection of information entitled "Temporary Relief for Certain Entities Audited by Arthur Andersen LLP," we estimated that the disclosures associated with registration statements would take three hours and that disclosures associated with periodic reports, proxy statements and tender offers would take two hours. One half hour of these estimates is the estimated time required to make disclosures associated with the waiver of consents and one half hour of these estimates is the estimated time required to make disclosures associated with the waiver of the predecessor auditor's reissued report.

We estimate that last year there were approximately 650 registration statements filed by clients of Andersen. For purposes of the PRA, we assume that 650 Andersen clients will file one registration statement annually requiring waivers of the consent and the reissued predecessor auditor's report. Additionally, we estimate that of Andersen's approximately 2,400 clients, approximately 2,304 are public companies that file annual reports, proxy materials and tender offer filings. We estimate that these clients will file 2,629 annual reports (certain issuers with non-ERISA retirement benefit plans may file additional annual reports for those plans), 2,304 proxy-related filings, and 132 tender offer filings. Because we estimate that each disclosure will require one half hour, we estimate that the total number of burden hours associated with this collection of information is 3,182.5.

The Commission has adopted, and OMB has approved, the collection of information entitled "Temporary Relief for Certain Entities Audited by Arthur Andersen LLP" on an emergency basis. The control number for this collection of information is OMB Control No. 3235–0557. This collection of information will expire on September 30, 2002. As noted above, the Commission has also submitted for regular review pursuant to 44 U.S.C. 3507(d) and 5 CFR 1320.11 the collection of information entitled "Waiver of Auditor Consent and Reissued Accountants' Report."

Pursuant to 44 U.S.C. 3506(c)(2)(B), the Commission solicits comments to: (i) Evaluate whether the proposed collection of information entitled "Waiver of Auditor Consent and Reissued Accountants' Report" is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Commission's estimate of the burden of the proposed collection of information; (iii) determine whether there are ways to enhance the quality, utility, and clarity of the information to be collected; and (iv) evaluate whether there are ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

Persons submitting comments on the collection of information requirement should direct the comments to the Office of Management and Budget, Attention: Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Washington, DC 20503, and should send a copy to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549–0609, with reference to File No. S7–03–02. Requests for materials submitted to OMB by the Commission with regard to this collection of information should be in writing, refer to File No. S7–03–02, and be submitted to the Securities and Exchange Commission, Records Management, Office of Filings and Information Services. OMB is required to make a decision concerning its regular review of the collection of information between 30 and 60 days after publication of this release. Consequently, a comment to OMB is assured of having its full effect if OMB receives it within 30 days of publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Compliance with the disclosure requirements is mandatory for those taking advantage of the rules and orders. There is no mandatory retention period for the information disclosed, and responses to the disclosure requirements will not be kept confidential.

XII. Analysis of Costs and Benefits

The Commission is sensitive to the costs and benefits imposed by its rules.[150] The rules we are adopting include a requirement that Andersen clients that continue their audit relationship with Andersen make publicly available certain assurances they receive from Andersen concerning Andersen's quality control procedures in place during the audit (the "assurance letter requirement"). The rules also provide alternative regulatory requirements that will give Andersen clients certain options regarding compliance with the federal securities laws (the "temporary rules").

A. The Assurance Letter Requirement

The assurance letter requirement benefits investors by providing that basic information about Andersen's continued adherence to quality control standards be made publicly available with respect to each Andersen audit during this period of uncertainty and potentially rapid change. The costs of the assurance letter requirement are limited to the minimal costs involved for Andersen to transmit representations to its audit clients and the minimal costs involved for each Andersen audit client to include representations in a letter with certain filings.

B. The Temporary Rules

Before its indictment, Andersen may not have completed its audit or issued audit opinions with respect to many of its clients in registration or about to register securities. Andersen clients that are in that position, but that choose to end their audit relationship with Andersen or are unable to obtain audit services from Andersen to complete their audits (hereafter, the "terminated clients"), will need to engage new independent public accountants. We recognize that many terminated clients may be unable to engage a new auditor that can, in a timely fashion, complete an audit and sign an audit opinion that normally must be included with a registration statement. The purpose of the temporary rules is to minimize disruption to the capital markets and to the terminated clients while those clients complete certain pending or imminent offerings.

The temporary rules have four primary components:

- The Commission is permitting the terminated clients filing registration statements (other than companies registering initial public offerings) to include unaudited financial statements. Those terminated clients must amend their registration statements to include audited financial statements within 60 days after the date on which the audited financial statements would otherwise be required.
- The Commission is extending from 16 to 18 months the age of audited financial information that a terminated client can include in a prospectus used nine months after the effectiveness of an underlying registration statement.
- The Commission is waiving the requirement for Andersen clients to include in a registration statement the consent of Andersen to use audit reports for prior years for which a consent cannot be obtained; the issuer must include a copy of the latest signed and dated accountants' report issued by Andersen and include certain related disclosure if a reissued accountants' report cannot be obtained.
- Our current rules require issuers that expect to report a loss for the most recent fiscal year, or that had a loss for the last two fiscal years, to file audited financial statements within 45 days of the end of their fiscal year. The Commission is providing relief allowing the affected terminated clients to continue to use their unaudited financial statements for registration statements or any other purpose provided they obtain audited financial statements within 60 days of the original due date.

1. Benefits

The benefit of the temporary rules, like the Orders issued today, is the mitigation of disruption, uncertainty, lost opportunity, and other costs that, however unlikely, might be visited upon the market and the terminated clients. The temporary rules provide the market and the terminated clients with regulatory clarity to help address the disruption in an orderly fashion, and without expending more resources, or forsaking more opportunity, than is necessary.

First, by virtue of addressing and resolving certain questions, the temporary rules mitigate the costs to terminated clients from having to formulate capital-raising plans in an uncertain regulatory environment. It is unavoidable that the terminated clients will need to devote resources to

[150] In companion Orders issued today, we are providing relief under the Securities Exchange Act of 1934, the Investment Company Act of 1940, the Investment Advisers Act of 1940, and the Public Utility Holding Company Act. This cost-benefit analysis addresses only the relief provided by these rule amendments.

UMI

assessment and planning, but a principal benefit of the temporary rules is to facilitate that assessment and planning process by preemptively addressing questions that would arise concerning regulatory compliance.

Second, the temporary rules will help mitigate any possible disruptions to the capital-raising process. The terminated clients currently in registration, or planning to register securities in the very near term, may be unable to obtain audited financial statements in time to support registration statements. They may also face hardship in obtaining necessary consents from Andersen to include accountants' reports related to financial statements Andersen audited in prior years and obtaining a reissued accountants' report for use in future filings. Capital raising frequently is time-sensitive. By preserving for the terminated clients the option of going forward with their capital-raising plans, albeit subject to whatever market risk accompanies going forward with unaudited financial statements, the temporary rules afford issuers and investors a capital-raising and investment option that would otherwise be postponed and possibly lost altogether.

Third, the temporary rules will benefit certain terminated clients by extending a regulatory deadline that would be difficult, and perhaps impossible, to meet because of the transition to a new auditor. Our current rules require issuers that expect to report a loss for the most recent fiscal year, or that had a loss for the last two fiscal years, to file audited financial statements within 45 days of the end of their fiscal year. The temporary rules provide a reasonable regulatory accommodation for the terminated clients in that position.

2. Costs

As described above, the principal purpose of the temporary rules is to mitigate costs and uncertainties. Because the temporary rules, like the Orders issued today, provide optional compliance alternatives, any costs that they impose will be imposed only on those parties that choose to proceed pursuant to them. The terminated clients that opt to proceed pursuant to the temporary rules may incur costs associated with explaining the effect of filing unaudited financial statements, retransmitting financial statements, and obtaining new signatures for the second filing, with attendant liability.

The temporary rules may also impose certain other types of costs. One cost that may result from the rules is the unquantifiable cost of allowing the terminated clients to offer securities for a temporary period with unaudited, rather than audited, financial statements. That cost is borne both by investors, who may bear more risk than usual in purchasing the securities, and by the terminated clients, since that increased investor risk may create a less receptive market and a correspondingly higher cost of capital for those issuers.

The temporary rules limit the time during which potential investors in the securities will need to make investment decisions without the benefit of audited financial statements. The temporary rules do not mitigate the risk to those investors who do in fact purchase the securities in the period before the audited financial statements are filed, nor do they mitigate the risk to issuers that investors may be less receptive to their securities during that period.

Some costs may be associated with allowing a withdrawing client to use audited financial information that is up to 18 months old, rather than 16 months old, in a prospectus used nine months after the effectiveness of the underlying registration statement. The increased age of the information may mean that it is perceived by investors to be less reliable.

Costs may also accompany the waiver, for current and former Andersen clients, of the requirement that a registration statement include the consent of Andersen to use Andersen audit opinions for prior years. Because the registration statements will be supported by prior years' audit opinions that are not backed by the auditor's current consent, the temporary rules may generate a cost in that investors may have less confidence in the issuer's reported financial condition for those earlier years. Similar costs may be associated with the inability of issuers to obtain a reissued accountants' report.

The inability of Andersen clients to obtain Andersen's consent is a consequence of Andersen's status and not a consequence of the temporary rules. That inability alone, however, does not make it impossible for Andersen clients to comply with the consent requirement, since they could decide to retain a different auditor to re-audit prior years. Thus, while it is Andersen's status, and not the temporary rules, that may make it impossible to obtain the relevant consents from Andersen, the temporary rules create the possibility that the affected registration statements will be effective without those issuers otherwise complying with the consent requirement. Issuers may select the approach which they perceive to be most cost-effective.

Finally, there are costs associated with extending the deadline for filing audited financial statements by those terminated clients that expect to report a loss for a recently completed fiscal year or have reported losses for the past two fiscal years. As discussed above, the use of unaudited financial statements can result in unquantifiable costs to investors and issuers. The filing deadline serves a regulatory purpose that will be impeded temporarily because of the delay.

XIII. Regulatory Flexibility Act

The Regulatory Flexibility Act [151] does not apply to the rules we are adopting today. The Regulatory Flexibility Act only requires agencies to prepare analyses for rulemaking when the Administrative Procedure Act requires general notice of proposed rulemaking.[152] As noted above, the Commission is not required to solicit public comment because the Commission is using the expedited rulemaking procedures under section 553(b) of the Administrative Procedure Act.

XIV. Effects on Competition, Efficiency and Capital Formation

Section 2(b) of the Securities Act and Section 3(f) of the Exchange Act require the Commission, when engaging in rulemaking that requires it to consider or determine whether an action is necessary or appropriate in the public interest, to consider whether the action will promote efficiency, competition, and capital formation. Section 23(a)(2) of the Exchange Act requires the Commission, in adopting rules under the Exchange Act, to consider the anticompetitive effects of any rules it adopts.

A. The Assurance Letter Requirement

We have considered what impact the assurance letter requirement will have on efficiency, competition, and capital formation. The requirement may promote efficiency to some degree by making available to markets information that it would not otherwise be available, at a de minimis cost to those that must supply the information. The assurance letter requirement will neither promote nor impede capital formation or competition, but will only help ensure the availability of relevant information to markets and investors.

B. The Temporary Rules

The temporary rules neither promote nor impede competition. The temporary rules give the terminated clients the option of proceeding with capital formation as intended before the announcement of Andersen's indictment. Absent the relief we are providing today, some terminated clients might be forced to postpone public offerings of securities until they engage a new auditor and obtain audited financial statements. By affording those terminated clients the option of proceeding, temporarily, with unaudited financial statements, the temporary rules reduce that obstacle to capital formation.

Some terminated clients have made, or will make, financial and economic decisions to raise capital based on their individual needs and will pursue plans toward that end. Absent the relief we are providing today, the temporary adjustments that the terminated clients would need to make to financial and other operations due to the postponement of those plans would likely entail overall inefficiencies in their capital-raising efforts. By giving those terminated clients the option to proceed, the temporary rules provide them with an alternative that would reduce or eliminate those inefficiencies.

We have considered whether the temporary rules promote competition. The temporary rules will neither promote nor impede competition. The terminated clients may have made plans for, and based expectations on, raising capital within a certain time frame. Absent the relief we are providing today, capital raising could be delayed. From this perspective, the temporary rules may well mitigate that possible effect.

We have also considered whether the temporary rules would impede competition by giving terminated clients a competitive advantage relative to other issuers. It might be suggested that other issuers would like to have the option of filing a registration statement with unaudited financial statements and only supplying audited financial statements sixty days later. We cannot conclude that the temporary rules create a competitive advantage for the terminated clients or otherwise impede competition. The terminated clients will be seeking capital without supplying investors with audited financial statements, while competing issuers seeking capital in the same markets will supply audited financial statements. This does not constitute a competitive advantage for the terminated clients. The temporary rules do not pose an impediment to competition or materially impede the competitive position of any issuer.

Text of the Amendments

For the reasons set out in the preamble, Title 17, Chapter II of the Code of Federal Regulations is amended as follows:

PART 210—FORM AND CONTENT OF AND REQUIREMENTS FOR FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, INVESTMENT COMPANY ACT OF 1940, INVESTMENT ADVISERS ACT OF 1940, AND ENERGY POLICY AND CONSERVATION ACT OF 1975

1. The authority citation for part 210 continues to read as follows:

Authority: 15 U.S.C. 77f, 77g, 77h, 77j, 77s, 77z–2, 77z–3, 77aa(25), 77aa(26), 78c, 78j–1, 78l, 78m, 78n, 78o(d), 78q, 78u–5, 78w(a), 78ll, 78mm, 79e(b), 79j(a), 79n, 79t(a), 80a–8, 80a–20, 80a–29, 80a–30, 80a–37(a), 80b–3, 80b–11 unless otherwise noted.

2. By amending § 210.2–02 by adding paragraph (e) to read as follows:

§ 210.2–02 Accountants' reports.

* * * * *

(e) Paragraph (e) of this section applies only to registrants that are providing financial statements in a filing for a period with respect to which Arthur Andersen LLP or a foreign affiliate of Arthur Andersen LLP ("Andersen") issued an accountants' report. Notwithstanding any other Commission rule or regulation, a registrant that cannot obtain an accountants' report that meets the technical requirements of paragraph (a) of this section after reasonable efforts may include in the document a copy of the latest signed and dated accountants' report issued by Andersen for such period in satisfaction of that requirement, if prominent disclosure that the report is a copy of the previously issued Andersen accountants' report and that the report has not been reissued by Andersen is set forth on such copy.

3. By adding Temporary Note 1T, Temporary Note 2T and Temporary Note 3T after the introductory note under the undesignated heading "General Instructions as to Financial Statements" preceding § 210.3–01 to read as follows:

GENERAL INSTRUCTIONS AS TO FINANCIAL STATEMENTS

* * * * *

Temporary Note 1T: Notwithstanding any other Commission rule or regulation, every registrant meeting the eligibility requirements in paragraph (a) of this note that files a registration statement on Forms S–1, S–2, S–3, S–4, S–6, S–8, S–11, N–1, N–1A, N–2, N–3, N–4, N–5 or N–14 (§§ 239.11, 239.12, 239.13, 239.25, 239.16, 239.16b, 239.18, 239.15, 239.15A, 239.14, 239.17a, 239.17b, 239.24 or 239.23 of this chapter), or an amendment thereto, that requires audited financial statements for the most recent fiscal year end may file unaudited financial statements in satisfaction of that requirement under the conditions listed in paragraph (b) of this note. In the case of a registered investment company that files a new registration statement on Form S–6 other than an insurance company separate account, however, the relief provided by this note shall not extend to financial statements of the registered investment company itself.

(a) *Eligibility requirements.* An issuer:

(1) That at the time of filing a registration statement is subject to the periodic reporting requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. §§ 78m(a) or 78o(d)) or, in the case of a registered investment company, has previously filed a registration statement under the Securities Act of 1933 (15 U.S.C. § 77a *et seq.*) that has been declared effective by the Commission;

(2) Whose registration statement will include financial statements:

(i) Of an entity that has a fiscal year ending between and including:

(A) November 30, 2001 and April 15, 2002, if the entity meets all of the conditions in Rule 3–01(c) of Regulation S–X (§ 210.3–01(c)) (or Item 310(g) of Regulation S–B

VOL 67 ISS 56 MR 22 2002 UMI

(§ 228.310(g) of this chapter) if the entity is a small business issuer) (or if the entity is a depositor for a registered unit investment trust and the entity is not subject to the periodic reporting requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. §§ 78m(a) or 78o(d))) and is not a registered investment company;

(B) December 29, 2001 and April 15, 2002, if the entity does not meet all of the conditions in Rule 3–01(c) of Regulation S–X (§ 210.3–01(c)) (or Item 310(g) of Regulation S–B (§ 228.310(g) of this chapter) if the entity is a small business issuer) and is not a registered investment company; or

(C) January 1, 2002 and April 15, 2002 in the case of a registered investment company;

(ii) As to the examination of which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged as the independent public accountant on or after March 14, 2002;

(3) That, on or before March 14, 2002, had not obtained a manually signed audit report from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) in respect of those financial statements;

(4) That is unable to obtain from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) or elects not to have Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) issue a manually signed audit report in respect of those financial statements; and

(5) That is not a "blank check company" as defined in § 230.419(a)(2) of this chapter.

(b) *Conditions.*

(1) The issuer's registration statement responds to all items required by the applicable registration form, but with unaudited financial statements that meet the timeliness requirements of Rule 3–01 of Regulation S–X (§ 210.3–01) or, for a registered investment company, Rules 3–12 and 3–18 of Regulation S–X (§§ 210.3–12 and 210.3–18) for those financial statements as to the examination of which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged as the independent public accountant.

(2) The issuer provides in the registration statement disclosure reflecting the guidance in Temporary Note 2T to Article 3 of Regulation S–X (§§ 210.3–01—3–20).

(3) If the registration statement is not yet effective and it will become effective on or after the date specified in paragraph (b)(4) of this section, the issuer must file a pre-effective amendment or an amendment to a document incorporated by reference, as appropriate, before effectiveness. If the registration statement is effective, the issuer must file either a post-effective amendment or an amendment to a document incorporated by reference, as appropriate, not later than the date specified in paragraph (b)(4) of this note; provided that this filing or amendment need not be made if the offering or offerings have been completed (and any prospectus delivery period under Section 4(3) of the Securities Act of 1933 (15 U.S.C. § 77d(3)) and the rules thereunder has expired) prior to the date specified in paragraph (b)(4) of this note. The filing or amendment shall present:

(i) The financial statements audited by an independent public accountant other than Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP);

(ii) If Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged as the independent public accountant to examine the issuer's financial statements, selected financial data required by Item 301 of Regulation S–K (§ 229.301 of this chapter) based on the audited financial statements; (iii)A discussion of any material changes from the unaudited financial statements filed originally; and

(iv) Any other section of the registration statement or documents incorporated by reference that should be updated or revised to reflect the changes in the financial statements so filed by amendment.

(4) For purposes of paragraph (b)(3) of this note:

(i) If the issuer (other than a registered investment company) meets all of the conditions in Rule 3–01(c) of Regulation S–X (§ 210.3–01(c)), the date shall be the earlier of:

(A) 60 days from the date the audited financial statements were required to be included in the registration statement; and

(B) The date on which an amended Form 10–K or 10–KSB (§ 249.310 or 249.310b of this chapter) containing audited financial statements is filed in accordance with Release No. 34–45589 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov);

(ii) If the issuer (other than a registered investment company) does not meet all of the conditions in Rule 3–01(c) of Regulation S–X (§ 210.3–01(c)), the date shall be the earlier of:

(A) 106 days from the date the audited financial statements were required to be included in the registration statement; and

(B) The date on which an amended Form 10–K or 10–KSB containing audited financial statements is filed in accordance with Release No. 34–45589 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov); and

(iii) If the issuer is a registered investment company, the date shall be the earlier of:

(A) 6 months after the close of the fiscal year of the issuer; and

(B) The date on which an amended annual report to shareholders containing audited financial statements is filed in accordance with Release No. IC–25463 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov).

(c) This temporary note will expire on December 31, 2002.

Temporary Note 2T: (a) This temporary note applies to any issuer that provides unaudited financial statements in a filing in reliance on Release No. 34–45589 (March 18, 2002) or Release Nos. IA–2017 and IC–25463 (March 18, 2002) (each of which may be viewed on the Commission's website at www.sec.gov) or a temporary rule adopted in Release 33–8070 (March 18, 2002) published on March 22, 2002, in the **Federal Register**. The guidance provided by this note is intended to assist issuers in meeting their disclosure obligations under the federal securities laws. The exact content of each issuer's disclosure may vary depending on the facts and circumstances applicable to each of Arthur Andersen LLP's (or a foreign affiliate of Arthur Andersen LLP's) former public company audit clients. To the extent this note requires disclosure on the cover page of a filing, if the subject filing does not have a cover page, present this information as a preface to the disclosure presented in response to the form.

(b) The issuers for which this temporary note applies must provide on the cover page of their filings a prominent statement that the filing includes unaudited financial statements in lieu of audited financial statements because the issuer was unable to obtain from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) or elected not to have Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) issue a manually signed audit report in respect of those financial statements and a cross-reference to additional information contained in the filing.

(c) The issuer for which this temporary note applies also shall provide the prominent statement referred to in paragraph (b) of this note in the filing immediately before the financial statements and shall also disclose:

(1) A statement as to when and how the issuer intends to provide the audited financial statements; and

(2) A statement that no auditor has opined that the unaudited financial statements present fairly, in all material respects, the financial position, the results of operations, cash flows and the changes in shareholders' equity of the company (and, in the case of a registered investment company, the financial highlights) for each of the periods reported in accordance with generally accepted accounting principles.

(d) Further, any audit report previously issued by Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) that is required to be included in a filing should be included as required.

(e) This temporary note will expire on December 31, 2002.

Temporary Note 3T: (a) This temporary note applies to any issuer that provides audited financial statements with an accountant's report issued by Arthur Andersen LLP or a foreign affiliate of Arthur Andersen LLP ("Andersen") after March 14, 2002 in a filing. The exact content of each issuer's disclosure may vary depending on the facts and circumstances applicable to each of Andersen's public company audit clients.

(b) The issuers for which this temporary note applies must include as an exhibit (under Exhibit 99) to their filing a letter by the issuer addressed to the Commission that states that Andersen has represented to the issuer that the audit was subject to Andersen's quality control system for the U.S. accounting and auditing practice to provide reasonable assurance that the engagement was conducted in compliance with professional standards and that there was appropriate continuity of Andersen personnel working on audits, availability of national office consultation and availability of personnel at foreign affiliates of Andersen to conduct the relevant portions of the audit.

(c) This temporary note will expire on December 31, 2002.

PART 228—INTEGRATED DISCLOSURE SYSTEM FOR SMALL BUSINESS ISSUERS

4. The authority citation for Part 228 is revised to read as follows:

Authority: 15 U.S.C. 77e, 77f, 77g, 77h, 77j, 77k, 77s, 77z–2, 77z–3, 77aa(25), 77aa(26), 77ddd, 77eee, 77ggg, 77hhh, 77jjj, 77nnn, 77sss, 78l, 78m, 78n, 78o, 78u–5, 78w, 78*ll*, 78mm, 80a–8, 80a–29, 80a–30, 80a–37 and 80b–11.

5. By adding § 228.304T to read as follows:

§ 228.304T (Item 304T) Item 304T of Regulation S–B.

Note: This is a special temporary section that applies to issuers for which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged as the independent public accountant to examine the issuer's financial statements, or for which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged to examine a significant subsidiary's financial statements and on which the principal public accountant expressed reliance in its report, on or after March 14, 2002.

(a) *General rule.* Those issuers for which this Item 304T applies must comply with the requirements of § 228.304, except as indicated in paragraph (b) of this Item 304T.

(b) *Special disclosure standards for issuers to whom this Item 304T applies.* An issuer for which this Item 304T applies may comply with § 228.304(a)(3) in the following manner:

(1) If Arthur Andersen LLP (or the foreign affiliate of Arthur Andersen LLP, if applicable) has already provided the issuer with a letter addressed to the Commission stating whether it agrees with the statements made by the issuer in response to § 228.304, and, if that letter indicates that it does not agree, stating the respects in which it does not agree, the issuer shall file that letter as an exhibit to the report or registration statement containing this disclosure; or

(2) If the issuer has not yet received that letter and cannot obtain it after reasonable efforts, compliance with § 228.304(a)(3) is not required.

(c) This temporary section will expire on December 31, 2002.

6. By amending § 228.310 by adding Temporary Note 1T and Temporary Note 2T after the introductory notes to read as follows:

§ 228.310 (Item 310) Financial Statements.

Notes * * *

Temporary Note 1T: Notwithstanding any other Commission rule or regulation, every registrant meeting the eligibility requirements in paragraph (a) of this note that files a registration statement on Forms SB–1, SB–2, S–3, S–4 or S–8 (§§ 239.9, 239.10, 239.13, 239.25 or 239.16b), or an amendment thereto, that requires audited financial statements for the most recent fiscal year end may file unaudited financial statements in satisfaction of that requirement under the conditions listed in paragraph (b) of this note.

(a) *Eligibility requirements.* An issuer:

(1) That at the time of filing a registration statement is subject to the periodic reporting requirements of Section 13(a) or 15(d) of the Exchange Act (15 U.S.C. §§ 78m(a) or 78o(d));

(2) Whose registration statement will include financial statements:

(i) Of an entity that has a fiscal year ending between and including:

(A) November 30, 2001 and April 15, 2002, if the entity meets all of the conditions in Item 310(g) of Regulation S–B (§ 228.310(g)); or

(B) December 29, 2001 and April 15, 2002, if the entity does not meet all of the conditions in Item 310(g) of Regulation S–B (§ 228.310(g));

(ii) As to the examination of which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged as the independent public accountant on or after March 14, 2002;

(3) That, on or before March 14, 2002, had not obtained a manually signed audit report from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) in respect of those financial statements;

(4) That is unable to obtain from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) or elects not to have Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) issue a manually signed audit report in respect of those financial statements; and

(5) That is not a "blank check company" as defined in § 230.419(a)(2) of this chapter.

(b) *Conditions.*

(1) The issuer's registration statement responds to all items required by the appropriate registration form, but with unaudited financial statements that meet the timeliness requirements of Item 310(g) of Regulation S–B (§ 228.310(g)) for those financial statements as to the examination of which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged as the independent public accountant.

(2) The issuer provides in the registration statement disclosure reflecting the guidance in Temporary Note 2T to Article 3 of Regulation S–X (§§ 210.3–01—3–20 of this chapter).

(3) If the registration statement is not yet effective and it will become effective on or after the date specified in paragraph (b)(4) of this section, the issuer must file a pre-effective amendment or an amendment to a document incorporated by reference, as appropriate, before effectiveness. If the registration statement is effective, the issuer must file either a post-effective amendment or an amendment to a document incorporated by reference, as appropriate, not later than the date specified in paragraph (b)(4) of this note; provided that this filing or amendment need not be made if the offering or offerings have been completed (and any prospectus delivery period under Section 4(3) of the Securities Act of 1933 (15 U.S.C. § 77d(3)) and the rules thereunder has expired) prior to the date specified in paragraph (b)(4) of this note. The filing or amendment shall present:

(i) The financial statements audited by an independent public accountant other than Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP);

(ii) A discussion of any material changes from the unaudited financial statements filed originally; and

(iii) Any other section of the registration statement or documents incorporated by reference that should be updated or revised to reflect the changes in the financial statements so filed by amendment.

(4) For purposes of paragraph (b)(3) of this note:

(i) If the issuer meets all of the conditions of Item 310(g)(2) of Regulation S–B (§ 228.310(g)(2)), the date shall be the earlier of:

(A) 60 days from the date the audited financial statements were required to be included in the registration statement; and

(B) The date on which an amended Form 10–K or 10–KSB containing audited financial statements is filed in accordance with Release No. 34–45589 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov); and

(ii) If the issuer does not meet all of the conditions of Item 310(g)(2) of Regulation S–B (§ 228.310(g)(2)), the date shall be the earlier of:

(A) 106 days from the date the audited financial statements were required to be included in the registration statement; and

(B) The date on which an amended Form 10–K or 10–KSB (§ 249.310 or 249.310b of this chapter) containing audited financial statements is filed in accordance with Release No. 34–45589 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov).

(c) This temporary note will expire on December 31, 2002.

Temporary Note 2T: (a) This temporary note applies to any issuer that provides audited financial statements with an accountant's report issued by Arthur Andersen LLP or a foreign affiliate of Arthur Andersen LLP ("Andersen") after March 14, 2002 in a filing. The exact content of each issuer's disclosure may vary depending on the facts and circumstances applicable to each of Andersen's public company audit clients.

(b) The issuers for which this temporary note applies must include as an exhibit (under Exhibit 99) to their filing a letter by the issuer addressed to the Commission that states that Andersen has represented to the issuer that the audit was subject to Andersen's quality control system for the U.S. accounting and auditing practice to provide reasonable assurance that the engagement was conducted in compliance with professional standards and that there was appropriate continuity of Andersen personnel working on audits, availability of national office consultation and availability of personnel at foreign affiliates of Andersen to conduct the relevant portions of the audit.

* * * * *

7. By adding § 228.601T to read as follows:

§ 228.601T (Item 601T) Item 601T of Regulation S–B.

Any issuer that may rely upon the alternative disclosure requirement of § 228.304T shall comply with § 228.601(b)(16) in the following manner:

(a) If Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) has already provided the issuer with a letter addressed to the Commission stating whether it agrees or disagrees with the statements made by the registrant in response to § 228.304(c), the issuer must comply with § 228.601(b)(16).

(b) If Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) has not provided the issuer with this letter and the issuer cannot obtain it after reasonable efforts, the issuer need not comply with § 228.601(b)(16).

(c) This temporary section will expire on December 31, 2002.

PART 229—STANDARD INSTRUCTIONS FOR FILING FORMS UNDER SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934 AND ENERGY POLICY AND CONSERVATION ACT OF 1975—REGULATION S–K

8. The authority citation for Part 229 is revised to read as follows:

Authority: 15 U.S.C. 77e, 77f, 77g, 77h, 77j, 77k, 77s, 77z–2, 77z–3, 77aa(25), 77aa(26), 77ddd, 77eee, 77ggg, 77hhh, 77iii, 77jjj, 77nnn, 77sss, 78c, 78i, 78j, 78*l*, 78m, 78n, 78o, 78u–5, 78w, 78*ll*(d), 78mm, 79e, 79n, 79t, 80a–8, 80a–29, 80a–30, 80a–31(c), 80a–37, 80a–38(a) and 80b–11, unless otherwise noted.

9. By adding § 229.304T to read as follows:

§ 229.304T (Item 304T) Item 304T of Regulation S–K.

Note: This is a special temporary section that applies to issuers for which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged as the independent public accountant to examine the issuer's financial statements, or for which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged to examine a significant subsidiary's financial statements and on which the principal public accountant expressed reliance in its report, on or after March 14, 2002.

(a) *General rule.* Those issuers for which this Item 304T applies must comply with the requirements of § 229.304, except as indicated in paragraph (b) of this Item 304T.

(b) *Special disclosure standards for issuers to whom this Item 304T applies.* An issuer for which this Item 304T applies may comply with § 229.304(a)(3) in the following manner:

(1) If Arthur Andersen LLP (or the foreign affiliate of Arthur Andersen LLP, if applicable) has already provided the issuer with a letter addressed to the Commission stating whether it agrees with the statements made by the issuer in response to § 229.304, and, if that letter indicates that it does not agree, stating the respects in which it does not agree, the issuer shall file that letter as an exhibit to the report or registration statement containing this disclosure; or

(2) If the issuer has not yet received that letter and cannot obtain it after reasonable efforts, compliance with § 229.304(a)(3) is not required.

(c) This temporary section will expire on December 31, 2002.

10. By adding § 229.601T to read as follows:

§ 229.601T (Item 601T) Item 601T of Regulation S–K.

Any issuer that may rely upon the alternative disclosure requirement of § 229.304T shall comply with § 229.601(b)(16) in the following manner:

(a) If Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) has already provided the issuer with a letter addressed to the Commission stating whether it agrees or disagrees with the statements made by the issuer in response to § 229.304(c), the issuer must comply with § 229.601(b)(16).

(b) If Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) has not provided the issuer with this letter and the issuer cannot obtain it after reasonable efforts, the issuer need not comply with § 229.601(b)(16).

(c) This temporary section will expire on December 31, 2002.

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

11. The general authority citation for Part 230 is revised to read as follows:

Authority: 15 U.S.C. 77b, 77c, 77d, 77f, 77g, 77h, 77j, 77r, 77s, 77sss, 77z–3, 78c, 78d, 78*l*, 78m, 78n, 78o, 78t, 78w, 77*ll*(d), 78mm, 79t, 80a–8, 80a–24, 80a–28, 80a–29, 80a–30 and 80a–37, unless otherwise noted.

* * * * *

12. By adding § 230.401a to read as follows:

§ 230.401a Requirements as to proper form.

With regard to issuers eligible to rely on Release No. 34–45589 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov), the filing of reports in accordance with the provisions of that Release shall result in those reports being "timely filed" for purposes of all form eligibility standards in registration statement forms under the Securities Act of 1933 (15 U.S.C. 77a *et seq.*).

13. By adding § 230.427T to read as follows:

§ 230.427T Information in prospectuses more than nine months after the effective date of the related registration statement.

(a) Notwithstanding the language in Section 10(a)(3) of the Act (15 U.S.C. § 77j(a)(3)), until December 16, 2002, for a registrant that meets the eligibility requirements in paragraph (a)(1) of this section, the audited financial information in a prospectus used more than nine months after the effective date of the registration statement of which that prospectus is a part must be as of a date not more than eighteen months prior to such use; provided that the conditions specified in paragraph (a)(2) of this section are satisfied.

(1) *Eligibility requirements.* A registrant meets the eligibility requirements of this paragraph (a) of this section if:

(i) The registrant has an effective registration statement under the Act that is required to include financial statements for any entity that has a fiscal year ending between and including November 30, 2001 (or, in the case of a registered investment company, January 1, 2002) and April 15, 2002;

(ii) Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged, on or after March 14, 2002, as the independent public accountant to examine those financial statements for that fiscal year;

(iii) On or before March 14, 2002, the registrant had not obtained a manually signed audit report from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) in respect of those financial statements for that fiscal year;

(iv) The registrant is unable to obtain from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) or elects not to have Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) issue a manually signed audit report in respect of those financial statements; and

(v) The registrant is not a "blank check company" as defined in § 230.419(a)(2) of this chapter.

(2) *Conditions.*

(i) A prospectus that is used more than nine months after the effective date of the registration statement of which that prospectus is a part includes unaudited financial information that is as of a date not more than sixteen months prior to such use; provided that the registrant provides in the prospectus disclosure reflecting the guidance in Temporary Note 2T to Article 3 of Regulation S–X (§§ 210.3–01—3–20 of this chapter).

(ii) The audited financial information referred to in paragraph (a)(1)(i) of this section in a prospectus used more than nine months after the effective date of the registration statement of which that prospectus is a part must be audited by an independent public accountant other than Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) and the prospectus must include:

(A) A discussion of any material changes from the unaudited financial information; and

(B) Updated or revised information in any other section of the prospectus or documents incorporated by reference that should be updated or revised to reflect the changes in the audited financial information.

(b) This temporary section will expire on December 31, 2002.

14. By amending § 230.428 by adding Instruction 2T to the Instructions following paragraph (b)(2)(iv) to read as follows:

§ 230.428 Documents constituting a section 10(a) prospectus for Form S–8 registration statement; requirements relating to offerings of securities registered on Form S–8.

* * * * *

(b) * * *

(2) * * *

(iv) * * *

Instructions.

* * * * *

2T. With regard to issuers that are eligible to rely on and are electing to comply with Release No. 34–45589 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov) or a temporary rule adopted in Release 33–8070 (March 18, 2002) published on March 22, 2002, in the **Federal Register**, until September 13, 2002 (or December 16, 2002 with respect to foreign private issuers), if the latest fiscal year has ended within 180 days (or 250 days with respect to foreign private issuers) prior to the delivery of documents containing the information specified by Part I of Form S–8 (§ 239.16b of this chapter), the issuer may deliver a document containing financial statements for the fiscal year preceding the latest fiscal year, provided that within the 180 or 250 day period a document containing financial statements for the latest fiscal year is furnished to each employee. This temporary instruction will expire on December 31, 2002.

* * * * *

15. By adding § 230.437a to read as follows:

§ 230.437a Written consents.

(a) This section applies only to registrants that:

(1) Are not a "blank check company" as defined in § 230.419(a)(2); and

(2) Are filing a registration statement containing financial statements in which Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been acting as the independent public accountant.

(b) Notwithstanding any other Commission rule or regulation, every registrant eligible to rely on this section may dispense with the requirement for the registrant to file the written consent of Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) as required by Section 7 of the Act (15 U.S.C. 77g) where:

(1) The registrant has not already obtained the written consent that would be required if not for this section;

(2) The registrant is not able to obtain the written consent after reasonable efforts; and

(3) The registrant discloses clearly any limitations on recovery by investors posed by the lack of consent.

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

16. The authority citation for Part 240 continues to read in part as follows:

Authority: 15 U.S.C. 77c, 77d, 77g, 77j, 77s, 77z–2, 77z–3, 77eee, 77ggg, 77nnn, 77sss, 77ttt, 78c, 78d, 78e, 78f, 78g, 78i, 78j, 78j–1, 78k, 78k–1, 78*l*, 78m, 78n, 78o, 78p, 78q, 78s, 78u–5, 78w, 78x, 78*ll*, 78mm, 79q, 79t, 80a–20, 80a–23, 80a–29, 80a–37, 80b–3, 80b–4 and 80b–11, unless otherwise noted.

* * * * *

17. By adding § 240.12b–37 to read as follows:

§ 240.12b–37 Satisfaction of filing requirements.

With regard to issuers eligible to rely on Release No. 34–45589 (March 18, 2002) or Release No. IC–25463 (March 18, 2002) (each of which may be viewed on the Commission's website at www.sec.gov), filings made in accordance with the provisions of those Releases shall satisfy the issuer's requirement to make such a filing under Section 13(a), 14 or 15(d) of the Act (15 U.S.C. 77m(a), 78n or 78o(d)), as applicable, and the Commission's rules and regulations thereunder.

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

18. The authority citation for Part 249 continues to read in part as follows:

Authority: 15 U.S.C. 78a *et seq.*, unless otherwise noted.

* * * * *

19. By amending Form 20–F (referenced in § 249.220f) by adding General Instruction A–T1. and General Instruction A–T2. after General Instruction A. to read as follows:

Note: Form 20–F does not, and this amendment will not, appear in the Code of Federal Regulations.

United States

Securities and Exchange Commission

Washington, D.C. 20549

Form 20–F

* * * * *

General Instructions

A. * * *

* * * * *

A–T1. Temporary Instructions Relating to Certain Financial Statements.

Notwithstanding any other Commission rule or regulation, every foreign private issuer meeting the eligibility requirements in paragraph (a) of this instruction that files a registration statement on Forms F–1, F–2, F–3, F–4 or S–8, or an amendment thereto, that requires audited financial statements for the most recent fiscal year end may file unaudited financial statements in satisfaction of that requirement under the conditions listed in paragraph (b) of this instruction.

(a) *Eligibility Requirements.* A foreign private issuer:

(1) That at the time of filing a registration statement is subject to the periodic reporting requirements of Section 13(a) or 15(d) of the Exchange Act;

(2) Whose registration statement will include audited financial statements of an entity that has a fiscal year ending between and including November 30, 2001 and April 15, 2002 as to the examination of which Arthur Andersen LLP or a foreign affiliate of Arthur Andersen LLP had been engaged as the independent public accountant on or after March 14, 2002, unless the foreign private issuer fits within Instruction 2 to Item 8 of Form 20–F, in which case the fiscal year can be between August 31, 2001 and April 15, 2002;

(3) That, on or before March 14, 2002, had not obtained a manually signed audit report from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) in respect of those financial statements;

(4) That is unable to obtain from Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) or elects not to have Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) issue a manually signed audit

report in respect of those financial statements; and

(5) That is not a "blank check company" as defined in Securities Act Rule 419(a)(2) (§ 230.419(a)(2) of this chapter).

(b) *Conditions.*

(1) The foreign private issuer's registration statement responds to all items required by the appropriate registration form, but with unaudited financial statements that meet the required timeliness requirements for those financial statements as to the examination of which Arthur Andersen LLP or a foreign affiliate of Arthur Andersen LLP had been engaged as the independent public accountant (including an unaudited reconciliation to U.S. generally accepted accounting principles (GAAP) pursuant to Item 17(c) of Form 20–F if the foreign private issuer prepares its financial statements on a basis of accounting other than U.S. GAAP).

(2) The foreign private issuer provides in the registration statement disclosure reflecting the guidance in Temporary Note 2T of Article 3 of Regulation S–X (17 CFR 210.3–01 " 3–20).

(3) If the registration statement is not yet effective and it will become effective on or after the date specified in paragraph (b)(4) of this instruction, the foreign private issuer must file a pre-effective amendment or an amendment to a document incorporated by reference, as appropriate, before effectiveness. If the registration statement is effective, the foreign private issuer must file either a post-effective amendment to the registration statement or an amendment to a document incorporated by reference, as appropriate, not later than the date specified in paragraph (b)(4) of this instruction; provided that this filing or amendment need not be made if the offering or offerings have been completed (and any prospectus delivery period under Section 4(3) of the Securities Act of 1933 (15 U.S.C. 77d(3)) and the rules thereunder has expired) prior to the date specified in paragraph (b)(4) of this instruction. The filing or amendment shall present:

(i) The financial statements audited by an independent public accountant other than Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP);

(ii) If Arthur Andersen LLP (or a foreign affiliate of Arthur Andersen LLP) had been engaged as the independent public accountant to examine the registrant's financial statements, selected financial data required by Item 3(a) of Form 20–F based on the audited financial statements;

(iii) A discussion of any material changes from the unaudited financial statements filed originally; and

(iv) Any other section of the registration statement or Form 20–F that should be updated or revised to reflect the changes in the financial statements so filed by amendment.

(4) For purposes of paragraph (b)(3) of this instruction, the date shall be the earlier of:

(i) 60 days from the date the audited financial statements were required to be included in the registration statement; and

(ii) The date on which an amended Form 20–F containing audited financial statements is filed in accordance with Release No. 34–45589 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov).

(c) This temporary instruction will expire on December 31, 2002.

A–T2. Temporary Instructions Relating to Certain Financial Statements

(a) This temporary note applies to any foreign private issuer that provides audited financial statements with an accountant's report issued by Arthur Andersen LLP or a foreign affiliate of Arthur Andersen LLP ("Andersen") after March 14, 2002 in a filing. The exact content of each foreign private issuer's disclosure may vary depending on the facts and circumstances applicable to each of Andersen's public company audit clients.

(b) The foreign private issuers for which this temporary note applies must include as an exhibit (under Exhibit 99) to their filing a letter by the foreign private issuer addressed to the Commission that states that Andersen has represented to the foreign private issuer that the audit was subject to Andersen's quality control system for the U.S. accounting and auditing practice to provide reasonable assurance that the engagement was conducted in compliance with professional standards and that there was appropriate continuity of Andersen personnel working on audits, availability of national office consultation and availability of personnel at foreign affiliates of Andersen to conduct the relevant portions of the audit.

(c) This temporary note will expire on December 31, 2002.

PART 260—GENERAL RULES AND REGULATIONS, TRUST INDENTURE ACT OF 1939

20. The authority citation for Part 260 continues to read as follows:

Authority: 15 U.S.C. 77eee, 77ggg, 77nnn, 77sss, 78*ll*(d), 80b–3, 80b–4, and 80b–11.

21. By adding § 260.19a–1 to read as follows:

§ 260.19a–1 Compliance with Section 314(a)(1) of the Trust Indenture Act for certain eligible indenture obligors.

(a) This section is applicable only to an "eligible indenture obligor" as defined in paragraph (b) of this section.

(b) For purposes of paragraph (c) of this section, an "eligible indenture obligor" is any obligor that:

(1) Is required to file reports with the Commission pursuant to Section 13 or Section 15(d) of the Securities Exchange of 1934 (15 U.S.C. §§ 78m or 78o(d)) (the "Exchange Act"); and

(2) May rely on any of the provisions of Release No. 34–45589 (March 18, 2002) (which may be viewed on the Commission's website at www.sec.gov) with regard to the filing of reports with the Commission pursuant to Section 13 or Section 15(d) of the Exchange Act (14 U.S.C. 78m or 78o(d)).

(c) An "eligible indenture obligor" that files with the indenture trustee those Exchange Act reports filed with the Commission in accordance with the Release referred to in paragraph (b)(2) of this section has met its duty under Section 314(a)(1) of the Act (15 U.S.C. 77nn(a)(1)) to "file with the indenture trustee all reports required to be filed with the Commission pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934."

By the Commission.

Dated: March 18, 2002.

Margaret H. McFarland,

Deputy Secretary.

Note: Appendices A, B and C to the preamble will not appear in the Code of Federal Regulations.

Appendix A

United States of America Before the Securities and Exchange Commission

Securities Exchange Act of 1934

Release No. 34–45589/March 18, 2002

Order Under Section 36 of the Securities Exchange Act of 1934 Granting Exemptions From Certain Provisions of the Act and Rules Thereunder

To assure a continuing and orderly flow of information to investors and the U.S. capital markets and to minimize any potential disruptions that may occur in light of the circumstances surrounding Arthur Andersen LLP ("Andersen"), the Commission finds that the exemptions set forth below are necessary and appropriate in the public interest and consistent with the protection of investors.[1]

I. Accordingly, *it is ordered*, pursuant to Section 36 of the Securities Exchange Act of 1934 (the "Exchange Act"), that any one or more of theprovisions of Section I. of this order shall apply to any issuer:

- Whose report, registration statement, amendment or other documents referenced in this order will include financial statements the examination or review of which Andersen (or a foreign affiliate of Andersen) had been engaged, on or after March 14, 2002, as the independent public accountant;
- That, on or before March 14, 2002, had not obtained a manually signed audit report from Andersen (or a foreign affiliate of Andersen) in respect of those financial statements (or a review report in the case of interim financial statements);
- That is unable to obtain from Andersen (or a foreign affiliate of Andersen) or elects not to have Andersen (or a foreign affiliate of Andersen) issue a manually signed audit report in respect of those financial statements (or a review in the case of interim financial statements); and

[1] The Commission is also publishing today a separate release modifying, in a manner appropriate for the protection of investors, the requirements for including audited financial statements in registration statements under the Securities Act of 1933 and filings required by the Trust Indenture Act of 1939. See Release No. 33–8070 (March 18, 2002).

- That is not a "blank check company" as defined in Rule 419(a)(2) under the Securities Act of 1933.

The review referenced above is a review in accordance with Rule 10–01(d) of Regulation S–X (or Item 310(b) of Regulation S–B for small business issuers, as defined in Item 10(a)(1) of Regulation S–B).

1. *Annual Reports on Form 10–K/Form 10–KSB.* Notwithstanding any other Commission rule or regulation, an issuer that has a fiscal year ending between and including November 30, 2001 and April 15, 2002 that is required to file an annual report on Form 10–K or Form 10–KSB may file its annual report for that fiscal year under the conditions below.

Conditions.

(a) The issuer timely files its annual report on Form 10–K or Form 10–KSB within the period specified in the appropriate form (including any additional period for filing the report if the issuer relies on Exchange Act Rule 12b–25) responding to all items required by the appropriate form, but with unaudited financial statements for those financial statements as to the examination of which Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant;

(b) The issuer provides the disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X in the report; and

(c) The issuer files an amendment to the report within 60 days of the original due date of the report (excluding any additional period for filing the original report if the issuer relied on Exchange Act Rule 12b–25 for the filing of that report), that presents:

(1) The financial statements audited by an independent public accountant other than Andersen (or a foreign affiliate of Andersen);

(2) If the original filing was on Form 10–K and Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant to examine the issuer's financial statements, selected financial data required by Item 6 of Form 10–K based on the audited financial statements;

(3) A discussion of any material changes from the unaudited financial statements filed originally; and

(4) Any other section of the annual report that should be amended, including without limitation, Management's Discussion and Analysis of Financial Condition and Results of Operations, to reflect any changes in the financial statements so filed by amendment.

2. *Quarterly Reports on Form 10–Q/Form 10–QSB.* Notwithstanding any other Commission rule or regulation, an issuer that has a fiscal quarter ending between and including January 26, 2002 and June 15, 2002 that is required to file quarterly reports on Form 10–Q or Form 10–QSB may file its quarterly report for those fiscal quarters under the conditions listed below.

Conditions.

(a) The issuer timely files its quarterly report on Form 10–Q or Form 10–QSB within the period specified in the appropriate form (including any additional period for filing the report if the issuer relies on Exchange Act Rule 12b–25) responding to all items required by the appropriate form, but with interim financial statements that have not been reviewed by an independent public accountant in accordance with Rule 10–01(d) of Regulation S–X (or Item 310(b) of Regulation S–B for issuers filing on Form 10–QSB);

(b) The issuer provides disclosure in the report similar to that reflected in the guidance included in Temporary Note 2T to Article 3 of Regulation S–X, as applicable;

(c) If upon completion of the review by an independent public accountant in accordance with Rule 10–01(d) of Regulation S–X (or Item 310(b) of Regulation S–B for issuers filing on Form 10–QSB) there is a change to the interim financial statements, the issuer must file an amendment to the report upon completion of the review presenting:

(1) The interim financial statements reviewed by an independent public accountant other than Andersen (or a foreign affiliate of Andersen);

(2) A discussion of any material changes from the unreviewed financial statements filed originally; and

(3) Any other section of the quarterly report that should be amended, including without limitation, Management's Discussion and Analysis of Financial Condition and Results of Operations, to reflect any changes in the financial statements so filed by amendment; and

(d) If upon completion of the review there is not a change to the interim financial statements, the issuer must state in its quarterly report for the immediately succeeding fiscal quarter that the interim financial statements for the previous quarter had subsequently been reviewed by an independent public accountant other than Andersen (or a foreign affiliate of Andersen), but no report of that independent public accountant need be presented.

3. *Annual Reports on Form 20–F.* Notwithstanding any other Commission rule or regulation, a foreign private issuer that has a fiscal year ending between and including August 31, 2001 and April 15, 2002 that is required to file an annual report on Form 20–F may file its annual report on Form 20–F for that fiscal year under the conditions listed below.

Conditions.

(a) The foreign private issuer timely files its annual report on Form 20–F within the period specified in Form 20–F (including any additional period for filing the report if the foreign private issuer relies on Exchange Act Rule 12b–25) responding to all items required by Form 20–F, but with unaudited financial statements for those financial statements as to the examination of which either Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant (including an unaudited reconciliation to U.S. generally accepted accounting principles (GAAP) pursuant to Item 17(c) of Form 20–F if the foreign private issuer prepares its financial statements on a basis of accounting other than U.S. GAAP);

(b) The foreign private issuer provides disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X in the report; and

(c) The foreign private issuer files an amendment to the report within 60 days of the original due date of the report (excluding any additional period for filing the original report if the issuer relied on Exchange Act Rule 12b–25 for the filing of that report), that presents:

(1) The financial statements audited by an independent public accountant other than Andersen (or a foreign affiliate of Andersen);

(2) If Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant to examine the foreign private issuer's financial statements, selected financial data required by Item 3.A. of Form 20–F (including any reconciliation of that data to U.S. GAAP and Regulation S–K if required by Instruction 2 to Item 3.A. of Form 20–F) based on the audited financial statements;

(3) A discussion of any material changes from the unaudited financial statements or unaudited reconciliation filed originally; and

(4) Any other section of the annual report that should be amended, including without limitation, the Operating and Financial Review and Prospects required by Item 5 of Form 20–F, to reflect any changes in the financial statements so filed by amendment.

4. *Rule 12b–25.* Notwithstanding any other Commission rule or regulation, an issuer that files a Notification of Late Filing on Form 12b–25 for its annual report on Form 10–K or Form 10–KSB for its fiscal year ending between and including November 30, 2001 and April 15, 2002, its annual report on Form 20–F for its fiscal year ending between and including August 31, 2001 and April 15, 2002, its annual report on Form N–SAR for its fiscal year ending between and including December 15, 2001 and April 15, 2002 or its quarterly report on Form 10–Q or Form 10–QSB for its fiscal quarter ending between and including January 26, 2002 and June 15, 2002 need not attach as an exhibit a statement by Andersen (or a foreign affiliate of Andersen) as required by Exchange Act Rule 12b–25(c) if such statement cannot be obtained by the issuer after reasonable efforts.

5. *Schedules 14A and 14C.* Notwithstanding any other Commission rule or regulation, every issuer that files either a Schedule 14A or Schedule 14C that requires audited financial statements of an entity with a fiscal year ending between and including:

(i) November 30, 2001 and April 15, 2002, if the entity meets all of the conditions in Rule 3–01(c) of Regulation S–X (or Item 310(g) of Regulation S–B if the entity is a small business issuer), (ii) December 29, 2001 and April 15, 2002, if the entity does not meet all of the conditions in Rule 3–01(c) of Regulation S–X (or Item 310(g) of Regulation S–B if the entity is a small business issuer), or (iii)January 1, 2002 and April 15, 2002, if the entity is a registered investment company, may file unaudited financial statements in satisfaction of that requirement under the conditions listed below.

Conditions.

(a) The issuer sends its proxy statement or information statement on or before September 13, 2002 (or, in the case of an issuer that is a registered investment company, on or before August 13, 2002);

(b) The issuer's proxy statement or information statement responds to all items

required by Schedule 14A or Schedule 14C (taking into account paragraph I.6. below), but with unaudited financial statements for those financial statements as to the examination of which Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant;

(c) The issuer provides in the proxy statement or information statement disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X;

(d) The issuer must file either revised materials or amended documents incorporated by reference, as appropriate, not later than the date specified in paragraph I.5.(e) below, provided that this filing or amendment need not be made if the solicitation or corporate action has been completed by that date. Such filing or amended document shall present:

(1) The financial statements audited by an independent public accountant other than Andersen (or a foreign affiliate of Andersen);

(2) If Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant for the issuer's financial statements, selected financial data required by Item 301 of Regulation S–K based on the audited financial statements if this information would otherwise have been required in the proxy statement or information statement;

(3) A discussion of any material changes from the unaudited financial statements filed originally; and

(4) Any other section of the revised materials or filings incorporated by reference that should be updated or revised to reflect any changes in the financial statements contained in the revised materials or amended documents; and

(e) For purposes of paragraph I.5.(d) above:

(1) If the issuer meets all of the conditions in Rule 3–01(c) of Regulation S–X (or Item 310(g)(2) of Regulation S–B for small business issuers, as defined in Item 10(a)(1) of Regulation S–B), the date shall be the earlier of (i) 60 days from the date the audited financial statements were required to be included in the proxy statement or information statement and (ii) the date on which an amended Form 10–K or 10–KSB containing audited financial statements is filed in accordance with this Order;

(2) If the issuer does not meet all of the conditions in Rule 3–01(c) of Regulation S–X (or Item 310(g)(2) of Regulation S–B for small business issuers, as defined in Item 10(a)(1) of Regulation S–B), the date shall be the earlier of (i) 106 days from the date the audited financial statements were required to be included in the proxy statement or information statement and (ii) the date on which an amended Form 10–K or 10–KSB containing audited financial statements is filed in accordance with this Order; and

(3) If the issuer is a registered investment company, the date shall be the earlier of (i) 60 days from the date the audited financial statements were required to be in the proxy statement or information statement and (ii) the date on which an amended annual report to shareholders containing audited financial information is filed in accordance with Release No. IC–25463 (March 18, 2002).

6. *Audit Committee Disclosures in Certain Schedules 14A and 14C.* Notwithstanding any other Commission rule or regulation, every issuer that has a fiscal year ending between and including November 30, 2001 and April 15, 2002 that files either a Schedule 14A or Schedule 14C may omit any disclosure required by Item 7(d)(3)(i) and Item 9(e) of Schedule 14A or Item 7(d)(3)(i) and Item 9(e) of Schedule 14A pursuant to Item 1 of Schedule 14C under the conditions listed below.

(a) The issuer sends its proxy statement or information statement on or before September 13, 2002 (or, in the case of an issuer that is a registered investment company, on or before August 13, 2002).

(b) The issuer's proxy statement or information statement responds to all items required by Schedule 14A or Schedule 14C (taking into account paragraph I.5. above, if applicable) other than Items 7(d)(3)(i) and Item 9(e) for Schedule 14A or Item 7(d)(3)(i) and Item 9(e) of Schedule 14A pursuant to Item 1 of Schedule 14C for Schedule 14C.

(c) The issuer has not filed audited financial statements nor amended its Form 10–K or Form 10–KSB pursuant to paragraph I.1. above prior to sending its proxy statement or information statement to shareholders.

(d) The issuer includes information in its amended Form 10–K or Form 10–KSB (or, in the case of a registered investment company, in its amended annual report to shareholders) that responds to Items 7(d)(3)(i) and Item 9(e) of Schedule 14A, if this information would otherwise have been required in the Schedule 14A or Schedule 14C.

7. *Rule 14a–3.* Notwithstanding any other Commission rule or regulation, every issuer that has a fiscal year ending between and including November 30, 2001 and April 15, 2002 that files either a Schedule 14A that relates to an annual meeting of security holders (or a special meeting in lieu of an annual meeting of security holders), or written consent in lieu of such meeting, at which directors are to be elected shall satisfy the requirements in Rule 14a–3 for audited financial statements in the annual report to security holders for that fiscal year under the conditions listed below.

Conditions.

(a) The proxy statement or information statement is sent on or before September 13, 2002;

(b) The issuer's proxy statement responds to all items required by Schedule 14A (taking into account paragraphs I.5. and I.6. above, if applicable);

(c) The issuer's annual report to security holders responds to all items required in the report, but with unaudited financial statements for those financial statements as to the examination of which Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant;

(d) The issuer provides in the annual report to security holders disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X; and

(e) The issuer announces in a press release, at the time it files its Form 10–K or Form 10–KSB (or an amendment thereto) that includes the financial statements audited by an independent public accountant other than Andersen (or a foreign affiliate of Andersen), that these financial statements are available and may be found in that filing on the Commission's website at *www.sec.gov* and on the issuer's website, citing the address, if the issuer has a website; provided that this announcement need not be made if the issuer's solicitation or corporate action has been completed prior to the time these audited financial statements are filed.

8. *Rule 14c–3.* Notwithstanding any other Commission rule or regulation, every issuer that has a fiscal year ending between and including November 30, 2001 and April 15, 2002 that files a Schedule 14C that relates to an annual meeting of security holders (or a special meeting in lieu of an annual meeting of security holders), or written consent in lieu of such meeting, at which directors are to be elected shall satisfy the requirements in Rule 14c–3 for audited financial statements in the annual report to security holders for that fiscal year under the conditions listed below.

Conditions.

(a) The proxy statement or information statement is sent on or before September 13, 2002;

(b) The issuer's information statement responds to all items required by Schedule 14C (taking into account paragraphs I.5. and I.6. above, if applicable);

(c) The issuer's annual report to security holders responds to all items required in the report, but with unaudited financial statements for those financial statements as to the examination of which Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant;

(d) The issuer provides in the annual report to security holders disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X; and

(e) The issuer announces in a press release, at the time it files its Form 10–K or Form 10–KSB (or an amendment thereto) that includes the financial statements audited by an independent public accountant other than Andersen (or a foreign affiliate of Andersen), that these financial statements are available and may be found in that filing on the Commission's website at *www.sec.gov* and on the issuer's website, citing the address, if the issuer has a website; provided that this announcement need not be made if the issuer's solicitation or corporate action has been completed prior to the time these audited financial statements are filed.

9. *Schedules TO.* Notwithstanding any other Commission rule or regulation, every issuer whose Schedule TO requires audited financial statements of an entity with a fiscal year ending between and including November 30, 2001 and April 15, 2002 may file the Schedule TO with unaudited financial statements in satisfaction of that requirement under the conditions listed below.

Conditions.

(a) The issuer files its Schedule TO on or before September 13, 2002;

(b) The offering materials respond to all items required by Schedule TO, but with unaudited financial statements for those financial statements as to the examination of which Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant;

(c) The issuer provides in the offering materials disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X; and

(d) The issuer must either file revised materials or amend documents incorporated by reference to provide the financial statements audited by an independent public accountant other than Andersen (or a foreign affiliate of Andersen) not later than the earlier of (i) 60 days from the date the audited financial statements were required to be included in the Schedule TO and (ii) the date on which an amended Form 10–K or 10–KSB (or, in the case of a registered investment company, annual report to shareholders) containing audited financial statements is filed in accordance with this Order; provided that such filing or amendment shall not be required if the tender offer has been completed by such date. The revised materials or the periodic report which satisfies this requirement through incorporation by reference, must present:

(1) Those audited financial statements;

(2) If Andersen (or a foreign affiliate of Andersen) had been engaged originally as the independent public accountant for the issuer's financial statements, selected financial data required by Item 301 of Regulation S–K based on the audited financial statements;

(3) A discussion of any material changes from the unaudited financial statements filed originally; and

(4) Any other section of the revised materials or filings incorporated by reference that should be updated or revised to reflect any changes in the financial statements contained in the revised materials or amended documents.

II. *It is further ordered,* pursuant to Section 36 of the Exchange Act, that:

1. *Employee Benefit Plan Annual Reports on Form 11–K.* Notwithstanding any other Commission rule or regulation, employee stock purchase, savings and similar plans meeting the requirements in paragraph II.1.(a) below that are required to file annual reports on Form 11–K may file their annual report on Form 11–K for their fiscal year ending between and including November 30, 2001 and April 15, 2002 under the conditions listed in paragraph II.1.(b) below.

(a) *Eligibility Requirements.* This paragraph II.1. applies to an employee stock purchase, savings or similar plan:

(1) That is subject to Section 15(d) of the Exchange Act;

(2) That is not subject to the Employee Retirement Income Security Act of 1974;

(3) That has a fiscal year ending between and including November 30, 2001 and April 15, 2002;

(4) Whose report for such period will include financial statements as to the examination of which Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant on or after March 14, 2002;

(5) That, on or before March 14, 2002, had not obtained a manually signed audit report from Andersen (or a foreign affiliate of Andersen) in respect of those financial statements;

(6) That is unable to obtain from Andersen (or a foreign affiliate of Andersen) or elects not to have Andersen (or a foreign affiliate of Andersen) issue a manually signed audit report in respect of those financial statements; and

(7) Where the issuer of the stock or other securities offered to employees through their participation in the plan is not a "blank check company" as defined in Rule 419(a)(2) under the Securities Act of 1933.

(b) *Conditions.*

(1) The plan timely files its annual report on Form 11–K within the period specified in Form 11–K (including any additional period for filing the report if the plan relies on Exchange Act Rule 12b–25) responding to all items required by Form 11–K, but with unaudited plan financial statements for those financial statements as to the examination of which Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant;

(2) The plan provides the disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X in the report;

(3) The plan files an amendment to the report within 60 days of the original due date for filing (excluding any additional period for filing the original report if the issuer relied on Exchange Act Rule 12b–25 for the filing of that report), that presents:

(i) The financial statements audited by an independent public accountant other than Andersen (or a foreign affiliate of Andersen);

(ii) A discussion of any material changes from the unaudited financial statements filed originally; and

(iii) Any other section of the annual report that should be amended to reflect any changes in the financial statements so filed by amendment.

(4) Notwithstanding paragraphs II.1.(b)(1)–(3) above, if the plan elects to use the alternative filing procedure in Exchange Act Rule 15d–21:

(i) Unaudited plan financial statements as to the examination of which Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant must be filed in the annual report on Form 10–K, Form 10–KSB or U5S of the issuer, or an amendment thereto, within 120 days after the end of the fiscal year of the plan;

(ii) The issuer provides the disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X in the report with respect to the plan;

(iii) An amendment must be filed to such report within 180 days after the end of the fiscal year of the plan, presenting:

(A) The audited financial statements that would have been required for the plan where Andersen (or a foreign affiliate of Andersen) had been engaged as the independent public accountant;

(B) A discussion of any material changes from the unaudited financial statements filed originally; and

(C) Any other section of the annual report related to the plan that should be amended including without limitation Management's Discussion and Analysis of Financial Condition and Results of Operations, to reflect any changes in the financial statements so filed by amendment; and

(iv) Notwithstanding paragraphs II.1.(b)(4)(i)–(iii) above, a plan whose fiscal year ends within 62 days prior to the end of the fiscal year of the issuer may elect to file the audited plan financial statements as a part of the issuer's next annual report pursuant to Exchange Act Rule 15d–21(b).

2. *Rule 12b–25.* Notwithstanding any other Commission rule or regulation, every plan meeting the eligibility requirements in paragraph II.1.(a) above that files a Notification of Late Filing on Form 12b–25 for its annual report on Form 11–K for its fiscal year ending between and including November 30, 2001 and April 15, 2002 need not attach as an exhibit a statement by Andersen (or a foreign affiliate of Andersen) as required by Exchange Act Rule 12b–25(c) if such statement cannot be obtained by the issuer after reasonable efforts.

III. *It is further ordered,* pursuant to Section 36 of the Exchange Act, that:

1. *Rule 17a–5.* A registered broker-dealer with a contractual commitment from Andersen (or a foreign affiliate of Andersen) to conduct the broker-dealer's annual audit pursuant to Exchange Act Rule 17a–5(d) as of a date between and including January 14, 2002 and April 15, 2002, and for which the manually signed audit report has not been received on or before March 14, 2002, may (i) file its audited financial statements within 60 days after the date the statements would otherwise have been required to have been filed under Exchange Act Rule 17a–5(d)(5); and (ii) comply with the requirements of Exchange Act Rule 17a–5(c)(2) by furnishing unaudited statements to customers and other persons set forth in Exchange Act Rule 17a–5(c)(1) within 105 days after the date as of which audited statements were to have been prepared. The unaudited statements shall contain the information specified in Exchange Act Rule 17a–5(c)(2)(i) and (c)(2)(ii).

2. *Rule 17Ad–13.* A registered transfer agent with a contractual commitment from Andersen (or a foreign affiliate of Andersen) to prepare a report concerning the transfer agent's system of internal accounting control and related procedures for the transfer of record ownership and the safeguarding of related securities and funds pursuant to Exchange Act Rule 17Ad–13(a), and for which the manually signed report has not been received on or before March 14, 2002, may file the report pursuant to such paragraph within 60 days after the date the report otherwise would have been required to have been filed.

Appendix B

United States of America Before the Securities and Exchange Commission

Investment Company Act of 1940

Release No. IC-25463/March 18, 2002

Investment Advisers Act of 1940

Release No. IA-2017/March 18, 2002

Order Under Sections 6(b), 6(c), and 38(a) of the Investment Company Act of 1940 and Sections 206A and 211(a) of the Investment Advisers Act of 1940 Granting Exemptions From Certain Provisions of the Acts and Rules Thereunder

To assure a continuing and orderly flow of information to investors and the U.S. capital markets and to minimize any potential disruptions that may occur in light of the circumstances surrounding Arthur Andersen LLP ("Andersen"), the Commission finds that the exemptions set forth below:

- Are necessary and appropriate to the exercise of the powers conferred on it by the Investment Company Act of 1940 (Company Act) and Investment Advisers Act of 1940 (Advisers Act); and
- Are necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Company Act and Advisers Act.[1]

The necessity for immediate action of the Commission does not permit prior notice of the Commission's action.

Accordingly, IT IS ORDERED, pursuant to Sections 6(b), 6(c), and 38(a) of the Company Act and Sections 206A and 211(a) of the Advisers Act:

I. Selection of Auditors by Investment Companies

1.(a) A registered management investment company, registered face amount certificate company or a business development company:

(i) Whose financial statements for its last fiscal year were audited by Andersen, had not selected its independent public accountant on or before March 14, 2002, and whose fiscal year ends on or before April 15, 2002, is exempt from the requirement of Section 32(a) of the Company Act and Rule 32a–3 thereunder that such company select its independent public accountant within the time periods specified by Section 32(a) or rule 32a–3, provided that it selects its independent public accountant other than Andersen no later than 60 days after it otherwise would have been required to select the independent public accountant; or

(ii) That had selected Andersen as its independent accountant on or before March 14, 2002, and terminates the appointment may, notwithstanding any provision of Section 32(a), select another independent public accountant by vote of a majority of those members of the board of directors who are not interested persons of the registered investment company.

(b) A registered management investment company, registered face amount certificate company or a business development company that selects an independent public accountant pursuant to paragraph I.1.(a) of this Order is exempt from the provisions of Section 32(a) that require that the selection be made by a vote of a majority of those members of the board of directors who are not interested persons, cast in person at a meeting called for that purpose, provided that such votes are instead cast at a meeting in which directors may participate by any means of communicating that allows all directors participating to communicate with each other simultaneously during the meeting.

II. Custody of Investment Company Assets

1. *Self-Custody.* A registered management investment company or business development company having a fiscal year ending between and including January 1, 2002 and April 15, 2002, and which has engaged Andersen for the purpose of verifying assets pursuant to Rule 17f–2, 6e–2 or 6e–3(T) under the Company Act and elects to terminate such engagement is exempt from the requirement of those rules that an independent public accountant conduct an actual examination of such assets at least three times during the company's fiscal year, provided the examinations required by the rules are conducted by an independent public accountant other than Andersen no later than 60 days from the date they were required to be conducted.

2. *Custody with a Member of a National Securities Exchange.* A registered management investment company or business development company having a fiscal year ending between and including January 1, 2002 and April 15, 2002 that has engaged Andersen for the purpose of verifying assets held with a member of a national securities exchange pursuant to Rule 17f–1 under the Company Act and elects to terminate such engagement is exempt from the requirement that an independent public accountant conduct an examination of such assets at the end of the annual fiscal period, semiannual fiscal period and at a time chosen by the accountant, provided that:

(a) The actual examinations are conducted by an independent public accountant other than Andersen no later than 60 days after the date they were required to be conducted; and

(b) In the case of a semiannual or annual verification, the assets are verified as of the end of the annual or semiannual fiscal period.

III. Reports and Registration Statements by Investment Companies

1. The relief provided in Section III of this order shall apply to a registered investment company:

(a) Whose report, registration statement, or amendments referenced in this order will include financial statements or are based on financial statements the examination of which Andersen had been engaged, on or after March 14, 2002, as the independent public accountant;

(b) That, on or before March 14, 2002, had not obtained a manually signed audit report from Andersen in respect of those financial statements; and

(c) That is unable to obtain from Andersen or elects not to have Andersen issue a manually signed audit report in respect of those financial statements.

2. *Annual Reports on Form N–SAR.* A registered management investment company or a unit investment trust having a fiscal year ending between and including December 15, 2001 and April 15, 2002 is exempt from the requirement of Rule 30a–1 under the Company Act to file an annual report to the Commission on Form N–SAR containing financial information based upon audited financial information and without a report of independent accountants on internal controls, provided that such company or trust:

(a) Files Form N–SAR within 60 days of the end of its fiscal year (or 75 days in the case of a company or trust relying on Rule 12b–25 under the Securities Exchange Act of 1934 ("Exchange Act")) responding to all items required by the form, but with financial information based upon unaudited financial statements, and includes disclosure in an exhibit to the form explaining that financial information in the report is based upon unaudited financial statements because the company or trust was unable to receive services from Andersen or chose not to have Andersen complete those audits; and

(b) Files an amendment to its Form N–SAR no later than 60 days from the date it was required to file Form N–SAR (excluding any additional time period for filing the additional report if the company or trust relied upon Rule 12b–25 under the Exchange Act for the filing of that report) that contains (i) financial information based upon financial statements audited by an independent public accountant other than Andersen, (ii) a report of independent accountants on internal controls issued by an independent public accountant other than Andersen, and (iii) an exhibit that provides a discussion of any material changes from the financial information based upon the unaudited financial statements filed originally and identifies the items of the company's or trust's Form N–SAR that were revised as a result of the amendment.

3. *Annual Reports to Shareholders.* A registered management investment company or a unit investment trust having a fiscal year ending between and including January 1, 2002 and April 15, 2002, is exempt from the requirement of Rule 30e–1 under the Company Act (and registration forms to which the Rule refers) to transmit to each shareholder of record an annual report containing audited financial statements, provided that the company or trust:

(a) Transmits to its shareholders within 60 days after the close of its fiscal year (and files with the Commission no later than 10 days thereafter) an annual report responding to all items required by the appropriate form, but with (i) unaudited financial statements, and (ii) disclosure reflecting the guidance included in Temporary Note 2T to Article 3 of Regulation S–X;

(b) Files with the Commission no later than 60 days from the date it was required to file the annual shareholder report an amendment to its shareholder report containing (i) the financial statements audited by an independent public accountant other than Andersen, (ii) a discussion of any material changes from the unaudited financial statements filed originally, and (iii) changes to any other section to reflect any changes in the financial statements filed by amendment; and

(c) In the case of a closed-end management company, announces, at the time it files its amendment that includes financial statements audited by an independent public accountant other than Andersen, that these financial statements are available and may be found in that filing on the Commission's website at *www.sec.gov* and on the company's website, citing the address, if the company has a website; provided that this announcement need not be made if the company's solicitation or corporate action has been completed prior to the time that these audited financial statements are filed.

4. *Amendments to Investment Company Act Registration Statements.* A registered management investment company that has (i) a fiscal year ending between and including January 1, 2002 and April 15, 2002, and (ii) timely filed a report on Form N–SAR as provided in paragraph III.2. of this order, is exempt from the requirement of Rule 8b–16 under the Company Act to amend its registration statement within 120 days of the end of its fiscal year, provided that the company files the amendment not later than six months after the end of the fiscal year.

IV. Balance Sheet Requirement for Certain Investment Advisers

A registered investment adviser that (i) is required by Item 14 of Part II of Form ADV under the Advisers Act to furnish a balance sheet audited by an independent public accountant, (ii) had engaged Andersen (or a foreign affiliate of Andersen) as an independent public accountant to examine the balance sheet to be included in Form ADV; (iii) had not, on or before March 14, 2002, obtained a manually signed audit report from Andersen (or a foreign affiliate of Andersen); (iv) is unable to or elects not to have Andersen issue a manually signed audit report from Andersen in respect of that balance sheet; and (v) has a fiscal year ending between and including December 1, 2001 and April 15, 2002, is exempt from the requirement of Rule 204–3 of the Advisers Act to furnish (in the case of a prospective client) or offer (in the case of a client) Part II of Form ADV (or a written disclosure statement) that contains an audited balance sheet, provided that:

1. The adviser furnishes or offers to furnish to prospective clients and clients on a timely basis Part II of Form ADV (or a written disclosure statement containing at least the information required by Part II) responding to all items required by Form ADV, but with an unaudited balance sheet, and discloses prominently on Schedule G (or the written disclosure statement) that an audited balance sheet is unavailable because the adviser was unable to receive services from Andersen or chose not to have Andersen complete those audits; and

2. The adviser amends its Part II (or written disclosure statement) to include a balance sheet examined by an independent public accountant other than Andersen no later than 60 days from the date it was required to update its Part II (which amendment is not required to be submitted to the Commission).

V. Exemptive Orders

An investment company, investment adviser, employees' securities company or other person relying on a Commission exemptive order issued under the Company Act or the Advisers Act that requires (either as a result of a representation made by the applicant or condition of the order) the involvement of an independent public accountant or independent representative (who may be an independent public accountant), that, on or after March 14, 2002, had engaged but is no longer able to obtain such services from Andersen or elects not to continue to engage Andersen shall not be deemed to have violated the terms or conditions of the order provided:

1. In the case of a report that must be furnished periodically or an audit that must be conducted annually, the report is furnished or audit is conducted by an independent public accountant other than Andersen no later than 60 days after the report was otherwise required to be furnished or the audit was otherwise required to be conducted; and

2. In the case of ongoing transactions that must be reviewed by the independent public accountant (or independent representative), the transactions are effected without the review, provided that the company or adviser engages an independent public accountant (or independent representative) other than Andersen no later than May 15, 2002, and that new engagement requires the independent public accountant (or independent representative) to review the transactions effected during the interim period.

By the Commission.

Jonathan G. Katz,
Secretary.

[1] The Commission is also publishing today a separate release modifying, in a manner appropriate for the protection of investors, the requirements for including audited financial statements in registration statements under the Securities Act of 1933 and filings required by the Trust Indenture Act of 1939. *See* Investment Company Act Release No. 25464 (March 18, 2002).

Appendix C

United States of America Before the Securities and Exchange Commission

Public Utility Holding Company Act of 1935

Release No. 35–27502/March 18, 2002

Order Under Sections 20(a) and 20(d) of the Public Utility Holding Company Act of 1935 Granting Exemptions From Certain Provisions of the Act and Rules Thereunder

To assure a continuing and orderly flow of information to investors and the U.S. capital markets and to minimize any potential disruptions that may occur in light of the circumstances surrounding Arthur Andersen LLP ("Andersen"), the Commission finds that the exemptions set forth below are necessary and appropriate to the exercise of the powers conferred on it by the Public Utility Holding Company of 1935.[1]

The necessity for immediate action of the Commission does not permit prior notice of the Commission's action.

Accordingly, *it is ordered*, pursuant to sections 20(a) and 20(d) of the Public Utility Holding Company Act of 1935:

I. Annual Reports on Form U5S

(1) Notwithstanding any other Commission rule or regulation, every registered public utility holding company that is required to file an annual report on Form U5S and

(a) That has a fiscal year ending from November 30, 2001 to April 15, 2002, and

(b) That meets the requirements of Section I of Securities Exchange Act of 1934 Release No. 45589 (March 18, 2002) ("1934 Act Order")

may file its annual report on Form U5S for its fiscal year ending from November 30, 2001 to April 15, 2002 under the conditions listed in paragraph (2) below. Reports filed pursuant to this order shall be deemed to have satisfied the registered public utility holding company's requirement to file an annual report for such period under section 14 of the Public Utility Holding Company Act and the Commission's rules and regulations thereunder.

(2) *Conditions:*

(a) The registered public utility holding company files its annual report on Form U5S within the required period, responding to all items required by the form except for any item requiring that (i) the registered public utility holding company provide material including audited financial statements as to the examination of which Andersen had been engaged as the independent public accountant or (ii) the registered public utility holding company provide an opinion of an independent public accountant that would have been provided by Andersen;

(b) With respect to any annual report required to be incorporated by reference in Exhibit A to Form U5S, the registered public utility holding company incorporates by reference an annual report that complies with paragraphs I.1.(a) and I.1.(b) of the 1934 Act Order;

(c) With respect to any amendment to an annual report required by paragraph I.1.(c) of the 1934 Act Order, the registered public utility holding company files the amendment as an amendment to its Form U5S filing on the same day and amends any other section of its Form U5S filing that should be updated as a result; and

(d) With respect to "the opinion of the independent accountants" required by Exhibit F to Form U5S, the registered public utility holding company files as an amendment to its Form U5S filing the opinion within 60 days of the original due date of the Form.

II. Computations Required by Certain Rules and Orders

With respect to any computation required by rule 53(a)(1) or rule 58(a)(1) or any similar

[1] The Commission is also publishing today a separate release modifying, in a manner appropriate for the protection of investors, the requirements for including audited financial statements in registration statements under the Securities Act of 1933 and filings required by the Trust Indenture Act of 1939. *See* Release No. 33–8070 (March 18, 2002).

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 62

RIN 3067–AD17

National Flood Insurance Program (NFIP); Pilot Project—Public Entity Insurers

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Final rule.

SUMMARY: We (the Federal Insurance and Mitigation Administration of FEMA) are launching a three-year pilot project that will permit governmental risk-sharing pools to sell flood insurance to public entities under the National Flood Insurance Program's Write Your Own (WYO) effort. We are limiting the participants in this pilot effort to a maximum of six such insurers that are able to provide flood insurance only to public entities for their public buildings. The participants in this pilot effort must comply with comparable eligibility criteria and performance standards for operations, reporting, and customer service that we require of private insurance companies that participate in the WYO program. This final rule includes the eligibility criteria for participation in the pilot and an addendum to the WYO Arrangement that construes the term "the company" used in the Arrangement to mean not only WYO companies but also the insurers selected for this pilot.

EFFECTIVE DATE: April 22, 2002.

FOR FURTHER INFORMATION CONTACT: Edward T. Pasterick, Federal Emergency Management Agency, Federal Insurance and Mitigation Administration, 500 C Street SW., Washington, DC 20472, 202–646–3443, (facsimile) 202–646–4335, or (e-mail) *Edward.Pasterick@fema.gov*.

SUPPLEMENTARY INFORMATION: On May 8, 2001, we published at 66 FR 23200 a proposed rule that would add, on a pilot project basis, a new category of insurer to the National Flood Insurance Program (NFIP)'s Write Your Own (WYO) system. We proposed the pilot to be for three years with participation limited to no more than three intergovernmental risk-sharing pools sponsored by State municipal leagues.

Our stated purpose for the pilot was to use the WYO program as a model for serving the flood insurance needs of municipalities. We said in the proposed rule, "One of the inherent strengths of the WYO program, and one of the reasons for its success, is that private insurance companies, writing property insurance for other perils such as wind and fire, provide convenient access to flood insurance coverage for their customers in need of flood insurance protection. This model may also apply to the unique relationship that public entity insurers, especially State municipal league-sponsored or other intergovernmental risk-sharing pools . . . enjoy with local governments."

We proposed the pilot in response to several organizations—several such risk pools and the National League of Cities—that asked us to consider permitting intergovernmental risk pools sponsored by State municipal leagues to sell flood insurance on a limited basis under the WYO program. We considered the request and agreed to propose such an expansion of the WYO program, but only on a pilot project basis. We saw the pilot as a controlled extension of the proven WYO approach—to use available mechanisms in the insurance marketplace to protect property owners from the peril of flood loss.

We also presented the proposal, during its formative stages and before its publication as a proposed rule, to WYO companies and associations for flood insurance producers. The WYO companies and these associations raised concerns about the proposal. We summarize their concerns under the "Comments" section.

In sum, our intention for the pilot has been to determine whether the WYO model would be as successful in the public sector as it has been in the private sector. Using the WYO model we want to see whether the governmental risk pools selected for the pilot will provide more convenient and direct access for municipal governments to obtain flood insurance coverage. We have decided after careful consideration of the public comments on the proposed rule to proceed with the pilot with a number of modifications.

Comments: Summary

During the comment period, we received fifteen written submissions from the public. The following submitted comments on the proposed rule:

- One State Executive Department,
- One international association,
- One insurance agency,
- Two private WYO insurance companies,
- Four national associations, and
- Six State Municipal leagues.

In addition to the written comments, we heard comments from representatives of two national associations—the National League of Cities (NLC) and the National Association of Counties (NACo)—at a meeting on June 20, 2001. FEMA's Office of the General Counsel, in coordination with the Congressional and Intergovernmental Affairs Division of FEMA's External Affairs Directorate, facilitated that meeting. We recorded the comments offered by the two national associations and made them part of the docket for this rule. We summarize that meeting and our decisions under a separate heading of this section.

The public generally favored the proposal. Twelve of the written submissions supported the pilot project while three objected to the proposal. Four of those in support of the proposal expressed an interest in participating in the pilot project.

Each of the following sections treats issues raised by the submitters and explains our reasons for accepting, rejecting, or modifying a given recommendation. We also add a section that summarizes the content of the June 20, 2001 meeting that is included in the rule's docket. Additionally, one set of comments was submitted well after the end of the comment period; however, we considered those comments as well and discuss them in a separate section.

Proposed Pilot: Creating Non-Insurance Company Competitors

Two private insurance companies expressed concern that the pilot would create "non-insurance company" competition for the WYO companies "that may or may not be subject to the same requirements as the WYO participants."

We modeled the participation criteria for the pilot's participants in 44 CFR 62.24(b) on the participation standards that WYO companies have had to meet under 44 CFR 62.24(a). Also, the pilot participants will participate under the same WYO Arrangement that WYO companies do. To ensure consistent standards and requirements, we added an addendum to the WYO Arrangement that expands the definition of "WYO company" to include the public entity insurers that will participate in the pilot. As a result, the pilot participants will be subject to the same requirements for customer service, reporting, financial management, and administration that the private WYO insurance companies must meet.

We would point out that the participants in the pilot project will not be able to sell flood insurance coverage to private consumers—homeowners, business owners, condominium associations, or the owners of multi-family dwellings. They may sell flood insurance only to public entities for their public buildings. Conversely, WYO companies may still sell flood insurance to public entities for their public buildings as well as to homeowners, business owners, condominium associations, and the owners of multi-family dwellings. The pilot project will not change that.

Use of Cover America II To Promote Flood Coverage for Public Buildings

The two private insurance companies objecting to the proposal asked whether the market of public buildings was in fact an "under-penetrated" market. If so, the WYO companies suggested that, instead of launching a pilot project, we should use the NFIP's marketing campaign, Cover America II, to increase education and awareness among municipalities that may need flood insurance protection for their public buildings. The commenters suggested that we target mailings to municipalities for their public buildings and launch awareness and education efforts with municipal leagues, instead of implementing the pilot.

Whether the pilot will serve an "under-penetrated" market was not a major factor in proposing the pilot. Rather, the primary purpose of the pilot is to extend to another category of insurer and client the same opportunity for full service that is currently enjoyed by private WYO companies and their policyholders. At the same time, any increase in market penetration resulting from the pilot will be welcome.

We believe using our marketing and education efforts to target public entities is a good suggestion, but it is not a mutually exclusive option to launching the pilot. We plan to look into such a marketing and education effort with the view of increasing the number of public buildings protected by flood insurance. The pilot project will be one of several measures we will use to accomplish that objective.

Cost of Flood Insurance as Deterrent to Sales

The two companies objecting to the pilot, and one municipal league in support of the proposal, believed that public entities have not bought flood insurance to date for their public buildings because of the cost of coverage. The pilot will provide a good opportunity to examine this.

We will also be interested to see whether the convenience for public entities in dealing with one insurance vehicle for all lines of property coverage will increase flood insurance coverage of public buildings in the selected States.

Expansion of the Pilot

Two national associations—the Association of Governmental Risk Pools (AGRIP) and the National Association of Counties—recommended that we expand the pilot project to permit other interested public-entity pools, including county pools, to participate. AGRIP, however, said that a pilot is unnecessary arguing that the need is already clear.

We disagree with the position that a pilot is unnecessary; we believe that we need a pilot project to demonstrate whether using governmental risk-pools will be a useful vehicle for meeting the flood insurance needs of municipal governments and for meeting the standards of the program. We agree, however, with AGRIP and NACo that the expansion of the pilot is warranted.

In the preamble of the proposed rule, we said that the pilot would consist of three intergovernmental risk-sharing pools sponsored by State municipal leagues. As we mentioned earlier, two other national organizations—NACo and AGRIP—that represent the interests of risk pools asked that we expand the scope of the pilot to permit their members to be considered for the pilot as well. Those comments have merit.

We have agreed therefore to expand the scope of the pilot to permit eligible entities from each of these national associations to participate in the pilot. Due to the limitations on NFIP resources, however, we must at this time limit the expanded pilot to a maximum of six participants. In order to ensure that participation in the pilot is fair, representative, and equally distributed among various kinds of governmental risk pools, we will accept two nominations each from NLC, NACo, and AGRIP for this WYO pilot. This represents a doubling of the scope of pilot, which we originally proposed.

Each of the national associations representing governmental risk pools—NLC, NACo, and AGRIP—will nominate two of its interested members to participate in the pilot. We will then review the applications of all candidate organizations and accept up to six organizations that meet our criteria as set forth in the NFIP's regulations, 44 CFR 62.23 and 62.24.

Criteria for Participation

AGRIP recommended a number of changes to 44 CFR 62.23 and 62.24 that would be inclusive enough to accommodate other public entity pools. We believe our language in the proposed rule is already inclusive enough to accommodate such entities and that was certainly our intention in drafting the proposal. And while we have not adopted every change in wording recommended by AGRIP, we have modified the criteria for participation in section 62.23 and 62.24 to ensure that the pilot is open not only to intergovernmental risk-sharing pools sponsored by State municipal leagues but also county pools and other governmental risk pools. For instance, in section 62.23(b), we say that "the term 'WYO company' shall include public entity risk-sharing organizations, an association of local governments, a State association of political subdivisions, and other intergovernmental risk-sharing pool entities for covering public entity structures." We maintain the position that those eligible for the WYO program under this pilot must be an entity already acting as an insurer, that is, an organization that provides property and liability coverage and is subject to State oversight.

Questions

In addition to the questions we have addressed in the preceding sections, one State, which sponsors a local government property insurance fund ("Fund"), asked specific questions on the program's implementation. We restate those questions followed by our answer.

Question: How will, or could participation in the pilot project affect compliance with FEMA (disaster) guidelines? For example, by participating in the pilot program could Fund members, if they elect not to purchase flood coverage, be held to a different (higher) standard of compliance, as it relates to FEMA eligibility guidelines.

Answer: Fund members will not be held to a higher standard.

Question: The Fund does not employ or use agents. Does the Fund need to become an Agent of Record, or appoint an Agent of Record to receive commissions on its behalf? Could the NFIP commissions be paid directly to the Fund?

Answer: Under the WYO program, a portion of the expense allowance—the portion of the premium income that a participating insurer retains—provides for a 15% agent commission; however, it does not have to be used to pay for commissions if a participating insurer does not use agents. (One of the private companies participating in the WYO program does not use agents in selling flood insurance.)

Question: Can separate service fees be paid directly to the Fund for administering/ servicing the NFIP WYO program? If so, what are those fees and how would they be calculated.

VOL
67
ISS
56
MR
22
2002
UMI

Answer: We do not pay service fees directly to participating insurers. Under Article III of the WYO Arrangement, participants retain a certain percentage of the premium for selling and servicing flood insurance. We call the amount of premium participants retain the "expense allowance."

Question: Are there any plans for the FEMA/NFIP Application to be streamlined or tailored to the governmental entities in the pilot project?

Answer: No, there are no such plans.

Question: What type of bank account is envisioned to process premium collections and claim payments for a governmental risk-sharing insurer?

Answer: The WYO Arrangement and the WYO Program's Financial Control Plan call for the participating WYO entity to deposit premiums into a separate, restricted account. Article II of the Arrangement requires the participating WYO company to "separate Federal flood insurance funds from all other Company accounts, at a bank or banks of its choosing, for the collection, retention and disbursement of Federal funds relating to its obligation under this Arrangement, less the Company's expenses as set forth in Article III."

Question: Do the FEMA/NFIP Flood Zone maps have a global position or plotting feature whereby the Fund can access them electronically? Can the Fund enter an address or location co-ordinate and automatically determine what Flood hazard Zone or Area the building or location is situated?

Answer: The NFIP does not provide such a service. There are private enterprises called Flood Zone Determination Companies that provide such a service for a fee. Those interested in acquiring such services may find a list of Flood Zone Determination Companies on FEMA's Web site at *www.fema.gov* under "Flood Zone Determination Companies."

Question: What types of training programs are available for training and support of producers or administrative staff, if * * * (we) are selected as one of the candidates for the pilot program?

Answer: The NFIP's Bureau and Statistical Agent conducts training for all the program's major stakeholders, including the WYO companies. We plan during the early implementation of the pilot program for the NFIP Bureau to conduct such specialized training for the selected participants.

Meeting of FEMA and Stakeholders

On June 20, 2001, FEMA's Office of the General Counsel, the Congressional and Intergovernmental Affairs Division of FEMA's External Affairs Directorate, and the Deputy Administrator for the Federal Insurance and Mitigation Administration met with representatives of the NLC and NACo. The NLC and NACo had asked for the meeting so that they could offer comments on the proposed rule, in addition to their written comments, and get clarification on several issues. We made the recorded minutes of that meeting part of the official docket for this rule and they are available upon request from FEMA's Rules Docket Clerk, 500 C Street, SW., Washington, DC 20472.

At the meeting, representatives for NLC and NACo asked whether there was any flexibility for expanding the pilot to accommodate other kinds of qualified pools. The Deputy Administrator responded that the scope of the pilot resulted from ongoing work between FEMA, the NLC, and several of its members that had expressed an interest in providing flood insurance to its members. One representative from NACo stressed that "we want to be part of the pilot and [can] identify a * * * (member) that is doing a good job." The enthusiasm and support by NACo both at the June 20, 2001 meeting and in written comments submitted to the FEMA Rules Docket, as well as the written comments of AGRIP, have prompted us to expand the pilot to accommodate other governmental risk pools. We will ask the NLC, NACo, and AGRIP each to nominate two of its interested and potentially qualified members to us for consideration in the pilot.

Additional Comment

One national association of insurance agents submitted written comments well after the close of the comment period. We reviewed those comments but did not find them persuasive. The association "does not believe that a new delivery system would change the mindset of public entity risk pools, a market segment that has never been willing to pay the price for flood coverage recommended to them in the past."

Our philosophy is that we wish to use and, in this case, test every available mechanism within the marketplace that can help property owners—private and public to protect their interests with flood insurance. The finite nature of the pilot will help us evaluate the effectiveness of applying the successful WYO model to the public sector as well. We believe the pilot's restriction that the pilot's participants may only sell flood insurance to public entities and then again only for their public buildings will preserve the unique relationship that private insurance companies and agents have with their private customers—a market excluded from the participants of this pilot. Conversely, the pilot does not preclude agents and companies from marketing to public entities in addition to their private customers.

National Environmental Policy Act (NEPA)

NEPA imposes requirements for considering the environmental impacts of agency decisions. It requires that an agency prepare an Environmental Impact Statement (EIS) for "major federal actions significantly affecting the quality of the human environment." If an action may or may not have a significant impact, the agency must prepare an environmental assessment (EA). If, as a result of this study, the agency makes a Finding of No Significant Impact (FONSI), no further action is necessary. If it will have a significant effect, then the agency uses the EA to develop an EIS.

Categorical Exclusions. Agencies can categorically identify actions (for example, repair of a building damaged by a disaster) that do not normally have a significant impact on the environment. The purpose of this rule is to launch a three-year pilot project that will permit intergovernmental risk-sharing pools sponsored by State municipal leagues to sell flood insurance to public entities under the National Flood Insurance Program's WYO effort.

Accordingly, we have determined that this rule is excluded from the preparation of an environmental assessment or environmental impact statement under 44 CFR 10.8(d)(2)(ii), where the rule is related to actions that qualify for categorical exclusion under 44 CFR 10.8(d)(2)(i), which addresses the preparation, revision, and adoption of regulations, directives, and other guidance documents related to actions that qualify for categorical exclusions. We have not prepared an environmental assessment or environmental impact statement as defined by NEPA.

Executive Order 12866, Regulatory Planning and Review

We have prepared and reviewed this rule under the provisions of E.O. 12866, Regulatory Planning and Review. Under Executive Order 12866, 58 FR 51735, October 4, 1993, a significant regulatory action is subject to OMB review and the requirements of the Executive Order. The Executive Order defines "significant regulatory action" as one that is likely to result in a rule that may:

(1) Have an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;

(2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

For the reasons that follow we have concluded that this rule is neither an economically significant nor a significant regulatory action under the Executive Order.

The rule will accomplish one primary purpose: To determine the merit of permanently expanding the WYO program to permit State municipal league-sponsored and other governmental risk-sharing pools to sell flood insurance to public entities to cover their buildings against flood loss. The rule will permit us to analyze the three-year pilot project to determine the merit of permitting such insurers to be eligible to sell flood insurance permanently under the WYO program. There are no major economic impacts resulting from implementation of this rule. Rather, the rule will add a new marketing avenue for writing flood insurance for public buildings.

The Office of Management and Budget has not reviewed this rule under the principles of Executive Order 12866.

Paperwork Reduction Act

This final rule contains information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). Under the Act, a person does not have to respond to and may not be penalized for failing to comply with an information collection that does not display a currently valid OMB.

The Office of Management and Budget has approved the use of the following information collection requirements for use by a maximum of six pilot participants in the newly added governmental risk-sharing pools category of insurer under the Write Your Own (WYO) program. The criteria for participating in the program are contained in FEMA regulation 44 CFR 62.23(a) and 62.24 and Appendixes A and B of part 62. The information collections are:

Title: Write Your Own (WYO) Program, OMB Number 3067–0169, expiration date March 31, 2002, hour burden—33 minutes per respondent; and

Title: Write Your Own (WYO) Company Participation Criteria; New Applicants, OMB Number 3067–0259, expiration date April 30, 2002, hour burden—7 hours per respondent.

FEMA did not receive any comments on the need for the information, the accuracy of the burden estimate, cost to the respondents, or the methods for minimizing burden on the respondents during the review and comment period for the proposed rule.

Addressee: Interested persons should submit comments to the Desk Officer for the Federal Emergency Management Agency, Office of Management and Budget, Office of Information and Regulatory Affairs, Washington, DC 20503 on or before April 22, 2002. Comments may also be sent to the Chief, Records Management Branch, Program Services and Systems Branch, Facilities Management and Services Division, Administration and Resource Planning Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472.

Regulatory Flexibility Act

Under the Regulatory Flexibility Act agencies must consider the impact of their rulemakings on "small entities" (small businesses, small organizations and local governments). When 5 U.S.C. 553 requires an agency to publish a notice of proposed rulemaking, the Act requires a regulatory flexibility analysis for both the proposed rule and the final rule if the rulemaking could "have a significant economic impact on a substantial number of small entities." The Act also provides that if a regulatory flexibility analysis is not required, the agency must certify in the rulemaking document that the rulemaking will not "have a significant economic impact on a substantial number of small entities."

For the reasons that follow I certify that a regulatory flexibility analysis is not required for this rule because it would not have a significant economic impact on a substantial number of small entities. This rule revises the NFIP regulations to launch a three-year pilot project that permits governmental risk sharing pools to sell insurance to public entities under the NFIP's WYO Program. We will limit the participants to six such insurers that will be able to provide flood insurance only to public entities for public buildings. Participation in the pilot program is voluntary.

Executive Order 13132, Federalism

Executive Order 13132, Federalism, dated August 4, 1999, sets forth principles and criteria that agencies must adhere to in formulating and implementing policies that have federalism implications, that is, regulations that have substantial direct effects on the States, or on the distribution of power and responsibilities among the various levels of government. Federal agencies must closely examine the statutory authority supporting any action that would limit the policymaking discretion of the States, and to the extent practicable, must consult with State and local officials before implementing any such action.

We have reviewed this rule under E.O. 13132 and have concluded that the rule does not have federalism implications as defined by the Executive Order. The rule adds a new category of insurer under the WYO program—an insurer that would provide another marketing avenue to protect public buildings from flood loss. Inasmuch as the insurance benefits and requirements derive from a Federal statute and program exclusively administered by the Federal Government for the benefit of State, local and tribal governments, individuals, and not-for-profit organizations, the rule neither limits nor preempts any policymaking discretion of the State that the State might otherwise have. We have, nevertheless, consulted with local officials, with the National League of Cities, the National Association of Counties, the Association of Governmental Risk Pools, Write Your Own companies, and several State municipal leagues. We have welcomed their valuable comments, and this rule has benefited from their comments.

The Office of Management and Budget has reviewed this rule under the provisions of Executive Order 13132.

List of Subjects in 44 CFR Part 62

Flood insurance.

Accordingly, we amend 44 CFR Part 62 as follows:

PART 62—SALE OF INSURANCE AND ADJUSTMENT OF CLAIMS

1. The authority citation for Part 62 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 43 FR 41943, 3 CFR, 1978 Comp., p. 329; E.O. 12127 of Mar. 31, 1979, 44 FR 19367, 3 CFR, 1979 Comp., p.376.

2. Revise paragraphs (a) and (b) of section 62.23 to read as follows:

VOL
67
ISS
56
MR
22
2002
UMI

§ 62.23 WYO Companies authorized.

(a)Pursuant to section 1345 of the Act, the Administrator may enter into arrangements with individual private sector property insurance companies or other insurers, such as public entity risk sharing organizations. Under these arrangements, such companies or other insurers may offer flood insurance coverage under the program to eligible applicants. Such WYO companies may offer flood coverage to policyholders insured by them under their own property business lines of insurance, pursuant to their customary business practices, including their usual arrangements with agents and producers. WYO companies may sell flood insurance coverage in any State in which the WYO company is authorized to engage in the business of property insurance. Other WYO insurers may offer flood insurance coverage to their pool members insured by them under their own property business lines of coverage, pursuant to their customary business practices. These other WYO insurers may provide flood coverage in any State that has authorized the other insurer to provide property coverage to its members. Arrangements entered into by WYO Companies or other insurers under this subpart must be in the form and substance of the standard arrangement; titled "Financial Assistance/Subsidy Arrangement," a copy of which is included in appendix A of this part and made a part of these regulations.

(b)Any duly authorized insurer so engaged in the Program shall be a WYO Company. (The term "WYO Company" shall include the following kinds of insurers: Public entity risk-sharing organizations, an association of local governments, a State association of political subdivisions, a State-sponsored municipal league, and other intergovernmental risk-sharing pool for covering public entity structures.)

* * * * *

3. Revise section 62.24 to read as follows:

§ 62.24 WYO participation criteria.

New companies or organizations eligible for the pilot project we describe in paragraph (b) of this section that seek to participate in the WYO program, as well as former WYO companies seeking to return to the WYO program, must meet standards for financial capability and stability for statistical and financial reporting and for commitment to program objectives.

(a) To demonstrate the ability to meet the financial requirements, a private insurance company wishing to enter or reenter the WYO program must:

(1) Be a licensed property insurance company;

(2) Have a five (5) year history of writing property insurance;

(3) Disclose any legal proceedings, suspensions, judgments, settlements, or agreements reached with any State insurance department, State attorney general, State corporation commission, or the Federal Government during the immediately prior five (5) years regarding the company's business practices;

(4) Submit its most recent National Association of Insurance Commissioners (NAIC) annual statement;

(5) Submit information, as data become available, to indicate that the company meets or exceeds NAIC standards for risk-based capital and surplus; and

(6) Submit its last State or regional audit, which should contain no material negative findings.

(b) To demonstrate the ability to meet the financial requirements, a public entity risk-sharing organization, an association of local governments, a State association of political subdivisions, a State-sponsored municipal league, and any other intergovernmental risk-sharing pool for covering public entity structures, wishing to enter the WYO program, which will end September 30, 2004, must:

(1) Have authority by a State to provide property coverage to its members;

(2) Have a five (5) year history of writing property coverage;

(3) Disclose any legal proceedings, suspensions, judgments, settlements, or agreements reached with any State insurance department, State attorney general, State corporation commission, or the Federal Government during the immediately prior five (5) years regarding the other insurer's business practices; and

(4) Submit its most recent two annual audits from an independent accounting firm performed in compliance with generally accepted accounting principles that show no material negative findings; and submit, as data become available, information to indicate that the other insurer meets or exceeds standards comparable to those of the NAIC for risk-based capital and surplus.

(c) An applicant for entry or reentry in the WYO program must also pass a test to determine the applicant's ability to process flood insurance and meet the Transaction Record Reporting and Processing (TRRP) Plan requirements of the WYO Financial Control Plan. Unless the test requirement is waived, e.g., where an already qualified performer will fulfill the applicant's reporting requirements, the applicant must prepare and submit test output monthly tape(s) and monthly financial statements and reconciliations for processing by the NFIP Bureau and Statistical Agent contractor. For test purposes, no error tolerance will be allowed. If the applicant fails the initial test, a second test will be run, which the applicant must pass to participate in the Program.

(d)To satisfy the requirement for commitment to Program goals, including marketing of flood insurance policies, the applicant will submit information concerning its plans for the WYO Program including plans for the training and support of producers and staff, marketing plans and sales targets, and claims handling and disaster response plans. Applicants must also identify those aspects of their planned flood insurance operations to be performed by another organization, managing agent, another WYO Company, a WYO vendor, a service bureau or related organization. Applicants will also name, in addition to a Principal Coordinator, a corporate officer point of contact—an individual, e.g., at the level of Senior Executive Vice President, who reports directly to the Chief Executive Officer or the Chief Operating Officer. Each applicant shall furnish the latest available information regarding the number of its fire, allied lines, farm-owners multiple peril, homeowners multiple peril, and commercial multiple peril policies or coverage documents in force, by line. A private insurance company applying for participation in the WYO program shall also furnish its Best's Financial Size Category for the purpose of setting marketing goals.

3. Add the following ADDENDUM at the end of Appendix A to Part 62:

Addendum to Appendix A to Part 62—Federal Emergency Management Agency, Federal Insurance and Mitigation Administration, Financial Assistance/Subsidy Arrangement

Note: This Addendum to Appendix A to Part 62 applies only to a public entity risk-sharing organization, an association of local governments, a State association of political subdivisions, a State-sponsored municipal league, and any other intergovernmental risk-sharing pool for covering public entity structures participating in the pilot project established in § 62.24(b) that permits intergovernmental risk-sharing pools to provide flood insurance to public entities to cover public buildings.

(1) "Company" in the preceding Arrangement includes "a public entity risk-sharing organization, an association of local governments, a State association of political subdivisions, a State-sponsored municipal league, and any other intergovernmental risk-sharing pool for covering public entity structures."

(2) The references to "marketing guidelines" in Article II—Undertaking of the Company and to "marketing goals" in Article III—Loss Costs, Expenses, Expense Reimbursement, and Premium Refunds shall apply only to the private insurance companies participating in the WYO program.

LIST OF PUBLIC LAWS

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "PLUS" (Public Laws Update Service) on 202–523–6641. This list is also available online at *http://www.nara.gov/fedreg/plawcurr.html.*

The text of laws is not published in the **Federal Register** but may be ordered in "slip law" (individual pamphlet) form from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone, 202–512–1808). The text will also be made available on the Internet from GPO Access at *http://www.access.gpo.gov/nara/nara005.html.* Some laws may not yet be available.

S. 1857/P.L. 107–153

To encourage the negotiated settlement of tribal claims. (Mar. 19, 2002; 116 Stat. 79)

Last List March 19, 2002

Public Laws Electronic Notification Service (PENS)

PENS is a free electronic mail notification service of newly enacted public laws. To subscribe, go to *http://hydra.gsa.gov/archives/publaws-l.html* or send E-mail to **listserv@listserv.gsa.gov** with the following text message:

SUBSCRIBE PUBLAWS-L Your Name.

Note: This service is strictly for E-mail notification of new laws. The text of laws is not available through this service. **PENS** cannot respond to specific inquiries sent to this address.

INFORMATION ABOUT THE SUPERINTENDENT OF DOCUMENTS' SUBSCRIPTION SERVICE

Know when to expect your renewal notice and keep a good thing coming. To keep our subscription prices down, the Government Printing Office mails each subscriber *only one renewal notice*. You can learn when you will get your renewal notice by checking the number that follows month/year code on the top line of your label *as shown in this example:*

A renewal notice will be sent approximately 90 days **before the shown date.**

DEC97 R 1
AER SMITH212J
JOHN SMITH
212 MAIN STREET
FORESTVILLE MD 20704

A renewal notice will be sent approximately 90 days **before the shown date.**

DEC97 R 1
AERDO SMITH212J
JOHN SMITH
212 MAIN STREET
FORESTVILLE MD 20704

To be sure that your service continues without interruption, please return your renewal notice promptly. If your subscription service is discontinued, simply send your mailing label from any issue to the Superintendent of Documents, Washington, DC 20402–9372 with the proper remittance. Your service will be reinstated.

To change your address: Please SEND YOUR MAILING LABEL, along with your new address to the Superintendent of Documents, Attn: Chief, Mail List Branch, Mail Stop: SSOM, Washington, DC 20402–9373.

To inquire about your subscription service: Please SEND YOUR MAILING LABEL, along with your correspondence, to the Superintendent of Documents, Attn: Chief, Mail List Branch, Mail Stop: SSOM, Washington, DC 20402–9373.

To order a new subscription: Please use the order form provided below.

Public Laws

107th Congress, 1st Session, 2001

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 107th Congress, 1st Session, 2001.

Individual laws also may be purchased from the Superintendent of Documents, U.S. Government Printing Office. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws or access the online database at http://www.access.gpo.gov/nara005.html

The **FEDERAL REGISTER** is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see http://www.nara.gov/fedreg.

The seal of the National Archives and Records Administration authenticates the Federal Register as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and it includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

GPO Access users can choose to retrieve online **Federal Register** documents as TEXT (ASCII text, graphics omitted), PDF (Adobe Portable Document Format, including full text and all graphics), or SUMMARY (abbreviated text) files. Users should carefully check retrieved material to ensure that documents were properly downloaded.

On the World Wide Web, connect to the **Federal Register** at http://www.access.gpo.gov/nara. Those without World Wide Web access can also connect with a local WAIS client, by Telnet to swais.access.gpo.gov, or by dialing (202) 512–1661 with a computer and modem. When using Telnet or modem, type swais, then log in as guest with no password.

For more information about GPO Access, contact the GPO Access User Support Team by E-mail at gpoaccess@gpo.gov; by fax at (202) 512–1262; or call (202) 512–1530 or 1–888–293–6498 (toll free) between 7 a.m. and 5 p.m. Eastern time, Monday–Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is $699, or $764 for a combined **Federal Register, Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is $264. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $10.00 for each issue, or $10.00 for each group of pages as actually bound; or $2.00 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard or Discover. Rules and Regulations

Federal Register
Vol. 67, No. 57
Monday, March 25, 2002

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 532

RIN 3206–AJ30

Prevailing Rate Systems; Change in the Survey Cycle for the Pennington, South Dakota, Nonappropriated Fund Wage Area

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: The Office of Personnel Management is issuing a final rule to change the timing of local wage surveys in the Pennington, South Dakota, nonappropriated fund Federal Wage System wage area. The change will help balance the workload for the Department of Defense and improve the amount and quality of data it collects during local annual wage surveys in the Pennington wage area.

DATES: Effective Date: April 24, 2002.

FOR FURTHER INFORMATION CONTACT: Chenty I. Carpenter at (202) 606–8359; by FAX at (202) 606–4264; or by email at *cicarpen@opm.gov*.

SUPPLEMENTARY INFORMATION: On December 19, 2000, the Office of Personnel Management (OPM) published a proposed rule to change the timing of local wage surveys in the Pennington, South Dakota, nonappropriated (NAF) Federal Wage System (FWS) wage area (65 FR 79320). The proposed rule provided a 30-day period for public comment, during which OPM received no comments.

The Department of Defense (DOD), the lead agency for the Pennington, SD, wage area, requested that the survey schedule be changed so that full-sale surveys could be conducted in June of even-numbered fiscal years. DOD conducted a full-scale survey in January 2002 and will conduct another full-scale survey in June 2002. The change from January to June will help avoid problems associated with conducting local wage surveys during inclement weather in western South Dakota and will improve wage survey participation and data yield. In addition, the new survey cycle will allow DOD to achieve a better balance in its wage survey workload.

The Federal Prevailing Rate Advisory Committee, the national labor-management committee responsible for advising OPM on matters concerning the pay of FWS employees, recommended by consensus that we change the full-scale survey cycle for the Pennington NAF wage area from January of even-numbered fiscal years to June of even-numbered fiscal years.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because it affects only Federal agencies and employees.

List of Subjects in 5 CFR Part 532

Administrative practice and procedure, Freedom of information, Government employees, Reporting and recordkeeping requirements, Wages.

U.S. Office of Personnel Management.

Kay Coles James,

Director.

Accordingly, the Office of Personnel Management is amending 5 CFR part 532 as follows:

PART 532—PREVAILING RATE SYSTEMS

1. The authority citation for part 532 continues to read as follows:

Authority: 5 U.S.C. 5343, 5346; § 532.707 also issued under 5 U.S.C. 552.

Appendix A to Subpart B of Part 532—[Amended]

2. Appendix B to subpart B is amended by revising under the State of South Dakota the listing of beginning month of survey from "January" to "June" for the Pennington NAF wage area.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

7 CFR Part 25

RIN 0503–AA20

Rural Empowerment Zones and Enterprise Communities

AGENCY: Office of the Secretary, USDA.

ACTION: Final rule.

SUMMARY: This final rule establishes the policies and procedures pertaining to 20 rural enterprise communities designated by the Secretary of the U.S. Department of Agriculture (USDA) (Secretary) as authorized by the Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Act, 1999 (Agriculture Appropriations Act 1999) (Round IIS). This rule also contains the policies and procedures for implementing the grant program authorized by section 766 of the Agriculture Appropriations Act 1999 (USDA EZ/EG grants). Additionally, this rule clarifies post-designation procedures that rural empowerment zones and enterprise communities must follow to maintain their standing. Finally, this final rule amends the regulation to reflect that two new rural empowerment zones were authorized by the Community Renewal Tax Relief Act of 2000 (Round III).

EFFECTIVE DATE: April 24, 2002.

FOR FURTHER INFORMATION CONTACT: Norman Reed, (202) 690–0719, Deputy Administrator for Community Development, USDA Rural Development, Office of Community Development, Reporters Building, Room 266, 300 7th Street, SW., Washington, DC 20024–3203, telephone 1–800–645–4712, or by sending an Internet e-mail message to "*info@www.ezec.gov*". For hearing- and speech-impaired persons, information concerning this program may be obtained by contacting USDA's TARGET Center at (202) 720–2600 (Voice and TDD).

SUPPLEMENTARY INFORMATION:

Classification

This rule has been reviewed by the Office of Management and Budget (OMB) under E.O. 12866 and has been determined to be a significant regulatory action.

Programs Affected

The Catalog of Federal Domestic Assistance Program affected by this action is 10.772, Empowerment Zone Program.

Program Administration

The program is administered through the Office of Community Development within the Rural Development mission area of the Department of Agriculture.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act, USDA may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number.

The information collection requirements contained in 7 CFR part 25 are comprised of one-time application requirements (Application burden) and ongoing reporting requirements (Reporting burden).

The Application burden paperwork package approved under control no. 0570–0026 was approved by OMB in the context of the Round II application effort. The overall burden is a function of the hours assumed for each applicant multiplied by an estimated number of applicants. Comments on these application requirements were invited April 16, 1998 [63 FR 19108] at the time the Interim Final Rule for 7 CFR part 25 was published. No comments were received. After the expiration of the application deadline, the application burden no longer existed and USDA requested that the burden level under this control number be amended accordingly and this was approved by OMB. Subsequently, Congress authorized another competitive round for designations (Round III). USDA submitted a request to OMB to conform the burden level under this control number to reflect another round of application effort. The Application Form is the same as earlier approved under this burden level as well as the hour burden per applicant for Round III. The only difference between the burden levels estimated for Rounds II and III consists of a different assumed number of applicants. The burden level per applicant was the same. USDA's earlier estimate of 60 applicants for Round III is very close to the 55 valid applications we actually received. Now that the deadline for Round III is passed, there is no ongoing Application Burden. Accordingly, the submission was withdrawn and remains as previously approved by OMB. USDA will seek to amend the Application Burden only in the event legislation is passed which authorizes additional designations.

The Reporting burden paperwork package approved by OMB under control no. 0570–0027 covers the ongoing reporting requirements imposed by 7 CFR part 25 for empowerment zones and enterprise communities designated to date. USDA submitted a request to amend the Reporting paperwork burden to reflect the incrementally higher aggregate reporting burden associated with the designation of two empowerment zones pursuant to Round III and was approved by OMB. The individual reporting requirements imposed on Round III designees are the same as for all designees, and unchanged from those published and for which comments were invited April 27, 2000 [65 FR 24656] at the time the most recent proposed rule for amending 7 CFR part 25 was published. No comments were received.

Environmental Impact Statement

It is the determination of the Secretary that this action is not a major Federal action significantly affecting the environment. Therefore, in accordance with the National Environmental Policy Act of 1969, Pub. L. 91–190, and 7 CFR part 1940, subpart G, an Environmental Impact Statement is not required.

Executive Order 12988

This final rule has been reviewed in accordance with E.O. 12988, Civil Justice Reform. In accordance with this rule: (1) All state and local laws and regulations that are in conflict with this rule will be preempted; (2) no retroactive effect will be given to this rule; and (3) administrative proceedings in accordance with 7 CFR part 11 must be exhausted before bringing suit in court challenging action taken under this rule unless those regulations specifically allow bringing suit at an earlier time.

The Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Pub. L. 104–4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on state, local, and tribal governments and the private sector. Under section 202 of the UMRA, USDA must prepare a written statement, including a cost benefit analysis, for proposed and final rules with "Federal mandates" that may result in expenditures to state, local or tribal governments, in the aggregate, or to the private sector, of $100 million or more in any one year. When such a statement is needed for a rule, section 205 of UMRA generally requires USDA to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, more cost effective or least burdensome alternative that achieves the objectives of the rule.

This rule contains no Federal mandates (under the regulatory provisions of title II of the UMRA) for state, local, and tribal governments or the private sector. Therefore this rule is not subject to the requirements of sections 202 and 205 of UMRA.

Regulatory Flexibility Act

In compliance with the Regulatory Flexibility Act (5 U.S.C. 601–612), the undersigned has determined and certified by signature of this document that this rule will not have a significant economic impact on a substantial number of small entities. The Regulatory Flexibility Act is intended to encourage Federal agencies to utilize innovative administrative procedures in dealing with individuals, small businesses, small organizations, and small governmental bodies that would otherwise be unnecessarily adversely affected by Federal regulations. The provisions included in this rule will not impact a substantial number of small entities to a greater extent than large entities. Therefore, no regulatory flexibility analysis under the Regulatory Flexibility Act is necessary.

Executive Order 13132, Federalism

The policies contained in this rule will not have substantial direct effects on states or their political subdivisions, or the relationship between the Federal Government and the states, or on the distribution of power and responsibilities among the various levels of government. Nor does this rule impose substantial direct compliance costs on state and local governments. This rule is intended to foster cooperation between the Federal Government and the states and local governments, and reduces, where possible, any regulatory burden imposed by the Federal Government that impedes the ability of state and local governments to solve pressing economic, social, and physical problems in their communities.

Background

The Secretary of Agriculture published on April 16, 1998 [63 FR 19108], an interim final rule with request for comments and a notice inviting applications for 5 additional rural empowerment zone designations as authorized by title IX of the Taxpayer Relief Act of 1997 (Pub. L. 105–34, approved August 5, 1997) (Round II). These Round II empowerment zones were designated on December 24, 1998.

These 5 new rural empowerment zones were in addition to the 3 rural empowerment zones and 30 enterprise communities designated on December 21, 1994 by the Secretary of Agriculture pursuant to Title XIII of the Omnibus Budget Reconciliation Act of 1993 (Round I).

On December 21, 2000, the Community Renewal Tax Relief Act was signed into law (Pub. L. 106–554), authorizing the designation of two more rural empowerment zones (Round III), bringing the total authorized rural empowerment zones to ten. The eligibility criteria for Round III are exactly the same as for Round II empowerment zones.

The legislation which authorized Round I empowerment zones also authorized 30 rural enterprise communities. On October 21, 1998, the Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Act, 1999 was signed into law, authorizing an additional 20 rural enterprise communities (Round IIS), bringing the total authorized to 50.

The proposed rule pertaining to Round IIS also amended 7 CFR part 25 in other ways that affected all rural empowerment zones and rural enterprise communities. Most notably it implemented a newly authorized direct grant program for Round II and IIS designees. It also amended the ongoing reporting and administrative requirements for all designated communities.

The Community Renewal Tax Relief Act of 2000 authorizing Round III was signed into law subsequent to publication of the proposed rule. It increased the number of designations the Secretary of Agriculture may make, it extends designation periods and increases certain tax code benefits which attach to the designations. It expressly provides that the eligibility requirements for Round III empowerment zones are to be the same as for Round II, with no change.

In addition to the changes for which comments were invited in the published proposed rule, this Final Rule conforms 7 CFR part 25 to reflect the provisions of the Community Renewal Tax Relief Act of 2000. These conforming changes are technical in nature such the Secretary has determined it appropriate that they be incorporated in this final rulemaking without subjecting them to the notice and comment process.

Discussion of Comments

Eleven comments were received in response to the published proposed rulemaking. Ten were from representatives of empowerment zones or enterprise communities (EZ/ECs); one was from a Rural Development State Director. Of the ten, five were from the same community and the other five represented different communities.

Ten of the eleven comments received were opposed to the proposed requirement that not less than 55% of the membership of the board of directors of the lead entity be determined by broad-based election. One respondent raised concerns about the requirements associated with the National Environmental Protection Act (NEPA). One respondent requested that EZ/EC program funds be considered eligible match funding for other federal programs. The use of EZ/EC funds as matching funds for other federal programs is currently prohibited. See 7 CFR 3019.23(a)(5) and OMB Circular A–110 issued by the Office of Management and Budget.

Objections to the board composition requirement were varied. One respondent argued that USDA's approval of the strategic plan at the time of designation included the proposed corporate organization of the lead entity, this approval was incorporated into the Memorandum of Agreement, and this agreement cannot be changed absent mutual consent.

Another respondent expressed concern that imposing a 55% elected board is excessive control on the part of USDA and counter to the empowerment principle that community-based decisions should be supported. One specifically argued that the boards should be comprised of "movers and shakers" rather than run by committee. Yet another stated that elections are not necessary because representative boards are being appointed now.

The regulatory amendment requiring 55% elected representation on the board of the lead entity was developed as a direct result of program reviews done for the first round of designated communities. In several of the most needy communities, the board members did not reflect the racial or economic diversity present in the community. Their decisions often did not reflect the principles of the EZ/EC program, or the best interest of the low-income residents. Rather, funding decisions and community management had reverted to traditional, less representative, power structures.

Designations are granted contingent upon final USDA approval of the applicant's strategic plan and the signing of a Memorandum of Agreement (MOA). The MOA documents the relationship and respective responsibilities of USDA and the designated community. It is not contractually binding and so states in the text of the document.

Public support for the policies of the lead entity is critical for the success of the strategic plan. USDA recognizes that appointed boards might be necessary in the start-up phase of an EZ/EC, but has learned from experience that it is possible to conduct board elections at the required public meetings at little or no additional cost to the community. Some appointments may yet be necessary to address special needs representation, such as youth or low-income representation, or to enjoy the benefit of legal, engineering, or other specific expertise on the board. USDA has observed that "movers and shakers" are capable of being elected to the board of lead entities.

Two respondents cited election-related problems that are specific to tribal entities. One questioned USDA's authority to override decisions made by tribal governments to appoint boards. In the case of areas covering a group of distinct tribes, with separate governance structures, disbursed populations, historical animosities and uneven minority distribution within the populace, achieving a representative board is possible through appointments, but less likely via elections.

USDA acknowledges the tribal governance issues, and has incorporated an exception for tribal entities if there is compelling evidence that the objectives intended by the election requirement cannot be realized except through an appointment process.

One respondent requested requirements for environmental assessments or environmental impact statements be waived for some projects, citing redundant environmental requirements imposed by state and other Federal partners. It was suggested that USDA accept the determinations made pursuant to environmental reviews conducted by others for purposes of EZ/EC program requirements.

USDA cannot waive the requirements of NEPA. The EZ/EC program has three options as far as NEPA is concerned. USDA could prepare yet another stand alone environmental regulation specific to the EZ/EC program, or use one of the two environmental regulations in effect within the Rural Development mission area at USDA. The final rule adopts the environmental review processes in effect for the Rural Utilities Service

UMI

(RUS) at 7 CFR part 1794. The environmental regulation that applies to other Rural Development agencies is referred to only for purposes of determining what level of environmental review is required for a given project. Once that threshold is determined, the notice and other provisions for environmental assessments, environmental impact statements, etc., contained in the RUS regulation are to be followed. The RUS regulation was chosen because it affords the greatest flexibility in implementing NEPA—most specifically with respect to whom can prepare the review document.

As is the case with most federal environmental regulations implementing NEPA, an agency head can adopt as its own a determination made by another federal agency, provided the review has met federal requirements. NEPA expressly contemplates that where multiple federal agencies are involved, efforts are to be made to avoid redundancy and determine a "lead agency". Unless expressly authorized by law, NEPA requires an agency head to evaluate the environmental consequences of the federal action taken by that agency. It has happened that a non-federal entity was authorized by law to make federal NEPA determinations, but it is not so authorized for the EZ/EC program.

List of Subjects in 7 CFR Part 25

Community development, Economic development, Empowerment zones, Enterprise communities, Housing, Indians, Intergovernmental relations, Reporting and recordkeeping requirements, Rural development.

In accordance with the reasons set out in the preamble, 7 CFR part 25 is amended as follows:

PART 25—RURAL EMPOWERMENT ZONES AND ENTERPRISE COMMUNITIES

1. The authority citation for part 25 is revised to read as follows:

Authority: 5 U.S.C. 301; 26 U.S.C. 1391; Sec. 766, Pub. L. 105–277, 112 Stat. 2681; Pub. L. 106–554 [Title I of H.R. 5562], 114 Stat. 2763.

Subpart A—General Provision

§ 25.1 [Amended]

2. Amend § 25.1 by revising paragraph (a) to read as follows:

§ 25.1 Applicability and scope.

(a) Applicability. This part contains policies and procedures applicable to rural empowerment zones and enterprise communities, authorized under the Omnibus Budget Reconciliation Act of 1993, title XIII, subchapter C, part I (Round I), the Taxpayer Relief Act of 1997, title IX, subtitle F (Round II), the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 1999 (Public Law 105–277) (Round IIS), and the Community Renewal Tax Relief Act of 2000 (Public Law 106–554) (Round III).

* * * * *

§ 25.3 [Amended]

3. Amend § 25.3 by revising the definitions of "brownfield" (and placing it in correct alphabetical order), "designation", "designation date" and by adding in alphabetical order definitions for "designation period", "funding official", "Office of Community Development", "Round IIS", "Round III", "state director" and "USDA EZ/EC grant program" to read as follows:

§ 25.3 Definitions.

* * * * *

Brownfield means a "qualified contaminated site" meeting the requirements of section 941 of the Taxpayer Relief Act of 1997, (26 U.S.C. 198(c)), where the site is located in an empowerment zone or enterprise community.

* * * * *

Designation means the process by which the Secretary designates rural areas as empowerment zones or enterprise communities pursuant to eligibility criteria established by subchapter U of the Internal Revenue Code (26 U.S.C. 1391 *et seq.*).

Designation date means December 21, 1994, in the case of Round I designations, and December 24, 1998, in the case of Round II and Round IIS designations.

Designation period means, in the case of empowerment zones, the lesser of such time as has elapsed from the designation date to December 31, 2009 or from the designation date to the effective date of an applicable notice of revocation pursuant to 7 CFR 25.405(e) and, in the case of enterprise communities, the lesser of ten years or such time as has elapsed from the designation date to the effective date of an applicable notice of revocation pursuant to 7 CFR 25.405(e).

* * * * *

Funding official means the state director in the state where the designated rural area is located, or if the designated rural area is located in more than one state, the state where the headquarters office of the lead managing entity is located.

* * * * *

Office of Community Development or *OCD* means the office of the Deputy Administrator, Community Development, as identified in 7 CFR 2003.26(b)(4).

* * * * *

Round IIS identifies designations of rural enterprise communities pursuant to section 766 of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 1999 (Public Law 105–277).

Round III identifies designations of empowerment zones pursuant to section 111 of the Community Renewal Tax Relief Act of 2000 (Public Law 106–554).

* * * * *

State director means the state director for the Rural Development mission area within USDA, as identified in 7 CFR 2003.10.

* * * * *

USDA EZ/EC grant program means the grant program authorized by section 766 of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 1999 (Public Law 105–277).

§ 25.4 [Amended]

4. Amend § 25.4 by revising paragraphs (a) and (b)(2) and adding paragraphs (b)(3), (b)(4) and (b)(5) to read as follows:

§ 25.4 Secretarial review and designation.

(a) *Designation.* The Secretary will review applications for the designation of nominated rural areas to determine the effectiveness of the strategic plans submitted by applicants; such designations of rural empowerment zones and enterprise communities as are made shall be from the applications submitted in response to the notice inviting applications or other applicable notice published in the **Federal Register**. The Secretary may elect to designate as champion communities those nominated areas which are not designated as either a rural empowerment zone or enterprise community and whose applications meet the criteria contained in § 25.301.

(b) * * *

(2) *Round II.* The Secretary may, prior to January 1, 1999, designate up to five rural empowerment zones in addition to those designated in Round I.

(3) *Round IIS.* The Secretary may designate up to 20 rural enterprise communities in addition to those designated in Round I.

(4) *Round III.* The Secretary may, prior to January 1, 2002, designate up to two rural empowerment zones in addition to those designated in Round I and Round II.

(5) *Champion communities.* The number of champion communities is limited to the number of applicants which are not designated empowerment zones or enterprise communities.

* * * * *

Subpart B—Area Requirements

§ 25.103 [Amended]

5. Amend § 25.103 by revising the introductory text of paragraphs (b)(2) and (b)(3) to read as follows:

§ 25.103 Area size and boundary requirements.

* * * * *

(b) * * *

(2) For purposes of applying paragraph (a)(1) of this section to Round II, Round IIS and Round III designations: * * *

(3) For purposes of applying paragraph (a)(2) of this section to Round II, Round IIS and Round III designations, the following shall not be treated as violating the continuous boundary requirement nor the limit on the number of noncontiguous parcels:

* * * * *

§ 25.104 [Amended]

6. Amend § 25.104 as follows:

a. Amend the heading of paragraphs (a)(2) and (b)(2) by adding ", Round IIS and Round III".

b. Revise the introductory text of paragraphs (a), (b) and (c), and revise paragraph (c)(2) to read as follows:

§ 25.104 Poverty rate.

(a) *General.* Eligibility of an area on the basis of poverty shall be established in accordance with the following poverty rate criteria specific to Round I, Round II, Round IIS and Round III nominated areas:

* * * * *

(a) *Special rules.* The following special rules apply to the determination of poverty rate for Round I, Round II, Round IIS and Round III nominated areas:

* * * * *

(c) *General rules.* The following general rules apply to the determination of poverty rate for Round I, Round II, Round IIS and Round III nominated areas.

* * * * *

(2) *Noncontiguous parcels.* Each such parcel (excluding, in the case of Round II, Round IIS and Round III, up to three noncontiguous developable sites not exceeding 2,000 acres in the aggregate) must separately meet the poverty criteria contained in this section.

* * * * *

Subpart C—Nomination Procedure

§ 25.202 [Amended]

7. Amend § 25.202 by revising paragraph (b)(7) to read as follows:

§ 25.202 Strategic plan.

* * * * *

(b) * * *

(7) Include such other information as required by USDA in the notice inviting applications or other applicable notice.

* * * * *

§ 25.203 [Amended]

8. Revise § 25.203 to read as follows:

§ 25.203 Submission of applications.

General. A separate application for designation as an empowerment zone or enterprise community must be submitted for each rural area for which such designation is requested. The application shall be submitted in a form to be prescribed by USDA in the notice inviting applications or other applicable notice as published in the **Federal Register** and must contain complete and accurate information.

Subpart D—Designation Process

§ 25.300 [Amended]

9. Amend § 25.300 by revising paragraphs (a) and (b) to read as follows:

§ 25.300 USDA action and review of nominations for designation.

(a) *Establishment of submission procedures.* USDA will establish a time period and procedure for the submission of applications for designation as empowerment zones or enterprise communities, including submission deadlines and addresses, in a notice inviting applications or other applicable notice, to be published in the **Federal Register.**

(b) *Acceptance for processing.* USDA will accept for processing those applications as empowerment zones and enterprise communities which USDA determines have met the criteria required under this part. USDA will notify the states and local governments whether or not the nomination has been accepted for processing. The application must be received by USDA on or before the close of business on the date established by the notice inviting applications or other applicable notice published in the **Federal Register.** The applications must be complete, inclusive of the strategic plan, as required by § 25.202, and the certifications and written assurances required by § 25.200(b).

* * * * *

Subpart E—Post-Designation Requirements

§ 25.404 [Amended]

10. Amend § 25.404 as follows:

a. Redesignate paragraph (a) as (c) and paragraph (b) as (d).

b. Add new paragraphs (a) and (b) to read as follows:

§ 25.404 Validation of designation.

(a) *Maintaining the principles of the program.* The empowerment zone, enterprise community or champion community (the designated community) must maintain a process for ensuring ongoing broad-based participation by community residents consistent with the approved application and planning process outlined in the strategic plan.

(1) *Continuous improvement.* The designated community must maintain a process for evaluating and learning from its experiences. It must detail the methods by which the community will assess its own performance in implementing its benchmarks, the process it will use for reviewing goals and benchmarks and revising its strategic plan.

(2) *Participation.* The designated community must develop as part of its strategic plan a written plan for assuring continuous broad-based community participation in the implementation of the strategic plan and the means by which the strategic plan is implemented, including board membership in the lead entity and other key partnership entities.

(b) *Administration of the strategic plan.* The strategic plan must be administered in a manner consistent with the principles of the program contained in § 25.202(a).

(1) *Lead entity.* The lead entity must have legal status and authority to receive and administer funds pursuant to Federal, state and other government or nonprofit programs.

(2) *Capacity.* The lead entity must have the capacity to implement the strategic plan, as demonstrated by audited financial statements as of the most recent fiscal year or other documentation that may be requested by USDA.

(3) *Board membership.* The membership of the board must be representative of the entire socio-economic spectrum in the designated community including business, social service agencies, health and education entities, low income and minority residents. Board membership may be

VOL
67
ISS
57
MR
25
2002
UMI

determined by either broad-based election or by appointment to meet this diversity requirement; however, not more than 45 percent of board members may be selected by appointment. Elections of community residents to the board may be done by any locally acceptable process; however, at least one board member from each of the designated community's census tracts must be elected and representative of the low income residents in their census tract. The Deputy Administrator, Office of Community Development, may waive the 45 percent maximum appointment limit only for Tribal Governmental Organizations where the Deputy Administrator determines, in writing, that a more representative board would be obtained through the appointment process.

(4) *Partnerships.* The relationship between the designated community's lead entity board and local governments and other major regional and community organizations operating in the same geographic area is critical to the community's success in implementing its strategic plan. Every effort should be made to identify and maintain relationships with local partners. Documentation including, but not limited to, minutes of meetings, benchmark activity reports and annual reports of the lead entity must reflect the contributions of local partnership entities.

(5) *Public information.* The designated community must have written procedures in place describing the means by which citizens of the community and partnership organizations will be kept informed of the community's activities and progress in implementing the strategic plan, consistent with the principal objective of community based partnerships pursuant to § 25.202(a)(2). These procedures must be kept current and compliance with them documented on an ongoing basis.

* * * * *

11. Subpart G of part 25, consisting of §§ 25.600 through 25.999 is added to read as follows:

Subpart G—Round II and Round IIS Grants

Sec.

25.600 Purpose.
25.601 Delegation of authority.
25.602 Eligible recipients.
25.603 Grant approval and obligation of funds.
25.604 Disbursement of grant funds.
25.605 Grant program reporting requirements.
25.606 Financial management and records.
25.607 Suspension or termination of grant funds.
25.608–25.619 [Reserved]
25.620 Eligible grant purposes.
25.621 Ineligible grant purposes.
25.622 Other considerations.
25.623 Programmatic changes.
25.624–25.999 [Reserved]

§ 25.600 Purpose.

This subpart outlines USDA policies and authorizations and contains procedures for the USDA EZ/EC grant program.

§ 25.601 Delegation of authority.

(a) *Program administration.* The Deputy Administrator, Office of Community Development, shall be responsible for the overall development of policy and administration of the USDA EZ/EC grant program.

(b) *Funding official.* Unless otherwise provided, the state director is responsible for implementing the authorities in this subpart, consistent with the guidance issued by the Office of Community Development. Except for grant approval and environmental determination authorities, state directors may re-delegate their duties to qualified staff members.

(c) *Environmental review determinations.* The funding official is responsible for making environmental review determinations.

(d) *Authority to issue regulations.* The Under Secretary, Rural Development, may promulgate regulations under this part.

§ 25.602 Eligible recipients.

(a) *General.* The grants made under this subpart shall be made to the lead managing entities on behalf of the Round II rural empowerment zones and Round IIS rural enterprise communities, respectively, in accordance with an approved strategic plan. Such grants shall be available to successor entities approved in writing by USDA.

(b) *Exception.* The funding official, with the approval of the Office of Community Development, may elect to award all or part of the available grant funds to an alternate grantee.

(c) *Subrecipients.* The grantee shall relay funds to subrecipients, as provided in the approved strategic plan, as soon as practicable.

§ 25.603 Grant approval and obligation of funds.

Grants may be made at such time as the nominated area has been designated and such other prerequisites as USDA shall determine have been met, including but not limited to:

(a) The empowerment zone or enterprise community has entered into a memorandum of agreement satisfactory to USDA;

(b) The empowerment zone or enterprise community has conformed its strategic plan to be consistent with the level of federal grant aid available and such conforming amendments (if any) have met with the approval of the Office of Community Development and the funding official;

(c) Completion of the environmental review process, including all appropriate public notices;

(d) The proposed grantee has agreed, in form and substance satisfactory to the Office of Community Development, to any funding conditions imposed by USDA;

(e) The grantee has submitted a request for obligation of funds, in form and substance satisfactory to the Office of Community Development, inclusive of the following certification:

"The grantee certifies that it and all direct or substantial subrecipients are in compliance and will continue to comply with all applicable laws, regulations, executive orders and other generally applicable requirements, including those contained in 7 CFR parts 25, 3015, 3016, 3017, 3018, 3019 and 3052 and any agreement to meet funding conditions, in effect at the time of the grant or as subsequently amended."

§ 25.604 Disbursement of grant funds.

(a) The funding official will determine, based on 7 CFR parts 3015, 3016 and 3019, as applicable, whether disbursement of a grant will be by advance or reimbursement.

(b) A "request for advance or reimbursement," in form and substance satisfactory to USDA, must be completed by the grantee on behalf of itself and all applicable subrecipients and submitted to the funding official.

(c) Requests for advance or reimbursement must identify:

(1) The amount requested for each benchmark activity;

(2) The cumulative amount advanced to date (not inclusive of the current amount requested) for each benchmark activity;

(3) The total USDA EZ/EC grant obligated for each benchmark activity;

(4) The total approved budget for the applicable project or program (inclusive of non USDA EZ/EC grant program sources);

(5) An estimated percentage of completion or progress made in accomplishing the benchmark goal associated with each benchmark activity;

(6) Certification that the lead managing entity and the subrecipients (where applicable) are in compliance with all applicable laws and regulatory requirements; and

(7) Such other information as the funding official may require.

(d) Requests for advance or reimbursement may include only activities or projects which are identified in an approved strategic plan.

§ 25.605 Grant program reporting requirements.

Grantees may incorporate grant reporting requirements in the reports submitted pursuant to § 25.400, or submit them separately. In complying with the requirements of 7 CFR parts 3015, 3016, or 3019, as applicable, grantees must submit, in lieu of the forms prescribed therein, the equivalent of such forms prescribed by the Office of Community Development pursuant to this subpart as such may be adapted to the USDA EZ/EC grant program and which may be submitted and retained in electronic form.

§ 25.606 Financial management and records.

(a) In complying with the requirements of 7 CFR parts 3015, 3016, or 3019, as applicable, grantees must submit, in lieu of the forms prescribed therein, the equivalent of such forms prescribed by the Office of Community Development pursuant to this subpart as such may be adapted to the USDA EZ/EC grant program and which may be submitted and retained in electronic form.

(b) Grantees must retain financial records, supporting documents, statistical records and all other records pertinent to the grant for a period of at least 3 years after the end of the designation period, except that the records shall be retained beyond the 3 year period if audit findings have not been resolved or if directed by the United States. Records may be retained and submitted in electronic form if allowed by Generally Accepted Government Accounting Principles.

§ 25.607 Suspension or termination of grant funds.

(a) Grants under this subpart may be suspended or terminated by the funding official, in all or in part, in accordance with this subpart and the applicable provisions of 7 CFR parts 3015, 3016 and 3019, as applicable.

(b) The funding official may elect to suspend or terminate the entirety of a grant, or funding of a particular benchmark activity, but nevertheless fund the remainder of a request for advance or reimbursement, where the funding official has determined:

(1) That grantee or subrecipient of the grant funds has demonstrated insufficient progress toward achieving the related benchmark goal or in any other way failed to comply with the strategic plan;

(2) There is reason to believe that other sources of joint funding have not been or will not be forthcoming on a timely basis;

(3) The strategic plan calls for a revised use of the grant funds; or

(4) Such other cause as the funding official identifies in writing to the grantee (including but not limited to the use of federal grant funds for ineligible purposes).

§§ 25.608–25.619 [Reserved]

§ 25.620 Eligible grant purposes.

Eligible grant purposes are:

(a) Services directed at the goals of—

(1) Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency;

(2) Achieving or maintaining self sufficiency, including reduction or prevention of dependency;

(3) Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating or reuniting families;

(b) Projects and activities identified in the strategic plan for the area; and

(c) Activities that benefit residents of the area for which the grant is made.

§ 25.621 Ineligible grant purposes.

Grant funds may not be used:

(a) As a source of local matching funds required for other federal grants;

(b) To fund political activities:

(c) To duplicate current services or replace or substitute for financial support provided from other sources. If the current service is inadequate, however, grant funds may be used to augment financial support or service levels beyond what is currently provided;

(d) To pay costs of preparing the application package for designation under this program;

(e) To pay costs of a project which were incurred prior to the execution date of the applicable memorandum of agreement;

(f) To pay for assistance to any private business enterprise which does not have at least 51 percent ownership by those who are either citizens of the United States or reside in the United States after being legally admitted for permanent residence;

(g) To pay any judgment or debt owed to the United States;

(h) To assist in the relocation of businesses;

(i) To support or promote gambling; or

(j) For political lobbying.

§ 25.622 Other considerations.

(a) *Civil rights compliance requirements.* All grants made under this subpart are subject to Title VI of the Civil Rights Act of 1964 and 7 CFR part 1901, subpart E.

(b) *Environmental review.* All grants made under this subpart are subject to the environmental requirements in effect for the water and environmental programs of the Rural Utilities Service at 7 CFR part 1794. The threshold levels of environmental review, for projects funded by the USDA EZ/EC grant program (or EZ/EC SSBG funds where the Secretary is authorized to execute the responsibilities under the National Environmental Policy Act of 1969), which projects, by their nature, would qualify for assistance under any program administered by the Rural Housing Service or Rural Business Service within USDA, shall be determined in accordance with 7 CFR part 1940, subpart G as follows:

(1) Projects meeting the descriptions found at 7 CFR 1940.310(b), (c), (d) and (e) shall be considered categorically excluded (without an environmental report) for purposes of 7 CFR 1794.21.

(2) Projects meeting the descriptions found at 7 CFR 1940.311 shall be considered categorically excluded (with an environmental report) for purposes of 7 CFR 1794.22.

(3) Projects meeting the description found at 7 CFR 1940.312 shall require the preparation of an environmental assessment (EA) for purposes of 7 CFR 1794.23.

(4) Projects which would normally require the preparation of an environmental impact statement (EIS) for purposes of 7 CFR 1940.313 shall require an EIS for purposes of 7 CFR 1794.25.

(c) *Other USDA regulations.* This program is subject to the provisions of the following regulations, as applicable:

(1) 7 CFR part 3015, "Uniform Federal Assistance Regulations";

(2) 7 CFR part 3016, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments";

(3) 7 CFR part 3017, "Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants)";

(4) 7 CFR part 3018, "New Restrictions on Lobbying";

(5) 7 CFR part 3019, "Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and other Non-Profit Organizations; and

VOL
67
ISS
57
MR
25
2002
UMI

(6) 7 CFR part 3052, "Audits of States, Local Governments, and Non-Profit Organizations."

§ 25.623 Programmatic changes.

Prior approval from USDA is required for all changes to the scope or objectives of an approved strategic plan or benchmark activity. Failure to obtain prior approval of changes to the strategic plan or benchmarks, including changes to the scope of work or a project budget may result in suspension, termination, and recovery of USDA EZ/EC grant funds.

§§ 25.624–25.999 [Reserved]

Dated: March 18, 2002.

Ann M. Veneman,

Secretary.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 301

[Docket No. 01–054–2]

Phytophthora Ramorum; Quarantine and Regulations

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule and notice of public hearings; correction.

SUMMARY: In an interim rule published in the **Federal Register** and effective on February 14, 2002, we amended the domestic quarantine regulations by quarantining 10 counties in the State of California and a portion of 1 county in the State of Oregon because of the presence of *Phytophthora ramorum* and by regulating the interstate movement of regulated and restricted articles from the quarantined area. The interim rule contained errors in the Supplementary Information section and in the rule portion. This document corrects those errors.

EFFECTIVE DATE: February 14, 2002.

FOR FURTHER INFORMATION CONTACT: Mr. Jonathan Jones, Operations Officer, Invasive Species and Pest Management, PPQ, APHIS, 4700 River Road Unit 134, Riverdale, MD 20737; (301) 734–8247.

SUPPLEMENTARY INFORMATION: In an interim rule published in the **Federal Register** on February 14, 2002 (67 FR 6827–6837, Docket No. 01–054–1), we amended the domestic quarantine regulations in 7 CFR part 301 by adding a subpart, "Phytophthora Ramorum" (§§ 301.92 through 301.92–10, referred to below as the regulations). The regulations quarantine portions of the States of California and Oregon because of *Phytophthora ramorum* and restrict the interstate movement of regulated and restricted articles from quarantined areas.

P. ramorum is a harmful fungus that has been found in several hosts, including manzanita (*Arctostaphylos manzanita*). In the Supplementary Information section and the rule portion of the interim rule, we incorrectly listed all species of *Arctostaphylos* as regulated and restricted articles by identifying manzanita as *Arctostaphylos* spp. Therefore, in order for the regulations to accurately identify this specific host, we are correcting the errors in the rule portion of the interim rule by replacing *Arctostaphylos* spp. with *Arctostaphylos manzanita*.

In FR Doc. 02–3721, published on February 14, 2002 (67 FR 6827–6837), make the following corrections:

PART 301—[CORRECTED]

1. On page 6835, in the first column, in § 301.92–2, in paragraphs (a)(1) and (b)(1), correct "(*Arctostaphylos spp.*)," to read "(*Arctostaphylos manzanita*),".

2. On page 6837, in the first column, in § 301.92–10, in paragraph (b), correct "(*Arctostaphylos* spp.)," to read "(*Arctostaphylos manzanita*),".

Done in Washington, DC, this 19th day of March, 2002.

W. Ron DeHaven,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–U

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 989

[Docket No. FV02–989–3 FIR]

Raisins Produced From Grapes Grown in California; Extension of Redemption Date for Unsold 2001 Diversion Certificates

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Department of Agriculture (USDA) is adopting, as a final rule, without change, an interim final rule that extended the deadline for raisin handlers to redeem diversion certificates issued under the 2001 raisin diversion program (RDP). The deadline is specified under the Federal marketing order for California raisins (order). The order regulates the handling of raisins produced from grapes grown in California and is administered locally by the Raisin Administrative Committee (RAC). This action gave producers additional time to sell their certificates to handlers and thus be compensated for diverting their 2001 production, which is the intent of the RDP.

EFFECTIVE DATE: Effective April 24, 2002.

FOR FURTHER INFORMATION CONTACT: Maureen T. Pello, Senior Marketing Specialist, California Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 2202 Monterey Street, suite 102B, Fresno, California 93721; telephone: (559) 487–5901, Fax: (559) 487–5906; or George Kelhart, Technical Advisor, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW STOP 0237, Washington, DC 20250–0237; telephone: (202) 720–2491, Fax: (202) 720–5698.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW STOP 0237, Washington, DC 20250–0237; telephone: (202) 720–2491, Fax: (202) 720–5698, or E-mail: *Jay.Guerber@usda.gov*.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Order No. 989 (7 CFR part 989), both as amended, regulating the handling of raisins produced from grapes grown in California, hereinafter referred to as the "order." The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "Act."

The USDA is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule continues in effect an interim final rule that extended the deadline for handlers to redeem diversion certificates issued under the 2001 RDP for Natural (sun-dried) Seedless (NS) raisins. The deadline was extended from December 17, 2001, to January 18, 2002, and applied only to certificates unsold by producers to handlers as of December 18, 2001. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule continues in effect an interim final rule that extended the deadline for handlers to redeem diversion certificates issued under the 2001 NS RDP. The deadline was extended from December 17, 2001, to January 18, 2002, and applied only to certificates unsold by producers as of December 18, 2001. This action gave producers additional time to sell their certificates to handlers and thus be compensated for diverting their 2001 production, which is the intent of the RDP. This action was recommended by the RAC at a meeting on December 11, 2001, by a near unanimous vote of 36 in favor, 2 opposed (believed the RAC should adhere to the current deadline), and 1 abstained. All certificates were redeemed by January 18, 2002.

Volume Regulation Provisions

The order provides authority for volume regulation designed to promote orderly marketing conditions, stabilize prices and supplies, and improve producer returns. When volume regulation is in effect, a certain percentage of the California raisin crop may be sold by handlers to any market (free tonnage) while the remaining percentage must be held by handlers in a reserve pool (reserve) for the account of the RAC. Reserve raisins are disposed of through various programs authorized under the order. For example, reserve raisins may be sold by the RAC to handlers for free use or to replace part of the free tonnage they exported; carried over as a hedge against a short crop the following year; or may be disposed of in other outlets not competitive with those for free tonnage raisins, such as government purchase, distilleries, or animal feed. Net proceeds from sales of reserve raisins are ultimately distributed to producers.

Raisin Diversion Program

The RDP is another program concerning reserve raisins authorized under the order and may be used as a means for controlling overproduction. Authority for the program is provided in § 989.56 of the order. Paragraph (e) of that section provides authority for the RAC to establish, with the approval of USDA, such rules and regulations as may be necessary for the implementation and operation of an RDP. Accordingly, additional procedures and deadlines are specified in § 989.156.

Pursuant to these sections, the RAC must meet by November 30 each crop year to review raisin data, including information on production, supplies, market demand, and inventories. If the RAC determines that the available supply of raisins, including those in the reserve pool, exceeds projected market needs, it can decide to implement a diversion program, and announce the amount of tonnage eligible for diversion during the subsequent crop year. Producers who wish to participate in the RDP must submit an application to the RAC prior to December 20. The RAC conducts a lottery if the tonnage applied far exceeds what has been allotted. RAC staff then notifies producers whether they have been accepted into the program.

Approved producers curtail their production by vine removal or some other means established by the RAC. Such producers receive a certificate the following fall from the RAC which represents the quantity of raisins diverted. Producers sell these certificates to handlers who pay producers for the free tonnage applicable to the diversion certificate minus the established harvest cost for the diverted tonnage. Handlers redeem the certificates by presenting them to the RAC by December 15 (Monday, December 17, 2001, for the 2001 RDP since December 15 fell on a Saturday) and paying an amount equal to the established harvest cost plus payment for receiving, storing, fumigating, handling, and inspecting the tonnage represented on the certificate. The RAC then gives the handler raisins from the prior year's reserve pool in an amount equal to the tonnage represented on the diversion certificate. The new crop year's volume regulation percentages are applied to the diversion tonnage acquired by the handler (as if the handler had bought raisins directly from a producer).

2001 NS Diversion Program

The 2000–01 California NS raisin crop was the largest on record with final deliveries of raisins from producers to handlers totaling 432,616 tons. This compares to the 10-year average of 344,303 tons. With this large crop, 203,330 tons of NS raisins were set aside in a reserve pool. Of that reserve tonnage, 89,076 tons were ultimately allocated to a diversion program. As of December 1, 2001, 70,529 tons of diversion certificates had been acquired by handlers. It was reported at the December 11, 2001; RAC meeting, by RAC staff that the status of about 2,000 tons of 2001 diversion certificates was unknown.

RAC Recommendation

The RAC met on December 11, 2001, and addressed a concern expressed by some producers with the 2001 RDP. Some producers were having trouble selling their 2001 diversion certificates to handlers. There was concern that some certificates may remain unsold and unredeemed by the December 15 deadline (or Monday, December 17, 2001, for the 2001 RDP since December 15 fell on a Saturday). Several reasons were mentioned as to why this was occurring. The California raisin industry as a whole is experiencing a severe economic downturn. Two short crops in 1998 and 1999 along with other factors caused producer prices to drop drastically for the 2000 crop, marking the first time in about 13 years that prices had fallen. The value of handler inventories has likewise fallen which has contributed to handler difficulties in securing financing to purchase diversion certificates from producers. In addition, some handlers do not need any more raisins to meet their market needs. In some instances, producers tried to negotiate a premium price for their certificates with handlers.

After deliberating various options (discussed in the following section of this rule regarding the Regulatory Flexibility Analysis), the RAC recommended extending the deadline for handlers to redeem 2001 diversion certificates from December 17, 2001, to January 18, 2002. The extension applied only to 2001 certificates unsold by producers as of December 18, 2001. Producers still holding certificates had to have the certificates verified and stamped appropriately by the RAC by December 21, 2001, to indicate that such certificates were valid until January 18, 2002. Handlers could then purchase these certificates from producers and redeem them for 2000–01 crop reserve raisins following prescribed procedures

VOL
67
ISS
57
MR
25
2002
UMI

in § 989.156(k). This action gave producers still holding certificates additional time to sell their certificates to handlers, and gave handlers additional time to secure financing to purchase the certificates from producers and redeem them with the RAC. All certificates were redeemed by January 18, 2002. Thus, producers will be compensated for diverting their 2001 production, which is the intent of the RDP. Section 989.156(k) was changed accordingly for the 2001 RDP only.

Final Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities. Accordingly, AMS has prepared this final regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 20 handlers of California raisins who are subject to regulation under the order and approximately 4,500 raisin producers in the regulated area. Small agricultural firms are defined by the Small Business Administration (13 CFR 121.201) as those having annual receipts of less that $5,000,000, and small agricultural producers are defined as those having annual receipts of less than $750,000. Thirteen of the 20 handlers subject to regulation have annual sales estimated to be at least $5,000,000, and the remaining 7 handlers have sales less than $5,000,000. No more than 7 handlers, and a majority of producers, of California raisins may be classified as small entities.

This rule continues to revise §§ 989.156(k) of the order's rules and regulations regarding the RDP. Under an RDP, producers receive certificates from the RAC for curtailing their production to reduce burdensome supplies. The certificates represent diverted tonnage. Producers sell the certificates to handlers who, in turn, redeem the certificates with the RAC for raisins from the prior year's reserve pool. This rule continues in effect an interim final rule that extended the deadline for handlers to redeem 2001 diversion certificates with the RAC from December 17, 2001, to January 18, 2002, and applied only to certificates unsold by producers to handlers as of December 18, 2001. All certificates were redeemed by January 18, 2002. Authority for this action is provided in § 989.56(e) of the order.

Regarding the impact of this action on affected entities, producers who curtailed 2001 production and had trouble selling their diversion certificates to handlers had additional time to sell their certificates to handlers. Handlers pay producers for the free tonnage applicable to the diversion certificate minus the established harvest cost for the diverted tonnage. For the 2001 RDP, the industry average free tonnage price applied to diversion certificates was $854 per ton, and applicable harvest costs as established by the RAC were $340 per ton. Preliminary volume regulation percentages for the 2001–02 crop were announced by the RAC at 56 percent free and 44 percent reserve. Thus, using these figures, if a producer was issued a certificate for 100 tons of raisins, he/she would be paid $138.24 per ton by the handler, or a total of $13,824 (($854 per ton × 100 tons × .56) minus (100 tons × $340 per ton harvest cost)). Extending the deadline gave producers additional time to sell their certificates and earn some income for not producing a 2001 crop.

Regarding the impact of this action on handlers, handlers experiencing financial difficulty had additional time to arrange for financing through likely extending lines of credit with financial institutions. Handlers pay producers for the free tonnage applicable to the diversion certificate minus the $340 per ton harvest cost. Handlers redeem the certificates for 2000–01 crop NS reserve raisins and pay the RAC the $340 per ton harvest cost, plus payment for bins ($20 per ton) and for receiving, storing, fumigating, handling (currently totaling $46 per ton) and inspecting (currently $9.00 per ton) the tonnage represented on the certificate (or a total of $415 per ton). In the above example, the handler would redeem the 100-ton certificate with the RAC, pay the RAC $41,500 ($415 per ton × 100 tons), and receive 44 tons (.44 × 100 tons) of raisins from the 2000–01 reserve pool.

In addition, the $41,500 in the above example paid by the handler to the RAC would be allocated to the 2000–01 reserve pool and be used to pay remaining pool expenses or be distributed to 2000–01 reserve pool equity holders (producers). Thus, all such equity holders could potentially benefit from this action.

Several alternatives to the recommended action were considered by the RAC and/or by the RAC's Administrative Issues Subcommittee. It was proposed that the RAC purchase unsold diversion certificates from producers. However, the order currently provides no authority for this. In addition, there are concerns as to how this would impact future raisin diversion programs, in particular, whether the integrity of the RDP could be maintained.

It was also proposed that a late fee be added to handlers' costs for redeeming diversion certificates after December 17, 2001. However, the order provides no authority for such a late charge. Another option considered was to take no action and adhere to the December deadline. Some industry members believe that there is no guarantee that producers can sell their harvested crop each season, and there should likewise be no "guarantee" that producers can sell their diversion certificates.

There was also consideration of other extension dates besides January 18, 2002. However, after much deliberation, the majority of RAC members believe that extending the deadline to January 18, 2002, was the best solution to this situation. This date gives the RAC sufficient time before it recommends final volume regulation percentages to ensure that all redeemed diversion certificates are properly reported as 2001 acquisitions by handlers and included in the 2001–02 crop estimate.

This rule imposes no additional reporting or recordkeeping requirements on either small or large raisin handlers. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the information collection requirement referred to in this rule (i.e., the application) has been approved by the Office of Management and Budget (OMB) under OMB Control No. 0581–0178. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies. Finally, USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

Further, the RAC's meeting on December 11, 2001, and the RAC's Administrative Issues Subcommittee meeting on December 5, 2001, where this action was deliberated were all public meetings widely publicized throughout the raisin industry. All interested persons were invited to attend the meetings and participate in the industry's deliberations.

An interim final rule concerning this action was published in the **Federal Register** on December 19, 2001 (66 FR 65423). Copies of the rule were mailed by RAC staff to all RAC members and alternates, the Raisin Bargaining Association, handlers and dehydrators. In addition, the rule was made available through the Internet by the Office of the Federal Register and USDA. That rule provided for a 15-day comment period that ended on January 3, 2002. One comment was received.

The commenter opposed extending the redemption deadline, expressing concern with changing the rules to accommodate a few producers while the majority of producers were able to sell their certificates by the December deadline. The commenter, who is also a handler, also expressed concern that the extension would apply to producers who had tried to negotiate a premium price for their diversion certificates. The commenter stated that, in such instances, it released the producers from their sales contract.

Similar concerns regarding producers who tried to negotiate a premium price for their diversion certificates with handlers were raised at the RAC meeting by RAC members as well. However, other reasons were given at the meeting as to why some producers were having trouble selling their certificates. As stated earlier in this rule, the California raisin industry as a whole is experiencing a severe economic downturn. Two short crops in 1998 and 1999 along with other factors caused producer prices to drop drastically for the 2000 crop, marking the first time in about 13 years that prices had fallen. The value of handler inventories has likewise fallen which has contributed to handler difficulties in securing financing to purchase diversion certificates from producers. In addition, some handlers do not need any more raisins to meet their market needs. In light of the unusual circumstances currently facing the California raisin industry, the majority of RAC members favored extending the deadline until January 18, 2002. The intent of the RDP is to divert tonnage and reduce supplies, while providing some compensation to producers. Extending the deadline resulted in redemption of all certificates, thus helping to achieve the program's intent.

The commenter also expressed concern that the RAC's statistical report regarding acquisitions of diversion certificates did not appear to reconcile with the RAC staff's report on the status of all diversion certificates. Such a discrepancy would not adversely affect this rulemaking, but may raise compliance issues.

Accordingly, no changes will be made to the rule, based on the comment received.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: *http://www.ams.usda.gov/fv/moab.html*. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the information and recommendation submitted by the RAC, the comment received, and other available information, it is hereby found that finalizing this interim final rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

[FV–01–706 FR Correction]

Hass Avocado Promotion, Research and Information Order; Referendum Procedures; Correction

AGENCY: Agricultural Marketing Service, Agriculture.

ACTION: Final rule; correction.

SUMMARY: This document corrects a final rule that was published on February 19, 2002 [67 FR 7261] by publishing the correct Harmonized Tariff Schedule number for Hass avocados used to determine importer eligibility to vote in the referendum. The rule established referendum procedures to be used in connection with the Hass Avocado Promotion, Research, and Information Order.

EFFECTIVE DATE: March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Julie A. Morin, Research and Promotion Branch, FV, AMS, USDA, Stop 0244, 1400 Independence Avenue, SW., Room 2535 South Building, Washington, DC 20250–0244; telephone (202) 720–9915; facsimile (202) 205–2800; or julie.morin@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

The Department of Agriculture (Department) published a final rule in the **Federal Register** on February 19, 2002 [67 FR 7261], establishing referendum procedures for the referendum on the implementation of the Hass Avocado Promotion, Research, and Information Order [7 CFR Part 1219]. The proposed Order is authorized under the Hass Avocado Promotion, Research, and Information Act of 2000 [7 U.S.C. 7801–7813].

Need for Correction

As published, there was a typographical error in the final rule. In § 1219.101(b) the definition of eligible importer, the Harmonized Tariff Schedule number identifying Hass avocados is incorrect. Accordingly, this correction document contains the correct Hass avocado Harmonized Tariff Schedule number.

Correction

FR Doc. 02–3796, published on February 19, 2002 [67 FR 7261], is corrected as follows:

§ 1219.101 [Corrected]

1. On page 7264, in the second column, in the Definitions for Subpart B—Referendum Procedures, section number § 1219.101(b) is correctly revised to read as follows:

(b) *Eligible importer* means any person who imported Hass avocados that are identified by the number 0804.40.00.10 in the Harmonized Tariff Schedule of the United States for at least one year prior to the referendum. Importation occurs when Hass avocados originating outside of the United States are released from custody by the U.S. Customs Service and introduced into the stream of commerce in the United States. Included are persons who hold title to foreign-produced Hass avocados immediately upon release by the U.S. Customs Service, as well as any persons who act on behalf of others, as agents or brokers, to secure the release of Hass avocados from the U.S. Customs Service when such Hass avocados are entered or

VOL 67 ISS 57 MR 25 2002 UMI

withdrawn for consumption in the United States.

Dated: March 19, 2002.

Airworthiness Directives; Rockwell Collins, Inc. TDR-94 and TDR-94D Mode S Transponders

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that applies to certain Rockwell Collins TDR-94 and TDR-94D Mode S transponders that derive altitude information from a Gillham (gray code) encoded pressure altitude source and are installed on airplanes. This AD requires you to have the unit modified to prevent erroneous altitude reporting. This AD is the result of reports that erroneous altitude resolutions could occur when the affected transponders are utilized in areas with other airplanes equipped with certain aircraft collision avoidance system (ACAS) or traffic alert and collision avoidance system (TCAS) configurations. The actions specified by this AD are intended to prevent these erroneous altitude resolutions from causing a reduction in the intended ACAS or TCAS Change 7 separation margins. Such a condition could result in air traffic control or the pilot making flight decisions that put the airplane in unsafe flight conditions.

DATES: This AD becomes effective on May 3, 2002.

The Director of the Federal Register approved the incorporation by reference of certain publications listed in the regulations as of May 3, 2002.

ADDRESSES: You may get the service information referenced in this AD from Rockwell Collins Inc., Business and Regional Systems, 400 Collins Road Northeast, Cedar Rapids, Iowa 52498. You may view this information at the Federal Aviation Administration (FAA), Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 2000-CE-32-AD, 901 Locust, Room 506, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Roger A. Souter, FAA, Wichita Aircraft Certification Office (ACO), 1801 Airport Road, Room 100, Wichita, Kansas 67209; telephone: (316) 946-4134; facsimile: (316) 946-4407; e-mail: *roger.souter@faa.gov.*

SUPPLEMENTARY INFORMATION:

Discussion

What Events Have Caused This AD?

The FAA has received information that erroneous altitude resolutions could occur on certain Rockwell Collins TDR-94 and TDR-94D Mode S transponders installed in airplanes with Gillham (gray code) encoded sources. This information indicates that these transponders are utilized in areas with other airplanes equipped with certain aircraft collision avoidance system (ACAS) or traffic alert and collision avoidance system (TCAS) configurations. In these situations, the transponders could receive incorrect TCAS resolution advisories. This could result in a reduction in the intended ACAS or TCAS Change 7 minimum separation margins.

Gillham altitude sources have a 100-foot resolution. The affected transponder will set the altitude resolution status to indicate a 25-foot resolution when connected to a Gillham altitude source. For those units that have digital sources of altitude information, the altitude resolution status is set correctly.

These Rockwell Collins TDR-94 and TDR-94D Mode S transponders could be installed on, but not limited to, the following airplanes:

—Aerospatiale ATR42 series airplanes;
—deHavilland DHC-7 and DHC-8 series airplanes; and
—Short Brothers Models SD3-60 and SD3-60 SHERPA airplanes.

What Is the Potential Impact if FAA Took No Action?

As described above, such erroneous altitude resolutions could cause a reduction in the intended ACAS or TCAS Change 7 separation margins and result in air traffic control or the pilot making flight decisions that put the airplane in unsafe flight conditions.

Has FAA Taken Any Action to This Point?

We issued a proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an AD that would apply to certain Rockwell Collins TDR-94 and TDR-94D Mode S transponders that derive altitude information from a Gillham (gray code) encoded pressure altitude source and are installed on airplanes. This proposal was published in the **Federal Register** as a notice of proposed rulemaking (NPRM) on November 5, 2001 (66 FR 55898). The NPRM proposed to require you to have the actions of Rockwell Collins Service Bulletin No. 17 (TDR-94/94D-34-17), dated February 8, 1999, incorporated on any affected Mode S transponder that is installed on a type-certificated airplane where Gillham pressure altitude encoding sources are used.

Was the Public Invited To Comment?

The FAA encouraged interested persons to participate in the making of this amendment. The following presents the comments received on the proposal and FAA's response to each comment:

Comment Issue No. 1: Add Revision 1 of Service Bulletin 17 as an Acceptable Method of Compliance

What Is the Commenter's Concern?

A commenter states that Rockwell Collins Service Bulletin No. 17 (TDR-94/94D-34-17), Revision No. 1, dated May 15, 2000, should be included as an acceptable method of compliance. The commenter states that the only change revision 1 makes to the original service bulletin is in the Material Information.

What Is FAA's Response to the Concern?

The FAA concurs that Revision 1 of the service bulletin should be included as an acceptable method of compliance with this AD. We will incorporate this bulletin into the AD.

Comment Issue No. 2: Add Another Service Bulletin as an Acceptable Method of Compliance

What Is the Commenter's Concern?

The commenter states that Rockwell Collins Service Bulletin 20 (TDR-94/94D-34-20), Revision 1, dated May 2, 2001, should also be included as an acceptable method of compliance with this AD. Service Bulletin 20 allows modification of TDR-94 and TDR-94D Mode S Transponders from the -004 or -005 status to the -006 status. Service Bulletin 20 includes all -005 status functionality required in Service Bulletin 17.

What Is FAA's Response to the Concern?

The FAA concurs that Rockwell Collins Service Bulletin 20 (TDR-94/94D-34-20), Revision 1, dated May 2, 2001, should be included as an acceptable method of compliance with this AD. We will incorporate this bulletin into the AD.

FAA's Determination

What Is FAA's Final Determination on This Issue?

After careful review of all available information related to the subject presented above, we have determined that air safety and the public interest require the adoption of the rule as proposed except for the addition of the referenced service information and minor editorial corrections. We have determined that these additions and minor corrections:

—Provide the intent that was proposed in the NPRM for correcting the unsafe condition; and

—Do not add any additional burden upon the public than was already proposed in the NPRM.

Cost Impact

How Many Airplanes Does This AD Impact?

We estimate that 1,400 affected Rockwell Collins TDR-94 and TDR-94D Mode S transponders could be installed on airplanes in the U.S. registry.

What Is the Cost Impact of This AD on Owners/Operators of the Affected Airplanes?

We estimate the following costs to accomplish the modification:

Labor cost	Parts cost	Total cost per airplane	Total cost on U.S. operators
3 workhours × $60 per hour = $180	$295	$475	$665,000

The manufacturer will provide warranty credit for parts and labor for work done in accordance with Rockwell Collins Service Bulletin No. 17, dated February 8, 1999, Service Bulletin 17, Revision No. 1, dated May 15, 2000, and to the extent noted in Service Bulletin 20, Revision No. 1, dated May 2, 2001.

Compliance Time of This AD

Why Is the Compliance Time of This AD Presented in Calendar Time Instead of Hours Time-In-Service (TIS)?

The compliance of this AD is presented in calendar time instead of hours TIS because the condition exists regardless of airplane operation. The erroneous altitude indications could occur regardless of the number of times and hours the airplane was operated or the age of the Mode S transponder. For these reasons, FAA has determined that a compliance based on calendar time should be utilized in this AD in order to ensure that the unsafe condition is addressed in a reasonable time period on all airplanes that have an affected Rockwell Collins TDR-94 and TDR-94D Mode S transponder installed, and where Gillham pressure altitude encoding sources are used.

Regulatory Impact

Does This AD Impact Various Entities?

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

Does This AD Involve a Significant Rule or Regulatory Action?

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, under the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. FAA amends § 39.13 by adding a new AD to read as follows:

2002-06-06 Rockwell Collins, Inc.: Amendment 39-12683; Docket No. 2000-CE-32-AD.

(a) *What airplanes are affected by this AD?* This AD applies to TDR-94 Mode S transponders (Collins part number (CPN) 622-9352-004) and TDR-94D Mode S transponders (CPN 622-9210-004) that derive altitude information from a Gillham (gray code) encoded pressure altitude source and are installed on, but not limited to, the following airplanes that are certificated in any category:

(1) Aerospatiale ATR42 series airplanes;

(2) deHavilland DHC-7 and DHC-8 series airplanes; and

(3) Short Brothers Models SD3-60 and SD3-60 SHERPA airplanes.

(b) *Who must comply with this AD?* Anyone who wishes to operate any airplane with one of the affected TDR-94 or TDR-94D Mode S Transponder units installed must comply with this AD.

(c) *What problem does this AD address?* The actions specified by this AD are intended to prevent erroneous altitude resolutions from causing a reduction in the intended aircraft collision avoidance system (ACAS) or traffic alert and collision avoidance system (TCAS) Change 7 minimum separation margins. Such a condition could result in air traffic control or the pilot making flight decisions that put the airplane in unsafe flight conditions.

(d) *What actions must I accomplish to address this problem?* To address this problem, you must accomplish the following:

VOL 67 ISS 57 MR 25 2002 UMI

Actions	Compliance	Procedures
(1) Determine whether the altitude information from any TDR–94 Mode S transponder (CPN 622–9352–004) or TDR–94D Mode S transponder (CPN 622–9120–004) is derived from a digital air data source or a Gillham (gray code) encoded source.	Within the next 3 months after May 3, 2002 (the effective date of this AD).	As specified in Rockwell Collins Service Bulletin No. 17 (TDR–94/94D–34–17), dated February 8, 1999, Service Bulletin 17, Revision No. 1, dated May 15, 2000, or Service Bulletin 20 (TDR–94/94D–34–20), Revision No. 1, dated May 2, 2001. Collins Product Information Letter No. 71, dated January 1999, references Service Bulletin 17, dated February 8, 1999
(2) If the altitude information is derived from a Gillham (gray code) encoded source, have the unit modified to prevent erroneous altitude reporting. The modification encompasses converting the TDR–94 transponder from Collins part number (CPN) 622–9352–004 to CPN 622–9352–005 or converting CPN 622–9352–004/005 to CPN 622–9352–006; and converting the TDR 94D transponder from CPN 622–9210–004 to CPN 622–9210–005 or converting CPN 622–9210–004/005 to CPN 622–9210–006.	At the next transponder check required by 14 CFR 91.413 and occurs 3 months after May 3, 2002 (the effective date of this AD) or within the next 9 months after May 3, 2002 (the effective date of this AD), whichever occurs first.	In accordance with Rockwell Collins Service Bulletin No. 17 (TDR–94/94D–34–17), dated February 8, 1999, Service Bulletin 17, Revision No. 1, dated May 15, 2000, or Service Bulletin 20 (TDR–94/94D–34–20), Revision No. 1, dated May 2, 2001. Collin Product Information Letter No. 71, dated January 1999, references Service Bulletin 17, dated February 8, 1999.
(3) If the altitude information from all affected transponders is derived from a digital air data source, no modification action is required by this AD.	Not applicable	Not applicable.
(4) Do not install any TDR–94 Mode S transponder (CPN 622–9352–004) or TDR–94D Mode S transponder (CPN 622–9210–004) on any airplane if the altitude information is derived from a Gillham (gray code) encoded source, unless the modification required by paragraph (d)(2) of this Ad is incorporated.	As of May 6, 2002 (the effective date of this AD).	Accomplish the modification in accordance with Rockwell Collins Service Bulletin No. 17 (TDR–94/94D–34–17), dated February 8, 1999, Service Bulletin 17, Revision No. 1, dated May 15, 2000, or Service Bulletin 20 (TDR–94/94D–34–20), Revision No. 1, dated May 2, 2001. Collins Product Information Letter No. 71, dated January 1999, references Service Bulletin 17, dated February 8, 1999.

(e) *Can I comply with this AD in any other way?* You may use an alternative method of compliance or adjust the compliance time if:

(1) Your alternative method of compliance provides an equivalent level of safety; and

(2) The Manager, Wichita Aircraft Certification Office (ACO), approves your alternative. Submit your request through an FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Wichita ACO.

Note: This AD applies to each airplane identified in paragraph (a) of this AD, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (e) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if you have not eliminated the unsafe condition, specific actions you propose to address it.

(f) *Where can I get information about any already-approved alternative methods of compliance?* You can contact Roger A. Souter, FAA, Wichita Aircraft Certification Office (ACO), 1801 Airport Road, Room 100, Wichita, Kansas 67209; telephone: (316) 946–4134; facsimile: (316) 946–4407; e-mail: roger.souter@faa.gov.

(g) *What if I need to fly the airplane to another location to comply with this AD?* The FAA can issue a special flight permit under sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate your airplane to a location where you can accomplish the requirements of this AD.

(h) *Are any service bulletins incorporated into this AD by reference?* Actions required by this AD must be done in accordance with Rockwell Collins Service Bulletin No. 17 (TDR–94/94D–34–17), dated February 8, 1999, Rockwell Collins Service Bulletin Service Bulletin 17 (TDR–94/94D–34–17), Revision No. 1, dated May 15, 2000, or Service Bulletin 20 (TDR–94/94D–34–20), Revision No. 1, dated May 2, 2001. The Director of the Federal Register approved this incorporation by reference under 5 U.S.C. 552(a) and 1 CFR part 51. You can get copies from Rockwell Collins Inc., Business and Regional Systems, 400 Collins Road Northeast, Cedar Rapids, Iowa 52498. You can look at copies at the FAA, Central Region, Office of the Regional Counsel, 901 Locust, Room 506, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street, NW, suite 700, Washington, DC.

(i) *When does this amendment become effective?* This amendment becomes effective on May 3, 2002.

Issued in Kansas City, Missouri, on March 12, 2002.

Dorenda D. Baker,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

Corrections to Rule Entitled: Revisions to License Exception CTP: Implementation of Presidential Announcement of January 2, 2002

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Final rule.

SUMMARY: On March 8, 2002 the Bureau of Export Administration (BXA) published a final rule revising License Exception CTP. This rule corrects errors in instruction 9.

DATES: This rule is effective March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Sharron Cook in the Office of Exporter Services, Bureau of Export Administration, at (202) 482–2440.

SUPPLEMENTARY INFORMATION:

In rule FR Doc. 02–5562 published on March 8, 2002, (67 FR 10608), BXA makes the following corrections.

PART 742—[CORRECTED]

On page 10610, in the third column, under part 742, in instruction 9, revise the phrase "in paragraph (b)(3)(iv)(A)" to read "in paragraph (b)(3)(iv)(A)," and by revising the phrase "with a CTP greater than 85,000 MTOPS" to read "with a CTP greater than 190,000 MTOPS" in paragraph (b)(3)(i)(B).

Dated: March 19, 2002.

Eileen M. Albanese,

Director, Office of Exporter Services, Export Administration.

BILLING CODE 3510–33–M

RAILROAD RETIREMENT BOARD

20 CFR Part 345

RIN 3220–AB52

Employers' Contributions and Contribution Reports

AGENCY: Railroad Retirement Board.

ACTION: Final rule.

SUMMARY: The Railroad Retirement Board (Board) amends its regulations to permit the filing of contribution reports via the Internet. The Government Paperwork Elimination Act provides that Federal agencies are required by October 21, 2003, to provide "for the option of the electronic maintenance, submission, or disclosure of information, when practicable as a substitute for paper". The changes will permit the filing of Form DC–1, "Employer's Quarterly Report of Contributions Under the Railroad Unemployment Insurance Act" electronically.

DATES: Effective March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Marguerite P. Dadabo, Assistant General Counsel, (312) 751–4945, TTD (312) 751–4701.

SUPPLEMENTARY INFORMATION: The amendments revise sections of part 345 of the Board's regulations (20 CFR part 345) to permit the filing of employer contribution reports via the Internet. The Government Paperwork Elimination Act, Pub. L. 105–277 §§ 1701–1710 (codified as 44 U.S.C. 3504n) provides that Federal agencies are required by October 21, 2003, to provide "for the option of the electronic maintenance, submission, or disclosure of information, when practicable as a substitute for paper". The amendments to part 345 will permit the filing of Form DC–1, "Employer's Quarterly Report of Contributions Under the Railroad Unemployment Insurance Act" electronically.

The revision of § 345.111 provides that if the DC–1 is filed electronically, no duplicate filing is required. The revision to § 345.113 provides that the DC–1 may be filed electronically through the Board's agent. That section is further amended to provide that if the DC–1 is filed electronically, no further authentication is required. The paper Form DC–1 must be signed. However, with submission of the DC–1 electronically, the Board intends to use a user-ID/PIN/password system for the submission of the form as a substitute for a required signature.

Employers currently use a user-ID/PIN/password system to access RRBLINK and make electronic tax deposits. Form DC–1 is being added to the existing system. The user-ID/PIN/password system was established under a Memorandum of Understanding between Firstar Bank and the U.S. Department of the Treasury. A PIN/password system is used to access the pay.gov site to which the RRBLINK system will eventually migrate. The pay.gov site is operated by the U.S. Department of the Treasury. Such a system also is consistent with the guidance provided by the Department of Justice regarding the use of electronic processes.

The revision to § 345.114 permits the use of an electronic version of the DC–1 that can be accessed from the Board's financial agent. Section 345.115 is revised to provide that the DC–1, if filed electronically, may be filed with the Board's designee.

Section 345.124 is revised to clarify that if an employer wishes to appeal the amount of the contribution, interest, or penalty, the procedure in that section is to be followed. Section 345.307 is revised to clarify that if the employer wishes to protest the contribution rate, the procedure in that section is to be followed. In addition, the title of the person who hears such a protest is revised due to an agency reorganization from the "Director of Unemployment and Sickness Insurance" to the "Director of Assessment and Training".

The Board published the proposed rule on January 16, 2002 (67 FR 2157), and invited comments by March 18, 2002. No comments were received. Accordingly, the proposed rule is being published as a final rule without change.

The Board, with the concurrence of the Office of Management and Budget, has determined that this is not a significant regulatory action under Executive Order 12866. Therefore, no regulatory analysis is required. The Office of Management and Budget has approved information collections associated with this rule under control number 3220–0012.

List of Subjects in 20 CFR Part 345

Electronic filing, Paperwork elimination, Railroad unemployment insurance, Reporting and recordkeeping requirements.

For the reasons set out in the preamble, the Railroad Retirement Board amends title 20, chapter II, part 345 of the Code of Federal Regulations as follows:

PART 345—EMPLOYERS' CONTRIBUTIONS AND CONTRIBUTION REPORTS

1. The authority citation for part 345 continues to read as follows:

Authority: 45 U.S.C. 362(l).

2. Section 345.111 of subpart B is revised to read as follows:

§ 345.111 Contribution reports.

(a) *General.* (1) Except as provided in paragraph (a)(2) of this section, every employer shall, for each calendar quarter of each year, prepare a contribution report, in duplicate, on Form DC–1. If the Form DC–1 is filed electronically, no duplicate submission is required.

(2) Contribution reports of employers who are required by State law to pay compensation on a weekly basis shall include with respect to such compensation all payroll weeks in which all or the major part of the compensation falls within the period for which the reports are required.

(b) *Compensation to be reported on Form DC–1.* Employers shall enter on the employer's quarterly contribution report, prior to any additions or subtractions, the amount of creditable compensation appearing on payrolls or other disbursement documents for the corresponding quarter as the amount of creditable compensation from which the contribution payable for that quarter is to be computed.

(Approved by the Office of Management and Budget under control number 3220–0012)

3. Section 345.113 of subpart B is revised to read as follows:

§ 345.113 Execution of contribution reports.

(a) Each contribution report on Form DC–1 shall be signed by hand by:

(1) The individual, if the employer is an individual;

(2) The president, vice president, or other duly authorized officer, if the employer is a corporation; or

(3) A responsible and duly authorized member or officer having knowledge of its affairs if the employer is a partnership or other unincorporated organization.

(b) The Form DC–1 may be filed electronically through the Board's authorized agent. If filed electronically, no further authentication is required.

4. Section 345.114 of subpart B is revised to read as follows:

§ 345.114 Prescribed forms for contribution reports.

Each employer's contribution report, together with any prescribed copies and supporting data, shall be filled out in accordance with the instructions and regulations applicable thereto. The prescribed forms may be obtained from or accessed by contacting the Board. An employer will not be excused from making a contribution report for the reason that no form has been furnished to such employer. Application should be made to the Board for the prescribed forms in ample time to have the contribution report prepared, verified, and filed with the Board on or before the due date. Contribution reports that have not been so prepared will not be accepted and shall not be considered filed for purposes of § 345.115 of this part. In case the prescribed form has not been obtained, a statement made by the employer disclosing the period covered and the amount of compensation with respect to which the contribution is required may be accepted as a tentative contribution report if accompanied by the amount of contribution due. If filed within the prescribed time, the statements so made will relieve the employer from liability for any penalty imposed under this part for the delinquent filing of the contribution report provided that the failure to file a contribution report on the prescribed form was due to reasonable cause and not due to willful neglect, *and provided further*, that within 30 days after receipt of the tentative report, such tentative report is supplemented by a contribution report made on the proper form. (Approved by the Office of Management and Budget under control number 3220–0012)

5. Section 345.115 of subpart B is revised to read as follows:

§ 345.115 Place and time for filing contribution reports.

Each employer shall file its contribution report with the Chief Financial Officer, Railroad Retirement Board, 844 North Rush Street, Chicago, Illinois, 60611–2092, or the Chief Financial Officer's designee. The employer's contribution report for each quarterly period shall be filed on or before the last day of the calendar month following the period for which it is made. If such last day falls on Saturday, Sunday, or a national legal holiday, the report may be filed on the next following business day. If mailed, reports must be postmarked on or before the date on which the report is required to be filed.

6. Section 345.124 of subpart B is revised to read as follows:

§ 345.124 Right to appeal the amount of a contribution, interest, or penalty.

(a) Except as otherwise provided, an employer may seek administrative review of any determination with respect to any contribution, interest, or penalty made under this part by filing a request for reconsideration with the Chief Financial Officer within 30 days after the mailing of notice of such determination. An employer shall have a right to appeal to the Board from any reconsideration decision under this section by filing notice of appeal to the Secretary to the Board within 14 days after the mailing of the decision on reconsideration. Upon receipt of a notice of an appeal, the Board may designate one of its officers or employees to receive evidence and report to the Board under the procedures set forth in part 319 of this chapter. An appeal of the contribution rate is made under § 345.307 of this part.

(b) Any appeal filed under this part shall not relieve the employer from filing any reports or paying any contribution required under this part nor stay the collection thereof. Upon the request of an employer, the Board may relieve the employer of any obligation required under this part pending an appeal. Unless specifically provided by the Board, such relief shall not stay the accrual of interest on any disputed amount as provided for in § 345.122 of this part.

7. Section 345.307 of subpart D is revised to read as follows:

§ 345.307 Rate protest.

(a) *Request for reconsideration.* An employer may appeal a determination of a contribution rate computed under this part by filing a request for reconsideration with the Director of Assessment and Training within 90 days after the date on which the Board notified the employer of its rate of contribution for the next ensuing calendar year. Within 45 days of the receipt of a request for reconsideration, the Director shall issue a decision on the protest.

(b) *Appeal to the Board.* An employer aggrieved by the decision of the Director of Assessment and Training under paragraph (a) of this section may appeal to the Board. Such appeal shall be filed with the Secretary to the Board within 30 days after the date on which the Director notified the employer of the decision on reconsideration. The Board may decide such appeal without a hearing or, in its discretion, may refer the matter to a hearings officer pursuant to part 319 of this chapter.

(c) *Decision of the Board final.* Subject to judicial review provided for in section 5(f) of the RUIA, the decision of the Board under paragraph (b) of this section is final with respect to all issues determined therein.

(d) *Waiver of time limits.* A request for reconsideration or appeal under this section shall be forfeited if the request or appeal is not filed within the time prescribed, unless reasonable cause, as defined in this part, for failure to file timely is shown.

(e) *Rate pending review.* Pending review of the protested rate, the employer shall continue to pay contributions at such rate. Any adjustment in the contributions paid at such rate as the result of an appeal shall be in accordance with § 345.118 of this part.

(f) The amount of a contribution, interest, or penalty may be protested in accord with § 345.124 of this part.

Dated: March 19, 2002.

By Authority of the Board, for the Board.

Beatrice Ezerski,

Secretary to the Board.

[FR Doc. 02–7069 Filed 3–22–02; 8:45 am]

BILLING CODE 7905–01–P

DEPARTMENT OF THE INTERIOR

Office of Indian Education Programs

25 CFR Part 46

RIN 1076–AE29

Technical Amendments to Adult Education Program

AGENCY: Office of Indian Education Programs, Interior.

ACTION: Final rule; corrected.

SUMMARY: This rule changes our estimate of the time it takes to fill out the application form for adult education benefits. The new estimated completion time of four hours more accurately reflects the time that applicants must spend to provide the information that we request. This more accurate estimate satisfies the requirements of the Paperwork Reduction Act and Office of Management and Budget regulations. The application requirements themselves remain unchanged.

EFFECTIVE DATE: Effective on March 25, 2002.

FOR FURTHER INFORMATION CONTACT: William A. Mehojah, Jr., Director, Office of Indian Education Programs, 202–208–6123.

SUPPLEMENTARY INFORMATION: The final rule was published in the **Federal Register** on August 19, 1997 (62 FR 44081). At that time, 46.3 listing a burden time of 3 hours per response was published. Since then, the hour burden has been changed to 4 hours per response and approved by the Office of Management and Budget. We are amending the rule to agree with the approved hour burden. Additionally, we are correcting the address for submission of comments and deleting reference to sending comments to the Office of Management and Budget. The change will not adversely affect respondents.

Determination To Issue A Final Rule

The Department has determined that the public notice and comment provisions of the Administrative Procedure Act, 5 U.S.C. 553(b) do not apply because of the good cause exception under 5 U.S.C. 553(b)(3)(B), which allows the agency to suspend the notice and public procedure when the agency finds for good cause that those requirements are impractical, unnecessary and contrary to the public interest. This amendment brings agreement between the rule and the Information Collection Request (1076–0120) which provides an additional hour for the annual report preparation. We have published this increased burden estimate in the **Federal Register** several times and have received no adverse comments. The rule also directed comments to be sent to the Office of Management and Budget but that is no longer considered necessary by the Office of Management and Budget. For these reasons, public comment on this technical change is unnecessary.

Determination To Make Rule Effective Immediately

The Department has determined that the amended rule should be effective immediately in accordance with 5 U.S.C. 533(d) for the following reasons: (1) The changes to amend the rule have no adverse affect on the public, and (2) the public has had opportunity to comment on the response burden previously during renewal of the Information Collection Request.

Regulatory Planning and Review (Executive Order 12866)

This document is not a significant rule and is not subject to review by the Office of Management and Budget under Executive Order 12866.

(1) This rule will not have an effect of $100 million or more on the economy. It will not adversely affect in a material way the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities.

(2) This rule will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency.

(3) This rule does not alter the budgetary effects or entitlements programs or the rights or obligations of their recipients. The program for adult education is not changed except to put the rule in agreement with the approved information collection.

(4) This rule does not raise novel legal or policy issues. The main impact is to put the rule in agreement with the approved information collection.

Regulatory Flexibility Act

The Department of the Interior certifies that this document will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Funding will not be affected by this minor change to the rule.

Small Business Regulatory Enforcement Fairness Act (SBREFA)

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This rule:

(a) Does not have an annual effect on the economy of $100 million or more.

(b) Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.

(c) Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Unfunded Mandates Reform Act

This rule imposes no unfunded mandates on State, local, or tribal governments or the private sector of more than $100 million per year. The rule does not have a significant or unique effect on State, local, or tribal governments or the private sector. This rule will not require additional costs to state, local, or tribal governments. This rule is in compliance with the provisions of the Unfunded Mandates Act of 1995 (1 U.S.C. 1531, *et seq.*).

Takings (Executive Order 12630)

In accordance with Executive Order 12630, the rule does not have significant takings implications. This rule affects adult education by making the rule agree with the approved information collection. A takings implication assessment is not required.

Federalism (Executive Order 12612)

This rule does not have significant Federalism effects. A Federalism assessment is not required. This rule affects only the small adult education programs of the tribes.

Civil Justice Reform (Executive Order 12988)

In accordance with Executive Order 12988, the Office of the Solicitor has determined that this rule does not unduly burden the judicial system and meets the requirements of sections 3 (a) and 3 (b)(2) of Executive Order 12988.

Paperwork Reduction Act

This regulation requires a collection of information from 10 or more parties, and submission under the Paperwork Reduction Act is required. OMB form 83–I for this collection has been reviewed by the Department and approved by the Office of Management and Budget as 1076–0120.

National Environmental Policy Act

This rule does not constitute a major Federal action significantly affecting the quality of the human environment. It has no effect on the environment. A detailed statement under the National Environmental Policy Act of 1969 is not needed.

Consultation and Coordination With Indian Tribal Governments (Executive Order 13175)

The rewriting of this rule is designed to ensure that the rule agrees with the approved information collection. The rewriting of this rule directs comments to the bureau in accordance with the Office of Management and Budget direction. The addition of 1 hour to the burden has been published in the **Federal Register** several times, allowing the tribes affected and other members of the public to comment.

Clarity of This Regulation

Executive Order 12866 requires each agency to write regulations that are easy to understand. We invite your

comments on how to make this proposed rule easier to understand, including answers to questions such as the following: (1) Are the requirements in the proposed rule clearly stated? (2) Does the proposed rule contain technical language or jargon that interferes with its clarity? (3) Does the format of the proposed rule (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce its clarity? (4) Would the rule be easier to understand if it were divided into more (but shorter) sections? (A "section" appears in bold type and is preceded by the symbol "§" and a numbered heading; for example, § 46.3 Information Collection) (5) Is the description of the rule in the **SUPPLEMENTARY INFORMATION** section of the preamble helpful in understanding the proposed rule? What else could we do to make the rule easier to understand? Send a copy of any comments that concern how we could make this rule easier to understand to: Office of Regulatory Affairs, Department of the Interior, Room 7229, 1849 C Street NW., Washington, DC 20240. You may also e-mail the comments to this address: *Exsec@ios.doi.gov*

List of Subjects in 25 CFR Part 46

Indians—education, adult education.

Dated: March 7, 2002.

Neal A. McCaleb,

Assistant Secretary—Indian Affairs.

For the reasons set out in the preamble, Part 46 of Title 25 of the Code of Federal Regulations is amended as follows:

PART 46—ADULT EDUCATION PROGRAM

1. The authority citation for part 46 continues to read as follows:

Authority: 43 U.S.C. 1457; 25 U.S.C. 2, 9, 13.

2. Section 46.3 is revised to read as follows:

§ 46.3 Information collection.

Information collection requirements contained in this part have been approved by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.* and assigned control number 1076–0120. This information is being collected to assess the need for adult education programs. The information collection is used to manage program resources and for fiscal accountability and appropriate direct services documentation. Response to this request is necessary to obtain or retain a benefit. Public reporting burden for this form is estimated to average 4 hours per response including time for reviewing instructions, gathering, maintaining data, completing and reviewing the form. Direct comments regarding the burden estimate or any other aspect of this form to the BIA Information Collection Clearance Officer, 1849 C Street NW., Washington, DC 20240.

[FR Doc. 02–7000 Filed 3–22–02; 8:45 am]

BILLING CODE 4310–6W–P

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117

[CGD07–02–021]

Drawbridge Operation Regulations: Hatchett Creek (US 41), Gulf Intracoastal Waterway, Venice, Sarasota County, FL

AGENCY: Coast Guard, DOT.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Seventh Coast Guard District, has approved a deviation from the regulations governing the operation of the new Hatchett Creek (US 41) bridge across the Gulf Intracoastal Waterway in Venice, Florida. This deviation allows the drawbridge owner to only open one leaf of the bridge from March 18, 2002, until May 15, 2002, to complete construction of the new bascule leaves. A double leaf opening is available with 6 hours notice to bridge tender.

DATES: This rule is effective from 12:01 a.m. on March 18, 2002, until 11:59 p.m. on May 15, 2002.

ADDRESSES: Comments and material received from the public, as well as comments indicated in this preamble as being available in the docket, are part of docket [CGD07–02–021] and are available for inspection or copying at Commander (obr), Seventh Coast Guard District, 909 SE. 1st Avenue, Room 432, Miami, FL 33131 between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Barry Dragon, Chief, Operations Section, Seventh Coast Guard District, Bridge Branch at (305) 415–6743.

SUPPLEMENTARY INFORMATION: The Florida Department of Transportation requested that the Coast Guard temporarily allow the Hatchett Creek bridge to only open a single leaf of the bridge from March 18, 2002, until May 15, 2002. Double leaf openings will be available with 6 hour advance notice to the bridge tender. This temporary deviation from the existing bridge regulations is necessary to complete construction of the new bascule leaves. The Hatchett Creek (US 41), bridge has a horizontal clearance of 45 feet between the fender and the down span.

The District Commander has granted a temporary deviation from the operating requirements listed in 33 CFR 117.5 to allow the owner to complete construction of the new bascule leaves. Under this deviation, the Hatchett Creek (US 41) bridge need only open a single leaf of the bridge from March 18, 2002, until May 15, 2002. Double leaf openings will be available with a 6 hour advanced notice to the bridge tender.

Dated: March 13, 2002.

Greg Shapley,

Chief, Bridge Administration, Seventh Coast Guard District.

BILLING CODE 4910–15–U

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MO 152–1152a; FRL–7163–2]

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is announcing it is approving the State Implementation Plan (SIP) revision submitted by the state of Missouri which provides for the attainment and maintenance of the sulfur dioxide (SO_2) National Ambient Air Quality Standard (NAAQS) in Springfield (Greene County), Missouri. This revision approves a Consent Agreement which requires SO_2 emission reductions from a major air emissions source in Springfield. Approval of this SIP revision will make the Consent Agreement Federally enforceable.

DATES: This direct final rule will be effective May 24, 2002, unless EPA receives adverse comments by April 24, 2002. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Comments may be mailed to Wayne Kaiser, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

Copies of documents relative to this action are available for public inspection during normal business hours at the above-listed Region 7 location. The interested persons wanting to examine these documents should make an appointment with the office at least 24 hours in advance.

FOR FURTHER INFORMATION CONTACT: Wayne Kaiser at (913) 551–7603.

SUPPLEMENTARY INFORMATION: Throughout this document whenever "we," "us," or "our" is used, we mean EPA. This section provides additional information by addressing the following questions:

What is a SIP?
What is the Federal approval process for a SIP?
What does Federal approval of a state regulation or control strategy mean to me?
What is the NAAQS for SO_2?
What NAAQS exceedances occurred in Springfield, Missouri?
What is the control strategy?
What is contained in the SIP submittal?
Have the requirements for approval of a SIP revision been met?
What action is EPA taking?

What Is a SIP?

Section 110 of the Clean Air Act (CAA) requires states to develop air pollution regulations and control strategies to ensure that state air quality meets the national ambient air quality standards established by EPA. These ambient standards are established under section 109 of the CAA, and they currently address six criteria pollutants. These pollutants are: carbon monoxide, nitrogen dioxide, ozone, lead, particulate matter, and sulfur dioxide.

Each Federally-approved SIP protects air quality primarily by addressing air pollution at its point of origin. These SIPs can be extensive, containing state regulations or other enforceable documents and supporting information such as emission inventories, monitoring networks, and modeling demonstrations.

What Is the Federal Approval Process for a SIP?

In order for state regulations and control strategies to be incorporated into the Federally-enforceable SIP, states must formally adopt them consistent with state and Federal requirements. This process generally includes a public notice, public hearing, public comment period, and a formal adoption by a state-authorized rulemaking body.

Once a state regulation or control strategy is adopted, the state submits it to us for inclusion into the SIP. We must provide public notice and seek additional public comment regarding the proposed Federal action on the state submission. If adverse comments are received, they must be addressed prior to any final Federal action by us.

All state regulations and supporting information approved by EPA under section 110 of the CAA are incorporated into the Federally-approved SIP. Records of such SIP actions are maintained in the Code of Federal Regulations (CFR) at Title 40, Part 52, entitled "Approval and Promulgation of Implementation Plans." The Missouri SIP is published in 40 CFR part 52, subpart AA.

The actual state regulations and control strategies which are approved are not reproduced in their entirety in the CFR outright but are "incorporated by reference," which means that we have approved a given state regulation or control strategy with a specific effective date.

What Does Federal Approval of a State Regulation or Control Strategy Mean to Me?

Enforcement of the state regulation or control strategy before and after it is incorporated into the Federally-approved SIP is primarily a state responsibility. However, after the regulation is Federally approved, we are authorized to take enforcement action against violators. Citizens are also offered legal recourse to address violations as described in section 304 of the CAA.

What Is the NAAQS for SO_2?

As mentioned above, we have established ambient air quality standards for a number of pollutants, including SO_2. These standards are set at levels to protect public health and welfare. The standards are published in 40 CFR part 50. If ambient air monitors measure violations of the standard, states are required to identify the cause of the problem and to take measures which will bring the area back within the level of the standard. The 24-hour standard for SO_2 is 0.14 parts per million, not to be exceeded more than once per year. There is also a 3-hour and an annual standard.

What NAAQS Exceedances Occurred in Springfield, Missouri?

In 1996, there were two exceedances of the 24-hour SO_2 standard at separate monitors in the vicinity of the James River power station. The source of the SO_2 emissions identified as contributing to the exceedances of the NAAQS was the Springfield, Missouri, City Utilities James River power generating station. There are five boilers at this facility.

What Is the Control Strategy?

The Missouri Department of Natural Resources (MDNR) negotiated enforceable emission limitations and other control measures, means, and techniques, as well as schedules and timetables for compliance, sufficient to ensure that the NAAQS for SO_2 will be achieved and maintained in the future. These measures incorporate the use of low sulfur coal and fuel blending. Compliance will be determined through coal sampling and fuel certification, and continuous emissions monitoring.

The control strategy reduces the allowable SO_2 that can be emitted to the atmosphere on a 24-hour average from the five boiler units. Units 1–4 are limited to 1.5 lb/mmBtu of heat input and Unit 5 is limited to 2.0 lb/mmBtu of heat input. The pre-existing limit was 9.2 lb/mmBtu. Two additional SO_2 monitors will be installed in the vicinity of the James River station, for a total of five monitors.

These control strategy requirements were incorporated into a Consent Agreement issued by MDNR to City Utilities. In addition to the conditions above, the Consent Agreement contains monitoring, reporting, and recordkeeping requirements sufficient to determine compliance. These provisions shall also be incorporated into the facility's Title V operating permit.

What Is Contained in the SIP Submittal?

The MDNR submitted a request to us to approve the Consent Agreement as a revision to the Missouri SIP. Additional information is contained in the state submittal and in the EPA Technical Support Document (TSD) for this notice which can be obtained by contacting us at the address above.

Have the Requirements for Approval of a SIP Revision Been Met?

The state submittal has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submittal also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, as explained above and in more detail in the TSD, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

What Action Is EPA Taking?

We are approving a revision to the Missouri SIP which requires source-specific SO_2 emission reductions which will result in attainment and maintenance of the SO_2 NAAQS in Springfield (Greene County), Missouri.

VOL 67 ISS 57 MR 25 2002 UMI

Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104–4).

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the CAA. This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 804 exempts from section 801 the following types of rules: (1) Rules of particular applicability; (2) rules relating to agency management or personnel; and (3) rules of agency organization, procedure, or practice that do not substantially affect the rights or obligations of non-agency parties. (5 U.S.C. 804(3).) EPA is not required to submit a rule report regarding this action under section 801 because this is a rule of particular applicability.

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 24, 2002. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides.

Dated: March 14, 2002.

James B. Gulliford,

Regional Administrator, Region 7.

Chapter I, title 40 of the Code of Federal Regulations is amended as follows:

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MO 114–1114b; FRL–7162–9]

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving as an amendment to the Missouri State Implementation Plan (SIP) a revision to the Missouri construction permit rule. EPA is also responding to comments received during the public comment period. This revision will strengthen the SIP with respect to attainment and maintenance of established air quality standards, ensure consistency between the state and Federally-approved rules, and ensure Federal enforceability of the state's air program rule revisions pursuant to section 110 of the Clean Air Act.

EFFECTIVE DATE: This rule is effective on April 24, 2002.

FOR FURTHER INFORMATION CONTACT: Wayne Kaiser at (913) 551–7603.

SUPPLEMENTARY INFORMATION: Throughout this document whenever "we," "us," or "our" is used, we mean EPA. This section provides additional information by addressing the following questions:

What is a SIP?
What is the Federal approval process for a SIP?
What does Federal approval of a state regulation mean to me?
What is being addressed in this document?
Have the requirements for approval of a SIP revision been met?
What action is EPA taking?

What Is a SIP?

Section 110 of the Clean Air Act (CAA) requires states to develop air pollution regulations and control strategies to ensure that state air quality meets the national ambient air quality standards established by EPA. These ambient standards are established under section 109 of the CAA, and they currently address six criteria pollutants. These pollutants are: carbon monoxide, nitrogen dioxide, ozone, lead, particulate matter, and sulfur dioxide.

Each state must submit these regulations and control strategies to us for approval and incorporation into the Federally-enforceable SIP.

Each Federally-approved SIP protects air quality primarily by addressing air pollution at its point of origin. These SIPs can be extensive, containing state regulations or other enforceable documents and supporting information such as emission inventories, monitoring networks, and modeling demonstrations.

What Is the Federal Approval Process for a SIP?

In order for state regulations to be incorporated into the Federally-enforceable SIP, states must formally adopt the regulations and control strategies consistent with state and Federal requirements. This process generally includes a public notice, public hearing, public comment period, and a formal adoption by a state-authorized rulemaking body.

Once a state rule, regulation, or control strategy is adopted, the state submits it to us for inclusion into the SIP. We must provide public notice and seek additional public comment regarding the proposed Federal action on the state submission. If adverse comments are received, they must be addressed prior to any final Federal action by us.

All state regulations and supporting information approved by EPA under section 110 of the CAA are incorporated into the Federally-approved SIP. Records of such SIP actions are maintained in the Code of Federal Regulations (CFR) at Title 40, part 52, entitled "Approval and Promulgation of Implementation Plans." The actual state regulations which are approved are not reproduced in their entirety in the CFR outright but are "incorporated by reference," which means that we have approved a given state regulation with a specific effective date.

What Does Federal Approval of a State Regulation Mean to Me?

Enforcement of the state regulation before and after it is incorporated into the Federally-approved SIP is primarily a state responsibility. However, after the regulation is Federally approved, we are authorized to take enforcement action against violators. Citizens are also offered legal recourse to address violations as described in section 304 of the CAA.

What Is Being Addressed in This Document?

Background

On April 6, 2001, we published a proposal and a direct final **Federal Register** document to approve Missouri rule 10 CSR 10–6.060, Construction Permits Required, as a revision to the Missouri State Implementation Plan (SIP). Among other revisions, this submission established minimum emission cutoffs for the state's minor new source review (NSR) program. In general, Missouri did not previously have exemptions to its minor NSR program based on emission levels. The revisions, in relevant part, exempt sources with emission levels below 0.5 pounds per hour or 876 pounds per year of a regulated pollutant from the minor source permitting program. Because adverse comments were submitted on our approval of the rule, the direct final rule was withdrawn on June 1, 2001 (66 FR 29705).

Two comment letters were received—one from the Associated Industries of Missouri (AIM) and one from the Regulatory Environmental Group For Missouri (REGFORM). The REGFORM comments were received two days after the close of the comment period, but since its comments were similar to those submitted by AIM, they will also be addressed here.

Response to Comments

Comment 1: The AIM comment was general in nature and pertained to the portion of the rule relating to the emission levels below which permit review for new construction or modification is not required. AIM stated that this issue had been the subject of discussion of a work group involving industry, citizen groups and the Missouri Department of Natural Resources (MDNR), which led up to the revision of the rule, and the work group is again meeting and the "insignificant levels" issue is again being reviewed. Since the rule may be revised again, AIM believes it is inappropriate to incorporate the rule in the SIP at this time. The comments from REGFORM also concerned the "insignificant levels." REGFORM commented that the aforementioned work group was again meeting and that we should not approve this revision, but instead wait until a new rule is promulgated after the work group has completed its deliberations.

Response to Comment 1: The CAA contains two limitations relating to EPA action on SIP submittals which are relevant to the comment. First, section 110(k)(2) provides, in part, that EPA must act on a SIP submission within 12 months after EPA determines that the SIP submission is "complete." Second, section 110(k)(3) provides that we must approve a SIP revision which meets the requirements of the CAA.

VOL
67
ISS
57
MR
25
2002
UMI

Because of the 12-month deadline for EPA action, we would be unable to merely defer action on the submission until the work group reaches consensus on rule changes, and MDNR makes rule changes (MDNR rulemaking process generally takes about one year; MDNR has not begun that process yet and has made no decision to begin the rulemaking process), even if we had a justification for deferring action pending that process. We also note that deferring action would leave in place the current rule, which contains no exemptions based on emission levels, leaving sources subject to a more stringent rule than the revised rule which we are approving into the SIP.

Although the commenters did not suggest that EPA disapprove the rule, we note that disapproval would be the alternative available to EPA under section 110 (k)(2), and that the commenters have not provided any basis for EPA to disapprove the revision. The commenters state that it is inappropriate to approve the revision now, since it may be revised in the future. However, SIP revisions are always subject to future changes, and the CAA provides no basis for us to disapprove a rule merely because it might be changed later. For the reasons stated in the proposal and this final rule, we have determined that the SIP revision meets the requirements of the CAA, and we are approving it under section 110 (k)(3). If MDNR makes further revisions to the rule and submits the revisions to EPA, we will evaluate the revisions and determine whether to incorporate the revisions into the SIP through future rulemaking.

Comment 2: REGFORM also specifically expressed concern about the insignificant level of 0.5 pounds per hour, below which a source is not subject to the rule requirements. REGFORM asserts that establishing a threshold in pounds per hour considerably restricts permit applicants' ability to qualify for an exemption, even if the source is meeting the yearly limit.

Response to Comment 2: EPA recognizes that a per hour emission rate may be more restrictive than a daily or annual rate. However, there is nothing which restricts the state from setting an hourly limit. The state decided that the 0.5 hourly exemption level was appropriate and considered comments on the 0.5 hourly exemption during its public comment period. (The state's response to comments is contained in the July 29, 1999, Missouri Air Conservation Commission Briefing Document.) The state concluded that a short-term applicability limit was needed to ensure protection of short-term air quality standards. The commenter did not provide any information indicating that the state's choice of a short-term limit is inconsistent with the CAA. Therefore, EPA concludes that it cannot disapprove or defer action on this provision merely because it may be more restrictive than the annual applicability limits.

Summary: The comments submitted fail to provide sufficient technical or statutory reasons to not fully approve the revised rule in the Missouri SIP. We therefore are taking final action to approve this rule revision as an amendment to the Missouri SIP.

Have the Requirements for Approval of a SIP Revision Been met?

The state submittal has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submittal also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, as explained in the April 6, 2001, **Federal Register** notice and in more detail in the technical support document which is part of this docket, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

What Action Is EPA Taking?

We are taking final action to approve this rule as a revision to the Missouri SIP.

Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the CAA. This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**.

This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 24, 2002. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides.

Dated: March 14, 2002.

James B. Gulliford,

Regional Administrator, Region 7.

Chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart AA—Missouri

2. In § 52.1320(c) the table is amended under Chapter 6 by revising the entry for "10–6.060" to read as follows:

§ 52.1320 Identification of plan.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 87–260; RM–5728]

Radio Broadcasting Services; Olive Branch, MS

AGENCY: Federal Communications Commission.

ACTION: Final rule; correction.

SUMMARY: The Federal Communications Commission published in the **Federal Register** of June 22, 1988, a document concerning updating the FM Table of Allotments for Section 73.202(b) under Mississippi. The spelling of the community was incorrect. This document corrects the spelling of the community.

DATES: Effective on March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 418–2180.

SUPPLEMENTARY INFORMATION: On June 22, 1988, the Commission published a document (53 FR 23369) amending § 73.202(b), the FM Table of Allotments, by adding Channel 239A at Olive Branch, Mississippi. The name of the community was listed in the FM Table of Allotments as "Olive Brance" in lieu of Olive Branch. This document corrects the spelling of the community.

Federal Communications Commission.

John A. Karousos,

Chief, Allocations Branch, Policy and Rules Division, Mass Media Bureau.

Proposed Rules

Federal Register
Vol. 67, No. 57
Monday, March 25, 2002

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1219

[FV–01–705 PR#2 Correction]

Proposed Hass Avocado Promotion, Research and Information Order; Correction

AGENCY: Agricultural Marketing Service, Agriculture.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a proposed rule that was published on February 19, 2002 [67 FR 7290] by publishing the correct Harmonized Tariff Schedule number for Hass avocados used to identify those avocados which are subject to import assessments.

EFFECTIVE DATE: March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Julie A. Morin, Research and Promotion Branch, FV, AMS, USDA, Stop 0244, 1400 Independence Avenue, SW., Room 2535 South Building, Washington, DC 20250–0244; telephone (202) 720–9915; facsimile (202) 205–2800; or *julie.morin@usda.gov*.

SUPPLEMENTARY INFORMATION:

Background

The Department of Agriculture (Department) published a proposed rule on the Hass Avocado Promotion, Research, and Information Order [7 CFR Part 1219] in the **Federal Register** on February 19, 2002 [67 FR 7290]. The proposed Order is authorized under the Hass Avocado Promotion, Research, and Information Act of 2000 [7 U.S.C. 7801–7813].

Need for Correction

As published, there was a typographical error in the proposed rule. In § 1219.54(c)(2) import assessments, the Harmonized Tariff Schedule number identifying Hass avocados is incorrect. Accordingly, this correction document contains the correct Hass avocado Harmonized Tariff Schedule number.

Correction

FR Doc. 02–3797, published on February 19, 2002 [67 FR 7290], is corrected as follows:

§ 1219.54 [Corrected]

1. On page 7307, in the first column, in the Assessment—Import Assessments, section number § 1219.54(c)(2) is correctly revised to read as follows:

(2) The import assessment shall be uniformly applied to imported fresh Hass avocados that are identified by the number 0804.40.00.10 in the Harmonized Tariff Schedule of the United States or any other numbers to identify fresh Hass avocados. Assessments on other types of imported fresh avocados or on processed Hass avocados, such as prepared, preserved, or frozen Hass avocados or Hass avocado paste, puree, and oil will be added at the recommendation of the Board with the approval of the Secretary.

Dated: March 19, 2002.

A.J. Yates,

Administrator, Agricultural Marketing Service.

BILLING CODE 3410–02–P

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 948

[WV–088–FOR]

West Virginia Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule; reopening of public comment period.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSM) are reopening the public comment period on an amendment to the West Virginia surface mining regulatory program (the West Virginia program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). The program amendment consists of the State's responses to several required program amendments codified in the Federal regulations. The amendment is intended to render the West Virginia program no less effective than the Federal requirements. We are reopening the comment period to provide an opportunity to review and comment on a status report from West Virginia Department of Environmental Protection (WVDEP) of actions taken by the State in an attempt to satisfy the required program amendments, and other related documents. We are also providing opportunity to comment on the State's responses to two required program amendments that we inadvertently omitted from a previous announcement of a public comment period.

This document gives the times and locations that the West Virginia program, the proposed amendments to that program, the status report provided by WVDEP, and other related documents are available for your inspection, and the comment period during which you may submit written comments on the amendment.

DATES: We will accept written comments until 4:30 p.m. (local time), on April 9, 2002.

ADDRESSES: You may mail or hand-deliver written comments to Mr. Roger W. Calhoun, Director, Charleston Field Office at the address listed below.

You may review copies of the West Virginia program, this amendment, a listing of any scheduled public hearings, and all written comments received in response to this document at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. You may receive one free copy of the amendment by contacting OSM's Charleston Field Office.

Mr. Roger W. Calhoun, Director, Charleston Field Office, Office of Surface Mining Reclamation and Enforcement, 1027 Virginia Street, East, Charleston, West Virginia 25301, Telephone: (304) 347–7158. E-mail: *chfo@osmre.gov*.

West Virginia Department of Environmental Protection, 10 McJunkin Road, Nitro, West Virginia 25143, Telephone: (304) 759–0510.

In addition, you may review copies of the proposed amendment, the status report provided by WVDEP, and the other related documents during regular

business hours at the following locations:

Office of Surface Mining Reclamation and Enforcement, Morgantown Area Office, 75 High Street, Room 229, P.O. Box 886, Morgantown, West Virginia 26507, Telephone: (304) 291–4004. (By Appointment Only)

Office of Surface Mining Reclamation and Enforcement, Beckley Area Office, 313 Harper Park Drive, Suite 3, Beckley, West Virginia 25801, Telephone: (304) 255–5265.

FOR FURTHER INFORMATION CONTACT: Mr. Roger W. Calhoun, Director, Charleston Field Office; Telephone: (304) 347–7158.

SUPPLEMENTARY INFORMATION:

I. Background on the West Virginia Program
II. Description of the Proposed Amendment
III. Public Comment Procedures
IV. Procedural Determinations

I. Background on the West Virginia Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, "* * * a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of the Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to the Act." See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the West Virginia program on January 21, 1981. You can find background information on the West Virginia program, including the Secretary's findings, the disposition of comments, and conditions of approval of the West Virginia program in the January 21, 1981, **Federal Register** (46 FR 5915). You can also find later actions concerning West Virginia's program and program amendments at 30 CFR 948.10, 948.12, 948.13, 948.15, and 948.16.

II. Description of the Proposed Amendment

By letter dated November 30, 2000 (Administrative Record Number WV–1189), the WVDEP submitted an amendment to its program. The amendment consists of the State's written response to several required regulatory program amendments codified in the Federal regulations at 30 CFR 948.16. We announced receipt of the proposed amendment on January 3, 2001 (66 FR 335). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the adequacy of the amendment (Administrative Record Number WV–1194).

On January 15, 2002, we met with the WVDEP to discuss our concerns with the proposed amendment and to obtain the State's responses to our concerns (Administrative Record Number WV–1271). The WVDEP submitted a draft status report on February 15, 2002 (Administrative Record Number WV–1274). By letters dated February 26, 2002, and March 8, 2002 (Administrative Record Numbers WV–1277 and WV–1280, respectively), the WVDEP sent us updated status reports, with attachments, that outline the actions taken by WVDEP in an attempt to satisfy the required program amendments. That information is summarized below. On various dates we provided WVDEP with related materials such as West Virginia 2001 Bulletin No. 32 concerning agricultural statistics (Administrative Record Number WV–1269); Natural Resources Conservation Service (NRCS) listing of prime farmland soils in West Virginia (Administrative Record Number WV–1278); and "Technical Guides of Reference Areas and Technical Standards for Evaluating Surface Mine Vegetation in OSM Regions I and II" (Administrative Record Number WV–1277).

We also discussed with the WVDEP the State's responses to several required program amendments that were submitted to us by letter dated May 2, 2001 (Administrative Record Number WV–1209). We announced receipt and provided an opportunity to comment on the amendments submitted on May 2, 2001, in the May 24, 2001, **Federal Register** (66 FR 28682) (Administrative Record Number WV–1213). In that announcement, we inadvertently omitted identifying the State's responses to the required program amendments codified at 30 CFR 948.16(gggg) and (hhhh). Therefore, we are taking this opportunity to announce receipt and provide an opportunity to comment on the State's responses to the required amendments codified at 30 CFR 948.16(gggg) and (hhhh).

We have organized the information provided by WVDEP according to the required program amendment codified at 30 CFR 948.16 that is being addressed. We will begin each discussion by quoting the required amendment. We will then include WVDEP's response to that required amendment, followed by a description of any attachments that were provided by WVDEP. Finally, whenever we add our own words in the form of a note, we will place our note within brackets.

Required Amendments Addressed in the November 30, 2000, Submittal

1. 30 CFR 948.16(dd) Revegetation.

30 CFR 948.16(dd)—West Virginia shall submit proposed revisions to Subsection 38–2–9.3 of its surface mining reclamation regulations or otherwise propose to amend its program to establish productivity success standards for grazing land, pasture land and cropland; require use of the 90 percent statistical confidence interval with a one-sided test using a 0.10 alpha error in data analysis and in the design of sampling techniques; and require that revegetation success be judged on the basis of the vegetation's effectiveness for the postmining land use and in meeting the general revegetation and reclamation plan requirements of Subsections 9.1 and 9.2. Furthermore, * * *, West Virginia shall submit for OSM approval its selected productivity and revegetation sampling techniques to be used when evaluating the success of ground cover, stocking, or production as required by 30 CFR 816.116 and 817.116.

WVDEP response:

Productivity: The WVDEP has developed a policy (Attachment 1) that will use productivity standards developed by the Natural Resources Conservation Service (NRCS) or other publications of the United States Department of Agriculture. These standards will be compared to yields obtained from the particular site.

Ground cover: WVDEP has reviewed the modified Rennie-Farmer Method in addition to methods used in other states and has developed a policy (Attachment 1) which references section 3 of "Technical Guides of Reference Areas and Technical Standards for Evaluating Surface Mine Vegetation in OSM Regions I and II," by Robert E. Farmer, Jr. *et al.*, OSM J5701442/TV–54055A, 1981, U.S. Department of the Interior, Office of Surface Mining Reclamation and Enforcement.

Attachment 1: Productivity and Ground Cover Success Standards

The productivity success standards for grazing land and hayland will be based upon determinations for similar map units as published in the productivity tables in NRCS soil surveys for the county or from average county yields recognized by the United States Department of Agriculture (USDA). The yields for grazing land or hayland will be measured in material produced per acre or animal units supported. The success of production shall be equal to or greater than that of the standard obtained from the tables. Evaluation methods for productivity to be utilized are described in section 1 of "Technical Guides of Reference Areas and Technical Standards for Evaluating Surface Mine Vegetation in OSM Regions I and II" by Robert E. Farmer, Jr. *et. al.*, OSM J5701442/TV–54055A, 1981, U.S. Department of the Interior, Office of Surface Mining Reclamation and Enforcement.

The productivity success standard for cropland shall be determined using yields for reference crops from unmined areas. Reference crop yields shall be determined from the current yields records of representative local farms in the surrounding area or from the average county yields recognized by the USDA. The success of production shall be equal to or greater than that of the reference crop from unmined areas. Evaluation methods for productivity to be utilized are described in section 1 of "Technical Guides of Reference Areas and Technical Standards for Evaluating Surface Mine Vegetation in OSM Regions I and II" by Robert E. Farmer, Jr. *et. al.*, OSM J5701442/TV–54055A, 1981, U.S. Department of the Interior, Office of Surface Mining Reclamation and Enforcement.

The company shall be responsible for providing DEP with copies of the productivity tables and/or data used to determine reference crop yield. Where the USDA or other agricultural data for productivity does not exist for a particular county, the applicant will work with the DEP and the USDA to develop standards for the proposed area.

Ground cover success shall be based on the Rennie and Farmer technique described in section 3 of "Technical Guides of Reference Areas and Technical Standards for Evaluating Surface Mine Vegetation in OSM Regions I and II" by Robert E. Farmer, Jr. *et. al.*, OSM J5701442/TV–54055A, 1981, U.S. Department of the Interior, Office of Surface Mining Reclamation and Enforcement.

2. 30 CFR 948.16(ee) Prime farmland.

30 CFR 948.16(ee)—West Virginia shall submit documentation that the U.S. Soil Conservation Service (SCS), now the NRCS, has been consulted with respect to the nature and extent of the prime farmland reconnaissance inspection required under Subsection 38–2–10.1 of the State's surface mining reclamation regulations. In addition, the State shall either delete paragraphs (a)(2) and (a)(3) of Subsection 38–2–10.2 or submit documentation that the SCS State Conservationist concurs with the negative determination criteria set forth in these paragraphs.

WVDEP response:

Comments from NRCS resolve this issue (WV administrative Record No. 1203). The NRCS stated in their comment letter dated February 9, 2001, to OSM that all prime farmlands in the State have been mapped and are available. WVDEP has contacted the NRCS and has drafted a letter seeking further concurrence (Attachment 1A).

Attachment 1A: February 25, 2002, Letter From WVDEP to NRCS

In the letter that comprises this attachment, WVDEP stated that it was providing NRCS a copy of its rule concerning prime farmlands at CSR 38–2–10 (Attachment 1P). WVDEP requested that NRCS address the following: the reconnaissance inspection and two paragraphs of the negative determination section.

WVDEP described the States reconnaissance inspection process as it currently exists. Included in that description are the following criteria, one or more of which can be the basis of a prime farmland negative determination: (1) No historical use of the land as cropland; (2) the slope of the land in the permit area is greater than 10 percent: (3) other factors (*i.e.*, rocky surface, frequent flooding) disqualify the land as prime farmland; (4) a soil survey by a qualified person.

The letter further states that WVDEP reviews the applicants' information and will check county soil survey maps. The soils in the area are compared to a list from "West Virginia's Prime Farmland Soil Mapping Units" by NRCS (Attachment 3P). If the soils in the proposed mining area are not on the list, then the negative determinations are approved. If the negative determination is not approved, then the NRCS is consulted. If prime farmland is identified, then a much more detailed plan is required.

For counties where no mapping has been published, WVDEP's procedure is described in Attachment 2P. If the slopes are less than 10 percent and the area has historically been used as cropland then NRCS is consulted.

WVDEP further stated that the criteria for both the slope and the rocky or flooded land were based on NRCS literature. Of all the soils identified in the "West Virginia's Prime Farmland Soil Mapping Units" document, not one has greater than 10 percent slope and that same document says that prime farmland cannot be in areas that are flooded frequently nor areas that are rocky (10 percent cover of rock fragments coarser than 3 inches).

The letter of Attachment 1A asked for NRCS concurrence on the State's methods of reconnaissance inspections and with the State's negative determination criteria for prime farmland.

Attachment 2P: Prime Farmlands Identifications

Soil surveys prepared by the NRCS will be the basis for the final determination of prime farmlands in West Virginia involving surface mining permits. In these cases where soil surveys are not complete in a county and prime farmland involvement is possible, the NRCS will conduct a soil survey for the permit area for final determination.

If a permit application contains any areas with less than 10 percent slope and it is evident the area has been used for crops at least 5 years out of the last 20 years, it is possible that these areas could be considered prime farmland.

If this condition is present, you should check the NRCS soil survey for that county. If a soil survey does not exist for a particular county, you should consult the local NRCS District Conservationist for a prime farmland determination.

In counties where soil surveys have been published, you must locate the permit on the soils map and by utilizing the symbols on the map, determine the soil types in the proposed area. Then, comparison with the attached list of soils constituting prime farmlands in West Virginia will have to be made. If the soil type is considered prime farmland on the list, the District Conservationist for that county must be contacted for final determination.

If the permit application involves prime farmland, all provisions of sections 507(b)(16) and 515(b)(7) of Public Law 95–87 and section 10 of the West Virginia Surface Mining Regulations will apply.

Attachment 3P: West Virginia's Prime Farmland Soil Mapping Units

This publication contains a listing of West Virginia's prime farmland soil mapping units. The publication is dated April 1982.

Attachment 4P: This attachment consists of the State response to the required amendment codified at 30 CFR 948.16(ee) as submitted to OSM on November 30, 2000.

3. 30 CFR 948.16(oo). Spillway design.

30 CFR 948.16(oo)—West Virginia shall submit proposed revisions to subsection 38–2–5.4(b)(8) of its surface mining reclamation regulations to require that excavated sediment control structures which are at ground level and which have an open exit channel constructed of non-erodible material be designed to pass the peak discharge of a 25-year, 24-hour precipitation event.

WVDEP response:

The WVDEP is proposing language (Attachment 2) that all sediment control structures spillways will be designed based on a 25-year/24-hour storm except for haulroads.

Attachment 2: This attachment contains the draft language for CSR 38–

VOL
67
ISS
57
MR
25
2002
UMI

2–5.4.b.8. As amended, the proviso that excluded excavated sediment control structures is deleted. In its place is language that provides as follows: "provided, however that this subsection does not apply to haulroads." As amended, CSR 38–2–5.4.b.8. provides as follows.

5.4.b.8. Be designed to safely pass a twenty-five (25) year, twenty-four (24) hour precipitation event. The combination of both principal and/or emergency spillway of the structures shall be designed to safely pass the peak discharge of a twenty-five (25) year, twenty-four (24) hour precipitation event, provided, that a single open channel spillway may be used only if it is of non-erodable construction and designed to carry sustained flows; or earth or grass-lined and designed to carry short term, infrequent flows at non-erosive velocities where sustained flows are not expected; provided, however, that this subsection does not apply to haulroads.

4. 20 CFR 948.16(nnn) Unjust hardship.

30 CFR 948.16(nnn)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to revise Section 22B–1–7(d) to remove unjust hardship as a criterion to support the granting of temporary relief from an order or other decision issued under Chapter 22, Article 3 of the West Virginia Code.

WVDEP response:

The WVDEP is proposing language (Attachment 3) to exclude unjust hardship as criteria to support the granting of temporary relief under WV Code 22–3.

Attachment 3: W. Va. Code 22B–1–7 Appeals to Boards

This attachment consists of the language at 22B–1–7(d) and (h) and identifies how these provisions are proposed to be amended.

Paragraph (d) is amended by adding a proviso that provides as follows: "Provided; however, the criterion of unjust hardship cannot be used to support the granting of temporary relief for an order or other decision issued under article three chapter twenty-two of this code."

5. 30 CFR 948.16(ooo) Temporary relief.

30 CFR 948.16(ooo)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to revise Section 22B–1–7(h) by removing reference to Article 3, Chapter 22.

WVDEP response:

This provision only applies to the Environmental Quality Board (EQB), which adjudicates Clean Water Act appeals. The WVDEP is proposing language (Attachment 3) to delete the reference to Article 3 Chapter 22.

Attachment 3: W. Va. Code 22B–1–7(h) Appeals to Boards

This attachment consists of the language at section 22B–1–7(d) and (h) and identifies how these provisions are proposed to be amended. Paragraph (h) is amended in the first sentence by deleting reference to article "three" chapter 22 of the W. Va. Code.

6. 30 CFR 948.16(sss) Water replacement waiver.

30 CFR 948.16(sss)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to revise CSR 38–2–14.5(h) and 22–3–24(b) to clarify that the replacement of water supply can only be waived under the conditions set forth in the definition of "Replacement of water supply," paragraph (b), at 30 CFR 701.5.

WVDEP response:

The WVDEP has reevaluated its water replacement and waiver requirements at W.Va. Code § 22–3–24 and the rules. As stated in 38–2–14.5.h, the waiver of water supply provided in § 22–3–24(b) only applies to underground operations and the agency plans to propose changes for the 2003 regular legislative session that would clarify that replacement of an affected water supply that is needed for the existing land use or for the post-mining land use cannot be waived. Historically, under the state program, replacement waivers are not sought nor granted for such water supplies. However, in the interim, it is the position of the WVDEP that replacement of water supply can only be waived when consistent with the conditions described in the definition of "Replacement of water supply," paragraph (b), at 30 CFR 701.5.

7. 30 CFR 948.16(vvv)(2) Certification of haul roads.

30 CFR 948.16(vvv)(2)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to amend CSR 38–2–4.12 to reinstate the following deleted language: "and submitted for approval to the Director as a permit revision."

WVDEP response:

The WVDEP has established guidelines (Series 20 Effective 1–97, page 22 of the I&E Handbook, Attachment 4) for approval of minor revisions to the original design. Minor deviations from the approved plan for haulroads (width, grade, etc.) are permissible as long they are within the construction tolerance specified in 38–3.35. [Note: typo, should be 38–2–3.35]

Attachment 4: Minor Revisions Approvable by Field Level Personnel

Policy/Procedures: Minor revisions to original designs must be within the construction tolerances specified in 38–2–3.35. If not, a permit revision is required. The following are examples of minor revisions that are approvable at the field inspector level.

1. Minor drainage structure configuration changes (*i.e.*, round vs. square, spillway on one side instead of the other, *etc.*) as long as the required sediment storage capacity is maintained. (Approved by virtue of the inspector signing off on the as-built certification)

2. Minor road width/slope configuration (as long as the width/slope do not compromise safety considerations). (Approved as an as-built certification)

3. Additional sediment control capacity (*i.e.*, additional sumps on roads, pre sumps in front of sediment ponds). (Approved as an as-built certification)

4. Species substitution on planting plans (*i.e.*, substituting legume for legume, hardwoods for hardwoods, *etc.*). Approved by letter submittal and inspector signs off on it.

5. Minor bench size changes on fills (*i.e.*, wider than twenty (20) feet. (Approved on the final certification)

6. Outlets/spillways constructed of different material than originally proposed. (Approved on the as-built certification)

7. Additional rock flumes on backfill areas (letter approval when constructed).

8. Minor encroachment of the permit boundary (*i.e.*, slips, shootovers, *etc.*). These need to be covered with a notice of violation (NOV) then shown on a progress map or on the final map. The acreage involved has to be included in the disturbed acreage number on the Phase I release application, and the bond reduction calculated accordingly.

Keep in mind that some of these changes need to be delineated on the "map of record." This can be done by requesting a progress map to accompany the certification or letter, or at a mid term review, or at the time of final map submittal (Phase I release).

8. 30 CFR 948.16(vvv)(3) Slurry impoundments.

30 CFR 948.16(vvv)(3)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to amend the West Virginia program by clarifying that the requirements at CSR 38–2–5.4(c) also apply to slurry impoundments.

WVDEP response:

The WVDEP is proposing a change to 5.4.d.4 (Attachment 5) which clarifies that non-MSHA sized coal processing waste dams and embankments will be certified by a registered professional engineer as indicated in 30 CFR 780.25.

Attachment 5: CSR 38–2–5.4.d. Certification

This provision would be amended at subdivision 38–2–5.4.d.3. by adding the words "except all coal processing waste dams and embankments covered by subsection 22.4.c. shall be certified by a registered professional engineer." As amended, CSR 38–2–5.4.d.3. would read as follows: Design and construction certification of embankment type sediment control structures may be performed only by a registered professional engineer or licensed land surveyor experienced in construction of embankments "except all coal processing waste dams and embankments covered by subsection 22.4.c. shall be certified by a registered professional engineer."

9. 30 CFR 948.16(vvv)(4) Coal refuse disposal.

30 CFR 948.16(vvv)(4)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to amend CSR 38–2–14.15(m), or otherwise amend the West Virginia program to require compliance with 30 CFR 816/817.81(b), (d), and (e) regarding coal refuse disposal, foundation investigations, and emergency procedures and to clarify that where the coal processing waste proposed to be placed in the backfill contains acid- or toxic-producing materials, such material must not be buried or stored in proximity to any drainage course such as springs and seeps, must be protected from goundwater by the appropriate use of rock drains under the backfill and along the highwall, and be protected from water infiltration into the backfill by the use of appropriate methods such as diversion drains for surface runoff or encapsulation with clay or other material of low permeability.

WVDEP response:

Clarify that where the coal processing waste proposed to be placed in the backfill contains acid- or toxic-producing materials, such materials must not be buried or stored in proximity to any drainage course such as springs and seeps.

This part of the required program amendment is satisfied by the state rule (14.15.m.2) which requires that coal processing waste will not be placed in the backfill unless it is non-acid and/or non-toxic material or rendered non-acid and/or non-toxic material and by the state rule (14.6.b) which prohibits acid-forming or toxic forming material being buried or stored in proximity to a drainage course or groundwater system.

Emergency Procedures: OSM believes that the State's emergency procedures at subsection 14.15.m.2 may be no less effective than those at 30 CFR 816.81(e).

Material from Outside the Permit Area: The state rules are clear that prior approval of the Secretary is necessary before placing coal refuse material in the backfill regardless of where the material originates. 14.15.m.2. states the following:

The coal processing waste will not be placed in the backfill unless it has been demonstrated to the satisfaction of the Secretary that: 14.15.m.2.A. the coal processing waste to be placed based upon laboratory testing to be non-toxic and/or non-acid producing; or 14.15.m.2.B. an adequate handling plan including alkaline additives has been developed and the material after alkaline addition is non-toxic and/or non-acid producing.

The WVDEP requires the permittee to identify the source of the refuse in addition to the laboratory testing. Any changes in the source of the refuse require approval of the Secretary.

Foundation: This part of the required program amendment is satisfied due to the requirement that backfill be designed and certified by a registered professional engineer so that a minimum long-term static safety factor of 1.3 is achieved for the final graded slope. All stability analyses include properties of the material to be placed, properties of the foundation (whether on solid bench or backfill) and include site conditions that will affect stability.

Acid Material Handling Plan: OSM stated that this required program amendment is based on a comment by EPA on the original submittal of the rule and that EPA did not comment on WVDEP's explanation. In WVDEP's explanation, it stated that the state rule is clear that the material must be non-acid producing or rendered non-acid producing prior to placement before the Secretary can allow placement of the material in the backfill. In addition, WVDEP stated that the rules at 14.6 apply to the handling of all acid producing material.

10. 30 CFR 948.16(zzz) Pre-subsidence surveys.

30 CFR 948.16(zzz)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption to revise 38–2–3.12.a.1., or otherwise amend the West Virginia program to require that the map of all lands, structures, and drinking, domestic, and residential water supplies which may be materially damaged by subsidence show the type and location of all such lands, structures, and drinking, domestic, and residential water supplies within the permit and adjacent areas, and to require that the permit application include a narrative indicating whether subsidence, if it occurred, could cause material damage to or diminish the value or reasonably foreseeable use of such structures or renewable resource lands or could contaminate, diminsh, or interrupt drinking, or residential water supplies.

WVDEP response:

The WVDEP stated the identification of structures on a map as required by 3.12.a includes showing the location and type. However, for clarification, on February 4, 2002, WVDEP modified the permit application to state "Identify Structure (location and type)" (Attachment 6). This program amendment is currently being reviewed by OSM.

Attachment 6: Section S: Underground/Subsidence Information

Section S–2 of the permit application provides as follows: Does the subsidence survey identify any of the following within 30 degree angle of draw above the proposed underground workings? (Minimum 30 decgree angle of draw unless otherwise specified)

A. Perennial and/or intermittent streams?	Yes	No
B. Structures?	Yes	No
C. Renewal Resource Lands?	Yes	No
D. PSD or Municipal Water Works	Yes	No

If Yes to A.. B., C., and/or D. above, identify (location and type) on the topographic map.

11. 30 CFR 948.16(aaaa) Water supply survey.

30 CFR 948.16(aaaa)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption to revise CSR 38–2–3.12.a.2., or otherwise amend the West Virginia program to require that the water supply survey required by CSR 38–2–3.12.a.2. include all drinking, domestic, and residential water supplies within the permit area and adjacent area, without limitation by an angle of draw, that could be contaminated, diminished, or interrupted by subsidence.

WVDEP response:

The 30-degree angle of draw as set forth in state rule is a minimum criteria and the state reserves the right to request surveys within a larger area based on evaluation of the application. However, for clarification, the WVDEP has proposed a change to 3.12.a (Attachment 7).

Attachment 7: CSR 38–2–3.12. Subsidence Control Plan

Subsection 3.12.a.1. is proposed to be amended by adding the words "unless a greater area is specified by the Secretary." In addition, a new sentence is added at the end of this paragraph which is as follows. "A survey that identifies, on a topographic map of a scale of 1 inch = 1,000 feet or less, location and type of water supplies and a narrative indicating whether or not subsidence could contaminate, diminish or interrupt water supplies both on the

VOL 67 ISS 57 MR 25 2002 UMI

permit area and adjacent areas." Other changes are also made. As amended, CSR 38–2–3.12.a.1. would read as follows:

3.12.a.1. A survey that identifies, on a topographic map of a scale of 1 inch = 1,000 feet or less, structures, perennial and intermittent streams or renewable resource lands and a narrative indicating whether or not subsidence would cause material damage or diminution of value or use of such structures or renewable resource lands both on the permit area and adjacent areas within an angle of draw of at least 30 degrees unless a greater area is specified by the Secretary. Provided; however, an angle of draw less than 30 degrees can be requested by the applicant based upon results of site specific analyses and demonstration that a different angle of draw is justified. Computer program packages predicting surface movement and deformation caused by underground coal extraction can be utilized. A survey that identifies, on a topographic map of a scale of 1 inch = 1,000 feet or less, location and type of water supplies and a narrative indicating whether or not subsidence could contaminate, diminish or interrupt water supplies both on the permit area and adjacent areas.

CSR 38–2–3.12.a.2. is proposed to be amended by deleting the phrase "the area encompassed by the applicable angle of draw" and by replacing those words with the phrase "the permit area and adjacent areas." Other minor changes are also proposed. As amended, paragraph 3.12.a.2. would provide as follows. "A survey of the quality and quantity of water supplies that could be contaminated, diminished or interrupted by subsidence within the permit area and adjacent areas."

12. 30 CFR 948.16(bbbb) Pre-subsidence survey report and cost.

30 CFR 948.16(bbbb)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption to revise 38–2–3.12.a.2., or otherwise amend the West Virginia program to require that the permit applicant pay for any technical assessment or engineering evaluation used to determine the premining quality and quantity of drinking, domestic, or residential water supplies, and to require that the applicant provide copies of any technical assessment or engineering evaluation to the property owner and to the regulatory authority.

WVDEP response:

Historically, the presubsidence survey includes any assessments and engineering evaluation used and copies of the survey are to be provided to the property owner and to the WVDEP at the cost of the applicant. However, for clarification, the WVDEP has proposed a change to 3.12.a.2.B. (Attachment 7) to reflect that position.

Attachment 7: Subsidence Control Plan

Subsection CSR 38–2–3.12.a.2.B. is proposed to be amended in the fourth paragraph, by adding the words "at the cost of the applicant" at the beginning of the sentence. In addition, the words "containing any technical assessments and engineering evaluation used in the survey" are added. As amended, the fourth paragraph at CSR 38–2–3.12.a.2.B. provides as follows.

At the cost of the applicant, a written report of the survey containing any technical assessments and engineering evaluation used in the survey shall be prepared and signed by the person or persons who conducted the survey. Copies of the report shall be provided to the property owner and to the Secretary.

13. 30 CFR 948.16(iiii) Recreational facility use.

30 CFR 948.16(iiii)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to amend the term of "recreational uses" at W.Va. Code 22–3–13(c)(3) to mean "recreational facilities use" at SMCRA section 515(c)(3).

WVDEP response:

Neither state code nor state rules define the term "public facility including recreational land use." It is the state position that the term "public facility including recreational land use," implies structures or other significant developments that the public is able to use, or that confer some type of public benefit. Depending upon individual circumstances, this term may include schools, hospitals, airports, reservoirs, museums, and developed recreational sites such as picnic areas, campgrounds, ballfields, tennis courts, fishing ponds, equestrian and off-road vehicle trails, and amusement areas, together with necessary supporting infrastructure such as parking lots and rest facilities. In general, those sites with a public or public facility postmining land use will provide the public with access as a matter of right on a non-profit basis. Facilities that meet a public need, like water supply reservoirs and publicly owned prisons, and facilities that provide a benefit, like flood control structures and institutions of higher education, also qualify, even if they are not readily accessible to all members of the public or completely non-profit.

14. 30 CFR 948.16(nnnn) Abandoned coal refuse removal.

30 CFR 948.16(nnnn)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption to either delete CSR 38–2–3.14 or revise CSR 38–2–3.14 to clearly specify that its provisions apply only to operations that do not qualify as surface mining operations as defined in 30 CFR 700.5. If the State chooses the second option it must submit a sampling protocol that will be used to determine whether the refuse piles meet the definition of coal. The protocol must be designed to ensure that no activities meeting the definition of surface coal mining operations escape regulation under WVSCMRA.

WVDEP response:

WVDEP included the words "and if not AML eligible" to allow for the removal of abandoned coal refuse piles under AML enhancement requirements. The State has developed a sampling protocol and set the BTU value for coal (Attachment 8).

Attachment 8: Removal of Abandoned Coal Refuse Piles

The Secretary may issue a reclamation contract, in accordance with 38–2–3.14, solely for the removal of existing abandoned coal processing waste piles; only if the average quality of the refuse material *does not* meet the minimum BTU value standards to be classified as coal and/or has a percent ash value of greater than 50, as set forth in ASTM standard D 388–99.

Refuse material that *does not* meet minimum BTU value standards to be classified as coal means; a pile of waste products of coal mining, physical coal cleaning, and coal preparation operations (e.g. culm, gob, etc.) containing coal, matrix material, clay, and other organic and inorganic material in which the material in the pile has a calculated average BTU value less than 10,500.

Calculation of the average BTU value of the pile will be based on samples taken in a minimum of five different, uniformly distributed locations. The number and spacing of sampling locations should take into account variability of the material in short distances.

Required Amendments Addressed in the May 2, 2001, Submittal

15. 30 CFR 948.16(xx) Constructed outcrop barriers.

30 CFR 948.16(xx)—West Virginia shall submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to revise subsection CSR 38–2–14.8(a) to specify design requirements for constructed outcrop barriers that will be the equivalent of natural barriers and will assure the protection of water quality and ensure the long-term stability of the backfill.

WVDEP response:

Responding to OSM's concern that the word "inhibit" as in "to inhibit slides and erosion" is less effective than the Federal standard of "prevent" at 30 CFR 816.99(a), WVDEP provided the following.

The state statutory language for outcrop barriers at W.Va. Code 22–3–13(b)(25) requires the retention of the natural barrier to "inhibit" slides and erosion. As set forth in the **Federal Register** dated January 21, 1981, OSM agrees that provisions regarding natural barriers at W.Va. Code 22–3–13(b)(25) and (c)(4) were found to be consistent with section 515(b)(25) of SMCRA.

Standard Engineering Practices.—The constructed outcrop barriers are designed structures that have a required minimum long-term static safety factor while the natural outcrop barriers are not designed structures and are not required to have a minimum factor of safety. Furthermore, the analysis of stability includes consideration of the material to be placed, the foundation and site conditions. The WVDEP is in the process of developing guidelines for constructed outcrop barriers that will include: requirements for the outslope; sequencing of construction of the outcrop barrier; and minimum factor of safety when barrier is part of the sediment control system (Attachment 9).

[**Note:** Attachment 9 completes WVDEP's process of developing guidelines for constructed outcrop barriers.]

Attachment 9: Constructed Outcrop Barriers

Standard engineering practices for constructed outcrop barriers shall include the following:

1. The design of the constructed barrier shall take into consideration site conditions.

2. The construction of the outcrop barrier shall occur simultaneously with the removal of the natural barrier and be located at or near the edge of the lowest coal seam being mined. Temporary measures must be in place until the barrier is constructed.

3. The recommended outslope of the constructed barrier is 2v:1v

[**Note:** This is a typo, and should be 2v:1h.]

with a static safety factor of 1.3.

4. If the proposed outslope is steeper than 2v:1v

(**Note:** This is a typo, and should be 2v:1h.],

the constructed barrier shall be designed to have a static safety factor of 1.5.

5. If constructed barrier is part of the sediment control system (sediment ditch), the constructed barrier shall be designed to have a static safety factor of 1.5.

16. 30 CFR 948.16(gggg) Bonding for water replacement.

30 CFR 948.16(gggg)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption to amend 38–2–16.2.c.4., or to otherwise amend the West Virginia program, to be no less effective than the Federal regulations at 30 CFR 817.121(c)(5) by requiring additional bond whenever protected water supplies are contaminated, diminished, or interrupted by underground mining operations conducted after October 24, 1992. The amount of the additional bond must be adequate to cover the estimated cost of replacing the affected water supply.

In the program amendment submitted by the WVDEP on May 2, 2001, WVDEP proposed to amend CSR 38–2–16.2.c.4. by deleting the existing first two sentences. In their place, the following sentences are added.

The director shall issue a notice to the permittee that subsidence related material damage has occurred to lands, structures, or water supply, and that the permittee has ninety (90) days from the date of notice to complete repairs or replacement. The director may extend the ninety (90) day abatement period but such extension shall not exceed one (1) year from the date of the notice. Provided, however, the permittee demonstrates in writing, and the director concurs that subsidence is not complete, that not all probable subsidence related material [damage] has occurred to lands or structures; or that not all reasonably anticipated changes have occurred affecting the water supply, and that it would be unreasonable to complete repairs or replacement within the ninety (90) day abatement period.

In addition, the final existing sentence is being amended by adding the following words to the end of the sentence: "to land or structures, or the estimated cost to replace water supply."

This amendment is intended to address the required program amendment codified at 30 CFR 948.16(gggg). For more information, see Finding 26 in the February 9, 1999, **Federal Register** (64 FR 6201, 6212–6213).

WVDEP response:

Under the state program additional bond is required whenever a protected water supply will be contaminated, diminished, or interrupted by underground mining and the amount of bond is based to be the estimated cost of replacing the water supply. However, for clarification, WVDEP has proposed a change to 16.2.c.4 (Attachment 10).

Attachment 10: CSR 38–2–16.2.c.4. Bonding for Subsidence Damage

CSR 38–2–16.2.c.4. is proposed to be amended by deleting the word "that" in the first sentence immediately after the word "permittee." In its place, the word "when" is added. In addition, the first sentence is amended by adding the words "when contamination, diminution or interruption occurs to a domestic or residential water supply" are added immediately following the words "structures, or." As amended, CSR 38–2–16.2.c.4. provides as follows.

16.2.c.4. Bonding for Subsidence Damage: The Secretary shall issue a notice to the permittee when subsidence related material damage has occurred to lands, structures, or when contamination, diminution or interruption occurs to a domestic or residential water supply, and that the permittee has ninety (90) days from the date of notice to complete repairs or replacement. The Secretary may extend the ninety (90) day abatement period but such extension shall not exceed one (1) year from the date of the notice. Provided, however, the permittee demonstrates in writing, and the Secretary concurs that subsidence is not complete, that not all probable subsidence related material [damage] has occurred to lands or structures; or that not all reasonably anticipated changes have occurred affecting the water supply, and that it would be unreasonable to complete repairs or replacement within the ninety (90) day abatement period. If extended beyond ninety (90) days, as part of the remedial measures, the permittee shall post an escrow bond to cover the estimated costs of repairs to land or structures, or the estimated cost to replace water supply.

17. 30 CFR 948.16(hhhh) Time allowed for bonding for water replacement.

30 CFR 948.16(hhhh)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption to amend CSR 38–2–16.2.c.4., or to otherwise amend the West Virginia program, to be no less effective than the Federal regulations at 30 CFR 817.121(c)(5), by requiring that the 90-day period before which additional bond must be posted begin to run from the date of occurrence of subsidence-related material damage.

In the program amendment submitted by the WVDEP on May 2, 2001, WVDEP proposed to amend CSR 38–2–16.2.c.4. by deleting the existing first two sentences. In their place, the following sentences are added.

The director shall issue a notice to the permittee that subsidence related material damage has occurred to lands, structures, or water supply, and that the permittee has ninety (90) days from the date of notice to complete repairs or replacement. The Secretary may extend the ninety (90) day abatement period but such extension shall not exceed one (1) year from the date of the notice. Provided, however, the permittee demonstrates in writing, and the Secretary concurs that subsidence is not complete, that not all probable subsidence related material [damage] has occurred to lands or structures; or that not all reasonably anticipated changes have occurred affecting the water supply, and that it would be unreasonable to complete repairs or replacement within the ninety (90) day abatement period. If extended beyond ninety (90) days, as part of the remedial measures, the permittee shall post an escrow bond to cover the estimated costs of repairs to land or structures, or the estimated cost to replace water supply.

In addition, the last existing sentence is being amended by adding the following words to the end of the sentence: "to land or structures, or the estimated cost to replace water supply."

This amendment is intended to address the required program amendment codified at 30 CFR 948.16(hhhh). For more information, see Finding 26 in the February 9, 1999, **Federal Register** (64 FR 6201, 6212–6213).

VOL
67
ISS
57
MR
25
2002
UMI

WVDEP response:

OSM agreed to reevaluate its rules and other program approval decisions, especially Pennsylvania Act 54. OSM agrees that the State can provide notification to an operator of a water problem under 30 CFR 817.121(c)(5). Once an operator is notified of the problem and if repair, replacement, or compensation cannot occur within 90 days, the operator is required to post the additional bond. In addition, an extension of time beyond 90 days is allowed for the reasons set forth under 30 CFR 817.121(c)(5). The parties agreed that counsel for OSM and counsel for WVDEP would reevaluate this issue.

[**Note:** With respect to Act 54, OSM did not reconsider its decision on Act 54, we merely checked to see if it had any relevance to this issue.]

18. 30 CFR 948.16(pppp) Bond release and premining water quality.

30 CFR 948.16(pppp)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption, to remove CSR 38–2–24.4.

WVDEP response:

OSM acknowledged that the offending language in 24.4 was deleted with the passage of H. B. 2663.

Required Amendments Not Addressed by WVDEP

19. 30 CFR 948.16(oooo) Coal removal incidental to construction.

30 CFR 948.16(oooo)—West Virginia must submit either a proposed amendment or a description of an amendment to be proposed, together with a timetable for adoption to remove CSR 38–2–23.

WVDEP response:

WVDEP proposed to delete the incidental mining requirements at subsection 23, but its rule advisory council recommended that the proposed deletion be removed from the final rule change. WVDEP acknowledged that these provisions have been disapproved by OSM, and they are not implementing them, as recently evidenced by the West Virginia Supreme Court decision. However, WVDEP did acknowledge that they would continue to pursue with OSM and others the approval of incidental coal removal requirements to prevent the wasting of coal. OSM said that WVDEP must provide it a schedule showing that it is attempting to get these provisions out of its program.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the State program.

Written Comments

Send your written or electronic comments to OSM at the address given above. Your written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of your recommendation(s). We will not consider or respond to your comments when developing the final rule if they are received after the close of the comment period (*see* **DATES**). We will make every attempt to log all comments into the administrative record, but comments delivered to an address other than the Charleston Field Office may not be logged in.

Electronic Comments

Please submit Internet comments as ASCII or Word file avoiding the use of special characters and any form of encryption. Please also include "Attn: SPATS No. WV–088–FOR" and your name and return address in your Internet message. If you do not receive a confirmation that we have received your Internet message, contact the Charleston Field Office at (304) 347–7158.

Availability of Comments

We will make comments, including names and addresses of respondents, available for public review during our normal business hours. We will not consider anonymous comments. If individual respondents request confidentiality, we will honor their request to the extent allowable by law. Individual respondents who wish to withhold their names or address from public review, except for the city or town, must state this prominently at the beginning of their comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

IV. Procedural Determinations

Executive Order 12630—Takings

This rule does not have takings implications. This determination is based on the analysis performed for the counterpart Federal regulations.

Executive Order 12866—Regulatory Planning and Review

This rule is exempt from review by the Office of Management and Budget (OMB) under Executive Order 12866.

Executive Order 12988—Civil Justice Reform

The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 and has determined that, to the extent allowable by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State regulatory programs and program amendments because each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of SMCRA (30 U.S.C. 1253 and 1255) and the Federal regulations at 30 CFR 730.11, 732.15, and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731, and 732 have been met.

Executive Order 13132—Federalism

This rule does not have Federalism implications. SMCRA delineates the roles of the Federal and State governments with regard to the regulation of surface coal mining and reclamation operations. One of the purposes of SMCRA is to "establish a nationwide program to protect society and the environment from the adverse effects of surface coal mining operations." Section 503(a)(1) of SMCRA requires that State laws regulating surface coal mining and reclamation operations be "in accordance with" the requirements of SMCRA. Section 503(a)(7) requires that State programs contain rules and regulations "consistent with" regulations issued by the Secretary pursuant to SMCRA.

Executive Order 13211—Regulations That Significantly Affect the Supply, Distribution, or Use of Energy

On May 18, 2001, the President issued Executive Order 13211 which requires agencies to prepare a Statement of Energy Effects for a rule that is (1) considered significant under Executive Order 12866, and (2) likely to have a significant adverse affect on the supply, distribution, or use of energy. Because this rule is exempt from review under Executive Order 12866 and is not expected to have a significant adverse effect on the supply, distribution, or use of energy, a Statement of Energy Effects is not required.

National Environmental Policy Act

Section 702(d) of SMCRA (30 U.S.C. 1292(d)) provides that a decision on a proposed State regulatory program provision does not constitute a major Federal action within the meaning of section 102(2)(C) of the National Environmental Policy Act (NEPA) (42 U.S.C. 4332(2)(C)). A determination has been made that such decisions are categorically excluded from the NEPA process (516 DM 8.4.A).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by the OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulation.

Small Business Regulatory Enforcement Fairness Act

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This rule: (a) Does not have an annual effect on the economy of $100 million; (b) will not cause a major increase in costs or prices for consumers, individual industries, geographic regions or Federal, State, or local government agencies; and (c) does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

This determination is based upon the fact that the State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an analysis was prepared and a determination made that the Federal regulation was not considered a major rule.

Unfunded Mandates

This rule will not impose a cost of $100 million or more in any given year on any governmental entity or the private sector.

List of Subjects in 30 CFR Part 948

Intergovernmental relations, Surface mining, Underground mining.

Dated: March 8, 2002.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 165

[CGD01–02–024]

RIN 2115–AA97

Safety Zone: Beverly Homecoming Fireworks—Beverly, MA

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to establish a temporary safety zone for the Beverly Homecoming Fireworks on August 11, 2002 in Beverly, MA. The safety zone would temporarily close all waters of Beverly Harbor in a 400-yard radius of the fireworks barge located at position 42°32′36″ N, 070°51′50″ W. The safety zone would prohibit entry into or movement within this portion of Beverly Harbor during the closure period.

DATES: Comments and related material must reach the Coast Guard on or before May 1, 2002.

ADDRESSES: You may mail comments and related material to Marine Safety Office Boston, 455 Commercial Street, Boston, MA. Marine Safety Office Boston maintains the public docket for this rulemaking. Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, will become part of the docket and will be available for inspection or copying at Marine Safety Office Boston between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Chief Petty Officer Michael Popovich, Marine Safety Office Boston, Waterways Safety and Response Division, at (617) 223–3000.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking (CGD01–02–024), indicate the specific section of this document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like to know your comments reached us, please enclose a stamped, self addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

Public Meeting

We do not plan to hold a public meeting. However, you may submit a request for a meeting by writing to Marine Safety Office Boston at the address under **ADDRESSES** explaining why one would be beneficial. If we determine that a public meeting would aid this rulemaking, we will hold one at a time and place announced by a separate notice in the **Federal Register**.

Background and Purpose

This proposed regulation would establish a safety zone in Beverly Harbor within a 400-yard radius of the fireworks barge located at position 42°32′36″ N, 070°51′50″ W. The safety zone would be in effect from 8 p.m. until 10:30 p.m. on August 11, 2002.

The zone would restrict movement within this portion of Beverly Harbor and is needed to protect the maritime public from the dangers posed by a fireworks display. Marine traffic may transit safely outside of the safety zone during the effective periods. The Captain of the Port does not anticipate any negative impact on vessel traffic due to this event. Public notifications will be made prior to the effective period via safety marine information broadcasts and local notice to mariners.

Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040, February 26, 1979).

The Coast Guard expects the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the

VOL
67
ISS
57
MR
25
2002
UMI

regulatory policies and procedures of DOT is unnecessary.

Although this proposed regulation will prevent traffic from transiting a portion of Beverly Harbor during the effective periods, the affects of this regulation will not be significant for several reasons: The minimal time that vessels will be restricted from the area, vessels may safely transit outside of the safety zone, and advance notifications which will be made to the local maritime community by safety marine information broadcasts and local notice to mariners.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), the Coast Guard considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule would not have a significant economic impact on a substantial number of small entities. This rule would affect the following entities, some of which may be small entities: The owners or operators of vessels intending to transit or anchor in a portion of Beverly Harbor on August 11, 2002. This safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons: Vessel traffic can safely pass outside of the safety zone during the effective periods, the periods are limited in duration, and advance notifications which will be made to the local maritime community by safety marine information broadcasts and local notice to mariners.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Chief Petty Officer Michael Popovich at the address listed under **ADDRESSES.**

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

The Coast Guard analyzed this proposed rule under Executive Order 13132 and has determined that this rule does not have implications for federalism under that Order.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those costs. This proposed rule would not impose an unfunded mandate.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Execute Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

The Coast Guard analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not pose an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. We invite your comments on how this proposed rule might impact tribal governments, even if that impact may not constitute a "tribal implication" under the Order.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

The Coast Guard considered the environmental impact of this proposed rule and concluded that, under figure 2–1, (34)(g), of Commandant Instruction M16475.lD, this proposed rule is categorically excluded from further environmental documentation. A "Categorical Exclusion Determination" is available in the docket where indicated under **ADDRESSES.**

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191, 33 CFR 1.05–1(g), 6.04–1, 6.04–6, 160.5; 49 CFR 1.46.

2. Add temporary § 165.T01–024 to read as follows:

§ 165.T01–024 Safety Zone: Beverly Homecoming Fireworks—Beverly, Massachusetts.

(a) *Location.* The following area is a safety zone: All waters of Beverly Harbor in a 400-yard radius of the fireworks barge located at position 42°32′36″ N, 070°51′50″ W.

(b) *Effective date.* This section is effective from 8 p.m. until 10:30 p.m. on August 11, 2002.

(c) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into or movement within this zone will be prohibited unless authorized by the Captain of the Port Boston.

(2) All vessel operators shall comply with the instructions of the COTP or the designated on-scene U.S. Coast Guard patrol personnel. On-scene Coast Guard patrol personnel include commissioned, warrant, and petty officers of the Coast Guard on board Coast Guard, Coast Guard Auxiliary, local, state, and federal law enforcement vessels.

Dated: March 1, 2002.

B.M. Salerno,

Captain, U.S. Coast Guard, Captain of the Port, Boston, Massachusetts.

BILLING CODE 4910–15–U

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MO 152–1152; FRL–7163–1]

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Missouri which provides for the attainment and maintenance of the sulfur dioxide (SO_2) National Ambient Air Quality Standard (NAAQS) in Springfield (Greene County), Missouri. This revision approves a Consent Agreement which requires SO_2 emission reductions from a major air emissions source in Springfield. Approval of this SIP revision will make the Consent Agreement Federally enforceable. In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed action must be received in writing by April 24, 2002.

ADDRESSES: Comments may be mailed to Wayne Kaiser, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

FOR FURTHER INFORMATION CONTACT: Wayne Kaiser at (913) 551–7603.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule which is located in the rules section of the **Federal Register**.

Dated: March 14, 2002.

James B. Gulliford,

Regional Administrator, Region 7.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket No. 020313055–2055–01; I.D. 021902F]

RIN 0648–AO62

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Charter Vessel and Headboat Permit Moratorium

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS issues this proposed rule to implement Amendment 14 to the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic (Amendment 14) and Amendment 20 to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (Amendment 20). This proposed rule would establish a 3–year moratorium on the issuance of charter vessel or headboat (for-hire) permits for the reef fish fishery and coastal migratory pelagics fishery in the exclusive economic zone (EEZ) of the Gulf of Mexico. In addition, as a consequence of the proposed moratorium, the current charter vessel/headboat permit system for coastal migratory pelagic fish would be restructured to provide separate permits for the Gulf of Mexico and South Atlantic. The intended effect of this rule is to cap the number of for-hire vessels operating in these respective fisheries at the current level while the Gulf of Mexico Fishery Management Council (Council) evaluates the need for further management actions that may be needed to rebuild these fishery resources, and to promote attainment of optimum yield.

DATES: Comments must be received no later than 5 p.m., eastern daylight savings time, on May 9, 2002.

ADDRESSES: Written comments on the proposed rule must be sent to Phil Steele, Southeast Regional Office, NMFS, 9721 Executive Center Drive N., St. Petersburg, FL 33702. Comments also may be sent via fax to 727-570-5583. Comments will not be accepted if submitted via e-mail or Internet. Copies of the initial regulatory flexibility analysis (IRFA) prepared by NMFS for this proposed rule are available from the same address.

Comments on the collection-of-information requirements contained in this rule should be sent to Robert Sadler, Southeast Regional Office, NMFS, 9721 Executive Center Drive N., St. Petersburg, FL 33702, and to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20503 (Attention: NOAA Desk Officer).

Copies of Amendments 14 and 20, which include an environmental assessment, and a regulatory impact review (RIR), and copies of two related minority reports opposing implementation of the proposed moratorium may be obtained from the Gulf of Mexico Fishery Management Council, Suite 1000, 3018 U.S. Highway 301 North, Tampa, FL 33619; telephone: 813–228–2815; fax: 813–225–7015; e-mail: *Gulf.Council@noaa.gov.*

FOR FURTHER INFORMATION CONTACT: Phil Steele, telephone: 727–570–5305, fax: 727–570–5583, e-mail: *Phil.Steele@noaa.gov.*

SUPPLEMENTARY INFORMATION: The fishery for reef fish is managed under the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (Reef Fish FMP) that was prepared by the Council. The fisheries for coastal migratory pelagic resources are managed under the Fishery Management Plan for the Coastal

VOL
67

57
MR
25
2002
UMI

Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic (Coastal Migratory Pelagics FMP) that was prepared jointly by the Council and the South Atlantic Fishery Management Council. These FMPs were approved by NMFS and implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

Background

The Council, in cooperation with the Gulf charter vessel/headboat industry, developed Amendments 14 and 20 to address issues of increased fishing mortality and fishing effort in the for-hire sector of the recreational fishery. There are an estimated 3,220 recreational for-hire vessels in the Gulf of Mexico. Of these for-hire vessels, there are an estimated 1,275 charter vessels and 92 headboats; the remainder are probably smaller guide boats that usually fish inshore. The number of charter boats operating in the Gulf of Mexico has increased from 516 in 1981 to 1,275 in 1998 (147 percent), while the number of headboats has remained relatively stable during the same period. Further, the number of individual angler charter vessel trips increased by approximately 51 percent (through 1998) over the average number of trips from the previous decade.

During this same period, there has been an increase in the number of fish stocks identified as overfished or approaching an overfished state. In the January 2001 report to Congress on the Status of U.S. Fisheries, red snapper and red grouper were classified as being overfished and undergoing overfishing. Gag grouper was classified as undergoing overfishing and approaching an overfished state. King mackerel was classified as overfished and vermillion snapper was classified as undergoing overfishing. Further, the Council was notified, by a letter from NMFS in January, 2001, that greater amberjack was overfished.

While all sectors have contributed to the overfished status of these important fisheries, higher catch rates by the for-hire sector in recent years have substantially increased the proportion of landings attributed to that sector. The percent of recreational red grouper landed by number by charter vessel and headboats increased from 14 percent (1988–1989) to 32 percent (1996–1997); the percent of recreational red snapper landed by number increased from 34 percent (1981–1982) to 62 percent (1988–1989) to 71 percent (1996–1997). This increase in catch rate by the recreational for-hire sector has contributed to the progressively earlier closures of the red snapper recreational fishery each year. This fishery was closed on November 27 in 1997, September 30 in 1998, and August 29 in 1999. This progressively longer closure period is adversely impacting the charter vessel headboat sector that is dependent on this stock. Additionally, for king mackerel, the percent of total recreational landings by number landed by charter vessel and headboats increased from 17 percent in 1983, to 32 percent in 1988, and to 62 percent in 1997, almost doubling between each period. The landings for gag grouper increased from 15 percent during 1981–1982 to 33 percent during 1995–1996, i.e., essentially doubling between the first and last period. Further, the recreational for-hire vessels historically have landed most of the recreational landings of vermillion snapper (90 percent) and greater amberjack (63 percent) during the period 1995/1996.

In conjunction with existing bag limits and size limits, the proposed rule would further moderate short-term future increases in fishing effort in the for-hire sector of the recreational fishery by limiting the number of vessels in the fishery. The proposed moratorium is a form of limited access management that is intended to temporarily stabilize this effort. It would allow the Council the time necessary to develop a more comprehensive approach to help restore overfished stocks possibly including further effort limitation, and would promote attainment of optimum yield during the interim.

Provisions of the Proposed Charter Vessel/Headboat Moratorium in the Gulf of Mexico EEZ

This proposed rule would establish a 3–year moratorium on the issuance of charter vessel/headboat permits for Gulf reef fish or Gulf coastal migratory pelagic fish. Beginning 150 days after the effective date of the final rule that would implement this proposed moratorium, the only valid charter vessel/headboat permits for those two fisheries would be those permits issued under the provisions of the moratorium. In addition, any person who has a valid charter vessel/headboat permit for coastal migratory pelagic fish (valid in the Gulf or South Atlantic) should note that this proposed rule would result in a restructuring of that permit--voiding the existing permit, effective 150 days after the effective date of the final rule implementing this moratorium, and creating two new separate permits: one for Gulf coastal migratory pelagic fish (subject to the moratorium provisions); and one for South Atlantic coastal migratory pelagic fish (not subject to the moratorium provisions). See Change Proposed by NMFS--Requirement for a New Permit for South Atlantic Coastal Migratory Pelagic Fish for additional details.

Eligibility Requirements for the Gulf Charter Vessel/Headboat Permits

Under the proposed moratorium, initial eligibility for a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish would be limited to the following—

(1) An owner of a vessel that had a valid charter vessel/headboat permit for Gulf reef fish or coastal migratory pelagic fish, or whose application for such permit had been received by NMFS, at some time during the period March 29, 2000, through March 29, 2001, and who has such a valid permit on the effective date of the final rule that would implement this proposed moratorium.

(2) Any person who can provide NMFS with documentation verifying that, prior to March 29, 2001, he/she had a charter vessel or headboat under construction and that the associated expenditures were at least $5,000 as of that date. If the vessel owner was constructing the vessel, the vessel owner must provide NMFS with receipts for the required expenditures. If the vessel was being constructed by someone other than the owner, the owner must provide NMFS with a copy of the contract and/or receipts for the required expenditures.

(3) An historical captain, defined for the purposes of this proposed rule as a person who provides NMFS with documentation verifying that—

(A) Prior to March 29, 2001, he/she was issued either a United States coast Guard (USCG) Operator of Uninspected Passenger Vessel license (commonly referred to as a 6-pack license) or a USCG Masters license and operated, as a captain, a federally permitted charter vessel or headboat in the Gulf reef fish and/or coastal migratory pelagic fisheries that was not permitted in his/her name or the name of a corporation in which he/she was a shareholder; and

(B) At least 25 percent of his/her earned income was derived from charter vessel or headboat fishing in one of the years 1997, 1998, 1999, or 2000.

NMFS' permit records would be the sole basis for determining eligibility based on permit or application history (i.e., eligibility criterion 1). No more than one owner of a currently permitted vessel would be credited with meeting the permit history criterion based on a vessel's permit history. An owner would not be issued initial charter vessel/headboat permits for Gulf coastal migratory pelagic fish or Gulf reef fish under the moratorium in excess of the number of federally permitted charter vessels and/or headboats that he/she owned simultaneously at some time during the period March 29, 2000, through March 29, 2001.

Application Requirements and Procedures

An applicant who desires a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish would be required to submit an application for such permit to the Regional Administrator, Southeast Region, NMFS (RA) postmarked or hand-delivered not later than 90 days after the effective date of the final rule implementing this proposed moratorium. Failure to apply in a timely manner would preclude permit issuance even when the applicant meets the eligibility criteria for such permit. Application forms would be available from the RA. The information requested on the application form varies according to the eligibility criterion that the application is based upon as indicated in proposed § 622.4(r)(5).

On or about the effective date of any final rule implementing this moratorium, the RA would automatically mail an application to each owner of a vessel who, based on NMFS' permit records, is eligible based on the permit history or permit application criterion. The RA would also mail each such owner a notice that his/her existing charter vessel/headboat permit(s) for coastal migratory pelagic fish and/or Gulf reef fish would expire 150 days after any effective date of the final rule implementing this moratorium and that the new permit(s) required under such a moratorium would be required as of that date. A vessel owner who believes he/she qualifies for a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish based on permit or application history, but who does not receive an application from the RA, would have to request an application from the RA and provide documentation of eligibility.

Any person applying based on the eligibility criteria related to vessel construction or historical captain status would have to request a permit application from the RA and provide the required documentation of vessel construction and associated costs, as indicated in proposed § 622.4(r)(2)(ii), or documentation of historical captain status, as indicated in proposed § 622.4(r)(2)(iii), as applicable. Information to document historical captain status would include income tax records pertinent to verifying earned income; a copy of the applicable USCG license and/or Certificate of Inspection; and a notarized affidavit signed by a vessel owner certifying the period the applicant served as captain of a charter vessel or headboat permitted for Gulf reef fish and/or coastal migratory pelagic fish, whether the charter vessel or headboat was permitted for Gulf reef fish or coastal migratory pelagic fish or both, and whether the charter vessel or headboat was uninspected (i.e., 6-pack) or had a USCG Certificate of Inspection.

Issuance of Initial Permits/Letter of Eligibility

If a complete application is submitted in a timely manner and the applicable eligibility requirements specified in proposed § 622.4(r)(2) are met, the RA would issue a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish or a letter of eligibility for such fisheries, as appropriate, and mail it to the applicant not later than 140 days after the date the final rule is effective (i.e., at least 10 days before the permit(s) is required).

A person whose eligibility is based on historical captain status would be issued a letter of eligibility by the RA. The letter of eligibility could be redeemed through the RA for a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish, with a historical captain endorsement. The letter of eligibility would be valid for the duration of the moratorium; would be valid only for a vessel of the same authorized passenger capacity as the vessel used to document earned income requirement in proposed § 622.4(r)(2)(iii)(B); and would be valid only for the fisheries certified on the application under proposed § 622.4(r)(2)(iii)(A) (i.e., only those fisheries in which the required participation was documented). A charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish with a historical captain endorsement would be valid only on a vessel that the historical captain operates as a captain.

Appeals Process Regarding Initial Eligibility

An applicant would be allowed to request an appeal of the RA's determination regarding initial permit eligibility by submitting a written request for reconsideration to the RA with copies of the appropriate records for establishing eligibility. Such request would have to be postmarked or hand-delivered within 30 days after the date of the RA's notification of ineligibility and could include a request for an oral hearing. If an oral hearing is granted, the RA would notify the applicant of the place and date of the hearing and would provide the applicant a maximum of 30 days prior to the hearing to provide information in support of the appeal.

The RA could independently review the appeal or could appoint one or more appellate officers to review the appeal and make independent recommendations to the RA. The RA and appellate officer(s) could only deliberate whether the eligibility criteria were applied correctly. Hardship or other factors would not be considered in determining eligibility. The RA would make the final determination regarding granting or denying the appeal. The RA would notify the applicant of the decision regarding the appeal within 30 days after receipt of the request for appeal or within 30 days after the conclusion of the oral hearing, if applicable.

Transferability of Permits

A charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish that does not have a historical captain endorsement would be transferable, with or without sale of the permitted vessel, except that no transfer would be allowed to a vessel with a greater authorized passenger capacity than that of the vessel from which the permit was transferred.

A charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish that has a historical captain endorsement could only be transferred to a vessel operated by the historical captain, could not be transferred to a vessel with a higher authorized passenger capacity than the vessel from which the permit was transferred, and would not otherwise be transferable.

To request that the RA transfer a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish, the owner of a vessel that is to receive the transferred permit would have to complete the transfer information on the reverse of the permit and return the permit and a completed application for transfer to the RA.

Permit Renewal

Permit renewal would be contingent upon the permitted vessel and/or captain, as appropriate, being included in an active survey frame for, and, if selected to report, providing the information required in NMFS' Marine Recreational Fishing Vessel Directory Telephone Survey (charter vessels only), NMFS' Southeast Headboat Survey (logbooks), Texas Parks and Wildlife

VOL
67
ISS
57
MR
25
2002
UMI

Marine Recreational Fishing Survey, or a data collection system that replaces one or more of those surveys.

A permit that is not renewed or that is revoked by NMFS would not be reissued during the moratorium. A permit would be considered to be not renewed when an application for renewal, as required, is not received by the RA within 1 year of the expiration date of the permit.

Vessel Decal Requirement

Upon issuance, renewal, or transfer of a permit under this proposed moratorium, the RA would issue the owner or eligible historical captain of the permitted vessel a vessel decal for the applicable permitted fishery or fisheries. The vessel decal would have to be displayed on the port side of the deckhouse or hull and would have to be maintained so that it is clearly visible.

Change Proposed by NMFS—Requirement for a New Permit for South Atlantic Coastal Migratory Pelagic Fish

Formerly, the charter vessel/headboat permit for coastal migratory pelagic fish applied in the EEZ of both the Gulf of Mexico and South Atlantic. The establishment of a separate charter vessel/headboat permit for Gulf coastal migratory pelagic fish under this proposed moratorium would necessitate that a separate charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish also be established and that the former charter vessel/headboat permit for coastal migratory pelagic fish (applicable in both the Gulf and South Atlantic) be voided. All of these actions would be effective 150 days after the effective date of the final rule implementing the proposed moratorium. The new separate charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish would not be subject to the provisions of the moratorium.

Approximately 5 months prior to the date that the new permit would be required, the RA, based on NMFS' permit records, would mail an application for an initial charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish to each owner of a vessel with a valid charter vessel/headboat permit for coastal migratory pelagic fish. Any such owner who desires an initial charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish would have to submit the completed application to the RA. To avoid any lapse in authorization to fish for coastal migratory species in the South Atlantic EEZ (i.e., valid permit status), such owners would have to submit the completed application to the RA postmarked or hand-delivered not later than 90 days after the effective date of the final rule implementing the moratorium. For completed applications received by that deadline, the RA would issue the permit no later than 140 days after the effective date of the final rule implementing this moratorium (i.e., at least 10 days before the permit is required). Applications will be accepted at any time, but if received after the deadline (90 days after effective date), the permit may not be issued prior to the date that the permit is first required. These special procedures would apply only to the application and issuance of the initial permit; subsequent permitting activities would be conducted in accordance with the standard permitting procedures as specified in 50 CFR 622.4(b) through (l).

An owner or operator of a vessel who desires a charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish and who does not have a valid charter vessel/headboat permit for coastal migratory pelagic fish would be required to obtain a permit application from the RA. For additional permitting procedures, see 50 CFR 622.4(b) through (l).

Minority Reports

Two nearly identical minority reports objecting to the implementation of the proposed charter vessel/headboat permit moratorium were submitted--each signed by two Council members, a total of three different Council members. The primary objections expressed in these minority reports were that the moratorium is not necessary, would not accomplish its stated goal, would reduce competition in the for-hire industry, would create a windfall profit for a select group of people and deny others the right to pursue an occupation of their own choice, would result in unnecessary social engineering, and would violate national standards 4 and 8 of the Magnuson-Stevens Act. Copies of the minority reports are available from the Council (see **ADDRESSES**).

Classification

At this time, NMFS has not determined whether Amendments 14 and 20, that this proposed rule would implement, are consistent with the national standards of the Magnuson-Stevens Act and other applicable laws. NMFS, in making that determination, will take into account the data, views, and comments received during the comment period on Amendments 14 and 20.

This proposed rule has been determined to be not significant for purposes of Executive Order 12866.

NMFS prepared an IRFA that describes the economic impact this proposed rule, if adopted, would have on small entities. A description of the action, why it is being considered, and the legal basis for this action are contained at the beginning of this section in the preamble and in the **SUMMARY** section of the preamble. Paperwork and reporting requirements are described below in the PRA discussion. This proposed rule would not duplicate any other requirements. A summary of the analysis follows.

The Magnuson-Stevens Act provides the statutory basis for the rule. The objective of the proposed rule is to cap the number of for-hire vessels permitted to fish for reef fish or coastal migratory pelagics in the EEZ of the Gulf of Mexico at the current level while the Council assesses the actions necessary to restore overfished reef fish and king mackerel stocks and determine whether a more comprehensive effort management system is appropriate for these fisheries. The proposed rule would: create a new for-hire vessel permit for the Gulf EEZ for vessels fishing for reef fish and/or coastal migratory pelagics; establish a 3–year moratorium on the issuance of new for-hire vessel permits effective the date that the final rule implementing Amendments 14 and 20 becomes effective; establish eligibility requirements for the permits that would accommodate owners of vessels that possessed or had applied for charter/headboat reef fish and/or coastal migratory pelagic permits on or before March 29, 2001 and who possess such permit(s) as of the effective date of the final rule implementing this moratorium, new for-hire vessels contracted for or under construction prior to March 29, 2001, and historical captains; allow full transference of permits during the moratorium with or without the vessel but without any increase in the passenger capacity of the recipient vessel (permits with a historical captain endorsement may only be transferred to a vessel operated by the historical captain); not allow permit renewal during the moratorium for permits not renewed within one year of expiration; allow an appeal process to resolve issues related to initial eligibility; and, establish reporting and permit renewal conditions.

The creation of a for-hire permit and implementation of a 3–year moratorium for the issuance of new permits would provide some stability for the for-hire sector in terms of number of participating vessels while the need for a more comprehensive controlled access or effort management system is evaluated. The specific number of vessels accommodated by the rule is unknown since it is not known how many individuals will qualify and seek permits under the boat construction or historical captain provisions. The moratorium will also not produce a hard cap on effort in the form of angler trips since current vessels may be operating under less than full passenger capacity and will retain the flexibility to increase the frequency of partial-day trips. Nevertheless, the rule will limit expansion to the capacity of current participants. This will allow identification and enumeration of vessels in these fisheries to support essential data collection and establish a more stable environment for assessing the status of the fishery in support of subsequent regulation.

The proposed rule would effectively allow status quo operation by current participants in the fishery who had such permits (or applied for such) at some time during March 29, 2000, to March 29, 2001, and who also have a valid permit on the date the final rule becomes effective. The eligibility provisions for new vessel construction and historical captains will further protect the opportunities of individuals who have demonstrated a dependence on the fishery through capital investment or historical participation. The only impediment to the status quo business practices of such initial qualifiers is the limitation on vessel passenger capacity upgrades under the current permit. Such upgrade would be possible, however, through the purchase of the appropriate permit from another vessel. The liberal provisions for permit transfer support business upgrade, allow the entrance of new operators or buy-outs by more efficient operators, and create a marketable asset that may enhance the value of the vessel and client lists should a participant decide to sell his/her business. The eligibility and transfer provisions are, thus, consistent with the intent to allow status quo participation while it is determined whether current effort levels are appropriate, rather than legislate reductions. The appeals process will afford valid participants the opportunity to address record discrepancies that adversely affect their eligibility. Finally, the renewal provisions support the fishery management process by aiding in the collection of essential harvest and participation information.

Business operations in the for-hire sector consist primarily, if not exclusively, of small business entities. For-hire vessel operations are considered small business entities if they generate receipts of less than $6.0 million per year. The average gross revenues for charter boats operating in 1997 was $83,000 for vessels in Alabama through Texas (based on average numbers of trips per vessel and average fee per trip) and $68,000 for vessels in Florida, while the average gross revenues for head boats/party boats was $328,000 in Alabama through Texas and $324,000 in Florida. Current revenues may exceed those of 1997, but the revenue performance of the fishery clearly qualifies the participants as small business entities.

All for-hire vessels that fish for reef fish or coastal migratory pelagics in the Gulf of Mexico EEZ will be affected by the proposed rule. However, all of these vessels are currently required to possess the appropriate for-hire permits for the fisheries in which they participate. Hence, the proposed rule only creates one additional permit, by requiring vessels expecting to fish for coastal migratory pelagics in both the Gulf of Mexico and South Atlantic to obtain two permits, one for each subregion, instead of the current single permit which allows fishing in either subregion. This will require an additional $20 application fee for the second permit. As of the control date of March 29, 2001, there were 2,226 permitted for-hire vessels, of which 1,737 had both reef fish and coastal migratory pelagic charter permits, 123 had only the reef fish charter permit, and 366 had only the coastal migratory pelagic charter permit. These totals are substantially greater than those at the previous control date of November 18, 1998, when there were only 940 permitted for-hire vessels, of which 723 had both permits, 58 had only the reef fish permit and 159 had only the coastal migratory pelagic permit. While total permit numbers more than doubled during this time span, a potentially substantial portion of the increase is likely attributable to vessels that were previously operating in the fishery without the proper permits, since a frequent comment at public hearings was that operators were unaware of the current permit requirements. Thus, not all of the increase is believed to be due to either new participation or speculative purchase. It is not currently known how many vessels obtained their first for-hire permit after the cut-off date and would, therefore, not be eligible for the initial receipt of the permit. Nor is it known how many vessels might be expected to enter the fishery during the proposed moratorium period in the absence of a moratorium. The large increase in permits suggests that a substantial number of vessels interested in participating in the fishery have already established qualification, and the liberal qualification and transfer provisions of the rule should allow further entry by interested individuals, albeit at a larger cost due to the need to purchase a permit from a current operation.

Six alternatives to the proposed moratorium were considered. These were: a 5–year moratorium instead of the proposed 3–year moratorium; status quo; a 50–percent income requirement for renewal in lieu of a moratorium; for-hire species quotas; a 3 or–5 year moratorium in combination with species quotas; and a 3–year moratorium with mandatory expiration should the red snapper restrictions become more severe. Since the status quo alternative would not accomplish the Council's goals, among the remaining alternatives, including the proposed rule, the proposed rule was determined to have the least impact on small entities. The 5-year alternative would provide a more stable planning horizon for industry participants, but extend the period during which capacity expansion would be limited and restrictions on new entry would be imposed. The 50–percent income requirement would result in contraction of existing participants beyond the intent of the Council, which is to stabilize rather than contract the fishery while a more comprehensive evaluation is conducted and management program is designed. Species quotas would subject the fishery to disruptive closures. Linkage to the red snapper management environment was determined to be indefensible and, therefore, would not allow implementation of the proposed rule and would forego the perceived benefits of stabilization. In summary, the proposed rule would best accomplish the Council's intent while minimizing impacts.

Seven alternatives to the proposed form of the permit (i.e., a new for-hire permit with species endorsements) were considered. These were: limiting the new permit to the coastal migratory pelagic fishery; status quo; a new for-hire permit with species endorsements that encompass transferable and non-transferable endorsements; income-based renewal requirements; an option to allow commercial participants in the coastal migratory pelagic fishery to qualify for the for-hire permit; a fully transferable new permit with endorsements (i.e., no separate classes of transferability); and a special

VOL

2002
UMI

guideboat permit (with no moratorium) for vessels carrying fewer than 4 anglers with species endorsements. Maintaining the status quo would not support the Council's goals. Income requirements were rejected since they would result in contraction of the fishery rather than stabilize participation. The allowance for commercial operators to qualify would allow expansion of participation, which is, again, contrary to the Council's intent. Limiting the permit to the coastal migratory pelagic fishery would not be sufficiently inclusive to accomplish the Council's goals. The guideboat permit would allow unlimited expansion of this sector and, although these vessels may infrequently fish in the EEZ, would run counter to the Council's intent to stabilize all for-hire participation in the EEZ and pressure on respective stocks. The remaining alternatives reflect variations on the types of endorsements required (species covered) or class of endorsements (transferability conditions). The variations on endorsement types primarily affects paperwork requirements and these effects are insignificant. The transferability effects will be discussed below. In summary, the proposed rule best accomplishes the Council's intent while minimizing impacts.

Ten alternatives to the initial eligibility requirements were considered. These were: allowing all persons who held a for-hire permit on the date of implementation of the amendment; allowing all persons who held a for-hire permit on either September 16, 1999 or November 11, 1999; using a control date of November 18, 1998 and allowing for continuous participation under permit, vessel replacement by current permitted participant and issuance of new permit, purchase of permitted vessel, or purchase of a new vessel and issuance of a new permit; establishment and eligibility requirements for a Class 1 (fully transferable) species endorsement; establishment and eligibility requirements for a Class 2 (non-transferable) species endorsement; historical captain permit/endorsement provisions (2 alternatives); boat-under-construction provisions (2 alternatives); and allowing all persons who held a for-hire permit on or before January 1, 2002. Since the intent of the Council is to accommodate actual participation existent at the time of amendment development and the perception was strong that many active participants did not possess the required permits, control dates more restrictive than the proposed control date would increase the negative impacts on the fishery through the exclusion of active participants, contrary to the intent of the Council. More liberal control dates, however, while reducing the potential universe of excluded vessels, would also be contrary to the Council's intent of stabilizing participation at the level existent at the time of amendment development. Restrictions on transferability could result in contraction of the fleet, contrary to the intent of stabilization, and would increase the negative impacts on the fishery. The alternative historical captain provisions would have increased the burden of eligibility and increased the negative impacts. The alternative provisions for boats under construction are more restrictive than those of the proposed rule and would have increased the negative impacts on the fishery. In summary, the proposed rule accomplishes the Council's intent while minimizing impacts.

Five alternatives to the permit/endorsement transferability allowance were considered. These were: limiting the transfer to vessels owned by the same permit holder; transfer of permits/endorsements with or without transfer of the vessel; prohibition of transfer for the first year of the moratorium; prohibition of transfer throughout the moratorium; and, transfer provisions based on endorsement class. Allowing transfer between vessels held by the same permittee would reduce the costs and profitability impacts associated with capacity upgrade, but would run counter to the intent of the Council to stabilize the fishery at the current level of effort, in this case, angler platform opportunities. If operations were allowed to freely upgrade passenger capacity, while the number of vessel/small business participants would remain stable, the effective angler effort, which ultimately determines fish harvest pressure, would be allowed to increase unimpeded. This is counter to the Council's intent. All other alternatives would increase the negative impacts on the fishery relative to the proposed rule. In summary, one alternative is counter to the Council's intent, while all other alternatives would increase the negative impacts on the fishery. Thus, the proposed rule accomplishes the Council's intent while minimizing impacts.

Five alternatives to the passenger restrictions on permit transfers were considered. These were: no restriction; no transfers between different classes (based on passenger capacity) of USCG certified; allowing passenger capacity upgrade if USCG certification is received; transfer only between vessels of equal or lower passenger capacity based on USCG certification; and establishment of two classes – uninspected/uncertified and certified with transfers limited to within class. Since stability of the fishery is the stated intent of the Council, any alternative that allows passenger capacity to increase would, while mitigating the adverse impacts of upgrade limitations, be counter to the Council's intent. The proposed rule simplifies the passenger-related transfer restrictions while accomplishing the Council's intent and minimizing impacts.

Two alternatives to the re-issue of non-renewed or revoked permits were considered. These were: re-issue of 50 percent of these permits to either a list of interested persons or to persons that were either excluded from the initial issuance of permits or can document prior experience in the for-hire fishery. Not re-issuing these permits would increase the negative impacts on the fishery associated with vessels excluded from participation. The proposed alternative will simplify the management of the program, but the primary Council justification for its selection is that any reduction in fishery effort will help address problems related to too much competition in the fishery. Increased profitability may accrue to remaining participants. Whether these increased profits will exceed the foregone profits by excluded entities cannot be determined.

Six alternatives to the appeals process were considered. These were: no appeal; establish an appeals board that makes recommendations to the Regional Administrator (RA) on permit eligibility; an appeals process limited to owners and operators of vessels prior to the control date or persons who contracted for the construction of a vessel prior to the control date November 28, 1998; an appeals process that accommodates both hardships and data and/or record disputes between vessel owners and NMFS; no hardship appeals; and no appeals process if the control date selected is January 1, 2002. Not allowing an appeals process will increased the negative impacts on persons excluded from the initial issuance of permits.

The proposed rule accommodates the impact mitigation benefits of the various alternatives with the exception of the disallowance of hardship appeals. Disallowance of hardship appeals will simplify the management of the program, while increasing the impacts on those excluded. The number of potential hardship appeals cannot be precisely estimated, but is not expected to be large. The proposed rule, therefore, while not fully mitigating the impacts on excluded participants, will mitigate the impacts on those excluded due to permit record discrepancies and establish a more simplified management program.

Two alternatives to the reporting and renewal requirements were considered. These were: require charter logbooks; and status quo. Logbooks are already mandatory for the headboat fishery. Requiring logbooks for the charter sector would increase the economic burden on the charter sector without mitigating the impacts of potential permit non-renewal. Allowing the status quo would allow all charter vessels to renew their permit without having to participate in any data collection programs and, thus, would mitigate any adverse effects that would accrue to any vessels not having their permit renewed. Such action would not, however, satisfy the Council's intent to support comprehensive systematic data collection for this fishery. Thus, the proposed rule will satisfy the Council's intent while minimizing impacts.

This proposed rule contains five collection-of-information requirements subject to the Paperwork Reduction Act (PRA)—namely a requirement to submit a charter vessel/headboat permit application, submission of information on vessel construction, submission of information on historical captain eligibility, submission of appeals of NMFS' initial denial of a charter vessel/headboat permit, and mandatory responses to NMFS' (voluntary) Marine Recreational Fishing Vessel Directory Telephone Survey (charter vessels only). Requests to collect this information have been submitted to OMB for approval. The public reporting burdens for these collections of information are estimated to average 20 minutes, 2 hours, 2 hours, 5 hours, and 7 minutes per response, respectively, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collections of information. In addition, § 622.5(b)(1) of this proposed rule revises slightly (i.e., revises the names of the applicable permits consistent with this proposed rule) the requirement for charter vessel/headboat submission of a fishing trip record if selected by the Science and Research Director. The requirement applicable to headboats has been approved by OMB under control number 0648-0016 with an estimated time per response of 12 minutes. NMFS does not currently have PRA approval to select any charter vessels for this reporting and would obtain OMB clearance prior to making any selection.

Public comment is sought regarding: whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the burden estimate; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information, including through the use of automated collection techniques or other forms of information technology. Send comments regarding this burden estimate or any other aspect of the collection of information requirement, including suggestions for reducing the burden, to NMFS and to OMB (see **ADDRESSES**).

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number.

List of Subjects in 50 CFR Part 622

Fisheries, Fishing, Puerto Rico, Reporting and recordkeeping requirements, Virgin Islands.

Dated: March 19, 2002.

Rebecca Lent,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 622 is proposed to be amended as follows:

PART 622—FISHERIES OF THE CARIBBEAN, GULF, AND SOUTH ATLANTIC

1. The authority citation for part 622 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

2. In § 622.4, paragraphs (a)(1) and (g) are revised and paragraph (r) is added to read as follows:

§ 622.4 Permits and fees.

(a) * * *

(1) *Charter vessel/headboat permits.* (i) For a person aboard a vessel that is operating as a charter vessel or headboat to fish for or possess, in or from the EEZ, species in any of the following species groups, a valid charter vessel/headboat permit for that species group must have been issued to the vessel and must be on board—

(A) Gulf coastal migratory pelagic fish.

(B) South Atlantic coastal migratory pelagic fish.

(C) Gulf reef fish.

(D) South Atlantic snapper-grouper.

(ii) See paragraph (r) of this section regarding a moratorium on Gulf charter vessel/headboat permits and the associated provisions.

(iii) See paragraph (r)(12) of this section for an explanation of the requirement for the new charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish and for procedures for initial application and issuance of that permit.

(iv) A charter vessel or headboat may have both a charter vessel/headboat permit and a commercial vessel permit. However, when a vessel is operating as a charter vessel or headboat, a person aboard must adhere to the bag limits. See the definitions of "Charter vessel" and "Headboat" in §622.4 for an explanation of when vessels are considered to be operating as a charter vessel or headboat, respectively.

* * * * *

(g) *Transfer.* A vessel permit, license, or endorsement or dealer permit issued under this section is not transferable or assignable, except as provided in paragraph (m) of this section for a commercial vessel permit for Gulf reef fish, in paragraph (n) of this section for a fish trap endorsement, in paragraph (o) of this section for a Gulf king mackerel gillnet endorsement, in paragraph (p) of this section for a red snapper license, in paragraph (q) of this section for a king mackerel permit, in paragraph (r) of this section for a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish, in § 622.17(c) for a commercial vessel permit for golden crab, or in § 622.18(e) for a commercial vessel permit for South Atlantic snapper-grouper. A person who acquires a vessel who desires to conduct activities for which a permit or endorsement is required must apply for a permit or endorsement in accordance with the provisions of this section. If the acquired vessel is currently permitted, the application must be accompanied by the original permit and a copy of the vessel's new USCG documentation or state registration.

* * * * *

(r) *Moratorium on charter vessel/headboat permits for Gulf coastal migratory pelagic fish and Gulf reef fish.* The provisions of this paragraph (r) are applicable through the date that is 3 years after the effective date of the final rule that contains this paragraph (r).

(1) *Applicability.* Beginning 150 days after the effective date of the final rule that contains paragraph (r)(1) of this section, the only valid charter vessel/headboat permits for Gulf coastal migratory pelagic fish or Gulf reef fish

VOL
67
ISS
57
MR
25
2002
UMI

are those that have been issued under the moratorium criteria in paragraph (r) of this section. No applications for additional charter vessel/headboat permits for these fisheries will be accepted. Existing permits may be renewed, are subject to the transferability provisions in paragraph (r)(9) of this section, and are subject to the requirement for timely renewal in paragraph (r)(10) of this section.

(2) *Initial eligibility.* Initial eligibility for a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish is limited to the following—

(i) An owner of a vessel that had a valid charter vessel/headboat permit for Gulf reef fish or coastal migratory pelagic fish, or whose application for such permit had been received by NMFS, at some time during the period March 29, 2000, through March 29, 2001, and who has such a valid permit on the effective date of the final rule that contains this paragraph (r)(2)(i)of this section.

(ii) Any person who can provide NMFS with documentation verifying that, prior to March 29, 2001, he/she had a charter vessel or headboat under construction and that the associated expenditures were at least $5,000 as of that date. If the vessel owner was constructing the vessel, the vessel owner must provide NMFS with receipts for the required expenditures. If the vessel was being constructed by someone other than the owner, the owner must provide NMFS with a copy of the contract and/or receipts for the required expenditures.

(iii) A historical captain, defined for the purposes of paragraph (r) of this section as a person who provides NMFS with documentation verifying that—

(A) Prior to March 29, 2001, he/she was issued either a USCG Operator of Uninspected Passenger Vessel license (commonly referred to as a 6-pack license) or a USCG Masters license and operated, as a captain, a federally permitted charter vessel or headboat in the Gulf reef fish and/or coastal migratory pelagic fisheries that was not permitted in his/her name or the name of a corporation in which he/she was a shareholder; and

(B) At least 25 percent of his/her earned income was derived from charter vessel or headboat fishing in one of the years, 1997, 1998, 1999, or 2000.

(3) *Special conditions applicable to eligibility based on historical captain status.* A person whose eligibility is based on historical captain status will be issued a letter of eligibility by the RA. The letter of eligibility may be redeemed through the RA for a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish, with a historical captain endorsement. The letter of eligibility is valid for the duration of the moratorium; is valid only for a vessel of the same authorized passenger capacity as the vessel used to document earned income in paragraph (r)(2)(iii)(B) of this section; and is valid only for the fisheries certified on the application under paragraph (r)(2)(iii)(A) of this section. A charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish with a historical captain endorsement is valid only on a vessel that the historical captain operates as a captain.

(4) *Determination of eligibility based on permit history.* NMFS' permit records are the sole basis for determining eligibility based on permit or application history. An owner of a currently permitted vessel who believes he/she meets the permit or application history criterion based on ownership of a vessel under a different name, as may have occurred when ownership has changed from individual to corporate or vice versa, must document his/her continuity of ownership. No more than one owner of a currently permitted vessel will be credited with meeting the permit history criterion based on a vessel's permit history. An owner will not be issued initial charter vessel/headboat permits for Gulf coastal migratory pelagic fish or Gulf reef fish under the moratorium in excess of the number of federally permitted charter vessels and/or headboats that he/she owned simultaneously at some time during the period March 29, 2000 through March 29, 2001.

(5) *Application requirements and procedures*—(i) *General.* An applicant who desires a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish must submit an application for such permit to the RA postmarked or hand-delivered not later than 90 days after the effective date of the final rule implementing this moratorium. Application forms are available from the RA. The information requested on the application form varies according to the eligibility criterion that the application is based upon as indicated in paragraphs (r)(5)(ii), (iii), and (iv) of this section; however, all applicants must provide a copy of the applicable, valid USCG Operator of Uninspected Passenger Vessel license or Masters license and valid USCG Certificate of Inspection. Failure to apply in a timely manner will preclude permit issuance even when the applicant meets the eligibility criteria for such permit.

(ii) *Application based on the prior permit/application history criterion.* On or about the effective date of the final rule implementing this moratorium, the RA will mail an application for a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish to each owner of a vessel who, according to NMFS' permit records, is eligible based on the permit or application history criterion in paragraph (r)(2)(i) of this section. Information requested on the application is consistent with the standard information required in paragraph (b)(3)(ii) of this section. The RA will also mail each such owner a notice that his/her existing charter vessel/headboat permit(s) for coastal migratory pelagic fish and/or Gulf reef fish will expire 150 days after the effective date of the final rule implementing this moratorium and that the new permit(s) required under this moratorium will be required as of that date. A vessel owner who believes he/she qualifies for a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish based on permit or application history, but who does not receive an application from the RA, must request an application from the RA and provide documentation of eligibility. The RA will mail applications and notifications to vessel owner addresses as indicated in NMFS' permit records.

(iii) *Application based on a charter vessel/headboat under construction prior to March 29, 2001.* A person who intends to obtain a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish based on the vessel-under-construction eligibility criterion in paragraph (r)(2)(ii) of this section must obtain an application from the RA. Information requested on the application includes the standard information required in paragraph (b)(3)(ii) of this section and the documentation of construction and associated costs as specified in paragraph (r)(2)(ii) of this section.

(iv) *Application based on historical captain status.* A person who intends to obtain a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish based on historical captain status must obtain an application from the RA. Information requested on the application includes the standard information required in paragraph (b)(3)(ii) of this section and documentation of the criteria specified in paragraphs (r)(2)(iii)(A)and (B) of this section. Such documentation includes income tax records pertinent to verifying earned income; a copy of the applicable USCG license and/or Certificate of Inspection; and a notarized affidavit signed by a vessel owner certifying the period the applicant served as captain of a charter vessel or headboat permitted for Gulf reef fish and/or coastal migratory pelagic fish, whether the charter vessel or headboat was permitted for Gulf reef fish or coastal migratory pelagic fish or both, and whether the charter vessel or headboat was uninspected (i.e., 6-pack) or had a USCG Certificate of Inspection.

(v) *Incomplete applications.* If an application that is postmarked or hand-delivered in a timely manner is incomplete, the RA will notify the applicant of the deficiency. If the applicant fails to correct the deficiency within 20 days of the date of the RA's notification, the application will be considered abandoned.

(6) *Issuance of initial permits.* If a complete application is submitted in a timely manner and the applicable eligibility requirements specified in paragraph (r)(2) of this section are met, the RA will issue a charter vessel/headboat permit for Gulf coastal migratory pelagic fish and/or Gulf reef fish or a letter of eligibility for such fisheries, as appropriate, and mail it to the applicant not later than 140 days after the date the final rule is effective.

(7) *Notification of ineligibility.* If the applicant does not meet the applicable eligibility requirements of paragraph (r)(2) of this section, the RA will notify the applicant, in writing, of such determination and the reasons for it not later than 120 days after the date the final rule is effective.

(8) *Appeal process.* (i) An applicant may request an appeal of the RA's determination regarding initial permit eligibility, as specified in paragraph (r)(2) of this section, by submitting a written request for reconsideration to the RA with copies of the appropriate records for establishing eligibility. Such request must be postmarked or hand-delivered within 30 days after the date of the RA's notification of ineligibility and may include a request for an oral hearing. If an oral hearing is granted, the RA will notify the applicant of the place and date of the hearing and will provide the applicant a maximum of 30 days prior to the hearing to provide information in support of the appeal.

(ii) A request for an appeal constitutes the appellant's authorization under section 402(b)(1)(F) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et. seq.) for the RA to make available to the appellate officer(s) such confidential records as are pertinent to the appeal.

(iii) The RA may independently review the appeal or may appoint one or more appellate officers to review the appeal and make independent recommendations to the RA. The RA will make the final determination regarding granting or denying the appeal.

(iv) The RA and appellate officer(s) are empowered only to deliberate whether the eligibility criteria in paragraph (r)(2) of this section were applied correctly. Hardship or other factors will not be considered in determining eligibility.

(v) The RA will notify the applicant of the decision regarding the appeal within 30 days after receipt of the request for appeal or within 30 days after the conclusion of the oral hearing, if applicable. The RA's decision will constitute the final administrative action by NMFS.

(9) *Transfer of permits*— (i) *Permits without a historical captain endorsement.* A charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish that does not have a historical captain endorsement is fully transferable, with or without sale of the permitted vessel, except that no transfer is allowed to a vessel with a greater authorized passenger capacity than that of the vessel from which the permit was transferred. The determination of authorized passenger capacity will be based on the USCG Certificate of Inspection or USCG Operator of Uninspected Passenger Vessel license associated with the vessels involved in the transfer. If no valid Certificate of Inspection is provided for a vessel, that vessel will be considered an uninspected vessel with an authorized passenger capacity restricted to six or fewer passengers.

(ii) *Permits with a historical captain endorsement.* A charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish that has a historical captain endorsement may only be transferred to a vessel operated by the historical captain, cannot be transferred to a vessel with a higher authorized passenger capacity than the vessel from which the permit was transferred, and is not otherwise transferable.

(iii) *Procedure for permit transfer.* To request that the RA transfer a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish, the owner of a vessel that is to receive the transferred permit must complete the transfer information on the reverse of the permit and return the permit and a completed application for transfer to the RA.

(10) *Renewal.* (i) Renewal of a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish is contingent upon the permitted vessel and/or captain, as appropriate, being included in an active survey frame for, and, if selected to report, providing the information required in one of the following—

(A) NMFS'Marine Recreational Fishing Vessel Directory Telephone Survey (conducted by the Gulf States Marine Fisheries Commission);

(B) NMFS' Southeast Headboat Survey (as required by § 622.5(b)(1) of this part);

(C) Texas Parks and Wildlife Marine Recreational Fishing Survey; or

(D) A data collection system that replaces one or more of the surveys in paragraph (r)(10)(i)(A)(B) or (C) of this section.

(ii) A charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish that is not renewed or that is revoked will not be reissued during the moratorium. A permit is considered to be not renewed when an application for renewal, as required, is not received by the RA within 1 year of the expiration date of the permit.

(11) *Requirement to display a vessel decal.* Upon issuance, renewal, or transfer of a charter vessel/headboat permit for Gulf coastal migratory pelagic fish or Gulf reef fish, the RA will issue the owner of the permitted vessel a vessel decal for the applicable permitted fishery or fisheries. The vessel decal must be displayed on the port side of the deckhouse or hull and must be maintained so that it is clearly visible.

(12) Requirement and procedure for obtaining an initial charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish. (i) General. This paragraph (r)(12) explains the necessity of requiring and the procedure for obtaining an initial charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish. Formerly, the charter vessel/headboat permit for coastal migratory pelagic fish applied in the EEZ of the Gulf and South Atlantic. The establishment of a separate charter vessel/headboat permit for Gulf coastal migratory pelagic fish under the moratorium established by paragraph (r) of this section necessitates that a separate charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish also be established effective 150 days after the effective date of the final rule implementing the moratorium and that the former charter vessel/headboat permit for coastal migratory pelagic fish (applicable in both the Gulf and South Atlantic) be voided effective as of that same date. The newly required charter vessel/headboat permit for

VOL
67
ISS
57
MR
25
2002
UMI

South Atlantic coastal migratory pelagic fish is not subject to the provisions of the moratorium in paragraphs (r)(1) through (11) of this section.

(ii) *Application for and issuance of an initial charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish*— (A) *Owner of a vessel with a valid charter vessel/headboat permit for coastal migratory pelagic fish.* On or about the effective date of the final rule implementing the moratorium in paragraph (r) of this section, the RA, based on NMFS' permit records, will mail an application for an initial charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish to each owner of a vessel with a valid charter vessel/headboat permit for coastal migratory pelagic fish. Any such owner who desires an initial charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish must submit the completed application to the RA. To avoid any lapse in authorization to fish for coastal migratory species in the South Atlantic EEZ (i.e., valid permit status), such owners must submit the completed application to the RA postmarked or hand-delivered not later than 90 days after the effective date of the final rule implementing the moratorium. For completed applications received by that deadline, the RA will issue the permit no later than 140 days after the effective date of the final rule implementing this moratorium. Applications will be accepted at any time, but if received after the deadline, the permit may not be issued prior to the date that the permit is first required (i.e., 150 days after the effective date of the final rule implementing the moratorium). These special procedures apply only to the application and issuance of the initial permit; subsequent permitting activities will be conducted in accordance with the standard permitting procedures as specified in paragraph (b) through (l) of this section.

(B) *Owner or operator of a vessel without a valid charter vessel/headboat permit for coastal migratory pelagic fish.* An owner or operator of a vessel who desires a charter vessel/headboat permit for South Atlantic coastal migratory pelagic fish and who does not have a valid charter vessel/headboat permit for coastal migratory pelagic fish must obtain a permit application from the RA. For additional permitting procedures, see paragraphs (b) through (l)of this section.

3. Section 622.5 (b)(1) is revised to read as follows:

§ 622.5 Recordkeeping and reporting.

* * * * *

(b) * * *

(1) *Coastal migratory pelagic fish, reef fish, and snapper-grouper.* The owner or operator of a vessel for which a charter vessel/headboat permit for Gulf coastal migratory pelagic fish, South Atlantic coastal migratory pelagic fish, Gulf reef fish, or South Atlantic snapper-grouper has been issued, as required under § 622.4(a)(1), or whose vessel fishes for or lands such coastal migratory pelagic fish, reef fish, or snapper-grouper in or from state waters adjoining the Gulf or South Atlantic EEZ, who is selected to report by the SRD must maintain a fishing record for each trip, or a portion of such trips as specified by the SRD, on forms provided by the SRD and must submit such record as specified in paragraph (b)(2) of this section.

* * * * *

4. In § 622.7, paragraphs (b) and (f) are revised to read as follows:

§ 622.7 Prohibitions.

* * * * *

(b) Falsify information on an application for a permit, license, or endorsement or submitted in support of such application, as specified in § 622.4(b), (g), (p), (q), or (r) or in § 622.18.

* * * * *

(f) Falsify or fail to display and maintain vessel and gear identification, as specified in § 622.6(a) and (b) or § 622.4(r)(11).

* * * * *

5. Section 622.43 (a)(3)(ii) is revised to read as follows:

§ 622.43 Closures.

(a) * * *

(3) * * *

(ii) A person aboard a vessel for which valid charter vessel/headboat permits for Gulf coastal migratory pelagic fish or South Atlantic coastal migratory pelagic fish and a valid commercial vessel permit king or Spanish mackerel have been issued may continue to retain fish under a bag and possession limit specified in § 622.39(c), provided the vessel is operating as a charter vessel or headboat.

Notices

Federal Register
Vol. 67, No. 57
Monday March 25, 2002

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Docket No. FV02–376]

Fruit and Vegetable Industry Advisory Committee; Meeting

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice of public meeting.

SUMMARY: The purpose of this notice is to notify all interested parties that the Agricultural Marketing Service (AMS) will hold a Fruit and Vegetable Industry Advisory Committee (Committee) meeting that is open to the public to attend. The U.S. Department of Agriculture (USDA) established the Committee to examine the full spectrum of issues faced by the fruit and vegetable industry and provide suggestions and ideas to the Secretary of Agriculture on how USDA can tailor its programs to meet the fruit and vegetable industry's needs. This notice sets forth the schedule and location for the meeting.

DATES: The Committee meeting which is open to the public will be held on Tuesday, April 16, 2002, from 8 a.m. to 5 p.m. and Wednesday, April 17, 2002, from 8 a.m. to 1 p.m.

ADDRESSES: The Committee meeting will be held at the South Building, Room 3501, United States Department of Agriculture, 1400 Independence Avenue SW., Washington, DC 20250.

FOR FURTHER INFORMATION CONTACT: Robert C. Keeney, Deputy Administrator, Fruit and Vegetable Programs, AMS, USDA, Room 2077 South Building, P.O. Box 96456, Washington, DC 20090–6456, (202) 720–4722, e-mail—*robert.keeney@usda.gov.*

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act (FACA) (5 U.S.C. App.), the Secretary of Agriculture established the Fruit and Vegetable Industry Advisory Committee to examine the full spectrum of issues faced by the fruit and vegetable industry and to provide suggestions and ideas to the USDA on tailoring its programs to the fruit and vegetable industry's needs.

At the April 16–17, 2002, meeting announced in this document, the members of the Committee will elect the Chairperson and Vice-Chairperson of the Committee who will serve for a 2-year term. The committee will seek input from parties particularly interested in fruit and vegetable programs regarding the full spectrum of issues faced by the fruit and vegetable industry including: improvement of service to the fruit and vegetable industry; improvement of fruit and vegetable programs delivery; and other input regarding the tailoring of USDA programs to meet industry needs. Therefore, AMS, is giving notice of the committee meeting to the public to attend.

Those parties that wish to attend the meeting should register on or before April 9, 2002, since space is limited. To register please e-mail *Robert.Keeney@usda.gov* or send a fax to 202–720–0016. Registrants should include their name, address, and daytime telephone number.

Upon entering the South Building, visitors should inform security personnel that they are attending the FVIAC Committee Meeting. Identification will be required to be admitted to the building. Security personnel will direct visitors to a registration log that will need to be signed on entrance into the building. All visitors must be registered with AMS in advance of the meeting.

If you require special accommodations, such as a sign language interpreter, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**. The meeting will be recorded, and information about obtaining a transcript will be provided at the meeting.

Dated: March 19, 2002.

A.J. Yates,

Administrator, Agricultural Marketing Service.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Docket No. FV–02–330]

United States Standards for Grades of Canned Mushrooms

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice; withdrawal.

SUMMARY: The Agricultural Marketing Service (AMS) of the Department of Agriculture (USDA) published a notice soliciting comments on its proposed revision to change the United States Standards for Grades of Canned Mushrooms. Specifically, AMS proposed to lower the Recommended Minimum Drained Weight Averages (RMDWA's) and lower limits for mushrooms packed in the 8 ounce, jumbo, and No. 10 can sizes. After reviewing and considering the comments received, the Agency has decided to withdraw the proposal and terminate the action.

EFFECTIVE DATE: March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Chere L. Shorter, Processed Products Branch, Fruit and Vegetable Programs, Agricultural Marketing Service, U.S. Department of Agriculture, Room 0709, South Building; STOP 0247, Washington, DC 20250; faxed to (202) 690–1527; or e-mailed to *Chere.Shorter@usda.gov.*

The current United States Standards for Grades of Canned Mushrooms, along with the proposed changes, are available either through the address cited above or by accessing the Internet at *http://www.ams.usda.gov/fv/ppb.html.* Any comments received, regarding this notice will also be posted on that site.

SUPPLEMENTARY INFORMATION:

Background

In August 1990, USDA, through one of its field offices, received a letter from a food importer in New York alerting AMS to the disparity in the United States Standards for Grades of Canned Mushrooms. The company proposed that the RMDWA's in the U.S. Standards for Grades of Canned Mushrooms be lowered to 56 percent of the water capacity of the container, the FDA minimum fill requirement appearing in 21 CFR 155.201.

VOL
67
ISS
57
MR
25
2002
UMI

In consideration of this proposal, AMS gathered information from government and industry sources.

Drained weight, although not a factor of quality in canned mushrooms, is very important in connection with the marketing of processed fruit and vegetable products. Drained weight indicates the amount of fruit and vegetable ingredient in relation to packing media and to some extent the degree to which a product may have disintegrated during processing and handling. Most U.S. standards for canned fruits and vegetables contain a recommended drained weight. Drained weight, when applicable, is a requirement in federal specifications and other purchase specifications or contracts. The USDA reports the range of drained weights on their certificates when there is a mandatory FDA requirement, such as for canned mushrooms. Although drained weight is an FDA mandatory requirement in canned mushrooms, buyers and sellers can establish their own specification of minimum drained weights that exceed the FDA.

Presently, the U.S. standard for canned mushrooms includes a recommended minimum drained weight of 62 percent of the water capacity, or for example, 68.0 ounces for the No. 10 can, while the FDA minimum is 61.3 ounces (56 percent) for this can size. The water capacity is determined according to the FDA method outlined in 21 CFR 130.12. The FDA established its current 56 percent minimum in rulemaking based upon a petition from the National Food Processors Association (NFPA) requesting that the drained weight required for mushrooms packed in larger cans be reduced because of the high incidence of bacterial spoilage in such containers. The FDA initiated rulemaking in a proposed rule (47 FR 26843; June 22, 1982). The NFPA attributed the problem to overfilling to meet the drained weight requirement. Therefore, the NFPA proposed to reduce the drained weight requirement for larger cans so that the ratio of mushrooms to water capacity of the container was not less than 56 percent. A final rule was published in the **Federal Register** on March 15, 1983 (48 FR 10812) and a **Federal Register** Notice confirming the effective dates was published on September 14, 1983 (48 FR 41155.)

The USDA published a notice in the **Federal Register**, on December 4, 1998 (63 FR 67040), proposing to revise the U.S. Standards for Grades of Canned Mushrooms by lowering the recommended drained weight from 62 percent to 56 percent of the can capacity.

A 60 day comment period was provided for interested persons to send in comments on this recommended change to the Standards.

AMS received one comment that was opposed to the change in drained weight. The commenter stated that the change would result in a lack of uniformity in that there would be a larger number of pack sizes within the narrow range of 56 to 62 percent of the water capacity. They also stated that the change would require expensive changes in the manufacturing process, through new heat penetration studies, new labels, and new in-plant procedures resulting in a restructuring of the manufacturing process. And finally, the commenter felt that the marketing environment would become more confused as a result. AMS believes that the comments have merit and therefore has decided to withdrawal the proposal and terminate the action.

In another matter, the commenter wanted a review of the current color standards for canned mushrooms. They stated that due to the extreme difficulty in achieving Grade A color in glass, that the minimum color classifications be reviewed.

Because this response is beyond the scope of the intended notice, USDA will review this discussion in another forum when more data is available. Interested parties are however encouraged to submit data to justify reviewing the minimum color requirements for canned mushrooms.

After reviewing and considering the comments received, the Agency has decided not to proceed with the action. Therefore, the notice published December 4, 1998 (64 FR 67040) is withdrawn.

Dated: March 18, 2002.

A.J. Yates,

Administrator, Agricultural Marketing Service.

BILLING CODE 3410–02–P

DEPARTMENT OF AGRICULTURE

Forest Service

Withdrawal of the Pacific Southwest Regional Guide

AGENCY: Forest Service, USDA.

ACTION: Notice.

SUMMARY: The intended effect of this action is to comply with 36 CFR part 219 section 219.35(e) which directs that within 1 year of November 9, 2000, the Regional Forester must withdraw the Regional Guide. When a Regional Guide is withdrawn, the Regional Forester must identify the decisions in the Regional Guide that are to be transferred to a regional supplement of the Forest Service directive system (36 CFR 200.4) or to one or more plans and give notice in the **Federal Register** of these actions.

DATES: This action will be effective April 1, 2002.

FOR FURTHER INFORMATION CONTACT: Bradley J. Burmark, Forest Planner, Pacific Southwest Region, 1323 Club Drive, Vallejo, CA 94592, 707–562–8950

SUPPLEMENTARY INFORMATION: This action withdraws the Pacific Southwest Regional Guide. None of the direction in the Pacific Southwest Regional Guide will be transferred to a regional supplement of the Forest Service directive system or to forest plans. The direction in the Regional Guide is already in the forest plans, is obsolete, has been replaced by more recent direction, or is already present in other existing policies.

Dated: March 19, 2002.

Gilbert J. Espinosa,

Acting Regional Forester.

BILLING CODE 3410–11–M

DEPARTMENT OF AGRICULTURE

Grain Inspection, Packers and Stockyards Administration

[01–04–S1]

Designation for the Central Iowa (IA) Area

AGENCY: Grain Inspection, Packers and Stockyards Administration (GIPSA), USDA.

ACTION: Notice.

SUMMARY: GIPSA announces designation of Central Iowa Grain Inspection Corporation to provide official services under the United States Grain Standards Act, as amended (Act).

EFFECTIVE DATE: April 1, 2002.

ADDRESSES: USDA, GIPSA, Janet M. Hart, Chief, Review Branch, Compliance Division, STOP 3604, Room 1647–S, 1400 Independence Avenue, SW, Washington, DC 20250–3604.

FOR FURTHER INFORMATION CONTACT: Janet M. Hart at 202–720–8525, e-mail janhart@gipsadc.usda.gov.

SUPPLEMENTARY INFORMATION: This action has been reviewed and determined not to be a rule or regulation as defined in Executive Order 12866 and Departmental Regulation 1512–1; therefore, the Executive Order and Departmental Regulation do not apply to this action.

In the December 4, 2001, **Federal Register** (66 FR 63015), GIPSA asked persons interested in providing official services in the geographic area assigned to Central Iowa Grain Inspection Service, Inc., to submit an application for designation. Applications were due by January 2, 2002.

There were two applicants for the Central Iowa area: Central Iowa Grain Inspection Service, Inc., and Kevin D. Bredthauer and Sandra M. Bredthauer, of Des Moines, Iowa, proposing to do business as Central Iowa Grain Inspection Corporation. Both applied for the entire geographic area currently assigned to Central Iowa Grain Inspection Service, Inc. Central Iowa Grain Inspection Service, Inc., is a designated official agency. GIPSA asked for comments on the applicants for providing service in the Central Iowa area in the January 28, 2002, **Federal Register** (67 FR 3875). Comments were due by February 28, 2002. GIPSA received no comments by the due date. Central Iowa Grain Inspection Service, Inc., subsequently withdrew their application and asked for voluntary cancellation of their designation, effective March 31, 2002.

GIPSA evaluated all available information regarding the designation criteria in Section 7(f)(1)(A) of the Act and, according to Section 7(f)(1)(B), determined that, effective April 1, 2002, and ending March 31, 2005, Central Iowa Grain Inspection Corporation is able to provide official services in the geographic areas specified in the December 4, 2001, **Federal Register**, for which they applied. Interested persons may obtain official services by calling Central Iowa Grain Inspection Corporation at 515–266–1101.

Authority: Pub. L. 94–582, 90 Stat. 2867, as amended (7 U.S.C. 71 et seq.).

Dated: March 8, 2002.

David R. Shipman,

Acting Administrator, Grain Inspection, Packers and Stockyards Administration.

BILLING CODE 3410–EN–P

DEPARTMENT OF COMMERCE

International Trade Administration

19 CFR Part 351

Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties; Additional Comment Period

AGENCY: Import Administration, International Trade Administration, Department of Commerce

ACTION: Notice of additional comment period on proposed policy.

SUMMARY: The Department of Commerce is announcing a one-week final comment period for parties interested in submitting comments on the October 15, 1998, proposed clarification on the automatic-liquidation regulation where a reseller has been involved in the chain of commerce.

DATES: Submit comments by April 1, 2002.

ADDRESSES: Submit written comments to Faryar Shirzad, Assistant Secretary for Import Administration, Docket Center, Room 1870, Pennsylvania Avenue and 14th Street, NW., Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Laurie Parkhill, Office 3, Import Administration at 202–482–4733, or Patrick Gallagher, Office of Chief Counsel for Import Administration, at 202–482–5053.

SUPPLEMENTARY INFORMATION:

Background

On October 15, 1998, the Department of Commerce (the Department) published a proposed clarification of the Department's position on the automatic-liquidation procedures for a reseller and invited public comment on that clarification. See *Notice and Request for Comment on Policy Concerning Assessment of Antidumping Duties*, 63 FR 55361 (*Proposed Clarification*). On November 12, 1998, we published a notice of *Rebuttal Period for Comments on Policy Concerning Assessment of Antidumping Duties* (63 FR 63288) which extended the period for initial comments to November 13, 1998, established a rebuttal period until December 4, 1998, and provided for the submission of comments and rebuttal in an electronic format for posting to the Import Administration internet home page.

In the *Proposed Clarification* the Department explained the need for a clear articulation of its policy concerning the assessment of antidumping duties where intermediate companies are involved in exporting merchandise subject to antidumping duty orders to the United States. See 63 FR 55361. The Department also proposed in that notice that its clarified policy would apply to all entries for which the anniversary date for requesting an administrative review is on or after the date of publication of a final decision on this issue.

The Department received several written comments and rebuttals regarding the proposed assessment clarification and is preparing its final decision on the issue. Specifically, the Government of Canada, Micron, Volvo, the Steel Service Center Institute, the American Bearing Manufacturers Association, and The Timken Company provided comments. See the Import Administration Web site at *www.ia.ita.doc.gov*. The Department has reviewed these comments and is prepared to announce a final decision shortly.

Given the passage of time since the publication of the *Proposed Clarification*, however, the Department has decided to alert the public to the pending clarification and to provide one more opportunity for the public to submit comments on the proposed clarification. The Department will consider all comments it has already received: re-submisison of earlier comments is not necessary. Parties which have not yet commented on the proposal may submit comments within seven (7) calendar days of the publication of this notice for the Department's consideration.

To help simplify the processing and distribution of comments, the Department requests that a submission in electronic form accompany the required paper copies. Comments filed in electronic form should be on a DOS formatted 3.5″ diskette in either WordPerfect format or a format that the WordPerfect program can convert into WordPerfect. Please make each comment a separate file on the diskette and name each separate file using the name of the proposed document, *e.g.*, "Reseller Liquidation."

Comments received on diskette will be made available to the public on the Web at ia.ita.doc.gov. In addition, upon request, the Department will make comments filed in electronic form available to the public on 3.5″ diskettes (at cost) with specific instructions for accessing compressed data (if necessary). Any questions concerning file formatting, document conversion, access on the Web, or other electronic filing issues should be addressed to Andrew Lee Beller, IA Webmaster, at

International Trade Administration

United States-Egypt Presidents' Council: Membership

AGENCY: International Trade Administration, Commerce.

ACTION: Amendment to Notice of Membership Opportunity: Extension to deadline for applications.

SUMMARY: The International Trade Administration of the U.S. Department of Commerce established and monitors the activities of the U.S.-Egypt Presidents' Council. The purpose of the Council is to provide a forum through which American and Egyptian private sector representatives can provide advice and counsel to both governments. The **Federal Register** published a notice of membership opportunities for American business representatives on the U.S. side of the Council on November 19, 2001. The deadline was December 28, 2001, and extended to January 25, 2002. This notice hereby extends the deadline by which applications must be received.

DATES: In order to receive full consideration, requests must be received no later than: Friday, April 19, 2002.

ADDRESSES: Please send your requests for consideration to Maram R. Talaat, Egypt Desk Officer, Office of the Middle East, U.S. Department of Commerce by fax at 202–482–0878 or courier to Room H–2029B, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230.

FOR FURTHER INFORMATION, CONTACT: Maram R. Talaat, Office of the Middle East, Room H–2029B, U.S. Department of Commerce, Washington, DC 20230, phone: 202–482–3752.

SUPPLEMENTARY INFORMATION: This amends the notice of membership opportunities on the U.S.-Egypt Presidents' Council published in the **Federal Register** on November 19, 2001 (66 FR 57937–57938).

Dated: March 20, 2002.

Cherie A. Loustaunau,

Director, Office of the Middle East.

BILLING CODE 3510–DA–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 031902F]

Proposed Information Collection; Comment Request; 2002 Coastal Resource Management Customer Survey

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before May 24, 2002.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue NW, Washington DC 20230 (or via Internet at MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Tom Fish at NOAA Coastal Services Center, (843) 740–1271 or Tom.Fish@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This survey will be used by the NOAA Coastal Services Center to obtain information from our customers about their natural resource management issues, their information needs, and their technological capabilities. The respondents will be from the coastal natural resource management community. The information will be used to make quality improvements to the Center's products and services.

II. Method of Collection

A paper survey will be used, but a password-protected Web version of the survey will also be available.

III. Data

OMB Number: None.
Form Number: None.
Type of Review: Regular submission.
Affected Public: State, Local, or Tribal government (state natural resource management agencies); not-for-profit institutions (Sea Grant programs).
Estimated Number of Respondents: 700.
Estimated Time Per Response: 30 minutes.
Estimated Total Annual Burden Hours: 350 hours.
Estimated Total Annual Cost to Public: $0.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 18, 2002.

Madeleine Clayton,

Departmental Paperwork Clearance Officer, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 031902G]

Proposed Information Collection; Comment Request; Gulf of Mexico Reef Fish and Coastal Pelagics Economic Data Collection

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104–13 (44 U.S.C. 3506 (c)(2)(A)).

DATES: Written comments must be submitted on or before May 24, 2002.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue NW, Washington DC 20230 (or via Internet at MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Jim Waters, Department of Commerce, NOAA, National Marine Fisheries Service, 101 Pivers Island Road, Beaufort, NC 28516–9722, (252–728–8710).

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) proposes to collect information about vessel expenses and earnings in the Gulf of Mexico reef fish and coastal pelagics (mackerels) fisheries with which to conduct economic analyses that will improve fishery management in those fisheries; satisfy NMFS' legal mandates under Executive Order 12866, the Magnuson-Steven Fishery Conservation and Management Act (U.S.C. 1801 et seq.), the Regulatory Flexibility Act, the Endangered Species Act, and the National Environmental Policy Act; and quantify achievement of the performances measures in the NMFS Strategic Operating Plans. These data will be collected in conjunction with catch and effort data already being collected in this fishery as part of its logbook program, and will be used to assess how fishermen will be impacted by and respond to regulations likely to be considered by fishery managers.

II. Method of Collection

Owners of selected vessels with Federal commercial permits in the Gulf of Mexico reef fish and coastal pelagics fisheries will be required to report information about trip costs, input usage, input prices, and dockside prices as part of the logbook reporting requirements in this fishery. In addition, these vessel owners will be required to complete and submit by mail a separate form about annual fixed cost information such as expenditures for repair and maintenance, gear purchase and repair, fishing licenses and permits, insurance, dock fees, repayment on boat and business loans, office expenses and so forth.

III. Data

OMB Number: 0648–0016.
Form Number: None.
Type of Review: Regular submission.
Affected Public: Business or other for-profit organizations.
Estimated Number of Respondents: 350.
Estimated Time Per Response: 10 minutes per trip report; 30 minutes for the annual fixed-cost survey.
Estimated Total Annual Burden Hours: 1,400.
Estimated Total Annual Cost to Public: $0.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 18, 2002.

Madeleine Clayton,

Departmental Paperwork Clearance Officer, Office of the Chief Information Officer.

[I.D. 031902H]

Proposed Information Collection; Comment Request; NOAA Coastal Ocean Program Grants Proposal Application Package

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104–13 (44 U.S.C. 3506 (c)(2)(A)).

DATES: Written comments must be submitted on or before May 24, 2002.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue NW, Washington DC 20230 (or via Internet at MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Leslie McDonald, 301–713–3338, ext. 155, or Leslie.McDonald@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Oceanic and Atmospheric Administration's Coastal Ocean Program (COP) provides direct financial assistance through grants and cooperative agreements for research supporting the management of coastal ecosystems. In addition to standard government application requirements, applicants for financial assistance are required to submit a summary proposal budget form and a project summary form. Applicants are also requested to submit 20 copies of applications to expedite the review process. Recipients are required to file annual progress reports and a project final report using COP formats. All of these requirements are needed for better evaluation of proposals and monitoring of awards.

II. Method of Collection

Paper forms and documents are submitted to the COP. The option of electronic submission is being explored.

III. Data

OMB Number: 0648–0384.
Form Number: None.
Type of Review: Regular submission.
Affected Public: Not-for-profit institutions (universities, colleges, junior colleges, technical schools, laboratories); State, Local, or Tribal Government.
Estimated Number of Respondents: 300.
Estimated Time Per Response: 30 minutes for a budget form; 30 minutes for a project summary; 5 hours for an

UMI

annual report; 10 hours for a final report; and 10 minutes to provide the extra copies required.

Estimated Total Annual Burden Hours: 1,100.

Estimated Total Annual Cost to Public: $0.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 18, 2002.

[Docket No. 011102267–2064–02; I.D. No. 102301B]

Financial Assistance for Marine Mammal Stranding Networks Through the John H. Prescott Marine Mammal Rescue Assistance Grant Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of solicitation for applications, re-opening receipt of application date.

SUMMARY: The National Marine Fisheries Service (NMFS) published a document in the **Federal Register** of January 14, 2002, concerning the solicitation of competitive applications under the John H. Prescott Marine Mammal Rescue Assistance Grant Program (Prescott Stranding Grant Program). This document re-opens the receipt of application date for no later than 5 p.m., (local time) on April 8, 2002.

DATES: The closing date for receipt of applications has been re-opened until April 8, 2002. You must submit one signed original and two copies of the completed application (including supporting information). We will not accept facsimile or electronic applications.

ADDRESSES: We must receive your application by 5 p.m. (E.S.T.) April 8, 2002, in one of the offices designated in the **Federal Register** issue of January 14, 2002 (67 FR 1720).

FOR FURTHER INFORMATION CONTACT: Dr. Teri Rowles, Marine Mammal Health and Stranding Response Program 301–713–2322 ext. 178 or via e-mail: *Teri.Rowles@noaa.gov*.

SUPPLEMENTARY INFORMATION:

Electronic Access

This solicitation, the application package, and supplementary documents are available on the NMFS Office of Protected Resources Home Page at: *http://www.nmfs.noaa.gov/prot—res/PR2/ Health—and—Stranding—Response— Program/Prescott.html*.

Title IV of the Marine Mammal Protection Act, the Marine Mammal Health and Stranding Response Program is available at: *www.nmfs.noaa.gov/prot—res/laws/MMPA/MMPA.html*.

Information on MMPA and ESA research and enhancement permits can be found at: *http://www.nmfs.noaa.gov/prot—res/PR1/Permits/pr1permits—types.html*.

Background

In the **Federal Register** notice issue of January 14, 2002, (67 FR 1720) under **DATES** change the date from March 15, 2002 to April 8, 2002. Applications will be accepted until 5 p.m. E.S.T. Any proposals that were received in the period after the original closing date of March 15 and before March 25, 2002, will be considered by the program and do not need to re-apply.

Dated: March 19, 2002.

Rebecca Lent,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

BILLING CODE 3510–22–S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[Docket No. 020306047-2047-01; I.D. 020402E]

RIN 0648-ZB14

Mid-Atlantic Fishery Management Council (Council); Request for Research Proposals (RFP)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of solicitation for applications.

SUMMARY: NMFS announces that for fishing year 2003 up to 3 percent of the total allowable landings (TAL) will be dedicated to research endeavors under a research set-aside program (RSA). This notice describes how the application and selection process for research projects to be funded under the RSA by a set-aside from the TAL of selected species will operate. The RSA provides a mechanism to fund research and compensate vessels through the sale of fish harvested under the research quota. The setting of the actual research set-aside quotas will be the subject of future rulemakings. NMFS is soliciting proposals for research activities concerning the summer flounder, scup, black sea bass, *Loligo* squid, *Illex* squid, Atlantic mackerel, butterfish, bluefish, and tilefish fisheries.

DATES: All research proposals to be considered under this solicitation must be received between March 25, 2002, and 5 p.m., EST, on May 13, 2002, in the Northeast Regional Office (see **ADDRESSES**). Postmarks prior to the end of the receipt period will not be sufficient. Facsimile applications will not be accepted. For further information related to the timeframe for review and selection of proposals to be conducted with research quota set-asides, see Section A, Background, under **SUPPLEMENTARY INFORMATION.**

ADDRESSES: Proposals must be submitted to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark proposals "Attention--Mid-Atlantic Research Proposals." Copies of the Standard Forms for submission of research proposals may be found on the Internet in a PDF (Portable Document Format) version at http://www.ofa.noaa.gov/grants/index.html, under the title "Grants Management Forms," or by contacting the Council office (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT: Daniel Furlong, Executive Director, Mid-Atlantic Fishery Management Council, (302) 674-2331, fax (302) 674-5399, e-mail thoff@mafmc.org or Paul H. Jones, Fishery Policy Analyst, NMFS, (978) 281-9273, fax 978-281-9135, e-mail paul.h.jones@noaa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

The award of a set-aside from the TAL of selected species became possible with the approval of Framework Adjustment 1 (Framework 1) to the Council's Atlantic Mackerel, Squid, and Butterfish; Summer Flounder, Scup, and Black Sea Bass; and Bluefish Fishery Management Plans (FMPs); and the RSA provisions of the Tilefish FMP. Framework 1 was approved by the Secretary of Commerce on August 10, 2001. It established a procedure through which research set-aside amounts would be set annually as part of the Council's quota-setting process. The set-asides can range between 0 and 3 percent of each species' TAL. The set-aside allocated for a given species is to be utilized primarily for research involving that species. However, to promote research in those cases where it would otherwise be infeasible, individual research projects could involve allocations from the set-asides for several of the species listed in this notice. Therefore, in addition to applying for part of the set-aside involving a species directly involved in a research project, applicants may also apply for up to 25 percent of the research set-aside quota for species not directly involved in a particular research project.

To be eligible for consideration, a research proposal for work to be conducted using a research set-aside allocation for the 2003 fishing year must be received during the application period identified in the DATES section of this document. Applicants must submit one signed original and two signed copies of the completed application (including supporting information). Prior to selection, NOAA will convene a panel to review proposals submitted in response to this RFP.

The Council, in consultation with the Atlantic States Marine Fisheries Commission (Commission), will incorporate the level of research set-aside (percentages) for each of the set-aside species for the 2003 fishing year into the Council's annual quota specification packages. NMFS will consider the recommended level of set-aside as part of the specification rulemaking process. It is anticipated that most proposals will request that vessels conducting research be exempt from certain regulations for the relevant fishery. The impacts of such an exemption must be analyzed. To ease the burden on researchers, the Council will prepare, as appropriate, an analysis of the impacts associated with the anticipated exemptions during the annual quota specification process. This process is intended to satisfy the analytical and public notice provisions of the Exempted Fishing Permit (EFP) regulations at 50 CFR 600.745. However, certain conditions may require the applicant to provide additional analysis associated with such an exemptions (see section N of this notice).

The actual level of research set-aside quota available to researchers for the 2003 fishing year will depend on the TAL level specified by the Council at its quota-setting meetings in June and August, 2002, and on the percentage (0 to 3 percent) of the TAL established by the Council as the level of research set-aside. To help researchers develop proposals for the 2003 fishing year, the table below provides some guidance on the general magnitude of research set-asides and estimated values that a researcher might expect to be available for fishing year 2003. The table is based on TAL levels for these fisheries for the 2002 fishing year and assumes that NMFS will approve the maximum set-aside level of 3 percent of the TAL. The table is intended only as a guide to be used when developing research proposals for the 2003 fishing year. It does not necessarily reflect the actual research set-aside quota that will be allocated for fishing year 2003. Based on Council recommendation, NMFS could choose to adopt less than 3 percent of TAL as a set-aside, or could decide not to adopt any set-aside for a given fishery. The estimated values of the set-aside allocations will vary depending on market considerations prevailing at the time the research trips are conducted.

EXAMPLE OF 3-PERCENT RESEARCH SET-ASIDES

Allocation Species	Pounds	Kilograms	Estimated Value($)
Summer Flounder	537,300	243,719	902,664
Scup	186,600	84,642	236,982
Black Sea Bass	185,100	83,961	318,372
Loligo Squid	1,124,339	510,000	865,741
Illex Squid	1,587,302	720,000	365,079
Atlantic Mackerel	5,621,693	2,550,000	730,820
Butterfish	390,013	176,910	222,307
Bluefish	1,135,200	514,927	431,376
Tilefish	59,850	27,148	148,428

B. Authority

Issuing grants is consistent with §§ 303(b)(11), 304(e), and 404(c) of the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*

C. Catalog of Federal Domestic Assistance (CFDA)

11.454, Unallied Management Projects

D. Funding Instrument and Project Period

In consultation with NMFS, the NOAA Grants Office will award a grant to successful applicants through the NOAA grant award process. The project period for all research is January 1, 2003, through December 31, 2003. Proposals to fund research that was started prior to the project period, or that would be completed after the project period will not be considered.

E. Funding Availability

No Federal funds are provided for research under this notification. The Federal Government's contribution to the project will be an EFP or Letter of Authorization, as applicable, which will provide special fishing privileges in response to research proposals selected

under this program. The Federal Government shall not be liable for any costs incurred in the conduct of the project. Any funds generated from the landings authorized under a research set-aside grant shall be used to cover the cost of the research, including vessel costs, and to compensate vessel owners for expenses incurred. Therefore, the owner of each fishing vessel selected to land a species in excess of a trip limit or seasonal quota must use the proceeds of the sale of the excess catch to compensate the researcher for costs associated with the research activities and use of the vessel.

Any additional funds above the cost of the research activities (or excess program income) shall be retained by the vessel owner as compensation for the use of his/her vessel.

F. Scope of Research

Projects funded under the research quota set-aside program should enhance understanding of the fishery resource or contribute to the body of information on which management decisions are made. Research, as well as additional voyages to obtain fish for compensation, may be conducted, as specified in the EFP or Letter of Authorization, as applicable, in or outside of a closed area, within the timeframe of a commercial quota closure, and onboard a fishing or other type of vessel, including recreational and/or commercial vessels.

Funds generated from the research quota set-aside landings shall be used to cover the cost of the research activities, including vessel costs, and to compensate boats for expenses incurred during the collection of the set-aside species. For example, the funds could be used to pay for gear modifications, monitoring equipment, additional provisions (e.g., fuel, ice, food for scientists), or the salaries of research personnel. The Federal Government is not liable for any costs incurred by the researcher or vessel owner, should the sale of the excess catch not fully reimburse the researcher or vessel owner for his/her expenses.

G. Eligibility Criteria

All commercial organizations; non-profit organizations; state, local or tribal governments; institutions of higher education; and individuals are eligible to apply, provided that all proposal requirements are satisfied and the proposal is received by the date specified in this document.

A person is not eligible to submit an application under this program if he/she is an employee of any Federal agency; a Regional Fishery Management Council; or an employee of a Council. However, Council members who are not Federal employees can submit an application.

H. Proposal Preparation and Requirements

NOAA employees (whether full-time, part-time, or intermittent) are not allowed to help in the preparation of an application, except that staff may provide you with information on program goals, funding priorities, application procedures, and completion of application forms. Since this is a competitive program, NMFS and NOAA employees will not provide assistance in conceptualizing, developing, or structuring proposals, or write letters of support for a proposal. However, the Council or NMFS contact person (see **FOR FURTHER INFORMATION CONTACT**) may provide assistance to researchers who are seeking vessels to participate in the collection of set-aside species or directly in research projects.

Proposals must identify the research to be conducted and the total amount of the set-aside species requested for the project, including its approximate cash value. If a waiver of Federal regulations is proposed, a list of the specific regulations to be waived and a brief justification for such a waiver must be included with the proposal.

In addition, each proposal must identify the requirements for the participating vessel(s) that would make a trip to collect the set-aside species. The vessel(s) selected by the applicant must be listed in the proposal, if possible, or specifically identified prior to final approval by NOAA. Proposals may request that the quota set-aside be collected separately from the research trip or other related research trip. The separate compensation trips do not necessarily have to be conducted by the same vessel.

The researcher's proposal must state the amount of funds required to support the research project, as well as the amount required to compensate the vessel owner either for the collection of set-aside species, or for participation in the research project, or both. The proposal must also include the agreement between the vessel owner and researcher that shows exactly how the research activity is to be paid for, if possible, or such agreement must be provided prior to final approval by NOAA.

I. Project Funding Priorities

The Council and NOAA will give priority to funding research proposals in the following areas identified as research priorities by the Council and Commission for the 2003 fishing year (not listed in order of priority):

1. Bycatch and discard reduction concerning: (a) Distinctions between regulatory discards and bycatch attributed to gear, including mesh selectivity and/or overall gear design in the summer flounder fishery; (b) gear modifications in the *Loligo* squid fishery to reduce scup and other species bycatch; (c) discard studies in the *Loligo* and scup fisheries; and (d) better estimates of recreational discards in the summer flounder, scup, black sea bass and bluefish fisheries;

2. Mesh and gear selectivity focusing on: (a) The examination of summer flounder catch composition in small-mesh net fisheries within the summer flounder small-mesh exemption area; (b) summer flounder mesh selectivity studies; (c) scup mesh selectivity; (d) squid mesh selectivity; (e) black sea bass mesh selectivity; (f) the development of threshold triggers based on gear and fishery characteristics; (g) evaluation of various pot vent sizes for black sea bass; (h) estimation of mortality of black sea bass left in pots during the closed season; (i) evaluation of fishery management actions, e.g., do closures have a net positive effect on fishing mortality by postponing such mortality, or do they simply allow for concentration of resources such that when the seasons open the consequent fishing effort offsets the mortality reductions that occurred during the closure; and (j) mesh retention studies of 2-1/2 (6.35 cm), 2-3/4 (6.985 cm), and 3-inch (7.63 cm) mesh for butterfish;

3. Fishing impacts on habitat pertaining to: (a) Mobile gear impacts on tilefish burrows; (b) scup spawning areas and scup larvae settlement areas in coastal/estuarine waters; (c) benthic habitat of juvenile and adult black sea bass, and scup offshore wintering areas; and (d) mapping of spawning areas and egg mop areas for *Loligo*;

4. Cooperative stock assessment surveys focusing on: (a) The use of alternative industry assessment methods to determine abundance of Atlantic mackerel; (b) the summer flounder fishery; (c) surveys for summer flounder in areas not traditionally sampled by the North East Fisheries Science Center gear; (d) side-by-side comparisons for summer flounder and scup of commercial and NEFSC survey gear; (e) better survey information for bluefish; (f) tagging studies of bluefish movements; and (g) DNA analysis for stock descriptions of Atlantic bluefish and Atlantic mackerel;

5. Improved recreational fishery data focusing on: (a) Research to enhance the overall knowledge of the recreational fishery; (b) statistical models to evaluate the effectiveness of recreational management measures and/or data collection process; (c) studies of bluefish hooking mortality by size of fish; and (d) tagging studies with break-away hooks for movement of tilefish.

6. Other: (a) Evaluation of redirection of fishing effort with area closures for black sea bass; (b) evaluation of whether artificial reefs increase the productivity of black sea bass or simply concentrate the resource; and (c) evaluation of the mixing of Illex and *Loligo* in September and October.

J. Evaluation Criteria

The review panel convened by NOAA to evaluate proposals submitted in response to this RFP (see section L of this notice), will evaluate proposals by assigning scores up to the maximum indicated for each of the following criteria:

1. A clear definition of the problem, need, issue or hypothesis to be addressed. The proposal should describe its relevance to RSA program priorities. If not directly related to priorities listed in this solicitation, provide justification why the proposed project should be considered (25 points);

2. Cost-effectiveness of the project. The request and value of the anticipated revenue from RSA should be commensurate with estimated project costs. Economic and budget projections must be quantified, to the extent possible. Where appropriate, use of existing equipment versus acquisition of new equipment (fishing gear) is preferred (25 points);

3. A clear definition of the approach to be used, including description of field work, theoretical studies, and laboratory analysis to support that proposed research, and the ability of the researchers to physically complete work during the 2003 calendar year can be completed in the area and time proposed. Activities that take place over a wider versus narrower geographical range, where appropriate, are preferred (25 points);

4. Demonstration of support, cooperation and/or collaboration with the fishing industry, and qualifications/experience of project participants. Where appropriate, unified versus separate stand-alone proposals on related projects involving multiple principal investigators are preferred (15 points);

5. Identification of anticipated benefits, potential users, likelihood of success, and methods of disseminating results. Where appropriate, data format generated from the research must be consistent with NMFS' and Atlantic Coastal Cooperative Statistical Program's (ACCSP) databases (10 points). A copy of this format is available from NMFS (see **FOR FURTHER INFORMATION CONTACT**).

K. Selection Procedures

NOAA will solicit written technical evaluations from the Council members who make up the Ecosystem Planning Committee (Committee) and from three or more appropriate private and public sector experts to score proposals using the criteria specified in section J of this notification to determine the technical merit of the proposal. Following completion of the technical evaluation, NOAA will convene a review panel, including the Committee and technical experts, to review and individually critique the scored proposals to enhance NOAA's understanding of the proposals. No consensus recommendations will be made. Based on the results of the technical review, rank order based on average scores, comments provided by the review panel, and the following program policy factors, NOAA will select the successful proposals and inform the Council of its recommendations. The program policy factors are: (1) The time of year the research activities are to be conducted; (2) the ability of the proposal to meet the experimental fishery requirements discussed under Section N of this notice; and (3) redundancy of research projects. Therefore, the highest scoring projects may not necessarily be selected for an award. The selecting official will provide final approval of the projects to allow NMFS to exempt selected vessel(s) from specific regulations implementing the respective FMPs through written notification to the applicant.

For proposals that request exemptions from existing regulations (e.g., possession limits, closed seasons, etc.), the impacts of the proposed exemptions must be analyzed. The Council will analyze these impacts as part of the impacts of the proposed specifications for the upcoming fishing year in the annual quota specification packages it submits to NMFS. However, those individuals with proposals that include vessel activities that extend beyond the scope of the analysis provided by the Council may be required to provide additional analysis before issuance of an EFP will be considered (see section N). Any researchers who request regulatory exemptions that are beyond the scope of the Council analysis may be required to adhere to the regulations that govern the issuance of an EFP by NMFS (see section N). If necessary, and as appropriate, NMFS will consult with the Council and successful applicants to secure the information required for granting an exemption if issuance of an EFP is necessary for the research to be conducted. The final decision on the applicant's proposal for research quota will not be made by NOAA until NMFS advises that the applicant's EFP request is approved.

L. Proposal Format

Proposals should be limited to seven pages, excluding item 6 below. The format may vary but must include:

1. A project summary;

2. A narrative project description to include: (a) Project goals and objectives; (b) the relationship of the proposed project to management needs or priorities identified by the Council; (c) a statement of work (project design and management including who is responsible, expected products, and participants other than applicant); and (d) a summary of the existing state of knowledge related to the project and contribution and relevance of the proposed work;

3. A description of all funding sources (including revenues derived from the sale of the species harvested under the research quota set-aside) and funding needs. This element of the proposal must include the amount of research quota set-aside requested for each species and the expected funds to be generated by the sale of those species, as well as the expected percentage of funds to be allocated to the researcher and any involved fishing vessel;

4. A budget that includes a breakdown of costs, including permit costs, equipment, supplies, and overhead. Applicants must submit a Standard Form 424 (Application for Federal Assistance) including a detailed budget using Standard Form 424A, (Budget Information-- Non-Construction Programs), Standard Form 424B (Assurances - Non-Construction Programs), and Commerce Department Form CD-511, (Certifications Regarding Debarment, Suspension and Other Responsibility Matters: Drug-Free Workplace Requirements and Lobbying). Copies of these Standard Forms may be found on the Internet in a PDF version at http://www.ofa.noaa.gov/grants/index.html (Grants Management Forms);

5. A list of any Federal or state regulations that the applicant needs to have waived and a brief justification for such a waiver. Note that requests for waivers of any state regulations will be forwarded to the appropriate state agency(s). NOAA cannot guarantee that

VOL
67
ISS
57
MR
25
2002
UMI

state agencies will accede to any particular request; and

6. Supporting documents including resumes, cooperative research agreements, and contracts.

M. Final Reports and Data Submission

NOAA will require project researchers to submit to NOAA, with a copy for the Council, an interim and/or final report describing their research project results, or other acceptable deliverable(s), in a timeframe that is specific to the type of research conducted. The format of the report may vary, but must contain:

1. A brief summary of the report;
2. A description of the issue/problem that was addressed;
3. A detailed description of methods of data collection and analyses;
4. A discussion of results and any relevant conclusions presented in a format that is understandable to a non-technical audience; this should include benefits and/or contributions to management decision-making;
5. A list of entities, firms, or organizations that actually performed the work and a description of how the work was accomplished; and
6. A detailed final accounting of all funds used to conduct research, including generation of project income resulting from sale of research set-aside quota. The financial information must be submitted on Office of Management and Budget Standard Form-269. Copies of this Standard Form may be found on the Internet in a PDF version at http://www.ofa.noaa.gov/grants/index.html (Grants Management Forms). Projects designed to collect new data for inclusion in NMFS' or ACCSP's databases must submit the data in electronic format with appropriate documentation. Certain databases will have highly specific requirements as to required fields and content. Researchers must agree to provide newly collected data in a format acceptable to the administrators of the receiving databases.

N. Other Requirements

The Council staff will bear the primary responsibility for the evaluations of impacts associated with the research, including analysis of any requested regulatory waivers. However, researchers proposing research and/or compensation fishing that goes beyond the scope of analysis provided by the Council staff in the Council's annual specification packages shall be required to submit a Supplemental Environmental Assessment to obtain an EFP from NMFS. Should a researcher be required to submit a request for an EFP to NMFS such submission should be received by NMFS at least 60 days before the requested start date of the proposed research to allow for additional review and analysis. A final decision on the applicant's grant request for research quota will not be made until NMFS has approved the applicant's EFP request.

O. Other Requirements of Recipients

The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements contained in the **Federal Register** notice of October 1, 2001 (66 FR 49917), are applicable to this solicitation. However, please note that the Department of Commerce will not implement the requirements of Executive Order 13202 (66 FR 49921), pursuant to guidance issued by the Office of Management and Budget in light of a court opinion which found that the Executive Order was not legally authorized. See *Building and Construction Trades Department* v. *Allbaugh*, 172 F. Supp. 2d 138 (D.D.C. 2001). This decision is currently on appeal. When the case is resolved, the Department will provide further information on implementation of Executive Order 13202.

P. Disposition of unsuccessful applications.

If an application is not selected, NOAA will return the proposal and related documents to the applicant.

Q. Other

Pursuant to Executive Orders 12876, 12900, and 13021, the Department of Commerce, NOAA (DOC/NOAA) is strongly committed to broadening the participation of Historically Black Colleges and Universities, Hispanic Serving Institutions, and Tribal Colleges and Universities in its educational and research programs. The DOC/NOAA vision, mission and goals are to achieve full participation by Minority Serving Institutions (MSIs) in order to advance the development of human potential, to strengthen the Nation's capacity to provide high-quality education, and to increase opportunities for MSIs to participate in, and benefit from, Federal financial assistance programs. DOC/NOAA encourages all applicants to include meaningful participation of MSIs.

DOC/NOAA supports cultural and gender diversity in our programs and encourages women and minority individuals and groups to submit applications.

DOC/NOAA encourages applications from members of the fishing community, and applications that involve fishing community cooperation and participation.

Classification

Prior notice and opportunity for public comments are not required by the Administrative Procedure Act or any other law for this notice concerning grants, benefits, and contracts (5 U.S.C. 553(a)(2)).

Because a general notice of proposed rulemaking as specified in 5 U.S.C. 533, or any other law, was not required for this action, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., are not applicable.

Applications under this program are not subject to the provisions of Executive Order 12372, "Intergovernmental Review of Federal Programs."

This notice contains collection-of-information requirements subject to the Paperwork Reduction Act. The use of Standard Forms 269, 424, 424A, 424B, and SF-LLL have been approved by OMB under the respective control numbers 0348-0039, 0348-0043, 0348-0044, 0348-0040, and 0348-0046.

Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the Paperwork Reduction Act, unless that collection displays a currently valid OMB control number.

This action has been determined to be not significant for purposes of Executive Order 12866.

Dated: March 19, 2002.

Rebecca Lent,

Deputy Assistant Administrator for Regulations National Marine Fisheries Service.

BILLING CODE 3510–22–S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

National Sea Grant Review Panel

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of public meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda of a forthcoming meeting of the Sea Grant Review Panel. The meeting will have several purposes. Panel members will discuss and provide advice on the National Sea Grant College Program in the areas of program evaluation, education and extension, science and technology programs, and other matters as described below:

DATES: The announced meeting is scheduled during two days: Thursday, April 4, 2002, 9 a.m. to 5 p.m.; Friday, April 5, 2002 9 a.m. to 12:30 p.m.

ADDRESSES: National Oceanic and Atmospheric Administration, Silver Spring Metro Center III, 1315 East-West Highway, Room 4527, Silver Spring, Maryland 20910.

FOR FURTHER INFORMATION CONTACT: Dr. Ronald C. Baird, Director, National Sea Grant College Program, National Oceanic and Atmospheric Administration, 1315 East-West Highway, Room 11716, Silver Spring, Maryland 20910, (301) 713–2448.

SUPPLEMENTARY INFORMATION: The Panel, which consists of a balanced representation from academia, industry, state government and citizens groups, was established in 1976 by Section 209 of the Sea Grant Improvement Act (Public Law 94–461, 33 U.S.C. 1128). The Panel advises the Secretary of Commerce and the Director of the National Sea Grant College Program with respect to operations under the Act, and such other matters as the Secretary refers to them for review and advice. The agenda for the meeting is as follows:

Thursday, April 4, 2002

9:00 a.m.—Welcoming and Opening Formalities, Change of Panel Chairs, Election of Sea Grant Review Panel Officers, Approval of Last Meeting Minutes and Agenda, Introductory Remarks.
9:20 a.m.—Executive Committee Report.
9:45 a.m.—NSGO Director's Update.
10:15 a.m.—Sea Grant Association Report.
10:45 a.m.—Break.
11:00 a.m.—Allocation Committee Report.
12:00 noon—Working Lunch (Wisconsin Sea Grant Information Management System Demonstration).
1:45 p.m.—Allocation Committee Report (continued).
2:45 p.m.—Duce Committee Report Consideration.
3:45 p.m.—Break.
4:00 p.m.—Program Evaluation Implementation Report.
4:15 p.m.—Best Management Practices.
4:30 p.m.—Coastal States Organization Presentation.

Friday, April 5, 2002

9:00 a.m.—NOAA Update.
9:30 a.m.—Congressional Update.
10:30 a.m.—Break.
10:45 a.m.—NSGO Update, Sea Grant Fisheries Extension, Communications Update, Education Update, NOAA MSI/Environmental Entrepreneurship Program, Aquatic Nuisance Species, Maine and New Hampshire Sea Grant College, Status.
12:00 noon—Wrap-up.
12:30 p.m.—Adjourn.

This meeting will be open to the public.

Louisa Koch,

Deputy Assistant Administrator, Office of Oceanic and Atmospheric Research.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 031902A]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of an application for a research permit (1374).

SUMMARY: Notice is hereby given of the following actions regarding permits for takes of endangered and threatened species for the purposes of scientific research and/or enhancement under the Endangered Species Act (ESA): NMFS has received an application for a scientific research permit from Dr. Andrew J. Read of Duke University Marine Laboratory.

DATES: Comments or requests for a public hearing on any of the new applications or modification requests must be received at the appropriate address or fax number no later than 5 p.m. eastern standard time on April 24, 2002.

ADDRESSES: Written comments on the new application should be sent to the appropriate office as indicated below. Comments may also be sent via fax to the number indicated for the application. Comments will not be accepted if submitted via e-mail or the Internet. The application and related documents are available for review in the indicated office, by appointment:

Permits, Conservation and Education Division, F/PR1, 1315 East West Highway, Silver Spring, MD 20910 (phone:301–713–2289, fax: 301–713–0376).

FOR FURTHER INFORMATION CONTACT: Lillian Becker, Silver Spring, MD (phone: 301–713–2319, fax: 301–713–0376, e-mail: Lillian.Becker@noaa.gov).

SUPPLEMENTARY INFORMATION:

Authority

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Scientific research and/or enhancement permits are issued under section 10(a)(1)(A) of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222–226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see ADDRESSES). The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Species Covered in This Notice

The following species are covered in this notice:

Sea turtles

Threatened and endangered Green turtle (*Chelonia mydas*)

Endangered Kemp's ridley turtle (*Lepidochelys kempii*)

Threatened Loggerhead turtle (*Caretta caretta*)

Application 1374

The purpose of this research is to describe relationships between the movements of sea turtles and the fall gillnet flounder fishery as well as habitat use of loggerhead, green and Kemp's ridley sea turtles. Turtles will be collected in collaboration with the NMFS Beaufort Laboratory Turtle Research Team as part of their "Coastal North Carolina Demographic and Life History Studies" program under endangered species permit #1260. The turtles will be monitored via satellite telemetry. The applicant will monitor up to 30 loggerhead, 10 green and 10 Kemp's ridley sea turtles.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton and Wool Textile Products Produced or Manufactured in the Republic of Korea

March 19, 2002.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs adjusting limits.

EFFECTIVE DATE: March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927–5850, or refer to the U.S. Customs website at http://www.customs.gov. For information on embargoes and quota re-openings, refer to the Office of Textiles and Apparel website at http://otexa.ita.doc.gov.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limits for certain categories are being reduced for carryforward used.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 66 FR 65178, published on December 18, 2001). Also see 66 FR 59578, published on November 29, 2001.

James C. Leonard III,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

March 19, 2002.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on November 23, 2001, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products in the following categories, produced or manufactured in the Republic of Korea and exported during the twelve-month period which began on January 1, 2002 and extends through December 31, 2002.

Effective on March 25, 2002, you are directed to reduce the limits for the following categories, as provided for under the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit [1]
Sublevels within Group II	
338/339	1,427,770 dozen.
435	37,396 dozen.

[1] The limits have not been adjusted to account for any imports exported after December 31, 2001.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

James C. Leonard III,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510–DR–S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Request for Public Comment on a Petition to Amend a Rule of Origin under the North American Free Trade Agreement (NAFTA)

March 19, 2002.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Request for Public Comments concerning a petition filed under Section 7.2 of Annex 300-B of NAFTA to amend the NAFTA rules of origin for certain men's and boy's woven shirts.

SUMMARY: On February 26, 2002 the Chairman of CITA received a petition from the American Textile Manufacturers Institute (ATMI) requesting CITA to commence consultations with the governments of Canada and Mexico for the purpose of amending the rules of origin set forth in Annex 401 of the NAFTA for Harmonized Tariff Schedule (HTS) subheadings 6205.20 - 6205.30. In particular, ATMI requests that paragraph (c) of the subheading rule applicable to HTS subheadings 6205.20 - 6205.30 be deleted.

ATMI claims that the fabrics described in paragraph (c) of the subheading note are currently being produced in commercial quantities in the United States and are available in a timely manner. Specifically, ATMI claims that Dan River, Inc., an ATMI member, currently has in its line a fabric that conforms to the following specifications:

Fiber content	60% cotton / 40% polyester
Weight	108.5 grams per square meter
Construction	Plain weave, not of square construction
Thread count	74 per square centimeter
Average yarn size	71.07 metric
Finish	Available bleached and dyed

A modification of the NAFTA rules of origin may only be made after reaching agreement with the other NAFTA parties. CITA hereby solicits public comments on this petition, in particular with regard to whether the fabric described above can be supplied by the domestic industry in commercial quantities in a timely manner. Comments must be submitted by **April 24, 2002.**

FOR FURTHER INFORMATION CONTACT: Martin Walsh, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3400.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 USC 1854); Section 202(q) of the North American Free Trade Agreement Implementation Act (19 USC 3332(q)); Executive Order 11651 of March 3, 1972, as amended

BACKGROUND:

Under the North American Free Trade Agreement (NAFTA), NAFTA countries are required to eliminate customs duties on textile and apparel goods that qualify as originating goods under the NAFTA rules of origin, which are set out in Annex 401 to the NAFTA. The NAFTA provides that the rules of origin for textile and apparel products may be amended through a subsequent agreement by the NAFTA countries. In consultations regarding such a change, the NAFTA countries are to consider issues of availability of supply of fibers, yarns, or fabrics in the free trade area and whether domestic producers are capable of supplying commercial quantities of the good in a timely manner. The Statement of Administrative Action (SAA) that accompanied the NAFTA Implementation Act stated that any interested person may submit to CITA a request for a modification to a particular rule of origin based on a change in the availability in North America of a particular fiber, yarn or fabric and that the requesting party would bear the burden of demonstrating that a change is warranted. The SAA provides that CITA may make a recommendation to the President regarding a change to a rule of origin for a textile or apparel good. The NAFTA Implementation Act provides the President with the authority to proclaim modifications to the NAFTA rules of origin as are necessary to implement an agreement with one or more NAFTA country on such a modification.

On February 26, 2002 the Chairman of CITA received a petition from the American Textile Manufacturers Institute (ATMI) requesting CITA to commence consultations with the governments of Canada and Mexico for the purpose of amending the rules of origin set forth in Annex 401 of the NAFTA for Harmonized Tariff Schedule (HTS) subheadings 6205.20 - 6205.30. In particular, ATMI requests that paragraph (c) of the subheading rule applicable to HTS subheadings 6205.20 - 6205.30 be deleted.

ATMI claims that the fabrics described in paragraph (c) of the subheading note are currently being produced in commercial quantities in the United States and are available in a timely manner. Specifically, ATMI claims that Dan River, Inc., an ATMI member, currently has in its line a fabric that conforms to the following specifications:

Fiber content	60% cotton / 40% polyester
Weight	108.5 grams per square meter
Construction	Plain weave, not of square construction
Thread count	74 per square centimeter
Average yarn size	71.07 metric
Finish	Available bleached and dyed

CITA is soliciting public comments regarding this request, particularly with respect to whether the fabric described above can be supplied by the domestic industry in commercial quantities in a timely manner. Comments must be received no later than April 24, 2002. Interested persons are invited to submit six copies of such comments or information to the Chairman, Committee for the Implementation of Textile Agreements, room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, DC 20230.

If a comment alleges that the fabric described above cannot be supplied by the domestic industry in commercial quantities in a timely manner, CITA will closely review any supporting documentation, such as a signed statement by a manufacturer of men's shirts stating that it attempted to purchase U.S. made fabric of the kind described above, including quantities requested and the required time frame for delivery, and found no U.S. producers able to fill the order.

CITA will protect any business confidential information that is marked business confidential from disclosure to the full extent permitted by law. CITA will make available to the public non-confidential versions of the request and non-confidential versions of any public comments received with respect to a request in room 3100 in the Herbert Hoover Building, 14th and Constitution Avenue, N.W., Washington, DC 20230. Persons submitting comments on a request are encouraged to include a non-confidential version and a non-confidential summary.

James C. Leonard III,

Chairman, Committee for the Implementation of Textile Agreements.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Homeland Security NOFA Discussion Forum

AGENCY: Corporation for National and Community Service.

ACTION: Notice.

SUMMARY: The Corporation for National and Community Service will host a series of five teleconference calls to discuss, and answer questions regarding, the recent Notice of Availability of Funds to Strengthen Communities and Organizations in Using Service and Volunteers to Support Homeland Security, published in the **Federal Register** on March 8, 2002 (67 FR 10684). Please send discussion questions via e-mail to *homelandnofa@cns.gov* prior to the calls. We will consider all discussion questions, although we cannot guarantee that every item will be discussed due to the high number of expected participants. Teleconference participation is limited to the first 100 callers. The toll-free number for all five calls is 1–877–921–2789. The pass code is verbal: "GARY." Callers will also be required to provide the conference leader's name (Gary Kowalczyk, Coordinator of National Service Programs).

DATES: Teleconference calls will take place on the following dates and times:

Tuesday, March 26, 2002, 3:30–5:00 p.m. EST.

Wednesday, March 27, 2002, 2:00–3:30 p.m. EST.

Friday, March 29, 2002, 3:00–4:30 p.m. EST.

Tuesday, April 2, 2002, 3:30–5:00 p.m. EST.

Friday, April 5, 2002, 2:30–4:00 p.m. EST.

ADDRESSES: Our address is The Corporation for National and Community Service, 1201 New York Avenue, NW, Washington, DC 20525.

FOR FURTHER INFORMATION CONTACT: For further information, contact Deena Johnson (202–606–5000, ext. 562) or Femi Estrada-Petersen (202–606–5000, ext. 192), or e-mail *homelandnofa@cns.gov.*

Dated: March 20, 2002.

Gary Kowalczyk,

Coordinator, National Service Programs.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Availability of Funds for Grants to Support New Senior Companion and Foster Grandparent Projects

AGENCY: Corporation for National and Community Service.

ACTION: Notice of availability of funds.

SUMMARY: The Corporation for National and Community Service (hereinafter, the "Corporation") announces the availability of funding for grants to support three new Senior Companion projects in geographic areas that do not fall within approved service areas of current Corporation-funded Senior Companion projects and three new Foster Grandparent projects in geographic areas that do not fall within approved service areas of current Corporation-funded Foster Grandparent projects. The purpose of the Senior Companion Program (SCP) is to provide opportunities for income eligible

VOL

2002
UMI

individuals 60 years of age and over to serve adults with special needs. The purpose of the Foster Grandparent Program (FGP) is to provide opportunities for income eligible individuals 60 years of age and over to serve children and youth with special or exceptional needs on a person to person basis.

On November 8, 2001, President Bush announced that the Corporation will support homeland security in the coming year, and the Corporation encourages applicants for these grants to include appropriate activities for Foster Grandparents and Senior Companions that help support homeland security. The Corporation defines homeland security to include activities that support public safety, public health, and disaster preparedness and relief.

Individual Senior Companion grant awards will be approximately $211,825 to cover the costs of 48 Senior Companion service years for twelve months. Individual Foster Grandparent grant awards will be approximately $192,265 to cover the costs of 44 Foster Grandparent service years for twelve months.

DATES: Applications must arrive at the Corporation for National and Community Service by 5:00 p.m. (Eastern Daylight Time), May 31, 2002. The Corporation will not accept applications that are submitted via facsimile. Due to delays in delivery of regular U.S.P.S. mail to government offices, there is no guarantee that your application will arrive in time to be considered. We suggest that you use U.S.P.S. priority mail or a commercial overnight delivery service. We anticipate announcing selections under this Notice no later than June 28, 2002.

ADDRESSES: One unbound, single-sided original and two copies of the application must be submitted to the following address: Corporation for National and Community Service, National Senior Service Corps, 1201 New York Avenue, NW, Washington, DC 20525, Attn: Mr. John Keller. All applicants are encouraged voluntarily to submit two additional copies of the application to expedite the review process. Applications must arrive at the Corporation for National and Community Service by 5:00 p.m. (Eastern Daylight Time), May 31, 2002. The Corporation will not accept applications that are submitted via facsimile. Due to delays in delivery of regular U.S.P.S. mail to government offices, there is no guarantee that your application will arrive in time to be considered. We suggest that you use U.S.P.S. priority mail or a commercial overnight delivery service.

Applications: Application guidelines and instructions can be obtained by contacting the appropriate Corporation State Office. Information on how to contact state offices is located on our Web site: *www.nationalservice.org.* Click on "Contact Us" at the bottom of the page. Applicants are urged to pay close attention to these application materials. They contain a wide variety of relevant requirements, including non-federal contributions, the amounts of stipends volunteers may receive, and the requirements for organizations proposing to operate a project.

FOR FURTHER INFORMATION CONTACT: Contact John Keller at 202–606–5000 ext. 285. TDD (202) 565–2799. This Notice is available in an alternative format for people with visual impairments.

SUPPLEMENTARY INFORMATION:

Background

The Corporation is a federal government corporation that encourages Americans of all ages and backgrounds to engage in community-based service to meet the nation's educational, public safety, environmental and other human needs. In doing so, the Corporation fosters civic responsibility, strengthens the ties that bind us together as a people, and provides educational opportunity for those who make a substantial commitment to service. This year, the Corporation will help support more than 1.5 million Americans who perform substantial service in communities across the country.

In the State of the Union address, the President announced that the USA Freedom Corps will build on the great American ethic of service. The USA Freedom Corps will promote a culture of responsibility, service, and citizenship. It will work with key service agencies in government and the nonprofit sector to provide incentives and new opportunities to serve at home and abroad. The USA Freedom Corps will draw from Americans of all ages and of every background. The Corporation for National and Community Service and its programs—National Senior Service Corps, AmeriCorps, and Learn and Serve America—are part of the efforts under the USA Freedom Corps. The programs of the National Senior Service Corps include the Senior Companion and Foster Grandparent Programs as well as the Retired and Senior Volunteer Program (RSVP).

Program Period of Performance

The program period for all grants is twelve months. Future funding is contingent on performance and the availability of appropriations.

Application Instructions

To be considered for funding, applications must meet all of the criteria and requirements contained in this Notice. The Grant Application, CNCS Form 424–NSSC, and supplemental guidelines and instructions, can be obtained by contacting the appropriate Corporation State Office. The Corporation State Office can also advise applicants concerning the service areas covered by existing projects. Information on how to contact state offices is located on our Web site: *www.nationalservice.org.* Click on "Contact Us" at the bottom of the page. Applicants are urged to pay close attention to these application materials. They contain a wide variety of relevant requirements, including non-federal contributions, the amounts of stipends volunteers may receive, and the requirements for organizations proposing to operate a project. Applicants must submit all forms and attachments specified in the Grant Application and supplemental guidelines and instructions.

Selection Criteria

The Corporation will initially determine: (1) Whether the organization is eligible; (2) whether the application contains all the required information, and (3) whether the geographic location of the proposed project is an approved geographic service area that does not currently have a project funded by the Corporation under the respective program (FGP or SCP) for which they are applying.

After this initial screening, the Corporation will select and evaluate applications based on the following criteria: Program Design (60%) Organizational Capacity (25%), and Budget/Cost-Effectiveness (15%). Details on the application criteria will be available in the application package available from Corporation state offices. The Corporation will take into consideration the following factors after the proposals are assessed:

- *Geographic location:* The Corporation will assure a mix of urban and rural sites.
- *Diversity:* The Corporation will select organizations whose local projects have the capacity to recruit ethnic and racial minorities, males, and persons with disabilities.

Program Authority

Corporation Authority to make these grants is codified in 42 U.S.C. 4950 *et seq.*

Additional Information Concerning the Specific Funding Available

Senior Companion Projects

The Senior Companion Program

The Senior Companion Program (SCP) is authorized by the Domestic Volunteer Service Act of 1973, as amended (Public Law 93–113, Title II, Part C, 42 U.S.C. 5013) and provides opportunities for income eligible individuals 60 years of age and over to serve adults with special needs. The SCP was launched in 1974 with its first 11 projects. Today there are over 17,000 Senior Companions serving 55,000 frail adults annually in 218 local SCP projects. These Senior Companions provide high quality and reliable personal support to adults, primarily the frail elderly, experiencing difficulties with activities of daily living, allowing them to live independently in their own homes for as long as possible. The SCP focuses on those with moderate physical, mental, or emotional impairments who are without adequate family support and who in the absence of non-medical support services would be at risk of institutionalization. Senior Companions also assist clients in patient discharge programs at acute care, mental health, and long-term care facilities to make the transition to living in less restrictive community settings. Some Senior Companions provide short-term respite for primary caregivers of frail adults in times of special need. Senior Companions have also helped their clients participate in emergency response drills, supplied information about crime prevention, and accompanied them to meetings where safety, health, and disaster response concerns are addressed.

Purpose

The purpose of this funding is to start new Senior Companion projects in geographic locations currently unserved by this program.

In addition, the Corporation encourages applicants for these grants to include, where appropriate, activities for Senior Companions that help support homeland security. The Corporation defines homeland security to include activities that support public safety, public health, and disaster preparedness and relief. For example, applicants for a Senior Companion project may propose activities that engage Senior Companions in:

- Providing clients with information and education related to the community's public safety, public health, and disaster preparedness and disaster mitigation plans and activities.
- Assisting their clients to participate in emergency response drills.
- Supplying clients with information on crime avoidance.
- Identifying potential safety, health, or emergency preparedness problems in their clients' homes, institutional environments, or neighborhoods and bringing these to the attention of professional case workers or other appropriate agencies.
- Providing transportation and/or escorting clients for medical appointments, immunizations, errands, etc.
- Providing respite to families of caregivers by caring for an adult with special needs and permitting the primary caregiver to attend meetings, volunteer, or simply become informed about local homeland security measures.
- Participating as a link between clients and community activities to prevent bias-related disorder or violence.
- Assisting crime victims who are frail or suffer from physical, mental, or emotional disabilities, where Senior Companions give support and assistance, including special referrals, as victims recover from trauma of crime and related losses.
- Assisting adults who are discharged from residential health care facilities, especially acute care facilities, who can be helped to resume a greater degree of independent living.

The above are examples only. Local communities will determine the best strategies for integrating Senior Companions into homeland security efforts, consistent with the purpose of the program. Applicants are encouraged to be creative about how Senior Companions can be part of a community or statewide effort to support homeland security. For example, SCP projects can establish relationships with local Citizens Corps Councils being supported at the state level by Governors and coordinated at the federal level by the Federal Emergency Management Agency (FEMA). For further information on these councils, visit *www.citizenscorps.gov.* Where Citizen Corps Councils have not yet been created, projects might be able to collaborate with local organizations that will make up the Citizen's Corps Council, such as Neighborhood Watches, emergency response programs, police volunteer programs, etc.

Eligible Applicants

Public agencies (including state and local agencies and other units of government), non-profit organizations, institutions of higher education and Indian Tribes are eligible to apply. Sponsors of Senior Companion projects that receive no funds from the Corporation, other than funding for Programs of National Significance (PNS), are eligible to apply. Current sponsors of Senior Companion projects funded by the Corporation are not eligible to apply for funding of a new Senior Companion project.

An organization described in section 501(c)(4) of the Internal Revenue Code of 1986, (26 U.S.C. 501(c)(4)) that engages in lobbying activities is not eligible to apply, serve as a host site for volunteers, or act in any type of supervisory role in the program.

Number and Amount of Awards

The Corporation intends to fund three Senior Companion projects in approved service areas that do not currently have a local project of the Senior Companion Program. The average amount of awards will be approximately $211,825.

Applicable Regulations

Regulations governing the SCP are located in 45 CFR part 2551. These will be provided as part of the application materials.

Foster Grandparent Projects

The Foster Grandparent Program

The Foster Grandparent Program (FGP) is authorized by the Domestic Volunteer Service Act of 1973, as amended (P.L. 93–113, Title II, Part B, 42 U.S.C. 5011 and provides opportunities for income eligible individuals 60 years of age and over to serve children and youth with special or exceptional needs on a person to person basis. The Foster Grandparent Program provides communities with valuable service by empowering older adults to contribute to their communities through volunteer service, enhance the lives of the volunteers and those whom they serve. The program began in 1965 as a national demonstration designed to show how low-income persons age 60 and over have the maturity and experience to establish a personal relationship with children having either special or exceptional needs. Today there are 34,000 Foster Grandparents providing care and attention every day to more than 220,000 qualified children and youth annually in 339 local FGP projects. Foster Grandparents volunteer in schools, hospitals, drug treatment centers, correctional institutions, and

2002
UMI

Head Start and day care centers. They offer emotional support to children who have been abused and neglected, mentor troubled teeagers and young mothers, care for premature infants and children with physical disabilities or servere illnesses, including AIDS. In the aftermath of the September 11 tragedy, many Foster Grandparents were important sources of reassurance to the children in their care. The special relationship and high level of personal care provided by Foster Grandparents helps young people grow, gain confidence, and become more productive members of society.

Purpose

The purpose of this funding is to start new Foster Grandparent projects in geographic locations currently unserved by this program.

In addition, the Corporation encourages applicants for these grants to include, where appropriate, activities for Foster Grandparents that help support homeland security. The Corporation defines homeland security to include activities that support public safety, public health, and disaster preparedness and relief. For example, applicants for a Foster Grandparent project may propose activities that engage Foster Grandparents in:

- Providing children with age-appropriate information and education related to the community's public safety, public health, and disaster preparedness and disaster mitigation plans and activities.
- Assisting children to participate in emergency response drills.
- Supplying children with information on crime avoidance.
- Identifying potential safety, health, or emergency preparedness problems in institutional environments, or neighborhoods and bringing these to the attention of professional caseworkers or other appropriate agencies.
- Providing temporary respite to families of caregivers by caring for disabled or chronically ill children living at home, thereby permitting the primary caregiver to attend meetings, volunteer, or simply become informed about local homeland security measures.
- Participating as a link between children and community activities to prevent bias-related disorder or violence.
- Assisting children who are discharged from residential health care facilities, especially acute care facilities, who can be helped to resume a greater degree of independent living.

The above are examples only. Local communities will determine the best strategies for integrating Foster Grandparents into homeland security efforts, consistent with the purpose of the program. Applicants are encouraged to be creative about how Foster Grandparents can be part of a community or statewide effort to support homeland security. For example, FGP projects can establish relationships with local Citizens Corps Councils being supported at the state level by Governors and coordinated at the federal level by the Federal Emergency Management Agency (FEMA). For further information on these councils, visit *www.citizenscorps.gov*. Where Citizen Corps Councils have not yet been created, projects might be able to collaborate with local organizations that will make up the Citizen's Corps Council, such as Neighborhood Watches, emergency response programs, police volunteer programs, *etc.*

Eligible Applicants

Public agencies (including state and local agencies and other units of government), non-profit organizations, institutions of higher education and Indian Tribes are eligible to apply. Sponsors of Foster Grandparent projects that receive no funds from the Corporation, other than funding for Programs of National Significance (PNS), are eligible to apply. Current sponsors of Foster Grandparent projects funded by the Corporation are not eligible to apply for funding of a new Foster Grandparent project.

An organization described in section 501(c)(4) of the Internal Revenue Code of 1986, (26 U.S.C. 501(c)(4)) that engages in lobbying activities is not eligible to apply, serve as a host site for volunteers, or act in any type of supervisory role in the program.

Number and Amount of Awards

The Corporation intends to fund three Foster Grandparent projects in approved service areas that do not currently have a local project of the Foster Grandparent Program. The average amount of awards will be approximately $192,265.

Applicable Regulations

Regulations governing the FGP are located in 45 CFR part 2553. These will be provided as part of the application materials.

Dated: March 20, 2002.

Teresa Scannell,

Director, National Senior Service Corps.

BILLING CODE 6050–$$–P

DELAWARE RIVER BASIN COMMISSION

Notice of Commission Meeting and Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold an informal conference followed by a public hearing on Wednesday, April 3, 2002. The hearing will be part of the Commission's regular business meeting. The conference session and business meeting both are open to the public and will be held at the Commission offices at 25 State Police Drive, West Trenton, New Jersey.

The conference among the Commissioners and staff will begin at 9:30 a.m. Topics of discussion will include: updates on the Comprehensive Plan, a set of Water Quality Standards revisions under development by the Water Quality Advisory Committee, and proposed resolutions to protect existing water quality in the Lower Delaware River; a report of the Flow Management Technical Advisory Committee concerning extending or replacing the Experimental Augmented Conservation Release Program for the New York City Delaware Basin Reservoirs; a report on the PCB Expert Panel meeting of February 12, 2002; and a proposed resolution regarding additional point source discharge monitoring required to support development of a TMDL for PCBs in the Delaware Estuary.

The subjects of the public hearing to be held during the 1:00 p.m. business meeting include, in addition to the dockets listed below, a resolution revising and extending Docket No. D–77–20 CP (Revision 4) to continue the Augmented Conservation Release Program for the New York City Delaware Basin Reservoirs, and a resolution to issue Guidelines for Developing an Integrated Resource Plan under the Delaware River Basin Commission Ground Water Protected Area Regulations.

The dockets scheduled for public hearing are as follows:

1. *Holdover Project: Philadelphia Suburban Water Company D–98–11 CP.* A project to withdraw up to 4.0 million gallons per day (mgd) from the East Branch Brandywine Creek for public water supply when streamflow exceeds 25 percent of the average daily flow and is also greater than 90 mgd for the Brandywine River at Chadds Ford. The applicant proposes to serve portions of Wallace, East Brandywine and West Brandywine Townships, all in Chester County, Pennsylvania. The intake will be situated on the east bank of the East Branch Brandywine Creek just south of Marshall Road in Wallace Township. On a yearly use basis, withdrawal is expected to average approximately 0.76 mgd. When available, the raw water will be conveyed for storage in a nearby abandoned quarry (known as Cornog Quarry) with an estimated storage capacity of approximately 100 mg. Withdrawals ranging from 0.5 mgd to 1.0 mgd will then be made from the quarry, treated by a proposed new filter plant, and distributed to the project service area.

2. *Boeing Defense and Space Group D–94–30 (Revision).* A project to revise the NPDES Permit limits for effluent metals parameters listed in Docket No. D–94–30 to reflect modifications which are consistent with current water quality regulations. No increase in the industrial waste treatment plant (IWTP) capacity of 0.234 mgd is proposed. The IWTP will continue to serve the applicant's military aircraft manufacturing operation in Ridley Creek Township, Delaware County, Pennsylvania. No modifications of the treatment process are proposed, as the applicant continues to utilize the Best Available Treatment (BAT) for the industrial classification. IWTP effluent will continue to discharge to the tidal reach of Crum Creek in Water Quality Zone 4, about a half-mile upstream of its confluence with the Delaware River.

3. *Perkasie Borough Authority D–97–12 CP (Revision).* A ground water withdrawal project to increase the existing withdrawal from the applicant's existing Wells Nos. 5, 6, 9, 10, 11 and 12 to 40.2 mg/30 days. The project is located in the Three Mile Run and Perkiomen Creek watersheds in Perkasie Borough, Bucks County, in the Southeastern Pennsylvania Ground Water Protected Area.

4. *Mercer County Improvement Authority D–99–28 CP.* A surface water withdrawal project via a new intake on Assunpink Creek at Mercer Lake to withdraw up to 1.3 mgd of water. The new intake, in addition to an existing intake, which can also provide up to 1.3 mgd, will irrigate the applicant's Mercer Oaks II Golf Course with a total limit of 15 mg/mo. The project is located off Quakerbridge Road in West Windsor Township, Mercer County, New Jersey.

5. *Artesian Water Company D–2000–46 CP.* An application for approval of a ground water withdrawal project to supply up to 63.94 mg/30 days of water to the Delaware Correctional Center from existing Wells Nos. 1 and 2 in the Rancocas Formation; and new Wells Nos. 3 and 4 in the Mount Laurel Formation, and to limit the withdrawal from all wells to 63.94 mg/30 days. The project is located near the Town of Smyrna, New Castle County, Delaware.

6. *United Water Delaware D–2001–37 CP.* A ground water withdrawal project to supply up to 8.7 mg/30 days of water to the applicant's public water supply system for new Well No. 1 in the Potomac Formation. The project is located in the Christina River watershed in New Castle County, Delaware.

7. *Camelback Ski Corporation D–2001–40.* A project for a tiered increase of the surface water withdrawal from the applicant's intake on Pocono Creek in the Brodhead Creek Watershed from a maximum seasonal use of 84.6 mg/30 days to 130 mg/30 days during the period between December and January. Up to 50 mg is proposed in the months of November and February, and 15 mg in March. The water supplies the applicant's snowmaking operation at the Camelback Ski Resort in Pocono Township, Monroe County, Pennsylvania. During the months of April through October, the applicant will use water for minor maintenance purposes averaging less than 100,000 gpd.

8. *Philadelphia Suburban Water Company D–2001–50 CP.* A ground water withdrawal project to supply up to 7.68 mg/30 days of water to the applicant's public water supply system from new Well "B" in the Brunswick Formation. The project is located in the Perkiomen Creek watershed in Perkiomen Township, Montgomery County, in the Southeastern Pennsylvania Ground Water Protected Area.

9. *Aronimink Golf Club D–2001–62.* A ground water withdrawal project to supply up to 6.48 mg/30 days of water to the applicant's irrigation system from new Wells Nos. 2 and 3 in the crystalline rock of the Piedmont Province and to limit the existing withdrawal from all wells to 10.8 mg/30 days. The project is located in the Darby Creek watershed in Newtown Township, Delaware County, Pennsylvania.

10. *Hanah Country Inn D–2002–7.* A project to expand a 9,000 gpd secondary septic treatment system to treat 13,830 gpd and provide a new subsurface discharge leach field at the applicant's 900 acre lodging facility located in the Town of Middletown, Delaware County, New York. The project is in the drainage area to the Delaware River Basin Commission's Special Protection Waters. The site is located on both sides of State Route 30, between County Route 38 (Arkville Road) and East Hubbell Road. The project is in the East Branch Delaware River Watershed, upstream from Pepacton Reservoir.

In addition to the public hearing items, the Commission will address the following at its 1:00 p.m. business meeting: Minutes of the February 6, 2002 business meeting; announcements; a report on Basin hydrologic conditions; reports by the Executive Director and General Counsel; a resolution regarding additional point source discharge monitoring required to support development of a TMDL for PCBs in the Delaware Estuary; a resolution authorizing the Executive Director to enter into a grant agreement with the State of New Jersey in the amount of $100,000 for the Lower Delaware Watershed Region Program Grant: Delaware River Estuary Air, Water and Sediment Field Study; and public dialogue.

Documents relating to the dockets and other items may be examined at the Commission's offices. Preliminary dockets are available in single copies upon request. Please contact Thomas L. Brand at 609–883–9500 ext. 221 with any docket-related questions. Persons wishing to testify at this hearing are requested to register in advance with the Commission Secretary at 609–883–9500 ext. 203.

Individuals in need of an accommodation as provided for in the Americans With Disabilities Act who wish to attend the hearing should contact the Commission Secretary, Pamela M. Bush, directly at 609–883–9500 ext. 203 or through the New Jersey Relay Service at 1–800–852–7899 (TTY), to discuss how the Commission may accommodate your needs.

Dated: March 19, 2002.

Pamela M. Bush,

Commission Secretary.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before May 24, 2002.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested

VOL

UMI

Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment. The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: March 20, 2002.

John Tressler,

Leader, Regulatory Information Management, Office of the Chief Information Officer.

Office of Special Education and Rehabilitative Services

Type of Review: Revision of a currently approved collection.

Title: Report of Randolph-Sheppard Vending Facility Program.

Frequency: Annually.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs (primary). Individuals or household, Federal Government.

Reporting and Recordkeeping Hour Burden:

Responses: 52.

Burden Hours: 702.

Abstract: The information is needed to evaluate the effectiveness of the program and to promote growth. The information is transmitted to State agencies to assist in the conduct and expansion of the program at the State level. Respondents are the designated voc. Rehab. Agencies.

Requests for copies of the proposed information collection request may be accessed from *http://edicsweb.ed.gov*, by selecting "Browse Pending Collections" and clicking on link number 1982. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW., Room 4050, Regional Office Building 3, Washington, DC 20202–4651 or to the e-mail address *vivian.reese@ed.gov*. Requests may also be electronically mailed to the Internet address *OCIO_RIMG@ed.gov* or faxed to 202–708–9346. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Sheila Carey at 202–708–6287. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339.

[FR Doc. 02–7091 Filed 3–22–02; 8:45 am]

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Proposed Agency Information Collection

AGENCY: Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). The proposed collection of information would implement a statutory requirement that Technology Transfer Ombudsmen report quarterly on complaints they receive.

DATES: Consideration will be given to comments submitted by May 24, 2002.

ADDRESSES: Written comments may be submitted to: Susan L. Frey, Director, Records Management Division (IM–11), Office of Records and Business Management, Office of the Chief Information Officer, U.S. Department of Energy, Germantown, Maryland 20874–1290, and Michael P. Hoffman, Office of General Counsel (GC–62), U.S. Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585.

SUPPLEMENTARY INFORMATION: This package contains:

(1) *OMB No.:* New.

(2) *Collection Title:* Technology Partnerships Ombudsmen Reporting Requirements.

(3) *Type of review:* New collection.

(4) *Purpose:* This collection of information would implement a provision in the Technology Transfer Commercialization Act of 2000 (Pub. L. 106–404) that requires Technology Transfer Ombudsmen appointed by DOE national laboratories to report quarterly on the number and nature of complaints and disputes received and the Ombudsman's assessment of their resolution.

(5) *Estimated Number of Respondents:* 24 Technology Transfer Ombudsmen.

(6) *Estimated Number of Burden Hours:* 100 (Quarterly times 24 respondents).

Request for Comments: Pursuant to 44 U.S.C. 3506(c)(2)(A), DOE invites comment on: (1) Whether the proposed collection of information is necessary; (2) the accuracy of DOE's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who choose to respond. Additional information about DOE's proposed information collection may be obtained from the contact person named in this notice.

Statutory Authority: 44 U.S.C. 3506(c)(2)(A).

Issued in Washington, DC, on March 13, 2002.

Susan L. Frey,

Director, Records Management Division, Office of Records and Business Management, Office of the Chief Information Officer, U.S. Department of Energy.

[FR Doc. 02–7074 Filed 3–22–02; 8:45 am]

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Enzymatic Hydrolysis Demonstration Plant To Convert Biomass to Transportation Fuels and/or Chemicals

AGENCY: Golden Field Office, Department of Energy.

ACTION: Notice of request for expressions of interest.

SUMMARY: The Department of Energy (DOE), Golden Field Office (GO), on behalf of the Office of Fuels Development (OFD), intends to issue solicitations in support of the DOE Biofuels Program in the FY 2003—FY 2005 timeframe. The DOE/GO anticipates issuing the initial solicitation in early FY 2003 for the research and development of a demonstration plant conceptual design, process research, and detailed design of an enzymatic hydrolysis demonstration plant to convert lignocellulosic biomass to transportation fuels (biofuels) and/or chemicals. The purpose of the demonstration plant is to provide engineering data to reduce risk, enable process guarantees, and assure commercial development of the technology. For the initial FY 2003 solicitation, DOE anticipates awarding cost-shared cooperative agreements to one or two industry-led teams. Subject to the availability of funds, DOE intends to issue a subsequent solicitation in FY 2004 for the construction and initial operation of the demonstration plant. Expressions of interest in these solicitations is requested at this time.

DATES: Please provide expressions of interest and comments by May 1, 2002, to the DOE Golden Field Office.

ADDRESSES: Submit the expressions of interest to the U.S. Department of Energy, Golden Field Office, Andrew R. Trenka, 1617 Cole Boulevard, Golden, CO 80401–3393.

FOR FURTHER INFORMATION CONTACT: Andrew R. Trenka, DOE Golden Field Office, 1617 Cole Boulevard, Golden, CO 80401–3393, via facsimile at (303) 275–4753, or electronically at *andy_trenka@nrel.gov*.

SUPPLEMENTARY INFORMATION: DOE is sponsoring the demonstration of an enzyme sugar platform. This demonstration project is a concentrated effort to use a conversion process based on the low-cost enzymes being developed under major DOE cost-shared projects by Genencor International and Novozymes Biotech Inc., to convert a large volume of biomass into cost-effective alternative transportation fuels and/or chemicals. The initial commercialization of the platform technologies may use biomass wastes and residues. The demonstration plant will provide engineering data to reduce risk, enable process guarantees and assure commercial development of the technology. Each firm, partnership, or consortia may, at its option, utilize, via a Cooperative Research and Development Agreement (CRADA), the DOE laboratories active in the DOE Biofuels research program, *i.e.* National Renewable Energy Laboratory (NREL), Oak Ridge National Laboratory (ORNL), *etc.* These laboratories could contribute specialized capabilities, facilities, or equipment to the project that would complement the partnership's capabilities. The winning team or teams will be expected to carry out multi-year technology development and demonstration efforts, including the construction and operation of the platform demonstration plant at a scale sufficient to prove the technical and economic feasibility of feedstock handling, biomass fractionation, enzymatic cellulose hydrolysis, and product fermentation(s) to products. Initial discussions suggest this scale may need to be 40–50 tons per day of input biomass feedstock (dry basis), with corn stover identified as the most plentiful agricultural residue feedstock. The scale of the plant, the feedstock, and the slate of end products will be open to the results of the initial conceptual design and technology research. However, the final products must be based on sugar fermentation and whatever feedstock is chosen should have the potential to lead to significant reductions of imported petroleum, *e.g.*, several billion gallons per year.

DOE expects the industrial partners' cost-share contribution to the initial solicitation to be at least 50% of the initial costs; however, if lower, the rational should be fully explained. Higher cost-shares will be encouraged. DOE intends to share the cost of the FY 2004 and FY 2005 demonstration plant construction efforts, with the industrial partners' contribution being at least 50% of the construction and operating costs (statutory requirement). DOE intends that its partners will have demonstrated experience in the design, construction, and operation of transportation fuels, chemicals, and/or biomass processing facilities, in addition to demonstrated access to financial markets to facilitate eventual commercialization of these technologies. Interested parties should include the following in their expressions of interest:

(1) Experience;

(2) Types of partner organizations (private, public, non-profit) with which they contemplate teaming (including anticipated DOE laboratory involvement);

(3) Any plans to co-locate the demonstration plant with an existing facility;

(4) The types of financial resources they would use to fund their cost-share of the design, process research, construction, and operation phases of the project;

(5) How they will integrate the ongoing research being undertaken by Genencor International and/or Novozymes Biotech, Inc., to produce low-cost cellulases;

(6) The approach to be followed for the planned solicitations;

(7) The approximate budget required to design, construct, and initially operate the demonstration plant;

(8) The approximate size and cost of the demonstration plant to prove the commercial viability of the conversion processes; and

(9) Any additional information or comments to assist in drafting the solicitation.

DOE held a preview technology review in Golden, Colorado, on January 30–31, 2002, and is scheduling a second pre-solicitation meeting in Golden, Colorado in May 2002 (specific date to be determined), for all interested parties to discuss the planned solicitation(s), DOE contracting procedures, intellectual property, the use of government-owned facilities, cost-sharing principles, and other issues.

Information about the platform project, DOE's cost-shared enzyme cost reduction activities, current NREL enzymatic hydrolysis research efforts and technology assessment, the DOE Biofuels program, and the pre-solicitation meeting can be found at the following URL: *http://www.ott.doe.gov/biofuels/enzyme_sugar_platform.html*.

Issued in Golden, Colorado, on February 14, 2002.

Matthew A. Barron,

Contracting Officer, Office of Acquisition and Financial Assistance.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE and its regulators in the areas of environmental restoration, waste management, and related activities.

Tentative Agenda

1. To be determined.

Public Participation: The meeting is open to the public. Written statements may be filed with the Committee either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Pat Halsey at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided a maximum of five minutes to present their comments at the end of the meeting.

Minutes: Minutes of this meeting will be available for public review and copying at the Department of Energy's Information Resource Center at 105 Broadway, Oak Ridge, TN between 7:30 a.m. and 5:30 p.m. Monday through Friday, or by writing to Pat Halsey, Department of Energy Oak Ridge Operations Office, P.O. Box 2001, EM–922, Oak Ridge, TN 37831, or by calling her at (865) 576–4025.

Issued at Washington, DC, on March 20, 2002.

Rachel M. Samuel,

Deputy Advisory Committee Management Officer.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP02–114–000]

Columbia Gas Transmission Corporation; Notice of Application

March 19, 2002.

Take notice that on March 14, 2001, Columbia Gas Transmission Corporation (Columbia), 12801 Fair Lakes Parkway, Fairfax, Virginia 22030–0146, filed in Docket No. CP02–114–000 an application pursuant to section 7(b) of the Natural Gas Act (NGA) for permission and approval to abandon its Well No. 6764 and associated appurtenances located in Richland County, Ohio, in Columbia's Lucas Storage Field, all as more fully set forth in the application.

Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "Rims" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance).

Columbia states that the physical condition of the facilities proposed for abandonment have deteriorated to the extent that an expensive repair or abandonment is required. Columbia further states that it has determined that repairs would be uneconomic due to the poor performance of the well.

Any questions regarding the application should be directed to Fredric J. George, Senior Attorney, Columbia Gas Transmission Corporation, P.O. Box 1273, Charleston, West Virginia 25315–1273 at (304) 357–2359.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before April 9, 2002, file with the Federal Energy Regulatory Commission, 888 First Street, NE Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-filing" link.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Linwood A. Watson, Jr.,

Deputy Secretary.

[FR Doc. 02–7077 Filed 3–22–02; 8:45 am]

BILLING CODE 6717–01–P

Columbia Gulf Transmission Company; Notice of Compliance Filing

March 19, 2002.

Take notice that on March 13, 2002, Columbia Gulf Transmission Company (Columbia Gulf) tendered for filing, as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets with an effective date of March 1, 2002:

Sixth Revised Sheet No. 20
Fifth Revised Sheet No. 20A
Fifth Revised Sheet No. 20B

Columbia Gulf states that it is filing the tariff sheets to comply with the Commission's October 24, 2001 orders approving negotiated rate agreements in Docket Nos. RP96–389–031, and –032.

Columbia Gulf states that it has served copies of the filing on all parties identified on the official service list in Docket No. RP96–389.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. *Comment Date*: March 28, 2002.

Linwood A. Watson, Jr.,

Deputy Secretary.

[Docket No. ER02–984–001]

Duke Energy Enterprise, LLC; Notice of Filing

March 18, 2002.

Take notice that on March 14, 2002, Duke Energy Enterprise, LLC (Duke Enterprise) tendered for filing with the Federal Energy Regulatory Commission (Commission) pursuant to section 205 of the Federal Power Act revisions to its FERC Electric Tariff No. 1.

Duke Enterprise renews its request, pursuant to Section 35.11 of the Commission's regulations, that the Commission waive the 60-day minimum notice requirement under Section 35.3(a) of its regulations and grant an effective date for this application of February 8, 2002.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. *Comment Date*: March 28, 2002.

[Docket No. ER02–1024–001]

Duke Energy Sandersville, LLC; Notice of Filing

March 18, 2002.

Take notice that on March 14, 2002, Duke Energy Sandersville, LLC (Duke Sandersville) tendered for filing pursuant to section 205 of the Federal Power Act a proposed revision to its FERC Electric Tariff No. 1.

Duke Sandersville seeks authority to sell energy and capacity, as well as ancillary services, at market-based rates, together with certain waivers and preapprovals. Duke Sandersville also seeks authority to sell, assign, or transfer transmission rights that it may acquire in the course of its marketing activities. Duke Sandersville requests an effective date of April 15, 2002, which is 60 days from the original filing date of its proposed rate schedules.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. *Comment Date*: March 28, 2002.

El Paso Natural Gas Company; Notice of Proposed Changes in FERC Gas Tariff

March 19, 2002.

Take notice that on March 14, 2002, El Paso Natural Gas Company (EPNG) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1–A, the following tariff sheets, to become effective April 14, 2002:

Original Sheet No. 271A
First Revised Original Sheet No. 290A

EPNG states that the proposed tariff provision indicates EPNG's agreement to binding arbitration of a dispute under certain circumstances if a shipper is a foreign government, an agency of a foreign government, or an entity created by them to conduct business.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. GT02–12–000]

Enbridge Pipelines (KPC); Notice of Proposed Changes in FERC Gas Tariff

March 19, 2002.

Take notice that on March 13, 2002, Enbridge Pipelines (KPC), formerly Kansas Pipeline Company (Enbridge KPC) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, Original Sheet No. 121A, to be made effective April 1, 2002.

Enbridge KPC states that the purpose of the filing was to correct an error resulting from Enbridge KPC's filing of First Revised Volume No. 1 of its FERC Gas Tariff on September 12, 2001 in FERC Docket No. GT01–32–000. The omission happened because Original Sheet No. 222 (Original Volume No. 1) was not on the FERC Fastr System, therefore, when Enbridge KPC made the changes noted above and filed it with the Commission, it did not file the General Terms and Conditions language shown on that sheet.

Enbridge KPC states that copies of its transmittal letter has been provided by First Class mail and/or electronic communication, depending on the method that such party elected to receive such copies, to all affected customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP02–198–000]

Florida Gas Transmission Company; Notice of Proposed Changes in FERC Gas Tariff

March 19, 2002.

Take notice that on March 13, 2002, Florida Gas Transmission Company (FGT) tendered for filing to become part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets, with an effective date of April 12, 2002:

Fifth Revised Sheet No. 650
Fourth Revised Sheet No. 651
Fourth Revised Sheet No. 652
Fourth Revised Sheet No. 653
Fifth Revised Sheet No. 654

FGT states that on September 1, 1994, it filed a Stipulation and Agreement of Settlement (Settlement) and pro forma tariff sheets setting forth procedures for the interruption of interruptible transportation and the curtailment of firm service during periods of diminished capacity on FGT's system. The Settlement was supported by most of the customers on FGT's system. On January 12, 1995 the Commission issued an order which accepted and clarified the Settlement. (70 FERC ¶ 61,017.) The Commission issued an order on rehearing on June 2, 1995. (71 FERC ¶ 61,274.)

Also, FGT states that the Settlement, as approved and modified by the Commission, establishes procedures in subsections (g) and (h) of section 17.A.4. of the General Terms and Conditions (GT&C) of FGT's Tariff to review the Exempt Use classifications under FGT's curtailment plan. These procedures require that: the DVC [Data Verification Committee] shall meet one year after the date [November 1, 1995] of the implementation of these curtailment provisions to review the Exempt Use classifications. Thereafter, unless otherwise agreed to by the DVC, the DVC shall meet the earlier of: (i) each three years after the plan's implementation date or anniversary thereof or (ii) within sixty (60) days following the second of two firm curtailment events on FGT's system occurring within a 12-month period.

FGT states that pursuant to the terms of FGT's Tariff, the DVC met on October 4, 2001, to review, classify and establish exempt uses as shown on the referenced tariff sheets.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP02–199–000]

Mississippi River Transmission Corporation; Notice of Tariff Filing

March 19, 2002.

Take notice that on March 13, 2002, Mississippi River Transmission Corporation (MRT) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, the following revised tariff sheets to be effective April 12, 2002:

First Revised Sheet No. 37
First Revised Sheet No. 39
Second Revised Sheet No. 40
First Revised Sheet No. 43
First Revised Sheet No. 45
First Revised Sheet No. 50
1st Rev. First Revised Sheet No. 183

MRT states that the revised tariff sheets will modify the Tariff's General Terms and Conditions and the Tariff provisions applicable to No Notice Transportation Service (Rate Schedule NNT) and Firm Storage Service (Rate Schedule FSS), to grant greater flexibility to customers in securing through their service agreements the exact services that best suit their needs, in a manner consistent with Commission policy. Specifically, MRT states that it is proposing the ability to negotiate (1) a contractual right of first refusal ("ROFR") in certain circumstances where a regulatory ROFR otherwise would not be available to the customer pursuant to Commission regulations, (2) a reduction of a customer's contract entitlements where there has been a bypass of that customer by a third party, and (3) a process for cooperative efforts between MRT and a customer to implement any regulatory or other governmental order whereby a customer is to unbundle the services that it provides to its own customers. MRT states that the revised tariff sheets also provide additional flexibility for a storage customer with regard to the requirements governing injections into and withdrawals from MRT's storage facilities.

MRT states that it has served copies of the filing upon all customers and relevant state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Transwestern Pipeline Company; Notice of Compliance Filing

March 19, 2002.

Take notice that on March 13, 2002, Transwestern Pipeline Company (Transwestern), tendered for filing changes in its FERC Gas Tariff, Second Revised Volume No. 1, Substitute 4th Revised Sheet No. 15, Substitute 10th Revised Sheet No. 25, and Substitute 6th Revised Sheet No. 34, proposed to be effective March 4, 2002.

Transwestern states that the above tariff sheets are being filed in compliance with the Commission's February 27, 2002 Order in Docket No. RP02–157–000. Transwestern states that in the Order, the Commission directed Transwestern to file revised tariff sheets that clearly indicate that a shipper on Transwestern's system must have title to the gas it is transporting. Therefore, Transwestern is submitting the substitute tariff sheets to clarify that the shipper must have title prior to nominating gas receipts and deliveries on Transwestern's system.

Transwestern further states that copies of the filing have been mailed to each of its customers and interested State Commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection. [Docket No. ER02–1141–000, et al.]

El Paso Electric Company, et al.; Electric Rate and Corporate Regulation Filings

March 18, 2002.

Take notice that the following filings have been made with the Commission. Any comments should be submitted in accordance with Standard Paragraph E at the end of this notice.

1. El Paso Electric Company

[Docket No. ER02–1141–000]

Take notice that on March 14, 2002, El Paso Electric Company (El Paso) tendered for filing a Service Agreement with Arizona Electric Power Cooperative, Inc. for Firm Transmission Service under El Paso's Open Access Transmission Tariff. The Service Agreement was originally submitted for filing on February 27, 2002 but contained an erroneous service agreement designation. This filing corrects the error.

El Paso requests that the proposed Service Agreement be permitted to become effective on January 24, 2002. A copy has been served on the Texas Public Utility Commission.

Comment Date: April 4, 2002.

2. Appalachian Power Company

[Docket No. ER02–1313–000]

Take notice that on March 13, 2002, Appalachian Power Company tendered for filing an Amendment to Letter Agreement with Allegheny Energy Supply Company, L.L.C.

AEP requests an effective date of February 20, 2002. Copies of Appalachian Power Company's filing have been served upon the Virginia State Corporation Commission.

Comment Date: April 3, 2002.

3. Midwest Independent Transmission System Operator, Inc.

[Docket No. ER02–1315–000]

Take notice that on March 13, 2002, Midwest Independent Transmission System Operator, Inc. (Midwest ISO) pursuant to Section 205 of the Federal Power Act, submitted for filing a Service Agreements for the transmission service requested by Tenaska Power Services Co.

A copy of this filing was sent to Tenaska Power Services Co.

Comment Date: April 3, 2002.

4. Midwest Independent Transmission System Operator, Inc.

[Docket No. ER02–1316–000]

Take notice that on March 13, 2002, Midwest Independent Transmission System Operator, Inc. (Midwest ISO) pursuant to Section 205 of the Federal Power Act, submitted for filing a Service Agreements for the transmission service requested by Muscatine Power and Water.

A copy of this filing was sent to Muscatine Power and Water

Comment Date: April 3, 2002.

5. Midwest Independent Transmission System Operator, Inc.

[Docket No. ER02–1317–000]

Take notice that on March 13, 2002, Midwest Independent Transmission System Operator, Inc. (Midwest ISO) pursuant to Section 205 of the Federal Power Act, submitted for filing a Service Agreements for the transmission service requested by Central Iowa Power Cooperative.

A copy of this filing was sent to Central Iowa Power Cooperative.

Comment Date: April 3, 2002.

6. Midwest Independent Transmission System Operator, Inc.

[Docket No. ER02–1318–000]

Take notice that on March 13, 2002, Midwest Independent Transmission System Operator, Inc. (Midwest ISO) pursuant to Section 205 of the Federal Power Act, submitted for filing a Service Agreements for the transmission service requested by MidAmerican Energy Company (MECR).

A copy of this filing was sent to MidAmerican Energy Company (MECR).

Comment Date: April 3, 2002.

7. Zion Energy LLC

[Docket No. ER02–1319–000]

Take notice that on March 13, 2002, Zion Energy LLC (the Applicant) tendered for filing, under section 205 of the Federal Power Act (FPA), a request for authorization to make wholesale sales of electric energy, capacity, replacement reserves, and ancillary services at market-based rates, to reassign transmission capacity, and to resell firm transmission rights. Applicant proposes to own and operate a 300 MW gas-fired, simple cycle electric generating facility in the City of Zion in Lake County, Illinois. Applicant also filed a long-term Fuel Conversion Services Agreement between Wisconsin Electric Power Company and Applicant, and a power purchase agreement between Wisconsin Power & Light Company (WP&L) and Applicant for the short-term sale of capacity and energy by Applicant to WPL. Applicant requests privileged and confidential treatment for both agreements.

Comment Date: April 3, 2002.

8. UtiliCorp United Inc.

[Docket No. ER02–1320–000]

Take notice that on March 13, 2002, UtiliCorp United Inc. (UtiliCorp), filed with the Commission, pursuant to Section 205 of the Federal Power Act, 16 USC 824d, and Part 35 of the Commission's regulations, 18 CFR 35, Amendatory Agreement No. 2 to the Multiple Interconnection & Transmission Contract between UtiliCorp United Inc. d/b/a Missouri Public Service and Kansas City Power & Light Company, (UtiliCorp's Rate Schedule FERC No. 20). This amendment provides for an additional interconnection point at the Liberty South Station in Clay County, Missouri.

Comment Date: April 3, 2002.

Standard Paragraph

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Maritimes & Northeast Pipeline L.L.C., and Algonquin Gas Transmission Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Maritimes Phase III/Hubline Project Amendments and Request for Comments on Environmental Issues

March 18, 2002.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the amended Maritimes Phase III/ HubLine Project involving construction and operation of facilities by Maritimes & Northeast Pipeline, L.L.C. (Maritimes) in Essex County, Massachusetts and Algonquin Gas Transmission Company (Algonquin) in primarily offshore Essex, Suffolk, Plymouth, and Norfolk Counties, Massachusetts.[1] There would be minor onshore facilities in Essex, Suffolk and Norfolk Counties. The amendment would change the diameter of the already approved offshore pipeline facilities from 16 to 24 inches in diameter and from 24 to 30 inches in diameter. This EA will be used by the Commission in its decision-making process to determine whether the amendment is in the public convenience and necessity.

All applicable landowners were informed of the previously approved project and had an opportunity to participate in the process which resulted in its approval.

Summary of the Proposed Amendment

Maritimes wants to increase the diameter of its approved Phase III facilities from the Salem Meter Station to its connection with Algonquin's approved HubLine facilities in Beverly, Massachusetts. Maritimes has approval to construct and operate approximately 23.8 miles of 30-inch-diameter pipeline and 1.0 mile of 24-inch-diameter pipeline; and appurtenant facilities to include three mainline valves, one tap valve, two cathodic protection ground beds, and two meter stations. Algonquin has approval to construct and operate approximately 29.4 miles of 24-inch-diameter offshore mainline pipeline; approximately 5.4 miles of 16-inch-diameter offshore lateral pipeline to the existing Massachusetts Water Resources Authority (MWRA) Waste Water Treatment facility on Deer Island; and one new meter station on Deer Island, and a block valve and receiver and regulator facilities near the interconnect with the existing I–9 pipeline.

Maritimes seeks authority to:

- Change the diameter of the approximately 1.0 mile of 24-inch-diameter pipeline to 30 inches; and
- Modify the Salem Meter Station by deleting the launcher/receiver and changing some of the metering and piping to accommodate the larger diameter pipe.

Algonquin seeks authority to:

- Change the diameter of the approximately 29.4 miles of 24-inch-diameter offshore mainline pipeline to 30 inches;
- Change the diameter of the approximately 5.4 miles of 16-inch-diameter offshore lateral pipeline to the existing Massachusetts Water Resources Authority (MWRA) Waste Water Treatment facility on Deer Island to 24 inches; and
- Modify the one new meter station on Deer Island, and a block valve and receiver and regulator facilities near the interconnect with the existing I–9 pipeline to accommodate the larger diameter pipe.

Land Requirements for Construction

The change in the pipeline diameter would result in no additional onshore land requirements from those already approved. Construction of the proposed offshore facilities with the larger pipeline diameter would disturb about 7 more acres of sea floor than currently approved.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us[2] to discover and address concerns the public may have about proposals. We call this "scoping". The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, the Commission requests public comments on the scope of the issues it will address in the EA. All comments received are considered during the preparation of the EA. State and local

[1] Maritimes' and Algonquin's applications were filed with the Commission under section 7 of the Natural Gas Act and part 157 of the Commission's regulations.

[2] "We", "us", and "our" refer to the environmental staff of the Office of Energy Projects (OEP).

VOL
67
ISS
57
MR
25
2002
UMI

government representatives are encouraged to notify their constituents of this proposed action and encourage them to comment on their areas of concern.

The EA will discuss impacts that could occur as a result of the construction and operation of the proposed amendment under these general headings:

- Sediments
- Cultural resources
- Endangered and threatened species
- Water resources, fisheries
- Vegetation

We will also evaluate possible alternatives to the proposed modifications, and, if necessary, make recommendations on how to lessen or avoid impacts on the various resource areas.

Our independent analysis of the issues will be in the EA.

To ensure your comments are considered, please carefully follow the instructions in the public participation section in this NOI beginning on page 5.

Currently Identified Environmental Issues

No additional environmental concerns beyond those identified in the final environmental impact statement [3] for the approved project have been identified for this amendment. As a result we do not anticipate revisiting many of the issues already covered by the final environmental impact statement prepared for the approved project. We also do not anticipate the need to issue the EA for public comment.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the amendment. By becoming a commentor, your concerns will be addressed in the EA and considered by the Commission. You should focus on the potential environmental effects of the amendment, alternatives to the amendment, and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your letter to:

Magalie R. Salas, Secretary
Federal Energy Regulatory Commission 888 First St., NE, Room 1A
Washington, DC 20426

- Label one copy of the comments for the attention of Gas Branch 2.
- Reference Docket Nos. CP01–4–001 and CP01–5–002.
- Mail your comments so that they will be received in Washington, DC on or before April 17, 2002.

Please note that we are continuing to experience delays in mail deliveries from the U.S. Postal Service. As a result, we will include all comments that we receive within a reasonable time frame in our environmental analysis of this amendment. However, the Commission encourages electronic filing of any comments or interventions or protests to this proceeding. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at *http://www.ferc.gov* under the "e-Filing" link and the link to the User's Guide. Before you can file comments you will need to create an account which can be created by clicking on "Login to File" and then "New User Account."

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding known as an "intervenor". Intervenors play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide 14 copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see appendix 1).[4] Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Additional information about the proposed amendment is available from the Commission's Office of External Affairs at (202) 208–1088 (direct line) or you can call the FERC operator at 1–800–847–8885 and ask for External Affairs. Information is also available on the FERC Web site, *www.ferc.gov*, using the "RIMS" link to information in this docket number. Click on the "RIMS" link, select "Docket #" from the RIMS Menu, and follow the instructions. For assistance with access to RIMS, the RIMS helpline can be reached at (202) 208–2222.

Similarly, the "CIPS" link on the FERC Internet Web site provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings. From the FERC Internet Web site, click on the "CIPS" link, select "Docket #" from the CIPS menu, and follow the instructions. For assistance with access to CIPS, the CIPS helpline can be reached at (202) 208–2222.

Magalie R. Salas,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Application Accepted for Filinf and Soliciting Motions To Intervene and Protests

March 18, 2002.

a. *Type of Application*: New Major License.

b. *Project No.*: P–401–027.

c. *Date Filed*: September 14, 2001.

d. *Applicant*: Indiana Michigan Power Company.

e. *Name of Project*: Mottville Hydroelectric Project.

f. *Location*: On the St. Joseph River, in Mottville Township, St. Joseph County, Michigan. The project does not affect federal lands.

g. *Filed Pursuant to*: Federal Power Act 16 U.S.C. 791(a)–825(r).

h. *Applicant Contact*: J.F. Norris, Jr., American Electric Power Service Corporation, 1 Riverside Plaza, Columbus, OH 43215, (614) 223–1700, or *jfnorris@aep.com*.

i. *FERC Contact*: Lee Emery (202) 219–2779 or *lee.emery@FERC.gov*.

j. *Deadline for filing motions to intervene and protest*: 60 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: Magalie Roman Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

The Commission's Rules of Practice require all interveners filing documents with the Commission to serve a copy of that document on each person on the official service list for the project.

Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Comments, motions to intervene and protests may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site, *http://www.ferc.gov*, under the "e-Filing" link.

k. *Status of environmental analysis*: This application is not ready for environmental analysis at this time.

l. *Description of Project*: The existing Mottville Project consists of: (1) Two 17-foot high earth-filled embankments extending towards the center of the river from both riverbanks, including (i) a west embankment that is 140 feet long and has a crest width of 15 feet and extends to the powerhouse, and (ii) an east embankment that is 365 feet long and has a crest width of 8 feet and extends from the east riverbank to the spillway; (2) a 237-foot long, reinforced concrete spillway with 10 steel Taintor gates along the crest of the spillway, which are separated by 2.5-foot-wide piers between Bays 1 and 2, and 3 and 4 and 1.5-foot-wide piers between the remaining Bays with the Taintor gates being 22-feet-wide and 13-feet-high in Bays 1 and 2 and 22-feet-wide and 7.5-feet-high in Bays 3 through 10; (3) a combined powerhouse-intake structure, made of brick and concrete, that is 118 feet long, 28 feet wide, and 25 feet long; (4) 4 vertical shaft, single runner, propeller type generating units with an installed generating capacity of 420 kW each; (5) a 14.5-foot-long, 28-foot-wide, and 25-foot-long switchboard bay attached to the west end of the powerhouse; (6) a 50 horsepower, 460-volt, 3-phase air bubbler system; (7) a 15-ton overhead traveling crane; (8) a 20-foot-wide stilling basin extending across the length of the spillway; (9) a 12-inch-thick, reinforced concrete spillway apron; (10) an inoperable 4-foot-wide by 150-foot-long concrete fishway with a slope of about 25 percent; (11) sets of angled steel intake trashracks that are 3-feet 2-inches wide by 14-feet-high with 3/8-inch steel bars with 4-inch spacing between the bars; (12) a five-mile-long, 378-acre reservoir with a gross storage capacity of 2,900-acre-feet at the normal operating pool surface elevation of 770.4 NGVD; (13) a three phase, 2.4/34.5 kV transformer; and (14) other appurtenant facilities. The applicant estimates that the total average annual generation would be 7,800 MWh. All generated power is sold to Indiana Michigan Power Company's customers.

m. *Location of the Application*: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE, Washington, DC 20426, or by calling (202) 208–1371. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link'select "Docket #" and follow the instructions (call 202–208–2222 for assistance). A copy is also available for inspection and reproduction at the address in item h above.

n. *Procedural schedule*: The application will be processed according to the following milestones, some of which may be combined to expedite processing:

Notice of NEPA scoping—March 2002

Notice that the application is ready for environmental analysis—April 2002

Notice of availability of the NEPA document—August 2002

Order issuing the Commission's decision on the application December 2002

o. Protests or Motions to Intervene—Anyone may submit a protest or motion to intervene in accordance with the requirements of Rules and Practice and Procedure, 18 CFR 385.210, 385.211, and 385.214. In determining the appropriate action to take, the Commission will consider all protests filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any protests or motions to intervene must be received on or before the specified deadline date for the particular application.

All filings must (1) bear in all capital letters the title "PROTEST" or "MOTION TO INTERVENE;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application.

Magalie R. Salas,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Sunshine Act Meeting

March 20, 2002.

The following notice of meeting is published pursuant to section 3(A) of the Government in the Sunshine Act (Pub. L. No. 94–409), 5 U.S.C 552B:

AGENCY HOLDING MEETING: Federal Energy Regulatory Commission.

DATE AND TIME: March 27, 2002, 10:00 a.m.

PLACE: Room 2C, 888 First Street, NE. Washington, DC 20426.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

Note: Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION: Magalie R. Salas, Secretary, Telephone (202) 208–0400; For a recording listing items stricken from or added to the meeting, call (202) 208–1627.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda; however, all public documents may be examined in the reference and information center.

788th—Meeting, March 27, 2002; Regular Meeting, 10:00 a.m.

ENVIRONMENTAL PROTECTION AGENCY

[MO 153–1153; FRL–7161–8]

Notice of Deficiency for Clean Air Act Operating Permit Program in Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of deficiency and notice of availability.

SUMMARY: Pursuant to its authority under section 502(i) of the Clean Air Act (Act) and the regulations on Federal oversight and sanctions, EPA is publishing this Notice of Deficiency (NOD) for Missouri's Clean Air Act title V operating permits program. The NOD is based upon EPA's finding that several state requirements do not meet the minimum Federal requirements. Publication of this notice is a prerequisite for withdrawal of Missouri's title V program approval, but EPA is not withdrawing the program through this action. This notice also provides information regarding the availability of additional related information.

EFFECTIVE DATE: March 25, 2002. Because this Notice of Deficiency is an adjudication and not a final rule, the Administrative Procedure Act's 30-day deferral of the effective date of a rule does not apply.

FOR FURTHER INFORMATION CONTACT: Harriett Jones, EPA, Region 7, Air, RCRA, and Toxics Division, Air Permitting and Compliance Branch (ARTD/APCO), 901 North 5th Street, Kansas City, KS 66101, (913) 551–7703, or by e-mail at *jones.harriett@epa.gov*.

SUPPLEMENTARY INFORMATION:

I. Background

On May 22, 2000, EPA promulgated a rulemaking that extended the interim approval period of 86 operating permits programs until December 1, 2001 (65 FR 32035). The Sierra Club and the New York Public Interest Research Group challenged the action. In settling the litigation, EPA agreed to publish a notice in the **Federal Register**, so that the public would have the opportunity to identify and bring to EPA's attention alleged deficiencies in title V programs. EPA published that notice on December 11, 2000 (65 FR 77376).

As stated in the **Federal Register** notice, EPA agreed to respond by December 1, 2001, to timely public comments on programs that have obtained interim approval; and EPA agreed to respond by April 1, 2002, to timely comments on fully approved programs. EPA is publishing a NOD because the Agency has determined that deficiencies exist and is notifying all commenters in writing to explain the reasons for not making a finding of deficiency on other issues. EPA received two timely comment letters pertaining to Missouri's title V program, one from the Sierra Club and the other from the National Environmental Development Association/Clean Air Regulatory Project (NEDA/CARP). In reviewing the commenters' concerns, EPA agreed that some of the comments identify deficiencies in Missouri's program. EPA is addressing those deficiencies in this notice. In addition, the commenters raised other issues that EPA has determined are not deficiencies. EPA is responding to the commenters in writing, explaining the basis for EPA's decision.

Under EPA's permitting regulations, citizens may, at any time, petition EPA regarding alleged deficiencies in state title V operating permit programs. In addition, EPA may on its own identify deficiencies. If, in the future, EPA agrees with a new citizen petition or otherwise identifies deficiencies, EPA may issue a new NOD.

II. Description of Action

1. Modifications to Acid Rain Portion of Operating Permit

EPA's regulations at 40 CFR 70.7(e), which pertain to minor and significant modifications of operating permits, specify that permit modifications for purposes of the acid rain portion of the permit shall be governed by regulations promulgated under title IV of the Act. Although Missouri's regulations do include this requirement at 10 CSR 10–6.065(6)(E)4.B. for administrative amendments, the requirement is not included in the minor and significant permit modification procedures at 10 CSR 10–6.065(6)(E)5. Because of the omission of this requirement, the state's program does not comply with the requirements of the Act and 40 CFR part 70. The state has initiated procedures to add this requirement to its regulations.

2. Minor Permit Modifications

EPA's regulations at 40 CFR 70.7(e)(2)(ii)(C) require that an application for a minor permit modification must include certification by a responsible official that the requested modification meets the criteria for use of the minor permit modification procedures and a request that such procedures be used. The state's regulations governing minor permit modifications at 10 CSR 10–6.065(6)(E)5.B. fail to include this requirement. Because of the omission of this requirement, the state's program does not comply with the requirements of the Act and 40 CFR part 70. The state has initiated procedures to add this requirement to its regulations.

3. Contemporaneous Written Notice of Off-Permit Changes

EPA's regulations at 40 CFR 70.4(b)(14)(ii) mandate that if an approved program allows certain "off-permit" changes (*i.e.*, changes that are not addressed or prohibited by the permit) to be made without a permit revision, the state's regulations must require that the source provide "contemporaneous" written notice of each change to the permitting authority and to EPA, except for those that are determined to be insignificant. Missouri's regulations at 10 CSR 10–6.065(6)(C)9.A. do allow certain "off-permit" changes to be made without a permit revision, and written notice of each change is required at 10 CSR 10–6.065(6)(C)9.B. However, although this regulation is titled "Contemporaneous notice, except insignificant activities", the wording of Missouri's regulation ("permittee must provide written notice of the change * * * no later than the next annual emissions report") effectively results in allowing up to one year for notification of the change to be submitted. Therefore, EPA does not believe that the rule ensures "contemporaneous" submission of the written notice, and finds that the state's program does not comply with the requirements of the Act and 40 CFR part 70. The state has initiated procedures to revise this regulation accordingly.

III. Availability of EPA Responses to Citizen Comments

As discussed above, EPA is responding in writing to all timely comments that citizens submitted pursuant to the settlement agreement. For all comments not resulting in a NOD, EPA will explain why it found that a NOD was not warranted. EPA Region 7 will also post its response letters on the Internet at *http://www.epa.gov/oar/ooqps/permits/response/* or you may obtain a copy by contacting Harriett Jones, EPA Region 7, by phone at (913) 551–7730 or by e-mail at *jones.harriett@epa.gov*.

IV. Effect of Notice of Deficiency

Part 70 provides that EPA may withdraw a part 70 program approval, in whole or in part, whenever the approved program no longer complies with the requirements of part 70 and the permitting authority fails to take corrective action. 40 CFR 70.10(c)(1). This section lists a number of potential bases for program withdrawal, including the case where the permitting authority's legal authority no longer meets the requirements of part 70. 40 CFR 70.10(b) sets forth the procedures for program withdrawal, and requires as a prerequisite to withdrawal, that the permitting authority be notified of any finding of deficiency by the Administrator and that the document be published in the **Federal Register**. Today's document satisfies this requirement and constitutes a finding of program deficiency. If the permitting authority has not taken "significant action to assure adequate administration and enforcement of the program" within 90 days after publication of a NOD, EPA may withdraw the state program, apply any of the sanctions specified in section 179(b) of the Act, or promulgate, administer, and enforce a Federal title V program. 40 CFR 70.10(b)(2). Section 70.10(b)(3) provides that if a state has not corrected the deficiency within 18 months of the finding of deficiency, EPA will apply the sanctions under section 179(b) of the Act, in accordance with section 179(a) of the Act. In addition, section 70.10(b)(4) provides that, if the state has not corrected the deficiency within 18 months after the date of NOD, EPA must promulgate, administer, and enforce a whole or partial program within 2 years of the date of the finding.

This document is not a proposal to withdraw Missouri's title V program. Consistent with 40 CFR 70.10(b), EPA will wait at least 90 days, at which point it will determine whether Missouri has taken significant action to correct the deficiencies.

V. Administrative Requirements

Under section 307(b)(1) of the Act, petitions for judicial review of today's action may be filed in the United States Court of Appeals for the appropriate circuit by May 24, 2002.

Dated: March 12, 2002.

James B. Gulliford,

Regional Administrator, Region 7.

ENVIRONMENTAL PROTECTION AGENCY

[OPP–66301; FRL–6827–6]

Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of request from the registrant Earth Care, Division of United Industries Corp., (previously Pursell Industries) to cancel its registration for the product Green Up Kerb 50W, EPA Reg. No. 8660–85, which contains the pesticide pronamide. Also under section 6(f)(1) of FIFRA, EPA is issuing a notice of receipt of request from the registrant International Paint Inc., to cancel its registration for the product 673 Black Co-Poly Crab Pot, EPA Reg. No. 23566–17, which contains the pesticide tributyltin methacrylate.

The EPA received these requests for voluntary cancellation as a result of activities related to the tolerance reassessment of pronamide and discussions on potential risks of tributyltin used in antifouling paints, respectively.

DATES: Comments on the requested cancellations must be submitted to the appropriate address provided below April 24, 2002.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I.C. of the **SUPPLEMENTARY INFORMATION**. To ensure proper receipt by EPA, it is imperative that you identify docket control number OPP–66301 in the subject line of the first page of your response.

FOR FURTHER INFORMATION CONTACT: For the pronamide product, Cecelia Watson, (703) 305–4329; e-mail address watson.cecelia@epa.gov Special Review and Reregistration Division (7508C), Office of Pesticides Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460. By courier: Room 604W38, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA 22202. For the tributyltin product, Jill Bloom, (703) 308–8019; email address bloom.jill@epa.gov (Same address as above, Room 604W53).

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. You may be potentially affected by this action if you manufacture, sell, distribute, or use pesticides. The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, does not apply because this action is not a rule, for purposes of 5 U.S.C. 804(3). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person or persons listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet homepage at http://www.epa.gov/. To access this document, on the homepage select "Laws and Regulations" "Regulations and Proposed Rules" and then look up the entry for this document under the "**Federal Register**—Environmental Documents." You can also go directly to the **Federal Register** listings http://www.epa.gov/fedrgstr/.

2. *In person.* Contact Cecelia R Watson at 1921 Jefferson Davis Highway, Crystal Mall #2, Rm. 604W38, Arlington VA, telephone number (703) 305–4329. Available from 6:30 am to 4:00 pm, Monday through Friday, except for federal holidays. Contact Jill Bloom at the same address, Room 604W53, telephone number (703) 308–8019.

C. How and to Whom Do I Submit Comments or request withdrawal?

You may submit comments or, if you are a registrant, request withdrawal, through the mail, in person, or electronically.

1. *By mail.* Registrants who choose to withdraw a request for cancellation of the product pronamide must submit such withdrawal in writing to Cecelia R Watson, at the above address, postmarked April 24, 2002. Registrants who choose to withdraw a request for cancellation of the tributyltin product must submit such withdrawal in writing to Jill Bloom, at the above address, postmarked April 24, 2002.

2. *In person or by courier.* Deliver your withdrawal request to: Document Processing Desk (DPD), Information Services Branch, Office of Pesticides Programs (OPP), Environmental Protection Agency, Rm. 266A, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. The DPD is open from 8:00 am to 4:30 pm, Monday through Friday, except for federal holidays. The DPD telephone number is (703) 305–5263.

3. *Electronically.* You may submit your comments electronically by e-mail to: watson.cecelia@epa.gov or bloom.jill@epa.gov. Do not submit any information electronically that you consider to be CBI. Avoid the use of special characters and any form of encryption. Electronic submissions will be accepted in WordPerfect 6.1/8.0 or ASCII file format.

II. What Action is the Agency Taking?

Section 6(f)(1) of FIFRA provides that a registrant of pesticide products may at any time request that any of its pesticides registrations be cancelled. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

This notice announces receipt by the Agency of request from registrants to cancel certain product registrations. These registrations are listed in the following Table 1 by registration number, product name, and active ingredient.

TABLE 1.—REGISTRATIONS REQUESTED TO BE CANCELLED

Registration No.	Product Name	Active Ingredients
8660–85	Green Up Kerb WB 50	Pronamide
23566–17	673 Black Co-Poly Crab Pot Paint	Tributyltin methacrylate

Note: EPA companies number 8660 and 23566 have waived the 180 day comment period for registrations listed.

Users of these products who desire continued use of the products being cancelled should contact the applicable registrant before [insert date 30 days from date of publication in Federal Register] unless indicated otherwise, to discuss withdrawal of the application for amendment. This 30-day period also permits interested members of the public to intercede with the registrant prior to the Agency's approval of the deletion.

The following Table 2 includes the names and addresses of record for all registrants of the products in Table 1, in sequence by EPA company number.

TABLE 2.—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION

EPA Company No	Company Name and Address
8660	Earth Care, Division of United Corporation, P.O. Box 142642,St. Louis, MO 63114–0642
23566	International Paint Inc.,2270 Morris Ave., Union, NJ 07083

III. Provision for Disposition of Existing Stocks

Earth Care and International Paints Inc. have informed the Agency that they do not need any time to sell or distribute their existing stock of products EPA Reg. No. 8660–85 and EPA Reg No. 23566–17. As a result, the Agency has not authorized further sale or distribution of these products by the registrants.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before September 23, 2002. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

Notice of Filing a Pesticide Petition to Amend An Existing Tolerance for a Certain Microbial Pesticide Chemical in or on Food

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the amendment of a pesticide petition proposing the revision of regulations for residues of a certain pesticide chemical in or on various food commodities.

DATES: Comments, identified by docket control number PF–1076, must be received on or before April 24, 2002.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I.C. of the **SUPPLEMENTARY INFORMATION.** To ensure proper receipt by EPA, it is imperative that you identify docket control number PF–1076 in the subject line on the first page of your response.

FOR FURTHER INFORMATION CONTACT: By mail: Shanaz Bacchus,Biopesticides and Pollution Prevention Division (7511C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 308–8097; e-mail address: bacchus.shanaz@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information.

A. Does this Action Apply to Me?

You may be affected by this action if you are an agricultural producer, food manufacturer or pesticide manufacturer. Potentially affected categories and entities may include, but are not limited to:

Categories	NAICS codes	Examples of potentially affected entities
Industry	111 112 311 32532	Crop production Animal production Food manufacturing Pesticide manufacturing

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in the table could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether or not this action might apply to certain entities. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at http://www.epa.gov/. To access this document, on the Home Page select "Laws and Regulations" and then look up the entry for this document under the "**Federal Register**—Environmental Documents." You can also go directly to the **Federal Register** listings at http://www.epa.gov/fedrgstr/.

2. *In person.* The Agency has established an official record for this action under docket control number PF–1076. The official record consists of the documents specifically referenced in this action, any public comments received during an applicable comment period, and other information related to this action, including any information claimed as Confidential Business Information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period, is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305–5805.

C. How and to Whom Do I Submit Comments?

You may submit comments through the mail, in person, or electronically. To ensure proper receipt by EPA, it is imperative that you identify docket control number PF–1076 in the subject line on the first page of your response.

1. *By mail.* Submit your comments to: Public Information and Records Integrity Branch (PIRIB), Information Resources and Services Division (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

2. *In person or by courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Information Resources and Services Division (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. The PIRIB is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305–5805.

3. *Electronically.* You may submit your comments electronically by e-mail to: opp-docket@epa.gov, or you can submit a computer disk as described above. Do not submit any information electronically that you consider to be CBI. Avoid the use of special characters and any form of encryption. Electronic submissions will be accepted in WordPerfect 6.1/8.0 or ASCII file format. All comments in electronic form must be identified by docket control number PF–1076. Electronic comments may also be filed online at many Federal Depository Libraries.

D. How Should I Handle CBI That I Want to Submit to the Agency?

Do not submit any information electronically that you consider to be CBI. You may claim information that you submit to EPA in response to this document as CBI by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public version of the official record. Information not marked confidential will be included in the public version of the official record without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person identified under **FOR FURTHER INFORMATION CONTACT.**

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.

2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that youprovide.

5. Provide specific examples to illustrate your concerns.

6. Make sure to submit your comments by the deadline in this notice.

7. To ensure proper receipt by EPA, be sure to identify the docket control number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. What Action is the Agency Taking?

EPA has received an amended pesticide petition as follows proposing the establishment and/or amendment of regulations for residues of a certain pesticide microbial in or on various food commodities under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a. EPA has determined that this petition contains

data or information regarding the elements set forth in section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the petition. Additional data may be needed before EPA rules on the petition.

List of Subjects

Environmental protection, Agricultural commodities, Feed additives, Food additives, Pesticides and pests, Reporting and recordkeeping requirements.

Dated:March 14, 2002.

Janet L. Andersen,

Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.

Summary of Petition

The petitioner summary of the pesticide petition is printed below as required by section 408(d)(3) of the FFDCA. The summary of the petition was prepared by the petitioner and represents the view of the petitioner. The petition summary announces the availability of a description of the analytical methods available to EPA for the detection and measurement of the pesticide chemical residues or an explanation of why no such method is needed.

Interregional Research Project Number 4

PP 5E4575

EPA has received an amended pesticide petition PP 5E4575 from Interregional Research Project Number 4 (IR–4), proposing pursuant to section 408(d) of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a(d), to amend 40 CFR 180.1206 to extend the temporary exemption from tolerance for residues of the non-aflatoxin-producing microbial pesticide *Aspergillus flavus* AF 36 in/on cotton. This amended petition is filed by IR–4, New Jersey Agricultural Experiment Station, Technology Center of New Jersey, Technology Centre of New Jersey, 681 U. S. Highway #1 South, North Brunswick, NJ 08902–3390 on behalf of the USDA/ARS Southern Regional Center, 1100 Robert E. Lee Blvd., New Orleans, LA 70179–0687. The amendment seeks to extend the current temporary exemption from tolerance to include cotton treated with *A. flavus* AF36 in 9 counties in Texas. They propose to continue trials to collect research data, in accordance with Experimental Use Permit 69224–EUP–1, in both Arizona and Texas until December 31, 2005. (See 64 FR 8358, February 19, 1999) (FRL–6057–3)

The EUP currently allows for application of 200,000 pounds (90,179 kg) of the microbial pesticide to a total of 20,000 acres of commercial cotton fields in 5 counties in Arizona including Yuma, LaPaz, Maricopa, Mohave and Pinal counties. In addition to the 20,000 acres in AZ, they propose to apply a total of 20,000 pounds (9,018 kg) of the microbial pesticide on 2,000 acres of commercial cotton fields in 9 counties in Texas (Nueces, San Patricio, Bee, Calhoon, Jackson, Wharton, Hildalgo, Cameron, and Willacy counties).

Pursuant to section 408(d)(2)(A)(i) of the FFDCA, as amended, IR–4 and USDA ARS Southern Regional Center have submitted summaries of information, data, and arguments in support of their pesticide petition, to comply with the Food Quality Protection Act of 1996. The database was evaluated by EPA and a final rule published in the **Federal Register** on May 26, 1999 (Volume 64, Number 101) Page 28371. The temporary exemption from tolerance and the EUP were extended until December 30, 2003, as published in the **Federal Register** on May 23, 2001 (Volume 66, Number 100) Page 28383–28386. *Aspergillus flavus* AF36 is an atoxigenic strain which is proposed to displace the toxic aflatoxin-producing strains of *A. flavus* as discussed in the aforementioned final rule.

[FR Doc. 02–7101 Filed 3–22–02; 8:45 a.m.]

BILLING CODE 6560–50–S

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

March 18, 2002.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418–1379.

Federal Communications Commission

OMB Control No.: 3060–1005.
Expiration Date: 07/31/2002.
Title: Numbering Resource Optimization—Phase 3.
Form No.: N/A.
Respondents: Business or other for-profit; State, Local or Tribal Government.
Estimated Annual Burden: 53 respondents; 63.7 hour per response (avg.); 3380 total annual burden hours (for all collections under this control number).
Estimated Annual Reporting and Recordkeeping Cost Burden: $12,000.
Frequency of Response: On occasion; Third Party Disclosure.
Description: In the Communications Act of 1934, as amended by the Telecommunications Act of 1996, the Federal Communications Commission (Commission) was given "exclusive jurisdiction over those portions of the North American Numbering Plan that pertain to the United States." Pursuant to that authority, the Commission conducted a rulemaking that, among other things, addressed regular reporting on numbering use by United States carriers. In the Third Report and Order and Second Order on Reconsideration in CC Docket No. 96–98 and CC Docket No. 99–200 (Third Report and Order), the Commission addresses the federal cost recovery mechanism, including the requirement for price cap carriers to file tariffs reflecting recovery through an exogenous recovery adjustment for a two-year period beginning April 2, 2002.

A. Reporting Requirements for Federal Cost Recovery

Section 251(e)(2) of the Act requires that "[t]he cost of establishing telecommunications numbering administration arrangements and number portability shall be borne by all telecommunications carriers on a competitively neutral basis as determined by the Commission." This statutory provision applies both to the costs of numbering administration and to the costs of Local Number Portability (LNP). In the Third Report and Order, the Commission establishes a federal cost recovery mechanism under which price cap LECs may recover their extraordinary carrier-specific costs directly related to thousands-block number pooling through an exogenous adjustment to access charges. However, because thousands-block number pooling may actually reduce network costs, in order for carriers to qualify for the exogenous adjustment to access charges, the Commission requires them to demonstrate that pooling results in a net cost increase rather than a cost reduction. (*No. of respondents:* 18; *hours per response:* 85 hours; *total annual burden:* 1530 hours).

B. Request for Safety Valve Mechanism by State Commission

In the Third Report and Order, the Commission established a safety valve to ensure that carriers experiencing rapid growth in a given market will be able to meet customer demand. States may use the safety valve to grant requests from carriers that demonstrate the following: (1) The carrier will exhaust its numbering resources in a market or rate area within three months (in lieu of 6 months-to-exhaust requirement); and (2) projected growth is based on the carrier's actual growth in the market or rate area, or in the carrier's actual growth in a reasonably comparable market, but only if that projected growth varies no more than 15 percent from historical growth in the relevant market. States may also grant relief if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory. Carriers may demonstrate such a need by providing the state with documentation of the customer request and current proof of utilization in the rate center. (*No. of respondents:* 15; *hours per response:* 50 hours; *total annual burden:* 750 hours).

C. Request for Delegated Authority To Implement Service-Specific and Technology-Specific Area Code Overlays

The Commission lifted the ban on service-specific and technology-specific overlays (collectively, specialized overlays or SOs) and will allow state commissions seeking to implement SOs to request delegated authority to do so on a case-by-case basis. State commission seeking to implement service-specific and/or technology-specific area code overlays, must request delegated authority to do so. As an initial matter, a state commission seeking to implement a SO should discuss why the numbering resource optimization benefits of the proposed SO would be superior to implementation of an all-services overlay. State commissions should also specifically address the following: (1) The technologies or services to be included in the SO; (2) the geographic area to be covered; (3) whether the SO will be transitional; (4) when the SO will be implemented and, if a transitional SO is proposed, when the SO will become an all-services overlay; (5) whether the SO will include take-backs; (6) whether there will be 10-digit dialing in the SO and the underlying area code(s); (7) whether the SO and underlying area code(s) will be subject to rationing; and (8) whether the SO will cover an area in which pooling is taking place. (*No. of respondents:* 20; *hours per response:* 55 hours; *total annual burden:* 1100 hours). Data from such reporting will be used by the Commission to determine whether carriers properly qualified for the exogenous adjustment to access charges because pooling resulted in a net cost increase.
Obligation to respond: Required to obtain or retain benefits.

OMB Control No.: 3060–0470.
Expiration Date: 03/31/2005.
Title: 47 CFR Sections 64.901–64.903, Allocation of Cost, Cost Allocation Manual and RAO Letters 19 and 26.
Form No.: N/A.
Respondents: Business or other for-profit.
Estimated Annual Burden: 5 respondents; 400 hour per response (avg.); 2000 total annual burden hours (for all collections under this control number).
Estimated Annual Reporting and Recordkeeping Cost Burden: $0.
Frequency of Response: On occasion; Annually.
Description: Section 201(b) of the Communications Act of 1934, as amended, requires that common carriers establish just and reasonable charges, practices and regulation for the services they provide; the Commission is responsible for regulating the telecommunications industry and ensuring that common carriers abide by its mandate. Pursuant to Section 64.901 carriers are required to separate their regulated costs from nonregulated cost using the attributable cost method of cost allocation. Carriers must follow the principles described in Section 64.901. Section 64.903(a) requires local exchange carriers with annual operating revenues equal to or above the indexed revenue threshold as defined in 47 CFR 32.9000 to file a cost allocation manual, except mid-sized incumbent local exchange carriers, containing the information specified in Section 64.903(a)(1)–(6). Section 64.903(b) requires that carriers update their cost allocation manuals at least annually, except that changes to the cost apportionment table and the description of time reporting procedures must be filed at the time of implementation. Proposed changes in the description of time reporting procedures, the statement concerning affiliate transactions, and the cost apportionment table must be accompanied by a statement quantifying the impact of each change on regulated operations. Changes in the description of time reporting procedures and the statement concerning affiliate transactions must be quantified in $100,000 increments at the account level. Changes in the cost apportionment table must be quantified in $100,000 increments at the cost pool level. Moreover, filing of cost allocation manuals and occasional updates are subject to the uniform format and standard procedures specified in RAO Letter 19. RAO Letter 26 provides guidance to carriers in revising their CAMS to reflect changes to the affiliate transactions rules pursuant to the Accounting Safeguards Order. In CC Docket No. 01–199, the Commission eliminated the annual CAM updates and filing of other changes for mid-sized carriers. While mid-sized carriers no longer will be required to annually file a CAM, they, like all other carriers, must be prepared to produce documentation of how they separate regulated from nonregulated costs to the Bureau, upon request. The cost allocation manual is reviewed by the Commission to ensure that all costs are properly classified between regulated and nonregulated activity. Uniformity in the CAMs will help improve the joint cost allocation process. In addition, this uniformity will give the Commission greater reliability in financial data submitted by the carriers through the Automated Reporting Management Information System (ARMIS). Obligation to respond: Mandatory.

OMB Control No.: 3060–0384.
Expiration Date: 03/31/2005.
Title: Auditor's Attestation and Certification—Sections 64.904 and 64.905.
Form No.: N/A.
Respondents: Business or other for-profit.
Estimated Annual Burden: 12 respondents; 107.08 hour per response (avg.); 1285 total annual burden hours (for all collections under this control number).
Estimated Annual Reporting and Recordkeeping Cost Burden: $1,200,000.
Frequency of Response: On occasion; Annually; Biennially.
Description: Section 201(b) of the Communications Act of 1934, as amended, requires that common carriers establish just and reasonable charges, practices, and regulations for the service they provide. The Commission is responsible for regulating the telecommunications industry and ensuring that common carriers abide by its mandate. Since common carriers are allowed to provide non-common carrier services, the Commission must establish mechanisms to control cost shifting,

VOL
67
ISS
57
MR
25
2002
UMI

inhibiting carriers from imposing on ratepayers for regulated interstate services the costs and risks of nonregulated ventures. Pursuant to section 64.904(a), each incumbent local exchange carrier required to file a cost allocation manual shall elect to either (1) have an attest engagement performed by an independent auditor every two years, covering the prior two year period, or (2) have a financial audit performed by an independent auditor every two years, covering the prior two year period. In either case, the initial engagement shall be performed in the calendar year after the carrier is first required to file a cost allocation manual. See 47 CFR 64.904 (a)–(c). In CC Docket 00–199, the Commission eliminated the requirement that CAMs of mid-sized carriers be subject to an attest audit every two years. Instead of requiring mid-sized carriers to incur the expense of a biennial attestation engagement, they will file a certification with the Commission stating that they are complying with section 64.901 of the Commission's rules. The certification must be signed, under oath, by an officer of the incumbent LEC, and filed with the Commission on an annual basis. Such certification of compliance represents a less costly means of enforcing compliance with our cost allocation rules. See 47 CFR Section 64.905. The independent audit requirement is imposed to ensure that the carriers are properly implementing their cost allocation manual. The independent audits serve as an important aid in the Commission's monitoring program. Obligation to respond: Required to obtain or retain benefits.

OMB Control No.: 3060–0734.
Expiration Date: 03/31/2005.
Title: Accounting Safeguards, CC Docket No. 96–150 (47 U.S.C. Sections 260, 271–276 and 47 CFR Sections 53.209, 53.211 and 53.213).
Form No.: N/A.
Respondents: Businesses or other for-profit.
Estimated Annual Burden: 27 respondents; 4587.37 hours per response (avg.); 123,859 total annual burden hours.
Estimated Annual Reporting and Recordkeeping Cost Burden: $632,500.
Frequency of Response: On occasion; Biennially; Annually; Recordkeeping; Third Party Disclosure.
Description: In a Report and Order issued in CC Docket No. 96–150, the Commission addressed the accounting safeguards necessary to satisfy the requirements of Sections 260 and 271 through 276 of the Telecommunications Act of 1996. The Report and Order prescribed the way incumbent local exchange carriers (ILECs), including the Bell Operating Companies (BOCs), must account for transactions with affiliates involving, and allocate costs incurred in the provision of, both regulated telecommunications services and nonregulated services, including telemessaging, interLATA telecommunications and information services, telecommunications equipment and CPE manufacturing and others. In CC Docket No. 00–199, the Commission adopted a $500,000 threshold for transactions involving asset transfers. The $500,000 threshold represents a de minimus exception to the affiliate transaction fair market valuation rules. Carriers are still required to follow the affiliate transactions rules in recordkeeping these transactions in their books of accounts, however, they will not have to make the comparison between fair market value and fully distributed costs. The required information enables the Commission to ensure that the subscribers to regulated telecommunications services to not bear the costs of these new nonregulated services and that transactions between affiliates and carriers will be at prices that do not ultimately result in unfair rates being charged to ratepayers. Obligation to respond: Mandatory.

OMB Control No.: 3060–0370.
Expiration Date: 03/31/2005.
Title: Part 32—Uniform System of Accounts for Telecommunications Companies.
Form No.: N/A.
Respondents: Business or other for-profit.
Estimated Annual Burden: 239 respondents; 6,123.41 hour per response (avg.); 1,463,496 total annual burden hours (for all collections under this control number).
Estimated Annual Reporting and Recordkeeping Cost Burden: $0.
Frequency of Response: On occasion; Recordkeeping.
Description: Section 220 of the Communications Act of 1934, as amended, 47 U.S.C. 220, allows the Commission, in its discretion, to prescribe the forms of any and all accounts, records, and memoranda to be kept by carriers subject to this Act, including the accounts, records and memoranda of the movement of traffic, as well as of the receipts and expenditures of moneys. Section 219(b) of the Communications Act, as amended, 47 U.S.C. 219(b), authorizes the Commission by general or special orders to require any carrier subject to this Act to file monthly reports of earnings and expenses and to file periodical and/or special reports concerning any matters with respect to which the Commission authorized or required by law to act. The Uniform System of Accounts is a historical financial accounting system which reports the results of operational and financial events in a manner which enables both management and regulators to assess these results within a specified accounting period. Subject respondents are telecommunications companies. Entities having annual revenues from regulatory telecommunications operations of less than $114 million are designated as Class B and are subject to a less detailed accounting system than those designated as Class A companies. See 47 CFR part 32. In CC Docket No. 00–199, the Commission conducted its second comprehensive, bienfiial review of the accounting rules and the Automated Reporting Management Information System (ARMIS) reporting requirements that apply to incumbent local exchange carriers (LECs). The Commission made four major accounting and reporting reforms. The Commission substantially consolidated and streamlined Class A and reduced Class B accounting requirements; relaxed certain aspects of its affiliate transactions rules; significantly reduced the cost of regulatory compliance with its cost allocation rules for mid-sized carriers; and reduced the ARMIS reporting requirements for both large and mid-sized LECs. Obligation to respond: Mandatory.

Public reporting burden for the collections of information are as noted above. Send comments regarding the burden estimates or any other aspect of the collections of information, including suggestions for reducing the burden to Performance Evaluation and Records Management, Washington, DC 20554.

Federal Communications Commission.
William F. Caton,
Acting Secretary.

FEDERAL ELECTION COMMISSION

Election Administration Advisory Panel: Reestablishment of Charter

AGENCY: Federal Election Commission.

ACTION: Notice of Election Administration Advisory Panel: Advisory Panel Charter Reestablishment.

SUMMARY: The Federal Election Commission announces the reestablishment of the charter for the Election Administration Advisory Panel. The purpose of the Panel is to provide advice and consultation to the FEC's Office of Election Administration with respect to its research programs on election administration. The FEC adheres to the following criteria in the structuring of the twenty-member group: 1. The Panel should include representation of election officials from the major geographic subdivisions of the country as well as urban and rural areas. 2. The Panel membership should be bipartisan. 3. Every effort should be made to ensure a racially, ethnically and gender balanced Panel. The above criteria provide varied points of view that result in invaluable advice and counsel.

FOR FURTHER INFORMATION CONTACT: Bryan Whitener, Office of Election Administration, Federal Election Commission, 999 E Street, NW., Washington, DC 20463. Telephone: (202) 694–1095; Toll Free (800) 424–9530 (option 4).

Dated: March 19, 2002.
R. Bryan Whitener,
Election Specialist, Office of Election Administration, Federal Election Commission.

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisition of Shares of Bank or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the office of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than April 8, 2002.

A. Federal Reserve Bank of Minneapolis (Julie Stackhouse, Vice President) 90 Hennepin Avenue, Minneapolis, Minnesota 55480–0291:

1. Mildred M. Hansen and Mildred M. Hansen Trust, Currie, Minnesota, and Donald Hansen, Slayton, Minnesota; to retain voting shares of Currie Bancorporation, Inc., Currie, Minnesota, and thereby indirectly retain voting shares of Currie State Bank, Currie, Minnesota.

Board of Governors of the Federal Reserve System, March 19, 2002.

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090–0250]

Proposed Collection for Public Comments; Comment Request Entitled Zero Burden Information Collection Reports

AGENCY: Office of Acquisition Policy, GSA.

ACTION: Notice of request for public comments regarding an extension to an existing OMB clearance (2090–0250), Zero Burden Information Collection Reports.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the General Services Administration (GSA) will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Zero Burden Information Collection Reports.

Public comments are particularly invited on: Whether this collection of information is necessary and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected.

DATES: May 24, 2002.

ADDRESSES: Submit comments regarding this information collection to Stephanie Morris, General Services Administration, Acquisition Policy Division, 1800 F Street, NW., Room 4035, Washington, DC 20405 or fax to (202) 501–4067. Please cite OMB Control Number 3090–0250.

FOR FURTHER INFORMATION CONTACT: Linda Nelson, Acquisition Policy Division, GAS (202) 501–1900.

SUPPLEMENTARY INFORMATION:

A. Purpose

The GSA will be requesting the Office of Management and Budget (OMB) to review and approve information collection, 3090–0250, Zero Burden Information Collection Reports.

This information requirement consists of reports that do not impose collection burdens upon the public. These collections require information which is already available to the public at large or that is routinely exchanged by firms during the normal course of business. A general control number for these collections decreases the amount of paperwork generated by the approval process. Since May 10, 1992, GSA has published two rules that fall under Information Collection 3090–0250: "Implementation of Public Law 99–506" published at 56 FR 29442, June 27, 1991, and "Industrial Funding Fee" published at 62 FR 38475, July 18, 1997.

B. Annual Reporting Burden

None.

Obtaining Copies of Proposal

Requester may obtain a copy of the proposal from the General Services Administration, Acquisition Policy Division (MVP), 1800 F Street, NW., Room 4035, Washington, DC 20405, telephone (202) 501–4744. Please cite OMB Control No. 3090–0250, Zero Burden Information Collection Reports.

Dated: March 19, 2002.
Michael W. Carleton,
Chief Information Officer (I).

Submission for OMB Review; Comment Request Entitled State Agency Monthly Donation Report of Surplus Property

AGENCY: Federal Supply Service, GSA.

ACTION: Notice of request for an extension to an existing OMB clearance (3090–0112).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Office of Acquisition Policy has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning GSA Form 3040, State Agency Monthly Donation Report of Surplus Personnel Property. A request

UMI

for public comments was published at 67 FR 331, January 3, 2002. No comments were received.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the GSA, to conduct a report assessing the distribution of surplus property, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

DATES: April 24, 2002.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Ms. Jeanette Thornton, GSA Desk Officer, OMB, Room 10236, NEOB, Washington, DC 20503, and a copy to Ms. Stephanie Morris, General Services Administration (MVP), Room 4035, 1800 F Street, NW., Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Denise Thomas, Federal Supply Services (703) 308–0742.

SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration is requesting the Office of Management and Budget (OMB) to renew information collection, 3090–0112, concerning GSA Form 3040, State Agency Monthly Donation Report of Surplus Personal Property. This report complies with Public Law 94–519, which requires annual reports of donations of personal property to public agencies for use in carrying out such purposes as conservation, economic development, education, parks and recreation, public health, and public safety.

B. Annual Reporting Burden

Respondents: 55.
Annual responses: 220.
Burden hours: 330.

Copy of Proposal

A copy of this proposal may be obtained from the General Services Administration, Acquisition Policy Division (MVP), Room 4035, 1800 F Street NW., Washington, DC 20405, or by telephoning (202) 501–4744, or by faxing your request to (202) 501–4067. Please cite OMB Control No. 3090–0112, State Agency Monthly Donation Report of Surplus Property, in all correspondence.

Dated: March 19, 2002.

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090–0023]

Submission for OMB Review: Comment Request Entitled Surplus Personal Property Mailing List Application

AGENCY: Property Management Division (FBP), GSA.

ACTION: Notice of request for an extension to an existing approved OMB clearance (3090–0023).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Office of Acquisition Policy has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved collection concerning Surplus Personal Property Mailing List Application. A request for public comments was published at 67 FR 330, January 3, 2002. No comments were received.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the GSA, mainly on the Surplus Mailing List, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

DATES: April 24, 2002.

FOR FURTHER INFORMATION CONTACT: Victor Arnold-Bik, Property Management Division, GSA (703) 305–5809.

ADDRESSES: Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, should be submitted to Ms. Jeanette Thornton, GSA Desk Officer, OMB, Room 10236, NEOB, Washington, DC 20503, and a copy to Ms. Stephanie Morris, General Services Administration (MVP), 1800 F Street, NW., Room 4035, Washington, DC 20405.

SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration is requesting the Office of Management and Budget (OMB) to extend a currently approved information collection, 3090–0023, concerning Surplus Personal Property Mailing List Application. This GSA Form 2170 is completed by persons who wish to have their names placed on the Surplus Personal Property Mailing List maintained by GSA Regional Sales Offices. Mailing labels are produced based on the type of property and geographical area indicated by the prospective bidder on the mailing list application.

B. Annual Reporting Burden

Respondents: 12,000.
Annual responses: 12,000.
Burden hours: 996.

Obtaining Copies of Proposals

A copy of this proposal may be obtained from the General Services Administration, Acquisition Policy Division (MVP), Room 4035, 1800 F Street, NW., Washington, DC 20405, or by telephoning (202) 501–4744, or by faxing your request to (202) 501–4067. GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090–0006]

Submission for OMB Review: Comment Request Entitled GSAR Clause, 552.237–71, Qualifications of Employees

AGENCY: General Services Administration (GSA).

ACTION: Notice of request for an extension to an existing OMB clearance 3090–0006.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the General Services Administration has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a previously approved information collection requirement concerning GSAR Clause, Qualifications of Employees. Information collected under this authority is required by regulation. A request for public comments was published at 67 FR 330, January 3, 2002. No comments were received.

Public comments are particularly invited on: Whether this information collection generated by the GSAR Clause, Qualifications of Employees, is necessary for security reasons, to properly determine if an employee is suitable to work under a GSA service contract for guards, child care, cleaning, and maintenance contract; whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

DATES: April 24, 2002.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Ms. Jeanette Thorton, GSA Desk Officer, OMB, Room 10236, NEOB, Washington, DC 20503, and a copy to Ms. Stephanie Morris, General Services Administration (MVP), Room 4035, 1800 F Street, NW., Washington, DC 20405.

FOR FURTHER INFORMATION CONTACT: Julia Wise, Acquisition Policy Division, GSA (202) 208–1168.

SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration has various mission responsibilities related to the acquisition and provision of service contracts. These mission responsibilities generate requirements that are realized through the solicitation and award of service contracts for guards, childcare, cleaning, and maintenance. Individual solicitations and resulting contracts may impose unique information collection/reporting requirements on contractors, not required by regulation, but necessary to evaluate particular program accomplishments and measure success in meeting program objectives.

B. Annual Reporting Burden

Respondents: 15,496.
Responses Per Respondent: 1.
Total Responses: 15,496.
Hours Per Response: 1.
Total Burden Hours: 15, 496.

Obtaining Copies of Proposals

A copy of this proposal may be obtained from the General Services Administration, Acquisition Policy Division (MVP), Room 4035, 1800 F Street, NW., Washington, DC 20405, or by telephoning (202) 501–4744, or by faxing your request to (202) 501–4067. Please cite OMB Control No. 3090–0006, Qualifications of Employees, in all correspondence.

BILLING CODE 6820–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Secretary's Advisory Committee on Genetic Testing; Request for Public Comment

AGENCY: Office of the Secretary, DHHS.

ACTION: Request for public comment on a draft information brochure on genetic tests for the general public.

SUMMARY: The Secretary's Advisory Committee on Genetic Testing (SACGT) is seeking public comment on a draft information brochure entitled *Genetic Testing: Some Basic Questions and Answers*. The content of the brochure is reproduced below. The brochure's objective is to provide an overview of genetic tests and to outline some questions to consider about having a genetic test. Its target audience is the general public.

DATES: The public is encouraged to provide written comments on the draft brochure by April 19, 2002. Comments may be sent by mail (SACGT, National Institutes of Health, Office of Biotechnology Activities, 6705 Rockledge Drive, Suite 750, Bethesda, Maryland 20892), facsimile (301–496–9839), or email (*sc112c@nih.gov*). All public comments received will be available for public inspection at the SACGT office between the hours of 8:30 a.m. and 5:00 p.m.

FOR FURTHER INFORMATION CONTACT: Questions about this request can be directed to Ms. Sarah Carr, SACGT Executive Secretary, by e-mail, *sc112c@nih.gov*, or telephone (301–496–9838). The draft brochure also will be posted on SACGT's website for review and comment.

SUPPLEMENTARY INFORMATION:

Ensuring the appropriate use of genetic tests is an important challenge, requiring dedicated efforts on several fronts, including public education. A well-informed public will have a basic understanding about the benefits, risks, and implications of genetic tests and, should the situation arise, will know what questions to ask to make an informed decision about whether to have a genetic test. SACGT has developed the following draft information brochure, *Genetic Testing: Some Basic Questions and Answers*, to help inform the general public about genetic tests and to suggest the type of questions they should consider asking if they are faced with a decision about whether to have a genetic test.

Using a question and answer format, the brochure explains what genetic tests are, the different purposes for which they are used, how they are similar to and different from other medical tests, and some of their limitations and possible outcomes (potential benefits and risks); addresses insurance policy implications, privacy, confidentiality, and discrimination; provides informational and services resources; and outlines questions to ask oneself and one's healthcare provider when considering a genetic test. The brochure does not provide information about specific genetic tests nor is it intended for patients or consumers who have had experience with genetic testing.

SACGT is seeking comments on the content, readability, and utility of the brochure and strategies for dissemination. In particular, SACGT would appreciate responses to the following specific questions:

1. Is the document useful? How might you use such a brochure?
2. Is the content appropriate and complete? Is it understandable and written at the appropriate reading level? Are there other issues that should be addressed? Are there other questions that should be included?
3. Is the tone of the brochure appropriate? Is it culturally appropriate to a wide range of groups?
4. Should the brochure be produced in other languages and, if so, which languages?
5. To whom and how should this brochure be disseminated?
6. Should the brochure serve as a model for the development of more specific test information brochures? Who should be tasked with developing such brochures? Is this an appropriate role for SACGT? Should SACGT recommend that HHS support the development of test-specific information brochures?

Draft Brochure

Genetic Testing: Some Basic Questions & Answers

Genetic tests have been available for a number of years, but more tests are becoming available and are being offered as part of medical care. At some point in the future, you may face a decision about whether to have a genetic test.

Genetic tests are like other medical tests in many ways, but they have some important differences and issues to consider. This brochure provides some basic information about genetic testing and highlights the kinds of questions you may want to ask.

What is a Genetic test?

(To include diagram of chromosomes, genes, gene products)

Our genetic information is contained in structures called chromosomes that are made up of a chemical called DNA. Chromosomes are made up of smaller units called genes. There are 23 pairs of chromosomes, one set from our father and one from our mother. Genes contain the information about how our bodies are put together and function. It may help to think of the chromosome as a necklace and genes as beads on the necklace.

Genetic tests usually involve having blood drawn to look for changes in DNA, genes, gene products, or chromosomes. Some changes, such as those that cause certain cancers, develop during one's lifetime, possibly through environmental factors like sun exposure. Other changes can be inherited from one or both parents and passed on to children.

What Are the Different Types of Genetic Tests?

- *Diagnostic tests* are used to diagnose a medical condition in people who have symptoms or health problems. Diagnostic tests can also be used to figure out the best course of treatment or how a medical condition might progress over time.
- *Predictive tests* are used to tell whether healthy people are at higher risk of developing a particular medical condition later in life.
- *Pharmacogenetic tests* are used to tell how genetic makeup may affect a person's reaction to specific medicines. This type of test may help healthcare providers prescribe the most effective drugs with the fewest side effects.
- *Newborn screening tests* are done when babies are born to tell whether they have certain genetic diseases. These are diseases that can be treated if they are found early enough. By state law or rules, all babies are screened unless the parents decline testing.
- *Carrier tests* are used to tell whether healthy people have one copy of a genetic change that puts their children (but not them) at higher risk for having a genetic condition.
- *Prenatal tests* diagnose genetic conditions in pregnancy.

Are Genetic Tests Different From Other Medical Tests?

Genetic tests are similar to other medical tests, but there are a couple of important differences to keep in mind. Medical tests generally provide information only about the person being tested. Genetic test results can provide information for the health or life decisions of other family members as well.

Medical tests usually look for a current health condition. Predictive genetic tests, on the other hand, are done when people are healthy to see whether they are at higher risk of developing a particular disease in the future.

Unlike most other medical tests, genetic education and counseling may be provided for some genetic tests to be sure that patients understand the test, the potential results, and issues to consider.

What Are Some Limitations of Genetic Testing?

Like other medical tests, genetic tests have limitations, and they differ depending on the type of genetic test. For example, predictive genetic tests do not give "yes" or "no" answers about whether you will develop a specific disease. Instead, they tell you what your chances might be of developing a medical condition. They do not establish for sure that you will develop the condition or how the condition will affect you.

A genetic test does not test for all genetic conditions. Rather, a genetic test is done for a specific genetic condition or group of genetic conditions. In addition, for some diseases, a genetic test may not detect all changes that cause a specific condition. If the test does not find a change, you could still have or be at risk for that condition or be at risk for having children with that condition. For some tests, a family member with the condition may need to be tested to identify the genetic change before other family members who may be at risk can be tested.

Your healthcare provider, genetic specialist, or a testing laboratory can provide more information about test limitations. Over time, additional research may reduce some of the current uncertainties with genetic tests.

What Are Some of the Risks and Benefits of Having a Genetic Test?

Each genetic test has different risks and benefits. In general, the risks of genetic tests are not physical, since they mostly involve routine procedures, such as drawing blood or swabbing a cheek. Instead, the benefits and risks have more to do with how prepared you and your family are to learn the results. Learning that you may be at higher risk for a disease, for example, may be difficult to handle emotionally. On the other hand, the knowledge may help you plan preventive measures or make better decisions about the future. Likewise, you may learn that you are healthy, but members of your family have a higher likelihood of disease. For these reasons, it is important to weigh carefully the possible positive and negative outcomes before deciding whether or not to have a genetic test.

Possible Benefits of Genetic Testing

- You may learn information that is important for your healthcare.
  - *You may learn that you have or are at risk for a medical condition.* The results of genetic testing may be useful for diagnosing a medical condition or predicting risks for conditions. The results may help predict the course of the disease or determine a treatment plan, screening options, or prevention strategies. Results of genetic tests could also be important for family members if they are at risk for the same medical condition.
  - *You may learn that you are not at increased risk for a medical condition.* Such information may give peace of mind. However, many conditions are caused by your environment, diet, or behavior, as well as genetics. You may still face the same odds of getting such a condition as the population at large.
  - *You may learn that you are a carrier for a medical condition.* You may have a disease-causing gene but not have the condition yourself. If your partner is a carrier too, you could have children with the genetic condition. If you find out that you are a carrier, your partner may want to be tested prior to having children to see if he or she is also a carrier. If you are a carrier of a genetic condition, your relatives may be carriers too, and they may also want to be tested.
- You may learn information that could be useful for future decision making.

Finding out whether you have, or are at risk for, a particular genetic condition may be important information for your life decisions. If you decide to have children, you may want to undergo prenatal testing or prepare for a child with special needs. The results of a genetic test may also have an impact on your financial planning, career choices, and lifestyle.

- Test results may provide relief and reduce anxiety and uncertainty about the future.

Finding out that you are not at risk for a particular medical condition can bring a sense of relief and peace of mind. Sometimes, even people who learn that they have, or may develop, a genetic condition feel less anxious after learning their test results. They may experience more anxiety from "not knowing" than "knowing" their risk. For others, the reverse may be true.

Potential Risks of Genetic Testing

- You may learn information that can be difficult to handle.

Coping with the knowledge from genetic tests may be difficult. It is particularly hard if there is no treatment or cure for the medical condition or if the condition may not develop until later in life. It is not unusual for people to feel sad, angry, confused, or anxious. Talking these feelings over with your healthcare provider or a genetics specialist may help. You may also find support from therapists, religious leaders, your friends and family, and patient/consumer advocacy or support groups (listed under "Informational Resources").

- Family dynamics may change.

Genetic conditions may affect family members in different ways. Sharing medical information in a family and addressing feelings can sometimes be difficult and may change how family members relate to each other. It is important to keep in mind that there are supportive resources (some of which are listed below) that can help.

- The result may not be clear or uncertain.

There are limitations to today's testing technology. Sometimes a test may not produce a definite result. At other times, the meaning of a test result may not be known. Even after having a genetic test, you may not learn anything new or may be left with uncertainty about what a result means. Of course, the field of genetic testing is changing, so tests will become more refined over time.

- You may be at risk for insurance or employment discrimination.

People are often concerned that the results of genetic tests could be used by insurers to deny coverage or increase the cost of insurance. They also worry that employers might use the test results in hiring and promotion decisions. The way insurers use test results generally depends on the type of plan you have, such as whether it is individual or group coverage. There are some protections to help prevent such discrimination, and they are discussed in the next section.

Can the Results of Genetic Testing Affect Insurance Coverage or Employment?

Some states prohibit employers from using genetic information in hiring and promotion decisions. Some prohibit health insurers from increasing fees or denying coverage based on genetic information. There are also significant differences among states in the level of protection. In other words, the results of genetic tests could affect your coverage depending on the type of insurance you have, whether or not you have symptoms, and the state in which you live. You can find out about your state's laws by contacting the National Conference of State Legislatures at 303–830–2200 or *www.ncsl.org*. The National Human Genome Research Institute also posts information about current state laws, as well as information about federal efforts, at: *http://www.nhgri.nih.gov/Policy_and_public_affairs/Legislation/*

Will Test Results Be Kept Confidential?

Your medical records, including genetic test results, are confidential. Test results can only be released with your permission or unless specifically required by law. The terms of most health insurance policies give the insurance company access to your medical information, especially if you request insurance coverage of genetic testing. However, many companies have policies stating that your health information will not be shared without your consent. You have the right to see the information in your medical records.

Will Insurance Cover the Cost of Genetic Testing?

Insurance coverage for genetic testing will depend on the type of insurance you have and the indication for testing. Genetic tests can cost more than other tests because they can take longer to perform and the techniques are more complex. If your insurance does not cover the cost of genetic testing, you may have to pay out-of-pocket. Find out about the cost of the test and insurance coverage before having the test done.

Where Can I Find More Information About Genetic Disorders or Genetic Testing?

Patient and consumer advocacy or support groups can help you obtain information about genetics and specific genetic conditions. They can also help you make connections with people facing similar issues. In addition, many government agencies have helpful resources.

Informational Resources

- Genetic Alliance, Toll free number: 800–336–4363. (*www.geneticalliance.org*).
- Genetics Education Center, (*www.kumc.edu/gec/*).
- "GeneTests", (*http://www.genetests.org/*).
- March of Dimes, Toll free number: 888–663–4637. (*www.modimes.org*).
- National Human Genome Research Institute, (*http://www.nhgri.nih.gov/Policy_and_public_affairs/Communications/Patients_and_families/*).
- National Newborn Screening and Genetics Resources Center, (*www.genes-r-us.uthscsa.edu*).
- National Organization for Rare Disorders, Toll free number: 800–999–6673. (*www.rarediseases.org*).
- Office of Rare Diseases, National Institutes of Health, (*http://rarediseases.info.nih.gov/ord/*).
- Office of Genetics and Disease Prevention, Centers for Disease Control and Prevention, (*http://www.cdc.gov/genetics/default.htm*).
- U.S. Department of Energy, (*http://www.ornl.gov/hgmis/medicine/genetest.html*).

Genetics clinics provide care, information and support for individuals who have, or are at risk for, a genetic condition.

To locate genetic services, you can:

- Ask your healthcare provider
- Contact your local medical center/hospital and ask if there are genetic services
- Contact your state department of public health and request information on genetic services
- Contact the National Society of Genetic Counselors (610–872–7608) *www.nsgc.org*
- Contact the Genetic Alliance (toll free: 800–336–4363) *www.geneticalliance.org*
- Contact your local March of Dimes chapter (888–663–4637) *www.modimes.org*
- For cancer genetics specialists, contact the National Cancer Institute (toll free: 800–422–6237) *www.nci.nih.gov*

Questions to Ask About Genetic Testing

Below are some questions you can ask yourself and your healthcare provider as you consider genetic testing. Many of these same questions could be asked about any medical test. There may not be answers to all of these questions and some of the answers may change as our knowledge about genetic testing grows.

Questions to Ask Yourself

- ☐ Do I know what type of genetic test is being offered?
- ☐ Will the test results be helpful to me? Do I want to know this information?
- ☐ What might I do differently if I have the results?
  - ☐ Will I make changes in my healthcare based on the results?
  - ☐ Will I make changes in my life decisions (e.g. children, finances, career choice) based on the results?
- ☐ Is this a good time in my life for me to have the genetic test?
- ☐ What will my reactions be when receiving the genetic test results?
- ☐ Do I have the support that I may need or people who I can talk to, if needed?
- ☐ Have I given myself enough time to explore these issues?
- ☐ Do I have all the information I need to make a decision about genetic testing? Have all my questions been answered?

Questions to Ask Your Healthcare Provider

- ☐ *Specific genetic test and purpose:* What genetic test(s) will be done? What is the purpose of doing the genetic test? Why is the genetic test recommended?
- ☐ *Test accuracy & limitations:* How accurate is the genetic test? What are the limitations of the genetic test? How well does the test diagnose or predict the medical condition? Does the laboratory where the test will be performed have the appropriate certification?
- ☐ *Benefits & risks:* What are the benefits and risks of being tested? Of not being tested?
- ☐ *Result interpretation:* What are the possible test outcomes and what will the results mean?
- ☐ *Communication of results:* When can I expect to receive my test results? How will results be communicated to me?
- ☐ *Medical care:* What are the signs and symptoms of this condition? Are there medical treatments or preventive options available for the condition? Would options change depending on the test results? What would my options be if I decide not to be tested?
- ☐ *Insurance issues:* What is the cost of the genetic test(s)? Will my insurance cover the cost? Will the results of genetic testing affect my insurance rates, coverage or my ability to obtain insurance?
- ☐ *Confidentiality of test results:* Who will have access to my test results? Will the results be kept confidential?
- ☐ *Family issues:* What will my test results mean for other family members? Should other family members consider genetic testing? What should I tell my family members?
- ☐ *Sample issues:* Will part of my sample be left over from the test and, if so, what will happen to it?

Genetic Testing—It Should Be Your Decision

This brochure has provided some basic information about genetic testing. We hope it will be helpful if you have to make decisions about genetic testing. Some people may decide to have a genetic test because they feel the information would be important for their healthcare and/or life decisions. Others may decide not to have a genetic test because they feel that the risks outweigh the benefits of having the information, they feel their decisions would be no different, or they prefer not to know. The decision to have a genetic test is yours to make. It's your genetic information, and it's your choice.

Dated: March 18, 2002.

Submission for OMB Review; Comment Request; Agricultural Health Study (A Prospective Cohort Study of Cancer and Other Diseases Among Men and Women in Agriculture)—Validation Sub-Study, on Rheumatoid Arthritis

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on Tuesday, October 23, 2001, pages 53618–53619 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection

Title: Agricultural Health Study (A Prospective Cohort Study of Cancer and Other Diseases Among Men and Women in Agriculture)—validation sub-study on Rheumatoid Arthritis.

Type of Information Collection Request: Revision of a currently approved collection (0925–0406, expiration 11/31/03).

Need and Use of Information Collection: The Agricultural Health Study is an ongoing prospective cohort study of 89,189 farmers, their spouses, and commercial applicators of pesticides from Iowa and North Carolina. The proposed collection of additional information is intended to assess the validity of self-reported Rheumatoid Arthritis (RA) in the Agricultural Health Study (AHS) within small subgroups of individuals. The collection is intended to identify confirmed cases of RA to include in etiologic analyses of farming exposures and RA; evaluate the efficacy of certain questions or sets of questions for screening out false-positives for self-reported RA and identify subgroups to target for future etiologic studies of RA, based on a relatively high prevalence of RA and the feasibility of disease confirmation.

Frequency of Response: Single time reporting.

Affected Public: Individuals or households, Farms.

Type of Respondents: Private pesticide applicators and their spouses. The annual reporting burden is as follows:

Estimated Number of Respondents: 11,373..

Estimated Number of Responses per Respondent: 2.2;

Average Burden Hours Per Response: 1.18.

Estimated Total Annual Burden Hours Requested: 13,433.

The annualized cost to respondents is estimated at: $138,045. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

Request for Comments

Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Direct Comments to OMB

Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Michael C.R. Alavanja, Dr. P.H., Division of Epidemiology and Genetics, National Cancer Institute, Executive Plaza South, Suite 8000, 6120 Executive Boulevard, Rockville, MD 20852, or call non-toll free (301) 435–4720, or E-mail your request, including your address to: *alavanjam@mail.nih.gov*

Comments Due Date

Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.

Dated: March 15, 2002.

Reesa Nichols,

NCI Project Clearance Liaison.

BILLING CODE 4140–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Office of the Director, National Institutes of Health; Notice of Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of a meeting of the Director's Council of Public Representatives.

The meeting will be open to the public, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

Name of Committee: Director's Council of Public Representatives.

Date: April 15, 2002.

Time: 8:30 a.m. to 4:30 p.m.

Agenda: Among the topics proposed for discussion are: (1) The NIH Response to COPR's October Report on Human Research Protections; (2) Health Disparities; and (3) Research in Environmental Health Sciences by Dr. Kenneth Olden, Director, NIEHS.

Place: National Institutes of Health, 9000 Rockville Pike, Building 31, Conference Room 10, Bethesda, MD 20892.

Contact Person: Jennifer E. Gorman, NIH Public Liaison/COPR Coordinator, Office of Communications and Public Liaison, Office of the Director, National Institutes of Health 9000 Rockville Pike, Building 1, Room 344, Bethesda, MD 20892, (301) 435–4448, *gorman@od.nih.gov*.

In the interest of security, NIH has instituted stringent procedures for entrance into the building by non-government employees. Persons without a government I.D. will need to show a photo I.D. and sign-in at the security desk upon entering the building.

Information is also available on the Institute's/Center home page: *www.nih.gov/about/publicliaison/index.html*, where an agenda and any additional information for the meeting will be posted when available.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institute on Drug Abuse; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute on Drug Abuse Special Emphasis Panel, Training and Career Development.

Date: March 25, 2002.

Time: 3:30 p.m. to 4:30 p.m.

Agenda: To review and evaluate grant applications.

Place: 6001 Executive Blvd., Bethesda, MD 20814, (Telephone Conference Call).

Contact Person: Mark Swieter, PhD, Health Scientist Administrator, Office of Extramural Affairs, National Institute on Drug Abuse, National Institutes of Health, DHHS, 6001 Executive Boulevard, Room 3158, MSC 9547, Bethesda, MD 20892–9547, (301) 435–1389

This notice is being published less than 15 days prior to the meeting due to the timing limitations imposed by the review and funding cycle.

(Catalogue of Federal Domestic Assistance Program Nos. 93.277, Drug Abuse Scientist Development Award for Clinicians, Scientist Development Awards, and Research Scientist Award; 93.278, Drug Abuse National Research Service Awards for Research Training; 93.279, Drug Abuse Research Programs, National Institutes of Health, HHS)

Dated: March 18, 2002.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Prospective Grant of Exclusive License: The Use of Macrocyclic Lactones as Inhibitors of Vacuolar-Type ATPases for the Treatment of Cancer

AGENCY: National Institutes of Health, Public Health Service, DHHS.

ACTION: Notice.

SUMMARY: This is notice, in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i), that the National Institutes of Health (NIH), Department of Health and Human Services, is contemplating the grant of an exclusive license to practice the invention embodied in: 60/122,953 filed 3/5/99 (Provisional I, DHHS ref. No. E–244–97/2); 60/169,564 filed 12/8/99 (Provisional II, DHHS ref. No. E–244–97/0) and PCT (PCT/US00/05582), filed 3/3/00 and claiming priority to both Provisionals I and II, "Vacuolar-Type (H^+) ATPase Inhibiting Compounds, Compositions and Uses Thereof;" and 60/053,784, filed 7/25/97 (DHHS Ref. No. E–244–97/1), converted into PCT/US98/15011 filed 7/23/98, "Antitumor Macrocyclic Lactones, Compositions and Methods of Use", to Attenuon, L.L.C., having a place of business in San Diego, CA. The aforementioned patent rights have been assigned to the United States of America.

DATES: Only written comments and/or application for a license which are received by the NIH Office of Technology Transfer on or before May 24, 2002, will be considered.

ADDRESSES: Requests for a copy of the patent application, inquiries, comments and other materials relating to the contemplated license should be directed to: Wendy R. Sanhai, Ph.D., Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852–3804; e-mail: *sanhaiw@od.nih.gov*; Telephone: (301) 496–7056, ext. 244; Facsimile: (301) 402–0220.

SUPPLEMENTARY INFORMATION: This invention describes a class of macrocyclic lactones (benzolactone enamides) derived from marine sponges, and which inhibit vacuolar-type (H^+) ATPases (V–ATPases). Selective inhibition of V–ATPases may represent an effective means of treating various disease states: Alzheimer's disease, glaucoma and osteoporosis and cancer (via affecting cellular proliferation, angiogenesis, tumor cell invasiveness, metastasis and drug resistance). The compounds have been shown to be active against a specific group of human tumors when tested in the NCI 60-cell line panel. The licensee of these inventions will be required to comport with all applicable federal and country-of-collection policies relating to biodiversity.

The field of use may be limited to the treatment of cancer, angiogenesis-dependent diseases and osteoporosis.

The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within 60 days from the date of this published Notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Properly filed competing applications for a license filed in response to this notice will be treated as objections to the contemplated license. Comments and objections submitted in response to this notice will not be made available for public inspection, and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: March 14, 2002.

Jack Spiegel,

Director, Division of Technology Development and Transfer, Office of Technology Transfer.

[FR Doc. 02–7057 Filed 3–22–02; 8:45 am]

BILLING CODE 4140–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443–7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: GPRA Client Outcomes for the Substance Abuse and Mental Health Services Administration (SAMHSA)—(OMB No. 0930–0208, Extension)

The mission of the Substance Abuse and Mental Health Services Administration (SAMHSA) is to improve the effectiveness and efficiency of substance abuse and mental health treatment and prevention services across the United States. All of SAMHSA's activities are designed to ultimately reduce the gap in the availability of substance abuse and mental health services and to improve their effectiveness and efficiency.

Data are collected from all SAMHSA knowledge development and application and targeted capacity expansion grants and contracts where client outcomes are to be assessed at intake and post-treatment. SAMHSA-funded projects are required to submit this data as a contingency for their award. The analysis of the data will also help determine whether the goal of reducing health and social costs of drug use to the public is being achieved.

The primary purpose of the proposed data collection activity is to meet the reporting requirements of the Government Performance and Results Act (GPRA) by allowing SAMHSA to quantify the effects and accomplishments of SAMHSA programs. In addition, the data will be useful in addressing goals and objectives outlined in ONDCP's *Performance Measures of Effectiveness*. Following is the estimated annual response burden for this effort.

Center	Number of clients	Responses/ client	Hours/ response	Annual burden hours
Center for Substance Abuse Treatment	3,750	3	.70	2,625

Center	Number of clients	Responses/ client	Hours/ response	Annual burden hours
Center for Substance Abuse Prevention	12,150	3	.63	7,654
Center for Mental Health Services	13,837	3	.25	3,459
Total				13,738

Send comments to Nancy Pearce, SAMHSA Reports Clearance Officer, Room 16–105, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: March 19, 2002.

Richard Kopanda,

Executive Officer, SAMHSA.

Request for Comments Regarding the Prevention, Identification, and Treatment of Co-occurring Disorders—Extension of Due Date

In compliance with section 503A of the Public Health Service Act (42 U.S.C. 290aa–2a), the Substance Abuse and Mental Health Services Administration (SAMHSA) is required to provide to the United States Congress a report on the prevention, identification, and treatment of co-occurring disorders. Public comment is solicited in order to aid in the development of this report. On March 6, 2002, SAMHSA published a notice requesting written input on this subject to be provided by March 27, 2002.

DATES: The new deadline for receipt of public comment has been extended until April 5, 2002.

ADDRESSES: All comments should be sent to James Winarski; Advocates for Human Potential; 323 Boston Post Road; Sudbury, MA 01776.

FOR FURTHER INFORMATION CONTACT: Eileen Elias, M.Ed., Special Expert, SAMHSA, 301–443–8742.

Dated: March 19, 2002.

Richard Kopanda,

Executive Officer, SAMHSA.

BILLING CODE 4162–20–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4739–N–08]

Notice of Proposed Information Collection: Comment Request; Home Equity Conversion Mortgages (HECM): Consumer Protection Measures Against Excessive Fees

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: May 24, 2002.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Wayne Eddins, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, SW., L'Enfant Plaza Building, Room 8001, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Vance T. Morris, Director, Office of Single Family Program Development, Department of Housing and Urban Development, 451 7th Street SW., Washington, DC 20410, telephone (202) 708–2121 (this is not a toll free number) for copies of the proposed forms and other available information.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Home Equity Conversion Mortgages (HECM): Consumer Protection Measures Against Excessive Fees.

OMB Control Number, if applicable: 2502–0534.

Description of the need for the information and proposed use: Events in the marketplace have given rise to vendors who prey on the elderly to use the HECM program as a vehicle for earning excessive fees for services which are of little or no value, or which can be obtained free of charge (or at minimal cost) from other sources—including HUD-approved Housing Counseling Agencies. The information is needed to assure that the homeowner is not obtaining a HECM mortgage under an obligation to pay excessive fees for services.

Agency form numbers, if applicable: None.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: An estimation of the total numbers of hours needed to prepare the information collection is 6,800, the number of respondents is 8,000 generating 32,000 responses annually, the frequency of response is once per mortgagor, and the hours per response is .25 hours.

Status of the proposed information collection: Extension of a currently approved collection.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: March 17, 2002.

John Weicher,

Assistant Secretary for Housing—Federal Housing Commissioner.

FOR FURTHER INFORMATION CONTACT: Betty A. Belin, Systems Accountant, Office of Financial Services, 451 7th Street, SW., Washington, DC 20410, telephone (202) 401–2168, extension 2807, (this is not a toll free number) for copies of the proposed forms and other available information.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond; including the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Statement of Taxes.

OMB Control Number: 2505–0418.

Description of the need for the information and proposed use: When a lender with an insured multifamily mortgage assigns a mortgage or conveys a property to HUD, the lender is required to submit all records and accounts relative to the mortgage to HUD. These provisions are spelled out in Statute 12 U.S.C. 1713(g); Title II, section 207(g) of the National Housing Act; and 24 CFR 207.258(b)(4). Included in the records is the Statement of Taxes. From this Statement, HUD updates its records of the mortgagor's real estate taxes, the location (lot and block numbers) of the property, taxes due dates, and penalty dates. During the claim audit for insurance benefits, this form is used to verify the last taxes paid.

Agency form number: HUD–434.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The estimated number of respondents is 215, frequency of response is once per claim, the burden per response is estimated to be .50 hours, and the total estimated annual burden hours requested is 107.

Status of the proposed information collection: Extension of a currently approved collection.

Authority: The paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: March 19, 2002.

John C. Weicher,

Assistant Secretary for Housing-Federal Housing Commissioner.

BILLING CODE 4210–27–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4743–N–03]

Notice of Planned Closing of Topeka, Kansas Post-of-Duty Station

AGENCY: Office of Inspector General, HUD.

ACTION: Notice of planned closing of Topeka, Kansas post-of-duty station.

SUMMARY: This notice advises the public that the HUD Office of Inspector General (OIG) is closing its Topeka, Kansas post-of-duty station, and also provides a cost-benefit analysis of the impact of the closure.

FOR FURTHER INFORMATION CONTACT: Bryan Saddler, Counsel to the Inspector General, Room 8260, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, (202) 708–1613. (This is not a toll free number.) A telecommunications device for hearing- and speech-impaired persons (TTY) is available at 1–800–877–8339 (Federal Information Relay Services). (This is a toll-free number.)

SUPPLEMENTARY INFORMATION:

Background

In 1998, HUD/OIG established a one-person post-of-duty station in Topeka, Kansas, to give direct support to the HUD/OIG's Operation Safe Home (OSH) initiative to combat violent and drug-related crime in public and assisted housing in Topeka and nearby communities. Although the Topeka post-of-duty station is only about 50 miles from HUD/OIG's Kansas City Regional Office, nationwide experience since the initiation of OSH in 1994 had proven that the best results/impact could be obtained when HUD/OIG Special Agents were physically located in the target city. However, in accordance with the requirements of the Fiscal Year 2002 HUD Appropriations Act (Pubic Law 107–73, approved November 26, 2001), HUD/OIG is terminating OSH and re-deploying staff to focus on investigations involving single-family fraud and property flipping. This change eliminates the need to maintain a separate post-of-duty station in Topeka, Kansas, and gives HUD/OIG the opportunity to generate cost savings associated with discontinuing an additional office.

Section 7(p) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(p)) provides that a plan for field reorganization, which may involve the closing of any field or regional office, of the Department of Housing and Urban Development may not take effect until 90 days after a cost-benefit analysis of the effect of the plan on the office in question is published in the **Federal Register**. The required cost-benefit analysis should include: (1) An estimate of cost savings anticipated; (2) an estimate of the additional cost which will result from the reorganization; (3) a discussion of the impact on the local economy; and (4) an estimate of the effect of the reorganization on the availability, accessibility, and quality of services provided for recipients of those services.

Legislative history pertaining to section 7(p) indicates that not all reorganizations are subject to the requirements of section 7(p). Congress stated that "[t]his amendment is not intended to [apply] to or restrict the internal operations or organization of the Department (such as the

VOL

2002
UMI

establishment of new or combination of existing organization units within a field office, the duty stationing of employees in various locations to provide on-site service, or the establishment or closing, based on workload, of small, informal offices such as valuation stations)." (*See* House Conference Report No. 95–1792, October 14, 1978 at 105–106.)

The two-person duty station in Topeka, Kansas, is a single-purpose duty station, and the duty station is being closed based on workload rather than on a reorganization of HUD/OIG field offices. Although notice of the closing of a duty station is not subject to the requirement of section 7(p), as supported by legislative history, HUD/OIG nevertheless prepared a cost-benefit analysis for its own use in determining whether to proceed with the closing. Through this notice, HUD/OIG advises the public of the closing of the Topeka, Kansas duty station and provides the cost-benefit analysis of the impact of the closure.

Impact of the Closure of the Topeka, Kansas Post-of-Duty Station

HUD/OIG considered the costs and benefits of closing the Topeka, Kansas post-of-duty, and is publishing its cost-benefit analysis with this notice. In summary, HUD/OIG has determined that the closure will result in a cost savings, and, as a result of the size and limited function of the office, will cause no appreciable impact on the provision of authorized investigative services/activities in the area (*i.e.*, OSH activities, of course, will be impacted, but HUD/OIG has been directed to terminate these activities).

Cost-Benefit Analysis

A. *Cost Savings:* The Topeka, Kansas post-of-duty currently costs $21,415 per year in lease and other expenses. Thus, closing the post-of-duty will result in an annual savings of at least $21,415. In addition, by closing the office HUD/OIG will not be required to incur additional costs associated with current plans to install high-speed computer access lines to and on the premises, nor will HUD/OIG incur costs associated with the lease or purchase of duplicative office equipment.

B. *Additional Costs:* There are no offsetting expenses anticipated. The Special Agent assigned to the Topeka, Kansas post-of-duty will be reassigned to the Kansas City Regional Office, without need for relocation reimbursement. Further, there is adequate existing office space to accommodate the Special Agent within the Kansas City Regional Office.

C. *Impact on Local Economy:* The Topeka, Kansas post-of-duty office space comprises a mere 1,162 square feet of space, which can easily be re-leased to other tenants. Thus, no appreciable impact on the local economy is anticipated.

D. *Effect on Availability, Accessibility and Quality of Services Provided to Recipients of Those Services:* The establishment of the Topeka, Kansas post-of-duty was based entirely on the needs of the HUD/OIG to have a Special Agent in closer proximity to OSH activities conducted in the Topeka area. These activities are being terminated. Further, as was the case prior to 1998, fraud investigations in the Topeka area can be cost effectively addressed by agents assigned to the Kansas City Regional Office, which is about 50 miles away.

For the reasons stated in this notice, HUD/OIG intends to proceed to close its Topeka, Kansas post-of-duty station at the expiration of the 90-day period from the date of publication of this notice.

Dated: March 15, 2002.

Michael P. Stephens,

Deputy Inspector General.

[FR Doc. 02–7125 Filed 3–22–02; 8:45 am]

BILLING CODE 4210–78–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of a Permit Application (Rockledge) for Incidental Take of the Golden-Cheeked Warbler

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: Rockledge, Inc. (Applicant) has applied for an incidental take permit (TE–051567–0) pursuant to section 10(a) of the Endangered Species Act (Act). The requested permit would authorize the incidental take of the endangered golden-cheeked warbler. The proposed take would occur as the result of the construction and occupation of a low-density residential development of 35 to 40 homesites on 53.5 acres of the 193.0-acre Russell Park Estates, Williamson County, Texas.

DATES: Written comments on the application should be received within 60 days of the date of this publication.

ADDRESSES: Persons wishing to review the application may obtain a copy by writing to the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Room 4102, Albuquerque, New Mexico 87103. Persons wishing to review the EA/HCP may obtain a copy by contacting Scott Rowin, U.S. Fish and Wildlife Service, 10711 Burnet Road, Suite 200, Austin, Texas 78758 (512/490–0057). Documents will be available for public inspection by written request, by appointment only, during normal business hours (8 am to 4:30 pm) at the U.S. Fish and Wildlife Service, Austin, Texas. Written data or comments concerning the application and EA/HCP should be submitted to the Supervisor, U.S. Fish and Wildlife Service, Austin, Texas, at the above address. Please refer to permit number TE–051537–0 when submitting comments.

FOR FURTHER INFORMATION CONTACT: Scott Rowin, U.S. Fish and Wildlife Service, Austin Office, (512) 490–0057.

SUPPLEMENTARY INFORMATION: Section 9 of the Act prohibits the "taking" of endangered species such as the golden-cheeked warbler. However, the Fish and Wildlife Service (Service), under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

The Service has prepared the Environmental Assessment/Habitat Conservation Plan (EA/HCP) for the incidental take application. A determination of jeopardy to the species or a Finding of No Significant Impact (FONSI) will not be made until at least 60 days from the date of publication of this notice. This notice is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).

Applicants: Rockledge, Inc. plans to construct a low-density residential development of 35 to 40 homesites, within 30 years, on approximately 53.5 acres of the 193.0-acre Russell Park Estates, located approximately 0.25 miles south of the intersection of County Road 262 and Farm to Market 3405, Williamson County, Texas. This action will eliminate up to 53.5 acres of golden-cheeked warbler habitat. In addition, the vulnerability of another approximately 34.4 acres of warbler habitat may be reduced as a result of indirect effects associated with the development. The Applicant has made every effort to minimize and/or avoid impacts to the Bone Cave harvestman and believes the proposed action will not impact the harvestman. No take for this species is being requested or would be granted by issuance of this permit. The Applicant proposes to compensate for this incidental take of the golden-cheeked warbler by preserving approximately 139.4 acres of the highest quality warbler habitat onsite. This preserve land is adjacent to property owned by the U.S. Army Corps of Engineers.

Bryan Arroyo,

Acting Regional Director, Region 2.

[FR Doc. 02–7014 Filed 3–22–02; 8:45 am]

BILLING CODE 4510–55–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Bureau of Reclamation

Trinity River Mainstem Fishery Restoration Program

AGENCY: Fish and Wildlife Service and Bureau of Reclamation, Interior.

ACTION: Notice of intent to prepare a Supplemental Environmental Impact Statement/Supplemental Draft Environmental Impact Report (SEIS/SDEIR).

SUMMARY: The Fish and Wildlife Service (FWS) and the Bureau of Reclamation (Reclamation), along with the Hoopa Valley Tribe and Trinity County, California are preparing a Supplemental Environmental Impact Statement/Supplemental Draft Environmental Impact Report for the Trinity River Mainstem Fishery Restoration Program (Program). The purpose of the SEIS/SDEIR is to analyze the effects of two biological opinions associated with the Program issued on October 12, 2000, one by the FWS and the other by the National Marine Fisheries Service of the Department of Commerce (NMFS), on Central Valley Project (CVP) operations and the effects of the Program on energy generation within the context of the state of deregulation and supply uncertainty for electricity within California.

A final environmental impact statement (EIS) on the Program was issued in November, 2000, and a Record of Decision (ROD) executed on December 19, 2000. Central Valley water and power interests filed suit seeking to enjoin implementation of the ROD. On March 22, 2001, the court issued a Memorandum Decision and Order enjoining the federal defendants from implementing any of the flow related aspects of the ROD. *Westlands Water District* v. *United States Department of the Interior*, CIV–F–00–7124–OWW/DLB (E.D. Calif., filed May 3, 2001). In its Memorandum Decision and Order the court found that the effects of reasonable and prudent measures in the two biological opinions as well as the effects on power in light of the California energy crisis, were not adequately analyzed in the EIS. The federal agencies are now seeking to address these issues in a SEIS and are soliciting public input and comment on this process.

The overall objective of the Program is to meet Federal trust responsibilities for tribal fishery resources and restore the fisheries in the Trinity River basin to the level that existed prior to the construction of the Trinity River Division (TRD) of the CVP. These actions are authorized by the Act of August 12, 1955, 69 Stat. 719; the Trinity River Basin Fish and Wildlife Management Act, Public Law 98–541 (1984), as amended, and the Central Valley Project Improvement Act, Public Law 102–575, Title XXXIV (1992) (CVPIA). The FWS and Reclamation are the federal co-leads for purposes of complying with National Environmental Policy Act (NEPA); along with Hoopa Valley Tribe, which is also acting in a co-lead agency role. Trinity County functions as the state lead agency for purposes of complying with the California Environmental Quality Act (CEQA).

The purpose for the October 2000 EIS/EIR is as follows: to restore and maintain the natural production of anadromous fish on the Trinity River mainstem downstream of Lewiston Dam. The purpose of the SEIS/SEIR will be the same.

DATES: A scoping meeting will be held on Thursday, May 9, 2002, from 1:30 to 4:30 p.m. in Redding, California, to solicit public input on alternatives, concerns, and issues to be addressed in the SEIS/SDEIR.

Written comments on the scope of the SEIS/SDEIR may be mailed to Reclamation at the address below by May 23, 2002. Comments received after this date will be considered but may not be included in the resulting SEIS/SDEIR scoping report.

ADDRESSES: The scoping meeting will be held at the Holiday Inn, 1900 Hilltop Drive, Redding, CA 96002.

Written comments on the scope of the SEIS/SDEIR should be sent to Mr. Russell Smith, Bureau of Reclamation, Shasta Dam Office, 16349 Shasta Dam Boulevard, Shasta Lake CA 96019; telephone: (530) 275–1554; fax (530) 275–2441.

FOR FURTHER INFORMATION CONTACT: Mr. Russell Smith at the above address or by telephone at (530) 275–1554.

SUPPLEMENTARY INFORMATION: In 1983 an EIS on the Trinity River Basin Fish and Wildlife Management Program was prepared by the FWS (U.S. Fish and Wildlife Service, 1983). The environmental document analyzed habitat restoration actions, watershed rehabilitation, and improvements to the Trinity River Salmon and Steelhead Hatchery (TRSSH). The EIS clarified that the hatchery's purpose was to mitigate for the loss of the 109 miles of habitat upstream of Lewiston Dam; whereas, the restoration and rehabilitation projects were explicitly designed to increase natural fish production below the dam.

In 1984, the Trinity River Basin Fish and Wildlife Management Act (Public Law 98–541) was enacted. It formalized the existence of the Trinity River Basin Fish and Wildlife Task Force (Task Force), and directed the Secretary of the Interior (Secretary) to implement measures to restore fish and wildlife habitat in the Trinity River. The Task Force was directed at implementation of a fish and wildlife management program "to restore natural fish and wildlife populations to levels approximating those which existed immediately prior to the construction of the Trinity Division." In 1996 Congress re-authorized and amended the original Trinity River Basin Fish and Wildlife Management Act (Public Law 104–143). The 1996 amendments clarified that "restoration is to be measured not only by returning adult anadromous fish spawners, but by the ability of dependent tribal, commercial, and sport fisheries to participate fully, through enhanced in-river and ocean harvest opportunities, in the benefits of restoration * * * ".

In 1992 Congress passed the CVPIA (Public Law 102–575, Title XXXIV) in order to protect, restore, and enhance fish, wildlife, and associated habitats in the Central Valley, including the Trinity River Basin. Specifically, the CVPIA provides at section 3406(b)(23) that "[i]n order to meet Federal trust responsibilities to protect the fishery resources of the Hoopa Valley Tribe and meet the fishery restoration goals' of Public Law 98–541, the Secretary is directed to complete the Trinity River Flow Evaluation Study (TRFES) and to develop recommendations "based on the best available scientific data, regarding permanent instream fishery flow requirements and TRD operating criteria and procedures for the restoration and maintenance of the Trinity River fishery." The CVPIA also specifically provided for the Secretary to consult with the Hoopa Valley Tribe on the TRFES and, upon the Tribe's concurrence, to implement the restoration recommendations accordingly.

VOL
67
ISS
57
MR
25
2002
UMI

A joint EIS/EIR, for the Trinity River Mainstem Fishery Restoration Program (TRMFRP) was prepared by the FWS, Reclamation, Trinity County, and the Hoopa Valley Tribe, and was completed in October, 2000. A ROD selecting the alternative to be implemented for the TRMFRP, was signed by the Secretary, with the concurrence of the Hoopa Valley Tribe, pursuant to section 3406(b)(23) of the CVPIA, and issued in December 2000. However, the EIR was not certified by Trinity County and it is not a finalized document under CEQA.

Subsequent to execution of the ROD, water and power interests in the Central Valley of California amended a previously filed lawsuit against the federal agencies materially involved in either the decision making process for the ROD or the associated Endangered Species Act approvals for the TRMFRP (Reclamation, FWS, and NMFS), in federal district court. Plaintiffs sought, and were granted a preliminary injunction for implementation of the flow related aspects of the ROD. The terms of the injunction limit the increase in flows in the Trinity River which may be implemented in the ROD, but allow the Secretary to proceed with all other activities approved by the ROD. *Westlands Water District* v. *United States Department of the Interior*, CIV-F–00–7124–OWW/DLB (E.D. Calif., filed May 3, 2001). Subsequently, the plaintiff and plaintiff-intervenors and federal defendants, but not defendant-intervenors Hoopa Valley and Yurok Tribes, jointly agreed to stay the case, pending the development of a supplemental NEPA document that would address the issues identified by the *Westlands* court as requiring further analysis; including the effect that the change in operations of the TRD would have within the context of deregulation of electrical utilities in California and the effects that compliance with the biological opinions issued by the FWS and NMFS would have upon CVP operations.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Dated: March 19, 2002.

Frank Michny,

Regional Environmental Officer, Mid-Pacific Region, Bureau of Reclamation.

Dated: March 19, 2002.

Mary Ellen Mueller,

Fisheries Supervisor, California and Nevada Operations Office, Fish and Wildlife Service.

BILLING CODE 4310–MN–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA–067–02–1610–JP–064B]

Notice of Intent To Prepare an Amendment to the California Desert Conservation Area Plan

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to prepare an amendment to the California Desert Conservation Area (CDCA) Plan and Environmental Assessment (EA) in the Western Colorado section of Imperial County, CA.

SUMMARY: Pursuant to 43 CFR 1610.2(c), notice is hereby given that the Bureau of Land Management proposes to amend the CDCA Plan, as amended in 1980. The proposed amendment will establish or revise designations of areas and trails for off-road vehicles in accordance with 43 CFR part 8342. The proposals will pertain to public lands addressed by the California Desert Conservation Area Plan in Imperial County that lie west of the Southern Pacific Railroad and the Chocolate Mountain Gunnery Range (excluding the Imperial Sand Dunes) and the western boundary of the CDCA in San Diego County, California. The proposed plan amendment will include an EA in accordance with the National Environmental Policy Act and CFR 1610.5–5.

DATES: The public is invited to submit comments on the scope of the plan amendment and EA. Written comments will be accepted until May 17, 2002. Two (2) public meetings California area. The times and places for meetings will be published in the Imperial Valley Press and the Yuma Daily Sun.

ADDRESSES: Comments should be sent to Greg Thomsen, Field Manager, Bureau of Land Management, El Centro Field Office, 1661 South 4th Street, El Centro, CA 92243–4561. Comments, including names and addresses of respondents, will be available for public review at the El Centro Field Office during normal working hours (7:45 AM to 4:30 PM, except holidays), and may be published as part of the EA or other related documents. Individuals may request confidentiality. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must state this promptly at the beginning of your comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses will be made available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: Arnold F. Schoeck, Lead Outdoor Recreation Planner, at the above address, telephone number (760) 337–4441, or e-mail at Arnold_Schoeck.ca.blm.gov.

SUPPLEMENTARY INFORMATION: Public input from previous public meetings and written comments in response to previous designations efforts will be used to define issues. Preliminary issues identified include: providing for off-highway vehicle use; providing adequate vehicle access for other casual uses; visitor safety; providing protection for Peninsular Bighorn Sheep and Flat-tailed Horned Lizards; and homeland defense (*i.e.*, US-Mexican Border issues).

Planning criteria will include honoring valid existing rights. The CDCA amendment will be consistent with officially approved resource related plans, policies and programs of other Federal agencies, State and local governments, and Indian Tribes. The proposed route of travel designation changes to the CDCA Plan requires a formal plan amendment before the designation changes can be implemented. The amendment process and ORV trail designations shall be conducted in compliance with the Federal Land Policy Management Act of 1976 (FLPMA), planning regulations (43 CFR part 1600), ORV trail designation regulations (43 CFR part 8340), BLM manual guidance, and all applicable Federal laws affecting BLM land use decisions and ORV designations. The planning process shall include an EA with a biological evaluation prepared in compliance with the National Environmental Policy Act of 1969 (NEPA), the President's Council of Environmental Quality (CEQ) regulations (40 CFR part 1500), and Bureau guidance.

The Bureau intends to rely largely on existing route inventory data, information obtained from coordination with other federal, state, and local agencies, and consultation with Indian tribes, and public comments.

Three alternatives are anticipated to be: (1) A No Action Alternative that will maintain the existing designations. (2) The Updated Designation Alternative that will propose the designation changes identified in the previous update effort (1997). (3) A Protection Alternative that will propose additional seasonal closures and route closures in addition to changes in the Updated Designation Alternative.

Dated: March 15, 2002.

Greg Thomsen,

Field Manager.

Public Land Order No. 7519; Withdrawal of National Forest System Land To Protect the White King/Lucky Lass Mine Reclamation Project Area; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order withdraws 40 acres of National Forest System land from location and entry under the United States mining laws until August 8, 2013, to protect the White King/Lucky Lass Mine reclamation project area. The land has been and will remain open to such forms of disposition as may by law be made of National Forest System land and to mineral leasing.

EFFECTIVE DATE: March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Richard A. Woodward, Fremont National Forest, HC 10 Box 337, Lakeview, Oregon 97630, 541–947–2151.

SUPPLEMENTARY INFORMATION: By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1994), it is ordered as follows:

1. Subject to valid existing rights, the following described National Forest System land is hereby withdrawn from location or entry under the United States mining laws (30 U.S.C. Ch. 2 (1994)), to protect reclamation work on the White King/Lucky Lass Mine area:

Willamette Meridian

Fremont National Forest
T. 37 S., R. 19 E.,
Sec. 30, NW¼NE¼.

The area described contains 40.00 acres in Lake County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of National Forest System land under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

3. This withdrawal will expire on August 8, 2013, unless, as a result of a review conducted before the expiration date pursuant to section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f) (1994), the Secretary determines that the withdrawal shall be extended.

Dated: March 13, 2002.

Rebecca W. Watson,

Assistant Secretary.

Cape Cod National Seashore, South Wellfleet, MA; Cape Cod National Seashore Advisory Committee Two Hundred Thirty Seventh Meeting; Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770, 5 U.S.C. App 1, section 10), that a meeting of the Cape Cod National Seashore Advisory Commission will be held on Friday, April 26, 2002.

The Commission was reestablished pursuant to Public Law 87–126 as amended by Public Law 105–280. The purpose of the Commission is to consult with the Secretary of the Interior, or his designee, with respect to matters relating to the development of Cape Cod National Seashore, and with respect to carrying out the provisions of sections 4 and 5 of the Act establishing the Seashore.

The Commission members will meet at 1 p.m. at Headquarters, Marconi Station, Wellfleet, Massachusetts for the regular business meeting to discuss the following:

1. Adoption of Agenda
2. Approval of minutes of previous meeting (February 1, 2002)
3. Reports of Officers
4. Reports of Subcommittees
   Dune Shacks
   Nickerson Fellowship
5. Superintendent's Report
   News from Washington
   PWC Update
   Zoning Standards
   Highlands Center
   Doane Road Environmental Assessment Public Comment
6. Old Business
   Pheasant Hunting
7. New Business
8. Date and agenda for next meeting
9. Public comment and
10. Adjournment

The meeting is open to the public. It is expected that 15 persons will be able to attend the meeting in addition to Commission members.

Interested persons may make oral/written presentations to the Commission during the business meeting or file written statements. Such requests should be made to the park superintendent at least seven days prior to the meeting. Further information concerning the meeting may be obtained from the Superintendent, Cape Cod National Seashore, 99 Marconi Site Road, Wellfleet, MA 02667.

Dated: February 11, 2002.

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the American Museum of Natural History, New York, NY

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the American Museum of Natural History, New York, NY.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by American

VOL 67 ISS 57 MR 25 2002 UMI

Museum of Natural History professional staff in consultation with representatives of the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah.

In 1921, human remains representing a minimum of one individual were collected by Charles L. Bernheimer and Earl Morris from the vicinity of Long Hollow, La Plata River, La Plata County, CO, during an expedition sponsored by the American Museum of Natural History. No known individual was identified. No associated funerary objects are present.

This individual has been identified as Native American based on the American Museum of Natural History's documentation, which refers to these remains as "Ute." These human remains originate from an area utilized by Ute bands during the postcontact period.

Based on the above-mentioned information, officials of the American Museum of Natural History have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of a minimum of one individual of Native American ancestry. Officials of the American Museum of Natural History also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah.

This notice has been sent to officials of the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Elaine Guthrie, Acting Director of Cultural Resources, American Museum of Natural History, Central Park West at 79th Street, New York, NY 10024-5192, telephone (212) 769-5835, before April 24 2002. Repatriation of the human remains to the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah may begin after that date if no additional claimants come forward.

Dated: February 5, 2002.

DEPARTMENT OF THE INTERIOR

National Park Service

CORRECTION—Notice of Inventory Completion for Native American Human Remains in the Control of the Arizona State Office, Bureau of Land Management, Phoenix, AZ

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the control of the Arizona State Office, Bureau of Land Management, Phoenix, AZ.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

This notice corrects the list of culturally affiliated groups cited in the Notice of Inventory Completion published July 21, 2000. The list of culturally affiliated groups for four of the sites listed in the original notice is corrected by adding the following group: Hopi Tribe of Arizona. These four sites are AZ T:13:9(ASM), AZ EE:1:154(ASM), AZ EE:1:155(ASM), and AZ EE:1:9:107(ASM).

Paragraphs 21 and 22 of the July 21, 2000, notice are corrected by substituting the following paragraphs:

Continuities of ethnographic materials, technology, and architecture indicate affiliation of sites AZ T:13:9(ASM), AZ EE:1:154(ASM) and AZ EE:1:155(ASM) with present-day Piman and O'odham cultures, and the **Hopi Tribe of Arizona**. Oral traditions presented by representatives of the Ak-Chin Indian Community of the Maricopa (Ak-Chin) Indian Reservation, Arizona; the Gila River Indian Community of the Gila River Indian Reservation, Arizona; **Hopi Tribe of Arizona**; the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; the Tohono O'odham Nation of Arizona support affiliation with Hohokam sites in southern Arizona.

Based on the above-mentioned information, officials of the Bureau of Land Management have determined that, pursuant to 43 CFR 10.2(d)(1), the human remains listed above represent the physical remains of eight individuals of Native American ancestry. Officials of the Bureau of Land Management have also determined that, pursuant to 43 CFR 10.2 (d)(2), the 32 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Bureau of Land Management have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and associated funerary objects and the Ak-Chin Indian Community of the Maricopa (Ak-Chin) Indian Reservation, Arizona; the Gila River Indian Community of the Gila River Indian Reservation, Arizona; **Hopi Tribe of Arizona**; the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; and the Tohono O'odham Nation of Arizona.

Paragraphs 29, 30, 31, 32, 33 and 34 of the July 21, 2000, notice are corrected by substituting the following eight paragraphs for this section of the published notice. For clarity, paragraphs 29, 30 and 31, 32 are republished unchanged, although their positions in the notice are altered. The cultural affiliation for site AZ EE:4:9 (BLM) has not changed.

In 1987, human remains representing three individuals were recovered during legally authorized salvage excavations of site AZ EE:9:107(ASM) in Nogales, AZ. No known individuals were identified. No associated funerary object are present.

Based on ceramics and architecture, site AZ EE:9:107(ASM) was identified as a Hohokam village dating to A.D. 700-1200.

Continuities of ethnographic materials, technology, and architecture indicate affiliation of site AZ EE:9:107(ASM) with present-day Piman and O'odham cultures **and the Hopi Tribe of Arizona**. Oral traditions presented by representatives of the Ak-Chin Indian Community of the Maricopa (Ak-Chin) Indian Reservation, Arizona; the Gila River Indian Community of the Gila River Indian

Reservation, Arizona; **the Hopi Tribe of Arizona**; the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; and the Tohono O'odham Nation of Arizona support affiliation with Hohokam sites in southern Arizona.

Based on the above-mentioned information, officials of the Bureau of Land Management have determined that, pursuant to 43 CFR 10.2(d)(1), the human remains listed above represent the physical remains of **three** individuals of Native American ancestry. Officials of the Bureau of Land Management also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Ak-Chin Indian Community of the Maricopa (Ak-Chin) Indian Reservation, Arizona; the Gila River Indian Community of the Gila River Indian Reservation, Arizona; **the Hopi Tribe of Arizona**; the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; and the Tohono O'odham Nation of Arizona.

In 1988, human remains representing two individuals were recovered during legally authorized salvage excavations of site AZ EE:4:9(BLM) along the San Pedro River near Fairbank, AZ. No known individuals were identified. No associated funerary objects are present.

Based on artifacts and site organization, site AZ EE:4:9(BLM) was identified as Sobaipuri.

Continuities of ethnographic materials, technology, and architecture indicate affiliation of site AZ EE:4:9(BLM) with present-day Piman and O'odham cultures. Oral traditions presented by representatives of the Ak-Chin Indian Community of the Maricopa (Ak-Chin) Indian Reservation, Arizona; the Gila River Indian Community of the Gila River Indian Reservation, Arizona; the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; and the Tohono O'odham Nation of Arizona support affiliation with Sobaipuri sites in southern Arizona.

Based on the above-mentioned information, officials of the Bureau of Land Management have determined that, pursuant to 43 CFR 10.2(d)(1), the human remains listed above represent the physical remains of **two** individuals of Native American ancestry. Officials of the Bureau of Land Management also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Ak-Chin Indian Community of the Maricopa (Ak-Chin) Indian Reservation, Arizona; the Gila River Indian Community of the Gila River Indian Reservation, Arizona; the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; and the Tohono O'odham Nation of Arizona.

This notice has been sent to officials of the Hopi Tribe of Arizona; the Zuni Tribe of the Zuni Reservation, New Mexico; the Navajo Nation, Arizona, New Mexico and Utah; the Yavapai-Prescott Tribe of the Yavapai Reservation, Arizona; the Kaibab Band of Paiute Indians of the Kaibab Indian Reservation, Arizona; the Ak-Chin Indian Community of the Maricopa (Ak-Chin) Indian Reservation, Arizona; the Gila River Indian Community of the Gila River Indian Reservation, Arizona; the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona; the Tohono O'odham Nation of Arizona; the Fort Mohave Indian Tribe of Arizona, California and Nevada; and the Colorado River Indian Tribes of the Colorado River Indian Reservation, Arizona and California. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Gary Stumpf, Bureau of Land Management, Arizona State Office, 222 N. Central Avenue, Phoenix, AZ 85004, telephone (602) 417-9509, before April 24, 2002. Repatriation of the human remains and associated funerary objects to the respective culturally affiliated Indian tribes may begin after that date if no additional claimants come forward.

Dated: February 8, 2002.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Louisiana Department of Culture, Recreation, and Tourism, Division of Archaeology, Baton Rouge, LA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given under the Native American Graves Protection and Repatriation Act, 43 CFR 10.10 (a)(3), of the intent to repatriate cultural items in the possession of the Louisiana State Division of Archaeology, Baton Rouge, LA, that meet the definition of "unassociated funerary object" under Section 2 of the Act.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these cultural items. The National Park Service is not responsible for the determinations within this notice.

The 49 cultural items are complete pottery vessels.

At an unknown date prior to 1985, Roy Pohler purchased these vessels from unknown sources. Museum records indicate that 36 pots were removed from locations in Clark County, AR; 5 pots were removed from the Bowman site, on the Little River, Clark County, AR; 2 pots were removed from Murfreesboro, Pike County, AR; 2 pots were removed from Pike County, AR; 1 pot was removed from Broken Bow, McCurtain County, OK; and 3 pots have no provenience. In 1985, Mr. Pohler donated the pottery vessels to the Louisiana Department of Culture, Recreation, and Tourism, Division of Archaeology.

Consultations with representatives of the Caddo Indian Tribe of Oklahoma and professional staff at the Louisiana Division of Archaeology and Louisiana State University indicate that, based on stylistic attributes, the ceramic vessels are culturally affiliated with the archaeological Caddo culture. The vessels date to the 16th century. The present day descendants of the Caddo people in Arkansas are the Caddo Indian Tribe of Oklahoma.

Because the Caddo are known to have buried their dead along with whole vessels, these pots are considered to be unassociated funerary objects. Based on the above-mentioned information, officials of Louisiana Division of Archaeology have determined that, pursuant to 43 CFR 10.2 (d)(2)(ii), these cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual. Officials of the Louisiana Division of Archaeology also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these unassociated funerary objects and the Caddo Indian Tribe of Oklahoma.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Milwaukee Public Museum, Milwaukee, WI

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Milwaukee Public Museum, Milwaukee, WI.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by Milwaukee Public Museum professional staff and contract specialists in physical anthropology in consultation with representatives of the Zuni Tribe of the Zuni Reservation, New Mexico, and the Hopi Tribe of Arizona.

At an unknown date, human remains representing one individual were removed from a grave in an unknown location near Frisco, Catron County, NM, by an unknown person. These human remains were donated to the Milwaukee Public Museum by Mary E. Stewart in 1899. Ms. Stewart also donated human hair, believed to be from the same individual, to the Milwaukee Public Museum in 1901. No known individual was identified. No associated funerary objects are present.

While the exact age of the remains cannot be determined from existing evidence, cranial deformation associated with the use of hard cradleboards was noted and suggests a post-AD 700 date.

Based on cranial morphology and dental traits, these human remains are identified as Native American. Consultation evidence provided by representatives of the Zuni Tribe of the Zuni Reservation, New Mexico, and the Hopi Tribe of Arizona indicates that the geographical location of the burial is consistent with the traditional territories of the Zuni and Hopi peoples. Both groups claim descent from the archeologically defined Anasazi culture in Catron County, NM.

Based on the above-mentioned information, officials of the Milwaukee Public Museum have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the Milwaukee Public Museum also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Zuni Tribe of the Zuni Reservation, New Mexico, and the Hopi-Tribe of Arizona.

This notice has been sent to officials of the Zuni Tribe of the Zuni Reservation, New Mexico, and the Hopi Tribe of Arizona. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Dr. Alex Barker, Anthropology Section Head, Milwaukee Public Museum, 800 West Wells Street, Milwaukee, WI 53233, telephone (414) 278-2786, before April 24, 2002. Repatriation of the human remains to the Zuni Tribe of the Zuni Reservation, New Mexico, and the Hopi Tribe of Arizona may begin after that date if no additional claimants come forward.

Dated: February 7, 2002.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent to Repatriate a Cultural Item in the Possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given under the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.10 (a)(3), of the intent to repatriate a cultural item in the possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA, that meets the definition of "unassociated funerary object" under Section 2 of the Act.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of this cultural item. The National Park Service is not responsible for the determinations within this notice.

The cultural item is one headdress made of metal, copper, leather, and fiber.

In 1886, a "Tlingit" headdress was recovered from a "shaman's grave," on Baranof Island, 17 miles from Sitka, AK, by Walter G. Chase, who donated the cultural item to the Peabody Museum of Archaeology and Ethnology in 1891.

Peabody Museum documentation indicates that this cultural item is Tlingit. Research and consultation with the Sealaska Corporation on behalf of the Kiks.adi Clan has indicated that this headdress (identified as Kiks.adi Ixt' Shaadaa) was recovered from an area considered to be the traditional territory of the Kiks.adi Clan, a Raven Clan of Tlingit people, who are represented by the Sealaska Corporation.

Based on the above-mentioned information, officials of the Peabody Museum of Archaeology and Ethnology have determined that, pursuant to 43 CFR 10.2 (d)(2)(ii), this one cultural item is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and is believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual. Officials of the Peabody Museum of Archaeology and Ethnology also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between this cultural item and the Kiks.adi Clan of Tlingit people, who are represented by the Sealaska Corporation.

This notice has been sent to officials of the Angoon Community Association; Central Council of the Tlingit & Haida Indian Tribes; Kake Tribal Council; Petersburg Indian Association; Sealaska Corporation; Shaan Set, Inc.; and the Sitka Tribe of Alaska. Representatives of any other Indian tribe that believes itself to be culturally affiliated with this unassociated funerary object should contact Patricia Capone, Repatriation Coordinator, Peabody Museum of Archaeology and Ethnology, Harvard, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-3702, before April 24, 2002. Repatriation of this unassociated funerary object to the Sealaska Corporation on behalf of the Kiks.adi Clan may begin after that date if no additional claimants come forward.

Dated: February 5, 2002.

Robert Stearns,

Manager, National NAGPRA Program.

BILLING CODE 4310–70–S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of human remains was made by Peabody Museum of Archaeology and Ethnology professional staff in consultation with representatives of the Aleut Corporation; Aleutian/Pribilof Islands Association Inc.; Chaluka Corporation; and the Native Village of Nikolski, which is represented by the Nikolski IRA Council.

In 1874, human remains representing one individual were collected from Kagamil Island, AK, by Captain Hennings of the Alaska Commercial Company. These human remains were donated to the Peabody Museum of Archaeology and Ethnology by the Alaska Commercial Company through the Smithsonian Institution in 1875. No known individual was identified. No associated funerary objects are present.

Museum documentation and published sources describe the human remains as an "Aleut" and date them to the 18th century. Historical documents and consultation information indicate that the Native Village of Nikolski, which is today represented by the Nikolski IRA Council and the Chaluka Corporation, occupied the area where the human remains were collected during the 18th century.

Based on the above-mentioned information, officials of the Peabody Museum of Archaeology and Ethnology have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the Peabody Museum of Archaeology and Ethnology also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Native Village of Nikolski, which is represented by the Nikolski IRA Council and the Chaluka Corporation.

This notice has been sent to officials of the Aleut Corporation; Aleutian/Pribilof Islands Association, Inc.; the Native Village of Nikolski; the Nikolski IRA Council; and the Chaluka Corporation. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Patricia Capone, Repatriation Coordinator, Peabody Museum of Archaeology and Ethnology, Harvard University, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-3702, before April 24, 2002. Repatriation of the human remains to the Native Village of Nikolski, which is represented by the Nikolski IRA Council and the Chaluka Corporation, may begin after that date if no other additional claimants come forward.

Dated: February 5, 2002.

Robert Stearns,

Manager, National NAGPRA Program.

BILLING CODE 4310–70–S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of human remains was made by Peabody Museum of Archaeology and Ethnology professional staff in consultation with representatives of the Aleut Corporation; Aleutian/Pribilof Islands Association, Inc.; Ounalashka Corporation; and the Qawalangin Tribe of Unalaska.

In 1872, human remains representing one individual were collected from the Amaknak Spit site, Dutch Harbor, Unalaska, AK, by William H. Dall, who donated these human remains to the Peabody Museum of Archaeology and Ethnology that same year. No known individual was identified. No associated funerary objects are present.

In 1886, human remains representing one individual were collected from a cave at Unalaska, AK, by Alice C. Fletcher, who donated these human remains to the Peabody Museum of Archaeology and Ethnology in 1887. No

VOL
67
ISS
57
MR
25
2002
UMI

known individual was identified. No associated funerary objects are present.

Peabody Museum of Archaeology and Ethnology documentation describes both of these sets of human remains as "Aleut." Historical documents and consultation information indicate that the Qawalangin Tribe of Unalaska, which is today represented by the Ounalashka Corporation, has traditionally occupied the area of the Aleutian Islands from which the human remains were collected.

Based on the above-mentioned information, officials of the Peabody Museum of Archaeology and Ethnology have determined that, pursuant to 43 CFR 10.2 (d) (1), the human remains listed above represent the physical remains of two individuals of Native American ancestry. Officials of the Peabody Museum of Archaeology and Ethnology also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Qawalangin Tribe of Unalaska, which is represented by the Ounalashka Corporation.

This notice has been sent to officials of the Aleut Corporation; Aleutian/Pribilof Islands Association, Inc.; Ounalashka Corporation; and the Qawalangin Tribe of Unalaska. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Patricia Capone, Repatriation Coordinator, Peabody Museum of Archaeology and Ethnology, Harvard University, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-3702, before April 24, 2002. Repatriation of the human remains to the Qawalangin Tribe of Unalaska, which is represented by the Ounalashka Corporation, may begin after that date if no additional claimants come forward.

Dated: February 5, 2002.

BILLING CODE 4310–70–S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of human remains was made by the Peabody Museum of Archaeology and Ethnology professional staff in consultation with representatives of the Bering Straits Native Corporation, the Unalakleet Native Corporation, and the Native Village of Unalakleet.

In 1869, human remains representing one individual were collected from Norton Sound, AK, by William H. Dall, who donated these human remains to the Peabody Museum of Archaeology and Ethnology in the same year. No known individual was identified. No associated funerary objects are present.

Peabody Museum of Archaeology and Ethnology documentation describes the remains as "Unaleet [sic], Eskimo." Given the proximity of Norton Sound to the village of Unalakleet, the human remains are probably from Unalakleet. Historical documents and consultation information indicate that the Native Village of Unalakleet has traditionally occupied the area from which the human remains were collected.

Based on the above-mentioned information, officials of the Peabody Museum of Archaeology and Ethnology have determined that, pursuant to 43 CFR 10.2 (d) (1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the Peabody Museum of Archaeology and Ethnology also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Native Village of Unalakleet.

This notice has been sent to officials of the Native Village of Unalakleet, Unalakleet Native Corporation, and Bering Straits Native Corporation. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Patricia Capone, Repatriation Coordinator, Peabody Museum of Archaeology and Ethnology, Harvard University, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-3702, before April 24, 2002. Repatriation of the human remains to the Native Village of Unalakleet may begin after that date if no additional claimants come forward.

Dated: February 5, 2002.

BILLING CODE 4310–70–S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent to Repatriate a Cultural Item in the Possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given under the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.10 (a)(3), of the intent to repatriate a cultural item in the possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA, that meets the definition of "unassociated funerary object" under Section 2 of the Act.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of this cultural item. The National Park Service is not responsible for the determinations within this notice.

The cultural item is one beaded blanket fragment.

This object was purchased on behalf of William Claflin by Mrs. D. F. Craig, who lived near Fort Sill, OK, from 1922 to 1925. In 1985, the object was bequeathed to the Peabody Museum of Archaeology and Ethnology as part of the William Claflin Collection.

Peabody Museum of Archaeology and Ethnology records indicate that the object "was bought by Mrs. Craig from an Indian Trader near Ft. Sill who claimed it had been taken from a grave" and that the grave was that of a "Comanche?" individual. Based on the specific cultural affiliation suggested by the collector, as noted in museum records, this burial was most likely a Comanche burial from the historic period. This unassociated funerary object originated in a region historically occupied by the Comanche, Apache, and Kiowa tribes. Therefore, the preponderance of historical, geographic, and archaeological evidence indicates that a reasonable link of shared group identity can be made between this unassociated funerary object and the Comanche Indian Tribe, Oklahoma.

Based on the above-mentioned information, officials of the Peabody Museum of Archaeology and Ethnology have determined that, pursuant to 43 CFR 10.2 (d)(2)(ii), this cultural item is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and is believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual. Officials of the Peabody Museum of Archaeology and Ethnology also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between this cultural item and the Comanche Indian Tribe, Oklahoma.

This notice has been sent to officials of the Apache Tribe of Oklahoma; Fort Sill Apache Tribe of Oklahoma; Comanche Indian Tribe, Oklahoma; and Kiowa Indian Tribe of Oklahoma. Representatives of any other Indian tribe that believes itself to be culturally affiliated with this unassociated funerary object should contact Patricia Capone, Repatriation Coordinator, Peabody Museum of Archaeology and Ethnology, Harvard, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-3702, before April 24, 2002. Repatriation of this unassociated funerary object to the Comanche Indian Tribe, Oklahoma may begin after that date if no additional claimants come forward.

Dated: February 5, 2002.

Robert Stearns,

Manager, National NAGPRA Program.

BILLING CODE 4310–70–S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by the Peabody Museum of Archaeology and Ethnology professional staff in consultation with officials of the Wampanoag Repatriation Confederation, representing the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag Indian Tribe (a nonfederally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a nonfederally recognized Indian group).

In 1936, human remains representing one individual from Nantucket, MA, were donated to the Peabody Museum by Miss Harwood of the Nantucket Observatory Astronomy Laboratory. The remains were recovered by an unknown collector at an unknown date. No known individual was identified. No associated funerary objects are present.

Osteological characteristics indicate that the individual is Native American. This interment most likely dates to the late Woodland period or later (post-A.D. 1000). Based on a compilation of radiocarbon-dated human remains from Nantucket by the Nantucket Historical Society, it is likely that these human remains are not older than 1,000 years. To date, no radiocarbon dates for human remains from Nantucket are earlier than circa A.D. 1000. According to archeological evidence and oral tradition, the island of Nantucket is located within the traditional territory of the Wampanoag Nation during the late Woodland period. The present-day tribes that are most closely affiliated with members of the Wampanoag Nation are the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag Indian Tribe (a nonfederally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a nonfederally recognized Indian group).

In 1941, human remains representing one individual from the Hughes site, Nantucket, MA, were recovered by Arthur F. Hughes. The human remains were donated to the Peabody Museum of Archaeology and Ethnology through Edward Brooks of the Massachusetts Archaeological Society the same year. No known individual was identified. No associated funerary objects are present.

According to museum documentation, ceramic sherds, a broken bone awl, a bent ceramic pipe stem, and a probable Levanna-style triangular projectile point were found in association with the human remains, but are not in the possession of the Peabody Museum of Archaeology and Ethnology.

These human remains were found in a traditional Native American-style burial context, with the head oriented to the northeast and the face to the east. This interment most likely dates to the late Woodland period or later (post-A.D. 1000). Based on a compilation of radiocarbon-dated human remains from Nantucket by the Nantucket Historical Society, it is likely that these human remains are not older than 1,000 years. To date, no radiocarbon dates for human remains from Nantucket are earlier than circa A.D. 1000. Attributed dates of the stylistic characteristics of the funerary objects from the Hughes site are consistent with this radiocarbon information. Native ceramic pipes with bent stems are identified initially during the middle Woodland period (circa A.D. 1), but are most strongly associated with the late Woodland period and later (post-A.D. 1000) in New England. Levanna-style projectile points date to the middle Woodland period and later in the New England area (post-A.D. 1). According to archeological evidence and oral tradition, the Hughes site is located within the traditional territory of the Wampanoag Nation during the late Woodland period. The present-day tribes that are most closely affiliated with members of the Wampanoag Nation are the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag Indian Tribe (a nonfederally recognized Indian group), and the Assonet Band of the

VOL
67
ISS
57
MR
25
2002
UMI

Wampanoag Nation (a nonfederally recognized Indian group).

In 1956, human remains representing two individuals from Nantucket, MA, were donated to the Peabody Museum of Archaeology and Ethnology by the Robert S. Peabody Museum, Andover, MA. These human remains had been collected by Alfred Shurrocks and his wife in 1935, who then donated them to the Robert S. Peabody Museum. No known individuals were identified. No associated funerary objects are present.

Osteological characteristics indicate that the human remains are Native American. Based on a compilation of radiocarbon-dated human remains from Nantucket by the Nantucket Historical Society, it is likely that these human remains are not older than 1,000 years. To date, no radiocarbon dates for human remains from Nantucket are earlier than circa A.D. 1000. According to archeological evidence and oral tradition, the island of Nantucket is located within the traditional territory of the Wampanoag Nation during the late Woodland period. The present-day tribes that are most closely affiliated with members of the Wampanoag Nation are the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag Indian Tribe (a nonfederally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a nonfederally recognized Indian group).

In 1959, human remains representing one individual from Nantucket, MA, were permanently loaned to the Peabody Museum of Archaeology and Ethnology by the Warren Anatomical Museum at the Harvard Medical School. These human remains may have been collected by J.M. Warren at an unknown date because they are from the J.M. Warren collection, which was assembled by Mr. Warren himself. No known individual was identified. No associated funerary objects are present.

Osteological characteristics indicate that the human remains are Native American. This interment most likely dates to the historic/contact period (post-A.D. 1500). The pattern of copper stains present on the cranial remains indicates that they were interred some time after European contact. Also, based on a compilation of radiocarbon-dated human remains from Nantucket by the Nantucket Historical Society, it is likely that these human remains are not older than 1,000 years. To date, no radiocarbon dates for human remains from Nantucket result earlier than circa A.D. 1000. Oral tradition and historic documentation indicate that the island of Nantucket is within the aboriginal and historic homeland of the Wampanoag Nation during the late Woodland period. The present-day tribes that are most closely affiliated with members of the Wampanoag Nation are the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag Indian Tribe (a nonfederally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a nonfederally recognized Indian group).

Based on the above-mentioned information, officials of the Peabody Museum of Archaeology and Ethnology have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of five individuals of Native American ancestry. Officials of the Peabody Museum of Archaeology and Ethnology have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Wampanoag Tribe of Gay Head (Aquinnah), and that there is a cultural relationship between these Native American human remains and the Mashpee Wampanoag Indian Tribe (a nonfederally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a nonfederally recognized Indian group).

This notice has been sent to officials of the Wampanoag Repatriation Confederation, the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag Indian Tribe, and the Assonet Band of the Wampanoag Nation. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary object should contact Patricia Capone, Repatriation Coordinator, Peabody Museum of Archaeology and Ethnology, Harvard University, 11 Divinity Avenue, Cambridge, MA 02138, telephone (617) 496-3702, before April 24, 2002. Repatriation of these human remains to the Wampanoag Repatriation Confederation on behalf of the Wampanoag Tribe of Gay Head (Aquinnah), the Mashpee Wampanoag Indian Tribe (a nonfederally recognized Indian group), and the Assonet Band of the Wampanoag Nation (a nonfederally recognized Indian group), may begin after that date if no additional claimants come forward.

Dated: February 12, 2002.

Robert Stearns,

Manager, National NAGPRA Program.

[FR Doc. 02–7013 Filed 3–22–02; 8:45 am]

BILLING CODE 4310–70–S

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Freeport Regional Water Project, Sacramento River, CA

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of Intent to prepare an Environmental Impact Statement/ Environmental Impact Report.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969 as amended, Reclamation proposes to participate in a joint Environmental Impact Statement/Environmental Impact Report (EIS/EIR) on the Freeport Regional Water Project (FRWP). The FRWP is being proposed by the Freeport Regional Water Authority (FRWA), a joint powers agency formed by the Sacramento County Water Agency (SCWA) and East Bay Municipal Utility District (EBMUD) to make use of Central Valley Project (CVP) contract and other water supplies, reduce rationing during droughts, reduce groundwater overdraft in Sacramento County, and to increase water service reliability for customers. The FRWP would enable Reclamation to meet delivery obligations under its water supply contracts with SCWA and EBMUD. The FRWA will be the lead agency under the California Environmental Quality Act (CEQA). The City of Sacramento will serve as a responsible agency under CEQA.

DATES: Reclamation and the Joint Powers Authority will seek public input on alternatives, concerns, and issues to be addressed in the EIS/EIR through scoping meetings in March. The schedule and locations of the scoping meetings are as follows:

- Monday, April 8, 2002, 6:30–8:30 p.m, Oakland, CA
- Thursday, April 11, 2002, 6:30–8:30 p.m., Sacramento, CA (Freeport)
- Monday, April 15, 2002, 6:30–8:30 p.m., Sacramento, CA (Meadowview)
- Thursday, April 18, 2002, 6:30–8:30 p.m, Herald, CA

Written comments on the scope of alternatives and impacts to be considered should be sent to the Freeport Regional Water Project at the address below by May 2, 2002. Reclamation estimates that the draft EIS/EIR will be available for public review in the summer of 2002.

ADDRESSES: The meeting locations are:

- Oakland at the EBMUD Training Room, 375 11th Street, 2nd Floor
- Sacramento at the Bartley Cavanaugh Golf Course, 8301 Freeport Boulevard
- Sacramento at the Meadowview Community Center, 2450 Meadowview Road
- Herald at the Herald Fire Department, Hendrickson Hall, 127 Ivie Road

Written comments on the project scope should be sent to Freeport Regional Water Project, c/o Gregg Ellis, 2600 V Street, Sacramento, CA 95818.

FOR FURTHER INFORMATION CONTACT: Rob Schroeder at 7794 Folsom Dam Road, Folsom California, 95630, telephone number (916) 989–7274.

SUPPLEMENTARY INFORMATION: SCWA provides water to two separate retail service areas within the unincorporated areas of central Sacramento County, SCWA Zone 41, and Elk Grove Water Service on the east side of the City of Elk Grove. SCWA is responsible for providing water supplies and facilities throughout these areas including the Laguna, Vineyard, Elk Grove and Mather Field communities through a capital funding zone known as "Zone 40". The long-term master plan for Zone 40 envisions meeting present and future water needs through a program of conjunctive use of groundwater and surface water. SCWA presently has a CVP entitlement of 22,000 acre-feet. Water for SCWA is currently delivered through the City of Sacramento's intake and treatment facilities, based on SCWA need and available City capacity. These and additional water supplies are expected to be conveyed through the FRWP.

EBMUD is a multipurpose regional agency that provides water to over 1.3 million municipal and industrial water users throughout portions of Contra Costa and Alameda Counties in the East Bay region. EBMUD currently obtains most of its supply from Pardee Reservoir on the Mokelumne River, with the remainder collected from local runoff in its East Bay terminal reservoirs. On July 26, 2001, EBMUD and Reclamation entered into an amendatory CVP contract which allows EBMUD to take delivery of its CVP supply at the location known as Freeport on the Sacramento River south of downtown Sacramento subject to all applicable environmental laws and regulations.

The FRWP is intended by the Joint Powers Authority to meet the identified water delivery needs of the SCWA and EBMUD. It would also enable Reclamation to meet its CVP water delivery obligations to these agencies under existing water supply contracts with EBMUD and SCWA.

The general purposes of the Freeport Regional Water Project are to:

- Provide surface water facilities through which SCWA can deliver water to Zone 40 to support growth approved under the County of Sacramento General Plan. Water would be delivered under SCWA's CVP water supply contract with Reclamation and other anticipated CVP contract assignments, appropriated water rights, and water rights transfers;
- Provide surface water facilities through which EBMUD can deliver water under its amendatory CVP water service contract to provide EBMUD with a supplemental water supply that would reduce existing and future customer deficiencies to manageable levels during drought conditions; and
- Capitalize on the opportunity to cooperate in an endeavor that would minimize costs to each agency and minimize environmental effects by constructing joint facilities to the extent feasible.

The FRWP would also enable Reclamation to deliver water under its CVP amendatory contract with EBMUD and its contract with SCWA.

The FRWP as currently envisioned would consist of:

- An approximately 185 million gallon per day (mgd) intake/pumping facility
- A raw water pipeline to a turnout at approximately Bradshaw Road in central Sacramento County,
- A new water treatment plant in central Sacramento County to serve SCWA needs,
- A raw water pipeline connecting to the Folsom South Canal,
- A new pumping plant near the end of the Folsom South Canal,
- A pipeline from the Folsom South Canal to the Mokelumne Aqueducts,
- A new pumping and treatment facility at the Mokelumne Aqueducts to deliver water to EBMUD.

The EIS/EIR will consider a range of alternatives including the no-action alternative.

Scoping is an early and open process designed to determine the issues and alternatives to be addressed in the EIS/EIR. The following are issues that have been identified by Reclamation to date: Sacramento River fishery effects; water quality; agricultural and municipal water supply availability, and quality; construction-related effects on the Sacramento River, urban areas, and natural habitats; and, wetland, upland, and aquatic habitats.

The draft EIS/EIR will focus on the impacts and benefits of implementing the various alternatives. It will contain an analysis of the physical, biological, social, and economic impacts arising from the alternatives. In addition, it will address the cumulative impacts of implementation of the alternatives in conjunction with other past, present, and reasonably foreseeable actions.

If special assistance is required, contact Mr. Robert Schroeder at Reclamation (916) 989–7274. Please notify Mr. Schroeder as far in advance of the workshops as possible to enable Reclamation to secure the needed services. If a request cannot be honored, the requestor will be notified. A telephone device for the hearing impaired (TDD) is available at (916) 989–7285.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Dated: February 20, 2002.

Frank Michny,

Regional Environmental Officer.

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Proposed Construction of Campbell County Force Road

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Notice of application for grant funding; public comment period on request to fund the reconstruction of Campbell County Force Road.

SUMMARY: OSM is announcing its receipt of a grant application from the Wyoming Department of Environmental Quality, Abandoned Mine Land Division (AMLD). Wyoming is requesting $255,000 from the Abandoned Mine Land Reclamation Fund to pay 8.2 percent of the cost of building the Campbell County Force Road. In its application, the State proposes paying for part of the construction cost as a public facility project that will benefit a community impacted by coal mining.

2002
UMI

This notice describes when and where you may read the grant application for funding the Campbell County Force Road. It also sets the time period during which you may send written comments on the request to us.

DATES: We will accept written comments until 4:00 p.m., m.s.t. April 24, 2002.

ADDRESSES: You should mail or hand-deliver written comments to Guy V. Padgett, Casper Field Office Director, at the address shown below. You may read Wyoming's grant application for this proposed project during normal business hours Monday through Friday (excluding holidays) at the same address. Also, we will send one free copy of the grant application to you if you contact OSM's Casper Field Office. Guy V. Padgett, Director, Casper Field Office, Office of Surface Mining Reclamation and Enforcement, Federal Building, Rm. 2403, 100 East "B" Street, Casper, Wyoming 82601–1918.

FOR FURTHER INFORMATION CONTACT: Guy V. Padgett, Telephone: (307) 261–6555.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the rulemaking [or administrative] record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the rulemaking [or administrative] record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will take all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION:

I. Background on Title IV of SMCRA

Title IV of the Surface Mining Control and Reclamation Act (SMCRA) established an Abandoned Mine Land Reclamation (AMLR) program. The purpose of the AMLR program is to reclaim and restore lands and waters that were adversely affected by past mining. The program is funded by a reclamation fee paid by active coal mining operations. Lands and waters eligible for reclamation under Title IV are primarily those that were mined, or affected by mining, and abandoned or inadequately reclaimed before August 3, 1977, and for which there is no continuing reclamation responsibility under State, Federal, or other laws.

Title IV of SMCRA allows States to submit AMLR plans to us. We, on behalf of the Secretary review those plans and consider any public comments we receive about them. If we determine that a State has the ability and necessary legislation to operate an AMLR program, the Secretary can approve it. The Secretary's approval gives a State exclusive authority to put its AMLR plan into effect.

Once the Secretary approves a State's AMLR plan, the State may apply to us for money to fund specific projects that will achieve the goals of its approved plan. We follow the requirements of the Federal regulations at 30 CFR parts 874, 875, and 886 when we review and approve such applications.

II. Background on the Wyoming AMLR Plan

The Secretary of the Interior approved Wyoming's AMLR plan on February 14, 1983. You can find background information on the Wyoming AML program, including the Secretary's findings and our responses to comments, in the February 14, 1983 **Federal Register** (48 FR 6536). Wyoming changed its plan a number of times since the Secretary first approved it. In 1984, we accepted the State's certification that it had addressed all known coal-related impacts in Wyoming that were eligible for funding under its program. As a result, the State may now reclaim low priority non-coal reclamation projects. You can read about the certification and OSM's acceptance in the May 25, 1984, **Federal Register** (49 FR 22139). At the same time, we also accepted Wyoming's proposal that it will ask us for funds to reclaim any additional coal-related problems that occur during the life of the AML program as soon as it becomes aware of them. In the April 13, 1992, **Federal Register** (57 FR 12731), we announced our decision to accept other changes in Wyoming's plan that describe how it will rank eligible coal, non-coal, and public facility projects for funding. Those changes also authorized the Governor of Wyoming to elevate the priority of a project based upon the Governor's determination of need and urgency. They also expanded the State's ability to construct public facilities under section 411 of SMCRA. We approved additional changes in Wyoming's plan concerning non-coal lien authority and contractor eligibility that improved the efficiency of the State's AML program. That approval is described in the February 21, 1996, **Federal Register** (61 FR 6537).

Once a State certifies that it has addressed all remaining abandoned coal mine problems and the Secretary concurs, then it may request funds to undertake abandoned non-coal mine reclamation, community impact assistance, and public facilities projects under sections 411(b), (e), and (f), of SMCRA.

State law regulations that apply to the proposed Abandoned Coal Mine Land Program Campbell County Force Road funding request include Wyoming Statue 35–11–1202 and Wyoming Abandoned Mine Land Regulations, Chapter VII, of the Wyoming Abandoned Mine Program.

III. Wyoming's Request To Fund the Cost of the Campbell County Force Road

The Wyoming Department of Environmental Quality will submitted to us a grant application in the fall of 2003. In that application, Wyoming will ask for $255,000 to pay for a part of the cost of constructing the Campbell County Force Road. This is 8.2 percent of the estimated cost of the project. The Governor of Wyoming certified the need and urgency to fund this project prior to completing the State's remaining inventory of non-coal reclamation work, as allowed by section 411(f) of SMCRA. that certification says the project is in a community impacted by coal mining activities. Campbell County will provide the balance of funding from county reserves, and may seek additional grant funding for future phases of the project.

This project will allow the realignment of a hazardous secondary road to reduce dangerous 90 degree curves which are public safety hazards. The Governor's certification states that the safety hazards impacting the Campbell County Force Road warrant funding of this project before the remaining inventory of non-coal projects are completed.

IV. How We Will Review Wyoming's Grant Application

We will review the grant application using regulations at 30 CFR 875.15; specifically subsections 875.15(e)(1) through (7). As stated in those regulations, the application must include the following information: (1) The need or urgency for the activity or the construction of the public facility; (2) the expected impact the project will have on Wyoming's coal or minerals industry; (3) the availability of funding from other sources and, if other funding is provided, its percentage of the total cost involved; (4) documentation from other local, State, Federal agencies with oversight for such utilities or facilities describing what funding they have available and why their agency is not fully funding this specific project; (5) the impact on the State, the public, and the minerals industry if the facility is not funded; (6) the reason why this project should be selected before the priority projects relating to the protection of public health and safety or the environment from the damages caused by past mining activities, and (7) an analysis and review of the procedures Wyoming used to notify and involve the public in this request, and a copy of all comments received and their resolution by the State. Wyoming's application for the Campbell County Force Road project contains the information described in these seven subsections.

Section 875.15(f) requires us to evaluate all comments we receive and determine whether the funding meets the requirements of sections 875.15(e)(1) through (7) described above. It also requires us to determine if the request is in the best interests of the State's AML program. We will approve Wyoming's request to fund this project if we conclude that it meets all the requirements of 30 CFR 875.15.

V. What To Do if You Want To Comment on the Proposed Project

We are asking for public comments on Wyoming's request for funds to pay for part of the cost of reconstructing the Campbell County Force Road. You are welcome to comment on the project. If you do, please send us written comments. Make sure your comments are specific and pertain to Wyoming's funding request in the context of the regulations at 30 CFR 875.15 and the provisions of section 411 of SMCRA. You should explain any recommendations you make. If we receive your comments after the time shown under **DATES** or at locations other than the Casper Field Office, we will not necessarily consider them in our final decision or include them in the administrative record.

Dated: March 18, 2002.

Guy Padgett,

Director, Casper Field Office.

BILLING CODE 4310–05–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Proposed Construction of City of Lander Water Treatment Plant

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Notice of application for grant funding; public comment period on request to fund the City of Lander Water Treatment Plant.

SUMMARY: OSM is announcing its receipt of a grant application from the Wyoming Department of Environmental Quality, Abandoned Mine Land Division (AMLD). Wyoming is requesting $1,000,000 from the Abandoned Mine Land Reclamation Fund to pay part of the cost of building a City of Lander Water Treatment Plant. In its application, the State proposes paying for part of the construction cost as a public facility project that will benefit a community impacted by mineral mining.

This notice describes when and where you may read the grant application for funding the City of Lander Water Treatment Plant. It also sets the time period during which you may send written comments on the request to us.

DATES: We will accept written comments until 4 p.m., m.s.t., April 24, 2002.

ADDRESSES: You should mail or hand-deliver written comments to Guy V. Padgett, Casper Field Office Director, at the address shown below. You may read Wyoming's grant application for this proposed project during normal business hours Monday through Friday (excluding holidays) at the same address. Also, we will send one free copy of the grant application to you if you contact OSM's Casper Field Office.

Guy V. Padgett, Director, Casper Field Office, Office of Surface Mining Reclamation and Enforcement, Federal Building, Rm. 2403, 100 East "B" Street, Casper, Wyoming 82601–1918.

FOR FURTHER INFORMATION CONTACT: Guy V. Padgett, Telephone: (307) 261–6555.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the rulemaking [or administrative] record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the rulemaking [or administrative] record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will take all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION:

I. Background on Title IV of SMCRA

Title IV of the Surface Mining Control and Reclamation Act (SMCRA) established an Abandoned Mine Land Reclamation (AMLR) program. The purpose of the AMLR program is to reclaim and restore lands and waters that were adversely affected by past mining. The program is funded by a reclamation fee paid by active coal mining operations. Rands and waters eligible for reclamation under Title IV are primarily those that were mined, or affected by mining, and abandoned or inadequately reclaimed before August 3, 1977, and for which there is no continuing reclamation responsibility under State, Federal, or other laws.

Title IV of SMCRA allows States to submit AMLR plans to us. We, on behalf of the Secretary review those plans and consider any public comments we receive about them. If we determine that a State has the ability and necessary legislation to operate an AMLR program, the Secretary can approve it. The Secretary's approval gives a State exclusive authority to put its AMLR plan into effect.

Once the Secretary approves a State's AMLR plan, the State may apply to us for money to fund specific projects that will achieve the goals of its approved plan. We follow the requirements on the Federal regulations at 30 CFR parts 874, 875, and 886 when we review and approve such applications.

II. Background on the Wyoming AMLR Plan

The Secretary of the Interior approved Wyoming's AMLR plan on February 14, 1983. You can find background information on the Wyoming AML program, including the Secretary's findings and our responses to comments, in the February 14, 1983 **Federal Register** (48 FR 6536). Wyoming changed its plan a number of times since the Secretary first approved it. In 1984, we accepted the State's certification that it had addressed all known coal-related impacts in Wyoming that were eligible for funding under its program. As a result, the State may now

VOL
67
ISS
57
MR
25
2002
UMI

reclaim low priority non-coal reclamation projects. You can read about the certification and OSM's acceptance in the May 25, 1984, **Federal Register** (49 FR 22139). At the same time, we also accepted Wyoming's proposal that it will ask us for funds to reclaim any additional coal-related problems that occur during the life of the AML program as soon as it becomes aware of them. In the April 13, 1992, **Federal Register** (57 FR 12731), we announced our decision to accept other changes in Wyoming's plan that describe how it will rank eligible coal, non-coal, and public facility projects for funding. Those changes also authorized the Governor of Wyoming to elevate the priority of a project based upon the Governor's determination of need and urgency. They also expanded the State's ability to construct public facilities under section 411 of SMCRA. We approved additional changes in Wyoming's plan concerning non-coal lien authority and contractor eligibility that improved the efficiency of the State's AML program. That approval is described in the February 21, 1996, **Federal Register** (61 FR 6537).

Once a State certifies that it has addressed all remaining abandoned coal mine problems and the Secretary concurs, then it may request funds to undertake abandoned non-coal mine reclamation, community impact assistance, and public projects under sections 411(b), (e), and (f), of SMCRA.

State law and regulations that apply to the proposed Abandoned Coal Mine Land Program City of Lander Water Treatment Plant funding request include Wyoming Statue 35–11–1202 and Wyoming Abandoned Mine Land Regulations, Chapter VII, of the Wyoming Abandoned Mine Program.

III. Wyoming's Request To Fund the Cost of the City of Lander Water Treatment Plant

The Wyoming Department of Environmental Quality will submit to us a grant application in the fall of 2003. In that application, Wyoming will ask for $1,000,000 to pay for a part of the cost of constructing the City of Lander Water Treatment Plant. The Governor of Wyoming certified the need and urgency to fund this project prior to completing the State's remaining inventory of non-coal reclamation work, as allowed by section 411(f) of SMCRA. That certification says the project is in a community impacted by mineral mining activities. This project is the second phase of AML Project 44 which was included in the 2001 AML grant. This grant provided $887,239 of funding for the initial design and construction of the City of Lander Water Treatment Plant.

This project addresses an Enforcement Order from the EPA. The Governor's certification states that the safety hazards impacting the City of Lander water users warrant funding of this project before the remaining inventory of non-coal projects are completed.

IV. How We Will Review Wyoming's Grant Application

We will review the grant application using regulations at 30 CFR 875.15; specifically subsections 875.15(e)(1) through (7). As stated in those regulations, the application must include the following information: (1) The need or urgency for the activity or the construction of the public facility; (2) the expected impact the project will have on Wyoming's coal or minerals industry; (3) the availability of funding from other sources and, if other funding is provided, its percentage of the total cost involved; (4) documentation from other local, State, Federal agencies with oversight for such utilities or facilities describing what funding they have available and why their agency is not fully funding this specific project; (5) the impact on the State, the public, and the minerals industry if the facility is not funded; (6) the reason why this project should be selected before the priority projects relating to the protection of public health and safety or the environment from the damages caused by past mining activities, and (7) an analysis and review of the procedures Wyoming used to notify and involve the public in this request, and a copy of all comments received and their resolution by the State. Wyoming's application for the City of Lander Water Treatment Plant project contains the information described in these seven subsections.

Section 875.15(f) requires us to evaluate all comments we received and determine whether the funding meets the requirements of sections 875.15(e)(1) through (7) described above. It also requires us to determine if the request is in the best interests of the State's AML program. We will approve Wyoming's request to fund this project if we conclude that it meets all the requirements of 30 CFR 875.15.

V. What To Do If You Want To Comment on the Proposed Project

We are asking for public comments on Wyoming's request for funds to pay for part of the cost of constructing the City of Lander Water Treatment Plant. You are welcome to comment on the project. If you do, please send us written comments. Make sure your comments are specific and pertain to Wyoming's funding request in the context of the regulations at 30 CFR 875.15 and the provisions of section 411 of SMCRA. You should explain any recommendations you make. If we receive your comments after the time shown under **DATES** or at locations other than the Casper Field Office, we will not necessarily consider them in our final decision or include them in the administrative record.

Dated: March 18, 2002.

Guy Padgett,

Director, Casper Field Office.

BILLING CODE 4310–05–M

INTERNATIONAL TRADE COMMISSION

Index and Description of Major Information Systems and Availability of Records

AGENCY: United States International Trade Commission.

ACTION: Notice announcing availability of public information.

SUMMARY: The United States International Trade Commission (USITC or Commission) provides notice of its index and description of major information systems and availability of its records.

FOR FURTHER INFORMATION CONTACT: Marilyn R. Abbott (202–205–2799), Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission and persons seeking information on the Commission, or making submittals or requests, and seeking decisions, may contact the Office of the Secretary at 202–205–2000.

SUPPLEMENTARY INFORMATION: The Commission makes agency records available to the public in a number of ways: *Electronic Document Information System.* This system provides Internet access to public documents filed with the Office of the Secretary. Docketing information for USITC investigations instituted since 1996 is available electronically by accessing the USITC Internet site at "*http://www.usitc.gov*" or directly at "*http://dockets.usitc.gov/eol/public/.*"

FOIA. Commission records may also be requested under the Freedom of Information Act (FOIA) (5 U.S.C. 552). These requests are filed with the Secretary at 500 E Street, SW., Washington, DC 20436, and must clearly be identified in the request letter and on the envelope as a "Freedom of Information Act Request." Commission rules for requesting information under FOIA are set out in 19 CFR 201.17–201.21.

Government Information Locator. The USITC has an entry in the Government Information Locator Service, at "*http://www.access.gpo.gov/su_docs/gils/gils.html.*"

Libraries. The Commission maintains two libraries, its National Library of International Trade (the Commission's main reference library), located on the 3rd floor of the Commission building, and a law library, located on the 6th floor. Both are open to the public during normal business hours of 8:45 a.m. to 5:15 p.m. The libraries contain, among other things, complete sets of Commission reports. To determine whether the respective libraries have the information sought, persons seeking information may call the main library at 202–205–2630, or the law library at 202–205–3287.

Public Reading Room. The Commission's docket files in the Office of the Secretary contain the submissions made in all Commission investigations. The files are available for inspection in the Public Reading Room in the Office of the Secretary. The Public Reading Room is located on the 1st floor of the Commission building. Persons having questions regarding availability of records may call the Dockets staff at 202–205–1802. Depending on the age of the records requested, the files are available electronically, in hard copy, and/or on microfiche.

Reports. Reports containing the findings and conclusions of Commission investigations and Commissioner opinions are available in hard copy, generally at no charge, from the Office of the Secretary (telephone 202–205–1809). Reports are also made available for download from the USITC Internet site.

Rules. The Commission's Rules of Practice and Procedure set out the procedures used in Commission proceeding. The rules in 19 CFR parts 200–213 are located in the Code of Federal Regulations and the Commission's Internet site.

Tariff and Trade Data Web. The Commission's DataWeb "*http://dataweb.usitc.gov,*" provides public access to tariff and trade data. Data from 1989 are available and can be retrieved in a number of classification systems.

USITC Internet Site. Recent Commission notices, news releases, meeting agendas, monthly calendars, general information "fact sheets," Commissioner biographies, schedules of pending investigations (including hearing dates and deadlines for written submissions), reports, information frequently requested under FOIA, and general information about the Commission are available electronically through the Internet at "*http://www.usitc.gov.*"

Copies of Commission public records can also be obtained from the Secretary through an on-site duplicating service for a minimum fee.

By order of the Commission.

Issued: March 19, 2002.

Marilyn R. Abbott,

Secretary.

BILLING CODE 2210–55–M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA")

Pursuant to Section 122(d)(2) of CERCLA, 42 U.S.C. 9622(d)(2), notice is hereby given that on March 4, 2002, a proposed Consent Decree in *United States* v. *Hybard Paul*, Civil Action No. 01–0184–P–L, was lodged with the United States District Court for the Southern District of Alabama.

In this action the United States sought to recover response costs incurred by the Environmental Protection Agency ("EPA") during the performance of a response action to address releases and threatened releases of hazardous substances at the Walker Springs Wood Treater Superfund Site ("Site") in Walker Springs, Clarke County, Alabama. The Decree resolves the liability of Defendant Hybard Paul for the United States' past response costs and future costs. The Defendant will make a one-time payment of $250,000 to the Hazardous Substances Superfund. In return, the United States will covenant not to sue or to take administrative action against defendant under Sections 106 and 107(a) of CERCLA.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044–7611, and should refer to *United States* v. *Hybard Paul*, DOJ Ref. 90–11–3–07380.

The Consent Decree may be examined at the Office of the United States Attorney, Southern District of Alabama, Riverview Plaza, Suite 600, 63 S. Royal Street, Mobile, Alabama 36602, and at EPA Region 4, Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, Georgia 30303. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044–7611. In requesting a copy, please refer to *United States* v. *Hybard Paul*, No. 01–0184–P–L (S.D. Ala.), DOJ Ref. 90–11–3–07380, and enclose a check in the amount of $3.75 (25 cents

BILLING CODE 4410–15–M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Clean Water Act

Under 28 CFR 50.7, notice is hereby given that on March 5, 2002, a proposed consent decree in *United States and Ohio* v. *City of Youngstown, Ohio*, Civil Action No. 4:98 CV 2438, was lodged with the United States District Court for the Northern District of Ohio.

In this action, the United States sought injunctive relief and civil penalties under Section 309(b) and (d) of the Clean Water Act ("the Act"), 33 U.S.C. 1319(b) and (d), against the City of Youngstown, Ohio, ("Youngstown") for violations of Section 301 of the Act, 33 U.S.C. 1311, and the terms and conditions of Youngstown's National Pollutant Discharge Elimination System ("NPDES") permits at Youngstown's wastewater treatment plant and throughout its sewer collection system. The Complaint alleges that Youngstown violated the Clean Water Act and its applicable NPDES permits by failing to meet certain permit deadlines, failing to comply with effluent limitations in its permits, discharging wastewater and raw sewage through unpermitted point sources, failing to monitor its discharges in accordance with its permit requirements, and failing to notify the regulatory agencies of missed deadlines.

The proposed Clean Water Act consent decree provides for injunctive relief consisting of the following: (1) Elimination of the overflow point known as outfall 6108 at the Orchard Meadow area of Mill Creek Park; (2) elimination of certain specified direct discharges of sanitary sewage and process wastewater that are not currently connected to the Youngstown collection system; (3) development and implementation of Youngstown's long term control plan as required by its discharge permit; (4) removal of accumulated sewer sediments in the Mill Creek collector; (5) short-term improvements to Youngstown's collection system maintenance programs, documentation, and data management; (6) an evaluation of Youngstown's collection system maintenance programs and data management and proposed improvements; (7) replacement of the Meadowbrook pump station and the Lansdowne pump station and evaluation of additional upgrades at the Dry Run pump station; (8) implementation of a revised inspection schedule for combined sewer overflows; (9) implementation of measures to reduce vandalism at manholes within the collection system; and (10) installation of additional level sensing equipment at certain specified overflow structures. In addition, Youngstown will pay a civil penalty of $60,000, to be split evenly between the United States and its co-plaintiff the State of Ohio, to resolve the claims in the Complaint.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044–7611, and should refer to *United States and Ohio* v. *City of Youngstown*, DOJ Ref. #90–5–1–1–4383.

The proposed consent decree may be examined at the office of the United States Attorney for the Northern District of Ohio, 1800 Bank One Center, 600 Superior Avenue East, Cleveland, Ohio 44114, and at U.S. EPA Region 5, 77 West Jackson Boulevard, Chicago, IL 60604. A copy of the Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044–7611, or by faxing a request to Tonia Fleetwood, fax no. (202) 514–0097 phone confirmation number (202) 514–1547. In requesting a copy, please refer to the referenced case and enclose a check in the amount of $9.75 (25 cents per page reproduction costs), payable to the U.S. Treasury.

William D. Brighton,

Assistant Chief, Environment Enforcement Section, Environment and Natural Resources Division.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—Center for Waste Reduction Technologies (CWRT): Solvent Selection Guide

Notice is hereby given that, on February 7, 2002, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. *et seq.* ("the Act"), CWRT: Solvent Selection Guide has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties are Center for Waste Reduction Technologies ("CWRT"), New York, NY; Cytec Industries Inc., West Paterson, NJ; The Dow Chemical Company, Midland, MI; E.I. du Pont de Nemours & Company, Wilmington, DE; GalxoSmithKline, King of Prussia, PA; Pharmacia, Peapack, NJ; Pfizer Corporation, New London, CT; and Rohm and Haas Company, Philadelphia, PA. The nature and objectives of the venture are to develop solvent selection tools to facilitate the selection of solvent candidates in early compound development, make life cycle EHS impacts/issues visible for each solvent candidate, facilitate process optimization in late compound development, explore solvent mixtures that do not introduce additional complexity into managing solvents, and explore designer solvent possibilities.

Constance K. Robinson,

Director of Operations, Antitrust Division.

Notice Pursuant to the National Cooperative Research and Production act of 1993—DVD Copy Control Association ("DVD CCA")

Notice is hereby given that, on January 15, 2002, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), DVD Copy Control Association ("DVD CCA") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership status. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, Alphacast Co. Ltd., Seoul, REPUBLIC OF KOREA; Almedio, Inc., Tokyo, JAPAN; AniMeta Systems, Inc., Taipei, TAIWAN; CMC Magnetics Corporation, Taipei, TAIWAN; Flextronics International Denmark A/S, Pandrup, DENMARK; Guangdong Cosmic Digital Technology, Co., Ltd., Dong Guan City, Guangdong, PEOPLE'S REPUBLIC OF CHINA; Guangzhou Telefield Limited, Guangdong, PEOPLE'S REPUBLIC OF CHINA; Hibino Corporation, Minato-Ku Tokyo, JAPAN; Homenema Disk Incorporation, Taipei Hsien, TAIWAN; iCEBOX LLC, Seattle, WA; Linn Products Limited, Glasgow, Scotland, UNITED KINGDOM; NewSoft Technology Corp., Taipei, TAIWAN; ODME B.V., Eindhoven, THE NETHERLANDS; Optical Disc Stampers, Orange, CA; Tanway Electronic Factory, Guangzhou, PEOPLE'S REPUBLIC OF CHINA; Zhongshan Kenloon Digital Technology Co., Ltd., Zhongshan, Guangdong, PEOPLE'S REPUBLIC OF CHINA; and Zhong Shan Shi NEON Electronic Fty. Ltd., Kowloon, HONG-KONG-CHINA have been added as parties to this venture.

Also, Alcorn McBride Inc., Orlando, FL; Amoisonic Electronics Co., Ltd., Xiamen, PEOPLE'S REPUBLIC OF CHINA; ANAM Electronics Co. Ltd., Ansan-City, Kyungki-Do, REPUBLIC OF KOREA; C-Cube Semiconductor II Inc., Milpitas, CA; Chaintech Computer Co. Ltd., Tapiei Hsien, TAIWAN; Cinet AS, Oslo, NORWAY; C-Media Electronics Inc., Taipei, TAIWAN; CNERC–OD, Taipei, TAIWAN; Coach Master International dba CMI Worldwide, Inc., Seattle, WA; Comjet Information Systems Corp., Taipei, TAIWAN; Compal Electronics, Taipei, TAIWAN; Compaq Computer Corporation, Houston, TX; Computer & Entertainment, Inc., Taipei, TAIWAN; Creative Technology Ltd., Singapore, SINGAPORE; Daesung Eltec Co., Ltd., Seoul, REPUBLIC OF KOREA; Daikin Industries, Tokyo, JAPAN; Diskware Co., Ltd., Koutou-ku, Tokyo, JAPAN; Eastman Kodak Company (Digital & Applied Imaging Division), Rochester, NY; E-Smart Electronics, Ltd., Kowloon, HONG-KONG-CHINA; First International Computer, Inc., Taipei Hsien, TAIWAN; Fly Ring Digital Technology, Ltd., Hong Kong, HONG KONG-CHINA; Freindly CD-Tek Corporation, Taipei, TAIWAN; Fema O.D. S.A., Barcelona, SPAIN; Gigastorage Corporation, Hsinchu, TAIWAN; Goldteck International Inc., Taipei, TAIWAN; Great China Technology, Inc., Taipei Hsien, TAIWAN; Gynco Electronics (HK) Ltd., Tainan Hsien, TAIWAN; Hermosa Cysware Ltd., Taipei, TAIWAN; Highlead Technology, Inc., Taipei Hsien, TAIWAN; Hisaki Sekkei Inc., Fukushima, JAPAN; Hua Du shi Teng Wei Electronic Factory, Kowloon Bay, HONG KONG-CHINA; InterMagic Corporation, Seoul, REPUBLIC OF KOREA; Jeu Hang Technology Co., Ltd., Taipei, TAIWAN; Kenden Corporation, Chiyoda-ku, Tokyo, JAPAN; Konka Group Co., Ltd., Shenzhen Special Zone, PEOPLE'S REPUBLIC OF CHINA; Lection Technology Co., Ltd., Fremong, CA; Luxsonor Semiconductor Inc., Fremont, CA; Makidol Electronics Co., Ltd., Shenzhen, PEOPLE'S REPUBLIC OF CHINA; MbyN Inc., Kyungki-do, REPUBLIC OF KOREA; Media Dimensions, Inc., Austin, TX; Metatec International Corporation, Dublin, OH; Motorola, Inc., Austin, TX; National Semiconductor, Corp. (Mediamatics), Santa Clara, CA; Novac Co., Ltd., Tokyo, JAPAN; Pan-International Industrial Corp., Hsinchu City, TAIWAN; PitsExpert Technology Co., Ltd., Taipei, TAIWAN; Proside Corporation, Chiba, JAPAN; Provac Disc Media Inc., Toronti, Ontario, CANADA; QNX Software Systems Ltd., Kanata, Ontario, CANADA; Sasken Communication Technologies Limited, Bangalore, INDIA; Sensory Science Corporation, Scottsdale, AZ; Shinwa Industries (PRC), Ltd., Guangdong, PEOPLE'S REPUBLIC OF CHINA; Silicon Integrated Systems Corporation, Sunnyvale, CA; Silicon Magic Corporation, Sunnyvale, CA; Soft4D Co., Ltd., Songnam-Si, REPUBLIC OF KOREA; Spruce Technologies, Inc., San Jose, CA; STMicroelectronics, Inc., Carrollton, TX; Stream Machine Company, Milpitas, CA; Sun Microsystems Inc., Palo Alto, CA; Takaya Corporation, Okayama, JAPAN; Toolex International N.V., Eindhoven, THE NETHERLANDS; Trident Microsystems, Inc., Santa Clara, CA; Videolar S/A, Alphaville-Barueri, BRAZIL; Yuan High-Tech Development Co., Ltd., Taipei, TAIWAN; and Zen Research N.V., Curacao, NETHERLANDS ANTILLES have been dropped as parties to this venture.

The following members have changed their names: Ahead Software GmbH to Ahead Software AG, Karlsbad, GERMANY; and Lite-On Technology to JVC Lite-On IT Manufacture and Sales, Limited, Hong Kong, HONG KONG-CHINA.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and DVD Copy Control Association ("DVD CCA") intends to file additional written notification disclosing all changes in membership.

On April 11, 2001, DVD Copy Control Association ("DVD CCA")" filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on August 3, 2001 (66 FR 40727).

The last notification was filed with the Department on October 12, 2001. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on January 3, 2002 (67 FR 349).

Notice Pursuant to the National Cooperative Research and Production Act of 1993—the Oceanic Institute: Biosecure Zero-Exchange Shrimp Technology

Notice is hereby given that, on February 6, 2002, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), The Oceanic Institute: Biosecure Zero-Exchange Shrimp Technology (BioZEST) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties are PIC–USA, Berkeley, CA; Kahuku Shrimp Company, Kahuku, HI; Zeigler Brothers, Inc., Gardners, PA; and The Oceanic Institute, Waimanalo, HI. The nature and objectives of the venture are to develop and demonstrate an economically viable, environmentally responsible, and sustainable production system for shrimp in the U.S. using selectively bred animals in a closed environment that prevents the introduction of disease agents. The system entails zero exchange of water and is termed the "Biosecure Zero-exchange Shrimp Technology" or BioZEST. The activities of this joint venture project will be partially funded by an award from the Advanced Technology Program, National Institute

Drug Enforcement Administration

Importation of Controlled Substances; Notice of Application

Pursuant to Section 1008 of the Controlled Substances Import and Export Act (21 U.S.C. 958(i)), the Attorney General shall, prior to issuing a registration under this Section to a bulk manufacturer of the a controlled substance in Schedule I or II and prior to issuing a regulation under Section 1002(a) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore, in accordance with Section 1301.34 of title 21, Code of Federal Regulations (CFR), notice is hereby given that on October 12, 2001, Chiragene, Inc., Technology Centre of New Jersey, 661 Highway One, North Brunswick, New Jersey 08902, made application by renewal to the Drug Enforcement Administration to be registered as an importer of phenylacetone (8501), a basic class of controlled substance listed in Schedule II.

The firm plans to import the phenylacetone to manufacture amphetamine.

Any manufacturer holding, or applying for, registration as a bulk manufacturer of this basic class of controlled substance may file written comments on or objections to the application described above and may, at the same time, file a written request for a hearing on such application in accordance with 21 CFR 1301.43 in such form as prescribed in 21 CFR 1316.47.

Any such comments, objections, or requests for a hearing may be addressed, in quintuplicate, to the Deputy Assistant Administration, United States Department of Justice, Washington, D.C. 20537, Attention: DEA Federal Register Representative (CCR), and must be filed no later than April 24, 2002.

This procedure is to be conducted simultaneously with and independent of the procedures described in 21 CFR 1301.34(b), (c), (d), (e), and (f). As noted in a previous notice at 40 FR 43745–46 (September 23, 1975), all applicants for registration to import basic class of any controlled substance in Schedule I or II are and will continue to be required to demonstrate to the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration that the requirements for such registration pursuant to 21 U.S.C. 958(a), 21 U.S.C. 823(a), and 21 CFR 1301.34(a), (b), (c), (d), (e), and (f) are satisfied.

Dated: March 12, 2002.

Laura M. Nagel,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

[FR Doc. 02–7115 Filed 3–22–02; 8:45 am]

BILLING CODE 4410–09–M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Manufacturer of Controlled Substances; Notice of Registration

By Notice dated July 13, 2001, and published in the **Federal Register** on July 23, 2001, (66 FR 38324), Stepan Company, Natural Products Department, 100 W. Hunter Avenue, Maywood, New Jersey 07607, made application to the Drug Enforcement Administration (DEA) to be registered as a bulk manufacturer of the basic classes of controlled substances listed below:

Drug	Schedule
Cocaine (9041)	II
Benzoylecgonine (9180)	II

The firm plans to manufacture bulk controlled substances for distribution to its customers.

No comments or objections have been received. DEA has considered the factors in Title 21, United States Code, Section 823(a) and determined that the registration of Stepan Company to manufacture the listed controlled substances is consistent with the public interest at this time. DEA has investigated Stepan Company on a regular basis to ensure that the company's continued registration is consistent with the public interest. These investigations have included inspection and testing of the company's physical security systems, verification of the company's compliance with state and local laws, and a review of the company's background and history. Therefore, pursuant to 21 U.S.C. 823 and 28 CFR 0.100 and 0.104, the Deputy Assistant Administrator, Office of Diversion Control, hereby orders that the application submitted by the above firm for registration as a bulk manufacturer of the basic classes of controlled substances listed above is granted.

Dated: March 12, 2002.

Laura M. Nagel,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

Parole Commission

[(Public Law 94–409) (5 U.S.C. Sec. 552b)]

Record of Vote of Meeting Closure

I, Edward F. Reilly, Jr., Chairman of the United States Parole Commission, was present at a meeting of said Commission which started at approximately 11:00 a.m. on Thursday, March 15, 2002, at the U.S. Parole Commission, 5550 Friendship Boulevard, 4th Floor, Chevy Chase, Maryland 20815. The purpose of the meeting was to decide four appeals from the National Commissioners' decisions pursuant to 28 CFR 2.27. Three Commissioners were present, constituting a quorum when the vote to close the meeting was submitted.

Public announcement further describing the subject matter of the meeting and certifications of General Counsel that this meeting may be closed by vote of the Commissioners present were submitted to the Commissioners prior to the conduct of any other business. Upon motion duly made, seconded, and carried, the following Commissioners voted that the meeting be closed: Edward F. Reilly, Jr., Michael J. Gaines, and John R. Simpson.

In witness whereof, I make this official record of the vote taken to close this meeting and authorize this record to be made available to the public.

Dated: March 19, 2002.

Edward F. Reilly, Jr.,

Choirman, U.S. Parole Commission.

Office of the Secretary; Submission for OMB Review; Comment Request

March 15, 2002.

The Department of Labor (DOL) has submitted the following public information collection requests (ICRs) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. Chapter 35). A copy of each individual ICR, with applicable supporting documentation, may be obtained by calling the Department of Labor. To obtain documentation contract Marlene Howze at (202) 693–4158 or e-mail *Howze-Marlene@dol.gov.*

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for BLS, Office of Management and Budget, Room 10235, Washington, DC 20503 (202) 395–7316), within 30 days from the date of this publication in the **Federal Register.**

The OMB is particularly interested in comments which:

* Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

* Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumption used;

* Enhance the quality, utility, and clarity of the information to be collected; and minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Type of Review: Extension of a currently approved collection.

Agency: Bureau of Labor Statistics (BLS).

Title: Producer Price Index Survey.

OMB Number: 1220–0008.

Affected Public: Business or other for-profit.

Estimated Time Per Response and Total Burden Hours:

Form	Number of respondents	Frequency	Total responses	Average time per response (minutes)	Estimated total burden (hours)
BLS 1810A, A1, B, C, C1, and E	1,585	Once	6,340	120	12,680
BLS 473P	26,250	Monthly	1,260,000	18	378,000
Totals	27,835		1,266,340		390,680

Total Annualized Capital/Startup Costs: $0.

Total Annual Costs (operating/maintaining systems or purchasing service): $0.

Description: The Producer Price Index, one of the Nation's leading economic indicators, is used as a measure of price movements, as an indicator of inflationary trends, for inventory valuation, and as a measure of purchasing power of the dollar at the primary market level. It is also used for market and economic research and as a basis for escalation in long-term contracts and purchase agreements. The failure to calculate data would tend to extend the time frame required for accurate recognition of and appropriate adaptation to economic events.

Ira L. Mills,

DOL Clearance Officer.

BILLING CODE 4510–24–M

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c) (2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the revision of the *"Labor Market Information (LMI) Cooperative Agreement."* A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section of this notice on or before May 24, 2002.

ADDRESSES: Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, telephone number 202–691–7628 (this is not a toll free number).

FOR FURTHER INFORMATION CONTACT: Amy A. Hobby, BLS Clearance Officer, telephone number 202–691–7628. (See Addresses section.)

SUPPLEMENTARY INFORMATION:

I. Background

The BLS enters into Cooperative Agreements with State Employment Security Agencies (SESAs) annually to provide financial assistance to the SESAs for the production and operation of the following LMI statistical programs: Current Employment Statistics, Local Area Unemployment Statistics, Occupational Employment Statistics, Covered Employment and Wages Report, and Mass Layoff Statistics. The Cooperative Agreement provides the basis for managing the administrative and financial aspects of these programs.

II. Desired Focus of Comments

The BLS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

VOL

2002
UMI

e.g., permitting electronic submissions of responses.

III. Current Action

Office of Management and Budget (OMB) clearance is being sought for the LMI Cooperative Agreement. The existing collection of information allows Federal staff to negotiate the Cooperative Agreement with the SESAs and monitor their financial and programmatic performance and adherence to administrative requirements imposed by common regulations implementing OMB Circular A–102 and other grant-related regulations. The information collected also is used for planning and budgeting at the Federal level and in meeting Federal reporting requirements.

Type of Review: Revision of a currently approved collection.
Agency: Bureau of Labor Statistics.
Title: Labor Market Information (LMI) Cooperative Agreement.
OMB Number: 1220–0079.
Affected Public: State, Local or Tribal Governments.
Frequency: Monthly, quarterly, annually.

Information collection	Respondents	Frequency	Responses	Time	Total hours
Work Statements	55	1	55	1–2 hr	55–110
BIF (LMI 1A, 1B)	55	1	55	1–6 hr	55–330
Quarterly Automated Financial Reports	48	4	192	10–50 min	32–160
Monthly Automated Financial Reports	48	*8	384	5–25 min	32–160
BLS Cooperative Statistics Financial Report (LMI 2A)	7	12	84	1–5 hr	84–420
Quarterly Status Report (LMI 2B)	1–30	4	4–120	1 hr	4–120
Total	1–55		774–890		262–1300
Average Totals	55		832		781

*Reports are not received for end-of-quarter months, *i.e.*, December, March, June, September.

Total Burden Cost (capital/startup): $0.
Total Burden Cost (operating/maintenance): $0.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 12th day of March, 2002.

Jesús Salinas,
Acting Chief, Division of Management Systems, Bureau of Labor Statistics.

COMMISSION ON OCEAN POLICY

Public Meeting

AGENCY: U.S. Commission on Ocean Policy.

ACTION: Notice.

SUMMARY: The U.S. Commission on Ocean Policy will hold its fourth regional meeting, the Commission's sixth public meeting, to hear and discuss coastal and ocean issues of concern to the Southwest region of the United States, covering the coastal area of California.

DATES: Public meetings will be held Thursday, April 18, 2002 from 12:30 p.m. to 6:15 p.m. and Friday, April 19, 2002 from 8:30 a.m. to 6:00 p.m.

ADDRESSES: The meeting location is the Embassy Room, Davidson Executive Conference Center, University of Southern California, 3415 Figueroa Street, Los Angeles, California 90089–0871.

FOR FURTHER INFORMATION CONTACT: Terry Schaff, U.S. Commission on Ocean Policy, 1120 20th Street, NW, Washington, DC, 20036, 202–418–3442, *schaff@oceancommission.gov*.

SUPPLEMENTARY INFORMATION: This meeting is being held pursuant to requirements under the Oceans Act of 2000 (Public Law 106–256, Section 3(e)(1)(E)). The agenda will include presentations by invited speakers representing local and regional government agencies and non-governmental organizations, comments from the public and any required administrative discussions and executive sessions. Invited speakers and members of the public are requested to submit their statements for the record electronically by April 10, 2002 to the meeting Point of Contact. Public comment periods are scheduled for Thursday, April 18 and Friday, April 19. The agenda for the meeting, including specific times for the public comment periods, and guidelines for making public comments will be posted on the Commission's website at *http://www.oceancommission.gov* prior to the meeting.

Dated: March 19, 2002.

Admiral James D. Watkins,
USN (ret.), Chairman, U.S. Commission on Ocean Policy.

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Review; Comment Request for Reinstatement of a Revised Information Collection: RI 20–80

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104–13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) has submitted to the Office of Management and Budget (OMB) a request for reinstatement of a revised information collection. RI 20–80, Alternative Annuity Election, is used for individuals who are eligible to elect whether to receive a reduced annuity and a lump-sum payment equal to their retirement contributions (alternative form of annuity) or an unreduced annuity and no lump sum.

Approximately 200 RI 20–80 forms are completed annually. We estimate it takes approximately 20 minutes to complete the form. The annual burden is 67 hours.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606–8358, FAX (202) 418–3251 or E-mail to *mbtoomey@opm.gov*. Please include your mailing address with your request.

DATES: Comments on this proposal should be received on or before April 24, 2002.

ADDRESSES: Send or deliver comments to—

Ronald W. Melton, Chief, Operations Support Division, Retirement and Insurance Service, U.S. Office of Personnel Management, 1900 E Street, NW., Room 3349A, Washington, DC 20415–3540.

and

Joseph Lackey, OPM Desk Officer, Office of Information & Regulatory Affairs, Office of Management and Budget, New Executive Office Building, NW., Room 10235 Washington, DC 20503.

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 25465; 812–12420]

Delaware Investments Dividend and Income Fund, Inc. and Delaware Investments Global Dividend and Income Fund, Inc.; Notice of Application

March 18, 2002.

AGENCY: Securities and Exchange Commission ("Commission").

ACTION: Notice of an application under section 6(c) of the Investment Company Act of 1940 (the "Act") for an exemption from section 19(b) of the Act and rule 19b–1 under the Act.

SUMMARY OF APPLICATION: Delaware Investments Dividend and Income Fund, Inc. ("DDF") and Delaware Investments Global Dividend and Income Fund, Inc. ("DGF") (DDF and DGF each, a "Fund" and collectively, the "Funds") request an order to permit them to make up to twelve distributions of long-term capital gains in any one taxable year, so long as they maintain in effect their distribution policies with respect to their common stock calling for fixed monthly distributions.

FILING DATES: The application was filed on January 24, 2001 and amended on March 14, 2002.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the Commission's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m. on April 12, 2002, and should be accompanied by proof of service on the applicants, in the form of an affidavit, or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Commission's Secretary.

ADDRESSES: Secretary, Commission, 450 Fifth Street, NW, Washington, DC 20549–0609; Applicants, c/o Bruce G. Leto, Stradley Ronon Stevens & Young, LLP., 2600 One Commerce Square, Philadelphia, PA 19103–7098.

FOR FURTHER INFORMATION CONTACT: Keith A. Gregory, Senior Counsel, at (202) 942–0611, or Mary Kay Frech, Branch Chief, at (202) 942–0564 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the Commission's Public Reference Branch, 450 Fifth Street, NW, Washington, DC 20549–0102 (telephone (202) 942–8090).

Applicants' Representations

1. The Funds are registered under the Act as closed-end, diversified management investment companies and organized as Maryland corporations. Each Fund's primary investment objective is high current income; capital appreciation is a secondary objective. The Funds seek to achieve their goals by investing in a wide variety of income-generating equity securities, including dividend-paying common stocks, convertible securities, preferred stocks and other equity related securities. The Funds' shares are listed on the New York Stock Exchange and have historically traded at a discount to net asset value ("NAV"). Delaware Management Company, an investment adviser registered under the Investment Advisers Act of 1940 ("Advisers Act"), serves as the Funds" investment adviser. Delaware International Advisers, Ltd., an investment adviser registered under the Advisers Act, serves as the sub-adviser for the foreign component of DGF's investment portfolio.

2. On July 20, 1995 and November 16, 1995, respectively, the boards of directors of DGF and DDF (the "Boards"), including a majority of the directors who are not "interested persons" of each Fund, as defined in section 2(a)(19) of the Act, adopted a distribution policy (each, a "Distribution Policy" and collectively, the "Distribution Policies") with respect to each Fund's shares of common stock. The Boards considered that the Distribution Policies would provide a consistent income stream to the Funds' shareholders and might help support the market price of the Funds' common stock. The Boards review and approve the level of the distribution for each respective Fund at each quarterly Board meeting. Pursuant to the Distribution Policies, the shareholders of each Fund currently receive a fixed distribution of 12.5 cents per share on a monthly basis. If for any taxable year, the total distributions required by the Distribution Policies exceed the sum of each Fund's net investment income and net realized capital gains, the excess generally will be treated as a return of capital (up to the amount of the shareholder's adjusted tax basis in his shares). Applicants state that the Distribution Policies provide a steady cash flow to the Funds' shareholders and are a method to reduce the trading discount from NAV.

3. Applicants request relief to permit the Funds, so long as they maintain in effect the Distribution Policies, to make up to twelve long-term capital gains distributions in any one taxable year.

Applicants' Legal Analysis

1. Section 19(b) of the Act provides that a registered investment company may not, in contravention of such rules, regulations, or orders as the Commission may prescribe, distribute long-term capital gains more often than once every twelve months. Rule 19b–1(a) under the Act permits a registered investment company, with respect to any one taxable year, to make one capital gains distribution, as defined in section 852(b)(3)(C) of the Internal Revenue Code of 1986, as amended (the "Code"). Rule 19b–1(a) also permits a supplemental distribution to be made pursuant to section 855 of the Code not exceeding 10% of the total amount distributed for the year. Rule 19b–1(f) permits one additional long-term capital gains distribution to be made to avoid the excise tax under section 4982 of the Code.

2. The Funds assert that rule 19b–1, by limiting the number of net long-term capital gains distributions the Funds may make with respect to any one year, would prohibit the Funds from including available net long-term capital gains in certain of their fixed monthly distributions. As a result, the Funds state that they could be required to fund these monthly distributions with returns of capital (to the extent net investment income and net realized short-term capital gains are insufficient to cover a monthly distribution). The Funds further assert that, to distribute all of their long-term capital gains within the limits in rule 19b–1, the Funds may be required to make total distributions in excess of the annual amount called for by the Distribution Policies or retain and pay taxes on the excess amount. The Funds assert that the application of rule 19b–1 to their Distribution Policies may create pressure to limit the realization of long-term capital gains based on considerations unrelated to investment goals.

3. The Funds submit that the concerns underlying section 19(b) and rule 19b–1 are not present in their situation. One of the concerns leading to the adoption of section 19(b) and rule 19b–1 was that shareholders might be unable to distinguish between frequent distributions of capital gains and dividends from investment income. The Funds state that the Distribution Policies have been described in the Funds' periodic communications to their shareholders. The Funds further state that, as required by rule 19a–1 under the Act, a separate statement showing the source of the distribution will accompany any distribution. The Funds also state that a statement showing the amount and source of each monthly distribution during the year will be included with each Fund's IRS Form 1099–DIV report sent to each shareholder who received distributions during the year (including shareholders who sold shares during the year).

4. The Funds submit that another concern underlying section 19(b) and rule 19b–1 is that frequent capital gains distributions could facilitate improper fund distribution practices, including, in particular, the practice of urging an investor to purchase shares of a fund on the basis of an upcoming dividend ("selling the dividend"), when the dividend results in an immediate corresponding reduction in NAV and is, in effect, a return of the investor's capital. The Funds state that this concern does not apply to closed-end investment companies, such as the Funds, that do not continuously distribute their shares.

5. The Funds state that increased administrative costs also are a concern underlying section 19(b) and rule 19b–1. The Funds assert that this concern is not present because the Funds will continue to make monthly distributions regardless of whether capital gains are included in any particular distribution.

6. Section 6(c) of the Act provides that the Commission may exempt any person or transaction from any provision of the Act or any rule under the Act to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. For the reasons stated above, the Funds believe that the requested relief satisfies this standard.

Applicants' Condition

The Funds agree that the order granting the requested relief will terminate upon the effective date of a registration statement under the Securities Act of 1933, as amended, for any future public offering by the Funds of their common shares other than:

(i) A non-transferable rights offering to shareholders of the Funds, provided that such offering does not include solicitation by brokers or the payment of any commissions or underwriting fee; and

(ii) An offering in connection with a merger, consolidation, acquisition, spin-off or reorganization; unless the Funds have received from the staff of the Commission written assurance that the order will remain in effect.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meeting

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: [67 FR 10778, March 8, 2002].

STATUS: Closed Meeting.

PLACE: 450 Fifth Street, NW., Washington, DC.

DATE AND TIME OF PREVIOUSLY ANNOUNCED MEETING: Tuesday, March 12, 2002 at 10:00 a.m.

CHANGE IN THE MEETING: Additional Item.

The following item was added to the closed meeting held on Tuesday, March 12, 2002: regulatory matter concerning financial markets.

Commissioner Hunt, as duty officer, determined that Commission business required the above change and that no earlier notice thereof was possible.

Commissioners, Counsel to the Commissioners, the Secretary to the Commission, and recording secretaries attended the closed meeting. Certain staff members who had an interest in the matter were also present.

The General Counsel of the Commission, or his designee, certified that, in his opinion, one or more of the exemptions set forth in 5 U.S.C. 552b(c)(5), (7), (9)(A), (9)(B), and (10) and 17 CFR 200.402(a)(5), (7), 9(i), 9(ii) and (10), permitted consideration of the scheduled matter at the closed meeting.

At times, changes in Commission priorities require alterations in the

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–45574; File No. SR–CBOE–2001–63]

Self-Regulatory Organizations; Order Approving Proposed Rule Change and Amendment No. 1 Thereto and Notice of Filing and Order Granting Accelerated Approval of Amendment No. 2 Thereto by the Chicago Board Options Exchange, Inc. Relating to the Exchange's AutoQuote System

March 15, 2002.

I. Introduction

On December 17, 2001, the Chicago Board Options Exchange, Inc. ("CBOE" or "Exchange") submitted to the Securities and Exchange Commission ("Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and Rule 19b–4 thereunder,[2] a proposed rule change relating to the Exchange's Auto-Quote System. The Exchange filed Amendment No. 1 to the proposed rule change on February 7, 2002.[3] The **Federal Register** published the proposed rule change and Amendment No. 1 for comment on February 13, 2002.[4] The Exchange filed Amendment No. 2 to the proposed rule change on March 7, 2002.[5] The Commission received no comments on the proposed rule change. This order approves the proposed rule change, as amended by Amendment No. 1, and issues notice of, and grants accelerated approval to, Amendment No. 2.

II. Description of Proposal

CBOE Rule 8.15 currently provides that the appropriate MPC may appoint Lead Market-Makers ("LMMs") and Supplemental Market-Makers ("SMMs") for a specified period of time to participate in opening rotations in S&P 100 options ("OEX") and options on the Dow Jones Industrial Average ("DJX"). The proposed rule change amends CBOE Rule 8.15 to make explicit in the rule that the appropriate Market Performance Committee ("MPC") may appoint LMMs and SMMs to determine a formula for generating automatically updated market quotations and to use the Exchange's AutoQuote system or to provide a proprietary automated quotation updating system to monitor and automatically update market quotations during the trading day in any options class for which a Designated Primary Market-Maker ("DPM") has not been appointed.

Proposed new paragraph (d) of CBOE Rule 8.15 provides that LMMs and SMMs appointed pursuant to the CBOE Rule 8.15 to determine a formula for generating automatically updated market quotations must, for the period in which its acts as LMM or SMM, use the Exchange's AutoQuote system or a proprietary automated quotation updating system to update market quotations during the trading day. Proposed paragraph (d) also requires LMMs to disclose to the trading crowd the variables of the formula for generating automatically updated market quotations unless exempted by the appropriate MPC. Proposed paragraph (d) further provides a cross-reference to the requirements of Interpretation .07 to CBOE Rule 8.7, which sets forth the AutoQuote obligations of market makers.[6] The Exchange also proposes to eliminate the references to S&P 100 options and options on the DJX from CBOE Rule 8.15 so that the appropriate MPC may appoint LMMs and SMMs in other options classes without having to file a proposed rule change with the Commission.

III. Discussion

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.[7] Specifically, the Commission believes that the proposed rule change is consistent with the Section 6(b)(8)[8] requirement that the rules of an exchange not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

The Commission believes that the proposed rule change should deter collective action, except as authorized by the Exchange's rules, by clearly establishing in the Exchange's rules the responsibilities of, and conduct permitted by, Exchange members in setting AutoQuote parameters. For instance, the proposal amends CBOE Rule 8.15 to make explicit in the rule that in options for which a DPM has not been appointed, the Exchange's MPC may appoint LMMs and SMMs to determine a formula for generating automatically updated market quotations and to use the Exchange's AutoQuote system or to provide a proprietary automated quotation updating system. The Commission believes this provision should clarify the obligations of LMMs and SMMs with respect to the Exchange's AutoQuote system. In addition, the proposal would permit the LMM or SMM to receive input from members of the crowd in setting the parameters of the formula used to automatically update options quotations. At this time, the Commission believes it is reasonable for the Exchange's rules to permit members of the crowd to be given a voice in setting AutoQuote parameters because, pursuant to the Exchange's rules, they will be obligated to execute orders at the resultant quote.[9]

Finally, the Commission finds that the proposed rule change is designed to effectively limit the circumstances in which collective action is permissible.

The Commission finds good cause for accelerating approval of Amendment No. 2 because it clarifies the obligations of LMMs and SMMs regarding AutoQuote. Accordingly, the Commission finds that good cause exists, consistent with sections 6(b)(5) of the Act,[10] and section 19(b)(2) of the Act[11] to accelerate approval of Amendment No. 2 to the proposed rule change prior to the thirtieth day after publication in the **Federal Register**.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning Amendment No. 2, including whether the Amendment No. 2 is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549–0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the CBOE. All submissions should refer to File No. SR–CBOE–2001–63 and should be submitted by April 15, 2002.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[12] that the proposed rule change (SR–CBOE–2001–63), as amended, is approved, and Amendment No. 2 is approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[13]

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–45591; File No. SR–MSRB–2002–01]

Self-Regulatory Organizations; Municipal Securities Rulemaking Board; Order Granting Approval of Proposed Rule Change Relating to Rule G–17 on Disclosure of Material Facts

March 18, 2002.

On January 25, 2002, pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Exchange Act")[1] and Rule 19b–4 thereunder,[2] the Municipal Securities Rulemaking Board ("MSRB") filed with the Securities and Exchange Commission ("Commission") the proposed rule change relating to Rule G–17, on disclosure of material facts.

The Commission published the proposed rule change for comment in the **Federal Register** on February 12, 2002.[3] The Commission received no comment letters relating to the forgoing proposed rule change. This order approves the proposal.

I. Description of the Proposed Rule Change

The proposed rule change provides an interpretation of the duty to deal fairly set forth in Rule G–17. The MSRB's proposed this interpretation to set forth an expanded explanation of what Rule G–17's obligation to "disclose all material facts" means in today's innovative market. The MSRB believes that technological changes necessitate interpretive guidance for the application of certain rules. Alternative trading systems present the most graphic example of changing dealer/customer relationships and the consequent need for regulatory change, but these relationship obligations are not necessarily limited to electronic trading venues.

As part of a dealer's obligation to deal fairly, the MSRB has consistently interpreted that Rule G–17 creates affirmative disclosure obligations for brokers, dealers and municipal securities dealers (collectively, "dealers"). The MSRB has stated that a dealer's affirmative disclosure obligations require that a dealer disclose, at or before the sale of municipal securities to a customer, all material facts concerning the transaction, including a complete description of the security.[4] These obligations apply even when a dealer is acting as an order taker and effecting non-recommended secondary market transactions.

Rule G–17 requires that dealers disclose to a customer at the time of trade all material facts about a transaction known by the dealer. In addition, a dealer is required to disclose material facts about a security when such facts are reasonably accessible to the market. Thus, a dealer would be responsible for disclosing to a customer any material fact concerning a municipal securities transaction made publicly available through sources such as the NRMSIR system, the MSIL® system, TRS, rating agency reports and other sources of information relating to the municipal securities transaction generally used by dealers that effect transactions in the type of municipal securities at issue (collectively, "established industry sources").[5]

In addition to the basic disclosure obligations, the duty to "deal fairly" is intended to "refer to the customs and practices of the municipal securities markets, which may, in many instances differ from the corporate securities markets."[6] The customs and practices of the industry suggest that the sources of information generally used by a dealer that effects transactions in municipal securities may vary with the type of municipal security. For example, a dealer might have to draw on fewer industry sources to disclose all material facts about an insured "triple-A" rated general obligation bond than for a non-rated conduit issue. In addition, to the extent that a security is more complex, for example, because of complex structure or where credit quality is changing rapidly, a dealer might need to take into account a broader range of information sources prior to executing a transaction.

II. Discussion

The MSRB believes that the proposed rule change is consistent with section 15B(b)(2)(C) of the Exchange Act.[7] The

UMI

MSRB believes that this rule satisfies this standard because it is intended to clarify that a dealer's general obligation to provide disclosure is viewed within the context of reasonably available information about the municipal security and the dealer's actual knowledge of the municipal security. Additionally, the MSRB believes that the proposed rule change will not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Exchange Act, since it applies equally to all brokers, dealers and municipal securities dealers.

The Commission must approve a proposed MSRB rule change if the Commission finds that the MSRB's proposal is consistent with the requirements of the Exchange Act and the rules and regulations thereunder that govern the MSRB.[8] The language of section 15B(b)(2)(C) of the Exchange Act requires that the MSRB's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principals of trade, to foster cooperation and coordination with persons engaged in regulating, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national system, and, in general, to protect investors and the public interest.[9]

After careful review, the Commission finds that the MSRB's proposed rule change consisting of an interpretation of Rule G–17, on disclosure of material facts, meets this standard. The Commission believes that this proposed rule change is consistent with the requirements of the Exchange Act, and the rules and regulations thereunder. In particular, the Commission finds that the proposed rule is consistent with the requirements of section 15B(b)(2)(C) of the Act, set forth above.

III. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Exchange Act, [10] that the proposed rule change (File No. SR–MSRB–2002–01) be and hereby is, approved.

mechanism of a free and open market in municipal securities, and, in general, to protect investors and the public interest.

[8] Additionally, in approving this rule, the Commission notes that it has considered the proposed rule's impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

[9] 15 U.S.C. 78o–4(b)(2)(c).

[10] 15 U.S.C. 78s(b)(2).

BILLING CODE 8010–01–U

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–45573; File No. SR–Phlx–2001–33]

Self-Regulatory Organizations; Order Approving Proposed Rule Change and Amendment Nos. 1 and 2 Thereto by the Philadelphia Stock Exchange, Inc. Relating to Solicitation of Trading Interest on the Exchange Floor

March 15, 2002.

I. Introduction

On March 8, 2001, the Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] and Rule 19b–4 thereunder,[2] a proposed rule change to adopt Phlx Rule 1033(a)(ii) and Options Floor Procedure Advice ("OFPA") F–32 pertaining to the solicitation of quotations.[3] On May 11, 2001, the Exchange filed Amendment No. 1 to the proposed rule change with the Commission.[4] On November 21, 2001, the Exchange filed Amendment No. 2 to the proposed rule change with the Commission.[5] The proposed rule change and Amendment Nos. 1 and 2 were published in the **Federal Register** on February 12, 2002.[6] No comments were received regarding the proposal. This order approves the proposed rule change, as amended.

II. Description of the Proposal

The Exchange proposes to adopt Phlx Rule 1033(a)(ii) and OFPA F–32, which would permit the members of a trading crowd (including the specialist and Registered Options Traders ("ROTs")) to discuss, negotiate, and agree upon the price or prices at which an order of a size greater than the AUTO–X guarantee can be executed at that time, or the number of contracts that can be executed at a given price or prices in response to a floor broker's request for a single bid or offer. The proposal would expressly permit a collective response from trading crowd members. However, members would not be required to participate in a collective response and may voice a bid or offer independently from, and differently from, the trading crowd members. In fact, an individual ROT with the necessary liquidity, willing to execute a trade at a price better than the prevailing market, could bid against the crowd and take the entire trade, or part of the trade, pursuant to the Phlx allocation rules.[7]

III. Discussion

After careful consideration the Commission has determined to approve the proposed rule change. For the reasons discussed below, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange,[8] and, in particular, with section 6(b)(8) of the Act,[9] which requires that the rules of an exchange do not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

This proposed rule change will clearly establish in the Phlx's rules the parameters under which Phlx specialists and ROTs may coordinate to respond efficiently to the needs of investors, while fulfilling their duty to make fair and orderly markets. In particular, the proposed rule change will allow the trading crowd, in response to a floor broker's request for a single bid or offer for a large size order, to collectively discuss, negotiate and agree upon the price or prices at which an order of a size greater than the AUTO–X guarantee can be executed at that time, or the number of contracts that can be executed at a given price or prices.

The Commission believes that this proposed rule change recognizes the desire of the marketplace to provide a single price to a request to fill a large order that a single member might not be able to fill. The Commission believes that any anticompetitive effect of this proposal is limited by requiring that there be a request for a single price and that the order be sufficiently large.[10] In addition, the Commission notes that under the proposed rule change, a single crowd participant may voice a bid or offer independently from, and differently from, the specialist and other members of a trading crowd in order to execute the entire order or part of the order.[11]

Finally, the Commission finds that the proposed rule change is designed to effectively limit the circumstances in which collective action is permissible.

IV. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[12] that the proposed rule change (SR–Phlx–2001–33) is approved, as amended.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[13]

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8025–01–P

SMALL BUSINESS ADMINISTRATION

Notice Seeking Exemption Under Section 312 of the Small Business Investment Act, Conflicts of Interest

Notice is hereby given that TD Lighthouse Capital Fund, L.P. ("TD Lighthouse"), 303 Detroit Street, Suite 301, Ann Arbor, Michigan 48104, and TD Origin Capital Fund, L.P. ("TD Origin"), 150 Washington Avenue, Santa Fe, New Mexico, Federal Licensees under the Small Business Investment Act of 1958, as amended ("the Act"), in connection with the financing of a small concern, has sought an exemption under section 312 of the Act and section 107.730, Financings which Constitute Conflicts of Interest, of the Small Business Administration ("SBA") rules and regulations (13 CFR 107.730 (2002)). TD Lighthouse and TD Origin propose to provide equity financing to LivHome, Inc. ("LivHome"), 5900 Wilshire Boulevard, Suite 705, Los Angeles, California 90036. The financing is contemplated for market expansion and working capital.

The financing is brought within the purview of Section 107.730(a)(1) of the Regulations because Tullis Dickerson Capital Focus II, L.P. and TD Javelin Capital Fund II, L.P., Associates of both TD Lighthouse and TD Origin, currently and collectively own greater than 10 percent of LivHome, and therefore LivHome is considered an Associate of TD Lighthouse and TD Origin as defined in Section 107.50 of the Regulations.

Notice is hereby given that any interested person may submit written comments on the transaction to the Associate Administrator for Investment, U.S. Small Business Administration, 409 Third Street, SW, Washington, DC 20416.

Dated: March 19, 2002.

Harry Haskins,

Acting Associate Administrator for Investment.

DEPARTMENT OF TRANSPORTATION

Maritime Administration

[Public Notice 3917]

Secretary of State's Advisory Committee on Private International Law (ACPIL), Study Group on International Carriage of Goods by Sea; Meeting Notice

There will be a public meeting of a Study Group of the Secretary of State's Advisory Committee on Private International Law on Friday April 5, 2002, to consider the draft instrument on the International Carriage of Goods by Sea, as prepared by the Comité Maritime International (CMI) for the United Nations Commission on International Trade Law (UNCITRAL). The meeting will be held from 2 p.m. to 5 p.m. in the offices of Haight Gardner Holland & Knight, Suite 100, 2099 Pennsylvania Avenue, NW., Washington, DC.

The purpose of the Study Group meeting is to assist the Departments of State and Transportation in determining the U.S. negotiating position for the first session of the UNCITRAL Working Group on this draft instrument, to be held in New York from April 15 to 26, 2002.

A copy of the preliminary draft convention is available on UNCITRAL's website, *www.uncitral.org.* The Study Group meeting is open to the public up to the capacity of the meeting room. Persons wishing to attend should contact Miss Rosie Gonzales by fax at 202–776–8482, by telephone at 202–776–8420 or by e-mail at *gonzaler@ms.state.gov,* providing their name, affiliation, telephone and fact number, and e-mail address. Persons who wish to have their views considered are encouraged to submit written comments in advance of the meeting. Comments should refer to Docket number MARAD–2001–11135. Written comments may be submitted to the Docket Clerk, U.S. DOT Dockets, Room PL–401, Department of Transportation, 400 7th St., SW., Washington, DC 20490–0001. You may also send comments electronically via the Internet at *http://dmses.dot.gov/*

BILLING CODE 4710–08–P

TENNESSEE VALLEY AUTHORITY

Sunshine Act; Meeting

Agency Holding the Meeting: Tennessee Valley Authority (Meeting No. 1538).

Time and Date: 9 a.m. (CST), March 26, 2002.

Place: Trousdale County Courthouse, 200 East Main Street, Hartsville, Tennessee.

Status: Open.

Agenda

Approval of minutes of meeting held on January 22, 2002.

New Business

C—Energy

C1. Sale at public auction of two coal leases on the TVA Illinois Coal Reserves and delegation of authority to the Executive Vice President, Fossil Power Group, to administer and amend the leases to maximize royalty income to TVA.

C2. Contract with Martin Marietta Aggregates for limestone supply for Cumberland Fossil Plant.

C3. Contract with Vulcan Materials Company for limestone supply for Widows Creek Fossil Plant Units 7 and 8.

C4. Contract with KenAmerican Resources, Inc., for coal supply for Paradise Fossil Plant Units 1 and 2.

C5. Contract with Liberty Coal Company, LLC, for coal supply for Shawnee Fossil Plant Unit 10.

C6. Extension of Contract No. CO0107–01 with Hopkins County Coal, LLC for coal supply for Widows Creek Fossil Plant Units 7 and 8 and award of a contract to Synfuel Solutions Operating, LLC for synthetic fuel to be manufactured from coal produced by Hopkins County Coal.

C7. Delegation of authority to enter into a coal transloading and blending services contract with Calvert City Terminal LLC for delivery to various TVA fossil plants.

C8. Contract with Cameco, Inc., for the supply of uranium trioxide to be used as blend stock to convert highly enriched uranium transferred to TVA from DOE into low enriched uranium suitable for use in nuclear fuel at TVA's Browns Ferry Nuclear Plant.

C9. Supplements to contracts with Adecco, Midpoint International, Inc., and Westaff to continue staff augmentation engineering and technical support services for all TVA organizations.

E—Real Property Transactions

E1. Public auction sale of approximately 554 acres of TVA land on the Hartsville Nuclear Plant Site Reservation for industrial/commercial development purposes only in Trousdale and Smith Counties, Tennessee (Tract No. XOHNP–2).

E2. Sale of noncommercial, nonexclusive permanent easements to Johnny and Lynn Solomon (Tract No. XTELR–224RE) and Michael and Nancy Huddleston (Tract No. XTELR–225RE) for construction, operation, and maintenance of private water-use facilities affecting approximately .08 acre of land on Tellico Reservoir in Monroe and Loudon Counties, Tennessee.

E3. Grant of permanent and temporary construction easements, without charge, except for payment of administrative costs, to the city of Jefferson City, Tennessee, affecting approximately 2.2 acres of land on Cherokee Reservoir in Jefferson County, Tennessee (Tract No. XTCK–66S), for a sewer line and pump station.

E4. Grant of a permanent easement for a substation, without charge, except for payment of administrative costs, to Appalachian Electric Cooperative affecting approximately 8.8 acres of land on Cherokee Dam Reservation in Grainger County, Tennessee (Tract No. XTCK–65SS).

E5. Modification of deed restrictions affecting approximately 11.9 acres of former TVA land on Chickamauga Reservoir (a portion of Tract No. XCR–188) in Rhea County, Tennessee.

E6. Grant of a permanent easement, without charge, except for administrative costs, to the city of Dayton, Tennessee, for recreation purposes affecting approximately 91.5 acres of land on Chickamauga Reservoir in Rhea County, Tennessee (Tract No. XTCR–199RE).

E7. Grant of a 5-year term easement, without charge, except for administrative costs, to the Watts Bar Utility District for a well, water storage tank, and waterlines affecting approximately 3.2 acres of land on Watts Bar Reservoir in Rhea County, Tennessee (Tract No. XTWBR–142E).

E8. Sale of a permanent easement to Jeff Pearcy for a road and utilities easement affecting approximately 0.53 acre of land on Kentucky Reservoir in Decatur County, Tennessee (Tract No. XGIR–938H).

E9. Grant of a permanent easement, without charge, except for payment of administrative costs, to the State of Tennessee for highway improvement purposes affecting approximately 1.1 acres of land on Melton Hill Reservoir in Anderson County, Tennessee (Tract No. XTMHR–20H).

E10. Grant of a permanent easement, without charge, except for payment of administrative costs, to the Bond Cemetery Perpetual Care Fund, Inc., for a cemetery expansion affecting approximately 1.6 acres of land on Cedar Creek Reservoir in Franklin County, Alabama (Tract No. XTBCCER–2CE).

E11. Grant of a permanent easement, without charge, except for payment of administrative costs, to the Alabama Department of Conservation and Natural Resources for general governmental and storage space purposes, affecting approximately 7 acres of land on Wheeler Reservoir in Limestone County, Alabama (Tract No. XTWR–108B).

E12. Public auction sale for commercial development purposes of approximately 4.1 acres of land on the Muscle Shoals Reservation in Colber County, Alabama (Tract No. X2NPT–16).

F—Other

F1. Approval to file condemnation cases to acquire transmission line easements of rights-of-way affecting Tracts Nos. HCVB–1, –2, –43, –45, –47, –49, –51, –54, –68, –71, –55 and –76, Hanceville-Bremen Transmission Line in Cullman County, Alabama, and Tracts Nos. SEM–1, –3, –38, and –29, Sturgis-Eupora Tap to Maben Transmission Line in Choctaw and Webster Counties, Mississippi.

Information Items

1. Approval of the renewal of the Regional Resource Stewardship Council charter for an additional 2 years.

2. Approval of the extension of Contract No. CO0036–01 with AEI Resources, Inc., for coal supply to Widows Creek Fossil Plant.

3. Approval of an amendment to the Business Practice entitled "The Acquisition and Disposal of Fossil Fuels and Related Transportation and Storage" to standardize and streamline TVA's fuel acquisition process and to reflect recent changes in the strategic alignment of the Fossil Power Group.

4. Approval of an amendment to the Business Practice entitled "The Sale or use of Coal Combustion By-Products and Related Services" to reflect recent changes in the strategic alignment of the Fossil Power Group.

For more information: Please call TVA Media Relations at (865) 632–6000, Knoxville, Tennessee. Information is also available at TVA's Washington Office (202) 898–2999. People who plan to attend the meeting and have special needs should call (865) 632–6000. Anyone who wishes to comment on any of the agenda in writing may send their comments to: TVA Board of Directors, Board Agenda Comments, 400 West Summit Hill Drive, Knoxville, Tennessee 37902.

Dated: March 19, 2002.

Maureen H. Dunn,

General Counsel and Secretary.

BILLING CODE 8120–08–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Flammability Test Method for Aircraft Blankets

AGENCY: Federal Aviation Administration.

ACTION: Notice of availability for public comment.

SUMMARY: This notice announces the availability of and requests comments on a proposed Technical Standard Order (TSO) pertaining to a flammability test method for aircraft blankets. The proposed TSO prescribes the minimum performance standards that aircraft blankets must meet to be identified with the marking "TSO–C152."

DATES: Comments must identify the TSO file number and be received on or before June 7, 2002.

ADDRESSES: Send all comments on the proposed technical standard order to: Technical Programs and Continued Airworthiness Branch, AIR–120, Aircraft Engineering Division, Aircraft Certification Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591. Or deliver comments to: Federal Aviation Administration, Room 815, 800 Independence Avenue, SW., Washington, DC 20591. Comments must identify the TSO file number.

FOR FURTHER INFORMATION CONTACT: Mr. Hal Jensen, Technical Programs and Continued Airworthiness Branch, AIR–120, Aircraft Engineering Division, Aircraft Certification Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, FAX No. (202) 267–5340.

Comments Invited

Interested persons are invited to comment on the proposed TSO listed in this notice by submitting such written data, views, or arguments as they desire to the above specified address. Comments received on the proposed technical standard order may be examined, before and after the comment closing date, in Room 815, FAA Headquarters Building (FOB–10A), 800 Independence Avenue, SW., Washington, DC 20591, weekdays except Federal holidays, between 8:30 a.m. and 4:30 p.m. All communications received on or before the closing date for comments specified above will be considered by the Director of the Aircraft Certification Service before issuing the final TSO.

Background

This TSO is proposed to provide minimum performance standards for the flammability characteristics of blankets to be used for passenger comfort in aircraft cabins.

On November 28, 1993, the pilot of a Northwest Airlines B727–200 aircraft declared an emergency after a fire was reported in an overhead stowage bin. The fire was noticed just as the aircraft was being pushed back from the loading gate at Dorval International Airport. The fire was extinguished by crew members and all passengers were safely evacuated.

The stowage bin involved in the fire contained a personal carry-on bag and five 100 percent polyester airline blankets in two separate piles. The blankets were supplied by two different manufacturers. Upon completion of their investigation, the Transportation Safety Board (TSB) of Canada determined that the original source of fuel for the fire was the 100 percent polyester airline blankets. This conclusion was based on TSB testing of a section of unburned blanket. In their first test, a lit match was placed at the edge of the blanket. In their second test, a lit match was placed on top of the blanket. In both cases, the blanket ignited and rapid propagation of flame was observed.

The Federal Aviation Administration (FAA) does not require flammability testing of airline blankets. Therefore in light of the above incident, the U.S. National Transportation Safety Board asked the FAA to develop a fire performance test method and performance criteria for blankets suppled to commercial airline operators. At that time, many airlines used blankets that met only the FAA vertical Bunsen burner test criteria specified in Title 14 Code of Federal Regulations § 25.853. However, this test may be inappropriate as a measurement of ignitability for certain types of blankets since the polyester blankets involved in the Northwest Airlines B727–200 fire met the test criteria.

In March 1996, the FAA's Technical Center completed the development of a flammability test for blankets. The Technical Center published its report and included it in the FAA's Aircraft Materials Fire Test Handbook. In August 1996, the FAA issued Flight Standards Information Bulletin for Air Transportation (FSAT) 96–11 that recommended that air carriers replace old blankets at the end of their service life with blankets that met these new FAA-developed standards.

FSAT 96–11 expired in August 1997, and industry no longer had an FAA-approved flammability standard for aircraft blankets to reference. Therefore, the FAA is issuing Technical Standard Order (TSO) C152, Flammability Test Method for Aircraft Blankets.

How To Obtain Copies

A copy of the proposed TSO–C152 may be obtained via the Internet, http://www.faa.gov/avr/air/100home.htm, or on request from the office listed under "For Further Information Contact." Copies of Advisory Circular (AC) 20–115, Radio Technical Commission for Aeronautics, Inc., Document RTCA/DO–178, AC 25–17, Transportation Airplane Cabin Interiors Crashworthiness Handbook, and DOT/FAA/CT–89/15, "Aircraft Materials Fire Test Handbook," may be obtained from the U.S. Department of Transportation, Subsequent Distribution Office, SVC–121.23, 3341 Q 75th Avenue, Landover, MD 20785. Department of Transportation (DOT) Specifications may be purchased from the U.S. Department of Transportation Records Center, 400 7th Street SW, Washington, DC 20590.

BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Burleigh and Morton Counties, ND

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Burleigh and Morton Counties, North Dakota.

FOR FURTHER INFORMATION CONTACT: Calvin Larson, Environment and Design Engineer, Federal Highway Administration, 1471 Interstate Loop, Bismarck, North Dakota 58503–0567, Telephone: (701) 250–4204; Terrence Udland, Bridge Engineer, North Dakota Department of Transportation, 608 East Boulevard Avenue, Bismarck, North Dakota 58505–0700, Telephone: (701) 328–1969.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the North Dakota Department of Transportation, will prepare an environmental impact statement (EIS) to determine the best long-term solution for the Liberty Memorial Bridge crossing of the Missouri River. The proposed improvement would involve the rehabilitation or reconstruction of the bridge and approach roadways.

The existing bridge is 80 years old and has developed extensive deterioration and damage due to weathering, ice control chemicals, and traffic conditions. In addition, the bridge approach geometry and lane widths do not conform to current highway standards and therefore constitute a safety hazard. Emergency repairs to the pier caps were completed in 2001. These repairs were limited and are projected to last for only five years.

The bridge is listed on the National Register of Historic Places. It was christened the Liberty Memorial Bridge in honor of North Dakota World War I soldiers. It was the first vehicular bridge over the Missouri River in North Dakota. At the time it was completed, it was the only vehicular bridge between Great Falls, Montana and Sioux City, Iowa. It was also the final link in the coast-to-coast National Parks Highway, later designated U.S. Highway 10.

The alternatives that will likely be evaluated include (1) taking no action; (2) rehabilitating the existing bridge; (3) rehabilitating the existing bridge and constructing a new bridge adjacent to the existing; and (4) constructing a new bridge in the vicinity of the existing bridge and demolishing the existing bridge.

Letters describing the proposed action and soliciting views and comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have an interest in this proposal. Public scoping meetings for identifying significant issues to be addressed in the environmental impact statement will be held on April 8, 2002 in the Bismarck, North Dakota, City Council Chamber and on April 9, 2002 in the Mandan, North Dakota, City Council Chamber.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the North Dakota Department of Transportation or FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation of Federal programs and activities apply to this program)

Issued on: March 8, 2002.

J. Michael Bowen,

Division Administrator, Federal Highway Administration, Bismarck, North Dakota.

BILLING CODE 4910–22–M

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Ex Parte No. 290 (Sub No. 5) (2002–2)]

Quarterly Rail Cost Adjustment Factor

AGENCY: Surface Transportation Board, DOT.

ACTION: Approval of rail cost adjustment factor.

SUMMARY: The Board has approved the second quarter 2002 rail cost adjustment factor (RCAF) and cost index filed by the Association of American Railroads. The second quarter 2002 RCAF (Unadjusted) is 1.062. The second quarter 2002 RCAF (Adjusted) is 0.563. The second quarter 2002 RCAF–5 is 0.541.

EFFECTIVE DATE: April 1, 2002.

FOR FURTHER INFORMATION CONTACT: H. Jeff Warren, (202) 565–1533. Federal Information Relay Service (FIRS) for the hearing impaired: 1–800–877–8339.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Board's decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Dā-To-Dā Legal, Suite 405, 1925 K Street, NW, Washington, D.C. 20006, phone (202) 293–7776. [Assistance for the hearing impaired is available through FIRS: 1–800–877–8339.]

This action will not significantly affect either the quality of the human environment or energy conservation.

Pursuant to 5 U.S.C. 605(b), we conclude that our action will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Decided: March 19, 2002.

By the Board, Chairman Morgan and Vice Chairman Burkes.

Vernon A. Williams,

Secretary.

BILLING CODE 4915–00–P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Docket No. AB–565 (Sub–No. 6X); STB Docket No. AB–55 (Sub–No. 604X)]

New York Central Lines, LLC—Abandonment Exemption—in Shelby County, OH; CSX Transportation, Inc.—Discontinuance of Service Exemption—in Shelby County, OH

New York Central Lines, LLC (NYC) and CSX Transportation, Inc. (CSXT) have filed a notice of exemption under 49 CFR 1152 subpart F—*Exempt Abandonments and Discontinuonces of Service* for NYC to abandon and CSXT to discontinue service over approximately .90 miles of railroad between milepost QIO 163.98 and milepost QIO 163.08 in Sidney, Shelby County, OH.[1] The line traverses United States Postal Service Zip Code 45365.

[1] Pursuant to Board authorization in 1998, CSX Corporation, CSXT's parent company, and Norfolk Southern Corporation jointly acquired control of Conrail Inc., and its wholly owned subsidiary, Consolidated Rail Corporation (Conrail). As a result of that acquisition, certain assets of Conrail have been assigned to NYC, a wholly owned subsidiary of Conrail, to be exclusively operated by CSXT pursuant to an operating agreement. The line to be abandoned is included among the property being operated by CSXT pursuant to the NYC operating agreement.

NYC and CSXT have certified that: (1) No local traffic has moved over the line for at least 2 years; (2) there is no overhead traffic on the line; (3) no formal complaint filed by a user of rail service on the line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Surface Transportation Board (Board) or with any U.S. District Court or has been decided in favor of complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental reports), 49 CFR 1105.8 (historic reports), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to these exemptions, any employee adversely affected by the abandonment or discontinuance shall be protected under *Oregon Short Line R. Co.—Abandonment-Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed. Provided no formal expression of intent to file an offer of financial assistance (OFA) has been received, these exemptions will be effective on April 24, 2002, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,[2] formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),[3] and trail use/rail banking requests under 49 CFR 1152.29 must be filed by April 4, 2002. Petitions to reopen or requests for public use conditions under 49 CFR. 1152.28 must be filed by April 15, 2002, with: Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW, Washington, DC 20423.

A copy of any petition filed with the Board should be sent to applicants' representative: Natalie S. Rosenberg, Counsel, CSX Transportation, Inc., 500 Water Street J150, Jacksonville, FL 32202.

If the verified notice contains false or misleading information, the exemption is void *ab initio*.

NYC and CSXT have filed an environmental report which addresses the effects, if any, of the abandonment and discontinuance on the environment and historic resources. SEA will issue an environmental assessment (EA) by March 29, 2002. Interested persons may obtain a copy of the EA by writing to SEA (Room 500, Surface Transportation Board, Washington, DC 20423) or by calling SEA, at (202) 565–1552. [TDD for the hearing impaired is available at 1–800–877–8339.] Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), NYC shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by NYC's filing of a notice of consummation by March 25, 2003, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our Web site at www.stb.dot.gov.

Decided: March 15, 2002.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

[FR Doc. 02–6869 Filed 3–22–02; 8:45 am]

BILLING CODE 4915–00–P

[2] The Board will grant a stay if an informed decision on environmental issues (whether raised by a party or by the Board's Section of Environmental Analysis (SEA) in its independent investigation) cannot be made before the exemption's effective date. *See Exemption of Out-of-Service Rail Lines*, 5 I.C.C.2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemption's effective date.

[3] Each offer of financial assistance must be accompanied by the filing fee, which currently is set at $1000. *See* 49 CFR 1002.2(f)(25). This fee is scheduled to increase to $1,100, effective April 8, 2002.

Corrections

Regulation of Hazardous Oil-Bearing Secondary Materials From the Petroleum Refining Industry and Other Hazardous Secondary Materials Processed in a Gasification System To Produce Synthesis Gas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing revisions to the RCRA hazardous waste program to allow a conditional exclusion from the definition of solid waste. This exclusion would be for hazardous oil-bearing secondary materials generated by the petroleum refinery industry when these materials are processed in a gasification system to produce synthesis gas fuel and other non-fuel chemical by-products. We are proposing this exclusion to put the gasification of these hazardous oil-bearing secondary materials on the same regulatory footing (i.e., excluded) as other hazardous secondary materials returned to a petroleum refining process. If adopted, this proposal will establish a more consistent regulatory framework for this practice, potentially enhancing the use of this technology, as well as establishing conditions on the practice to assure the legitimacy of this fuel manufacturing activity.

We are also soliciting comment on a proposal that would extend the conditional exclusion to other hazardous secondary materials generated by industries (other than the petroleum refining industry).

DATES: EPA will accept public comment on this proposed rule until June 24, 2002. Comments postmarked after the close of the comment period will be stamped "late" and may or may not be considered by the Agency.

ADDRESSES: Commenters should submit an original and two copies of their comments referencing Docket Number F–2002–RPRP–FFFFF to: (1) If using regular U. S. Postal Service mail: RCRA Docket Information Center, Office of Solid Waste (5305G), U.S. Environmental Protection Agency Headquarters (EPA–HQ), 1200 Pennsylvania Avenue, NW., Washington, DC 20460–0002, or (2) If using special delivery, such as overnight express service: RCRA Docket Information Center (RIC), Crystal Gateway One, 1235 Jefferson Davis Highway, First Floor, Arlington, VA 22202. The official record (i.e., public docket) for this proposed rulemaking is F–2001–RPRP–FFFFF. In addition to this official record, two additional dockets have material supporting this proposal. They are: F–98–PR2A–FFFFF and F–98–RCSF–FFFFF.

Public comments and supporting materials are available for viewing in the RCRA Docket Information Center (RIC), located at Crystal Gateway I, First Floor, 1235 Jefferson Davis Highway, Arlington, VA. The RIC is open from 9 a.m. to 4 p.m., Monday through Friday, excluding Federal holidays. To review docket materials, it is recommended that the public make an appointment by calling 703–603–9230. The public may copy a maximum of 100 pages from any regulatory docket at no charge. Additional copies cost $0.15/page. The index and some supporting materials are available electronically. See the "Supplementary Information" section for information on accessing them.

FOR FURTHER INFORMATION CONTACT: For general information, contact the RCRA Hotline at 1–800–424–9346 or TDD 1–800–553–7672 (hearing impaired). In the Washington, DC, metropolitan area, call 703–412–9810 or TDD 703–412–3323. The RCRA Hotline is open Monday-Friday, 9 am to 6 pm, Eastern Standard Time. For more detailed information on specific aspects of this proposed rulemaking, contact Elaine Eby at 703–308–8449 or *eby.elaine@epa.gov*, or write her at the Office of Solid Waste, 5302W, U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Avenue, NW., Washington, DC 20460–0002.

SUPPLEMENTARY INFORMATION:

Electronic Comment Submission

You may submit comments electronically through the Internet to: rcra-docket@epa.gov. You should identify comments in electronic format with the docket number F–2002–RPRP—FFFFF. All electronic comments must be submitted as an ASCII (text) file avoiding the use of special characters and any form of encryption. If possible, EPA's Office of Solid Waste (OSW) would also like to receive an additional copy of the comments on disk in WordPerfect 6.1 file format.

Commenters should not submit electronically any confidential business information (CBI). An original and two copies of CBI must be submitted under separate cover to: RCRA CBI Document Control Officer, Office of Solid Waste (5305W), U.S. EPA, 1200 Pennsylvania Avenue, NW., Washington, DC 20460–0002.

Availability of the Proposal on the Internet

Please follow these instructions to access the proposal: From the World Wide Web (WWW) type *http://www.epa.gov/epaoswer/hazwaste/gas.htm*.

The official record for this action will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into paper form and place them in the official record, which will also include all comments submitted directly in writing. The official record is the paper record maintained at the RIC listed in the **ADDRESSES** section at the beginning of this document.

EPA responses to comments, whether the comments are written or electronic, will be published in a notice in the **Federal Register** or in a response to comments document placed in the official record for this proposed rulemaking. EPA will not immediately reply to commenters electronically other than to seek clarification of electronic comments that may be garbled in transmission or during conversion to paper form, as discussed above.

How Can I Influence EPA's Thinking on This Proposed Rule?

In developing this proposal, we tried to address the concerns of all our stakeholders. Your comments will help us improve this rule. We invite you to provide different views on options we propose, new approaches we haven't considered, new data, how this rule may effect you, or other relevant information. We welcome your views on all aspects of this proposed rule, but we request comments in particular on the items we have specifically identified throughout the proposal. Your comments will be most effective if you follow the suggestions below:

- Explain your views as clearly as possible and why you feel that way.
- Provide solid technical and cost data to support your views.
- If you estimate potential costs, explain how you arrived at the estimate.
- Tell us which parts you support, as well as those you disagree with.
- Provide specific examples to illustrate your concerns.
- Offer specific alternatives.
- Refer your comments to specific sections of the proposal, such as the units or page numbers of the preamble, or the regulatory sections.
- Make sure to submit your comments by the deadline in this document.
- Be sure to include the name, date, and docket number with your comments.

The Agency will consider the public comments during development of the final rule related to this action. The Agency urges commenters submitting data in support of their views to include evidence that appropriate quality assurance/quality control (QA/QC) procedures were followed in generating the data. Data the Agency cannot verify through QA/QC documentation may be given less consideration or disregarded in developing regulatory options for the final rule.

I. Statutory Authority

These regulations are proposed under the authority of sections 3001, 3002, 3003, and 3004 of the Solid Waste Disposal Act of 1970, as amended by the Resource Conservation and Recovery Act of 1976 (RCRA), as amended by the Hazardous and Solid Waste Amendments of 1984 (HSWA), 42 U.S.C. 6921, 6922, 6923 and 6924.

II. Summary of Today's Proposal

The Environmental Protection Agency (EPA or the Agency) is today proposing a conditional exclusion from the definition of solid waste. This exclusion will apply to hazardous oil-bearing secondary materials (i.e., sludges, byproducts, or spent materials) generated by the petroleum refining industry (Standard Industrial Classification (SIC) 2911) when processed, either on-site or off-site, in a gasification system to produce synthesis gas fuel and other non-fuel chemical by-products. We are proposing that the exclusion be subject to a set of conditions that specify the following: (1) The system meets the definition of a gasification system; (2) the system generates a synthesis gas fuel that meets the specifications of exempted synthesis gas; (3) the materials generated by the gasification system must not be placed on the land if they exceed the nonwastewater Universal Treatment Standards (UTS) for chromium, lead, nickel, vanadium, arsenic, and antimony (found at 40 CFR 268.48); and (4) the excluded materials must not be placed on the land or speculatively accumulated prior to insertion into the gasification system.

We are also soliciting comment on a proposed option to broaden today's conditional exclusion to other generated hazardous secondary materials.

III. Why Are We Proposing This Exclusion?

We are proposing this exclusion to put gasification of hazardous oil-bearing secondary materials (i.e., sludges, byproducts, or spent materials) on the same regulatory footing, i.e., excluded—as other secondary materials returned to a petroleum refining process. We believe that such operations are better viewed as an aspect of petroleum production rather than as hazardous waste management. (See 63 FR 42110, August 6, 1998) At the present time, gasification systems processing these materials are exempt from RCRA permitting, as recycling units. While the operation itself (i.e., gasification) is exempt, there are numerous RCRA requirements that still apply to the overall operation (e.g., storage and handling). The Agency believes that gasification systems processing hazardous oil-bearing secondary materials from petroleum refineries operate as fuel manufacturing devices whether the operation takes place at a petroleum refinery or elsewhere. As such, we believe that these additional requirements present an unnecessary impediment to a fuel manufacturing activity.[1] We are therefore proposing to revise the current regulations that apply to this activity to better reflect our current way of thinking.

Today's proposal supplements the current exclusions applicable to the petroleum refining industry (found at 40 CFR 261.4(a)(12)). In fact, we are proposing this exclusion for many of the same reasons that we excluded hazardous oil-bearing secondary materials recycled through coking and quench coking processes in the petroleum refining industry. See August 6, 1998, Petroleum Listing Final Rule (see 63 FR 42110).[2] In that rule, we

[1] In a May 25, 1995 letter from Michael Shapiro, Director of the Office of Solid Waste to William Spratlin, Director, EPA Region VII Air, RCRA, and Toxics Division, we explained that our regulations classify gasification devices operating at petroleum refineries to convert waste materials into fuels as recycling devices exempt from RCRA permitting. OSWER Directive 9441.1995(18).

[2] On July 15, 1998, we published in the **Federal Register** (see 63 FR 38139) a Notice Of Data Availability (NODA). In the NODA, we requested comment on extending a then-proposed and now final solid waste exclusion applying to certain recycling activities performed at petroleum refineries (See 63 FR 42110, August 6, 1998). The Agency requested comment as to whether the exclusion should also apply to the recycling of hazardous oil-bearing secondary materials in a gasification system operating at a petroleum refinery. As a result of the comments received on the NODA, the Agency proceeded with investigating whether gasification of oil-bearing hazardous secondary materials from the petroleum industry is better regulated as a recycling waste-management activity or whether it should be excluded as a fuel manufacturing activity. The gasification industry has argued that the current regulatory process does not make sense because secondary materials from the petroleum refining

25
2002
UMI

determined that hazardous oil-bearing secondary materials returned to a petroleum refinery fuel production process need not be regarded as RCRA solid wastes, even though a fuel is ultimately produced. See 63 FR at 42127–42128. Instead, the insertion of petroleum refining residuals back into the refining process can be viewed as a production process that involves the recovery of fuel value from crude oil, which is the basic raw material used in petroleum refining.

In the case of gasification, we are proposing this exclusion because we have determined that the situation is analogous. Gasification of hazardous oil-bearing secondary materials from petroleum refineries involves the recovery of organic components from the residuals of crude oil refining to produce a gaseous fuel, which can be viewed as part of a fuel production process. Particular indicia that this is a production process are the high cost of construction a gasification unit and the exacting product specification that apply to the final product. Furthermore, the gasification process appears to provide a better and more efficient means to recover fuels from oil-bearing materials than provided by quench coking, which we already determined to be a valid process in refining operations (see 63 FR 42114).

If adopted, this exclusion will provide a more consistent regulatory framework for petroleum refineries that wish to include gasification as part of their refining configuration. We also believe it will promote the use of a fuel manufacturing process that produces marketable fuels and chemicals from materials that were otherwise destined for waste treatment, disposal, or a less environmentally benign recycling activity.

IV. What Are the Environmental Benefits of This Proposal?

There are numerous environmental benefits associated with today's proposal. First, if promulgated, the exclusion will reduce the total amount of hazardous waste sent for disposal by petroleum refineries. Based on data from the 1997 Biennial Reporting System (BRS) database, petroleum refineries operating in the United States generate approximately 130 million tons of RCRA hazardous waste annually with at least 7–10 million tons managed in RCRA units.[3] Although equal volumes of these same materials would be generated under this proposal, a large fraction of the waste materials generated by petroleum refineries would be processed into synthesis gas and other co-products reducing the amount of waste materials sent for traditional RCRA treatment and disposal.

If adopted, today's proposal also likely provides additional benefits to the environment because of the unique features of gasification, including: (1) Increased efficiency in the production of electricity; (2) reduction in emissions of acid rain causing pollutants; (3) reduction in particulate matter and pollutants implicated in global warming; (4) increased resource conservation; (5) displacement of virgin materials used in the chemical manufacturing industry by chemicals produced from gasification; and (6) reduction in energy usage and pollution from reductions in the acquisition, transportation, and preparation of virgin materials used in electricity production, petroleum refining and chemical manufacturing industries.

V. Background and Overview

A. How Have Gasification Devices Been Used in the Past?

Gasification devices have a long history of use in the United States for the production of fuels. The use of gasification processes to produce useable quantities of fuel began in the mid 1800's when manufactured gas plants converted coal into hydrogen gas and methane to power city street lamps. Following the widespread use of electricity to power city lights, the operation of manufactured gas plants largely ended. Use of gasification systems to produce fuel from coal or other organic sources increased briefly during the years surrounding and during World War II as the international community experienced a shortage of fuels derived from oil. Following the end of World War II, the use of gasification declined rapidly as more effective techniques to produce fuels from crude oil were developed and crude oil was once again plentiful. In the 1970's, gasification technologies were resurrected to deal with fuel shortages. During this time, the United States Department of Energy (DOE) financed research in gasification technologies that resulted in commercial ventures designed to use the technology to produce higher value fuels from low value coal. Over the last 10 to 15 years, private industry and the DOE have continued their investigation of gasification as a clean coal energy alternative, and have developed better methods to extract fuel value from organic containing materials, as well as developing more efficient turbines to utilize the clean burning fuel.

In recent years, the oil refining and chemical manufacturing industries have configured gasification systems to produce base chemical products and fuels. Presently, gasification systems operate around the world in a number of different configurations. In the United States, gasification systems have been designed to gasify coal, municipal solid waste, tires, petroleum coke, biomass, and oil-bearing hazardous secondary materials into synthesis gas for the production of electricity or use as a feedstock to produce more complex chemical products. Data on the use of gasification to process hazardous waste is limited. Information that does exist, has largely been confined to configurations where the systems produce specialty chemical intermediates from virgin materials, or where the devices produce a fuel from historically waste-like materials that can be burned for energy recovery (e.g., gasification of petroleum refinery secondary materials).

There are two reasons gasification has been used relatively infrequently to process hazardous wastes. First, gasification systems are expensive and generally cost more to construct and operate than conventional process devices utilized by fuel and chemical manufacturers. Second, current regulations (albeit relatively minimal for the gasification of hazardous oil-bearing secondary materials from the petroleum industry) limit operators processing these materials from using them in the most cost effective manner. However, because of increased emphasis on the use of more efficient systems, there is renewed interest in using gasification as a possible method to reduce the volume

industry should not be defined as solid wastes if they are to be processed in a gasification system. Nor is the operation of the gasification system, pursuant to the exemption for recycling processes in 40 CFR 261.6(c)(1), altogether satisfactory to the industry. This is because the resulting synthesis gas fuel remains classified as a hazardous waste fuel (see 40 CFR 261.2(c)(2) (fuels produced from secondary materials are normally themselves wastes) and 40 CFR 261.3(c)(2)(so-called derived from rule, which, as relevant here, states that fuels derived from listed wastes remain hazardous waste-derived fuels)), unless it meets the specification for hazardous constituents set out in 40 CFR 261.38 of the rules. The gasification industry maintains that this regulatory framework discourages the use of gasification as a means to recycle hazardous oil-bearing secondary materials from the petroleum refining industry. Representatives of the petroleum refining industry have suggested that an exclusion from the definition of solid waste for secondary materials processed in a gasification system is a more appropriate classification under RCRA, and would greatly enhance the use of this technology in the industry. Proponents of gasification technologies likewise maintain that petroleum refineries would be more likely to recycle their solid waste if the regulatory status of the devices and the gasification system were clearly identified to be a part of the fuel manufacturing process.

[3] See Regulatory Impacts of Proposed Exclusions of Petroleum Refinery Wastes.

of wastes disposed, and thereby reduce the associated treatment costs of those wastes, while producing valuable commodities from the process.

B. How Do Gasification Systems Operate?

In general, gasification systems are designed to react carbon containing materials and steam at high temperatures under partial oxidation conditions to produce a synthesis gas fuel composed mainly of carbon monoxide and hydrogen. However, all gasification systems do not operate in exactly the same manner. Gasification systems can be designed to operate at high or low pressures, reducing conditions, using dry or wet feed systems, but they are all operated in a manner that limits the complete oxidation of hydrogen and carbon monoxide to water and carbon dioxide. Some gasification systems derive a portion of the energy—in the form of heat—from the partial oxidation of the materials being fed to the system. When the feed materials are partially oxidized, heat is given off. The heat helps sustain the process by promoting the disassociation of other molecular species in the reactor freeing the molecular species for limited oxidation. In gasification systems, this process promotes the formation of hydrogen and carbon monoxide species which are the base compounds in synthesis gas fuel. Using organic materials as both fuel and raw material for the gasification process is one of the reasons the system operates with increased efficiency when compared to traditional power plants that use coal or petroleum coke as their fuel.

Gasification systems generally include two basic components. The first is the high temperature reactor or gasifier and the second is a gas cleanup or polishing system used to remove various contaminants from the raw (un-polished) synthesis gas fuel. The two systems work in conjunction to produce a high purity synthesis gas that can be used directly as a fuel for power production, or used to produce chemicals or fuels in other manufacturing processes. Operators of gasification systems monitor and control the operation to ensure that it is producing a high quality synthesis gas. They monitor and limit parameters such as the BTU value, sulfur content, chloride content, and ash content of the materials fed to the reactor (gasifier). They also continuously monitor and regulate the amount of oxygen fed to the reactor, the temperature of the reactor, and the composition of the raw synthesis gas produced by the reactor. In the synthesis gas cleanup stage, operators monitor and regulate various other parameters that maintain the removal efficiency of the cleanup system. The result of these parameter specifications and attendant monitoring is production of a synthesis gas that meets the desired specifications.

Gasification systems, similar to many of the more traditional fuel production units found at petroleum refineries, are expensive, highly engineered systems that must be carefully operated to produce marketable fuels and co-products in a cost-effective manner. Both traditional petroleum refining processes (e.g., distillation, catalytic cracking, fractionation, thermal cracking, etc.) and gasification systems operate under conditions in which the feed, temperature, and pressure are closely controlled to optimize the production of marketable fuels or fuel components. Owners/Operators of both gasification systems and traditional refinery process units must analyze and characterize the feed materials, in addition to controlling the operation of the unit. Operational control of the gasification system is necessary to optimize the conversion processes occurring in the reaction chamber and to regulate the performance of the gas polishing systems.

C. How Do Gasification Systems Remove Contaminants From Raw Synthesis Gas?

In a gasification system, the gas cleanup or polishing component will be configured and monitored to operate with varying degrees of performance. The operation of the gas cleanup component is determined by the composition of the raw synthesis gas and the product specifications for the fuel and chemicals generated. Generally, the systems operate with sufficient effectiveness to produce a synthesis gas that contains low contaminant levels of sulfur, nitrogen, ash, and metals. The systems used to remove contaminants are generally the same types of systems used in other industrial settings to produce commercial grade chemical compounds or to remove unwanted contaminants from gaseous effluent streams. These systems have a history of use in industrial settings with the parameters that control their operation being well understood.

As we explained earlier, the synthesis gas product from gasification is not released directly to the atmosphere. Gasification systems are generally designed to be closed to the environment. In gasification systems, the raw synthesis gas exits the reactor at a temperature between 1800 and 3000 degrees Fahrenheit (depending on the design and operating characteristics of the device). Generally, after exiting the reactor, heat value from the gas is extracted in systems designed to produce steam and electricity. The raw synthesis gas is then typically processed in a series of systems designed to remove entrained particulate matter, acid gases (such as hydrochloric acid), and other inorganic compounds. The gas cleanup systems typically include filters or scrubbers for the removal of entrained particles and absorbers for the removal/recovery of sulfur and chlorine. The solids recovered in the filters or scrubbers are frequently put back into the gasification system. The polishing systems that remove the unwanted contaminants from the raw synthesis gas also concentrate these materials to form chemical by-products. The reduced sulfur species are recovered as elemental sulfur, or in some cases, converted to a sulfuric acid by-product. The typical sulfur removal and recovery process used to clean the raw synthesis gas (to yield a high purity fuel) are the same commercially available methods used in other industrial applications such as oil refining and natural gas recovery. Sulfur recoveries of 95% to 99% can typically be achieved using these systems. These systems do include process vents, but the synthesis gas is not released through these vents. After the gas is polished, it is sent for turbine combustion to produce electricity and steam or to produce other chemical products.

Metal species found in the materials fed to the gasification system are controlled both in the reactor phase, and in the cleanup systems used by the device. The low volatility metals are captured in the slag emitted from the reactor, with the higher volatility metals being captured in the cleanup systems, or in the particulate removal systems and acid gas scrubbers. These captured metals can be put back into the reactor or be removed from the system and disposed. Control of metal compounds in gasification systems is discussed more in a later section of today's proposal.

Ultimately, the extent to which contaminant removal systems polish the raw synthesis gas is governed by the fuel specifications for the systems that use the synthesis gas and/or the environmental regulations that apply to those systems. For example, use of synthesis gas in combustion gas turbines can require fairly low levels of alkalis and total entrained particles, thus the gas cleanup system would be tailored for this type of contaminant removal. The turbine system may also have fairly low sulfur oxide(s) emissions standards

UMI

applicable to the turbine stack, so the synthesis gas will also have to be cleaned to a level to meet the emission standard. Therefore, the ability of gasification systems to extract useful chemical by-products from hazardous oil-bearing secondary materials is based on the extent the gas must be polished before it is released for its intended commercial application.

D. What Air Emissions Result From Gasification Systems?

As we stated earlier, there are generally no direct emissions to the atmosphere from a gasification system.[4 5] Emissions to the atmosphere from gasification activities are nearly always the result of using the synthesis gas as a fuel for the production of power or heat generation. As a fuel, the synthesis gas can be burned in simple cycle gas turbines or in steam boilers. However, synthesis gas is typically used in more advanced systems that are designed as combined cycle gas turbine/steam boilers. Combined cycle turbine configurations exploit physical characteristics unique to synthesis gas to produce electricity with greater efficiency than other power generating designs. Alternatively, the synthesis gas can also be used as a feedstock for chemical manufacturing processes including the production of ammonia, methanol, acetic acid, and hydrogen.

Metal and chlorine emissions from the combustion of synthesis gas depend on the composition of the synthesis gas, which is dependent on the effectiveness of the synthesis gas cleanup system. Chlorine control using wet scrubbers to remove HCl has been used successfully for many years and can routinely achieve a removal effectiveness of 99%.[6] Semi-volatile metals are expected to be contained primarily in the filter/scrubber ash. Lower volatility metals are primarily bound in the slag. Mercury, which is not found in significant quantities in petroleum refinery waste, is highly volatile and is expected to be controlled only to a small degree in a gasifier's wet scrubbers. If mercury was present in the hazardous oil-bearing secondary materials generated by the petroleum refining industry and those materials were processed by a gasification system, the mercury would likely be emitted out the stack of the device (i.e., turbine) firing the synthesis gas produced by the gasification system.[7] Potential mercury emissions are not a concern for this proposed conditional exclusion because hazardous oil-bearing secondary materials generated by petroleum refineries are not expected to contain significant quantities of mercury. See Docket Number F–98–PR2A–FFFFF, Identification and Listing of Hazardous Waste; Petroleum Refining Process Wastes.[8]

E. What Solid Wastes are Generated by Gasification Systems?

Gasification systems also generate solid waste residuals which are largely dependent on the design, configuration, and operation of the gasification system. They can include a slag material composed primarily of ash and low and semi volatile metals bound in a glass-like substrate that is released from the reactor component of the gasifier, sour liquors from the cleanup systems that are used to scrub contaminants from the product synthesis, and particulate matter captured in particulate control systems used by the gasification system to remove fine particulate matter from the synthesis gas.[9] The gasification designs we have reviewed either put the liquid streams and particulate matter back into the reactor, remove the contaminants from the scrubbing streams to produce valuable chemical by-products, treat the effluents in devices designed to destroy or reduce the toxicity of the effluents, or send the effluents for disposal.

Analysis conducted as part of research efforts utilizing gasification technologies has shown that composition of the residues in a given gasification system are largely dependent on the composition of the secondary materials fed to the system. Data submitted by Texaco show that the composition of the vitrified slag that is generated by the gasification reactor is mostly inert material that does not exhibit a characteristic of hazardous waste.[10] At this time, we lack the data necessary to determine whether the characteristics of the residues from gasification are due to the dilution effect of the other materials being processed along with petroleum hazardous secondary materials in the device, or is the result of a unique operational or design trait associated with gasification systems.[11] The Agency specifically solicits comment on this issue.

Under today's proposal, we would classify solid waste residues generated during the gasification of excluded material as newly generated, and determine whether they are hazardous based on whether they exhibit a characteristic when they are generated. Should a residue exhibit a characteristic, it would have to be managed in compliance with hazardous waste regulations. (As noted earlier, to assure process legitimacy, we are also proposing that the residues comply with the UTS for chromium, lead, nickel, vanadium, arsenic, and antimony).[12]

[4] Generally, gasification systems are designed and operated to prevent direct releases to the atmosphere when operating to produce synthesis gas; however, some devices incorporate small incinerators that combust effluent discharges from the raw synthesis gas cleanup systems and those devices do release combustion off-gases to the atmosphere. Under today's proposal, devices that utilize incinerators to combust non-gaseous effluents from the gasification process, or raw synthesis gas cleanup systems would be subject to appropriate regulations to control emissions from those sources. For example, if characteristic hazardous waste is removed from the gasification process and sent to an incinerator for destruction, the combustion device is subject to regulation as a hazardous waste incinerator.

[5] Gasification systems are designed with release vents or flares that operate during emergencies or during malfunctioning operations. Flares and release vents are necessary to prevent damage or catastrophic failure of the gasification system in the event of a major malfunction. These types of relief systems are common at facilities that manufacture products using thermal processes. The operation of the flares or release vents is regulated by each facility's Title V Clean Air Act permit.

[6] Removal effectiveness is based on data that was used to support the Hazardous Waste Combustion Phase 1 MACT rule and is based on data from hazardous waste burning incinerators. See Docket Number F–1999–RC2F–FFFFF and the technical support document for: NESHAPS: Final Standards for Hazardous Air Pollutants for Hazardous Waste Combustors. 64 FR 52828, September 30, 1999. Removal effectiveness of systems used by gasification systems were not evaluated for this notice.

[7] *A Comparison of Gasification and Incineration of Hazardous Waste—Final Report*. March 30, 2000. This report was prepared for the U.S. Department of Energy and contrasts incineration and gasification technologies. It also evaluates emissions tests performed on gasification systems processing coal that shows that some mercury is controlled in the gasification process. The report concludes that further tests are necessary to understand the control mechanism and to ensure that the data is not an artifact of poor composite coal sampling.

[8] In a later section of today's proposal, we request comment on options we are considering to revise the synthesis gas specification (found at 40 CFR 261.38(b)) to reduce the allowable concentrations of RCRA metals that can exist in waste-derived synthesis gas excluded from the definition of solid waste. This is because we have determined that the specification does not represent the concentration of metals that realistically exists in synthesis gas derived from hazardous waste.

[9] Data submitted by Texaco in response to the July 1998 NODA suggests that the slag produced by their gasification systems is an inert material that does not leach metals because the glass-like matrix of the material effectively stabilizes the metals. See Docket Number F–98–PR2A–FFFFF.

[10] See: "Analysis of Residues From Texaco Gasification Process" which is found in the docket supporting this proposed rule.

[11] Certain gasification systems function because they are designed to take advantage of the heat given off in the limited oxidation reactions, and thus require the introduction of inorganic material to provide thermal inertia for the system. This design characteristic could contribute to the inert quality of the residue material.

[12] EPA's first study of wastes from coal gasification are set forth in the *1990 Report to Congress on Special Wastes from Mineral Processing*. (See specifically Chapter 5.) In that report, EPA determined that ash from coal gasification was Bevill exempt as a result of the Bevill rul that was promulgated on June 13, 1991 (54 FR 27307). All other solid wastes generated at gasification plants, other than coal gasification ash, are subject to RCRA as newly generated wastes, and to subtitle C if they exhibit a characteristic of hazardous waste. Coal gasification ash retains its Bevill exempt status as long as the gasification facility uses feedstock that is comprised of greater than 50 percent virgin feedstock (i.e. coal). See 54 FR at 36619, September 1, 1989.

F. Gasification Systems Processing Hazardous Oil-Bearing Secondary Materials From Petroleum Refineries

The gasification of hazardous oil-bearing secondary materials from the petroleum industry is taking place only under very narrow, specialized exemptions. At the present time, we are aware of four gasification operations in the United States that engage in this activity. Three of the gasification systems are operated on-site at petroleum refineries.[13] The fourth is an off-site gasification system owned and operated by the Dakota Gasification Company.[14]

VI. How Do Gasification Systems Differ From Hazardous Waste Treatment Units?

In most cases, gasification systems resemble fuel manufacturing devices more than they resemble RCRA treatment devices. Information submitted to us in response to the July 1998 NODA suggests that the design, operation, and operational characteristics of certain gasification systems are significantly different from those of conventional RCRA treatment devices. This is because gasification systems are not designed and operated to treat waste. Gasification systems manufacture synthesis gas fuel by re-forming the organic compounds that exist in oil-bearing hazardous secondary materials through unique conversion processes that involve thermal disassociation and partial oxidation. The synthesized fuel is primarily composed of hydrogen and carbon monoxide. Gasification systems can also be configured to produce other gaseous or solid compounds for purposes other than as a fuel.

The reformation or conversion processes occurring within gasification systems are continuously monitored and controlled to enhance conversion efficiency. As such, they require feedstock materials to adhere to certain specifications prior to introduction into the system. Feedstock materials must be analyzed to determine BTU value, sulfur concentrations, chlorine concentration, and ash content. The analytical information on the feed material is needed in order to control the processes that convert the organic components of the feedstock material into valuable products (including synthesis gas fuel).

Gasification processes likewise limit and control oxygen levels to ensure the process reactions convert organic material to the synthesis gas product, and to prevent the complete (or unwanted) oxidation of the gaseous compounds that constitute synthesis gas. In contrast to gasification systems, thermal waste treatment devices (such as incinerators and certain industrial furnaces) process materials through "complete oxidation processes" to reduce the volume and toxicity of the waste materials. When referring to "complete oxidation processes" that occur in thermal treatment devices, what we mean is that the oxidation of specific compounds in the waste material is not controlled to any extent other than that what is needed to fully oxidize and destroy the waste materials.

Gasification systems also differ significantly from thermal waste treatment devices in terms of releases to the environment. As explained more fully below, gasification systems are not designed to and ordinarily do not release gases directly to the environment. Gasification systems are generally designed to be closed to the environment. The gases evolved in the partial oxidation or reactor phase are processed in polishing systems following the reactor that strip the gas of sulfur, chlorine, and particulate matter. These polishing systems recover some of these materials to form additional products such as elemental sulfur, sulfuric acid, or hydrochloric acid. [15]

Following the polishing processes, the synthesis gas can be used in a number of ways: (1) Immediately as a fuel in a combustion turbine; (2) as a chemical intermediate in a chemical manufacturing process; or (3) stored for product use later. In contrast, thermal treatment devices (e.g., incinerators and industrial furnaces) are designed to release combustion off-gases to the environment as a consequence of normal operation.[16] The resultant gases, which are primarily carbon dioxide and water, are rarely used in a manner similar to that of the gasification system.[17]

Gasification systems differ significantly from hazardous waste treatment units. As such, we are today proposing that full RCRA oversight may not be warranted for the gasification of hazardous oil-bearing secondary materials from the petroleum refining industry, as long as we place conditions on the activity so that it can be distinguished from hazardous waste treatment activities.

VII. Detailed Discussion of Today's Proposal

Today, we are proposing to conditionally exclude hazardous oil-bearing secondary materials generated by the petroleum refining industry (SIC 2911) from the definition of solid waste when the materials are destined to be processed in a gasification system to produce synthesis gas fuel and other non-fuel chemical by-products.[18] To

[13] See letter from Mr. James Childress, Executive Director, Gasification Technologies Council to Ms. Elaine Eby, USEPA. Re: Operational Gasification Systems Processing Hazardous Oil-Bearing Secondary Materials. January 2002.

[14] The Dakota Gasification Facility, located in Belluah, North Dakota, is a commercial operation that was constructed and designed with the assistance of the DOE to promote the use of gasification of coal for the production of fuels. This facility is currently processing hazardous oil-bearing secondary material from a BP Amoco refinery located in North Dakota under a RCRA treatment study approved by the State.

[15] The markets for these non-fuel by-products were not evaluated for this proposal, but many of the by-products do have marketable value. Non-gaseous by-products that are used in a production process to produce other products are not regulated by this proposal and are generally excluded from regulation under 40 CFR 261.2(e)(1)(i). In some systems the stripped contaminants are fed back to the gasification reactor.

[16] However, we note that certain types of industrial furnaces are designed to treat hazardous waste and extract sulfur compounds or halogen acids from the effluent gas stream prior to release to the atmosphere. These systems are generally operated to release the gases directly to the atmosphere after the desired compounds are extracted from the combustion off-gas.

[17] In addition to the operational differences between gasification systems and thermal waste treatment systems, it would appear that gasification systems currently in operation are being used in the chemical and petroleum refining industries to convert non-waste feedstocks into synthesis gas fuel or chemical intermediates required for specialty chemical manufacturing. These systems are relatively expensive to construct and operate and require a fairly large and consistent supply of carbon-based feedstock (e.g., coal, natural gas, petroleum coke, etc.) to produce synthesis gas that has economic value. The units, at least as presently operated, are integral components of these manufacturing operations. The fact that these devices can be operated in a manner to process materials historically classified as hazardous waste does not discount the fact that they are designed and operated to produce a product that is valuable as a fuel or chemical and that this appears to be their primary function.

[18] The proposed exclusion applies only to hazardous oil-bearing secondary materials from SIC classification 2911. While the Agency understands that some petroleum refineries may be integrated with other industrial processes exhibiting other SIC classifications, this exclusion is only for secondary materials generated by the production processes under the 2911 classification. However, the Agency solicits comment on whether the exclusion should be expanded to other hazardous secondary

UMI

ensure that each gasification system processing materials excluded under today's proposal is engaged in a manufacturing activity, we are proposing that the exclusion be subject to a set of conditions. The conditions specify that: (1) The system processing the hazardous oil-bearing secondary material meets the proposed definition of a gasification system; (2) the synthesis gas product from the gasification system meets the fuel specifications promulgated in the "synthesis gas rule,"[19] which is a regulatory benchmark for classifying synthesis gas produced from hazardous waste as a fuel rather than as hazardous waste (see 40 CFR 261.38(b)); (3) the materials (both co-products and solid waste residuals) generated by the gasification system that are placed on the land do not exceed the nonwastewater Universal Treatment Standards (UTS) for 6 metals present in listed wastes generated by the petroleum refining industry; and (4) the excluded hazardous oil-bearing secondary materials are not speculatively accumulated nor placed on the land prior to insertion into the gasification system. Provided these conditions are met, the hazardous oil-bearing secondary materials from petroleum refineries would not be solid wastes. Similarly, the fuels or chemical by-products manufactured from these excluded materials would also be excluded.

The exclusion would apply to materials processed in a gasification system operating either on site or off-site of a petroleum refinery. While this does differ from existing exclusions in that it would apply whether or not the gasification system is located at the site of the petroleum refinery, we believe it is appropriate to extend the on-site exclusion to off-site fuel manufacturing processes because gasification systems operate in exactly the same manner whether they are used to process materials into fuels on-site or off-site of a petroleum refinery (i.e., gasification systems operate as fuel manufacturing devices at any location they are operating).[20]

A. What Are the Conditions of the Exclusion?

Today's proposed exclusion includes four conditions to ensure that each gasification system processing the excluded material is engaged in a legitimate manufacturing activity that converts the valuable components of the hazardous oil-bearing secondary materials into fuels, and into non-fuel chemical by-products, that do not contain high levels of non-contributing toxic components. Today's notice proposes to exclude hazardous oil-bearing secondary materials generated by the petroleum refining industry from the definition of solid waste if the materials are processed in a gasification system and used in a manner consistent with the conditions of the exclusion. The consequence of this exclusion would be that hazardous oil-bearing secondary materials are excluded from the definition of solid waste, at the point of generation, provided: (1) The system meets the definition of a gasification system; (2) the system generates a synthesis gas fuel that meets the specifications of exempted synthesis gas; (3) the materials generated by the gasification system are not placed on the land if they exceed the nonwastewater UTS for chromium, lead, nickel, vanadium, arsenic, and antimony (found at 40 CFR 268.48); and (4) the excluded materials are not placed on the land or speculatively accumulated prior to insertion into the gasification system.

1. Definition of a Gasification System

During our review of the operation and performance of available gasification technologies, we determined that it is necessary to define the types of devices that can process (i.e., gasify) hazardous oil-bearing secondary materials into a synthesis gas that we believe is a legitimate fuel. This is because there are a large number of devices operating in the United States that could claim to be a type of gasification system, but do not gasify materials in the same manner, or to the same extent, as the gasification systems we considered for this proposal. These other devices may be waste treatment devices, or recycling devices that process solid waste. Therefore, this first condition defines the types of systems that may process excluded hazardous oil-bearing secondary material under this exclusion in order to distinguish the gasification process from waste treatment, including incineration.

As explained earlier, most combustion devices (e.g., incinerators) convert organic material into hydrogen and carbon monoxide gases at some point during ideal combustion processes (i.e., complete oxidation of organic material to water and carbon dioxide). Gasification systems preferentially convert the organic material into a synthesis gas primarily composed of carbon monoxide and hydrogen by limiting the oxidation reactions. Gasification systems generally accomplish this by regulating the organic material and oxygen being fed to the reactor based on feedback from continuous monitoring of temperature, pressure, and products of oxidation. These continuously monitored parameters control the extent that organic material is oxidized, and concentrates the metals found in the feed into a slag emitted from the reactor as a solid waste. Therefore, to limit the exclusion to gasification systems that operate as fuel manufacturing devices, as well as to distinguish gasification systems from treatment devices such as incinerators, cement kilns, and thermal desorbers, we are proposing and solicit comment on the following definition of a gasification system.

Gasification system means an enclosed thermal device and associated gas cleaning system or systems that does not meet the definition of an incinerator or industrial furnace (found at §§ 260.10), and that: (1) Limits oxygen concentrations in the enclosed thermal device to prevent the full oxidization of thermally disassociated gaseous compounds; (2) utilizes a gas cleanup system or systems designed to remove contaminants from the partially oxidized gas that do not contribute to its fuel value; (3) slags inorganic feed materials at temperatures above 2000;° F; (4) produces a synthesis gas; and (5) is equipped with monitoring devices that ensure the quality of the synthesis gas produced by the gasification system.

Under this first condition, you would be required to ensure that your gasification system meets the definition above, in order for the hazardous oil-bearing secondary materials from the petroleum industry to be eligible for the exclusion. The purpose of this condition

materials from other industrial operations (with other SIC classifications) when these operations are integrated with industrial processes under the primary SIC classification of 2911.

[19] For purposes of this preamble discussion, we are using the term, "Synthesis Gas Rule" to refer to the rulemaking that provided for the "Syngas Fuel Exclusion" (40 CFR 261.(b)). The entire rule can be found in 63 FR 33782, June 19,1998. Hazardous Waste Combustors; Revised Standards; Final Rule—Part 1: RCRA Comparable Fuel Exclusion; Permit Modification for Hazardous Waste Combustion Units; Notification of Intent to Comply; Waste Minimization and Pollution Prevention Criteria for Compliance Extensions.

[20] Gasification systems operating off-site of petroleum refineries may continue to process the materials they currently gasify in addition to the materials we are proposing to exclude without affecting the regulatory status of their device with respect to RCRA regulation. However, if gasification systems are processing hazardous wastes (i.e., hazardous materials identified or listed as hazardous wastes, in addition to the petroleum industry secondary materials we are proposing to exclude), then such devices would of course continue to be subject to RCRA jurisdiction under the current proposal.

is to ensure that the exclusion applies only to gasification systems designed, operated, monitored, and controlled in a manner that promotes the removal or conversion of toxic compounds found in the hazardous oil-bearing secondary materials, as well as generating a synthesis gas fuel. The rationale supporting this condition is consistent with the rationale we used in excluding recovered oil from the definition of solid waste. See 63 FR at 42113.

2. Synthesis Gas Fuel Specification

The second condition of this proposed exclusion defines the chemical and physical specifications of a legitimate synthesis gas fuel product. This condition ensures that each gasification system using the exclusion is engaged in a legitimate fuel manufacturing activity. It does this by requiring you to ensure that the synthesis gas produced from the gasification of excluded materials meet the specifications for the exclusion of hazardous waste derived synthesis gas found at 40 CFR 261.38(b). It is appropriate to apply the "Synthesis Gas Rule" specifications to synthesis gas produced from hazardous oil-bearing secondary materials, because we believe that synthesis gas manufactured from this material should not contain hazardous constituents and other non-contributing contaminates at concentrations greater than synthesis gas derived from hazardous waste. We recognize that some gasification systems are designed and operated to produce a synthesis gas that may not meet the constituent levels specified by the Synthesis Gas Rule because the gas is specifically manufactured for use in a specialized chemical manufacturing process. Therefore, the specification would apply only to synthesis gas actually used as a fuel. See the preamble discussion on "Parameters for the Synthesis Gas Fuel Exclusion" found at 63 FR 33791, June 19, 1998.

Under this proposal, hazardous oil-bearing secondary materials would be excluded from the definition of solid waste at the point they are generated, as long as they are processed in a gasification system that meets our proposed definition, and handled in accordance with the other conditions. Since RCRA regulations do not apply to the excluded materials, the synthesis gas product is also not subject to RCRA regulations, as long as the synthesis gas produced by the gasification system meets as a fuel the specification levels of the synthesis gas exclusion.Of course, units burning the synthesis gas fuel are themselves potentially subject to regulation under other statutes, notably the Clean Air Act. Today's proposal would not affect any such regulation.

3. Land Placement of Products, Co-Products, and Solid Waste Residuals

The third condition of the proposed exclusion applies to co-products and residues generated by the gasification system that are recycled by being applied to the land. This condition would require that materials that are applied to the land must meet the nonwastewater Universal Treatment Standards (UTS) (40 CFR 268.48) for the following toxic metals: antimony, arsenic, chromium, lead, nickel, and vanadium. It is believed that these metals will partition with the ash into the slag residue generated by the process. These metals do not contribute to the gaseous fuel or to the gasification process. We suspect that the metal concentration in the residue will be comparable to or substantially less than the concentration of metals in the slag from gasifiers that process petroleum coke or coal exclusively. Data submitted by BP Amoco show that the metals in oil-bearing secondary materials do not substantially increase the total metal concentration normally found in the residue generated by the Dakota gasification facility when it is processing coal exclusively. [21]

This third condition ensures that co-products or residues generated by the gasification process do not contain toxic metals with a potential for leaching greater than allowed by the requirements of the land disposal restrictions. This condition is similar to conditions established for hazardous waste-derived products that are used in a manner constituting disposal (see 40 CFR 266.20), but we chose only to apply the UTS limits for the metals which are known to exist in petroleum refinery waste.[22]

This condition ensures legitimacy by applying the same land disposal provisions to the co-products or residuals that would have existed had the material not been excluded from the definition of solid waste, and so would eliminate an incentive to claim to be performing "gasification" for the real purpose of avoiding treatment of metals in treatment residues that ultimately are placed on the land. The condition similarly would serve to ensure that the gasification of excluded oil-bearing hazardous secondary materials is not just a means of discarding waste components in the materials (which are otherwise listed hazardous wastes) by the eventual unrestricted placement of those components on the land. Finally, the proposed condition is needed to assure that the gasification system is operated for the production purpose claimed. As explained earlier, part of the operating premise of gasification is that it preferentially converts organic matter in secondary materials into fuels (or intermediates) while removing metals from raw synthesis gas and trapping those metals in an inert matrix. The proposed condition provides a means of quantifying this premise.

4. Speculative Accumulation and Storage of Excluded Materials

The fourth condition of the proposed exclusion specifies that excluded hazardous oil-bearing secondary materials may not be placed on the land, or speculatively accumulated prior to insertion into a gasification system. This condition further defines gasification of excluded oil-bearing materials as a manufacturing activity because it requires that the excluded materials are handled as a valuable feed to the gasification system. We know of no gasification system (or for that matter, any refinery) which stores these materials on the land, and to do so would indicate that the materials are being handled as waste, not feedstock (since physical integrity of the ostensibly-valuable feed materials could no longer be assured, and there would be large-scale losses of the oil-bearing secondary materials due to the land placement). Thus, the physical characteristics of hazardous oil-bearing secondary materials from the petroleum industry should preclude storing the material in anything other than tanks or containers. This is because the material is generally comprised of tar-like oily substances that are not amenable for land storage.

The proposed condition prohibiting speculative accumulation of the excluded oil-bearing secondary materials before they are inserted into the gasification system ensures that legitimate quantities of the waste material are being recycled rather than being stored to avoid regulation. We feel that this condition also is necessary to assure that recycling actually occurs, and that materials are not discarded by being stored for extended periods. Furthermore, this condition is consistent with the condition that we

[21] Data submitted by Amoco Refining Inc, which show that petroleum secondary materials make a minor contribution to the total concentration of metals routinely found in ash from the Dakota Gasification facility.

[22] This condition is also similar to a condition we included in the exclusion for other petroleum oil-bearing secondary materials. There, we applied the FO37 listing to non-fuel residuals that are produced when oil-bearing wastes are reinserted into petroleum distillation and refining processes. See 63 FR at 42128.

adopted for excluded oil-bearing residuals returned to refinery processes. See 60 FR 57752.

B. What Are the Proposed Recordkeeping and Reporting Requirements?

There are no specific recordkeeping and reporting requirements associated with this proposal. However, we are seeking comment whether any records and reporting are necessary in addition to the current documentation requirement associated with 40 CFR 261.2(f) for materials that would be excluded from the definition of solid waste under today's notice. 40 CFR 261.2(f) does not contain specific record keeping requirements but it does require the respondent to bear the burden of showing, through appropriate documentation, that the excluded material is being processed in a manner that meets the conditions in the claimed exclusion. We offer this information as a reminder and are not reopening this provision for comment.

In today's notice, we are proposing to exclude hazardous oil-bearing secondary materials generated from the petroleum refinery industry (SIC 2911) that are destined for gasification whether or not the gasification system is located at a refinery. We note that allowing the secondary petroleum streams to go to facilities outside the petroleum refining industry is somewhat different than the structure of 40 CFR 261.4(a)(12)(i), which the Agency has used as a model for today's proposal. 40 CFR 261.4(a)(12)(i) excludes from RCRA jurisdiction, under certain conditions, oil-bearing secondary materials generated by petroleum refineries when the materials are re-inserted into the petroleum refining process (either at the refinery generating the secondary material or at another off-site petroleum refinery, as long as the materials are shipped directly). 40 CFR 261.4(a)(12)(i) does not specify recordkeeping requirements, except 40 CFR 261.2(f) applies to respondents claiming the exclusion.

In today's proposal, however, we believe that excluding materials processed in gasification systems operating independent (or off-site) of petroleum refineries is appropriate because gasification is a process employed by petroleum refineries to upgrade low value organic material into fuels, and the purpose and operation of the system remains the same whether the system is operated at the same location the oil-bearing materials are generated or elsewhere. Since today's proposal would be somewhat more expansive than the exclusion at 40 CFR 261.4(a)(12)(i), we are requesting comment on whether further clarification of recordkeeping and reporting requirements is necessary in addition to the 40 CFR 261.2(f) documentation requirement to ensure that excluded materials are appropriately processed. The purpose of recordkeeping, recording and documentation would be to: (1) Ensure that the excluded materials are indeed fed to a gasification facility; (2) the materials are handled appropriately prior to introduction to the gasification system; (3) the synthesis gas fuel ultimately produced meets the synthesis gas specifications; (4) the inorganic residues produced by the gasification system that are placed on the land do not exceed the nonwastewater UTS for metals found in the input refinery material fed to the gasification system; and (5) the residue does not exhibit a hazardous waste characteristic under subpart C, part 261. One proposed rule, "Requirements for Zinc Fertilizers Made From Recycled Hazardous Secondary Materials" (See 65 FR 70954, November 28, 2000) provides an example of additional recordkeeping and reporting requirements that could be used to verify that the conditions of an exclusion are met.

EPA is interested in obtaining comments on what specific records would be necessary to document whether: (1) The synthesis gas generated from a gasification system, using excluded secondary materials, meets the synthesis gas fuel specification under 40 CFR 261.38(b); (2) the residue generated from the gasification system meets the UTS levels in 40 CFR 268.48 for specific inorganic metals; and (3) the residue generated from the gasification system fails to exhibit a hazardous waste characteristic as defined in part 261, subpart C. We are also interested in receiving comments that explain the different types of information petroleum refinery operators currently keep to demonstrate compliance with other solid waste exclusions (such as 40 CFR 261.(a)(12)(i)) that rely on 40 CFR 261.2(f) to demonstrate compliance with the conditions of the exclusions and whether such information is routinely maintained as a type of industry practice.

C. How Do We Ensure Excluded Material Is Processed in a Gasification System?

As with other exclusions and exemptions from the definition of solid waste, the person claiming the exclusion must be able to produce whatever documentation is necessary to demonstrate that the material is excluded from regulation (see § 261.2(f)). EPA recommends that to make this demonstration, petroleum refineries document the amount of secondary material excluded, and the location that these materials are processed in a gasification system, as well as maintaining documentation to demonstrate compliance with the enumerated conditions of today's proposed exclusion.

D. Are We Concerned About Volatile Metals in the Excluded Material?

We are aware that certain metals, which can be found in low concentrations in petroleum refining secondary materials, can be processed by a gasification system and end up in the product synthesis gas. The metals of most concern, based on their inherent properties, are lead and mercury; however, based on data we received from the petroleum refining industry, we do not believe that synthesis gas manufactured from oil-bearing materials will contain sufficient concentrations of these metals to create an emissions hazard if the fuel is burned for energy recovery. Nevertheless, because there is a potential for volatile metals to partition to the synthesis gas product, we are proposing that the synthesis gas must meet the specifications of 40 CFR 261.38(b) if used as a fuel, which limits the concentration of those metals to levels we deemed appropriate for hazardous waste-derived synthesis gas excluded from RCRA regulation. As explained earlier, the fuel specification serves as a means to ensure that the process produces a fuel product rather than a means to dispose of waste.

E. Are We Concerned About Dioxin Emissions From the Processing of Excluded Material?

In contrast to devices that burn organic compounds, gasification systems are designed to promote the thermal decomposition of organic-containing compounds and limit the formation of compounds with a greater molecular weight than methane. This design characteristic limits the formation of dioxin pre-cursors in the high temperature reactor. Formation in the PM control units is controlled by the lack of dioxin precursors, the lack of particulate matter, and the lack of a favorable temperature profile. Analytical data submitted by Texaco and Dow support the contention that dioxin is not generated during synthesis gas production. The reader is referred to the docket for additional information.

In addition to the theoretical arguments and analytical data supporting the contention that synthesis gas does not contain dioxin, we also limit the amount of dioxin that can exist in synthesis gas fuel directly through the application of the synthesis gas fuel specification found at 40 CFR 261.38(b). The synthesis gas specifications that apply as a condition of the exclusion do not allow significant concentrations of dioxin to be present in the product gas. These factors, as well as analytical results that show low concentrations of dioxin in the produced synthesis gas, lead us to conclude that controls to limit the formation of dioxin in the synthesis gas are unnecessary to propose. Additionally, we recognize that the down stream applications of the synthesis gas will also control the levels of dioxin that may be released to the atmosphere or to other products manufactured from the synthesis gas. Specifically, we believe that any dioxin compounds that exist (at low concentrations) in the synthesis gas will be appropriately controlled under the applicable MACT rules if the synthesis gas is burned to produce electricity in a gas turbine. Therefore, we believe that concerns regarding dioxin formation are adequately addressed in today's proposal and we are not proposing any additional requirements to specifically limit dioxin emissions as a result of downstream uses of the synthesis gas fuel.

VIII. Other Hazardous Secondary Materials That Could Also Be Conditionally Excluded When Processed in a Gasification System

Today's proposed exclusion from the definition of solid waste is based largely on two central themes. First, gasification is a legitimate manufacturing process for processing secondary materials in an efficient and environmentally protective manner and is better viewed as a manufacturing activity rather than waste recycling. Second, hazardous oil bearing secondary materials from the petroleum refining industry (SIC 2911) are especially appropriate for use in such units. With respect to these points, EPA is soliciting comment on expanding the exclusion to allow for other hazardous secondary materials to be conditionally excluded from the definition of solid waste if they are processed in a gasification system.

A. What Are the Environmental Benefits of a Broader Exclusion?

The gasification of hazardous waste can be viewed as an innovative extension of the conventional fuels gasification technology for synthesis gas. The gasification of hazardous secondary materials (i.e., hazardous waste), in this manufacturing application, has the potential to significantly reduce pollution to the environment by allowing for the continued processing of hydrocarbon materials that would otherwise be treated and/or land disposed. [23] The downstream uses of the products generated by the gasification process also have environmental benefit. When the synthesis gas is burned for energy recovery it displaces fossil fuels that would be used for the same energy production. Plus, it displaces the energy used to liberate, transport, and prepare the fossil fuels for use, as well as the pollution that results from removing, transporting and processing the fossil fuels. When synthesis gas is used as a feedstock for the manufacture of chemicals such as acetic acid, acetic anhydride, oxoalcohols, butanol, methanol, ammonia, and hydrogen, it displaces other feedstock that take energy to produce and prepare for manufacturing. Furthermore, when other non-fuel co-products are manufactured in the gasification system, e.g., elemental sulfur, sulfuric acid, chlorine, hydrochloric acid and ammonia, the co-products displace similar products manufactured conventionally. This reduces pollution to the environment associated with the conventional manufacturing processes that do not use secondary materials as a component of the feed.

B. What Is the Regulatory Status of a Gasification System?

Under existing regulations, hazardous secondary materials that are processed in a gasification system to produce synthesis gas and is used or re-used in an industrial process to manufacture legitimate products are not subject to RCRA jurisdiction through the provisions of 40 CFR 261.2(e)(1)(i). This provision excludes materials from the definition of solid waste if the materials are "used or re-used as ingredients in an industrial process to make a product, provided the materials are not being reclaimed." As a result, gasification systems that manufacture synthesis gas, used exclusively in other on-going manufacturing processes, are currently not subject to RCRA jurisdiction because the materials being processed by the system are never solid wastes. Conversely, hazardous secondary materials that are processed in a gasification system to produce synthesis gas that is used as a fuel remain regulated by RCRA in accordance with 40 CFR 261.2(c)(2) and the applicable regulatory provisions in §§ 261.6 and 266.100 et seq. See 63 FR at 33791 (June 19, 1998); see also § 261.2(e)(2)(ii), which says that the exclusion for secondary materials being used or reused does not apply to secondary materials that are burned for energy recovery, used to produce fuels, or contained in fuels. Thus, gasification systems that produce synthesis gas used as a fuel are subject to RCRA jurisdiction because the materials being processed are solid wastes (assuming that the secondary materials being processed are also hazardous wastes).

In the past, we have stated that gasification systems processing hazardous waste materials are exempt from RCRA permitting because they are engaged in recycling (assuming that legitimate recycling is occurring). [24] Designating gasification systems as recycling units exempts them from RCRA permitting, but it does not exclude the material being processed from RCRA regulation. This results in the synthesis gas fuel being designated as a waste-derived fuel and would require that all parties comply with the regulations that apply to the generation, transportation, storage and handling of the hazardous waste materials.

The hazardous waste-derived synthesis gas fuel can be excluded from regulation under the provisions of the synthesis gas exclusion found at 40 CFR 261.38(b). This section provides an exclusion from the definition of solid waste for synthesis gas fuels that meet the composition specifications of the provision. This exclusion applies at the point the fuel is produced. We recognize that this results in a situation where under one use, the product synthesis gas (*i.e.*, as a chemical intermediate), is excluded, but under a different use (i.e., as a fuel) the product synthesis gas is regulated. This is problematic considering the fact that the synthesis gas product remains the same whether it's used as an ingredient in an industrial process or as fuel, and the device itself is unregulated by RCRA in either case. Furthermore, available information suggests that chemical industry gasification systems may not be dedicated to only one use for the synthesis gas, i.e., gasification systems may produce synthesis gas both for the manufacture of chemical products and as a fuel. [25] See the "Comment Response

Document" in Docket Number F–98–RCSF–FFFFF for additional information on this point.

C. What Are the Conditions of the Broader Exclusion?

In today's notice, we are also requesting comment on a proposed expansion of the conditional exclusion from the definition of solid waste (discussed earlier in today's notice) to additional hazardous secondary materials.[26] Under this alternative proposal, one exclusion, under a set of expanded conditions, could be promulgated for hazardous secondary materials, including those from the petroleum industry, destined for processing in a gasification system to produce synthesis gas fuel and other chemical products. We believe that because of the unique properties of synthesis gas and the operational capabilities of gasification systems, as well as its environmental benefits, it is appropriate to suggest and solicit comment on broadening the exclusion in this way.

To expand the exclusion to address additional hazardous secondary materials, three modifications to the current proposal could be made. First, in the third condition of the proposed exclusion, i.e., land placement of products, co-products, and solid waste residuals, the number of hazardous inorganic constituents required to meet UTS would increase from six to fifteen. The addition of nine hazardous inorganic constituents, captures the entire suite of inorganic constituents regulated by RCRA in 40 CFR 268.48 and further ensures that the co-products or residues generated by the gasification system do not contain any toxic inorganics with a potential for leaching greater than allowed by the requirements of the land disposal restrictions. These additional constituents are all toxic metals, except for cyanide.

As mentioned previously, we have data showing metals will partition with the ash into the slag residue generated by the gasification process and be effectively immobilized. As we have discussed earlier, these metal constituents do not contribute to the gaseous fuel or to the gasification process. We are also proposing to add cyanide (both total and amenable) to the array of hazardous inorganic constituents being regulated. It is believed that cyanide will effectively dissociate in the gasification process contributing to the production of the synthesis gas. As such, there should not be any measurable quantities of cyanide in the co-products or residuals. The expansion of this condition to include all the RCRA toxic inorganics ensures that the gasification system is being operated for the production purpose claimed. As previously discussed, part of the operating premise of gasification is that it preferentially converts organic matter in secondary materials into fuels (or intermediates) while removing metals from raw synthesis gas and immobilizing those metals in an inert matrix. This condition is a means of quantifying this premise.

The second modification would be the addition of a fifth condition. This condition would require each hazardous secondary material processed in a gasification system to contain greater than 20% by weight total organic carbon (TOC). The addition of this condition ensures that every secondary material processed in a gasification system contributes to the manufacture of the synthesis gas and so eliminates an incentive to claim to be performing "gasification" for the real purpose of avoiding hazardous waste treatment. The 20% TOC threshold approximates the lowest value material known to be effectively processed in a gasification system for synthesis fuel production. The 20% TOC threshold represents the level which we believe is reasonable both economically and technologically to ensure legitimate manufacturing by the gasification system. The Agency recognizes that by including such a condition, it could restrict certain hazardous secondary material from being processed in a gasification system under the exclusion. However, without a complete understanding of these activities and knowledge of the types of hazardous secondary materials that could be processed through such an operation, we believe that with this broader exclusion, a TOC threshold of 20% is a necessary condition to ensure that legitimate manufacturing activities are taking place. Unlike hazardous oil-bearing secondary materials from the petroleum refining industry, little information exists that provides a comprehensive assessment of gasification's performance on other RCRA hazardous waste. (See: *A Comparison of Gasification and Incineration of Hazardous Waste—Final Report*. United States Department of Energy. DCN 99.803931.02. March 30, 2000). However, the Agency specifically solicits comment on the appropriateness of requiring each hazardous secondary material to have a 20% by weight TOC content. In addition, the Agency also requests comment on alternative indicators, other than TOC, that could be used to ensure that hazardous secondary materials are used legitimately in gasification systems to manufacture synthesis gas fuel and other products.

The third or final modification to the exclusion would be a prohibition on the use of any mercury-containing hazardous secondary material into the gasification system for the manufacturing of synthesis gas. As discussed previously in the preamble (See section V. D—What Air Emissions Result From Gasification Systems?), the Agency is concerned with the potential for highly volatile metals, in particular mercury, to be emitted out the stack of devices (i.e., turbines) firing synthesis gas produced by a gasification system. As discussed earlier, this is not a concern, for the petroleum refining exclusion being proposed today, because hazardous oil-bearing secondary materials from the petroleum refining industry are not expected to contain significant quantities of mercury. However, the Agency is concerned that the specification for the synthesis gas exclusion (see 40 CFR 261.38(b)) which requires that the synthesis gas contain less than 1 part per million by volume of each RCRA metal, including mercury, may not represent the concentration of metals that realistically exists in synthesis gas derived from hazardous waste.[27] To that end, the Agency proposes a sixth condition to the broader exclusion—a prohibition on the use of hazardous secondary materials containing mercury. This prohibition would exclude, from processing in a gasification system, any hazardous waste which exhibits the characteristic of mercury and any hazardous waste for which mercury was a basis for listing under 40 CFR part 261, appendix VII.

Proposed Catalytic Extraction Processing (CEP) Facility—Bay City, Texas. February 27, 1996.

[26] Information available to the Agency suggests that there are other secondary materials amenable to gasification. For example, municipal waste and sewage sludge, contaminated soil, tires, and coal ash may be gasified to produce synthesis gas and other valuable products. Used oil, is another example of a material that the Agency believes can be processed in a gasification system to produce synthesis gas (i.e., fuel). The reader is referred to the docket supporting this proposal for additional information.

[27] The Agency conducted a preliminary analysis on determining how much mercury can potentially be emitted from synthesis gas that is combusted in a turbine if the synthesis gas contains mercury at the 1ppmv specification level. It was determined that approximately 1.04 tons of mercury could potentially be released from the use of 1 trillion BTU of synthesis gas at the specification levels. If you would compare this to coal for a similar 1 trillion BTU with a concentration of 0.1ppmw of mercury, 0.004 tons of mercury could be potentially released.

This would include the RCRA hazardous wastes D009, K071, K106, F039, U151, P065 and P092. The Agency also solicits comment on expanding this prohibition to include other highly volatile metals.

With these modifications, a broader exclusion is being suggested, which the Agency believes should ensure that the processing of excluded material(s) in a gasification system is a legitimate fuel manufacturing activity that converts components of hazardous carbonaceous material into fuel and into non-fuel chemical by-products without containing high levels of non-contributing toxic components. As such, the option discussed here conditionally excludes hazardous secondary materials from the definition of solid waste, at the point they are generated, when processed in a gasification system provided: (1) Each hazardous secondary material processed in the system contains greater than 20% by weight total organic carbon; (2) the system does not process any hazardous waste which exhibits the characteristic of mercury and any hazardous waste for which mercury is a basis for listing under 40 CFR part 261, appendix VII as hazardous secondary materials; (3) the system meets the definition of a gasification system; (4) the system generates a synthesis gas fuel that meets the specifications of exempted synthesis gas; (5) the materials generated by the gasification system are not placed on the land if they exceed the nonwastewater UTS for antimony, arsenic, barium, beryllium, cadmium, chromium (total), cyanides (total), cyanides (amenable), lead, mercury, nickel, selenium, silver, thallium, and vanadium; and (6) the excluded materials are not placed on the land or speculatively accumulated prior to insertion into the gasification system.

While the Agency requests comment on all aspects of this proposed rulemaking, we are specifically soliciting comment, information, and data on:

- The performance of gasification on other hazardous secondary materials (that are currently hazardous waste) known to contain low concentrations of metals, e.g., hazardous secondary materials that are generated outside SIC 2911, such as spent potliner from the primary aluminum industry (K088).
- The performance of gasification on certain hazardous secondary materials that contain high concentrations of non-contributing components (namely metals or halides).
- Potential partitioning of metals to the product synthesis gas and their subsequent release during the combustion of the synthesis gas in turbines to produce electricity or steam.[28]
- Whether the Agency should develop a set of general criteria for the types of hazardous secondary materials that would be appropriate for gasification, and what those criteria might be.[29]
- Whether the Agency should require specific design and operating conditions for all components of the gasification systems, including the gas cleanup or polishing systems and the secondary product recovery systems and what they would be.
- The market for building and operating gasification systems in the future, including future capacity for gasification.
- The market for synthesis gas and other products from gasification, including non-fuel products recovered in the process.

Finally, we recognize that in order to achieve the benefits of gasification, secondary materials must be safely transported and handled prior to delivery at the gasification facility, and actually delivered for use as a feedstock to the facilities. We note that a number of factors work towards safe delivery, including Department of Transportation regulations for hazardous materials, and the threat of legal liabilities under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) for spilled or disposed hazardous materials. Further, there are currently only a very few gasification facilities that have indicated any interest in accepting hazardous secondary materials, and they have indicated they must have contracts for acceptance of materials, including technical specifications that limit the types of materials that the particular unit may accept as a feedstock. Also, as explained in more detail in the next section, current regulation requires a person claiming an exclusion to produce appropriate documentation to show he or she actually meets the terms of the exclusion, which may mean, for example, producing contracts with a gasification facility, records of shipment and delivery of materials to the gasification system.

The RCRA hazardous waste universe is broad with over 18,000 large quantity generators and many more small quantity generators. Concerns have been raised that generators, perhaps working with waste brokers, may falsely claim to be sending material to gasification systems for processing as a feedstock, when, in fact, they are simply trying to evade regulation. Therefore, the Agency is specifically seeking comment (as we note in the next section) on whether some sort of mechanism, beyond current regulations, should be imposed to ensure that these secondary materials arrive at the gasification facility and are used as feedstock. Also, we request comment on whether an exclusion should apply when brokers are involved, and if so, whether the exclusion should apply in that case beginning only when the material is shipped from the broker to the gasification facility (i.e., the broker would be regulated under the RCRA rules).

In any event, should improper management occur, despite the factors described above, the exclusion proposed today would not apply and parties would be subject to enforcement action, possibly leading to criminal penalties. We seek comment on the checks and balances described above and whether they adequately address the concerns over possible improper use of the exclusion.

D. What Are the Proposed Recordkeeping and Reporting Requirements for This Broader Exclusion?

As with the petroleum refining conditional exclusion previously discussed in this preamble, there are no specific recordkeeping and reporting requirements specifically associated with this broader conditional exclusion. However, we are seeking comment as to whether any records and/or reporting are necessary in addition to the current documentation requirement associated with 40 CFR 261.2(f) for materials that would be excluded from the definition of solid waste. 40 CFR 261.2(f) does not contain specific recordkeeping requirements but it does require the respondent to bear the burden of showing, through appropriate documentation, that the excluded material is being processed in a manner that meets the conditions in the claimed exclusion. We offer this information again as a reminder and are not reopening this provision for comment.

[28] To address this issue, we are requesting comment on a number of approaches to revise the synthesis gas specifications found at 40 CFR 261.38(b). In particular, the Agency is interested in soliciting comment on the specifications for highly volatile metals. The approaches we are considering can be found in the docket of today's proposal entitled Options to Revise the Synthesis Gas Specification. We specifically request comment on this document.

[29] States could then develop procedures for identifying specific waste streams that are excluded, using either rulemaking procedures or a variance process. A variance process might be similar to the provisions already found at 40 CFR 260.31 for certain exclusions from the definition of solid waste.

VOL
67
ISS
57
MR
25
2002
UMI

In this broader exclusion, we are proposing to exclude hazardous secondary materials, meeting certain conditions, from the definition of solid waste whether the gasification system is located on-site or off-site. We again note that allowing the secondary streams to go to facilities off-site is somewhat different than the structure of 40 CFR 261.4(a)(12)(i), which the Agency has used as a model for today's proposal. 40 CFR 261.4(a)(12)(i) does not specify recordkeeping requirements, except 40 CFR 261.2(f) applies to respondents claiming the exclusion.

In this broader exclusion, however, we believe that excluding materials processed in gasification systems operating independent (or off-site) is appropriate because gasification is a process employed by industry to manufacture synthesis gas. The purpose and operation of the system remains the same whether the system is operated at the same location that the secondary materials are generated or elsewhere. As with the petroleum refining conditional exclusion being proposed today, we are again requesting comment on whether further clarification of recordkeeping and reporting requirements is necessary in addition to the 40 CFR 261.2(f) documentation requirement to ensure that excluded materials are appropriately processed. The purpose of recordkeeping, recording and documentation would be to ensure: (1) That the excluded materials are indeed fed to a gasification facility; (2) each hazardous secondary materials has a TOC content of at least 20%; (3) no mercury-containing hazardous wastes are processed in the gasification system; (4) the materials are handled appropriately prior to introduction to the gasification system; (5) the synthesis gas fuel ultimately produced meets the synthesis gas specifications; (6) the inorganic residues produced by the gasification system that are placed on the land do not exceed the nonwastewater UTS for the inorganic constituents found in 40 CFR 268.48; and (7) the residue does not exhibit a hazardous waste characteristic under subpart C, part 261. As mentioned previously, the proposed rule, "Requirements for Zinc Fertilizers Made From Recycled Hazardous Secondary Materials" (See 65 FR 70954, November 28, 2000) provides an example of additional recordkeeping and reporting requirements that could be used to verify that the conditions of an exclusion are met.

EPA is interested in obtaining comments on what specific records would be necessary to document whether: (1) The synthesis gas generated from a gasification system, using excluded secondary materials, meets the synthesis gas fuel specification under 40 CFR 261.38(b); (2) the residue generated from the gasification system meets the UTS levels in 40 CFR 268.48 for specific inorganic metals; and (3) the residue generated from the gasification system fails to exhibit a hazardous waste characteristic as defined in part 261, subpart C. We are also interested in receiving comments that explain the different types of information industry operators currently keep to demonstrate compliance with other solid waste exclusions (such as 40 CFR 261.(a)(12)(i)) that rely on 40 CFR 261.2(f) to demonstrate compliance with the conditions of the exclusions and whether such information is routinely maintained as a type of industry practice.

IX. State Authorization

A. Statutory Authority

Under section 3006 of RCRA, EPA may authorize qualified States to administer the RCRA hazardous waste program within the State. See 40 CFR part 271 for the overall standards and requirements for authorization. Following authorization, the State requirements authorized by EPA apply in lieu of equivalent Federal requirements and become Federally enforceable as requirements of RCRA. EPA maintains independent authority to bring enforcement actions under RCRA sections 3007, 3008, 3013, and 7003. Authorized States also have independent authority to bring enforcement actions under State law. A State may receive authorization by following the approval process described under 40 CFR part part 271.

After a State receives initial authorization, new Federal requirements promulgated under RCRA authority existing prior to the 1984 Hazardous and Solid Waste Amendments (HSWA) do not apply in that State until the State adopts and receives authorization for equivalent State requirements. The State must adopt such requirements to maintain authorization.

In contrast, under RCRA section 3006(g) (42 U.S.C. 6926(g)), new Federal requirements and prohibitions imposed pursuant to HSWA provisions take effect in authorized States at the same time that they take effect in unauthorized States. Although authorized States are still required to update their hazardous waste programs to remain equivalent to the Federal program, EPA carries out HSWA requirements and prohibitions in authorized States, including the issuance of new permits implementing those requirements, until EPA authorizes the State to do so. Authorized States are required to modify their programs only when EPA promulgates Federal requirements that are more stringent or broader in scope than existing Federal requirements. RCRA section 3009 allows the States to impose standards more stringent than those in the Federal program. See also 40 CFR 271.1(i). Therefore, authorized States are not required to adopt Federal regulations, both HSWA and non-HSWA, that are considered less stringent.

B. Effect on State Authorization

Today's proposal would be promulgated pursuant to non-HSWA authority, and contains provisions that are less stringent than the current Federal program. The conditional exclusion for hazardous waste processed in a gasification system would be less stringent. Consequently, States would not be required to adopt the proposed exclusion as a condition of authorization of their hazardous waste programs.

X. Administrative Assessments

A. Executive Order 12866

Under Executive Order 12866, (58 FR 51735 (October 4, 1993)) the Agency must determine whether a regulatory action is "significant" and therefore subject to OMB review and the requirements of the Executive Order. The Order defines "significant regulatory action" as one that is likely to result in a rule that may: (1) Have an annual effect on the economy of $100 million or more or adversely affect, in a material way, the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; (2) create serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients; or (4) raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

Pursuant to the terms of Executive Order 12866, it has been determined that this rule is a "significant regulatory action" because of novel legal or policy issues. As such, this action was submitted for OMB review. Changes made in response to OMB suggestions or recommendations will be documented in the public record.

Implementation of this rule may result in considerable positive economic impacts and positive net benefits. Benefits derive from cost savings and resource conservation, and potential environmental quality improvements. There are no costs associated with this rulemaking, outside of the costs of regulatory development.

Economic Impacts

The proposal discusses limiting the exclusion to facilities in the petroleum refining industry, defined under the Census Bureaus's Standard Industrial Classification code 2911. This industry includes the production of petroleum products through distillation, fractionation, and/or cracking of crude oil and unfinished petroleum derivatives. Total 1999 employment in the sector was 63,500 and the value of products estimated at $170 billion.

Data submitted to EPA in Biennial Reports shows 172 refineries generated between 7 and 10 million tons of hazardous waste in 1997. These refineries are currently treating and disposing of their wastes in compliance with RCRA Subtitle C requirements for management, treatment, and disposal. We estimate that approximately 20–25% of this waste is being recycled to petroleum cokers. Some waste is land disposed. Much of the remaining waste is currently used for fuel (at an average cost of $75 per ton) or incinerated (which may cost between $320 and $730 for liquids, sludges, and solids that are not severely contaminated). Disposal of treatment residuals adds another $60–130 per ton to waste management costs. The American Petroleum Institute has estimated that refineries spent a total of $210 million in 1999 for waste management.

Significant uncertainties make it difficult to estimate the impacts of this rulemaking. Because so few facilities are gasifying hazardous wastes, there is not a robust body of data on the operational characteristics of the devices with these feedstocks. We do not have good information on the proportion of these secondary materials that could efficiently serve as supplements to the primary feedstocks of coal and petroleum coke, nor do we have a clear idea of the types of wastes that might be amenable to the process; therefore we are requesting comment on these issue with this proposal.

In addition, we believe that an exclusion for all refinery wastes would foster competition in the market for these secondary materials. Since these materials are replacing (to some extent) other feedstocks for the gasification system, tipping fees for these materials could be charged. We have not attempted to model this market, nor determine supply and demand or prices. It is clear, however, that revenue streams from tipping fees would be bounded by current management costs.

EPA is aware of four refineries who are currently gasifying some residuals; all refineries are eligible to take advantage of this exclusion. It does seem likely that other refiners would be interested in reducing their waste management costs by sending wastes to gasification systems, whether to on-site captive facilities or to off-site gasification facilities. Similarly, these units should be eager to gain tipping fees for feedstocks. Therefore, transportation costs and the technical specification requirements for gasification feedstocks are likely to be the chief limiting factors in moving petroleum wastes into these systems. Within those constraints, this proposal could lead to a substantial reduction in that $210 million spent by refineries on waste management. Concomitantly, gasifiers would receive economic gains, with losses to the hazardous waste treatment and disposal industry.

Costs and Benefits

Costs associated with this rule are expected to be minimal, including time to read the rule, residual (i.e., slag) testing and other tasks to meet the conditions. Losses to the hazardous waste treatment and disposal industry are expected to constitute transfers to generators and gasification owner/operators; although these may be significant impacts, they are not true economic costs. Therefore, the direction of social benefits from this proposal can only be positive. These uncertainties and assumptions, therefore, do not affect the Agency's assessment of positive net benefits stemming from this rule; they only affect the magnitude of that net benefit.

Benefits From This Rule Are Likely To Include

Cost savings: Savings in treatment and disposal costs for wastes. The magnitude of these savings is difficult to project, but the upper bound would be the $210 million that refineries are currently spending on waste management. Depending on how markets and prices develop, this rule could also result in reduced costs of electricity, and reduced costs for chemical intermediates that gasification systems produce. In addition, both generators of refinery wastes and Federal/state RCRA regulating agencies are expected to save administrative burden and costs because of this regulatory change.

Resource conservation benefits: We project that this rule will facilitate gasifiers in substituting secondary materials (formerly disposed as wastes) for coal. To the extent that this rule induces power generators to burn synthesis gas instead of coal, there is the potential for additional resource conservation benefits. Potential environmental benefits exist if that substitution takes place, since synthesis gas is a much cleaner fuel than coal and produces less harmful emissions.

More detail on costs and benefits of the rulemaking are provided in the memorandum entitled, *Regulatory Impacts of Proposed Exclusions of Petroleum Refinery Wastes*, which accompanies this proposal.

B. Regulatory Flexibility Act (RFA), as Amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), 5 U.S.C. 601 et. seq.

The RFA generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedure Act or any other statute unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

For purposes of assessing the impacts of today's rule on small entities, small entity is defined as: (1) A small business; (2) a small governmental jurisdiction that is a government of a city, county, town, school district or special district with a population of less than 50,000; and (3) a small organization that is any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.

After considering the economic impacts of today's proposed rule on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. In determining whether a rule has a significant economic impact on a substantial number of small entities, the impact of concern is any significant *adverse* economic impact on small entities, since the primary purpose of the regulatory flexibility analyses is to identify and address regulatory alternatives "which minimize any significant economic impact of the proposed rule on small entities." 5 U.S.C. 603 and 604. Thus, an agency may certify that a rule will not have a

VOL
67
ISS
57
MR
25
2002
UMI

significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, or otherwise has a positive economic effect on all of the small entities subject to the rule. This proposal is de-regulatory in nature. The primary industry affected by this rule is the petroleum refining industry, and it will not cause adverse effects to this industry. We have therefore concluded that today's proposed rule will relieve regulatory burden for all small entities. We continue to be interested in the potential impacts of the proposed rule on small entities and welcome comments on issues related to such impacts.

C. Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104–4, establishes requirements for Federal Agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector. Under section 202 of the UMRA, EPA must prepare a written analysis, including a cost-benefit analysis, for proposed and final rules with "Federal mandates" that may result in expenditures to State, local, and tribal governments, in the aggregate, or to the private sector, of $100 million or more in any one year. If a written statement is needed, section 205 of the UMRA generally requires EPA to identify and consider a reasonable number of regulatory alternatives. Under section 205, EPA must adopt the least costly, most cost-effective or least burdensome alternative that achieves the objectives of the rule, unless the Administrator publishes with the final rule an explanation why that alternative was not adopted. The provisions of section 205 do not apply when they are inconsistent with applicable law.

Today's proposed rule contains no Federal mandates (under the regulatory provisions of Title II of UMRA) for State, local, or tribal governments or the private sector. This is because today's proposed rule is de-regulatory and imposes no enforceable duty on any State, local or tribal governments or the private sector. Thus, today's rule is not subject to the requirements of sections 202, 204 and 205 of UMRA.

Before EPA establishes any regulatory requirements that may significantly or uniquely affect small governments, including tribal governments, it must have developed under section 203 of UMRA a small government agency plan. The plan must provide for notifying potentially affected small governments, enabling officials of affected small governments to have meaningful and timely input in the development of EPA regulatory proposals with significant Federal intergovernmental mandates, and informing, educating, and advising small governments on compliance with the regulatory requirements. EPA has determined that this rule will not significantly or uniquely affect small governments. This is because today's proposed rule is de-regulatory and imposes no enforceable duty on any State, local or tribal governments or the private sector. Today's rule is not, therefore, subject to the requirements of section 203 of UMRA.

D. Federalism—Applicability of Executive Order 13132

Executive Order 13132, entitled "Federalism" (64 FR 43255, August 10, 1999), requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government."

This proposed rule does not have federalism implications. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132. This is because today's proposed rule is de-regulatory and imposes no enforceable duty on any State, local or tribal governments or the private sector. Thus, Executive Order 13132 does not apply to this rule.

In the spirit of Executive Order 13132, and consistent with EPA policy to promote communications between EPA and State and local governments, EPA specifically solicits comment on this proposed rule from State and local officials.

E. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

Executive Order 13175, entitled "Consultation and Coordination with Indian Tribal Governments" (65 FR 67249, November 6, 2000), requires EPA to develop an accountable process to ensure "meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications." "Policies that have tribal implications" is defined in the Executive Order to include regulations that have "substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and the Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes."

This proposed rule does not have tribal implications. It will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified in Executive Order 13175. This is because today's proposed rule is de-regulatory and imposes no enforceable duty on any State, local or tribal governments or the private sector. Thus, Executive Order 13175 does not apply to this rule.

In the spirit of Executive Order 13175, and consistent with EPA policy to promote communications between EPA and tribal governments, EPA specifically solicits additional comment on this proposed rule from tribal officials.

F. Executive Order 13045: Protection of Children from Environmental Risks and Safety Risks

The Executive Order 13045, entitled "Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997) applies to any rule that EPA determines (1) is "economically significant" as defined under Executive Order 12866, and (2) the environmental health or safety risk addressed by the rule has a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children; and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives. This proposed rule is not subject to the Executive Order because it is not economically significant as defined in Executive Order 12866, and because the Agency does not have reason to believe the environmental health or safety risks addressed by this action present a disproportionate risk to children. The public is invited to submit or identify peer-reviewed studies and data, of which the agency may not be aware.

G. National Technology Transfer and Advancement Act of 1995

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 ("NTTAA"), Public Law 104–113, section 12(d) (15 U.S.C. 272 note) directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards bodies. The NTTAA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards. The proposed rulemaking involves technical standards. Therefore, the Agency conducted a search to identify potentially applicable voluntary consensus standards. However, we identified no such standards. Therefore, EPA proposes to use the constituent specification limits of the synthesis gas exclusion found at 40 CFR 261.38(b) to establish the legitimacy of the fuel, and the universal treatment standards for chromium, lead, nickel, vanadium, arsenic, and antimony to establish the legitimacy of products placed on the land.

EPA welcomes comments on this aspect of the proposed rulemaking and, specifically, invites the public to identify potentially-applicable voluntary consensus standards and to explain why such standards should be used in this regulation.

H. Executive Order 12898

EPA is committed to addressing environmental justice concerns and is assuming a leadership role in environmental justice initiatives to enhance environmental quality for all populations in the United States. The Agency's goals are to ensure that no segment of the population, regardless of race, color, national origin, or income bears disproportionately high and adverse human health or environmental impacts as a result of EPA's policies, programs, and activities, and that all people live in safe and healthful environments. In response to Executive Order 12898 and to concerns voiced by many groups outside the Agency, EPA's Office of Solid Waste and Emergency Response formed an Environmental Justice Task Force to analyze the array of environmental justice issues specific to waste programs and to develop an overall strategy to identify and address these issues (OSWER Directive No. 9200.3–17).

Today's proposed rule pertains to hazardous oil-bearing secondary materials processed in a gasification system to produce valuable products. It is not certain whether the environmental problems addressed by this rule could disproportionately affect minority or low-income communities. Today's proposed rule is intended to reduce risks of excluded hazardous secondary materials as proposed, and to benefit all populations. As such, this rule is not expected to cause any disproportionately high and adverse impacts to minority or low-income communities versus non-minority or affluent communities.

The wastes proposed for exclusion will be subject to protective conditions regardless of where they are generated and regardless of where they may be managed. Although the Agency understands that this proposed exclusion, if finalized, may affect where these wastes are managed in the future, the Agency's decision to conditionally exclude these materials is independent of any decisions regarding the location of waste generators and the siting of waste gasification facilities. Today's proposed rule will reduce loadings of oil-bearing wastes to the soil, and reduce emissions to the atmosphere. EPA believes that these provisions of the proposal will benefit all populations in the United States, including low-income and minority communities.

We encourage all stakeholders including members of the environmental justice community and members of the regulated community to provide comments or further information related to potential environmental justice concerns or impacts, including information and data on facilities that have evaluated potential ecological and human health impacts (taking into account subsistence patterns and sensitive populations) to minority or low-income communities.

I. Executive Order 13211 (Energy Effects)

This proposal is not a "significant energy action" as defined in Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355 (May 22, 2001)) because it is not likely to have a significant adverse effect on the supply, distribution, or use of energy. We have concluded that this proposal will not have any adverse energy effects. It is a de-regulatory proposal that will primarily affect the petroleum refinery industry (SIC classification 2911). If adopted, the proposal will promote the practice of petroleum refineries processing their hazardous oil-bearing secondary material (materials historically classified as hazardous waste) in gasification systems to produce synthesis gas fuel. Synthesis gas fuel is an alternative fuel composed primarily of hydrogen and carbon monoxide. When used to produce electricity in combined cycle turbines, its use allows power generators to produce electricity more efficiently than other forms of fossil fuel based electricity production.

J. Paperwork Reduction Act

This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 et. seq. There are no information collection requirements for this proposed rule that require an ICR. Furthermore, there are no paperwork requirements for entities affected by this proposal. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An Agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

List of Subjects

40 CFR Part 260

Environmental protection, Administrative practice and procedure, Confidential business information, Hazardous waste, Reporting and recordkeeping requirements.

40 CFR Part 261

Environmental protection, Hazardous waste, Recycling, Reporting and recordkeeping requirements.

Dated: March 19, 2002.

Christine Todd Whitman,

Administrator.

For the reasons set out in the preamble, Chapter I of title 40 of the Code of Federal Regulations is proposed to be amended as follows:

PART 260—HAZARDOUS WASTE MANAGEMENT SYSTEM

1. The authority citation for part 260 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6921–6927, 6930, 6934, 6935, 6937–6939, and 6974.

2. Section 260.10 is amended by adding a new definition for "gasification system" in alphabetical order to read as follows:

§ 260.10 Definitions.

* * * * *

Gasification system means an enclosed thermal device and associated gas cleaning system or systems that does not meet the definition of an incinerator or industrial furnace (found at §§ 260.10), and that:

(1) Limits oxygen concentrations in the enclosed thermal device to prevent the full oxidization of thermally disassociated gaseous compounds;

(2) Utilizes a gas cleanup system or systems designed to remove contaminants from the partially oxidized gas that do not contribute to its fuel value;

(3) Slags inorganic feed materials at temperatures above 2000°F ;

(4) Produces a synthesis gas; and

(5) Is equipped with monitoring devices that ensure the quality of the synthesis gas produced by the gasification system.

* * * * *

PART 261—IDENTIFICATION AND LISTING OF HAZARDOUS WASTE

1. The authority citation for part 261 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6921, 6922, and 6938.

2. Section 261.4 is amended by adding paragraph (a)(12)(iii) to read as follows:

§ 261.4 Exclusions.

(a) * * *

(12) * * *

(iii)(A) Hazardous oil-bearing secondary materials (i.e., sludges, byproducts, or spent materials) that are generated at a petroleum refinery (SIC 2911) and inserted into a gasification system (defined in § 260.10 of this chapter) to produce a synthesis gas used as an ingredient in chemical manufacture or as a fuel, subject to the conditions of paragraph (a)(12)(iii)(B) of this section.

(B) Conditions.

(*1*) Synthesis gas used as a fuel must meet the specifications of § 261.38(b) of this part;

(*2*) The hazardous oil-bearing secondary material must not be placed on the land prior to insertion in the gasification system;

(*3*) The hazardous oil-bearing secondary material must not be speculatively accumulated prior to insertion in the gasification system, unless a variance has been granted under § 260.31(a) of this chapter; and

(*4*) Any materials (by-products, sludges, "frits", bottoms) generated by the gasification system that are excluded under paragraph (a)(12)(iii) that are placed on the land must meet the non-wastewater Universal Treatment Standards for chromium, lead, nickel, vanadium, arsenic, and antimony found at § 268.48 of this chapter.

43 CFR Part 426

RIN 1006–AA43

Acreage Limitation Rules and Regulations—Changes to Addresses for Submitting Appeals

AGENCY: Bureau of Reclamation, Interior.

ACTION: Final rule.

SUMMARY: The Bureau of Reclamation (Reclamation) is revising its regulations governing acreage limitation appeals to reflect a change of address for submitting appeals to the Commissioner of Reclamation and a change of address for submitting appeals to the Office of Hearings and Appeals (OHA). The change of address for the Commissioner is being made to facilitate the processing of appeals, while the change of address for OHA is needed because that agency is moving to a new building in Arlington, Virginia, effective February 11, 2002.

DATES: This rule is effective on March 25, 2002.

FOR FURTHER INFORMATION CONTACT: Richard Rizzi, Lead Water and Land Regulatory Specialist, Office of Policy, Bureau of Reclamation, P.O. Box 25007, Mail Code D–5200, Denver, Colorado 80225, telephone (303) 445–2900.

SUPPLEMENTARY INFORMATION:

I. Background

In 43 CFR part 426, Reclamation has promulgated regulations implementing certain provisions of Federal reclamation law that address the ownership and leasing of land on Reclamation projects and the pricing of Reclamation irrigation water. Included in those regulations are procedures for appeals of regional directors' final determinations to the Commissioner of Reclamation and for appeals of Commissioner's decisions to the Department of the Interior's Office of Hearings and Appeals.

The Office of the Commissioner has staff located in both Washington, D.C., and Denver, Colorado. The Office of Policy staff in Denver reviews all appeals of final determinations made under the Acreage Limitation Rules and Regulations by regional directors and makes recommendations for action on each appeal. Since the staff at the Denver Office has those responsibilities, it is more efficient for appeals to be sent directly to Denver instead of coming to Washington and then being forwarded to Denver.

OHA consists of a headquarters office, located in Arlington, Virginia, and nine field offices located throughout the country. Since 1970, the headquarters office has been located at 4015 Wilson Boulevard, and that address is included in 43 CFR 426.24(g). Effective February 11, 2002, the OHA headquarters office is being relocated to 801 North Quincy Street, Arlington, Virginia. In anticipation of that move, we are revising the administrative appeals section of the Acreage Limitation Rules and Regulations to reflect OHA's new street address.

II. Procedural Requirements

A. Determination To Issue Final Rule Effective in Less Than 30 Days

We have determined that the public notice and comment provisions of the Administrative Procedure Act, 5 U.S.C. 553(b), do not apply to this rulemaking because the changes being made relate solely to matters of agency organization, procedure, and practice. They therefore satisfy the exemption from notice and comment for rulemaking in 5 U.S.C. 553(b)(A).

We have determined that there is good cause to waive the requirement of publication 30 days in advance of the rule's effective date under 5 U.S.C. 553(d)(3). The timing of OHA's relocation is dictated by the construction schedule for the building to which OHA is moving. The actual move date was confirmed only in the past few weeks. If the changes in this rule were to become effective 30 days after publication, it would cause delays in processing appeals. An immediate effective date means that appeals received after the rule is published will go directly to Denver to be processed more rapidly. Because an immediate effective date benefits the public and because this is an administrative change, there is a good cause for making this rule effective immediately, as allowed by 5 U.S.C. 553(d)(3). We will include the new OHA address in any Commissioner's decision made under 43 CFR 426.24 that we issue after February 10, 2002.

B. Review Under Procedural Statutes and Executive Orders

We have reviewed this final rule under the following statutes and executive orders governing rulemaking procedures: the Unfunded Mandates Reform Act of 1995, 2 U.S.C. 1501 *et seq.*; the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*; the Small Business Regulatory Enforcement Fairness Act of 1996, 5 U.S.C. 801 *et seq.*; the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*; the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*; Executive Order 12630 (Takings); Executive Order 12866 (Regulatory Planning and Review); Executive Order 12988 (Civil Justice Reform); Executive Order 13132 (Federalism); Executive Order 13175 (Tribal Consultation); and Executive Order 13211 (Energy Impacts). We have determined that these rule changes do not trigger any of the procedural requirements of those statutes and executive orders because this final rule merely changes the mailing address where appeals of acreage limitation final determinations and Commissioner decisions are to be sent.

List of Subjects in 43 CFR Part 426

Administrative practice and procedure, Irrigation, Reclamation, Reporting and recordkeeping requirements.

Dated: February 6, 2002.

R. Thomas Weimer,

Acting Assistant Secretary—Water and Science.

For the reasons stated in the preamble, Reclamation amends its regulations in 43 CFR part 426 as follows:

PART 426—ACREAGE LIMITATION RULES AND REGULATIONS

1. The authority citation for part 426 continues to read as follows:

Authority: 5 U.S.C. 301; 5 U.S.C. 553; 16 U.S.C. 590z–11; 31 U.S.C. 9701; and 32 Stat. 388 and all acts amendatory thereof or supplementary thereto including, but not limited to, 43 U.S.C. 390aa to 390zz–1, 43 U.S.C. 418, 43 U.S.C. 423 to 425b, 43 U.S.C. 431, 434, 440, 43 U.S.C. 451 to 451k, 43 U.S.C. 462, 43 U.S.C. 485 to 485k, 43 U.S.C. 491 to 505, 43 U.S.C. 511 to 513, and 43 U.S.C. 544.

2. In § 426.24, paragraphs (g)(1) and (g)(2) are revised to read as follows:

§ 426.24 Reclamation decisions and appeals.

* * * * *

(g) * * *

(1) Commissioner, Bureau of Reclamation, Office of Policy, Attention: D–5200, P.O. Box 25007, Denver, Colorado 80225.

(2) Director, Office of Hearings and Appeals, Department of the Interior, 801 North Quincy Street, Arlington, Virginia 22203.

COMMERCE DEPARTMENT
International Trade Administration

LIST OF PUBLIC LAWS

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "PLUS" (Public Laws Update Service) on 202–523–6641. This list is also available online at *http://www.nara.gov/fedreg/plawcurr.html*.

The text of laws is not published in the **Federal Register** but may be ordered in "slip law" (individual pamphlet) form from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone, 202–512–1808). The text will also be made available on the Internet from GPO Access at *http://www.access.gpo.gov/nara/nara005.html*. Some laws may not yet be available.

S. 1857/P.L. 107–153

To encourage the negotiated settlement of tribal claims. (Mar. 19, 2002; 116 Stat. 79)

Last List March 19, 2002

Public Laws Electronic Notification Service (PENS)

PENS is a free electronic mail notification service of newly enacted public laws. To subscribe, go to *http://hydra.gsa.gov/archives/publaws-l.html* or send E-mail to **listserv@listserv.gsa.gov** with the following text message:

SUBSCRIBE PUBLAWS-L Your Name.

Note: This service is strictly for E-mail notification of new laws. The text of laws is not available through this service. **PENS** cannot respond to specific inquiries sent to this address.

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, stock numbers, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The CFR is available free on-line through the Government Printing Office's GPO Access Service at http://www.access.gpo.gov/nara/cfr/index.html. For information about GPO Access call the GPO User Support Team at 1-888-293-6498 (toll free) or 202-512-1530.

The annual rate for subscription to all revised paper volumes is $1195.00 domestic, $298.75 additional for foreign mailing.

Mail orders to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250–7954. All orders must be accompanied by remittance (check, money order, GPO Deposit Account, VISA, Master Card, or Discover). Charge orders may be telephoned to the GPO Order Desk, Monday through Friday, at **(202) 512–1800** from 8:00 a.m. to 4:00 p.m. eastern time, or FAX your charge orders to **(202) 512–2250**.

[1] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] The July 1, 1985 edition of 32 CFR Parts 1-189 contains a note only for Parts 1-39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1-39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[3] The July 1, 1985 edition of 41 CFR Chapters 1-100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

[4] No amendments to this volume were promulgated during the period January 1, 2000, through January 1, 2001. The CFR volume issued as of January 1, 2000 should be retained.

[5] No amendments to this volume were promulgated during the period April 1, 2000, through April 1, 2001. The CFR volume issued as of April 1, 2000 should be retained.

[6] No amendments to this volume were promulgated during the period July 1, 2000, through July 1, 2001. The CFR volume issued as of July 1, 2000 should be retained.

[7] No amendments to this volume were promulgated during the period January 1, 2001, through January 1, 2002. The CFR volume issued as of January 1, 2001 should be retained..

Would you like to know. . .

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $35 per year.

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $30 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Superintendent of Documents **Subscription** Order Form

INFORMATION ABOUT THE SUPERINTENDENT OF DOCUMENTS' SUBSCRIPTION SERVICE

Know when to expect your renewal notice and keep a good thing coming. To keep our subscription prices down, the Government Printing Office mails each subscriber *only one renewal notice*. You can learn when you will get your renewal notice by checking the number that follows month/year code on the top line of your label *as shown in this example:*

A renewal notice will be sent approximately 90 days **before the shown date.**

```
AER SMITH212J                    DEC97 R 1
JOHN SMITH
212 MAIN STREET
FORESTVILLE MD 20704
```

A renewal notice will be sent approximately 90 days **before the shown date.**

```
AERDO SMITH212J                  DEC97 R 1
JOHN SMITH
212 MAIN STREET
FORESTVILLE MD 20704
```

To be sure that your service continues without interruption, please return your renewal notice promptly. If your subscription service is discontinued, simply send your mailing label from any issue to the Superintendent of Documents, Washington, DC 20402–9372 with the proper remittance. Your service will be reinstated.

To change your address: Please SEND YOUR MAILING LABEL, along with your new address to the Superintendent of Documents, Attn: Chief, Mail List Branch, Mail Stop: SSOM, Washington, DC 20402–9373.

To inquire about your subscription service: Please SEND YOUR MAILING LABEL, along with your correspondence, to the Superintendent of Documents, Attn: Chief, Mail List Branch, Mail Stop: SSOM, Washington, DC 20402–9373.

To order a new subscription: Please use the order form provided below.

Public Laws

107th Congress, 1st Session, 2001

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 107th Congress, 1st Session, 2001.

Individual laws also may be purchased from the Superintendent of Documents, U.S. Government Printing Office. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws or access the online database at http://www.access.gpo.gov/nara005.html

The **FEDERAL REGISTER** is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see http://www.nara.gov/fedreg.

The seal of the National Archives and Records Administration authenticates the Federal Register as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and it includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

GPO Access users can choose to retrieve online **Federal Register** documents as TEXT (ASCII text, graphics omitted), PDF (Adobe Portable Document Format, including full text and all graphics), or SUMMARY (abbreviated text) files. Users should carefully check retrieved material to ensure that documents were properly downloaded.

On the World Wide Web, connect to the **Federal Register** at http://www.access.gpo.gov/nara. Those without World Wide Web access can also connect with a local WAIS client, by Telnet to swais.access.gpo.gov, or by dialing (202) 512–1661 with a computer and modem. When using Telnet or modem, type swais, then log in as guest with no password.

For more information about GPO Access, contact the GPO Access User Support Team by E-mail at gpoaccess@gpo.gov; by fax at (202) 512–1262; or call (202) 512–1530 or 1–888–293–6498 (toll free) between 7 a.m. and 5 p.m. Eastern time, Monday–Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is $699, or $764 for a combined **Federal Register, Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is $264. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $10.00 for each issue, or $10.00 for each group of pages as actually bound; or $2.00 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard or Discover. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 67 FR 12345.

Printed on recycled paper.

Title 3—

The President

Proclamation 7533 of March 21, 2002

National Bone and Joint Decade, 2002–2011

By the President of the United States of America

A Proclamation

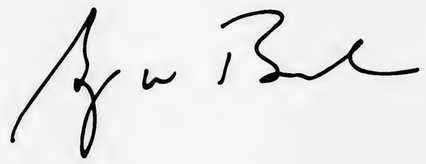
Living a life free from daily bone pain or joint discomfort is something most people take for granted. Our bones, joints, and connective tissues are the structure upon which all other systems of the body depend. They give us strength, mobility, protection, and stability. And they permit us to perform a great variety of physical activities that shape our daily lives.

Our musculoskeletal structure is a complex system of tissue and bone that is regularly subjected to trauma, metabolic and genetic processes, and the gradual wear and tear of an active life. When these bones and tissues become damaged or diseased, they can create chronic conditions that may seriously impede and sometimes permanently affect one's health and well-being.

In the United States, musculoskeletal disorders are a leading cause of physical disability. Conditions such as osteoporosis, osteoarthritis, rheumatoid arthritis, back pain, spinal disorders, and fractures, also affect hundreds of millions of people around the world. And many children suffer from crippling bone and joint diseases and deformities, impeding normal development and preventing them from experiencing a full and healthy life.

The incidence of musculoskeletal conditions will increase as the average age of our population increases. And our culture's increasing emphasis on physical activity, while important to society's overall well-being, will also increase the stress factors on bones and joints. Ensuing disorders, if left untreated, could result in significant pain and suffering that would affect employment, well-being, and healthcare costs.

National Bone and Joint Decade, 2002-2011, envisions a series of international initiatives among physicians, health professionals, patients, and communities, working together to raise awareness about musculoskeletal disorders and promoting research and development into therapies, preventative measures, and cures for these disorders. Advances in the prevention, diagnosis, treatment, and research of musculoskeletal conditions will greatly enhance the quality of life of our aging population.



The National Institutes of Health, the National Institute of Arthritis and Musculoskeletal and Skin Diseases, and other Federal agencies support many bone and joint studies. Industry and private professional and voluntary agencies support other initiatives. This work involves scientists examining the possible genetic causes of bone and joint diseases and studying how hormones, growth factors, and drugs regulate the skeleton. Other researchers are studying bone density, quality, and metabolism, and other ways to increase the longevity of joint replacements for those whose daily activities have become painful, difficult, or even impossible. These research efforts can help relieve pain and suffering and give countless children and adults the opportunity for a better life.

Thanks to the hard work of these dedicated researchers, we have made great progress in understanding and treating musculoskeletal disorders. I commend their efforts and encourage them to pursue diligently further research that will help those suffering from these disorders. And I hope

that all Americans will learn more about musculoskeletal problems, their long- and short-term effects, and the therapies and treatments available to help them.

NOW, THEREFORE, I, GEORGE W. BUSH, President of the United States of America, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim the years 2002–2011, as National Bone and Joint Decade. I call upon the people of the United States to observe the decade with appropriate programs and activities; and I call upon the medical community to pursue research in this important area.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-first day of March, in the year of our Lord two thousand two, and of the Independence of the United States of America the two hundred and twenty-sixth.

Presidential Documents

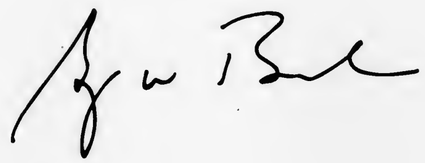
Proclamation 7534 of March 21, 2002

Education and Sharing Day, U.S.A., 2002

By the President of the United States of America

A Proclamation

America's future depends in part on ensuring that every child in America receives a quality education. And by teaching our children the importance of serving those in need, we will help fulfill an important part of their education, showing them the rewards that come from compassionate outreach.



Education has always played a vital role in the success of our Nation. It has provided hope through the principle that any citizen can realize the American dream, regardless of background, ethnicity, or faith. By challenging young people to set high goals and to work hard to achieve them, we prepare our youth to carry on the success of the American story and to become leaders of this great Nation. A core foundation of knowledge and values is essential for students to excel and contribute to the well-being of our communities, our country, and the world.

Parents are a child's first and most important teachers, and they provide the cornerstone of a child's early education. Quality teachers, however, also play an important role in a child's personal and intellectual development. The *No Child Left Behind Act of 2001*, which I signed into law in January 2002, requires that, by the end of the 2005–06 school year, there must be a "highly qualified" teacher in every classroom. Through this new law, States and school districts will have multiple tools to help them meet the new teacher quality requirements. Key elements of this effort include providing State grants to recruit and train teachers, and recruiting high-quality individuals to become teachers, offering expanded student loan forgiveness for teachers. And we must encourage Americans to volunteer their time to serve as mentors to our young people.

Great teachers are also found outside the classroom, making a positive impact on children and on local families. For example, Rabbi Menachem Mendel Schneerson, the Lubavitcher Rebbe, demonstrated the power of teaching others to pursue both intellectual and moral excellence. For this purpose, he established education and outreach centers that offered social services and humanitarian aid. Today, more than 1,400 of these centers operate in 35 countries, meeting the spiritual and material needs of local communities. These beacons of hope communicate the Rebbe's ideal of living a meaningful life through personal responsibility and dedication to those in need. On the 100th anniversary of the Rebbe's birth, I encourage Americans to help teach our young people. In classrooms, homes, and places of worship, we can all make a lasting impact on individual children and thus invest in our country as a whole.

NOW, THEREFORE, I, GEORGE W. BUSH, President of the United States of America, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim March 24, 2002, as Education and Sharing Day, U.S.A., 2002. I call on all Americans to help our young people better understand the importance of character and develop a true love of learning. By doing so, we invest in the future of our country.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-first day of March, in the year of our Lord two thousand two, and of the Independence of the United States of America the two hundred and twenty-sixth.

Rules and Regulations

Federal Register
Vol. 67, No. 58
Tuesday, March 26, 2002

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Farm Service Agency

7 CFR Part 784

RIN 0560—AG17

Lamb Meat Adjustment Assistance Program

AGENCY: Farm Service Agency, USDA.

ACTION: Final rule.

SUMMARY: This rule finalizes an interim rule implementing the Farm Service Agency's (FSA) Lamb Meat Adjustment Assistance Program (LMAAP). The program is designed to help restore purchasing power and enable producers to make significant changes in production practices to adjust to import competition by providing financial assistance to sheep and lamb producers who have recently experienced low prices and poor market conditions. On the basis of comments and suggestions received, FSA is making several changes to the program provisions in the interim rule and is adding other provisions.

EFFECTIVE DATE: March 21, 2002.

FOR FURTHER INFORMATION CONTACT: Danielle Cooke, (202) 720–1919 or e-mail *danielle_cooke@wdc.fsa.usda.gov.*

SUPPLEMENTARY INFORMATION:

Executive Order 12866

This final rule is in conformance with Executive Order 12866 and has been determined to be significant and has been reviewed by the Office of Management and Budget.

Regulatory Flexibility Act

It has been determined that the Regulatory Flexibility Act is not applicable to this rule because the Farm Service Agency (FSA) is not required by 5 U.S.C. 533 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of this rule.

Environmental Evaluation

It has been determined by an environmental evaluation that this action will have no significant impact on the quality of the human environment. Therefore, neither an environmental assessment nor an Environmental Impact Statement is needed.

Executive Order 12988

This rule has been reviewed in accordance with Executive Order 12988. The provisions of this rule preempt State laws to the extent such laws are inconsistent with the provisions of this rule. Before any legal action may be brought regarding determinations of this rule, the administrative appeal provisions set forth at 7 CFR part 780 must be exhausted.

Executive Order 12372

This program is not subject to the provisions of Executive Order 12372, which require intergovernmental consultation with State and local officials. See the notice related to 7 CFR part 3014, subpart V, published at 48 FR 29115 (June 24, 1983).

Unfunded Mandates Reform Act of 1995

This rule contains no Federal mandates under the regulatory provisions of Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) for State, local, and tribal governments or the private sector. Thus, this rule is not subject to the requirements of sections 202 and 205 of the UMRA.

Paperwork Reduction Act of 1995

A notice with request for comments on the information collection was part of the interim rule. No comments were received from the public during the 60-day comment period regarding the information collection. A regular submission of an information collection package was approved by OMB for use through the year 2003 and assigned OMB control number 0560–0205. The amendments to 7 CFR part 784, contained in this rule involve a change in existing information collection requirements that was previously approved by OMB. In accordance with the Paperwork Reduction Act of 1995, FSA has submitted an emergency information collection request to OMB for the approval of a revision to a currently approved collection as necessary for the proper functioning of the program. A regular information collection package will be submitted to OMB.

Discussion of Final Rule

The interim rule published in the **Federal Register** on June 21, 2000 (65 FR 38409), set forth regulations to allow direct payments to provide immediate financial assistance to sheep and lamb producers who have recently experienced low prices and poor market conditions. The background provisions of that rule described, in addition, the statutory underpinnings of the program, those being provisions of the Act of August 24, 1935, as amended. One of those provisions is clause (3) of section 32, which authorizes the Secretary of Agriculture to "reestablish farmers purchasing power in connection with the normal production of any agricultural commodity for domestic consumption." Under the program, eligible producers of sheep and lambs may receive direct payments towards the production segment of the industry to share expenses for productivity improvement projects. In the second and third year, under the original rule direct payments to producers are based on quality incentives that will assist the industry's competitiveness in the marketplace. To enhance the competitiveness of the domestic lamb and sheep industry, the program is extended by this rule through July 2003 and the rule contemplates that an additional $37.7 million of Fiscal Year 2002 Section 32 funds will be available for the program. Of the $37.7 million in additional funds, $26 million will be allocated to the new ewe lamb incentive payment for Year 3 and Year 4, while the remaining funds will go towards continuing feeder lamb and slaughter lamb payments during Year 2, Year 3, and Year 4 of the program.

Comments regarding the provisions of the program were accepted until July 21, 2000. Comments were received from 48 entities or persons, which includes 28 sheep producers and ranchers, 13 agricultural associations, two farm bureaus, two United States Congressmen, one agricultural university, and two Agency employees.

Most of the comments addressed particular provisions of the interim rule. These are discussed below on a section-

VOL
67
ISS
58
MR
26
2002
UMI

by-section basis, along with the changes that have been made to the interim rule. Changes to each section based on the experience of operating the program under the interim rule are also discussed on a section-by-section basis.

General

Five respondents commented that the program does not benefit the industry and excludes the small farmer. Prior to publishing the interim rule, USDA provided several opportunities for public participation in the rulemaking process through highly publicized meetings. Comments and program proposals were solicited after the President's announcement of the assistance package to assess their needs and obtain regulatory guidance. We believe the interests of small producers have been duly addressed and considered, as all elements of the industry will be able to share in the elements of this program without an increase in payment rates.

Section 784.1 Applicability; Available Payments

Most of the comments concerned the lack of an incentive or a payment to encourage the purchase or retention of ewe lambs for breeding stock to replenish the lambing inventory. By this rule, FSA, in conjunction with AMS, will add a ewe lamb incentive payment to the program. This will provide incentives for producers to purchase or retain their breeding ewes, expand herds, and increase the available supply of domestic lamb meat. Payments for the new ewe lamb incentive payment program cover purchases back to August 1, 2001, and then continue for two payment years through July 31, 2003. An additional $26 million is authorized for the ewe lamb incentive payment with a target of $13 million per year.

Also in this section, slaughter and feeder lamb payments have been extended one year through July 31, 2003. This will enable domestic lamb and sheep producers to compete more effectively in the marketplace. A total of $10 million has been authorized to make payments available for marketings of eligible feeder and slaughter lambs during Year 4. In addition, $1.7 million has been allocated to cover the anticipated short fall of funds for marketings of eligible feeder and slaughter lambs during Year 3.

Section 784.3 Definitions

Three respondents believed the "feeder lamb definition" provided for in section 784.3 should be changed to allow for lambs fed using a high protein diet or other appropriate diet. That comment was accepted, as the original definition may be too narrow.

As there is a one year extension of the LMAAP, a definition for Year 4 was added. A definition for "ewe lamb" was also added to reflect the expansion of the program.

Section 784.4 Year 1 Time and Method for Application

Some of the commenters believed that the time periods between the program announcement and the program deadlines were too short, and that the eligibility period should be retroactive from the 1999 marketing season. FSA, however, established the dates of the program to coincide with the dates in the President's announcement of the $100 million assistance plan to help U.S. sheep and lamb farmers. Therefore, the comment was not adopted and no such changes were made in this final rule.

Section 784.5 Year 1 Eligibility

There were several public comments received regarding Year 1 payments. Specifically, seven respondents felt the use of a gross annual revenue level was too restrictive and precluded many from qualifying for a payment during Year 1 or a feeder lamb payment during Year 2. FSA, however, established the use of a gross annual revenue of $2.5 million or less to help ensure that the Federal financial benefits of this rule are distributed to farmers of more modest financial means. Therefore, the comments are not adopted into this final rule.

Although no comments on this issue were received, while operating under the interim rule, FSA decided to establish a deadline date for producers to complete facility improvements. This provision was added to ensure producer timely compliance with eligibility requirements provided in § 784.5(b)(3). Sheep and lamb operations that do not complete the facility improvements by the deadline date will be determined ineligible for benefits and must immediately refund the payment made and with interest.

Three comments were received from the public who felt that farm raised rams for breeding up to yearling age should be eligible to generate a payment. Other suggestions included that to be eligible to generate a ram payment, the ram should show evidence of various traits of above average genetic potential; another suggested that a provision be added for payments for ram semen and embryo purchases. No change was made as the current incentives appear sufficient to accomplish the program purposes and more directly aimed at the desired result. For the time period covered, the genetic potential of a ram, ewe or lamb was evaluated and payment made through enrolling in the National Sheep Improvement Program (NSIP), or a similar FSA approved program, that evaluates animals in a flock for maternal, growth, and wool traits. We think these guidelines were sufficient, and at this point the ram portion of the program is over.

Two comments received opposed the sheep improvement program payment by stating this payment does not address the entire industry and should be eliminated. Another comment suggested that Government funds should not be used to solicit membership in voluntary programs such as the NSIP. Comments also suggested that the sheep improvement program payment should include payments with respect to a scrapie program.

The NSIP was approved by USDA because of its recognition in the industry, but the rule allowed for other programs to be approved as well. Scrapie programs were not included in the sheep improvement program because funds under the alternative Domestic Lamb Industry Adjustment Assistance Program were specifically appropriated for animal health issues that included scrapie eradication. Further, scrapie eradication programs are not genetically based and would, therefore not qualify as a genetic evaluation program.

Five of the received comments directed concern toward the ineligibility of facility improvements begun and not completed by the end of the sign-up period. One respondent believed that the facility improvement eligibility requirements were too broad, and more specific guidelines were needed. One respondent was concerned that the facility improvement payment was not designed to make a difference because it was geared more towards small producers and not the entire industry. In response to these concerns, policy and procedure was established in this final rule to provide specific guidelines for facility improvements and a deadline date was established to have facility improvements completed beyond the deadline established for producers to apply for program payments.

Section 784.6 Year 1 Rate of Payment and Limitations on Funding

Three comments were received from the public who believed that the maximum ram payment rate for Year 1 payments should be increased. The payment limitations in Year 1 were

imposed to assure fair distribution of available funds for all eligible producers with the total available funding and we believe were set at appropriate levels to cover the program goals. No changes were made.

Section 784.8 Year 2 and Year 3 Time and Method for Application

The majority of the comments received were regarding Year 2 and Year 3 eligibility requirements. Four comments indicated that Year 2 and Year 3 payments should be based on actual sales receipts from the market place because the eligibility requirements for payments with respect to slaughter and feeder lambs and the paperwork involved were too complicated and cumbersome. In response to this concern, FSA has revised operating procedure to allow producers to self-certify feeder lambs by fax by faxing the last page of the LMAAP application form to AMS at least two working days prior to a designated 24-hour viewing period. Then USDA agents, based on their availability, would randomly select sheep and lamb operations to verify the claims. Following that, the producer to receive payment would submit to their FSA county office the completed Form FSA–383 and supporting documentation, as proof of the faxed information.

Also, in the final rule, the provision in § 784.5 allowing a payment to a sheep and lamb operation that owned a feeder lamb continuously for 30 days prior to marketing has been changed to require the operation to own the feeder lamb continuously from birth to the time of marketing. The interim rule led to attempted abuse by a few producers who falsified lamb sales records to circumvent the regulation in order to receive multiple payments.

Several comments received with respect to the slaughter lamb carcass requirements in this section suggested that the 55 to 75 pound dressed hot carcass weight requirement be increased to 80 pounds. Other comments suggested that the 55 to 75 pound dressed hot carcass weight should be eliminated, to accommodate northeastern producers. These producers typically do not qualify for a feeder or slaughter lamb payment because they sell to restaurant and ethnic markets where lamb carcasses average 20 to 45 pounds dressed hot carcass weights. Respondents felt that fine wool sheep would not meet the muscling criteria because the fine wool breeds of the northeastern region are slower to develop muscling. Two comments were received that suggested a gradual phase in of program standards that would allow breeding programs to adjust to a policy that favors breeds suited to meat production rather than wool production. There were also three comments that suggested Yield grade 3 slaughter lamb carcasses be eligible for payment.

USDA uses the standard of a hot carcass weight of 55 to 75 pounds to provide lamb consumers with a more appealing product. This standard also serves to improve profitability by increasing the efficiency of the lamb production cycle and to encourage the production of more consistently palatable and higher yielding lamb products. Lamb processors want larger carcasses because there is less labor involved for the amount of meat that is realized. Additionally, the weight range and yield grade were not changed in the final rule because the industry wants a more uniform carcass that yields a consistent product in size, weight, and appearance. Finally, the concept of plate coverage was considered in making this determination. The food service industry prefers fewer ribs with larger portions when preparing meals from middle meats. Therefore, these comments are not adopted in this final rule.

Seven comments received from the public expressed concerns about AMS certification, particularly whether AMS has the resources to certify to the feeder and slaughter lambs for the qualifying factors. Eleven comments were received suggesting that AMS simplify the certification procedures by allowing USDA inspectors and small USDA processing plants to certify the carcass criteria. Other suggestions included allowing a waiver of slaughter lamb carcass requirements to producers that marketed less than 500 lambs per year and allowing the use of a Statewide average grade score as a proxy for individual slaughter lamb carcass data. Five respondents believed that a provision should be established to allow producers who sell lambs on a live weight basis to be eligible for payments in Year 2 and Year 3. Some comments suggested that the slaughter lamb payments be based on 100 pounds per lamb with a 145 pound cap. The producer would have to produce receipts for the pounds of lambs sold to the packer and receipts for the pounds of lambs purchased from the sheep producer, and the payment would be based on the difference. To address these situations, the Agency will allow slaughter facilities that process less than 50 market lambs per week to certify the slaughter lamb carcass requirements, provided they are approved by AMS and meet the established guidelines. Otherwise, the rules appear to be appropriate and efficient with respect to the accomplishment of the goals of the program and administrative necessities.

Three respondents felt that slaughter lambs placed on a truck along with those of several other producers for transport to a slaughter facility would be a major problem and that payments should not be based on a producer's pro rata share. In response to this concern, the LMAAP application form has been revised to assist the sellers of slaughter lambs to identify and trace their lambs placed on a commingled truck load and sold to a slaughter facility. Otherwise the slaughter facility could not identify the number of lambs from a particular producer. This form must accompany lambs to the slaughter facility and be presented to the USDA grader for certification and payment. However, these payments will still be based on a pro-rata share.

Section 784.10 Availability of Funds for Year 1 through Year 3

There were no comments on this section, however, an additional $1.7 million has been authorized to cover an anticipated shortfall in the $10 million allocated to FSA for the feeder and slaughter lamb direct payment in Year 3. Payments for eligible slaughter and feeder lambs will continue through July 31, 2003, to further provide those eligible for the payments with an immediate infusion of funds to help pay operating expenses and meet other financial obligations. An additional $10 million will be provided to extend the direct payments for eligible feeder and slaughter lambs into 2003. In addition, $26 million is authorized for the new ewe lamb incentive payment during Year 3 and Year 4. These changes will increase the total available funds for the program in the final rule from $30 million to $67.7 million and establish a program for Year 4.

Section 784.13 Estates, Trusts, and Minors

One public comment was received from a surety association regarding the participation of minors in the program and the enforceability of a surety contract with a minor. However, provisions exist that allow a minor who meets the LMAAP program eligibility requirements to participate in the program, provided the applicable program documents are signed by the minor and co-signed by a person determined by the FSA County Committee to be financially responsible.

Section 784.17 was added to provide offset and withholding provisions and

VOL
67
ISS
58
MR
26
2002
UMI

§ 784.18 was added for assignment of payments. Also, minor changes are made throughout this part to improve structure, clarity, and readability. Also, internal agency administrative procedures are removed.

Finally, changes were made in the proration language of the rule to cover possible over-subscription. The rule contemplates that Year 4 payments will be prorated in advance to comply with expected demand and then paid first-come, first-served, until exhausted. Also the rule specifies that monies committed to ewe incentives may be used only for those purposes and that no other program money will be used for those purposes.

The Department of Agriculture plans to evaluate this program's effectiveness through a review of the impact of several key components. The performance measures will include an annual review of the change in the following: (1) U.S. flock size; (2) quality and yield of slaughter lambs; (3) number of feeder lambs qualifying for payments; and (4) number and quality of ewes retained. These evaluations will continue for the duration of the program.

List of Subjects in 7 CFR Part 784

Administrative practice and procedure, Direct payments to sheep and lamb operations, Reporting and record keeping requirements.

Accordingly, for the reasons set forth in the preamble, 7 CFR part 784 is revised to read as follows:

PART 784—LAMB MEAT ADJUSTMENT ASSISTANCE PROGRAM

Sec.

784.1 Applicability; available payments.
784.2 Administration.
784.3 Definitions.
784.4 Year 1 time and method for application.
784.5 Year 1 eligibility.
784.6 Year 1 rate of payment and limitations on funding.
784.7 Year 2, Year 3, and Year 4 time and method for application.
784.8 Year 2, Year 3, and Year 4 eligibility.
784.9 Year 2, Year 3, and Year 4 rate of payment and limitations on funding.
784.10 Availability of funds for Year 1 through Year 4.
784.11 Appeals.
784.12 Misrepresentation and scheme or device.
784.13 Estates, trusts, and minors.
784.14 Death, incompetency, or disappearance.
784.15 Maintenance and inspection of records.
784.16 Refunds; joint and several liability.
784.17 Offsets and withholdings.
784.18 Assignments.

Authority: Clause (3) of section 32 of the Act of August 24, 1935, as amended; 7 U.S.C. 612c.

§ 784.1 Applicability; available payments.

(a) This part establishes the Lamb Meat Adjustment Assistance Program pursuant to Clause (3) of section 32 of the Act of August 24, 1935, as amended (7 U.S.C. 612c). The purpose of this program is to provide benefits to sheep and lamb operations to reestablish their purchasing power in connection with the normal production of sheep and lambs for domestic consumption and boost the long-term development and growth of sheep and lamb production in the United States.

(b) Under and subject to this part, FSA will provide with respect to sheep and lamb operations: Year 1 payments in which sheep and lamb operations will receive payments for, during the time period encompassing Year 1 as defined in § 784.3, purchasing eligible rams for breeding, enrolling their herd in a sheep improvement program, and for making improvements to their production facilities; Year 2, Year 3, and Year 4 payments for marketings of eligible slaughter lambs or feeder lambs during the period encompassing those time periods; and Year 3 and Year 4 payments for retaining or purchasing ewe lambs for breeding stock to replenish the lamb inventory during the period encompassing those time periods. Unless otherwise determined by the agency in accordance with the provisions of this part, the amount that may be expended under this part shall not exceed $67.7 million. Claims that exceed that amount will be prorated in accordance with the provisions for proration that are contained in this part.

(c) To be eligible for any payments under this part, the sheep and lamb operation must be engaged in the business of producing and marketing agricultural products at the time of filing the application.

§ 784.2 Administration.

This part shall be administered by the Farm Service Agency (FSA) under the general direction and supervision of the Administrator, FSA, or his designee and the employees of the Agency.

§ 784.3 Definitions.

The definitions set forth in this section shall be applicable for all purposes of administering the Lamb Meat Adjustment Assistance Program established by this part.

Agricultural Marketing Service or AMS means the Agricultural Marketing Service of the Department.

Application means the Lamb Meat Adjustment Assistance Program Application, Forms FSA–382 and FSA–383.

Average Choice Confirmation means a muscling score of that designation assigned in accordance with official USDA standards and procedures.

Department means the United States Department of Agriculture.

Eligible lambs means feeder lambs and slaughter lambs during Year 2 through Year 4 and also ewe lambs during Year 3 through Year 4.

Ewe lamb means a female lamb no more than 18 months of age that has not produced an offspring.

Farm Service Agency or FSA means the Farm Service Agency of the Department.

Feeder lamb means a ewe or wether of less than one year of age that when sold is intended to be further fed a high protein diet or other appropriate diet to reach an acceptable slaughter market weight.

Foot rot means an infectious, contagious disease of sheep that causes severe lameness and economic loss from decreased flock production.

Lambing cycle means the period of time from birth to weaning.

Parrot mouth means a genetic defect resulting in the failure of the incisor teeth to meet the dental pad correctly.

Person means any individual, group of individuals, partnership, corporation, estate, trust, association, cooperative, or other business enterprise or other legal entity who is, or whose members are, a citizen or citizens of, or legal resident alien or aliens in the United States.

Secretary means the Secretary of the United States Department of Agriculture or any other officer or employee of the Department who has been delegated the authority to act in the Secretary's stead with respect to the program established in this part.

Sheep and lamb operation means any self-contained, separate enterprise operated as an independent unit exclusively within the United States in which a person or group of persons raise sheep and/or lambs.

Sheep improvement program means the "National Sheep Improvement Program" operated by the American Sheep Industry Association or other similar program for herd improvement approved by the FSA with respect to payments under this part.

Slaughter lamb means a lamb that is sold for immediate slaughter.

United States means the 50 States of the United States of America, the District of Columbia, and the Commonwealth of Puerto Rico.

USDA Choice, USDA Prime, USDA Yield Grade 2 mean, respectively, the classifications for lamb carcasses so designated under the Official United States Standards for Grades of Lamb, Yearling, Mutton, and Mutton Carcasses promulgated by the Secretary of Agriculture under the Agricultural Marketing Act of 1946, as amended (60 Stat. 1087; 7 U.S.C. 1621–1627) and related authorities.

Year 1 means the period of time beginning July 22, 1999, and ending September 30, 2000.

Year 2 means the period of time beginning August 1, 2000, and ending July 31, 2001.

Year 3 means the period of time beginning August 1, 2001, and ending July 31, 2002.

Year 4 means the period of time beginning August 1, 2002, and ending July 31, 2003.

§ 784.4 Year 1 time and method for application.

(a) A request for Year 1 benefits under this part must be submitted on a Lamb Meat Adjustment Assistance Program Payment Application. The form may be obtained from and must be submitted to the FSA county office serving the county where the sheep and lamb operation is located. The completed form must be received by the FSA county office by the close of business on October 13, 2000. Applications not received by the close of business on October 13, 2000, will be returned as not having been timely filed and the sheep and lamb operation filing the application will not be eligible for benefits under this program.

(b) The sheep and lamb operation requesting Year 1 benefits under this part must certify to the accuracy of the information provided in their application for benefits. All information provided is subject to verification by FSA. Refusal to allow FSA or any other agency of the Department of Agriculture to verify any information provided will result in a determination of ineligibility. Data furnished by the applicant will be used to determine eligibility for program benefits. Furnishing the data is voluntary; however, without it, program benefits will not be approved. Providing a false certification may result in additional civil and criminal sanctions.

(c) Not withstanding any other provisions of this section, payments will not be made under this section for the acquisition of rams to the extent that any such purchase, at any time during Year 1, created, or help create, a ratio of rams to ewes for the operation that was less than 1 ram to 15 ewes. However, the limitation on payments provided for in the preceding sentence shall not apply to the extent that the operation establishes to the satisfaction of the FSA County Office Committee that a lower ratio of rams to ewes is customary for the operation for breeding purposes.

§ 784.5 Year 1 eligibility.

(a) To be eligible to receive the Year 1 payments under this part, as described in § 784.1, at the rates provided in § 784.6, a sheep and lamb operation must:

(1) Be engaged in the business of producing and marketing agricultural products at the time of filing the application;

(2) Have in 1999 gross annual revenue of $2.5 million or less; and

(3) During Year 1,

(i) Purchased rams for breeding purposes within that operation, provided that such rams must have been at least 90 days of age when purchased and must have been, or will be, maintained by the operation for at least 90 days continuously after the date of purchase; or

(ii) Enrolled sheep in an eligible sheep improvement program; or

(iii) Made sheep and lamb operation facility improvements with respect to their operation.

(b) To be eligible for payments for facility improvements made under paragraph (a)(3)(iii) of this section, the sheep and lamb operation must do the following:

(1) Submit supporting documentation of the cost of the improvements made to the facility during program Year 1. Supporting documentation must be dated during Year 1. Materials purchased prior to Year 1 are ineligible.

(2) Use facility improvements for sheep and lamb production activities continuously for at least the next three consecutive years, and

(3) Must complete the facility improvement by a date determined by the Administrator of FSA, or his designee. The Deputy Administrator for Farm Programs, FSA may authorize State and county committees to waive or modify the facility improvement completion date in cases where timeliness or failure to meet such other requirements does not adversely affect the operation of the program.

(c) Upon a failure to maintain the facility for the full three years or complete the facility improvement by the established deadline, the operation must refund the Year 1 facility payment immediately plus interest at the rate of interest determined by the Agency, from the date FSA made such benefits available to the date of repayment.

(d) With respect to payments made for activities addressed in paragraph (a)(3)(i) of this section, upon any failure to maintain a ram for the full required 90-day period after payment, unless the 90-day period referred to in paragraph (a)(3)(i) of this section has already expired, the operation must immediately refund the payment plus interest at a rate determined by the Agency.

§ 784.6 Year 1 rate of payment and limitations on funding.

Subject to the availability of funds and to the proration rules of § 784.10, Year 1 payments for qualifying operations shall be at the following rates:

(a) Up to $100 for each eligible ram purchased, with a maximum of $2,500 per sheep and lamb operation;

(b) $.50 for each qualifying sheep enrolled in a qualifying sheep improvement program, up to $500 per sheep and lamb operation; plus

(c) 20% of the cost of the qualifying facility improvements up to $2,500 per sheep and lamb operation.

§ 784.7 Year 2, Year 3, and Year 4 time and method for application.

(a) A request for Year 2, Year 3, and Year 4 benefits under this part must be submitted on a completed Lamb Meat Adjustment Assistance Program Payment Application. The application must be submitted to the FSA county office serving the county where the sheep and lamb operation is located but, in any case, must be received by the FSA county office by the close of business on August 15, 2001, if applying for Year 2 benefits, by the close of business on August 15, 2002, if applying for Year 3 benefits, and by the close of business August 15, 2003, if applying for Year 4 benefits. The certification section of the application must be completed prior to submission. Applications not received by the respective deadlines will be rejected and returned.

(b) The sheep and lamb operation requesting benefits under this part must certify to the accuracy of the information provided in their application for benefits. All information provided is subject to verification by FSA. Refusal to allow any agency of the Department of Agriculture to verify any information provided will result in rejection of the application or an obligation to return payments. Data furnished by the applicant will be used to determine eligibility for program benefits. Furnishing the data is voluntary; however, without it program benefits will not be approved. Providing a false certification to the Government is punishable by imprisonment, fines and other penalties.

§ 784.8 Year 2, Year 3, Year 4 eligibility.

(a) Subject to the availability of funds, Year 2, Year 3, and Year 4 payments will, as described to in § 784.1, be made for eligible marketings of slaughter lambs. Payments for slaughter lambs can be received by an operation at the rates described in § 784.9 for those eligible lambs slaughtered in Year 2, Year 3, and Year 4 if the lambs were owned continuously for 30 days prior to the marketing for slaughter and if the carcass produced meets the criteria set out in paragraph (b) of this section. Other criteria, as set out in this part, may also apply as a condition for, or limitation on, payment. See paragraphs (d) and (g) of this section for feeder lamb and purchased or retained ewe lamb payment eligibility.

(b) In order for a marketing of a slaughter lamb to qualify for payment under paragraph (a) of this section, the carcass produced by the slaughter must meet and be certified by an AMS agent to meet the following criteria:

(1) Meet the requirements of USDA Quality Grade Choice or Prime for lamb carcasses;

(2) Meet the requirements of USDA Yield Grade 2;

(3) Have a muscling confirmation score of "Average Choice" or better; and

(4) Have a 55–75 pound dressed hot carcass weight.

(c) Slaughter facilities that process less than 50 market lambs per week on a yearly basis can request approval from AMS to certify the slaughter lamb carcass requirements according to paragraph (b) of this section. To obtain approval from AMS, the slaughter facility must submit a written request for AMS approval to the address provided by FSA.

(d) Eligible slaughter lambs commingled on a pooled load for transport to a slaughter facility must complete the applicable information on the LMAAP application form. Producers with lambs on these pooled loads can receive a pro-rata portion of payment for eligible slaughter lambs that meet the criteria for payment according to paragraph (b) of this section. The LMAAP application must accompany lambs to the slaughter facility and be presented to the USDA grader for certification. The seller must comply with all other FSA guidelines to be eligible for such benefits for this program.

(e) Subject to the availability of funds, sheep and lamb operations may be eligible for the Year 2, Year 3, and Year 4 feeder lamb payments, as specified in § 784.9, if:

(1) The operation had gross sales of no more than $2.5 million in the year preceding the year for which payment is requested; and

(2) The feeder lambs sold were owned by the operation from birth to the time of marketing and, when marketed, were certified by AMS, as thick-muscled and large-framed.

(f) An eligible sheep and lamb operation can self-certify to the eligibility criteria described in paragraph (e) of this section, if they do the following:

(1) Certify to the number of feeder lambs that meet the criteria in paragraph (e)(2);

(2) Maintain identification with the farm or ranch of origin of the feeder lambs for a 24-hour viewing period to allow AMS agents or their assigned representatives an opportunity to verify qualifying feeder lambs;

(3) Complete and fax page 4 of the LMAAP application to a number provided by FSA or AMS at least 2 workdays prior to a 24-hour period when lambs can be viewed for verification, providing on the form the location and contact person for USDA verification purposes;

(4) Submit an LMAAP Application for payment;

(5) Submit supporting documentation to the local county office to prove that page 4 of the LMAAP application was completed and faxed according to paragraph (f)(3) of this section.

(g) Sheep and lamb operations that elect not to self-certify according to paragraph (f) of this section, can self-certify to the eligibility criteria described in paragraph (e) of this section when lambs lose ownership identification by doing the following:

(1) Provide unique identification for all marketed lambs by:

(i) Requesting program ear tags in writing from USDA (the address is available at any local FSA office); or

(ii) Uniquely identifying or tagging each qualifying self-certified feeder lamb that meets the eligibility requirements clearly described in paragraph (e)(2) of this section before transferring ownership. Alternative methods of identification may be used such as other unique ear tags or paint brands;

(2) Complete and fax page 4 of the LMAAP application to a number provided by FSA including the location of the lambs for 30 days after FAX notification and the type of animal identification;

(3) Submit LMAAP Application to the local county office for payment; and

(4) Submit supporting documentation to the local county office to prove that page 4 of the LMAAP application was completed and faxed according to paragraph (g)(2).

(5) Applicable FSA program forms, office addresses, and fax number information is available on the internet at *www.sc.egov.usda.gov*.

(h) In order for an eligible sheep and lamb operation to receive a ewe lamb incentive payment, the producer must certify that the ewe lamb, at the time of certification is:

(1) Not older than 18 months of age;

(2) Has not produced an offspring;

(3) Does not possess the following characteristics:

(i) Parrot mouth; or

(ii) foot rot.

(i) In addition, to qualify for ewe lamb incentive payment, the sheep and lamb operation must:

(1) Certify that it will maintain the qualifying ewe lambs in the herd for at least one complete offspring lambing cycle and actually maintain the lambs for that period in accord with that certification.

(2) Upon request by an AMS agent, agree to allow the AMS agent to verify that the ewe lambs meet qualifying characteristics. These qualifying characteristics inter alia, must be certified by an AMS agent as equal or superior to those required for lamb incentive payments, as described in paragraphs (b) and (e) of this section.

(3) Maintain documentation of any death loss of qualifying ewe lambs.

(4) Agree to refund any payments made with respect to any ewe lamb which has died before completing the full program requirements where said deaths for the operation exceed 10 percent per program year.

(5) Be in compliance with all requirements relating to Scrapie, as described in 9 CFR part 79; and

(j) To be eligible for any payments addressed under this section, sheep and lamb operation must be engaged in the business of producing and marketing agricultural products at the time of filing the application.

(k) In addition, to be eligible for Year 2, Year 3, and Year 4 payments, a sheep and lamb operation must submit a timely application during the application period for Year 2, Year 3, and Year 4 benefits and comply with all other terms and conditions of this part or which are contained in the application to be eligible for such benefits.

§ 784.9 Year 2, Year 3, and Year 4 rate of payment and limitations on funding.

Subject to the availability of funds, and the proration rules set out in § 784.10, Year 2, Year 3, and Year 4 payments may be made to sheep and lamb operations at the following rates:

(a) $3 for each qualifying feeder lamb; plus

(b) $5 for each qualifying slaughter lamb marketed in any covered month except for June or July of the applicable program year, and

(c) $8 for each qualifying slaughter lamb marketed in June or July of the applicable program year.

(d) $18 for each qualifying ewe lamb retained or purchased for breeding purposes for Year 3 and Year 4 only.

§ 784.10 Availability of funds for Year 1 through Year 4._

(a) Total payments under this part, unless otherwise determined by the FSA, cannot exceed $67.7 million. At the close of Year 3, FSA will determine if the remaining available funds will be sufficient for program Year 4. In the event that funds should be insufficient to complete the expected payments to eligible producers during program Year 4, then the payment rates for that program year shall be prorated by a national factor so as to reduce the expected payments to be made to the amount available and payment shall be made at those rates until monies are expended. Payments made during a prorated program year shall be made first-come, first-served so long as there are monies available in the manner set for in these regulations. Payments for preceding years will not be affected.

(b) A national factor shall be determined, if necessary for slaughter lamb and feeder lamb payments based on the factoring of the remaining available funds at the conclusion of Year 3 divided by the average number of slaughter and feeder lambs that qualified for benefits during Year 2 and Year 3.

(c) Of the $67.7 million of total funds under this part, $26 million is specifically earmarked for the ewe lamb incentive payments, with a target of $13 million per year for Year 3 and Year 4. Those monies ($26 million) should be used only for the ewe incentive payments and no other funds shall be used for those payments. A national factor shall be determined, if necessary for ewe lamb payments based on the factoring of the remaining available funds at the conclusion of Year 3 divided by the number of ewe lambs that qualified for ewe lamb payments during Year 3.

(d) In the event that approval of all eligible applications would result in expenditures in excess of the amount available, FSA shall reduce the national factor in such manner as FSA, in its sole discretion, finds fair and reasonable.

§ 784.11 Appeals.

Any sheep and lamb operation which is dissatisfied with a determination made pursuant to this part may make a request for reconsideration or appeal of such determination in accordance with the appeal regulations set forth at parts 11 and 780 of this title or otherwise applicable.

§ 784.12 Misrepresentation and scheme or device.

(a) A person or operation shall be ineligible to receive assistance under this program if it is determined by FSA to have:

(1) Adopted any scheme or device which tends to defeat the purpose of this program;

(2) Made any fraudulent representation; or

(3) Misrepresented any fact affecting a program determination.

(b) Any funds disbursed pursuant to this part to any person or operation engaged in a misrepresentation, scheme, or device, shall be refunded with interest together with such other sums as may become due. Any sheep and lamb operation or person engaged in acts prohibited by this section and any sheep and lamb operation or person receiving payment under this part shall be jointly and severally liable with other persons or operations involved in such claim for benefits for any refund due under this part and for related charges. The remedies provided in this part shall be in addition to other civil, criminal, or administrative remedies which may apply.

§ 784.13 Estates, trusts, and minors.

(a) Program documents executed by persons legally authorized to represent estates or trusts will be accepted only if such person furnishes evidence of the authority to execute such documents.

(b) A minor who is otherwise eligible for assistance under this part must, also:

(1) Establish that the right of majority has been conferred on the minor by court proceedings or by statute;

(2) Show a guardian has been appointed to manage the minor's property and the applicable program documents are executed by the guardian; or

(3) Furnish a bond under which the surety guarantees any loss incurred for which the minor would be liable had the minor been an adult.

§ 784.14 Death, incompetency, or disappearance.

In the case of death, incompetency, disappearance or dissolution of a person that is eligible to receive benefits in accordance with this part, such person or persons specified in part 707 of this title may receive such benefits, as determined appropriate by FSA.

§ 784.15 Maintenance and inspection of records.

(a) Persons making application for benefits under this program must maintain accurate records and accounts that will document that they meet all eligibility requirements specified herein. Such records and accounts must be retained for 3 years after the date of payment to the sheep and lamb operations under this program. Destruction of the records 3 years after the date of payment shall be the risk of the party undertaking the destruction.

(b) At all times during the regular business hours, authorized representatives of USDA shall have access to the premises of the sheep and lamb operation in order to inspect, examine, and make copies of the books, records, and accounts, and other written data as specified in paragraph (a) of this section.

(c) Any funds disbursed pursuant to this part to any person or operation who does not comply with the provisions of paragraphs (a) or (b) of this section shall be refunded with interest.

§ 784.16 Refunds; joint and several liability.

(a) In the event there is a failure to comply with any term, requirement, or condition for payment arising under the application, or this part, and if any refund of a payment to FSA shall otherwise become due in connection with the application, or this part, then all such payments made under this part to any sheep and lamb operation or person shall be refunded to FSA together with interest as determined in accordance with paragraph (c) of this section and late payment charges as provided in part 1403 of this title.

(b) All persons signing an application for payment as having an interest in an operation or payment shall be jointly and severally liable for any refund, including related charges, which is determined to be due for any reason under the terms and conditions of the application or this part with respect to such operation or payment.

(c) Interest shall be applicable to refunds required of any person under this part if FSA determines that payments or other assistance was provided to a person who was not eligible for such assistance. Such interest shall be charged at the rate of interest which the United States Treasury charges the Commodity Credit Corporation for funds, from the date FSA made such benefits available to the

VOL

MR
26
2002
UMI

date of repayment or the date interest increases as determined in accordance with applicable regulations. FSA may waive the accrual of interest if FSA determines that the cause of the erroneous determination was not due to any action of the person.

(d) Interest determined in accordance with paragraph (c) of this section may be waived at the discretion of FSA alone for refunds resulting from those violations determined by FSA to have been beyond the control of the person committing the violation.

(e) Late payment interest shall be assessed on all refunds in accordance with the provisions of, and subject to the rates prescribed in 7 CFR part 792.

(f) Any excess payments made by FSA with respect to any application under this part must be refunded.

(g) In the event that a benefit under this subpart was provided as the result of erroneous information provided by any person, the benefit must be repaid with any applicable interest.

§ 784.17 Offsets and withholdings.

FSA may offset or withhold any amounts due FSA under this subpart in accordance with the provisions of 7 CFR part 792, or successor regulations, as designated by the Department.

§ 784.18 Assignments.

Any person who may be entitled to a payment may assign his rights to such payment in accordance with 7 CFR part 1404 or successor regulations as designated by the Department.

Signed at Washington, DC, on March 20, 2002.

James R. Little,

Administrator, Farm Service Agency.

[FR Doc. 02–7220 Filed 3–21–02; 3:52 pm]

BILLING CODE 3410–05–P

SMALL BUSINESS ADMINISTRATION

13 CFR Part 121

RIN 3245–AE42

Small Business Size Regulations; Size Standards for Programs of Other Agencies

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: The Small Business Administration (SBA) is revising the procedural regulations that Federal agencies must follow to obtain approval of the SBA Administrator for establishing size standards for use in their programs. This revision will simplify SBA's regulations by requiring agencies to consult with SBA before proposing a size standard. It requires them to obtain the SBA Administrator's approval before publishing a final rule.

DATES: This rule is effective on April 25, 2002.

FOR FURTHER INFORMATION CONTACT: Carl Jordan, Office of Size Standards, at (202) 205–6618.

SUPPLEMENTARY INFORMATION:

Introduction

The Small Business Act (sec. 3(a) & (b), 15 U.S.C. 632) (the Act) provides for the establishment of small business size standards. The Act authorizes the Administrator of SBA to "specify detailed definitions or standards by which a business concern may be determined to be a small business concern for the purposes of this Act *or any other Act*" (emphasis added). The Act gives the SBA Administrator exclusive authority to establish small business size standards for all Federal agencies, in the absence of other specific statutory authority. Unless a statute specifies size standards for an agency's program or gives an agency direct authority to establish size standards, the agency must use the applicable size standards established by SBA. However, the Act allows an agency to "prescribe a size standard for categorizing a business concern as a small business concern" (sec. 3(a)(2)(C) of the Act) provided the contemplated size standard meets certain criteria *and* the agency obtains approval of the SBA Administrator.

Currently, SBA's Small Business Size Regulations in 13 CFR 121.902 describe procedures that agencies must follow before they prescribe size standards for their own use. These regulations require an agency, contemplating the use of size standards different from those established by SBA, to obtain the SBA Administrator's approval to do so before it proposes them for comment as part of its rulemaking process. If an agency believes that size standards different from those established by SBA are appropriate for its purposes, it must propose specific size standards, explain why it believes they are appropriate for their purposes and why SBA's size standards are not, and seek public comment on them. The proposed size standards must be specific and must meet the criteria set forth in the Act and SBA's regulations. Before an agency issues a final rule, it must notify SBA of the size standards it is adopting and provide SBA with copies of public comments received on the proposed size standards.

Reasons for the Change in the Regulation

Based on its experience in evaluating agencies' requests for special size standards, SBA proposed revisions to its Small Business Size Regulations by modifying what information agencies need to provide to SBA and when formal approval is required (65 FR 4176, dated January 26, 2000). SBA explained in the proposed rule that the purpose of the revision is to: (1) Streamline the rulemaking process; (2) eliminate a step in the approval process in cases where an agency contemplates adopting a size standard different from a proposed size standard approved by the SBA's Administrator; (3) give an agency SBA's advisory input before the agency issues its proposed size standard; and (4) allow SBA to consider in its decision-making process the requesting agency's proposed rule, its explanation and justification for the size standards it intends to adopt, copies of the public comments to the proposed size standards, and a draft copy of the agency's intended final rule.

Summary of New Procedures

This final rule adopts the proposed changes of January 26, 2000. The comments received on the proposed rule generally supported the proposed revisions (see discussion of comments below). The adopted procedures establish a consultation requirement with SBA's Office of Size Standards before publishing a proposed rule and require agencies to obtain the SBA Administrator's formal approval before adopting the size standards in a final rule.

Consultation with SBA's Office of Size Standards must be in writing and take place at least fourteen (14) calendar days before issuing the proposed rule. It must include what size standard the agency is proposing, to what program it will apply, how the agency arrived at the particular size standard, and why SBA's existing size standards do not satisfy the agency's program requirements. This consultation will allow SBA to review the proposed size standards and advise the agency as soon as practicable of issues that could prevent the SBA Administrator's approval, such as those in conflict with the Act or SBA Small Business Size Regulations. The agency will then have the opportunity to address those issues in either the proposed rule or final rule.

Prior to publishing a final rule, the agency must request and obtain the SBA's Administrator's approval to establish its own size standard. The agency must provide SBA with copies of

public comments on the proposed rule; a justification for the intended size standards; a copy of the intended final rule; and any additional information the SBA may request as part of its review.

These procedures are more practical for the agencies to follow than the current procedures in two ways. First, they only require the SBA Administrator's approval before the agency issues its final rule adopting the contemplated size standards, rather than before it proposes them. Agencies have found submitting formal requests during the formulation of the proposed rule difficult since size standard decisions are often made shortly before publication of the rule. Second, by consulting with SBA prior to publishing a proposed rule it makes SBA aware of an agency's proposal and gives it an opportunity to advise the agency if the contemplated size standards could not be approved. An agency will be able to consider SBA's comments before publishing a proposed rule, if possible, and well in advance of a final rule.

Summary and Discussion of Comments to the Proposed Rule

SBA received six comments to its proposal. Four Federal agencies commented on the rule, one association, and one office within SBA. All, but one commenter, were supportive of the proposed changes to the current procedures. The comments raised several noteworthy issues. These issues are discussed below, and they lead to minor wording changes to the final rule.

A comment from a United States Commission supported the proposed regulatory revision. The Commission stated that such a change would help conserve the resources of SBA as well as those of agencies that seek approval for special size standards under this regulation. SBA can then focus on the comments the agency receives to its proposed size standards, rather than on the agency's pre-comment estimates of their appropriateness for the stated purpose. The Commission further commented that the requirement for consultation at least 14 days prior to publishing the proposed size standards should cause no undue burden on agencies in complying with this regulation.

The Commission also commented that the requirement in the proposed § 121.903(a)(6), that the requesting agency certify its compliance with the Small Business Act, is unnecessary. We agree with the Commission's observation, and we have not included that requirement in the final rule. As part of SBA's review, it will ensure that an agency's size standard complies with the Small Business Act.

The Commission also suggested reversing the order of § 121.903(a)(5) and § 121.903(a)(6). These sections discuss the requirement to obtain the SBA Administrator's approval and what information an agency must submit. SBA recognizes that these sections are closely related and can be considered as one. Therefore, SBA has combined the requirements of the proposed § 121.903(a)(6) with § 121.903(a)(5).

A Federal agency opposed the proposed regulatory change for three reasons. First, it claimed that the change will not reduce the regulatory burden on agencies, and for some it may be more burdensome. The agency stated that the proposed revision requires more information than the existing regulation. We disagree. The new procedures essentially ask for the same information that we require under the existing regulation. The only difference is in the timing of the submission. In fact, based on past experience, we strongly believe that the existing regulation, if we do not revise it, is more burdensome on an agency than these revisions. The current regulation requires SBA to review the submitted information without the benefit of the public comments on the proposed size standard. The new procedures require only that the agency consult with SBA before it proposes the size standards, and provide SBA minimal information at that time. The agency does not have to obtain SBA approval to propose size standards. Documentation to support an agency's request for alternative size standards would be more comprehensive and logically related if the agency submits it to SBA after it has had the benefit of public comments on its proposal.

Second, the objecting agency requested that SBA clarify whether "consultation" associated with a Regulatory Flexibility Analysis in § 121.903(c) is an "informal" consultation or a formal consultation as described in the proposed § 121.903(a)(2). Section 121.903(c) refers only to the use of size standards for performing a Regulatory Flexibility Analysis (RFA). Under section 601(3) of the Regulatory Flexibility Act, an agency must use SBA's size standards for an RFA, or after consultation with the SBA's Office of Advocacy and after an opportunity for public comment, it may use different size standards. The procedures of § 121.903(a) do not apply to alternative size standards established for RFA purposes.

Third, the agency recommended that the final rule require SBA action within a reasonable time. The agency pointed out that the proposed rule contained no timeframe within which SBA must respond, and expressed concern that SBA could "prevent indefinitely an agency from issuing a final rule." Another agency also raised this point and recommended a 21-day period for SBA to review a final rule. Under this final rule, an agency requests approval for alternate size standards only after it has gone through the proposal and comment stage at least once. SBA cannot anticipate how much time an agency will allow between the time it requests approval and when it intends to publish its final rule. Further, SBA cannot know the nature or the extent of the comments the agency will receive, or how long it may take for SBA and the agency to resolve any outstanding issues. With these unknowns, we cannot specify in a rule how long SBA will take to respond to the agency's request. Furthermore, not approving an agency's request within a stated time cannot bestow de facto approval by SBA, because the Act specifically requires the Administrator's approval before an agency can prescribe its own size standards. It goes without saying that SBA remains committed to giving priority to agency requests for approval for alternative size standards and will strive to complete its review within 30 days, if practicable, and will work with an agency to resolve issues that may prevent timely approval of size standards.

An office within SBA concurred in the proposed changes. The office noted that in the proposed § 121.903(a)(1)(ii) that SBA referred to "gross" receipts as the size standard measure for services concerns. The office expressed concern that this might confuse the meaning of 13 CFR 121.104, "How Does SBA Calculate Receipts," which does not use the term "gross," except "in the case of a sole proprietorship" (§ 121.121.104a(a)(1)). We agree, and have removed "gross" from the final version of § 121.903(a)(1)(ii).

Compliance With Executive Orders 12866, 12988, and 13132, the Regulatory Flexibility Act (5 U.S.C. 601–612), and the Paperwork Reduction Act (44 U.S.C. Ch. 35.)

The Office of Management and Budget reviewed this rule as a "significant" regulatory action under Executive Order 12866.

For purposes of the Regulatory Flexibility Act, SBA has determined that this rule does not have a significant economic effect on a substantial number of small entities. SBA has made this determination for the following reasons: (1) The change is procedural, not

VOL
67
ISS
58
MR
26
2002
UMI

substantive, in nature; (2) the change applies to Federal agencies only; and (3) the change applies only when a Federal agency contemplates categorizing an entity as a small business concern for its programs using standards other than those established by SBA. SBA has also made this determination based on the nature, number and complexity of requests from Federal agencies that have made such requests. SBA believes that this amendment will not increase the nature, number or frequency of these requests.

For purposes of Executive Order 12988, SBA has determined that this rule is drafted, to the extent possible under standards in section 3 of the Order.

For purposes of Executive Order 13132, SBA has determined that this rule does not have any federalism implications warranting the preparation of a Federalism Assessment.

For purposes of the Paperwork Reduction Act, 44, U.S.C. Ch. 35, SBA has determined that this rule does not impose any new reporting or recordkeeping requirements.

List of Subjects in 13 CFR Part 121

Administrative practice and procedure, Government procurement, Government property, Grant programs-business, Loan programs-business, Reporting and recordkeeping requirements, Small businesses.

For reasons stated in the preamble, SBA is amending 13 CFR part 121 as follows:

PART 121—SMALL BUSINESS SIZE REGULATIONS

1. The authority citation for part 121 continues to read as follows:

Authority: 15 U.S.C. 632(a), 634(b)(6), 637(a), 644(c), and 662(5); and sec. 304, Pub. L. 103–403, 108 Stat. 4175, 4188.

2. Section 121.902 is revised to read as follows:

§ 121.902 What size standards are applicable to programs of other agencies?

SBA size standards. The size standards for compliance with programs of other agencies are those for SBA programs which are most comparable to the programs of such other agencies, unless the agency and SBA agree otherwise.

3. Section 121.903 is revised to read as follows:

§ 121.903 How may an agency use size standards for its programs that are different than those established by SBA?

(a) Federal agencies or departments promulgating regulations relating to small businesses usually use SBA size criteria. In limited circumstances, if they decide the SBA size standard is not suitable for their programs, then agency heads may establish a more appropriate small business definition for the exclusive use in such programs, but only when:

(1) The size standard will determine:

(i) The size of a manufacturing concern by its average number of employees based on the preceding twelve calendar months, determined according to § 121.106;

(ii) The size of a services concern by its average annual receipts over a period of at least three years, determined according to § 121.104;

(iii) The size of other concerns on data over a period of at least three years; or,

(iv) Other factors approved by SBA;

(2) The agency has consulted in writing with SBA's Assistant Administrator for Size Standards at least fourteen (14) calendar days before publishing the proposed rule which is part of the rulemaking process. The written consultation will include:

(i) What size standard the agency contemplates using;

(ii) To what agency program it will apply;

(iii) How the agency arrived at this particular size standard for this program; and,

(iv) Why SBA's existing size standards do not satisfy the program requirements;

(3) The agency proposes the size standard for public comment pursuant to the Administrative Procedure Act, 5 U.S.C. 553;

(4) The agency provides a copy of the proposed rule, when it publishes it for public comment as part of the rulemaking process, to SBA's Assistant Administrator for Size Standards; and

(5) SBA's Administrator approves the size standard before the agency adopts a final rule or otherwise prescribes the size standard for its use. The agency's request for the SBA Administrator's approval must include:

(i) Copies of all comments on the proposed size standard received in response to the proposed rule;

(ii) A separate written justification for the intended size standard;

(iii) A copy of the intended final rule if available at that time, or a copy of the intended final rule and preamble prior to its publication; and

(iv) Other information SBA may request in connection with the request.

(b) When approving any size standard established pursuant to this section, SBA's Administrator will ensure that the size standard varies from industry to industry to the extent necessary to reflect the differing characteristics of the various industries, and consider other relevant factors.

(c) Where the agency head is developing a size standard for the sole purpose of performing a Regulatory Flexibility Analysis pursuant to section 601(3) of the Regulatory Flexibility Act, the department or agency may, after consultation with the SBA Office of Advocacy, establish a size standard different from SBA's which is more appropriate for such analysis.

4. Section 121.904 is added to read as follows:

§ 121.904 When does SBA determine the size status of a business concern?

For compliance with programs of other agencies, SBA will base its size determination on the size of the concern as of the date set forth in the request of the other agency.

Dated: October 16, 2001.

Hector V. Barreto,

Administrator.

BILLING CODE 8025–01–P

FEDERAL TRADE COMMISSION

16 CFR Part 802

Premerger Notification; Reporting and Waiting Period Requirements; Correction

AGENCY: Federal Trade Commission.

ACTION: Final rule, correction.

SUMMARY: This document contains the correction to the premerger notification final rule which was published Monday, March 18, 2002, (67 FR 11898). This document corrects a paragraph reference that appears in an example to § 802.51.

EFFECTIVE DATE: April 17, 2002.

FOR FURTHER INFORMATION CONTACT: Marian R. Bruno, Assistant Director, Karen E. Berg, Attorney, or B. Michael Verne, Compliance Specialist, Premerger Notification Office, Bureau of Competition, Room 303, Federal Trade Commission, 600 Pennsylvania Avenue, NW., Washington, DC 20580. Telephone: (202) 326–3100.

SUPPLEMENTARY INFORMATION: The final rule, as published, contained an error in the paragraph referenced in the examples to section 802.51.

Accordingly, the final rule for 16 CFR part 802, published in the **Federal Register** on March 18, 2002, is corrected as follows:

§ 802.51 [Corrected]

On page 11904, in § 802.51, in example 3, in the third column, in the second line "(b)(3)" is corrected to read "(b)(2)".

Donald S. Clark,

Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 20

[Docket No. 02N–0086]

Public Information; Cross Reference to Other Regulations; Technical Amendment

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending its regulations to correct an inadvertent error that has been incorporated into the public information regulations. This action is being taken to ensure the accuracy and consistency of the regulations.

DATES: This rule is effective March 26, 2002.

FOR FURTHER INFORMATION CONTACT: Doris Tucker, Office of Policy, Planning, and Legislation (HF–27), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–7010.

SUPPLEMENTARY INFORMATION: FDA has discovered that an error has been incorporated into the agency's regulations for 21 CFR part 20. This document corrects that error. Publication of this document constitutes final action under the Administrative Procedure Act (5 U.S.C. 553). FDA has determined that notice and public comment are unnecessary because this amendment is nonsubstantive.

List of Subjects in 21 CFR Part 20

Confidential business information, Courts, Freedom of information, Government employees.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, 21 CFR part 20 is amended as follows:

PART 20—PUBLIC INFORMATION

1. The authority citation for 21 CFR part 20 continues to read as follows:

Authority: 5 U.S.C. 552; 18 U.S.C. 1905; 19 U.S.C. 2531–2582; 21 U.S.C. 321–393, 1401–1403; 42 U.S.C. 241, 242, 242a, 242l, 242n, 243, 262, 263, 263b–263n, 264, 265, 300u–300u–5, 300aa–1.

§ 20.100 [Amended]

2. Section 20.100 *Applicability; cross-reference to other regulations* is amended by removing paragraph (c)(30) and redesignating paragraphs (c)(31) through (c)(41) as paragraphs (c)(30) through (c)(40), respectively.

Dated: March 19, 2002.

Margaret M. Dotzel,

Associate Commissioner for Policy.

BILLING CODE 4160–01–S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 510

New Animal Drugs; Change of Sponsor's Name and Address

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect a change of sponsor's name and address for G.D. Searle & Co.

DATES: This rule is effective March 26, 2002.

FOR FURTHER INFORMATION CONTACT: Lonnie W. Luther, Center for Veterinary Medicine (HFV–102), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301–827–0209, e-mail: lluther@cvm.fda.gov.

SUPPLEMENTARY INFORMATION: G.D. Searle & Co., P.O. Box 5110, Chicago, IL 60680, has informed FDA of a change of name and address to G.D. Searle LLC, Pharmacia Corp., 4901 Searle Pkwy., Skokie, IL 60077. Accordingly, the agency is amending the regulations in 21 CFR 510.600(c)(1) and (c)(2) to reflect the change.

This rule does not meet the definition of "rule" in 5 U.S.C. 804(3)(A) because it is a rule of "particular applicability." Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801–808.

List of Subjects in 21 CFR Part 510

Administrative practice and procedure, Animal drugs, Labeling, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 510 is amended as follows:

PART 510—NEW ANIMAL DRUGS

1. The authority citation for 21 CFR part 510 continues to read as follows:

Authority: 21 U.S.C. 321, 331, 351, 352, 353, 360b, 371, 379e.

2. Section 510.600 is amended in the table in paragraph (c)(1) by revising the entry for "G.D. Searle & Co." and in the table in paragraph (c)(2) by revising the entry for "000014" to read as follows:

§ 510.600 Names, addresses, and drug labeler codes of sponsors of approved applications.

DEPARTMENT OF DEFENSE

Department of the Air Force

32 CFR Part 809a

RIN 0701–AA64

Installation Entry Policy, Civil Disturbance Intervention and Disaster Assistance

AGENCY: Department of the Air Force, DoD.

ACTION: Final Rule.

SUMMARY: The Department of the Air Force has revised its regulations in 32 CFR part 809a dealing with installation entry policy, barments, enforcing order within or near Air Force installations, and civil disturbance and disaster assistance, to reflect current policies. This rule implements guidance from Section 21 of the Internal Security Act of 1950; DoD Directive 5200.8, Security of DoD Installations and Resources; and Title 10 U.S.C., Sections 332 and 333. The revision adds expulsion and installation entry point check procedures.

EFFECTIVE DATE: March 27, 2002.

FOR FURTHER INFORMATION CONTACT: SMSgt Walter Filipiak, (210) 671–0898.

List of Subjects in 32 CFR Part 809a

Civil defense, Civil disorders, Disaster assistance, Federal buildings and facilities, Foreign relations, Law enforcement, Military personnel.

For the reasons set forth in the preamble, the Department of the Air Force is revising 32 CFR Part 809a to read as follows:

PART 809a—INSTALLATION ENTRY POLICY, CIVIL DISTURBANCE INTERVENTION AND DISASTER ASSISTANCE

Sec.

809a.0 Purpose.

Subpart A—Installation Entry Policy

809a.1 Random installation entry point checks.
809a.2 Military responsibility and authority.
809a.3 Unauthorized entry.
809a.4 Use of Government facilities.
809a.5 Barment procedures.

Subpart B—Civil Disturbance Intervention and Disaster Assistance

809a.6 Authority.
809a.7 Definitions.
809a.8 Installation policies and laws.
809a.9 Conditions for use of Air Force resources.
809a.10 Military commanders' responsibilities.
809a.11 Procedures outside the United States.

Authority: 10 U.S.C. 332 and 333.

§ 809a.0 Purpose.

This part prescribes the commanders' authority for enforcing order within or near Air Force installations under their jurisdiction and controlling entry to those installations. It provides guidance for use of military personnel in controlling civil disturbances and in supporting disaster relief operations. This part applies to installations in the United States, its territories and possessions, and will be used to the maximum extent possible in the overseas commands. Instructions issued by the appropriate overseas commander, status of forces agreements, and other international agreements provide more definitive guidance for the overseas commands. Nothing in this part should be construed as authorizing or requiring security forces units to collect and maintain information concerning persons or organizations having no affiliation with the Air Force other than a list of persons barred from the installation.

Subpart A—Installation Entry Policy

§ 809a.1 Random installation entry point checks.

The installation commander determines when, where, and how to implement random checks of vehicles or pedestrians. The commander conducts random checks to protect the security of the command or to protect government property.

§ 809a.2 Military responsibility and authority.

(a) Air Force installation commanders are responsible for protecting personnel and property under their jurisdiction and for maintaining order on installations, to ensure the uninterrupted and successful accomplishment of the Air Force mission.

(b) Each commander is authorized to grant or deny access to their installations, and to exclude or remove persons whose presence is unauthorized. In excluding or removing persons from the installation, the installation commander must not act in an arbitrary or capricious manner. Their action must be reasonable in relation to their responsibility to protect and to preserve order on the installation and to safeguard persons and property thereon. As far as practicable, they should prescribe by regulation the rules and conditions governing access to their installation.

§ 809a.3 Unauthorized entry.

Under Section 21 of the Internal Security Act of 1950 (50 U.S.C. 797), any directive issued by the commander of a military installation or facility, which includes the parameters for authorized entry to or exit from a military installation, is legally enforceable against all persons whether or not those persons are subject to the Uniformed Code of Military Justice (UCMJ). Military personnel who reenter an installation after having been properly ordered not to do so may be apprehended. Civilian violators may be detained and either escorted off the installation or turned over to proper civilian authorities. Civilian violators may be prosecuted under 18 U.S.C. 1382.

§ 809a.4 Use of Government facilities.

Commanders are prohibited from authorizing demonstrations for partisan political purposes. Demonstrations on any Air Force installation for other than political purposes may only occur with the prior approval of the installation commander. Demonstrations that could result in interference with, or prevention of, the orderly accomplishment of the mission of an installation or that present a clear danger to loyalty, discipline or morale of members of the Armed Forces will not be approved.

§ 809a.5 Barment procedures.

Under the authority of 50 U.S.C. 797, installation commanders may deny access to the installation through the use of a barment order. Barment orders should be in writing but may also be oral. Security forces maintain a list of personnel barred from the installation.

Subpart B—Civil Disturbance Intervention and Disaster Assistance

§ 809a.6 Authority.

The authority to intervene during civil disturbances and to provide disaster assistance is bound by directives issued by competent authorities. States must request federal military intervention or aid directly from the President of the United States by the state's legislature or executive. Installation commanders must immediately report these requests in accordance with AFI 10–802, *Military Support to Civil Authorities* (Available from National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.).

§ 809a.7 Definitions.

The following definitions apply to this part:

(a) *Emergencies.* These are conditions which affect public welfare and occur as a result of enemy attack, insurrection, civil disturbances, earthquake, fire, flood, or other public disasters which endanger life and property or disrupt the usual process of government. The term "emergency" includes any or all of the conditions explained in this section.

(b) *Civil defense emergency.* This is a disaster situation resulting from devastation created by an enemy attack and requiring emergency operations during and following attack. It may also be proclaimed by appropriate authority in anticipation of an attack.

(c) *Civil disturbances.* These are group acts of violence or disorder prejudicial to public law and order including those which follow a major disaster. They include riots, acts of violence, insurrections, unlawful obstructions or assemblages, or other disorders.

(d) *Major disaster.* Any flood, fire, hurricane, or other catastrophe which, in the determination of the President, is or threatens to be of sufficient severity and magnitude to warrant disaster assistance by the Federal Government to supplement the efforts and available resources of the State and local governments in alleviating the damage, hardship, or suffering caused thereby.

§ 809a.8 Installation policies and laws.

This subpart contains policies on the use of Air Force military personnel in civil disturbances and disasters. The more important laws concerning military aid to civil authorities are also summarized.

(a) The Air Force gives military assistance to civil authorities in civil defense or civil disturbances and disasters only when such assistance is requested or directed. Commanders will not undertake such assistance without authority, unless the overruling demands of humanity compel immediate action to protect life and property and to restore order.

(b) The military service having available resources nearest the affected area is responsible for providing initial assistance to civil authorities in emergencies. Subsequent operations are to be according to the mutual agreement between the senior service commanders concerned.

(c) The protection of life and property and the maintenance of law and order within the territorial jurisdiction of any State is the primary responsibility of State and local authorities. It is well-established U.S. Government policy that intervention with military forces takes place only after State and local authorities have used their own forces and are unable to control the situation, or when they do not take appropriate action.

§ 809a.9 Conditions for use of Air Force resources.

This part is not intended to extend Air Force responsibilities in emergencies to generate additional resources (manpower, materiel, facilities, etc.) requirements, or encourage participation in such operations at the expense of the Air Force primary mission. It is a guide for the employment of Air Force resources when:

(a) A disaster or disturbance occurs in areas in which the U.S. Air Force is the executive agent of the United States.

(b) A disaster or disturbance occurs in areas that are remote from an Army installation but near an Air Force installation, thereby necessitating Air Force assumption of responsibility pending arrival of Army personnel.

(c) The overriding demand of conditions resulting from a natural disaster compels immediate action to protect life and property and to restore order.

§ 809a.10 Military commanders' responsibilities.

(a) Civilians in the affected area will be informed of the rules of conduct and other restrictive measures to be enforced by the military. These will be announced by local proclamation or order, and will be given the widest publicity by all available media.

(b) Persons not normally subject to military law, who are taken into custody by military forces incident to civil disturbances, will be turned over to the civil authorities as soon as possible.

(c) Military forces will ordinarily exercise police powers previously inoperative in an affected area; restore and maintain order; maintain essential transportation and communication; and provide necessary relief measures.

(d) U.S. Air Force civilian employees may be used, in any assignments in which they are capable and willing to serve. In planning for on-base contingencies of fires, floods, hurricanes, and other natural disasters, arrangements should be made for the identification and voluntary use of individual employees to the extent that the needs for their services are anticipated.

§ 809a.11 Procedures outside the United States.

It is Air Force policy to make every reasonable effort to avoid any confrontation between United States military forces and host nation demonstrators or other dissidents posing a threat to Air Force resources. Intervention by United States military personnel outside the United States is governed by international law, bilateral and other international agreements to which the United States is a party, and host-nation laws. Local plans to counter such situations must include provisions to request and obtain host nation civil or military support as quickly as possible.

Pamela D. Fitzgerald,

Air Force Federal Register Liaison Officer.

Coast Guard

33 CFR Part 100

[CGD05–02–009]

RIN 2115–AE46

Special Local Regulations for Marine Events; Chesapeake Bay Near Annapolis, MD

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

VOL 67 ISS 58 MR 26 2002 UMI

VOL
67
ISS
58
MR
26
2002
UMI

SUMMARY: The Coast Guard is adopting temporary special local regulations during the Volvo Ocean Race, Leg 7 Restart, a marine event to be held over the waters of Chesapeake Bay between Thomas Point and Sandy Point, near Annapolis, Maryland. These special local regulations are necessary to provide for the safety of life on navigable waters during the event. This action is intended to restrict vessel traffic in portions of the Chesapeake Bay during the event.

DATES: This rule is effective from 10 a.m. to 2:30 p.m. EDT on April 28, 2002.

ADDRESSES: Documents indicated in this preamble as being available in the docket, are part of docket CGD05–02–009 and are available for inspection or copying at Commander (Aoax), Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia 23704–5004, between 9 a.m. and 2 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant Dulani Woods, Volvo Ocean Race Chesapeake Project Officer, Commander, Coast Guard Activities Baltimore, telephone number (410) 576–2513.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. In keeping with 5 U.S.C. 553(b)(B) and 553(d)(3), the Coast Guard finds that good cause exists for not publishing a NPRM and for making this rule effective less than 30 days after publication in the **Federal Register**. The event will occur on Sunday, April 28, 2002, and numerous spectator craft are expected to gather near the event area. Because of the danger posed by many sailing vessels maneuvering in close proximity of each other at the beginning of a critical race restart, special local regulations are necessary to provide for the safety of event participants, spectator craft and other vessels transiting the event area. For the safety concerns noted, it is in the public interest to have these regulations in effect during the event. The William P. Lane Jr. (Chesapeake Bay) Bridge Eastern Span and Channel will remain unaffected during the event. In addition, advance notifications will be made via the Local Notice to Mariners, marine information broadcasts, sponsor-provided pamphlets and area newspapers.

Background and Purpose

On April 28, 2002, Ocean Race Chesapeake, Inc. will sponsor the Leg 7 Restart of the 2001–2002 Volvo Round The World Race on the waters of Chesapeake Bay between Thomas Point and Sandy Point, near Annapolis, Maryland. The event will consist of eight 64-foot sailing vessels conducting a strictly organized restart to a highly publicized, international sailing race. Opposing teams will be maneuvering in a predetermined area on the Chesapeake Channel adjacent to the William P. Lane Jr. (Chesapeake Bay) Bridge Main Channel Span. A fleet of spectator vessels is anticipated. Due to the need for vessel control while a fair and accurate restart is conducted, vessel traffic will be temporarily restricted to provide for the safety of spectators, participants and transiting vessels.

Discussion of Rule

The Coast Guard is establishing temporary special local regulations on specified waters of the Chesapeake Bay. The regulated area will include an area approximately 7.5 nautical miles long and 1.3 nautical miles wide. The temporary special local regulations will be enforced from 10 a.m. to 2:30 p.m. EDT on April 28, 2002, and will restrict general navigation in the regulated area during the event. Except for participants and vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the regulated area. The William P. Lane Jr. (Chesapeake Bay) Bridge Eastern Span and Channel will remain unaffected during the event.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979).

Although this regulation prevents traffic from transiting the Chesapeake Channel between Thomas Point and Sandy Point during the event, the effect of this regulation will not be significant due to the limited duration of the regulation, the availability of the William P. Lane Jr. (Chesapeake Bay) Bridge Eastern Span and Channel, and the extensive advance notifications that will be made to the maritime community via the Local Notice to Mariners, marine information broadcasts, sponsor-provided pamphlets and area newspapers, so mariners can adjust their plans accordingly.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

This rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit this section of Chesapeake Bay during the event.

Although this regulation prevents traffic from transiting the Chesapeake Channel of the Chesapeake Bay during the event, the effect of this regulation will not be significant because of its limited duration, the availability of the William P. Lane Jr. (Chesapeake Bay) Bridge Eastern Span and Channel, and the extensive advance notifications that will be made to the maritime community via the Local Notice to Mariners, marine information broadcasts, sponsor-provided pamphlets and area newspapers, so mariners can adjust their plans accordingly.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this temporary rule so that they can better evaluate its effects on them and participate in the rulemaking.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State law or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 or more in any one year. Though this rule will not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial and direct effect on one or more Indian tribes, on the relationship between the Federal Governments and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We considered the environmental impact of this rule and concluded that, under figure 2–1, paragraphs (34)(h) and (35)(a) of Commandant Instruction M16475.1D, this rule is categorically excluded from further environmental documentation. Special local regulations issued in conjunction with a regatta or marine parade permit for an event not located in, proximate to, or above an area designated as environmentally sensitive by an environmental agency of the Federal, state, or local government, are specifically excluded from further analysis and documentation under those sections. A "Categorical Exclusion Determination" is available in the docket where indicated under **ADDRESSES**.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 100 as follows:

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233 through 1236; 49 CFR 1.46; 33 CFR 100.35.

2. Add a temporary section, § 100.35T–05–009 to read as follows:

§ 100.35T–05–009 Chesapeake Bay, near Annapolis, MD.

(a) *Definitions:*

(1) *Coast Guard Patrol Commander.* The Coast Guard Patrol Commander is a commissioned, warrant, or petty officer of the Coast Guard who has been designated by the Commander, Coast Guard Activities Baltimore.

(2) *Official Patrol.* The Official Patrol is any vessel assigned or approved by Commander, Coast Guard Activities Baltimore with a commissioned, warrant, or petty officer on board and displaying a Coast Guard ensign.

(3) *Participant.* Includes all vessels participating in the Volvo Ocean Race Chesapeake under the auspices of the Marine Event Permit issued to the event sponsor and approved by Commander, Coast Guard Activities Baltimore.

(4) *Regulated Area.* Includes the waters of the Chesapeake Bay, within an area approximately 7.5 nautical miles long and 1.3 nautical miles wide, bounded by a line drawn from a position at latitude 39°00′32″ N, longitude 076°23′03″ W, southwesterly to a position at 39°00′11″ N, longitude 076°21′50″ W, southeasterly to a position at 38°56′07″ N, longitude 076°24′11″ W, southerly to a position at 38°53′00″ N, longitude 076°24′13″ W, easterly to a position at 38°53′00″ N, longitude 076°25′58″ W, northerly to a position at 38°56′30″ N, longitude 076°25′29″ W, thence northeasterly to a position at 39°00′32″ N, longitude 076°23′03″ W. All coordinates reference Datum NAD 1983.

(b) *Special Local Regulations:*

(1) Except for event participants and persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the regulated area.

(2) The operator of any vessel in the regulated area shall:

(i) Stop the vessel immediately when directed to do so by any official patrol.

(ii) Proceed as directed by any official patrol.

(iii) Unless otherwise directed by the official patrol, operate at a minimum wake speed not to exceed six (6) knots.

(c) *Effective Dates:* This section is in effect from 10 a.m. to 2:30 p.m. EDT on April 28, 2002.

Dated: March 13, 2002.

L. Mizell,

Captain, Coast Guard, Acting Commander, Fifth Coast Guard District.

Proposed Rules

Federal Register
Vol. 67, No. 58
Tuesday, March 26, 2002

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 51

[Docket Number FV–98–303]

Apples; Grade Standards

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would revise the United States Standards for Grades of Apples. These standards are issued under the Agricultural Marketing Act of 1946. The proposal would provide for the mixed varieties and change the color requirements for apples by reducing the number of apple varieties required to meet specific minimum color requirements. It would also delete the provision that apples be "carefully hand-picked." The "U.S. No. 1 Early grade" and the "Unclassified" section would also be deleted. Size specifications would be changed to allow Red Delicious and Golden Delicious varieties to meet either a minimum diameter or a minimum weight (currently these varieties must meet a minimum diameter designation). Changes would also be made to the application of tolerances for the purpose of allowing greater tolerances for defects in individual packages which contain 10 pounds or less, provided that the averages for the lot as a whole are met. The marking requirements would be changed by adding variety and grade to required markings on containers. The term "brown surface discoloration" would be added to the provisions which contain the requirements for the various grades of apples. The classification of "Bitter pit" and "Jonathan spot" would be clarified. Also, the U.S. Condition Standards for Export would be revised by removing the tolerance for slight scald and by changing the individual container tolerances in these requirements from one defective apple to three defective apples, provided the averages for the lot as a whole are met. In addition, the proposed rule will provide metric equivalents for dimensions given in terms of U.S. customary units and contains conforming and editorial changes. The purpose for this revision is to update and revise the standards to more accurately represent today's marketing practices.

DATES: Comments must be received by May 28, 2002.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposal. Comments must be sent to the Standardization Section, Fresh Products Branch, Fruit and Vegetable Programs, Agricultural Marketing Service, U.S. Department of Agriculture, 1400 Independence Avenue, SW., Room 2065, South Building, STOP 0240, Washington, DC 20250; Fax (202) 720–8871, e-mail *FPBDocket_clerk@usda.gov*. Comments should make reference to the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the above office during regular business hours.

FOR FURTHER INFORMATION CONTACT: David Priester, at the above address or call (202) 720–2185; e-mail *David.Priester@usda.gov*.

SUPPLEMENTARY INFORMATION:

Executive Order 12866 and 12988

The Office of Management and Budget has waived the review process required by Executive Order 12866 for this action. This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This action is not intended to have retroactive effect. This rule will not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule. There are no administrative procedures which must be exhausted prior to any judicial challenge to the provisions of the rule.

Regulatory Flexibility Act

The Agricultural Marketing Service (AMS) received a request to update and revise the United States Standards for Grades of Apples from the U.S. Apple Association (USAA). The USAA is a trade association representing over 500 individual apple business-related firms including growers, packers, shippers, processors, and industry suppliers. In addition, the USAA also represents approximately 9,000 apple growers throughout the U.S. through affiliation with state or regional apple associations. The Department and the USAA have been working closely together over the past eleven years to identify issues, defects, tolerances, and marketing practices related to apples for fresh market sale for the purpose of updating the United States Standards for Grades of Apples. The revisions being proposed will benefit all aspects of the apple industry with regard to these areas and make the standards current with today's marketing trends and practices.

Pursuant to the requirements set forth in the Regulatory Flexibility Act (RFA), AMS has considered the economic impact of this action on small entities, The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Accordingly, AMS has prepared this initial regulatory flexibility analysis. Interested parties are invited to submit information on the regulatory and informational impacts of this action on small businesses.

This rule would revise the U.S. Standards for Grades of Apples that were issued under the Agricultural Marketing Act of 1946. The proposed amendment of the standards would: revise the basic requirements sections of each grade by providing for mixed varieties; delete the reference to "carefully hand-picked"; revise the reference to "scald" by using the term "brown surface discoloration"; clarify the classification of "Bitter pit" and "Jonathan spot"; place the definitions for bruising in their appropriate places; delete the "U.S. No. 1 Early grade"; revise the color requirements section by redefining the requirements and requiring less varieties to meet these requirements; delete the "Unclassified" section; designate weight equivalents (in grams) for certain diameter sizes of Red Delicious and Golden Delicious varieties; revise the "application of tolerances" section in regard to consumer packages; and add variety and grade to the marking requirements section.

The U.S. Standards for Grades of Apples and the U.S. Condition Standards for Export are both voluntary standards. There are no regulatory

provisions that require the use of these standards with the exception of the Export Apple Act (7 U.S.C. 581 *et seq.*) and its regulations (7 CFR part 33) in regard to the U.S. Standards for Grades of Apples. Under the Export Apple Act, shipments of apples to foreign countries must meet a minimum requirement of the U.S. No. 1 grade (there are exemptions based on lot size, destination, etc.).

According to USDA's National Agricultural Statistics Service (NASS) report of the 1997 Census of Agriculture, there are approximately 18,500 apple farms in the United States. Further, NASS information indicates that, in 1998, these 18,500 farms produced over 11 billion pounds of apples. Approximately 55 percent of the 1998 crop was eaten as fresh fruit. In 1999, apple production was down to 10 billion pounds. The top five producing states were Washington, New York, Michigan, California, and Pennsylvania, respectively. These five states collectively produced over 83 percent of the total 1998 U.S. apple crop.

Small agricultural service firms, which include handlers, have been defined by the Small Business Administration (SBA) (13 CFR 121.201) as those having annual receipts of less than $5,000,000, and small agricultural producers are defined as those having annual receipts of less than $750,000. The apple industry is characterized by growers and handlers whose farming operations generally involve more than one type (such as fresh market utilization versus processed market utilization) and variety of apple, and whose income from farming operations is not exclusively dependent on one apple variety or even one commodity. Typical apple growers and shippers produce multiple varieties of fresh market apples within a single year. It is estimated that the majority of the producers do have overall gross annual receipts greater than $750,000. Additionally, there are approximately 5,100 apple handlers (i.e., packers, brokers, distributors, importers, etc.). It is estimated that the majority of apple handlers do not fit SBA's definition of a small entity.

This rule proposes several changes to the U.S. Standards for Grades of Apples. These changes are intended to update the standards to maintain their usefulness in today's markets. For example, the color requirements that appear in the current standards are much the same as those that were published in 1923 even though many of the varieties marketed then are no longer marketed, or marketed in a significant volume. This proposed action will make the standards more consistent and uniform with current marketing trends and commodity characteristics. Therefore, it should benefit handlers and growers regardless of their size. Further, the benefits of this rule are not expected to be disproportionately greater or smaller for small handlers or producers than for larger entities. Alternatives were considered for this action. One alternative would be to not issue the proposed changes. However, the need for revision increases due to ever changing market characteristics, and the proposal represents approximately 10 years of research, surveys, and other input from all sectors of the apple industry and government. Further, since the purpose of these standards is to facilitate the marketing of agricultural commodities, not revising them by upgrading the standard could result in confusion in terms of the proper application of the U.S. grade standards.

This proposed action will not impose any additional reporting or recordkeeping requirements on either small or large apple producers, handlers, or importers. In addition, other than discussed above, the Department has not identified any Federal rules that duplicate, overlap, or conflict with this rule.

Discussion of Proposed Revisions

The current U.S. apple grades (U.S. Extra Fancy, U.S. Fancy, U.S. No. 1, U.S. No. 1 Early, U.S. No. 1 Hail, and U.S. Utility) would remain in the standards. The U.S. No. 1 Early grade would be removed. This grade (Section 51.302 (a)) would be deleted since market surveys performed by the Department have indicated that it is no longer used by the industry.

Section 51.300, U.S. Extra Fancy, Section 51.301, U.S. Fancy, and Section 51.303, U.S. Utility currently state that apples must be "of one variety." This would be changed to " . . . consists of apples of one variety (except when more than one variety is printed on the container)" to allow for mixed variety lots. This change is being proposed primarily for the benefit of those shipper/packers that would prefer to pack more than one variety in the same container, such as gift packs of two or more varieties. However, the names of the multiple varieties would be required to be printed on the container. Any packages that contain more than one variety and are not designated as such on the container would fail to grade due to dissimilar varieties.

Sections 51.300, 51.301, and 51.303 also state that the apples must be ". . . carefully handpicked." We propose to delete this provision and its corresponding definition in § 51.315 because it is difficult to determine if an apple has been "carefully handpicked," especially at points of destination. Further, this requirement was not intended to prevent machine picked apples from making a U.S. grade. The original intent of this phrase was to preclude apples which had fallen from the tree and were laying on the ground (commonly referred to as "drops") from making a U.S. grade. However, the apple industry does not use drops for packing. As a result of the deletion of § 51.315, all sections following this section would be renumbered accordingly.

The Department's Agricultural Handbook 376 states that "Scald is a physiological disease of apples that has been recognized as a serious problem for as long as apples have been stored and marketed commercially. Scald is known by such names as ordinary scald, storage scald, common scald, hard scald (as opposed to the soft scald disease), and superficial scald, although tissues may be killed to ¼ inch in some varieties."

Sections 51.300, 51.301, and 51.303 currently require that apples be free from "scald" in any of the grades. Although there are many different origins of scald, there are primarily only two types, surface scald and soft scald. Surface scald which only affects the skin of the apple and which is firm in texture, would be included under the definitions of injury, damage, and serious damage, under the term "brown surface discoloration." The word "scald" would be replaced with the phrase "soft scald" in these sections. To meet any of the grades apples would be requires to be free from "soft scald."

Many years ago, scald was a serious problem in shipments of apples, especially lots which had been stored for a period of time before shipment or sale. Improved harvesting techniques and anti-scald treatments have substantially limited the presence of scald in apple shipments. Although soft scald results in a disintegration of the flesh, and sometimes also produces a foul odor, surface scald is less objectionable, restricting the area affected to that of the skin. In addition, there are several types of defects which occur simply as brown surface discoloration (*i.e.*, delayed sunburn, which will be discussed in detail below) and which cannot be differentiated by the naked eye. This change is being proposed because it would be more accurate to group these defects together as "brown surface discoloration" than to use the term "scald."

Also, we are proposing to make revisions concerning two physiological

VOL 67 ISS 58 MR 26 2002 UMI

defects known as bitter pit and Jonathan spot. Although bitter pit and Jonathan spot are two separate, nonparasitic or noncontagious diseases, their appearance and effect to the apple are very similar. Therefore, these two defects are treated the same for the purpose of determining the quality based on the U.S. grade standards.

While the origin(s) of these two diseases is not entirely clear, their appearance is unmistakable. Affected apples display grayish brown to black circular spots which may be sunken (pits). Typical spots or pits are 1/16 to 1/8 inch in diameter, and often in the case of Jonathan spot, these spots will occur around the lenticels. These apples may have from one spot to the entire surface affected. Bitter pit and Jonathan spot are referenced in the standards in three different manners. In the U.S. Extra Fancy, U.S. Fancy, and U.S. No. 1 they are listed as "free from" defects (*i.e.*, fruit must be from these defects to meet the grades.) A description of when bitter pit or Jonathan spot are considered to be "serious damage" appears in Section 51.320. Furthermore, the U.S. Condition Standards for Export reference "damage by" bitter pit or Jonathan spot which does not conform with the U.S. grade standards' basic requirements which use the term "free from."

Therefore, to make the standards more clear and to eliminate any inconsistencies, it is proposed U.S. Extra Fancy, U.S. Fancy, and U.S. No. 1 grades require fruit to be free from damage caused by bitter pit and Jonathan spot, and free from serious damage in the U.S. Utility grade. "Bitter pit or Jonathan spot when one or more spots affects the surface of the apple" would also be added to the defects considered as damage in § 51.317 (g)(5). (This section is currently designated as § 51.319; however, the Section number would be changed due to revisions in text which will be described in detail later in this supplementary information section.) Section 51.320 (g)(5), Serious Damage (proposed § 51.318 (g)(5)) currently provides that "Bitter pit or Jonathan spot which is thinly scattered over more than one-tenth of the surface and does not materially deform or disfigure the fruit" is considered to be serious damage. The section would be revised by removing "does not materially deform . . ." as the form of the fruit should not be considered when determining whether the fruit is seriously damage by bitter pit or Jonathan spot.

Sections 51.300 and 51.301 each require that apples be free from "bruises except those which are slight and incident to proper handling and packing." However, bruising is currently scored based on severity (*i.e.*, injury, damage, and serious damage) while slight and incidental bruises (bruises which can be seen by holding the apple at certain angles to light or by slight indentations to the surface which have no apparent affect on the underlying flesh) are not considered as defects which would prevent the fruit from meeting grade.

While the degree of bruising is not defined in the standard, guidelines appear in the Apples Market Inspection and Apples Shipping Point Inspection handbooks. The fruit is considered is to be injured if the area affected exceeds 5/8 inch in diameter or 1/8 inch in depth, damage if the area affected exceeds 7/8 inch in diameter or 3/16 inch in depth, and serious damage if the area affected exceeds 1 1/8 inch in diameter or 3/8 inch in depth based on an apple with a three inch diameter. Correspondingly greater or lesser amounts are allowed based on the size of the individual apple. In addition, different allowances may be provided based on the type of pack (tray pack, cell pack, or other packs).

Therefore, to clarify and simplify the process of scoring bruises as a defect, §§ 51.300, 51.301, and 51.303 would require fruit to be free from injury, damage, or serious damage defect, by bruising, respectively, and different levels of bruising would be included in the definitions of injury, damage, and serious damage.

Another change proposed in this revision involves the amount of red color needed on red varieties apples for each grade. Currently, several varieties are listed in Table 1 of Section 51.305, Color Requirements. Many of the varieties listed in this table are no longer produced commercially. In addition, newer varieties have been marketed which are not listed in this table. This has led to questions as to the application of color requirements over the years, and their usefulness in application. After several years of research and surveys, the Department and the USAA Grades and Standards Committee (USAA GSC) believe they have developed a system that will best suit the needs of all apple marketers.

The proposed method will determine color requirements only for those varieties produced in commercial volume which have historically been marketed based on their color attributes. The USAA GSC has proposed a list consisting of the following twelve varieties: Red Delicious, Red Rome, Empire, Idared, Winesap, Jonathan, Stayman, McIntosh, Cortland, Rome Beauty, Delicious, and York. All other varieties would have no color requirements in determining the grade, although the color requirements of these other varieties may be specified between marketers.

The method or process used to determine color requirements for the twelve varieties of apples previously mentioned would remain basically unchanged. However, the Department is currently working on designing a new color comparator which will be applicable to these twelve varieties (the current version is only applicable to 6 different varieties). These color standards will be available for examination during the comment period in the Fresh Products Branch, Fruit and Vegetable Programs, AMS, U.S. Department of Agriculture South Building, Washington, D.C. 20250; in any field office of the Fresh Products Branch; or upon request of any authorized inspector of the Fresh Fruit and Vegetable Inspection Service. In addition, the USAA GSC has provided suggested percentages of color required for the specified varieties. Finally, a new footnote would be added to the color requirements table in reference to "varietal name designations." Varietal name designations refers to hybrid or sport varieties, or varietal names which contain one of the twelve listed varieties as a portion of the name. The footnote specifies that varietal designations of the twelve listed varieties must meet or exceed those color requirements listed for the original variety (*e.g.*, a varietal designation of Royal Winesap would be required to meet the same color requirements as designated for Winesap).

Section 51.306, Unclassified, would be removed. The Department has been removing sections in revised standards that make reference to "Unclassified" to eliminate any misunderstanding that this term designates an actual grade name. The term "Unclassified" is not an actual grade classification but was originally set out in the standards for use when no definite grade had been assigned to a given lot. Removing this entry would result in all sections following it to be renumbered by decreasing the Section number by one unit (*i.e.*, the following § 51.307 Tolerances, will now become § 51.306).

Another area within the standard that we propose to revise involves size requirements. Based on the current size requirements for lots designated by numerical count, § 51.307 (c) provides that not more than 5 percent of the apples in a lot may vary more than 1/4 inch in diameter. To determine if a lot has met this requirement, every apple must be sized and recorded so that it may be determined where, among all apples sampled, the one-quarter inch variation lies. After determining where the variation is, the total number of apples outside this variation must be tallied.

We propose to revise the size section to provide for a much simpler process to determine uniformity. First, the diameters of the smallest and largest apple in the package would be determined. If the range between these two apples is 1/2 inch or less, the sample will be described as "fairly uniform." If the range between these two apples is greater than one-half inch, the sample would be described as "irregular." It is proposed that not more than 10 percent of the samples in the lot may fail to meet fairly uniform.

Also, weight equivalents would now be used for the Red Delicious and Golden Delicious varieties. These two varieties, due to their characteristic shape, can often be elongated (sometimes referred to as "typie" by apple handlers) rather than wide. The result is a product that actually has more edible flesh but is still unable to meet minimum diameter size requirements. The USAA has proposed a list of weight equivalents based on reference data from actual tests and surveys. These weights would appear in Table II of the proposed § 51.306(c), (currently § 51.307 (c)) along with their corresponding diameter measurement.

When this designation is used, an individual apple would be considered to have met the minimum size requirement if the apple is smaller than the minimum diameter, provided it is equal to or greater than the minimum weight. Likewise, an apple not meeting the minimum weight designation would also be considered to have met the minimum size requirement if the apple is equal to or larger than the corresponding minimum diameter. However, not more than five percent of the apples in any lot would be allowed to fail to meet both minimum diameter and minimum weight when so designated. In addition, when Red Delicious or Golden Delicious apples are designated with diameter/weight combination, they would only be designated according to the combinations listed in Table II.

Another proposed revision to the standards affects the application of tolerances. The application of tolerances allows for an occasional sample with defects exceeding the lot tolerance, provided the lot averages within lot tolerances as a whole. However, the current application of tolerances for packages which contain 10 pounds or less, allows more than an occasional excess. It states, "Not over 10 percent of the packages may have more than three times the tolerance specified, except that at least one defective apple may be permitted in any package: *Provided*, That not more than one apple or more than 6 percent (whichever is the larger amount) may be seriously damaged by insects or affected by decay or internal breakdown." This could permit up to 100 percent defects in samples or packages that represent less than 10 percent of the packages in the lot.

Therefore, a more restrictive and appropriate Application of Tolerances for this situation is proposed. Section 51.307 (b)(1) (currently designated § 51.308 (b)(1)) would be revised to provide "No package may have more than 3 times the tolerance specified, except that at least three defective apples may be permitted in any package: *Provided*, That not more than three apples or more than 18 percent (whichever is the larger amount) may be seriously damaged by insects or affected by decay or internal breakdown."

Proposed Section 51.308 (currently 51.309), Calculation of percentages, designates how the apples are to be sampled based on various characteristics of the lot, and, ultimately, how the percentages are determined based on the sampling method. Currently, the section states that when numerical count is marked on the container, percentages will be calculated on the basis of count and all other cases are based on weight or an equivalent basis. However, sampling for consumer size packages (consumer size packages are generally considered as packages weighing ten pounds or less) is not specifically addressed. Therefore, we propose to revise § 51.308. First, the title of the section would be changed to "Methods of sampling and calculation of Percentages" to more accurately reflect the contents of the section. Second, to specifically address the situation of consumer size packages, as well as any other basis for determining percentages, it is proposed that § 51.308 be revised to read as follows:

"(a) When the numerical count is marked on the container, containers are packed to weigh ten pounds or less, or in any container where the minimum diameter of the smallest apple does not vary more than 1/2 inch from the minimum diameter of the largest apple, percentages shall be calculated on the basis of count;

(b) In all other cases except those listed in paragraph (a) of this section, they shall be calculated on the basis of weight."

Section 51.312, Marking requirements, currently states that the numerical count or minimum diameter of the apples packed in a closed container shall be indicated on the container. The USAA GSC believes that requiring the count or diameter to be marked on the container is not sufficient for today's market, and that the grade and variety should also be plainly marked on the outside of the container. It is also necessary to revise this section to provide for the newly-proposed weight/diameter size classifications for Red Delicious and Golden Delicious varieties, and to provide for packages that contain more than one variety.

Therefore, we propose to revise § 51.312 (redesignated as § 51.311) to read as follows: "Variety (or varieties if more than one is packed in the container), grade, and the numerical count or minimum diameter of apples packed in a closed container shall be indicated on the container. For apple lots utilizing the combined diameter/weight designations for Red Delicious and Golden Delicious varieties, the minimum diameter and minimum weight of apples packed in a closed container shall be indicated on the container. (a) When the numerical count is not shown, the minimum diameter or, in the case of Red Delicious or Golden Delicious lots where minimum diameter/weight designations have been chosen, the minimum diameter and weight as designated in Table II, shall be plainly stamped, stenciled or otherwise marked on the container in terms of whole inches, or whole inches and not less than eighth inch fractions thereof in the following manner: "A" inches or "B" grams, where "A" corresponds to one of the diameter measurements in terms of inches in Table II and "B" corresponds to the weight measurement in grams as indicated in Table II. Both diameter and weight must be shown using the word "or" between the given measurements." Paragraph (b) of this section remains unchanged.

Proposed §§ 51.316, 51.317, and 51.318 (currently §§ 51.318, 51.319, and 51.320) define terms of injury, damage, or serious damage. These sections would also be revised to reflect the changes concerning bruising, brown surface discoloration, bitter pit, and Jonathan spot as indicated in the earlier discussion of this supplementary information section.

Finally, proposed § 51.321, U.S. Condition standards for export (currently § 51.323), is a separate set of requirements that may be used for both exported and domestic shipments of apples. These requirements are not mandatory for exports or domestic shipments, but are provided as an optional classification for lots of apples. Only one change that pertains

VOL

2002
UMI

specifically to providing 2 percent allowance for apples affected by slight scald is proposed in this section. Paragraph (c)(3) of this section states that "Not more than 2 percent shall be allowed for apples affected by slight scald." Deleting this is necessary to clarify reference to scoring scald in the U.S. Condition Standards for Export and to make them consistent with the revisions being proposed within the standards. The inclusion of brown surface discoloration in the standards would encompass the various types of scald, making current paragraph (c)(3) of this section unnecessary.

Accordingly, AMS proposes to amend the United States Standards for Grades of Apples as follows:

List of Subjects in 7 CFR Part 51

Agricultural commodities, Food grades and standards, Fruits, Nuts, Reporting and recordkeeping requirements, Trees, Vegetables.

For reasons set forth in the preamble, 7 CFR Part 51 is proposed to be amended as follows:

PART 51—[AMENDED]

1. The authority citation for Part 51 continues to read as follows:

Authority: 7 U.S.C. 1621—1627.

2. In part 51, Subpart—United States Standards for Grades of Apples for processing is revised to read as follows:

Subpart—United States Standards for Grades of Apples

Grades

Sec.
51.300 U.S. Extra Fancy.

Grades

§ 51.300 U.S. Extra Fancy.

"U.S. Extra Fancy" consists of apples of similar varietal characteristics (except when the name of more than one variety appears on the container) which are mature but not overripe, clean, fairly well formed; free from decay, internal browning, internal breakdown, soft scald, scab, freezing injury, visible water core, and broken skins. The apples are also free from injury caused by bruises, brown surface discoloration, smooth net-like russeting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, disease, insects, or other means. The apples are free from damage caused by bitter pit or Jonathan spot and by smooth solid, slightly rough or rough russeting, or stem or calyx cracks, as well as damage by invisible water core after January 31st of the year following the year of production except for the Fuji variety of apples. Invisible water core shall not be scored against the Fuji variety of apples under any circumstances. For the apple varieties listed in Table I of § 51.305, each apple of this grade has the amount of color specified for the variety. (See §§ 51.305 and 51.306.)

§ 51.301 U.S. Fancy.

"U.S. Fancy" consists of apples of similar varietal characteristics (except when the name of more than one variety appears on the container) which are mature but not overripe, clean, fairly well formed, and free from decay, internal browning, internal breakdown, soft scald, freezing injury, visible water core, and broken skins. The apples are also free from damage caused by bruises, brown surface discoloration, russeting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, stem or calyx cracks, disease, insects, bitter pit, Jonathan spot, or damage by other means, or invisible water core after January 31st of the year following the year of production, except for the Fuji variety of apples. Invisible water core shall not be scored against the Fuji variety of apples under any circumstances. For the apple varieties listed in Table I of § 51.305, each apple of this grade has the amount of color specified for the variety. (See §§ 51.305 and 51.306.)

§ 51.302 U.S. No. 1.

"U.S. No. 1" consists of apples which meet the requirements of U.S. Fancy grade except for color, russeting, and invisible water core. In this grade, less color is required for all varieties listed in Table I of § 51.305. Apples of this grade are free from excessive damage caused by russeting which means that apples meet the russeting requirements for U.S. Fancy as defined under the definitions of "damage by russeting," except the aggregate area of an apple which may be covered by smooth net-like russeting shall not exceed 25 percent; and the aggregate area of an apple which may be covered by smooth solid russeting shall not exceed 10 percent: *Provided,* That, in the case of the Yellow Newtown or similar varieties, the aggregate area of an apple which may be covered with smooth solid russeting shall not exceed 20 percent. Each apple of this grade has the amount of color specified in § 51.305 for the variety. Invisible water core shall not be scored in this grade. (See §§ 51.305 and 51.306.)

(a) *U.S. No. 1 Hail:* "U.S. No. 1 Hail" consists of apples which meet the requirements of U.S. No. 1 grade except that hail marks where the skin has not been broken and well healed hail marks where the skin has been broken, are permitted, provided the apples are fairly well formed. (See §§ 51.305 and 51.306.)

(b) [Reserved]

§ 51.303 U.S. Utility.

"U.S. Utility" consists of apples of similar varietal characteristics (except when more than one variety is printed on the container) which are mature but not overripe, not seriously deformed and free from decay, internal browning, internal breakdown, soft scald, and freezing injury. The apples are also free from serious damage caused by dirt or other foreign matter, broken skins, bruises, brown surface discoloration, russeting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, stem or calyx cracks, visible water core, bitter pit or Jonathan spot, disease, insects, or other means. (See § 51.306.)

§ 51.304 Combination grades.

(a) Combinations of the grades in §§ 51.300 through 51.303 may be used as follows:

(1) Combination U.S. Extra Fancy and U.S. Fancy;

(2) Combination U.S. Fancy and U.S. No. 1; and

(3) Combination U.S. No. 1 and U.S. Utility.

(b) Combinations other than these are not permitted in connection with the U.S. apple grades. When Combination grades are packed, at least 50 percent of the apples in any lot shall meet the requirements of the higher grade in the combination. (See § 51.306.)

Color Requirements

§ 51.305 Color requirements.

In addition to the requirements specified for the grades set forth in §§ 51.300 to 51.304, apples of these grades shall have the percentage of color specified for the variety in Table I appearing in this Section. All apple varieties other than those appearing in Table I shall have no color requirements pertaining to these grades. For the solid red varieties, the percentage stated refers to the area of the surface which must be covered with a good shade of solid red characteristic of the variety: *Provided,* That an apple having color of a lighter shade of solid red or striped red than that considered as a good shade of red characteristic of the variety may be admitted to a grade, provided it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of good red characteristic of the variety required for the grade. For the striped red varieties, the percentage stated refers to the area of the surface in which the stripes of a good shade of red characteristic of the variety shall predominate over stripes of lighter red, green, or yellow. However, an apple having color of a lighter shade than that considered as a good shade of red characteristic of the variety may be admitted to a grade, provided it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of stripes of a good red characteristic of the variety required for the grade. Faded brown stripes shall not be considered as color. (A) Color standards USDA Visual Aid APL–CC–1 (Plates a–e) consists of a folder containing the color requirements for apples set forth in this section and five plates illustrating minimum good shade of solid red or striped red color, minimum compensating color and shade not considered color, for the following 12 varieties: Red Delicious, Red Rome, Empire, Idared, Winesap, Jonathan, Stayman, McIntosh, Cortland, Rome Beauty, Delicious, and York. These color standards will be available for examination and purchasing information in the Fresh Products Branch, Fruit and Vegetable Programs, AMS, U.S. Department of Agriculture South Building, Washington, D.C. 20250; in any field office of the Fresh Products Branch; or upon request of any authorized inspector of the Fresh Fruit and Vegetable Inspection Service.

TABLE I

Only the varieties listed in this table shall be required to meet a minimum color requirement. Variety	U.S. Extra Fancy Percent	U.S. Fancy Percent	U.S. No. 1 Percent
Red Delicious	66	40	25
Red Rome	66	40	25
Empire	66	40	25
Idared	66	40	25
Winesap	66	40	25
Jonathan	66	40	25
Stayman	50	33	25
McIntosh	50	33	25
Cortland	50	33	25
Rome Beauty	50	33	25
Delicious	50	33	25
York	50	33	25

[1] Variations on varietal designations listed in this table must meet or exceed those color requirements listed.

Tolerances

§ 51.306 Tolerances.

In order to allow for variations incident to proper grading and handling in each of the grades in §§ 51.300, 51.301, 51.302, 51.303, and 51.304 the following tolerances are provided as specified:

(a) Defects. (1) U.S. Extra Fancy, U.S. Fancy, U.S. No. 1, and U.S. No. 1 Hail grades: 10 percent of the apples in any lot may fail to meet the requirements of the grade, but not more than one-half of this amount, or 5 percent, shall be allowed for apples which are seriously damaged, including therein not more than 1 percent for apples affected by decay or internal breakdown.

(2) U.S. Utility grade. 10 percent of the apples in any lot may fail to meet the requirements of the grade, but not more than one-half of this amount, or 5 percent, shall be allowed for apples which are seriously damaged by insects, and including in the total tolerance not more than 1 percent for apples affected by decay or internal breakdown.

(b) When applying the foregoing tolerances to Combination grades, no part of any tolerance shall be allowed to reduce, for the lot as a whole, the 50 percent of apples of the higher grade required in the combination, but individual containers shall have not less than 40 percent of the higher grade.

(c) Size. When size is designated by the numerical count for a container, not more than 10 percent of packages in the lot may fail to be fairly uniform.[1] When size is designated by minimum or maximum diameter, not more than 5 percent of the apples in any lot may be smaller than the designated minimum, and not more than 10 percent may be larger than the designated maximum. For Red Delicious or Golden Delicious varieties only, a combination of minimum diameter and/or weight may be used. When this designation is used, an individual apple will be considered to have met the minimum size requirement even if the apple is smaller than the minimum diameter, provided it

[1] "Fairly uniform" means the size of the fruit within the container does not vary more than ½ inch diameter from the smallest to largest fruit.

VOL
67
ISS
58
MR
26
2002
UMI

is equal to or greater than the weight provided in Table II of this section. However, not more than 5 percent of the apples in any lot may fail to meet either the minimum diameter or minimum weight when so designated. In addition, when Red Delicious or Golden Delicious apples are designated with diameter/weight combinations, they may only be designated according to the following table:

TABLE II

Red Delicious	Golden Delicious
2⅛ inches or 65 grams.	63 grams
2¼ inches or 75 grams.	70 grams
2⅜ inches or 84 grams.	82 grams
2½ inches or 100 grams.	95 grams
2⅝ inches or 115 grams.	109 grams
2¾ inches or 139 grams.	134 grams

Application of Tolerances

§ 51.307 Application of tolerances.

The contents of individual packages in the lot, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified for the grade:

(a) Packages which contain more than 10 pounds:

(1) Shall have not more than one and one-half times a specified tolerance of 10 percent or more and not more than double a tolerance of less than 10 percent, except that at least one apple which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any package.

(2) [Reserved]

(b) Packages which contain 10 pounds or less:

(1) No package may have more than 3 times the tolerance specified, except that at least three defective apples may be permitted in any package: *Provided*, That not more than three apples or more than 18 percent (whichever is the larger amount) may be seriously damaged by insects or affected by decay or internal breakdown.

(2) [Reserved]

Methods of Sampling and Calculation of Percentages

§ 51.308 Methods of sampling and calculation of percentages.

(a) When the numerical count is marked on the container, containers are packed to weigh ten pounds or less, or in any container where the minimum diameter of the smallest apple does not vary more than ½ inch from the minimum diameter of the largest apple, percentages shall be calculated on the basis of count.

(b) In all other cases except those listed in paragraph (a) of this section, they shall be calculated on the basis of weight.

Condition After Storage or Transit

§ 51.309 Condition after storage or transit.

Decay, scald, or any other deterioration which may have developed on apples after they have been in storage or transit shall be considered as affecting condition and not the grade.

Packing Requirements

§ 51.310 Packing requirements.

(a) Apples tray packed or cell packed in cartons shall be arranged according to approved and recognized methods. Packs shall be at least fairly tight [2] or fairly well filled.[3]

(b) Closed cartons containing apples not tray or cell packed shall be fairly well filled or the pack shall be sufficiently tight to prevent any appreciable movement of the apples.

(c) Packs in wooden boxes or baskets shall be sufficiently tight to prevent any appreciable movement of apples within containers when the packages are closed. Each wrapped apple shall be completely enclosed by its individual wrapper.

(d) Apples on the shown face of any container shall be reasonably representative in size, color and quality of the contents.

(e) Tolerances: In order to allow for variations incident to proper packing, not more than 10 percent of the containers in any lot may fail to meet these requirements.

Marking Requirements

§ 51.311 Marking requirements.

Variety (or varieties if more than one is packed in the container), grade, and the numerical count or minimum diameter of apples packed in a closed container shall be indicated on the container. For apple lots utilizing the combined diameter/weight designations for Red Delicious and Golden Delicious varieties, the minimum diameter and minimum weight of apples packed in a closed container shall be indicated on the container.

(a) When the numerical count is not shown, the minimum diameter or, in the case of Red Delicious or Golden Delicious lots where minimum diameter/weight designations have been chosen, the minimum diameter and weight as designated in Table II, shall be plainly stamped, stenciled or otherwise marked on the container in terms of whole inches, or whole inches and not less than eighth inch fractions thereof in the following manner: "A" inches or "B" grams, where "A" corresponds to one of the diameter measurements in terms of inches listed in Table II and "B" corresponds to the weight measurement in grams as indicated in Table II. Both diameter and weight must be shown using the word "or" between the given measurements.

(b) The word "minimum," or its abbreviation, when following a diameter size marking, means that the apples are of the size marked or larger. (See §§ 51.306 and 51.307.)

Definitions

§ 51.312 Mature.

"Mature" means that the apples have reached the stage of development which will insure the proper completion of the ripening process. Before a mature apple becomes overripe it will show varying degrees of firmness, depending upon the stage of the ripening process. The following terms are used for describing different stages of firmness of apples:

(a) "Hard" means apples with a tenacious flesh and starchy flavor.

(b) "Firm" means apples with a tenacious flesh but which are becoming crisp with a slightly starchy flavor, except the Delicious variety.

(c) "Firm ripe" means apples with crisp flesh except that the flesh of the Gano, Ben Davis, and Rome Beauty varieties may be slightly mealy.

(d) "Ripe" means apples with mealy flesh and soon to become soft for the variety.

§ 51.313 Overripe.

"Overripe" means apples which have progressed beyond the stage of ripe, with flesh very mealy or soft, and past commercial utility.

§ 51.314 Clean.

"Clean" means that the apples are free from excessive dirt, dust, spray residue, and other foreign material.

[2] "Fairly tight" means that apples are of the proper size for molds or cell compartments in which they are packed, and that molds or cells are filled in such a way that no more than slight movement of apples within molds or cells is possible. The top layer of apples, or any pad or space filler over the top layer of apples, shall be not more than ¾ inch below the top edge of the carton.

[3] "Fairly well filled" means that the net weight of apples in containers raning from 2,100 to 2,900 cubic inch capacity is not less than 37 pounds for Cortland, Gravenstein, Jonathan, McIntosh and Golden Delicious varieties and not less than 40 pounds for all other varieties.

§ 51.315 Fairly well formed.

"Fairly well formed" means that the apple may be slightly abnormal in shape but not to an extent which detracts materially from its appearance.

§ 51.316 Injury.

"Injury" means any specific defect defined in this section or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which more than slightly detract from the appearance or the edible or shipping quality of the apple. In addition, specific defect measurements are based on an apple three inches in diameter. Corresponding smaller or larger areas would be allowed on smaller or larger fruit. Any reference to "inch" or "inches in diameter" refers to that of a circle of the specified diameter. Any reference to "aggregate area," "total area," or "aggregate affected area" means the gathering together of separate areas into one mass for the purpose of comparison to determine the extent affected. The following specific defects shall be considered as injury:

(a) Receding in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface shall not be considered in determining whether an apple is injured by receding. Smooth net-like receding outside of the stem cavity or calyx basin shall be considered as injury when an aggregate area of more than 10 percent of the surface is covered, and the color of the receding shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like receding when the appearance is affected to a greater extent than the amount permitted in this paragraph.

(b) Sunburn or sprayburn, when the discolored area does not blend into the normal color of the fruit.

(c) Dark brown or black limb rubs which affect a total area of more than one-fourth inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of injury by receding.

(d) Hail marks, drought spots, other similar depressions or scars:

(1) When the skin is broken, whether healed or unhealed;

(2) When there is appreciable discoloration of the surface;

(3) When any surface indentation exceeds one-sixteenth inch in depth;

(4) When any surface indentation exceeds one-eighth inch in diameter; or

(5) When the aggregate affected area of such spots exceeds one-half inch in diameter.

(e) Bruises which are not slight and incident to proper handling and packing, and which are greater than:

(1) ⅛ inch in depth;

(2) ⅝ inch in diameter;

(3) Any combination of lesser bruises which detract from the appearance or edible quality of the apple to an extent greater than any one bruise described in paragraphs (e)(1) or (2) of this section.

(f) Brown surface discoloration when caused by delayed sunburn, surface scald, or any other means and affects an area greater than ¼ inch in diameter.

(g) Disease: (1) Cedar rust infection which affects a total area of more than three-sixteenths inch in diameter.

(2) Sooty blotch or fly speck which is thinly scattered over more than 5 percent of the surface, or dark, heavily concentrated spots which affect an area of more than one-fourth inch in diameter.

(3) Red skin spots which are thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-fourth inch in diameter.

(h) Insects: (1) Any healed sting or healed stings which affect a total area of more than one-eighth inch in diameter including any encircling discolored rings.

(2) Worm holes.

§ 51.317 Damage.

"Damage" means any specific defect defined in this section or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detract from the appearance, or the edible or shipping quality of the apple. In addition, specific defect measurements are based on an apple three inches in diameter. Corresponding smaller or larger areas would be allowed on smaller or larger fruit. Any reference to "inch" or "inches in diameter" refers to that of a circle of the specified diameter. Any reference to "aggregate area," "total area," or "aggregate affected area" means the gathering together of separate areas into one mass for the purpose of comparison to determine the extent affected. The following specific defects shall be considered as damage:

(a) Russeting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface shall not be considered in determining whether an apple is damaged by russeting, except that excessively rough or bark-like russeting in the stem cavity or calyx basin shall be considered as damage when the appearance of the apple is materially affected. The following types and amounts of russeting outside of the stem cavity or calyx basin shall be considered as damage:

(1) Russeting which is excessively rough on Roxbury Russet and other similar varieties.

(2) Smooth net-like russeting, when an aggregate area of more than 15 percent of the surface is covered, and the color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russeting when the appearance is affected to a greater extent than the amount permitted in this paragraph (a).

(3) Smooth solid russeting, when an aggregate area of more than 5 percent of the surface is covered, and the pattern and color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous solid russeting when the appearance is affected to a greater extent than the amount permitted in this paragraph (a).

(4) Slightly rough russeting which covers an aggregate area of more than one-half inch in diameter.

(5) Rough russeting which covers an aggregate area of more than one-fourth inch in diameter.

(b) Sunburn or sprayburn which has caused blistering or cracking of the skin, or when the discolored area does not blend into the normal color of the fruit unless the injury can be classed as russeting.

(c) Limb rubs which affect a total area of more than one-half inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of damage by russeting.

(d) Hail marks, drought spots, other similar depressions, or scars:

(1) When any unhealed mark is present;

(2) When any surface indentation exceeds one-eighth inch in depth;

(3) When the skin has not been broken and the aggregate affected area exceeds one-half inch in diameter; or

(4) When the skin has been broken and well healed, and the aggregate affected area exceeds one-fourth inch in diameter.

(e) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-fourth inch.

(f) Invisible water core existing around the core and extending to water core in the vascular bundles, or surrounding the vascular bundles when the affected areas surrounding three or more vascular bundles meet or coalesce, or existing in more than a slight degree

VOL
67
ISS
58
MR
26
2002
UMI

outside the circular area formed by the vascular bundles: *Provided*, That invisible water core shall not be scored as damage against the Fuji variety of apples under any circumstances.

(g) Bruises which are not slight and incident to proper handling and packing, and which are greater than:

(1) 3/16 inch in depth;

(2) 7/8 inch in diameter;

(3) Any combination of lesser bruises which detract from the appearance or edible quality of the apple to an extent greater than any one bruise described in paragraphs (g)(1) or (2) of this section.

(h) Brown surface discoloration when caused by delayed sunburn, surface scald, or any other means and affects an area greater than 1/2 inch in diameter.

(i) Disease. (1) Scab spots which affect a total area of more than one-fourth inch in diameter.

(2) Cedar rust infection which affects a total area of more than one-fourth inch in diameter.

(3) Sooty blotch or fly speck which is thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-half inch in diameter.

(4) Red skin spots which are thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-half inch in diameter.

(5) Bitter pit or Jonathan spot when one or more spots affects the surface of the apple.

(j) Insects. (1) Any healed sting or healed stings which affect a total area of more than three-sixteenths inch in diameter including any encircling discolored rings.

(2) Worm holes.

§ 51.318 Serious damage.

"Serious damage" means any specific defect defined in this section; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects which seriously detract from the appearance, or the edible or shipping quality of the apple. In addition, specific defect measurements are based on an apple three inches in diameter. Corresponding smaller or larger areas would be allowed on smaller or larger fruit. Any reference to "inch" or "inches in diameter" refers to that of a circle of the specified diameter. Any reference to "aggregate area," "total area," or "aggregate affected area" means the gathering together of separate areas into one mass for the purpose of comparison to determine the extent affected. The following specific defects shall be considered as serious damage:

(a) The following types and amounts of russeting shall be considered as serious damage:

(1) Smooth solid russeting, when more than one-half of the surface in the aggregate is covered, including any russeting in the stem cavity or calyx basin, or slightly rough, or excessively rough or bark-like russeting, which detracts from the appearance of the fruit to a greater extent than the amount of smooth solid russeting permitted: *Provided*, That any amount of russeting shall be permitted on Roxbury Russet and other similar varieties.

(2) [Reserved]

(b) Sunburn or sprayburn which seriously detracts from the appearance of the fruit.

(c) Limb rubs which affect more than one-tenth of the surface in the aggregate.

(d) Hail marks, drought spots, or scars, if they materially deform or disfigure the fruit, or if such defects affect more than one-tenth of the surface in the aggregate: *Provided*, That no hail marks which are unhealed shall be permitted and not more than an aggregate area of one-half inch shall be allowed for well healed hail marks where the skin has been broken.

(e) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-half inch.

(f) Visible water core which affects an area of more than one-half inch in diameter.

(g) Disease. (1) Scab spots which affect a total area of more than three-fourths inch in diameter.

(2) Cedar rust infection which affects a total area of more than three-fourths inch in diameter.

(3) Sooty blotch or fly speck which affects more than one-third of the surface.

(4) Red skin spots which affect more than one-third of the surface.

(5) Bitter pit or Jonathan spot which is thinly scattered over more than one-tenth of the surface.

(h) Insects. (1) Healed stings which affect a total area of more than one-fourth inch in diameter including any encircling discolored rings.

(2) Worm holes.

(i) Bruises which are not slight and incident to proper handling and packing, and which are greater than:

(1) 3/8 inch in depth;

(2) 1 1/8 inches in diameter;

(3) Any combination of lesser bruises which detract from the appearance or edible quality of the apple to an extent greater than any one bruise described in paragraph (i)(1) or (2) of this section.

(j) Brown surface discoloration when caused by delayed sunburn, surface scald, or any other means and affects an area greater than 3/4 inch in diameter.

§ 51.319 Seriously deformed.

"Seriously deformed" means that the apple is so badly misshapen that its appearance is seriously affected.

§ 51.320 Diameter.

When measuring for minimum size, "diameter" means the greatest dimension of the apple measured at right angles to a line from stem to blossom end. When measuring for maximum size, "diameter" means the smallest dimension of the apple determined by passing the apple through a round opening in any position.

U.S. Condition Standards for Export

§ 51.321 U.S. Condition Standards for Export.[4]

(a) Not more than 5 percent of the apples in any lot shall be further advanced in maturity than firm ripe.

(b) Not more than 5 percent of the apples in any lot shall be damaged by storage scab.

(c) Not more than a total of 5 percent of the apples in any lot shall be affected by scald, internal breakdown, freezing injury, or decay; or damaged by bitter pit, Jonathan spot, water core[5] except that invisible water core shall not be scored as damage when these condition standards are applied to the Fuji variety of apples, or other condition factors: *Provided*, That:

(1) Not more than a total of 2 percent shall be allowed for apples affected by decay and soft scald;

(2) Not more than 2 percent shall be allowed for apples affected by internal breakdown;

(d) Container packs shall comply with packing requirements specified in § 51.310 of the United States Standards for Grades of Apples.

(e) Any lot of apples shall be considered as meeting the U.S. Condition Standards for Export if the entire lot averages within the requirements specified: *Provided*, That no package in any lot shall have more than double the percentages specified, except that for packages which contain 10 pounds or less, individual packages in any lot may have not more than three times the tolerance or three apples (whichever is the greater amount).

[4] These standards may be applied to domestic shipments of apples as well as export lots, and may be referred to as "U.S. Condition Standards."

[5] "Damage by water core" means externally invisible water core existing around the core and extending to water core in the vascular bundles, or surrounding the vascular bundles when the affected areas surrounding three or more vascular bundles meet or coalesce, or existing in more than slight degree outside the circular area formed by the vascular bundles, or any externally visible water core.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

23 CFR Part 772

[FHWA Docket No. FHWA-2000-8056]

RIN 2125-AE80

Procedures for Abatement of Highway Traffic Noise and Construction Noise

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Termination of proposed rulemaking.

SUMMARY: This document terminates a rulemaking proceeding to revise noise regulations relating to the noise insulation of private residences. The agency undertook this action to consider allowing Federal participation in the noise insulation of private residences when a traffic noise impact occurs, i.e., when predicted traffic noise levels approach or exceed the FHWA noise abatement criteria or when the predicted traffic noise levels substantially exceed the existing noise levels. Currently, Federal participation in the noise insulation of private residences is allowable only in situations where severe traffic noise impacts exist or are expected, and normal abatement measures are physically infeasible or economically unreasonable. The agency has determined that the proposed change would establish a highly controversial funding policy and would add tremendous cost to the highway program. Accordingly, we are terminating the rulemaking proceeding and closing the docket.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Armstrong, Office of Natural Environment, HEPN-20, (202) 366-2073, or Mr. Robert Black, Office of the Chief Counsel, HCC-30, (202) 366-1359, Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590-0001. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

The FHWA noise regulations were developed as a result of the Federal-Aid Highway Act of 1970 (Pub. L. 91-605, 84 Stat. 1713) and apply to projects where a State department of transportation has requested Federal funding for participation in the project. Under the FHWA noise requirements found at 23 CFR part 772, the State DOT must determine if there will be traffic noise impacts in areas adjacent to federally-aided highways when a project is proposed for the construction of a highway on a new location or the reconstruction of an existing highway to either significantly change the horizontal or vertical alignment or increase the number of through-traffic lanes. Such a project is termed a "Type I" project. If the State DOT identifies potential traffic noise impacts, it must consider noise abatement measures and implement the measures when they are determined to be reasonable and feasible.

Federal law and the FHWA regulations do not require the State DOTs to implement noise abatement along existing highways. However, they may voluntarily initiate this type of abatement, termed a "Type II" project, but they are solely responsible for making this decision. Federal participation in the funding of such projects is limited to those that propose abatement measures along lands that were developed or were under substantial construction before approval of the acquisition of the right-of-way for, or construction of, the existing highway.

Noise abatement measures which may be incorporated in "Type I" and "Type II" projects include the following: (1) Traffic management measures (e.g., traffic control devices and signing for prohibition of certain vehicle types, time-use restrictions for certain vehicle types, modified speed limits and exclusive land designations); (2) alteration of horizontal and vertical alignments; (3) acquisition of property rights (either in fee or lesser interest) for construction of noise barriers; (4) construction of noise barriers (including landscaping for aesthetic purposes), whether within or outside the highway right-of-way; (5) acquisition of real property or interests therein (predominately unimproved property) to serve as a buffer zone to preempt development which would be adversely impacted by traffic noise (this measure may be included in "Type I" projects only); and (6) noise insulation of public use or nonprofit institutional structures.

In establishing the noise regulations, the FHWA limited routine noise insulation to public use or nonprofit institutional structures in an effort to balance what is desirable from an environmental perspective with what is reasonable fiscally, i.e., balance noise reduction benefits with overall program costs. However, there may be situations where: (1) Severe traffic noise impacts exist or are expected, and (2) the abatement measures listed above are physically infeasible or economically unreasonable. In these instances, the FHWA may approve a State's request for unusual or extraordinary abatement measures on a case-by-case basis. When considering extraordinary abatement measures, the State must demonstrate that the affected activities experience traffic noise impacts to a far greater degree than other similar activities adjacent to highway facilities. For example, residential areas experience absolute noise levels of at least 75 decibels or residential areas experience noise level increases of at least 30 decibels over existing noise levels. The noise insulation of private residences is an example of an extraordinary abatement measure.

The Advance Notice of Proposed Rulemaking (ANPRM)

On December 28, 2000, the FHWA issued an ANPRM, at 65 FR 82301, to seek comment on allowing the use of

VOL
67
ISS
58
MR
26
2002
UMI

Federal funds for noise insulation of private residences as an interior noise abatement measure. Member(s) of Congress had suggested that the noise insulation of private residences be added to the listing of abatement measures, which may routinely be considered whenever a traffic noise impact occurs. Such consideration would not require the occurrence of a severe traffic noise impact. However, such consideration could require that all other measures be evaluated and be determined not to be reasonable and feasible before the noise insulation of private residences could be considered. As with all elements of highway traffic noise analysis and abatement, consideration for the noise insulation of private residences should be applied uniformly and consistently on a statewide basis.

The FHWA sought comments on the following questions:

1. Should the FHWA revise its noise regulation to allow Federal participation in the noise insulation of private residences whenever a traffic noise impact occurs, not only when a severe traffic noise impact occurs?

2. Should the FHWA revise its noise regulation to routinely allow Federal participation in the noise insulation of private residences, i.e., add it to the listing of abatement measures which may be included in "Type I" and "Type II" projects, or should Federal participation in the noise insulation of private residences be allowed only after all the other listed abatement measures have been determined not to be reasonable and feasible?

3. Should the FHWA revise its noise regulation to address the noise insulation of private residences in a manner, which is, different from that discussed in the first two questions? If so, how?

Comments Received in Response to the ANPRM

The agency received comments on the proposed revision from one member of Congress, two Federal agencies, one metropolitan planning organization, one insulation contractor, and 15 State departments of transportation (DOT).

The member of Congress supported making a regulatory change to allow private home insulation where "conventional exterior noise barriers are found to be impractical or excessively expensive." This would increase a State DOT's flexibility to participate in alternative noise abatement projects and would provide noise abatement in many instances where it would not be provided under existing FHWA regulations.

The Department of Housing and Urban Development recommended a "total, multi-modal noise package" be considered for noise effects and mitigation.

The U.S. Environmental Protection Agency encouraged the provision of more flexibility in the use of noise insulation for private residences, i.e., noise insulation should be available for consideration in all situations.

The metropolitan planning organization supported a regulatory revision to allow greater flexibility in using Federal funds for the noise insulation of private homes.

The insulation contractor strongly supported a revision to routinely provide noise insulation.

One State department of transportation commented that the FHWA's noise regulations should be re-crafted to allow Federal participation in any reasonable and feasible noise abatement methodology, provided specific performance criteria have been satisfied.

The other 14 State DOTs voiced opposition to the proposed regulatory change, indicating the proposed regulatory change will result in the following: (1) A substantial increase in the cost and complexity of the noise abatement program (one State DOT estimated its average annual noise mitigation cost would increase from $1.9 million to $30.6 million, approximately doubling the annual expenditure for all planning, analysis, design, and construction related to all environmental disciplines); (2) a dramatic increase in the amount of time and effort invested to complete noise studies/final abatement designs, with the potential for causing significant and costly project delays; (3) inequities in the noise abatement program, since the costs associated with insulating private residences would vary greatly (this could increase the potential for discrimination complaints); (4) unnecessary additional burdens for States (since building insulation cannot be accurately modeled, its cost would have to be estimated on a house-by-house basis and its application would be far too difficult to manage in a reasonable and cost effective manner); (5) no provision of benefits for the exterior areas of residences; (6) legal concerns related to maintenance of the home insulation and the consideration of future homeowner remodeling/changes; (7) a tremendous administrative burden, since extensive, comprehensive contractual agreements would be required among all involved parties, e.g., State DOTs, consultants, contractors, local government officials, and homeowners, to minimize the possibility of litigation; and (8) unnecessary complications of a noise abatement program that has been easily understood and accepted by the public for an extended period of time. The same 14 State DOTs indicated that the current regulatory guidance is adequate and appropriate and that the noise insulation of private residences should remain a "technique of last resort."

Analysis

The agency proposal considered allowing Federal participation in the routine noise insulation of private residences whenever a traffic noise impact occurs. After review of the comments submitted in response to that proposal, it has become apparent that, while increasing the flexibility in providing noise abatement, routinely allowing Federal participation in the noise insulation of private residences would place an unacceptable additional burden on State DOTs and add an unacceptably high cost to the Federal-aid highway program that was not previously anticipated. The additional burden to States would include a tremendous increase in the resources needed to address the administrative, legal, and technical elements of providing noise abatement in private residences. The fifteen-fold increase in annual noise abatement costs estimated by one State DOT is an example of the unacceptable increase in Federal-aid highway program costs.

Conclusion

For the reasons stated above, the FHWA is terminating this rulemaking action and closing the docket.

Authority: 23 U.S.C. 109(h) and (i); 42 U.S.C. 4331, 4332; and 49 CFR 1.48(b).

Issued on: March 18, 2002.

Mary E. Peters,

Federal Highway Administrator.

[FR Doc. 02–7165 Filed 3–25–02; 8:45 am]

BILLING CODE 4910–22–P

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

25 CFR Part 21

RIN 1076–AD98

Arrangement With States, Territories, or Other Agencies for Relief of Distress and Social Welfare of Indians

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Proposed rule.

SUMMARY: The Bureau of Indian Affairs (BIA) proposes to remove regulations on Arrangement with States, Territories, or other agencies for relief of distress and social welfare of Indians. The program governed by this rule is now administered under regulations in Contracts under the Indian Self-Determination and Education Assistance Act. Eliminating this rule will remove any confusion regarding the process for providing certain social services to the tribes.

DATES: Written comments must be submitted on or before May 28, 2002.

ADDRESSES: You may submit your comments on the proposed rule by mail or by hand-delivery to Larry Blair, Chief, Human Services Division, Office of Tribal Services, Bureau of Indian Affairs, Department of the Interior, 1849 C Street, NW, MS–4660–MIB, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Larry Blair at (202) 208–2479.

SUPPLEMENTARY INFORMATION: The authority to issue this document is vested in the Secretary of the Interior by 5 U.S.C. 301 and 25 U.S.C. 2 and 9. The Secretary has delegated this authority to the Assistant Secretary—Indian Affairs under Part 209 Departmental Manual, Chapter 8.1A, and by memorandum dated January 25, 1994, from Chief of Staff, Department of Interior, to Assistant Secretaries and Heads of Bureaus and Offices.

Background

A proposed rule was published in the **Federal Register** on July 1, 1996 (61 FR 33876), to revise the existing regulation in order to improve its clarity and understanding to the public through the use of Plain English. No comments were received on the July 1, 1996, publication. Due to questions raised by the Solicitor's Office on the impact that this proposed rule could have on the Office of Indian Education Programs, the rule was not finalized. Also, 25 CFR part 21 is no longer necessary because this program now falls under the regulations in 25 CFR part 900, which implement the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638, 88 Stat. 2203, 25 U.S.C. 450 *et seq.*, as amended). We therefore propose the removal of this part to clarify that tribal governments have total responsibility for operating social service programs.

Finally, this rule has never been used by the Office of Tribal Services, and used only once by the Office of Indian Education Programs. It has never been funded as a viable program.

Regulatory Planning and Review (Executive Order 12866)

This rule was reviewed by the Office of Management and Budget, and determined not to be a significant regulatory action under Executive Order 12866. This rule has not had an effect of $100 million or more on the economy, nor has it adversely or materially affected the economy, productivity, competition, jobs, the environment, public health or safety, of State, local, or tribal governments or communities. The removal of this rule will also not create any serious inconsistency or otherwise interfere with an action taken or planned by another agency. The removal of this rule removes the apparent inconsistency with the Self-Determination and Education Assistance Act, as amended. This rule does not alter the budgetary effects or entitlements, grants, user fees, or loan programs or rights or obligations of their recipients. 25 CFR part 21 deals with the negotiation, execution and planning of social service contracts yet, it has never been funded or used by the social services programs. This rule does not raise novel legal or policy issues because it has been replaced by a law more responsive to the needs of the tribes.

Regulatory Flexibility Act

This rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) This rule involves the negotiation, execution and planning of social service contracts, between the Federal Government and State or local governments, and does not have an effect upon the regulation of small business, organizations or grant jurisdiction over small governments. State and local governments will not be negatively impacted with the elimination of this rule because it has never been funded. They also are free to apply for grants under the Johnson-O'Malley Act providing no tribe or tribal entities are interested in applying.

Small Business Regulatory Enforcement Fairness Act

This rule is not a major rule under 5 U.S.C. 804 (2), the Small Business Regulatory Enforcement Fairness Act. This rule provides guidance for social services contracting and has no effect on the costs or prices in local communities. This rule does not have significant adverse effect on competition, employment, investments, productivity, innovation, or the ability of the U.S.-based enterprises to compete with foreign-based enterprises. This rule does not affect local enterprises and has never been used for operation of social service programs under this part.

Unfunded Mandates Act of 1995

This rule imposes no unfunded mandates on any State, local, or tribal government or private entities and is in compliance with the provisions of the Unfunded Mandates Act of 1995. This rule, if funded and used, would provide the funds needed in the contract to perform the services.

Takings (Executive Order 12630)

The Department has determined that this rule does not have significant "takings" implications, or pertain to "taking" of private property interests, nor does it affect private property.

This rule involves the negotiation, execution and planning of social service contracts, and does not deal with private property, or trusts. This rule does not affect property rights protected by the Constitution and does not pose a risk of compensable taking.

Federalism (Executive Order 12612)

The Department has determined that this rule does not have significant Federalism effects because it pertains solely to Federal-tribal relations and will not interfere with the roles, rights and responsibilities of states.

Civil Justice Reform (Executive Order 12988)

In accordance with Executive Order 12988, the Office of the Solicitor has determined that this rule does not unduly burden the judicial system and does not meet the requirements of section 3(a) and 3(b)(2) of the Order.

Paperwork Reduction Act of 1995

This rule has been examined under the Paper Reduction Act of 1995. Information collection was necessary for 25 CFR part 21 to identify how contract funds were to be used, and to measure contractors' performance and plans for future performance. Since its inception, 25 CFR part 21 has never been used by the social service program, and thus the information collections approved for contract funding or performances were allowed to expire, unused.

National Environment Policy Act

The Department has determined that this rule does not constitute a major Federal action significantly affecting the quality of human environment and that no detailed statement is required under the National Environmental Policy Act of 1969.

Consultation and Coordination with Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Public Comment Solicitation

If you wish to comment on this rule, you may send your comments by mail or hand-deliver them to the person listed in the **ADDRESSES** section of this document. Our practice is to make comments, including names and home addresses of respondents available for public review during regular business hours, Monday through Friday, 9:00 a.m. to 4:00 p.m. EST, excluding Federal holidays. Individual respondents may request that we withhold their home address from the rulemaking record. We will honor the request to the extent allowable by law. There also may be circumstances in which we would withhold from the rulemaking record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or business, available for public inspection in their entirety.

List of Subjects in 25 CFR Part 21

Indians, Indian-welfare contracts.

For the reasons stated in the preamble and under the authority of 25 U.S.C. 9, the Bureau of Indian Affairs proposes to remove 25 CFR part 21 from Chapter I of Title 25 of the Code of Federal Regulations.

Dated: March 14, 2002.

Neal A. McCaleb,

Assistant Secretary—Indian Affairs.

Coast Guard

33 CFR Part 100

[CGD05–02–004]

RIN 2115–AE46

Special Local Regulations for Marine Events; St. Mary's River, St. Mary's City, MD

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to establish permanent special local regulations for the St. Mary's Seahawk Sprint, a marine event held on the waters of the St. Mary's River, St. Mary's City, Maryland. This action is necessary to provide for the safety of life on navigable waters during the event. This action is intended to restrict vessel traffic in portions of the St. Mary's River during the event.

DATES: Comments and related material must reach the Coast Guard on or before June 24, 2002.

ADDRESSES: You may mail comments and related material to Commander (Aoax), Fifth Coast Guard District, 431 Crawford Street, Portsmouth, Virginia 23704–5004, hand-deliver them to Room 119 at the same address between 9 a.m. and 2 p.m., Monday through Friday, except Federal holidays, or fax them to (757) 398–6203. The Operations Oversight Branch, Auxiliary and Recreational Boating Safety Section, Fifth Coast Guard District, maintains the public docket for this rulemaking. Comments and materials received from the public as well as documents indicated in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at the above address between 9 a.m. and 2 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: S. L. Phillips, Project Manager, Auxiliary and Recreational Boating Safety Section, at (757) 398–6204.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking (CGD05–02–004), indicate the specific section of this document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like to know they reached us, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for a meeting by writing to the address listed under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

Background and Purpose

St. Mary's College of Maryland annually sponsors the St. Mary's Seahawk Sprint, a rowing regatta conducted during the second weekend in April. The St. Mary's Seahawk Sprint consists of intercollegiate crew rowing teams racing along a 2000-meter course on the waters of the St. Mary's River. A fleet of spectator vessels traditionally gathers near the event site to view the competition. To provide for the safety of event participants, spectators and transiting vessels, the Coast Guard proposes to restrict vessel movement in the event area during the crew races.

Discussion of Proposed Rule

The Coast Guard proposes to establish a permanent regulated area on specified waters of the St. Mary's River. The proposed special local regulations will be in effect annually from 7 a.m. to 4 p.m. on the second Saturday in April. The effect will be to restrict general navigation in the regulated area during the event. Except for persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel will be allowed to enter or remain in the regulated area. The Patrol Commander will allow non-participating vessels to transit the regulated area between races, when it is safe to do so. The proposed regulated area is needed to control vessel traffic during the event to enhance the safety of participants, spectators and transiting vessels.

Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979).

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary.

Although this proposed regulation will prevent traffic from transiting a portion of the St. Mary's River during the event, the effect of this proposed regulation will not be significant due to the limited duration that the regulated area will be in effect and the extensive advance notifications that will be made to the maritime community via the Local Notice to Mariners, marine information broadcasts, and area newspapers, so mariners can adjust their plans accordingly. Additionally, the proposed regulated area has been narrowly tailored to impose the least impact on general navigation yet provide the level of safety deemed necessary.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule, would not have a significant economic impact on a substantial number of small entities. Although this proposed regulation will prevent traffic from transiting a portion of the St. Mary's River during the event, the effect of this proposed regulation will not be significant because of the limited duration that the regulated area will be in effect and the extensive advance notifications that will be made to the maritime community via the Local Notice to Mariners, marine information broadcasts, and area newspapers, so mariners can adjust their plans accordingly.

If you think that your business, organization or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this proposed rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the address listed under **ADDRESSES.**

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State law or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 or more in any one year. Though this proposed rule will not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial and direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We considered the environmental impact of this proposed rule and concluded that, under figure 2–1, paragraphs (34)(h) and (35)(a) of Commandant Instruction M16475.1D, this proposed rule is categorically excluded from further environmental documentation. Special local regulations issued in conjunction with a regatta or marine parade permit for an event not located in, proximate to, or above an area designated as environmentally sensitive by an environmental agency of the Federal, state, or local government, are specifically excluded from further analysis and documentation under those sections. A "Categorical Exclusion Determination" is available in the docket where indicated under **ADDRESSES.**

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 100 as follows:

VOL
67

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233 through 1236; 49 CFR 1.46; 33 CFR 100.35.

2. 100.527 is added to read as follows:

§ 100.527 St. Mary's River, St. Mary's City, Maryland.

(a) Definitions:

(1) *Coast Guard Patrol Commander.* The Coast Guard Patrol Commander is a commissioned, warrant, or petty officer of the Coast Guard who has been designated by the Commander, Coast Guard Activities Baltimore.

(2) *Official Patrol.* The Official Patrol is any vessel assigned or approved by Commander, Coast Guard Activities Baltimore with a commissioned, warrant, or petty officer on board and displaying a Coast Guard ensign.

(3) *Regulated Area.* The regulated area includes all waters of the St. Mary's River, from shoreline to shoreline, bounded to the south by a line at latitude 38°10′05″ North, and bounded to the north by a line at latitude 38°12′00 ″ North, All coordinates reference Datum NAD 1983.

(b) *Special Local Regulations:*

(1) Except for persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the regulated area.

(2) The operator of any vessel in this area shall:

(i) Stop the vessel immediately when directed to do so by any Official Patrol, including any commissioned, warrant, or petty officer on board a vessel displaying a Coast Guard ensign; and

(ii) Proceed as directed by any Official Patrol, including any commissioned, warrant, or petty officer on board a vessel displaying a Coast Guard ensign.

(c) *Effective Dates.* This section is effective annually from 7 a.m. to 4 p.m. on the second Saturday in April.

Dated: March 13, 2002.

L. Mizell,

Captain, Coast Guard, Acting Commander, Fifth Coast Guard District.

RIN 2115–AE47

Drawbridge Operation Regulations; Oklawaha River, Marion County, FLa

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to change the regulations governing the operation of the Muclan Farms swingbridge across the Oklawaha River, mile 63.9, Marion County, Florida by allowing the span to remain permanently in the closed position. The bridge has not received a request for an opening since 1998. This action should accommodate the needs of the bridgeowner and provide for the reasonable needs of navigation.

DATES: Comments and related material must reach the Coast Guard on or before May 28, 2002.

ADDRESSES: You may mail comments and related material to Commander (obr), Seventh Coast Guard District, 909 S.E. 1st Ave, Room 406, Miami, FL 33131. Comments and material received from the public, as well as documents indicated in the preamble as being available in the docket, are part of [CGD07–02–008] and are available for inspection or copying at Commander (obr), Seventh Coast Guard District, 909 S.E. 1st Avenue, Room 406, Miami, FL 33131 between 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Barry Dragon, Bridge Branch, 909 S.E. 1st Ave Miami, FL 33130 Coast Guard, telephone number 305–415–6743.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking [CGD07–02–008], indicate the specific section of this document to which each comment applies, and give the reason for each comment. You may submit your comments and material by mail, hand delivery, fax, or electronic means to the Docket Management Facility at the address under **ADDRESSES**; but please submit your comments and material by only one means. If you submit them by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit them by mail and would like to know that they reached the Facility, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for one to the Docket Management Facility at the address under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

Background and Purpose

The Muclan Farms swingbridge is located in a rural section of Marion County. The current regulations in 33 CFR 117.319 require the swingbridge to open if 3 hours advance notice is given to the St. Johns River Water Management District. The Water Management District has not received any requests for an opening since 1998. The Water Management District requested the Coast Guard change the current regulation to allow the bridge to remain closed. The Water Management District is currently negotiating a contract to repair the swingbridge. If the swingbridge is allowed to remain closed, moveable parts may not need to be repaired and the repair costs will decrease. There are obstructions in the waterway and the waterway is not being maintained for navigation.

Discussion of Proposed Rule

The Coast Guard proposes to create a permanent rule allowing the Muclan Farms swingbridge to permanently remain closed. The reference to the Muclan Farms swingbridge in the current regulation at 33 CFR 117.319(a) would be deleted. A new subparagraph at 33 CFR 117.39(c) would be created for the Muclan Farms swingbridge regulation. We will reconsider this proposed rule if navigation on the River resumes.

Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Transportation (DOT)(44 FR 11040, February 26, 1979). We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary because there have been no bridge openings since 1998.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities because there have been no bridge openings since 1998. If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment to the Docket Management Facility at the address under **ADDRESSES.** In your comment, explain why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions, please consult the person listed under: **FOR FURTHER INFORMATION CONTACT.**

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires federal agencies to assess the effects of their regulatory actions not specifically required by law. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Environment

We have considered the environmental impact of this proposed rule and concluded that, under figure 2–1, paragraph (32)(e), of Commandant Instruction M16475.lD, this rule is categorically excluded from further environmental documentation. A "Categorical Exclusion Determination" is available in the docket where indicated under **ADDRESSES.**

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a statement of Energy Effects under Executive Order 13211.

List of Subjects in 33 CFR Part 117

Bridges

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05–1(g); Section 117.255 also issued under authority of Pub. L. 102–587, 106 Stat. 5039.

2. In § 117.319, revise paragraph (a) and add paragraph (c) to read as follows:

§ 117.319 Oklawaha River.

(a) The draw of the Sharpes Ferry (SR 40) bridge, mile 55.1, shall open on signal if at least three hours notice is given.

(b) * * *

(c) The draw of the Muclan Farms bridge, mile 63.9, need not open for the passage of vessels.

Dated: March 11, 2002.

John E. Crowley, Jr.,

Captain, Coast Guard, Acting Commander Seventh Coast Guard District.

RIN 2115–AG18

Federal Requirements For Propeller Injury Avoidance Measures

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking; reopening of comment period.

SUMMARY: The Coast Guard is reopening the period for public comment concerning federal requirements for propeller injury avoidance measures. The president of the National Association of State Boating Law Administrators (NASBLA) asked that we reopen the comment period, which ended March 11, 2002, so its Committee could discuss the proposed rule at its meeting in April 2002 and so NASBLA could submit a comment to the docket. We are reopening the period until May 11, 2002, so that NASBLA and other interested persons can submit comments.

DATES: Comments must reach the docket on or before May 11, 2002.

ADDRESSES: Identify your comments and related material by the docket number for this rulemaking [USCG–2001–10163]. To make sure they do not enter the docket more than once, please submit them by only one of the following means:

(1) By mail to the Docket Management Facility, U. S. Department of Transportation, room PL–401, 400 Seventh Street SW., Washington, DC 20590–0001.

(2) By hand-delivery to room PL–401 on the Plaza level of the Nassif Building, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202–366–9329.

(3) By fax to the Docket Management Facility at 202–493–2251.

(4) Electronically through the Internet Site for the Docket Management System at *http://dms.dot.gov*.

The Docket Management Facility maintains the public docket for this rulemaking. Comments and material received from the public, as well as documents mentioned in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at room PL–401 on the Plaza level of the Nassif Building, at the address listed above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at *http://dms.dot.gov*. You may obtain a copy of this notice by calling the Infoline of the U. S. Coast Guard at 1–800–368–5647, or read it on the Internet, at the Web Site for the Office of Boating Safety, at *http://www.uscgboating.org* or at *http://dms.dot.gov*.

FOR FURTHER INFORMATION CONTACT: For questions on this notice, contact Carlton Perry, Project Manager, Office of Boating Safety, U. S. Coast Guard, by telephone at 202–267–0979 or by e-mail at *cperry@comdt.uscg.mil*. For questions on viewing or submitting material to the docket, call Dorothy Beard, Chief, Dockets, Department of Transportation, telephone 202–366–5149.

SUPPLEMENTARY INFORMATION:

Regulatory History

The Coast Guard published a notice of proposed rulemaking entitled "Federal Requirements For Propeller Injury Avoidance Measures" on December 10, 2001 [66 FR 63645]. That document also contains a detailed history of the Coast Guard's previous regulatory efforts in the area of propeller injury prevention.

Reason for Reopening the Comment Period

In response to the notice of proposed rulemaking, we received more than 70 comments, including a request from the President of NASBLA to extend the comment period beyond April 15, 2002, to enable the Boats & Associated Equipment Committee of NASBLA to review the proposal at its meeting and allow NASBLA to submit a comment to the docket. We are reopening the comment period until May 11, 2002, to let the committee discuss the proposed rulemaking at their meeting and for NASBLA to submit a comment to the docket. During this time, we will also accept comments from any other interested party. The Coast Guard requests that you not re-submit comments already in the docket.

Request for Comments

We encourage you to participate in this rulemaking by submitting your comments to the Docket Management Facility as specified in **ADDRESSES**. We will consider comments received during this reopened comment period and may change the proposed rule in response to the comments.

Dated: March 16, 2002.

Kenneth T. Venuto,

Rear Admiral, Coast Guard, Director of Operations Policy.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

45 CFR Parts 2520, 2521, 2522, 2524, 2525, 2526, 2528, and 2550

RIN 3045–AA32

AmeriCorps Grant Regulations

AGENCY: Corporation for National and Community Service.

ACTION: Proposed rule.

SUMMARY: The Corporation for National and Community Service (hereinafter the "Corporation") proposes to amend several provisions relating to the AmeriCorps national service program, including requirements for AmeriCorps grants and rules on how AmeriCorps members may use the AmeriCorps education award.

DATES: Written comments should be received on or before May 28, 2002.

ADDRESSES: Comments may be mailed or delivered to Gary Kowalczyk, Coordinator of National Service Programs, Corporation for National and Community Service, 1201 New York Avenue NW, Washington, DC 20525, sent by facsimile transmission to (202) 565–2784, or sent electronically to *gkowalcz@cns.gov*. Copies of all communications received will be available for review at the Corporation by members of the public.

FOR FURTHER INFORMATION CONTACT: Gary Kowalczyk, Coordinator of National Service Programs, Corporation for National and Community Service, (202) 606–5000, ext. 340. T.D.D. (202) 565–2799. This proposed rule may be requested in an alternative format for persons with visual impairments.

SUPPLEMENTARY INFORMATION: Pursuant to the National and Community Service Act of 1990, as amended (42 U.S.C. 12501 *et seq.*), the Corporation makes grants to support service performed by AmeriCorps members. In addition, the Corporation, through the National Service Trust, provides education awards and certain interest payments to AmeriCorps participants who successfully complete a term of service in an approved national service position.

The proposed rule reflects our efforts to eliminate requirements that are unnecessary and burdensome as well as to conform our regulations to changes in law. Consistent with Executive Order 13198, entitled "Agency Responsibilities with respect to Religious and Community Initiatives," and issued on January 29, 2001, the Corporation has identified several AmeriCorps regulations that may impede effective religious and other community efforts to solve social problems. To this end, we also sought input from an April 2001 focus group of representatives from sixteen religious and small community-based organizations on how we could remove barriers to their participation. While some of the ideas suggested by the group would require statutory amendments, other ideas concern regulatory items that are not dictated by statute. In addition, we identified several changes to regulations that reflect recent changes in statute or that otherwise will promote the efficiency of national service programs.

The proposed rule:

1. Provides flexibility in the types of AmeriCorps member activities authorized in connection with disaster relief, homeland defense, or other compelling community needs.

2. Explicitly recognizes that religious organizations are eligible to receive AmeriCorps grants.

3. Eliminates the "six month rule" as a requirement for grantees.

4. Expands the types of educational expenses that may be paid with the education award.

5. Modifies the education award refund rules in the event a member does not complete a period of enrollment at an institution of higher education.

6. Provides that an AmeriCorps member's declaration under penalty of law may constitute sufficient documentation of that individual's attainment of a high school degree for purposes of enrolling as an AmeriCorps member and using the education award.

7. Modifies and strengthens the requirements relating to prohibited activities and clarifies that these requirements apply only to AmeriCorps programs funded under subtitle C of the National and Community Service Act.

8. Eliminates obsolete references to Palau.

9. Amends the regulations in conformance with the National and Community Service Act of 1990, as amended, to recognize that a Territory that establishes a state commission is eligible to apply for administrative grant funds to support the activities of the state commission.

10. Amends the definition of "Institution of Higher Education" to conform with the Higher Education Amendments of 1998.

Flexibility in Types of AmeriCorps Activities

The proposed rule broadens the circumstances under which AmeriCorps members may engage in activities that provide an indirect benefit to their community. The Corporation may approve such activities with respect to disaster relief, homeland defense, and other compelling community needs.

Eligibility of Religious Organizations for AmeriCorps Grants

The proposed rule inserts references to religious organizations in several lists of types of organizations eligible to apply for AmeriCorps grants. This affirms that religious organizations are eligible on the same basis as any other private nonprofit organization to apply for AmeriCorps grants and operate AmeriCorps programs.

Elimination of "Six Month Rule"

The proposed rule eliminates a requirement under which grantees could not select any prospective AmeriCorps member who is or was previously employed by a prospective project sponsor within six months of the member's enrollment in the program. Our experience has shown this requirement to be burdensome for grantees. We believe that there are more effective and efficient ways to ensure that grantees are complying with rules against displacement, without imposing a blanket "six month rule." By continuing to require grantees to show how a proposed project will address unmet needs and by enforcing existing rules against displacement, the Corporation can ensure that any former employees enrolled as AmeriCorps member will perform service that goes well beyond—in both degree and kind—their former job duties.

Use of Education Award for Educational Courses Offered by Title IV Institutions of Higher Education

AmeriCorps members may use their education award to pay "current educational expenses" at institutions of higher education that have entered into program participation agreements with the U.S. Department of Education under Title IV of the Higher Education Act (HEA). In 1999, by regulation, we limited such expenses to those recognized in the "cost of attendance" definition under Title IV. As a result, AmeriCorps members pursuing educational interests outside a Title IV eligible program were precluded from using their education award for their educational expenses.

We revisited this rule based on input from AmeriCorps members who want to use the education award to pay for continuing education and other non-Title IV eligible courses at Title IV institutions of higher education. We have concluded that section 148 of the National and Community Service Act (42 U.S.C. 12604), while tying the payment of current educational expenses to Title IV institutions of higher education, can be read to allow payment of educational expenses outside the definition of "cost of attendance." Such a reading will also advance the national service legislation's purpose of including all Americans, since older participants or participants with disabilities might be more likely to pursue educational opportunities outside degree-granting courses of study. This proposed rule allows the education award to be used to pay (1) the cost of attendance as currently permitted for individuals in Title IV eligible programs; and (2) other educational expenses attributable to courses offered by Title IV institutions of higher education. There is no change to the requirement, based in statute, that expenses be "current," that is, incurred after an individual enrolls in an AmeriCorps position.

Refunds to the National Service Trust

The current rule derives from the requirement in the NCSA that the Corporation provide, by regulation, for the refund to the Corporation of education awards disbursed to institutions of higher education, in the event that the student eligible for the education award withdraws or otherwise fails to complete the period of enrollment. The NCSA required the Corporation's refund regulations to be consistent with the fair and equitable refund policies required under section 484B of the HEA. That section of the HEA was amended in 1998 and now only applies to refunds of title IV funds. Consequently, the Corporation is amending its regulations to provide that refunds of the education award to the Corporation will be made consistent with each institution of higher education's published refund policy, or in the absence of such a published policy, on a pro-rata basis.

Declaration Sufficient Documentation of Member's Attainment of High School Diploma

To enroll in AmeriCorps, an individual must have obtained a high school diploma (or its equivalent) or agree to do so prior to using the

VOL
67
ISS
58
MR
26
2002
UMI

education award. Additionally, to use an education award, an individual must have obtained a high school diploma (or its equivalent). Because the education award is principally designed for use in connection with attending an institution of higher education, and high school attainment is normally a prerequisite for such attendance, the proposed rule provides that an individual's written declaration under penalty of law is sufficient to establish this element of eligibility without additional documentation.

Clarification of Statutory List of Prohibited Activities

We first issued regulations in Part 2520 regarding prohibited activities in 1994 when virtually all AmeriCorps grants activities were conducted under subtitle C of the National and Community Service Act. Since 1994, we initiated several AmeriCorps programs, including the AmeriCorps Education Awards program and the AmeriCorps Promise Fellows program, under demonstration authority in subtitle H of the National and Community Service Act. We also added in sub-regulatory provisions several items to the statutory list of prohibited activities. The proposed rule strengthens the list of prohibited activities by including these additions, and clarifies that requirements relating to prohibited activities in subtitle C of the Act apply only to grant programs funded under subtitle C. Demonstration AmeriCorps grants programs continue to be governed by the general administrative provisions, including restrictions on activities, in Part 2540.

Elimination of Obsolete References to Palau

The proposed rule eliminates references to Palau, which became independent on October 1, 1994 and is no longer eligible as a U.S. Territory for AmeriCorps grants.

Eligibility of Territories for Administrative Funds

Under the National and Community Service Act of 1990, as amended, (NCSA), states, including territories, are eligible to apply for grants to establish and operate a state commission or alternative administrative entity. 42 U.S.C. 12576. Currently, however, 45 CFR § 2550 does not recognize that territories are eligible to apply for grants to support a state commission or alternative administrative entity. We are amending the regulations to include territories as entities eligible to apply for grants under this section, in order to comply with the NCSA.

Definition of Institution of Higher Education

The Higher Education Amendments of 1998 (Pub. L. 105–244) amended the National and Community Service Act of 1990, as amended by changing the reference to the definition of "Institution of Higher Education" from section 1201(a) of the Higher Education Act, to section 101 of the Higher Education Act. We have amended the regulations to conform with this statutory amendment.

Executive Order 12866

The Corporation has determined that this regulatory action is not a "significant" rule within the meaning of Executive Order 12866 because it is not likely to result in: (1) An annual effect on the economy of $100 million or more, or an adverse and material effect on a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal government or communities; (2) the creation of a serious inconsistency or interference with an action taken or planned by another agency; (3) a material alteration in the budgetary impacts of entitlement, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) the raising of novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in Executive Order 12866.

Regulatory Flexibility Act

The Corporation has determined that this regulatory action will not result in (1) an annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic and export markets. Therefore, the Corporation has not performed the initial regulatory flexibility analysis that is required under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) for major rules that are expected to have such results.

Other Impact Analyses

Because the proposed changes do not authorize any information collection activity outside the scope of existing regulations, this regulatory action is not subject to review and approval under the Paperwork Reduction Act of 1995 (44 U.S.C. 3500 *et seq.*). If the Corporation proposes to modify any of the forms used in connection with determining eligibility of individuals for payments from the National Service Trust, the Corporation will comply with clearance procedures as provided under the Paperwork Reduction Act.

For purposes of Title II of the Unfunded Mandates Reform Act of 1995, 2 U.S.C. 1531–1538, as well as Executive Order 12875, this regulatory action does not contain any federal mandate that may result in increased expenditures in either Federal, State, local, or tribal governments in the aggregate, or impose an annual burden exceeding $100 million on the private sector.

For the reasons stated in the preamble, the Corporation for National and Community Service proposes to amend chapter XXV, title 45 of the Code of Federal Regulations as follows:

PART 2510—OVERALL PURPOSES AND DEFINITIONS

1. The authority citation for part 2510 continues to read as follows:

Authority: 42 U.S.C. 12501 *et seq.*

2. Amend § 2510.20 by revising the definition of "Institution of Higher Education," and by adding the definition "Subtitle C Program" after the definition "Subdivision of a State" to read as follows:

§ 2510.20 Definitions

* * * * *

Institution of higher Education. The term *institution of higher education* has the same meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

* * * * *

Subtitle C Program. The term *subtitle C program* means an AmeriCorps program authorized and funded under subtitle C of the National and Community Service Act of 1990, as amended. (NCSA) (42 U.S.C. 12501 *et seq.*) It does not include demonstration programs, or other AmeriCorps programs, funded under subtitle H of the NCSA.

* * * * *

PART 2520—GENERAL PROVISIONS: AMERICORPS SUBTITLE C PROGRAMS

1. The authority citation for part 2520 continues to read as follows:

Authority: 42 U.S.C. 12501 *et seq.*

2. Revise the heading of part 2520 to read as shown above.

3. Revise § 2520.10 to read as follows:

§ 2520.10 What is the purpose of the AmeriCorps subtitle C program described in parts 2520 through 2524 of this chapter?

The purpose of the AmeriCorps subtitle C program is to provide financial assistance under subtitle C of the National and Community Service Act to support AmeriCorps programs that address educational, public safety, human, or environmental needs through national and community service, and to provide AmeriCorps education awards to participants in such programs.

4. Revise § 2520.20 to read as follows:

§ 2520.20 What types of service activities are allowed for AmeriCorps subtitle C programs supported under parts 2520 through 2524 of this chapter?

(a) Except as provided in paragraph (b) of this section, the service must either provide a direct benefit to the community where it is performed, or involve the supervision of participants or volunteers whose service provides a direct benefit to the community where it is performed. Moreover, the approved AmeriCorps activities must result in a specific identifiable service or improvement that otherwise would not be provided and that does not duplicate the routine functions of workers or displace paid employees. Programs must develop service opportunities that are appropriate to the skill levels of participants and that provide a demonstrable, identifiable benefit that the community values.

(b) In certain circumstances, some activities may not provide a direct benefit to the communities in which the service is performed. Such activities may include, but are not limited to, clerical work and research. However, a participant may engage in such activities only if the performance of the activity is incidental to the program's provision of service that does provide a direct benefit to the community in which the service is performed, or if the Corporation approves such activities in connection with disaster relief, homeland defense, or other compelling community needs.

5. Revise § 2520.30 to read as follows:

§ 2520.30 What activities are prohibited in AmeriCorps subtitle C programs?

While charging time to the AmeriCorps program, accumulating service or training hours, or otherwise performing activities associated with the AmeriCorps program or the Corporation, staff and members may not engage in the following activities—

(a) Attempting to influence legislation;

(b) Organizing or engaging in protests, petitions, boycotts, or strikes;

(c) Assisting, promoting, or deterring union organizing;

(d) Impairing existing contracts for services or collective bargaining agreements;

(e) Engaging in partisan political activities, or other activities designed to influence the outcome of an election to any public office;

(f) Participating in, or endorsing, events or activities that are likely to include advocacy for or against political parties, political platforms, political candidates, proposed legislation, or elected officials;

(g) Engaging in religious instruction, conducting worship services, providing instruction as part of a program that includes mandatory religious instruction or worship, constructing or operating facilities devoted to religious instruction or worship, maintaining facilities primarily or inherently devoted to religious instruction or worship, or engaging in any form of religious proselytization;

(h) Providing a direct benefit to—

(1) A business organized for profit;

(2) A labor union;

(3) A partisan political organization;

(4) A nonprofit organization that fails to comply with the restrictions contained in section 501(c)(3) of the Internal Revenue Code of 1986 except that nothing in this section shall be construed to prevent participants from engaging in advocacy activities undertaken at their own initiative; and

(5) An organization engaged in the religious activities described in paragraph (g) of this section, unless Corporation assistance is not used to support those religious activities; and

(i) Such other activities as the Corporation may prohibit.

PART 2521—ELIGIBLE AMERICORPS SUBTITLE C PROGRAM APPLICANTS AND TYPES OF GRANTS AVAILABLE FOR AWARD

1. The authority citation for part 2521 continues to read as follows:

Authority: 42 U.S.C. 12501 *et seq.*

2. Revise the heading of part 2521 to read as shown above.

3. Amend § 2521.10 by revising the heading and paragraph (a) to read as follows:

§ 2521.10 Who may apply to receive an AmeriCorps subtitle C grant?

(a) States (including Territories), subdivisions of States, Indian tribes, public or private nonprofit organizations (including religious organizations and labor organizations), and institutions of higher education are eligible to apply for AmeriCorps subtitle C grants. However, the fifty States, the District of Columbia and Puerto Rico must first receive Corporation authorization for the use of a State Commission or alternative administrative or transitional entity pursuant to part 2550 of this chapter in order to be eligible.

* * * * *

4. Amend § 2521.20 as follows:

a. By revising the heading, paragraph (a)(2)(ii) and the first sentence of paragraph (b)(2)(ii);

b. Removing paragraph (c); and

c. Redesignating paragraphs (d) and (e) as (c) and (d) respectively.

The revisions read as follows:

§ 2521.20 What types of AmeriCorps subtitle C program grants are available for award?

* * * * *

(a) * * *

(2) * * *

(ii) Subdivisions of States, Indian Tribes, public or private nonprofit organizations (including religious organizations and labor organizations), and institutions of higher education

VOL

may apply either to a State or directly to the Corporation for planning grants.

* * * * *

(b) * * *

(2) * * *

(ii) Subdivisions of States, Indian Tribes, public or private nonprofit organizations (including religious organizations and labor organizations), and institutions of higher education may apply either to a State or directly to the Corporation for operational grants. * * *

* * * * *

5. Amend § 2521.30 by revising the heading, the introductory text, paragraph (b)(1), footnote 1, and the first sentence of paragraph (b)(3) to read as follows:

§ 2521.30 How will AmeriCorps subtitle C program grants be awarded?

In any fiscal year, the Corporation will award AmeriCorps subtitle C program grants as follows:

* * * * *

(b) * * *

(1) One percent of available funds will be distributed to the U.S. Territories [1] that have applications approved by the Corporation according to a population-based formula.[2]

* * * * *

(3) The Corporation will use any funds available under this part remaining after the award of the grants described in paragraphs (a) and (b) (1) and (2) of this section to make direct competitive grants to subdivisions of States, Indian tribes, public or private nonprofit organizations (including religious organizations and labor organizations), institutions of higher education, and Federal agencies. * * *

* * * * *

PART 2522—AMERICORPS PARTICIPANTS, PROGRAMS, AND APPLICANTS

1. The authority citation for part 2522 continues to read as follows:

Authority: 42 U.S.C. 12501 *et seq.*

2. Amend § 2522.100 by revising the heading and the first sentence of the introductory text, and removing the last sentence of paragraph (g)(1) to read as follows:

§ 2522.100 What are the minimum requirements that AmeriCorps subtitle C grantees must meet?

Although a wide range of programs may be eligible to apply for and receive support from the Corporation, all AmeriCorps subtitle C programs must meet certain minimum program requirements. * * *

* * * * *

3. Amend § 2522.200 by redesignating paragraphs (b) through (d) as (c) through (e) respectively, adding a new paragraph (b), and revising the heading of the newly redesignated (e) to read as follows:

§ 2522.200 What are the eligibility requirements for an AmeriCorps participant?

* * * * *

(b) Written declaration regarding high school diploma sufficient for enrollment. For purposes of enrollment, if an individual provides a written declaration under penalty of law that he or she meets the requirements in paragraph (a) of this section relating to high school education, a program need not obtain additional documentation of that fact.

* * * * *

(e) Secondary documentation of citizenship or immigration status. * * *

* * * * *

PART 2524—AMERICORPS TECHNICAL ASSISTANCE AND OTHER SPECIAL GRANTS

1. The authority citation for part 2524 continues to read as follows:

Authority: 42 U.S.C. 12501 *et seq.*

2. Amend § 2524.10 by revising paragraph (a) introductory text to read as follows:

§ 2524.10 For what purposes will technical assistance and training funds be made available?

(a) To the extent appropriate and necessary, the Corporation may make technical assistance available to States, Indian tribes, labor organizations, religious organizations, organizations operated by young adults, organizations serving economically disadvantaged individuals, and other entities eligible to apply for assistance under parts 2521 and 2522 of this chapter that desire—

* * * * *

PART 2525—NATIONAL SERVICE TRUST: PURPOSE AND DEFINITIONS

1. The authority citation for part 2525 continues to read as follows:

Authority: 42 U.S.C. 12601–12604.

2. Amend § 2525.20 by revising the definition "Current educational expenses" and by adding the definitions "Educational Expenses" after the definition of "Education Award" and "Period of Enrollment" after the definition of "Institution of Higher Education" to read as follows:

§ 2525.20 Definitions.

* * * * *

Current educational expenses. The term *current educational expenses* means the cost of attendance, or other costs attributable to an educational course offered by an institution of higher education that has in effect a program participation agreement under Title IV of the Higher Education Act, for a period of enrollment that begins after an individual enrolls in an approved national service position.

* * * * *

Educational expenses at a Title IV institution of higher education. The term *educational expenses* means—

(1) Cost of attendance as determined by the institution, or

(2) Other costs attributable to a non-title IV educational course as follows:

(i) Tuition and fees normally assessed a student for a course or program of study by the institution, including costs for rental or purchase of any books or supplies required of all students in the same course of study;

(ii) For a student engaged in a course of study by correspondence, only tuition and fees and, if required, books, and supplies;

(iii) For a student with a disability, an allowance (as determined by the institution) for those expenses related to the student's disability, including special services, personal assistance, transportation, equipment, and supplies that are reasonably incurred and not provided for by other assisting agencies; and

(iv) For a student engaged in a work experience under a cooperative education program or course, an allowance for reasonable costs associated with such employment (as determined by the institution).

* * * * *

Period of Enrollment. Period of enrollment means the period that the title IV institution has established for which institutional charges are generally assessed (i.e., length of the student's course, program, or academic year.)

* * * * *

PART 2526—ELIGIBILITY FOR AN EDUCATION AWARD

1. The authority citation for part 2526 continues to read as follows:

Authority: 42 U.S.C. 12601–12604.

[1] The United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

[2] The amount allotted as a grant to each such territory or possession is equal to the ratio of each such Territory's population to the population of all such territories multiplied by the amount of the one percent set-aside.

2. Amend § 2526.10 by redesignating paragraphs (c) and (d) as paragraphs (d) and (e) respectively, and adding a new paragraph (c) to read as follows:

§ 2526.10 Who is eligible to receive an education award from the National Service Trust?

* * * * *

(c) *Written declaration regarding high school diploma sufficient for disbursement.* For purposes of disbursing an education award, if an individual provides a written declaration under penalty of law that he or she meets the requirements in paragraph (b) of this section relating to high school education, no additional documentation is needed.

* * * * *

PART 2528—USING AN EDUCATION AWARD

1. The authority citation for part 2528 continues to read as follows:

Authority: 42 U.S.C. 12601–12604.

2. Amend § 2528.10 by revising paragraph (a)(2) to read as follows:

§ 2528.10 For what purposes may an education award be used?

(a) * * *

(2) To pay all or part of the current educational expenses at an institution of higher education in accordance with § 2528.30 through § 2528.50;

* * * * *

3. Amend § 2528.30 by revising the heading, paragraph (a), introductory text, and paragraphs (a)(2)(iii), (iv), and (v) to read as follows:

§ 2528.30 What steps are necessary to use an education award to pay all or part of the current educational expenses at an institution of higher education?

(a) *Required information.* Before disbursing an amount from an education award to pay all or part of the current educational expenses at an institution of higher education, the Corporation must receive—

* * * * *

(2) * * *

(iii) If an individual who has used an education award withdraws or otherwise fails to complete the period of enrollment for which the education award was provided, the institution of higher education will ensure an appropriate refund to the Corporation of the unused portion of the education award under its own published refund policy, or if it does not have one, provide a pro-rata refund to the Corporation of the unused portion of the education award;

(iv) Individuals using education awards to pay for the current educational expenses at that institution do not comprise more than 15 percent of the institution's total student population;

(v) The amount requested will be used to pay all or part of the individual's cost of attendance or other educational expenses attributable to a course offered by the institution;

* * * * *

4. Amend § 2528.50 by revising paragraph (a) to read as follows:

§ 2528.50 What happens if an individual withdraws or fails to complete the period of enrollment in an institution of higher education for which the Corporation has disbursed all or part of that individual's education award?

(a)(1) If an individual for whom the Corporation has disbursed education award funds withdraws or otherwise fails to complete a period of enrollment, an institution of higher education that receives a disbursement of education award funds from the Corporation must provide a refund to the Corporation in an amount determined under that institution's published refund requirements.

(2) If an institution for higher education does not have a published refund policy, the institution must provide a pro-rata refund to the Corporation of the unused portion of the education award.

* * * * *

5. Amend § 2528.60 by revising paragraph (a)(2)(iii) to read as follows:

§ 2528.60 What steps are necessary to use an education award to pay expenses incurred in participating in an approved school-to-work program?

(a) * * *

(2) * * *

(iii) If an individual who has used an education award withdraws or otherwise fails to complete the period of enrollment for which the education award was provided, the school-to-work program will ensure an appropriate refund to the Corporation of the unused portion of the education award under its own published refund policy, or if it does not have one, provide a pro-rata refund to the Corporation of the unused portion of the education award;

* * * * *

6. Amend § 2528.70 by revising paragraph (a) to read as follows:

§ 2528.70 What happens if an individual withdraws or fails to complete the period of enrollment in an approved school-to-work program for which the Corporation has disbursed all or part of that individual's education award?

(a)(1) If an individual for whom the Corporation has disbursed education award funds withdraws or otherwise fails to complete a period of enrollment, an approved school-to-work program that receives a disbursement of education award funds from the Corporation must provide a refund to the Corporation determined under that program's published refund policy.

(2) If a school-to-work program does not have a published refund policy, the program must provide a pro-rata refund to the Corporation of the unused portion of the education award.

* * * * *

PART 2550—REQUIREMENTS AND GENERAL PROVISION FOR STATE COMMISSIONS, ALTERNATIVE ADMINISTRATIVE ENTITIES AND TRANSITIONAL ENTITIES

1. The authority citation for part 2550 continues to read as follows:

Authority: 42 U.S.C. 12501 *et seq.*

2. Amend section 2550.10 by revising the first sentence of paragraph (c) to read as follows:

§ 2550.10 What is the purpose of this part?

* * * * *

(c) The Corporation will distribute grants of between $125,000 and $750,000 to States to cover the Federal share of operating the State Commissions, AAEs, or Transitional Entities. * * *

3. Amend § 2550.20 by revising paragraph (k) to read as follows:

§ 2550.20 Definitions.

* * * * *

(k) State. As used in this part, the term State refers to each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

* * * * *

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 600

[I.D. 030502B]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Atlantic Coastal Fisheries Cooperative Management; Application for Exempted Fishing Permits (EFPs)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of a proposal for EFPs to conduct experimental fishing; request for comments.

SUMMARY: The Administrator, Northeast Region, NMFS (Regional Administrator) has made a preliminary determination that the subject exempted fishing permit (EFP) application contains all the required information and warrants further consideration. The Regional Administrator has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the American lobster (lobster) fishery under the Atlantic Coastal Fisheries Cooperative Management Act (ACFCMA). However, further review and consultation may be necessary before a final determination is made to issue EFPs. Therefore, NMFS announces that the Regional Administrator has made a preliminary decision to issue EFPs that would allow up to 100 current federally permitted lobster and/or Maine lobster/crab license holders to conduct fishing operations otherwise restricted by the regulations governing the lobster fishery. EFPs would allow federally permitted and/or state-only lobster/crab licensed vessels to fish modified lobster traps to target Jonah crabs to collect important fishery and biological data on the sustainability and practicality of a directed Jonah crab fishery in Exclusive Economic Zone (EEZ) Nearshore Management Area 1 (ENMA1).

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before April 10, 2002.

ADDRESSES: Written comments should be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930–2298. Mark the outside of the envelope "Comments on EFP Proposal." Comments may also be sent via facsimile (fax) to (978) 281–9135. Copies of the proposal and the draft Environmental Assessment are available from the Northeast Regional Office at the address stated above.

FOR FURTHER INFORMATION CONTACT: Bonnie Van Pelt, Fishery Policy Analyst, 978–281–9244.

SUPPLEMENTARY INFORMATION: The Maine Division of Marine Resources (MEDMR) submitted an original application on December 6, 2000, for EFPs to conduct an experimental fishery for Jonah crab in Federal waters of the EEZ. Subsequent amendments to this application were dated April 30, 2001; May 29, 2001; July 9, 2001; and February 13, 2002. Revisions to the original application included: (1) Scaling back the fishery from unlimited participation to 100 participants; (2) an Environmental Assessment was prepared to describe the impacts attributable to the experimental fishery beyond those analyzed under the Draft Final Environmental Impact Statement prepared for the lobster fishery regulations under ACFCMA; (3) addition/removal of gear restrictions to comply with Atlantic Large Whale Take Reduction Plan (ALWTRP) requirements; (4) addition of socioeconomic data to the logbook; (5) addition of a one-time demographic and ethnographic profile survey and fixed-cost survey; (6) reduced minimum soak times to 10 days from 2 weeks and then later changed soak time to a maximum of 2 weeks (operational soak times of less than 1 week); (7) added a requirement that participants pass Level 1 training in identification and disentanglement of whales and sea turtles; (8) clarified that both Jonah crab buoys and Jonah crab traps would be clearly marked as "CRAB"; (9) requested that state-only licensed vessels be allowed to participate in the Federal portion of ENMA1; and (10) specified that the 40 percent "exploratory" (i.e., not yet field tested for targeting Jonah crabs) traps would be of a top-entry design instead of the previous proposal to have the design be at the discretion of the participant. In addition, a January 30, 2002, memorandum clarified that the submission dated December 5, 2001, will be considered a Memorandum of Understanding concerning the Reasonable and Prudent Alternatives outlined in the draft Biological Opinion for the Jonah crab experimental fishery.

The Jonah crab, *Cancer borealis*, is currently an unregulated species in the EEZ and little is known about its biology, distribution, and relative abundance. MEDMR believes it is important to obtain a better understanding of the Jonah crab resource and the feasibility of developing a potential sustainable fishery. Due to a recent increase in Jonah crab abundance and market demand, it may be profitable for lobster fishermen to target Jonah crabs with modified lobster traps during times of low lobster landings (generally in the spring).

Under current State of Maine lobster management (Atlantic States Marine Fisheries Commission (ASMFC) Amendment 3), all traps (defined as structures or other devices, other than nets, that are placed, or intended to be placed, on the ocean bottom) that are designed for or are capable of catching lobsters must contain a lobster trap tag unless exempted. With a limit of 800 trap tags (and in some cases fewer), fishermen who are interested in helping explore and develop the Jonah crab fishery in the EEZ cannot do so unless they receive the necessary exemptions from the Federal lobster regulations at 50 CFR 697.19. The EFPs would facilitate the collection of data on modified lobster trap designs (side-entry and top-entry) to establish acceptable bycatch thresholds of lobsters and allow for the development of a species-specific Jonah crab trap, which would be exempted from the lobster regulations. In addition, the issuance of EFPs for the testing of modified lobster traps under commercial conditions could: (1) Contribute to the development of year-round Jonah crab markets; (2) provide additional economic opportunities for lobster and Jonah crab fishermen who are currently being held to a maximum trap limit; and (3) provide important biological and demographic data on the Jonah crab resource, thus contributing to baseline information on the Jonah crab life cycle and population structure. The overall goal of the experiment is to develop a permanent Jonah crab fishery that could someday ease pressure and decrease reliance on the harvesting of lobsters by allowing fishermen to diversify fleet options through their pursuit of new markets.

The experiment would expand on pilot studies in nearshore and offshore waters (within 3 nautical miles from shore) of the Gulf of Maine, which were conducted in spring and summer 2000. These pilot studies tested various gear modifications in areas of both high and low seasonal lobster abundance. The results of this preliminary research suggested that a modified side-entry trap may be the best design for targeting Jonah crabs with negligible lobster bycatch.

The proposed experiment would be conducted in ENMA1, defined at 50 CFR 697.18(a), for 1 year from the date of EFP issuance, and would be carried out according to the specifications detailed below. The experimental area would be concentrated along the Maine coast between the western and eastern boundaries of the ENMA1. The results of the NMFS trawl survey suggest that Jonah crabs are most abundant at depths of 60-200 m, which occur about 3 to 20 nautical miles offshore.

While at least 60 percent of the traps used in the experiment would have the preferred modified side-entry trap design, the remaining 40 percent of experimental traps could incorporate a top-entry design that has proven effective in decreasing lobster bycatch in State crab fisheries. The following side-entry trap dimensions were developed through preliminary research and modeling and are in compliance with current lobster trap requirements: (1) Side-entry hoops not to exceed 2.5 inches (6.35 cm) in height; (2) a minimum of two, 3.25–inch (8.26–cm) circular escape vents in the parlor and kitchen of the trap; and (3) a minimum of one standard 1.94–inch (4.93–cm) x 5.75–inch (14.61–cm) rectangular escape vent in the parlor of the trap. Although preliminary testing of side-entry traps was conducted with escape vents of 3.0 inches (7.62 cm) in diameter, a projected escape pattern model based on Jonah crab carapace length and width revealed that the 3.25–inch (8.26–cm) escape vent would be most efficient at retaining legal crabs and excluding lobsters. The top-entry "exploratory" traps would be required to have a minimum circular entrance-opening diameter of 3.6–inches (9.14–cm), as well as the same circular and rectangular escape vent requirements outlined above for modified side-entry traps.

In response to MEDMR's July 30, 2001, request that NMFS initiate an ESA section 7 consultation on this fishery, a draft Biological Opinion on the Jonah crab fishery concluded that the proposed EFP activities, described in the original application and all subsequent amendments, are likely to jeopardize the continued existence of the endangered western North Atlantic right whale. Therefore, the proposed Reasonable and Prudent Alternative (RPA) is designed to avoid the likelihood that the Jonah crab experimental fishery will jeopardize the continued existence of the western North Atlantic right whale. The proposed measure is intended to remove the potential for entanglement of western North Atlantic right whales in Jonah crab trap gear during the period when the whales are most likely to occur in the experimental fishing area. The proposed RPA would limit Jonah crab experimental fishery participants to no more than their current lobster trap allocation (800 traps or fewer), unless the fisher uses either neutrally buoyant or sinking groundline for any traps in excess of his/her lobster trap allocation, during those times that western North Atlantic right whales are expected to be in the experimental fishing area (June 1 through October 31).

Vertical lines (e.g., buoy lines) and horizontal lines (e.g., lobster pot trawl groundlines) in the water column have been shown to adversely affect Endangered Species Act (ESA)-listed marine mammals and sea turtles, and precautions must be taken to prevent gear entanglements with these species. It is generally believed that floating line poses more of an entanglement risk to sea turtles and whales than sinking or neutrally buoyant line because it is loosely suspended in the water column, making it more likely to be encountered by a whale or sea turtle swimming through the area. Thus, the use of sinking or neutrally buoyant line rather than floating line as a condition of the EFP would reduce the chances of entanglement.

Additional gear restrictions that would meet the requirements of the Atlantic Large Whale Take Reduction Plan (ALWTRP), as well as additional measures to minimize the risk to protected species are as follows: (1) A minimum of 10 traps per vertical line; (2) no interspersed lobster traps per single line of Jonah crab traps; (3) a MEDMR requirement to clearly mark each buoy with the word "CRAB" under the State lobster/crab license number; (4) maximum soak times of 2 weeks (operational soak time will less than 1 week); and (5) a MEDMR requirement to mark each Jonah crab trap with the State lobster/crab license number and the word "CRAB."

The following additional conservation measures would be required of all Jonah crab experimental participants. Unlike lobsters, most crabs reach reproductive size before the size of harvest. Therefore, the MEDMR is recommending that there be a minimum legal carapace width of 5 inches (127 mm), no retention of females, and no retention of regulated species, in particular lobster. MEDMR would require participating fishermen to record catch information including, but not limited to, numbers of trap hauls, type of trap, soak times, and bycatch (specifically, count of undersized and legal-sized lobsters). The MEDMR would designate a minimum of 2 observer days per month to this experimental fishery. Observer data collected would complement the MEDMR-supplied logbooks, and would include detailed fisheries, trap design and fishing methods information on randomly sampled individual trap hauls. For each trap haul sampled, all crabs and lobster bycatch retained would be measured for carapace width (length for lobsters), sex, molt condition, and egg development. All illegal crabs and all bycatch, including all lobsters incidental to the catch of Jonah crabs, would be returned to the sea promptly after data collection. In addition, a one-time MEDMR survey will provide baseline demographic and ethnographic profiles on the Jonah crab fishery, and information on fixed costs (gear modifications, rope, etc.).

While alternative top-entry trap designs have proven to be less capable of catching lobsters, the MEDMR proposed that these "exploratory" traps be monitored directly by periodic onboard observer trips. In addition, the Maine Marine Patrol (MMP) would routinely haul gear to ensure compliance with experimental crab trap specifications and gear restrictions described above. A cooperative agreement that was signed on March 8, 2001, between NMFS and the MMP will allow State enforcement officials to enter Federal waters and act as deputized Federal law enforcement agents in upholding the regulations promulgated under the Magnuson-Stevens Act, ACFCMA, ESA, Marine Mammal Protection Act, National Marine Sanctuaries Act, and the Lacey Act.

UMI

The EFPs would exempt up to 100 vessels from the requirements of the lobster fishery regulations according to the provisions at 50 CFR parts 600.745 and 697.22, as follows: (1) Permit, tagging and trap limit requirements under § 697.4(a) and (d), and § 697.19(a)(2) and (c); (2) temporary possession of lobster less than the minimum carapace size specified at § 697.20(b)(1) and (2) for data collection purposes; (3) trap tag identification requirements at § 697.21(a)(2); and (4) deployment and gear configuration requirements at § 697.21(b)(2).

Based on the results of this EFP, this action may lead to future rulemaking.

Dated: March 19, 2002.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF AGRICULTURE

Agriculture Research Service

Notice of Intent To Seek Approval To Collect Information

AGENCY: Nutrient Data Lab (NDL), Beltsville Human Nutrition Research Center, Agricultural Research Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13) and Office of Management and Budget (OMB) regulations at 5 CFR (60 FR 44978, August 29, 1995), this notice announces the Nutrient Data Laboratory's intent to request approval for a new information collection from consumers of municipal and tap water supplies throughout the U.S. The study will provide data on the fluoride content of the U.S. water supply for development of a comprehensive database of the fluoride concentration of beverages and foods consumed in the U.S., to be released on USDA–NDL's website.

DATES: Comments on this notice must be received by the agency 30 days after date of publication in the **Federal Register** to be assured of consideration.

ADDRESSES: Address all public comments concerning this notice to Dr. Pamela Pehrsson, Nutrient Data Lab, U.S. Department of Agriculture, Room 309A Bldg. 005, 10300 Baltimore Ave., Beltsville, MD 20705, 301–504–0716 (v) or 301–504–0713 (f). Submit electronic comments to *ppehrsson@rbhnrc.usda.gov.*

FOR FURTHER INFORMATION CONTACT: Dr. Pamela Pehrsson, Nutrient Data Lab, U.S. Department of Agriculture, Room 309A Buldg. 005, 10300 Baltimore Ave., Beltsville, MD 20705, 301–504–0716 (v) or 301–504–0713 (f), *ppehrsson@rbhnrc.usda.gov* or Rena Cutrufelli, Nutrient Data Lab, U.S. Department of Agriculture, Room 208A Bldg. 005, 10300 Baltimore Ave., Beltsville, MD 20705, 301–504–0693 (v) or *rcutrufelli@rbhnrc.usda.gov.*

SUPPLEMENTARY INFORMATION: *Title:* Tap Water Sampling for the USDA Fluoride Database.

OMB Number: Not yet assigned.

Expiration Date: N/A.

Type of Request: Approval for collection of water samples and supporting information from U.S. consumers in the who use water from the tap (including a municipal water supply, well water, etc.) for drinking and cooking.

Abstract: NDL will develop a database of the fluoride content of public drinking water supplies and other beverages and foods in the U.S. The proposed work is a collaborative effort between investigators at the Nutrition Coordinating Center (NCC) at the University of Minnesota, and at the Nutrient Data Laboratory at the Agricultural Research Service, US Department of Agriculture (USDA–NDL). This research is designed as a national analytical survey of fluoride in chief contributors to the U.S. diet and based on preliminary work done at USDA–NDL and NCC. This national fluoride database will be released on USDA–NDL's website and will be adapted to support the NCC fluoride assessment methodology. These products will provide an important data resource for nutrition-related research, planning, and policy nationwide. Development of the fluoride database is underway and funded by The National Institute of Dental and Craniofacial Research (NIDCR), NIH.

The fluoride content of the U.S. water supply is important in research of the dental health of children who may be at risk for dental caries (too little fluoride) or overexposure to fluoride, which results in permanent mottling of the teeth. Individuals of all ages are affected by the fluoride content of the water supply because water, in addition to being a highly consumed beverage by itself, is the base of many other high consumption beverages (e.g., carbonated beverages, teas, coffee, and processed fruit drinks). The level of fluoride supplementation and filtration practices for municipal water and for water-based beverages has not always been documented so the analytical results of previous studies may not be meaningful. In addition, previously determined data on the fluoride content of drinking water are local or regional and not the result of a statistically determined, nationally representative approach to sample collection. No seasonal (over time) variability assessment has been documented using national data.

The fluoride of household tap water used for cooking and drinking is the core of this database and detailed documentation about the source and use of the water is critical in the validation the resulting data. The need for this type of information in developing a database usable to the dental research and service communities is pressing.

The sampling approach and frame for this study were developed by statisticians at the National Agricultural Statistics Service, USDA. All county samples were drawn using a minimum replacement probability proportional to size procedure (PMR). The county sizes were taken from 2000 Census county population files given on the Census web site. Each sample contains 72 counties for use in picking up two water samples per county. Within each county, two participants, yielding a total of 144, will be recruited through a phone survey using a randomized listing of all county residents.

Adult individuals, who are considered in a position of responsibility for the household and have agreed to participate will complete a questionnaire which focuses on their source of drinking/cooking water and any treatment of the water. They will fill two 250 ml bottles with tap water from the kitchen faucet.

The bottles and survey will be shipped in a prepaid, prelabeled package (provided to the consumer) to Virginia Polytechnic Institute and State University for analysis. The fluoride survey was modified and abbreviated from a test study of tap water to more effectively phrase the questions and eliminate questions which were not, in retrospect, providing useful information. All responses will be confidential. To ensure confidentiality, fluoride data attached to a consumer code to prevent identification of individuals will be reported only in table format. The data will not be used to assess the quality of a family's socioeconomic status or any other characteristic of that individual's home.

VOL
67
ISS
58
MR
26
2002
UMI

Individual consumers will be informed of these confidentiality assurances in the precollection letters. Participants will be awarded an incentive which will be an emergency or travel pack for their automobile (value estimated around $12) for each collection. The pack will not display a company endorsement, but will display a USDA logo. The choice of a similar product equal to or slightly higher in value will be offered as a choice for the second collection.

Estimate of Burden: For the fluoride survey in this study, burden on the respondents will consist of completing the questionnaire along with collection of water samples in two bottles supplied by NDL. The total time for survey completion and water collection is estimated to take 30 minutes or less.

Respondents: Randomly selected consumers in the U.S. public within statistically defined areas (Census-based).

Estimated Number of Respondents: 144 in total, each participating in the information and water collection twice over a 3–6 month period.

Estimated Total Annual Burden on Respondents: 144 × 30 minutes × 2 collections = 144 hours of time and effort across the U.S. contributed to this collection of tap water.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and the assumptions made; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on the respondents, including the use of appropriate automated, electronic, mechanical, or other technology. Comments should be sent to the address in the preamble. All responses to this notice will be summarized and included in the request for Office of Management and Budget (OMB) approval. All comments will also become a matter of public record.

Dated: January 31, 2002.

Phyllis Johnson,

Director, Beltsville Area Research Center.

[FR Doc. 02–7148 Filed 3–25–02; 8:45 am]

BILLING CODE 3410–03–P

DEPARTMENT OF AGRICULTURE

Forest Service

Forest Counties Payments Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Forest Counties Payments Committee has scheduled a meeting on April 20, 2002, to discuss how it will provide Congress with the information specified in Section 320 of the Fiscal Year 2001 Interior and Related Agencies Appropriations Act. In order to develop its recommendations to Congress, the Committee would like to hear from both elected officials and the general public. The meeting will consist of a public input session from 1 p.m. until 5 p.m.

DATES: The meeting will be held on April 20, 2002.

ADDRESSES: The meeting will be held in the Silver Baron "D" meeting room on the mezzanine level at the Silver Legacy Casino/Resort, 407 North Virginia Street, Reno, Nevada.

Those who cannot be present may submit written responses to the questions listed under **SUPPLEMENTARY INFORMATION** in this notice to Randle G. Phillips, Executive Director, Forest Counties Payments Committee, PO Box 34718, Washington, DC 20043–4713, or electronically to the Committee's website at *http://countypayments.gov/comments.html*. Comments on this notice must be received by April 30, 2002, to be assured of consideration. Comments received after that date will be considered to the extent possible.

FOR FURTHER INFORMATION CONTACT: Randle G. Phillips, Executive Director, Forest Counties Payments Committee, (202) 208–6574 or *rphillips01@fs.fed.us*.

SUPPLEMENTARY INFORMATION: Section 320 of the 2001 Interior and Related Agencies Appropriations Act (Pub. L. 106–291) created the Forest Counties Payments Committee to make recommendations to Congress on a long-term solution for making Federal payments to eligible States and counties in which Federal lands are situated. The Committee will consider the impact on eligible States and counties of revenues from the historic multiple use of Federal lands; evaluate the economic, environmental, and social benefits which accrue to counties containing Federal lands; evaluate the expenditures by counties on activities occuring on Federal lands which are Federal responsibilities; and monitor payments and implementation of The Secure Rural Schools and Community Self-Determination Act of 2000 (Pub. L. 106–393).

At the April 20 meeting in Reno, the Committee asks that respondents provide information that is responsive to the following questions:

1. Do counties receive their fair share of federal revenue-sharing payments made to eligible States?

2. What difficulties exist in complying with, and managing all of the federal revenue-sharing payments programs? Are some more difficult than others?

3. What economic, social, and environmental costs do counties incur as a result of the presence of public lands within their boundaries?

4. What economic, social, and environmental benefits do counties realize as a result of public lands within their boundaries?

5. What are the economic and social effects of changes in revenues generated from public lands over the past 15 years, as a result of changes in management on public lands in your State or county?

6. What actions has your State or county taken to mitigate any impacts associated with declining economic conditions, or revenue-sharing payments?

7. What effects, both positive and negative, have taken place with education and highway programs that are attributable to the management of public lands within your State or county?

8. What relationship, if any, should exist between federal revenue-sharing programs and management activities on public lands?

9. What alternatives exist to provide equitable revenue-sharing to States and counties and promote "sustainable forestry"?

10. What has been your experience regarding implementation of Public Law 106–393, The Secure Rural Schools and Community Self-Determination Act?

11. What changes in law, policies and procedures, and the management of public land have contributed to changes in revenue derived from the multiple-use management of these lands?

12. What changes in law, policies and procedures, and the management of public land are needed in order to restore the revenues derived from the multiple-use management of these lands?

Dated: March 19, 2002.

Scott D. Conroy,

Acting Deputy Chief, Programs and Legislation.

BILLING CODE 3410–11–P

DEPARTMENT OF AGRICULTURE

Forest Service

Lake County Resource Advisory Committee (RAC); Meeting

AGENCY: Forest Service, USDA.

ACTION: Change in meeting date.

SUMMARY: The Lake County Resource Advisory Committee (RAC) will hold a meeting.

DATES: Date of the announcement in the **Federal Register** of Tuesday March 19, 2002 on page 12513 is changed from March 25, 2002 to April 25, 2002. No other changes are made. The meeting will be from 3:00 P.M. to 6:00 PM.

ADDRESSES: The meeting will be held at the Lake County Board of Supervisor's Chambers at 255 North Forbes Street, Lakeport.

FOR FURTHER INFORMATION CONTACT: Debbie McIntosh, Committee Coordinator, USDA, Mendocino National Forest, Upper Lake Ranger District, 10025 Elk Mountain Road, Upper Lake, CA 95485. (707) 275–2361; email *dmcintosh@fs.fed.us*.

SUPPLEMENTARY INFORMATION: Agenda items to be covered include: (1) Review and approval of the minutes of the February meeting; (2) apply Criteria to submitted Proposals; (3) Select Projects that best meet the Evaluation Criteria; (4) Recommend Projects; and (5) Public Comment Period. The meeting is open to the public. Public input opportunity will be provided and individuals will have the opportunity to address the Committee at that time.

Dated: March 19, 2002.

Blaine P. Baker,

Designated Federal Officer.

BILLING CODE 3410–11–M

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Prospective Grant of Exclusive Patent License; Tiger Optics, Inc.

AGENCY: National Institute of Standards and TechnologyCommerce.

ACTION: Notice of prospective grant of exclusive patent license.

SUMMARY: This is a notice in accordance with 35 USC 209(c)(1) and 37 CFR 404.7(a)(1)(i) that the National Institute of Standards and Technology ("NIST"), U.S. Department of Commerce, is contemplating the grant of an exclusive license in the United States of America, its territories, possessions and commonwealths, to NIST's interest in the invention embodied in U.S. Patent No. 5,835,231 (Application No. 08/962,171), titled "Broad Band Intro-Cavity Total Reflection Chemical Sensor," filed October 31, 1997; NIST Docket No. 96–025US, Patent No. 5,986,768 (Application No. 08/962,171), titled, "Intra-Cavity Total Reflection For High Sensitivity Measurement Of Optical Properties," filed October 31, 1997; NIST Docket No. 96–025CIP, and Patent No. 5,943,136 (Application No. 08/962,170), titled, "Intra-Cavity Total Reflection For High Sensitivity Measurement Of Optical Properties," filed October 31, 1997; NIST Docket No. 96–012US, to Tiger Optics, Inc., having a place of business at 250 Titus Avenue, Warrington, PA 18976–2426. The grant of the license would be in the following fields of use: (1) Semiconductor, Compound Semiconductor, and Specialty/Electronic Chemicals Manufacturing; (2) Chemical and Petrochemical Processing and Manufacturing; and (3) Environmental Monitoring and Control (including detection of chemical and biological warfare agents).

FOR FURTHER INFORMATION CONTACT: J. Terry Lynch, National Institute of Standards and Technology, Office of Technology Partnerships, 100 Bureau Drive, Stop 2200, Gaithersburg, MD 20899, Phone 301–975–2691.

SUPPLEMENTARY INFORMATION: The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 USC 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within thirty days from the date of this published Notice, NIST receives written evidence and argument which establish that the grant of the license would not be consistent with the requirements of 35 USC 209 and 37 CFR 404.7. The availability of the inventions for licensing was published in the **Federal Register** as follows:

NIST Docket No. 96–025US, Vol. 63, No. 96 (page 27564, May 19, 1998).

NIST Docket No. 96–025CIP, Vol. 64, No. 101 (page 28453, May 26, 1999).

NIST Docket No. 96–012US, Vol. 64, No. 101 (page 28453, May 26, 1999).

U.S. Patent No. 5,835,231 is owned by the U.S. government, as represented by the Secretary of Commerce. The present invention permits broadband, ultra-sensitive measurement of optical absorption for any state of matter by the cavity ring-down technique using a small, monolithic, total internal reflection ring cavity. It significantly advances the sensitivity, accuracy, and adaptability of optical absorption spectroscopy for decisive qualitative and quantitative chemical analysis, with greatly increased trace analysis capability.

U.S. Patent No. 5,986,768 is owned by the U.S. government, as represented by the Secretary of Commerce. An optical cavity resonator device is provided for conducting sensitive measurement of optical absorption by matter in any state with diffraction-limited spatial resolution through utilization of total internal reflection within a high-Q (high quality, low loss) optical cavity. Intracavity total reflection generates an evanescent wave that decays exponentially in space at a point external to the cavity, thereby providing a localized region where absorbing materials can be sensitively probed through alteration of the Q-factor of the otherwise isolated cavity. When a laser pulse is injected into the cavity and passes through the evanescent state, an amplitude loss resulting from absorption is incurred that reduces the lifetime of the pulse in the cavity. By monitoring the decay of the injected pulse, the absorption coefficient of manner within the evanescent wave region is accurately obtained from the decay time measurement.

U.S. Patent No. 5,943,136 is owned by the U.S. government, as represented by the Secretary of Commerce. The present invention relates to a device which permits the sensitive measurement of the optical absorption of matter in any state with diffraction-limited spatial resolution using total internal reflection within a high-Q (high-quality, low-loss) optical cavity. Its use provides qualitative and quantitative analysis of material composition and rates of chemical reactions. The device is especially well suited for thin film diagnostics.

Dated: March 18, 2002.

Karen H. Brown.

Deputy Director.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Announcement of the Dates and Locations of Public Scoping Meetings for the Proposed Designation of the Northwestern Hawaiian Islands National Marine Sanctuary

AGENCY: National Marine Sanctuary Program (NMSP), National Ocean

VOL
67
ISS
58
MR
26
2002
UMI

Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Scoping meetings.

SUMMARY: On December 4, 2000, Executive Order 13178 established the Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve, pursuant to the National Marine Sanctuaries Amendments Act of 2000. The Reserve extends approximately 1200 nautical miles long and 100 nautical miles wide. Pursuant to this Act and the Executive Order, NOAA issued a notice of intent on January 19, 2001 (66 FR 5509) to designate the Reserve as a national marine sanctuary. A notice announcing the beginning of public scoping pursuant to the National Environmental Policy Act was issued on March 18, 2002 (67 FR 11996). This notice announces the dates and locations of the public scoping meetings.

DATES AND ADDRESSES: The public scoping process started on March 18, 2002, and ends on Friday, May 3, 2002. Written comments may be sent to NWHI Coral Reef Ecosystem Reserve, 6700 Kalaniana'ole Highway, #215, Honolulu, Hawaii 96825; faxed to (808) 397–2662; or emailed to *nwhi@noaa.gov*. Comments will be available for public review at the office address above. Summaries of public comments from initial scoping meetings will be available at *hawaiireef.noaa.gov*. Scoping meetings will be held as follows:

(1) Tuesday, April 9, 6:00 p.m., Waianae District Park, Multipurpose Building, 85–601 Farrington Highway, Waianae, Oahu, Hawaii.

(2) Wednesday, April 10, 6:00 p.m., Heeia Kea State Park Visitors Center Hall, 46–465 Kamehameha Highway, Kaneohe, Oahu, Hawaii.

(3) Thursday, April 11, 6:00 p.m., Maui Arts and Cultural Center, McCoy Studio Theater, One Cameron Way, Kahului, Maui, Hawaii.

(4) Thursday, April 11, 1:00 p.m., Department of Commerce Building, Room 1414, 14th and Constitution Avenue, NW., Washington, DC.

(5) Friday, April 12, 6:00 p.m., Kulana Oiwi Halau, Lot 24, Maunaloa Highway, Kaunakakai, Molokai, Hawaii.

(6) Monday, April 15, 6:00 p.m., Japanese Cultural Center, Manoa Room, 2454 South Beretania Street, Honolulu, Oahu, Hawaii.

(7) Tuesday, April 16, 6:00 p.m., Radisson Kauai Beach Resort, Jasmine Ballroom, 4331 Kauai Beach Drive, Lihue, Kauai, Hawaii.

(8) Wednesday, April 17, 6:00 p.m., University of Hawaii at Hilo, Marine Science Building, 200 West Kawili Street, Hilo, Hawaii.

(9) Thursday, April 18, 6:00 p.m., King Kamehameha's Kona Beach Hotel, Kamakahonu Ballroom, 75–5660 Palani Road, Kailua-Kona, Hawaii.

(10) Friday, April 19, 6:00 p.m., Lanai Public Library, Frazier Avenue, Lanai City, Lanai, Hawaii.

FOR FURTHER INFORMATION CONTACT: Aulani Wilhelm, (808) 397–2657, *nwhi@noaa.gov*.

SUPPLEMENTARY INFORMATION: The National Marine Sanctuaries Act (NMSA), 16 U.S.C. 1341 *et seq.*, authorizes the Secretary of Commerce (Secretary) to designate discrete areas of the marine environment as national marine sanctuaries to protect their special conservation, recreational, ecological, historical, cultural, archaeological, scientific, educational, or esthetic qualities. The NMSA is administered by the National Oceanic and Atmospheric Administration (NOAA) through the National Marine Sanctuary Program (NMSP).

The public scoping process, including the public scoping meetings, is intended to solicit information and comments on the range and significance of issues related to the designation and management of a Northwestern Hawaiian Islands National Marine Sanctuary. The results of this scoping process will assist NOAA in formulating alternatives for a draft management plan and draft environmental impact statement for the proposed designation. NOAA encourages the public and interested parties to submit (via mail, e-mail, or fax) comments throughout the scoping period and to attend public scoping meetings at the locations listed above.

Each public scoping meeting will include a brief overview of the proposed Sanctuary region and its history, and an opportunity for members of the public to provide verbal comments through a round-table format. Each round table will accommodate 10–15 people and will have its own facilitator and note-taker who will work with the participants at that table to obtain their comments and ideas. All comments offered at the round-tables are considered part of the official record; however, participants are strongly encouraged to submit written comments to ensure that the full scope of their thoughts and ideas is considered by NOAA.

Authority: 16 U.S.C. Section 1431 et seq., Pub. L. 106–513.

(Federal Domestic Assistance Catalog Number 11.429 Marine Sanctuary Program)

Dated: March 20, 2002.

Jamison S. Hawkins,

Deputy Assistant Administrator for Ocean Services and Coastal Zone Management.

[FR Doc. 02–7187 Filed 3–25–02; 8:45 am]

BILLING CODE 3510–08–M

DEPARTMENT OF ENERGY

Notice of Renewal of the Secretary of Energy Advisory Board

Pursuant to section 14 (a)(2)(A) of the Federal Advisory Committee Act and in accordance with title 41 of the Code of Federal Regulations, section 102–3.65, and following consultation with the Committee Management Secretariat of the General Services Administration, notice is hereby given that the Secretary of Energy Advisory Board (the Board) has been renewed for an additional two-year period, beginning in March 2002.

The Board will continue to provide independent, balanced, and authoritative advice to the Secretary of Energy on matters concerning the Department's management, basic science, research, development and technology activities; energy and national security responsibilities; environmental cleanup activities; energy-related economic activities; the operations of the Department; and on any other activities and operations of the Department of Energy as the Secretary may direct.

The Board members are selected to assure well-balanced representation and on the basis of their broad competence in areas relating to quality management, basic science, renewable energy, energy policy, environmental science, economics, business expertise and broad public policy interests. Membership of the Board will continue to be determined in accordance with the requirements of the Federal Advisory Committee Act (Pub. L. 92–463) and implementing regulations.

The renewal of the Board has been determined to be in the public interest, important and vital to the conduct of the Department's business in connection with the performance of duties established by statute for the Department of Energy. The Board will operate in accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92–463), the General Services Administration Final Rule on Federal Advisory Committee Management, and other directives and instructions issued in implementation of those acts.

FOR FURTHER INFORMATION CONTACT: Ms. Rachel M. Samuel, U.S. Department of Energy, ME–75, FORS, Washington, DC 20585, Telephone: (202) 586–3279.

Issued in Washington, DC, on March 20, 2002.

James N. Solit,

Advisory Committee Management Officer.

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Savannah River

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Savannah River. The Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register.**

DATES: Monday, April 22, 2002, 6:30 p.m.–9 p.m. Tuesday, April 23, 2002, 8:30 a.m.–4 p.m.

ADDRESSES: DeSoto Hilton, 15 East Liberty Street, Savannah, GA.

FOR FURTHER INFORMATION CONTACT: Gerri Flemming, Science Technology & Management Division, Department of Energy Savannah River Operations Office, P.O. Box A, Aiken, SC, 29802; Phone: (803)725–5374.

SUPPLEMENTARY INFORMATION: *Purpose of the Board:* The purpose of the Board is to make recommendations to DOEand its regulators in the areas of environmental restoration, waste management, and related activities.

Tentative Agenda

Monday, April 22, 2002

6:30 p.m., Public Comment Session
7p.m.—9 p.m., Committee Meetings
9 p.m., Adjourn

Tuesday, April 23, 2002

8:30–9:15 a.m., Approval of Minutes; Agency Updates; Public Comment Session; Facilitator Update
9:15–10:15 a.m., Strategic & Long-Term Issues Committee
10:15–11:15 a.m., Environmental Restoration Committee
11:15–11:45 a.m., Administrative Committee Reports

Bylaws Amendment Proposal

11:45–12 noon, Public Comments
12 noon, Lunch Break
1–1:30 p.m., Executive Committee and SSAB Chairs Trip Report
1:30–3:00 p.m., Waste Management Committee Report
3–3:45 p.m., Nuclear Materials Committee Report
3:45–4:00 p.m., Public Comments
4 p.m., Adjourn

If needed, time will be allotted after public comments for items added to the agenda, and administrative details. A final agenda will be available at the meeting Monday, April 22, 2002.

Public Participation: The meeting is open to the public. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make the oral statements pertaining to agenda items should contact Gerri Flemming's office at the address or telephone listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Each individual wishing to make public comment will be provided equal time to present their comments.

Minutes: The minutes of this meeting will be available for public review and copying at the Freedom of Information Public Reading Room, 1E–190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC, 20585 between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays. Minutes will also be available by writing to Gerri Fleming, Department of Energy Savannah River Operations Office, PO Box A, Aiken, SC, 29802, or by calling her at (803) 725–5374.

Issued at Washington, DC on March 21, 2001.

Rachel M. Samuel,

Deputy Advisory Committee Management Officer.

[Docket Nos. EC02–15–000, EC02–15–001, ER02–177–000, ER02–177–001, ER02–177–002]

Cinergy Services, Inc., Cinergy Corporation, The Cincinnati Gas & Electric Company, Cinergy Power Investments, PSI Energy, Inc.; Notice of Issuance of Order

March 20, 2002.

Cinergy Services, Inc. (Cinergy), on behalf of Cinergy Corporation and its affiliates, Cincinnati Gas & Electric Company, PSI Energy, Inc., and Cinergy Power Investments, Inc. (collectively, "Applicants") made certain filings, in the above-docketed proceedings, with the Commission pursuant to Ohio restructuring legislation implementing customer choice and pursuant to three settlements that provide for the continuation of joint generation and dispatch and joint transmission planning among Cinergy affiliates. Applicants also filed under section 205 of the Federal Power Act various agreements, including a market-based rate tariff, related to their corporate reorganization. Applicants filings also requested certain waivers and authorizations. In particular, Applicants requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liabilities by Applicants.

On March 18, 2002, the Commission issued an Order Authorizing Transfer Of Assets, Granting Market-Based Rates And Accepting Related Agreements For Filing (Order) that granted Applicants request for blanket approval under Part 34, subject to the conditions found in Ordering Paragraphs (J), (K), and (M):

(J) Within 30 days of the date of issuance of this order, any person desiring to be heard or to protest the Commission's blanket approval of issuances of securities or assumptions of liabilities by Applicants should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.211 and 385.214.

(K) Absent a request to be heard within the period set forth in Ordering Paragraph (J) above, Applicants are hereby authorized to issue securities and assume obligations and liabilities as guarantor, indorser, surety or otherwise in respect of any security of another person; provided that such issue or assumption is for some lawful object within the corporate purposes of the Applicants, compatible with the public interest, and reasonably necessary or appropriate for such purposes.

(M) The Commission reserves the right to modify this order to require a further showing that neither public nor private interests will be adversely affected by continued Commission approval of the Applicants' issuances of securities or assumptions of liabilities.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is April 17, 2002.

Copies of the full text of the Order are available from the Commission's Public Reference Branch, 888 First Street, NE, Washington, DC 20426. The Order may

Federal Energy Regulatory Commission

[Docket No. RP02–201–000]

Colorado Interstate Gas Company; Notice of Proposed Changes in FERC Gas Tariff

March 20, 2001.

Take notice that on March 15, 2002, Colorado Interstate Gas Company (CIG) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed in Appendix A of the filing. The tariff sheets will become effective April 15, 2002.

CIG is filing to update its tariff consistent with recent Commission orders in other pipeline company proceedings concerning (1) the adjustment of rate components in discount agreements to achieve an overall agreed upon rate and (2) the specification of minimum pressure requirements. Additionally, CIG proposes to change certain sections to conform to prior revisions, correct tariff references, and delete obsolete language from its pro forma service agreements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. ER02–963–000]

Crete Energy Venture, LLC; Notice of Issuance or Order

March 20, 2002.

Crete Energy Ventures, LLC (CEV) submitted for filing a rate schedule under which CEV will engage in the sales of capacity, energy and certain ancillary services at market-based rates. CEV also requested waiver of various Commission regulations. In particular, CEV requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liability by CEV.

On March 15, 2002, pursuant to delegated authority, the Director, Office of Markets, Tariffs and Rates-Central, granted requests for blanket approval under part 34, subject to the following:

Any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by CEV should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request to be heard in opposition within this period, CEV is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of CEV, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of CEV's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is April 15, 2002.

Copies of the full text of the Order are available from the Commission's Public Reference Branch, 888 First Street, NE, Washington, DC 20426. The Order may also be viewed on the Internet at *http://www.ferc.fed.us/online/rims.htm* (call 202–208–2222 for assistance). Comments, protests, and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at *http://www.ferc.fed.us/efi/doorbell.htm.*

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PR02–12–000]

Dow Pipeline Company; Notice of Petition for Rate Approval

March 20, 2002.

Take notice that on February 28, 2002, Dow Pipeline Company (Dow) filed, pursuant to section 284.123(b)(2) of the Commission's Regulations, a petition for rate approval of a system-wide interruptible transportation rate it proposes to charge for transporting natural gas pursuant to section 311(a)(2) of the Natural Gas Policy Act of 1978 (NGPA). Dow proposes a rate of $0.0349 per Dth, plus 0.7% in-kind fuel reimbursement. Dow requests that rates be effective December 1, 2001.

Pursuant to section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the date of this filing, the rates will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150 day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed with the Secretary of the Commission on or before April 4, 2002. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. This petition for rate approval is on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

[Docket No. RP02–202–000]

Kinder Morgan Interstate Gas Transmission LLC; Notice of Tariff Filing

March 20, 2002.

Take notice that on March 18, 2002 Kinder Morgan Interstate Gas Transmission LLC (KMIGT) tendered for filing as part of its FERC Gas Tariff, the revised tariff sheets listed on Appendix A to the filing, to become effective May 1, 2002.

KMIGT states that it is making this housekeeping filing as an effort to clarify and correct various sections of KMIGT's FERC Gas Tariff.

KMIGT states that a copy of this filing has been served upon all of its customers and affected state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. Federal Energy Regulatory Commission

[Docket Nos. ER02–1000–000]

TECO–PANDA Generating Company, L.P.; Notice of Issuance of Order

March 20, 2002.

TECO–PANDA Generating Company, L.P. (TECO–PANDA) submitted for filing a rate schedule under which TECO–PANDA will engage in the sales of capacity, energy and certain ancillary services at market-based rates. TECO–PANDA also requested waiver of various Commission regulations. In particular, TECO–PANDA requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liability by TECO–PANDA.

On March 15, 2002, pursuant to delegated authority, the Director, Office of Markets, Tariffs and Rates-East, granted requests for blanket approval under part 34, subject to the following:

Any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by TECO–PANDA should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request to be heard in opposition within this period, TECO–PANDA is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of TECO–PANDA, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of TECO–PANDA's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is April 15, 2002.

Copies of the full text of the Order are available from the Commission's Public Reference Branch, 888 First Street, NE, Washington, DC 20426. The Order may also be viewed on the Internet at *http://www.ferc.fed.us/online/rims.htm* (call 202–208–2222 for assistance). BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER01–2413–002, *et al.*]

American Electric Power Service Corporation, *et al.*; Electric Rate and Corporate Regulation Filings

March 20, 2002.

Take notice that the following filings have been made with the Commission. Any comments should be submitted in accordance with Standard Paragraph E at the end of this notice.

1. American Electric Power Service Corporation

[Docket No. ER01–2413–002]

Take notice that on March 14, 2002, the American Electric Power Service Corporation (AEPSC) tendered for filing an Amended Interconnection and Operation Agreement between Indiana Michigan Power Company and Sugar Creek Energy, L.L.C. The agreement is pursuant to the AEP Companies' Open Access Transmission Service Tariff (OATT) that has been designated as the

VOL
67
ISS
58
MR
26
2002
UMI

Operating Companies of the American Electric Power System FERC Electric Tariff Revised Volume No. 6, effective June 15, 2000.

AEP requests an effective date of May 12, 2002.

A copy of the filing was served upon the Indiana Utility Regulatory Commission and Michigan Public Service Commission.

Comment Date: April 4, 2002.

2. International Transmission Company

[Docket No. ER02–974–001]

Take notice that on March 14, 2002, International Transmission Company (International Transmission) tendered for filing an amendment to the filing of several service agreements for the provision of non-discriminatory transmission service executed under the joint access transmission tariff between International Transmission and Michigan Electric Transmission Company. The amendment revises the February 6 Filing to include the required Order No. 614 designations for the Service Agreements.

Comment Date: April 4, 2002.

3. Duke Energy Corporation

[Docket No. ER02–994–001]

Take notice that on March 15, 2002, Duke Energy Corporation submitted an amendment to its filing in the above-captioned docket. The March 15, 2002 amended filing supercedes the original February 8, 2002 filing. All interventions, protests and comments regarding both filings should be filed by the date indicated below.

Comment Date: April 5, 2002.

4. Keyspan-Ravenswood, Inc.

[Docket No. ER02–1085–001]

Take notice that on March 7, 2002, KeySpan-Ravenswood, Inc. (Ravenswood) filed an amendment to its February 25, 2002 informational letter filed with the Commission, pursuant to section 35.15'' of the Commission's rules. The amendment withdraws Ravenswood's notification of cancellation of the Transition Capacity Agreement between Ravenswood and The Consolidated Edison Co of New York, Inc. (Con Edison) accepted in Docket No. ER99–2376–000 and designated by the Commission as Ravenswood's Rate Schedule FERC No. 1 because the contract has not yet terminated. However, Ravenswood's notification of termination contained in the February 25 filing regarding the Transition Energy Agreement between Ravenswood and Con Edison accepted in Docket No. ER99–3183–000 and designated by the Commission as Ravenswood's Rate Schedule FERC No. 2 remains in effect.

Comment Date: April 1, 2002.

5. Illinois Power Company

[Docket No. ER02–1328–000]

Take notice that on March 18, 2002, Illinois Power Company (Illinois Power), 500 South 27th Street, Decatur, Illinois 65251–2200, filed with the Federal Energy Regulatory Commission (Commission) five Emergency Energy Service Agreements entered into with Exelon Generation Company, LLC; Allegheny Energy Supply Company, LLC; Southern Illinois Power Cooperative; Central Illinois Light Company; and Alliant Energy Corporate Services, Inc. pursuant to Illinois Power's Emergency Energy Tariff.

Illinois Power requests an effective date of February 1, 2002, for all five Agreements and accordingly seeks a waiver of the Commission's notice requirement.

Illinois Power states that a copy of this filing has been sent to all five customers.

Comment Date: April 8, 2002.

6. Illinois Power Company

[Docket No. ER02–1329–000]

Take notice that on March 18, 2002, Illinois Power Company (Illinois Power), 500 South 27th Street, Decatur, Illinois 65251–2200, filed with the Federal Energy Regulatory Commission (Commission) a Network Integration Transmission Service Agreement entered into with Tri-County Electric Cooperative, Inc. and a Network Integration Transmission Service Agreement entered into with Clinton County Electric Cooperative, Inc., pursuant to Illinois Power's Open Access Transmission Tariff.

Illinois Power requests an effective date of March 1, 2002, for both Agreement sand accordingly seeks a waiver of the Commission's notice requirement.

Illinois Power states that a copy of this filing has been sent to the customers.

Comment Date: April 8, 2002.

7. Pacific Gas and Electric Company

[Docket No. ER02–1330–000]

Take notice that on March 18, 2002, Pacific Gas and Electric Company (PG&E) tendered for filing several Agreements, including an executed Generator Interconnection Agreement (GIA) to replace the unexecuted placeholder GIA that is part of the Generator Special Facilities Agreement (GSFA), between PG&E and Los Medanos Energy Center LLC (LMEC) providing for Special Facilities and the parallel operation of LMEC's generating facility and the PG&E-owned electric system that is on file with the Federal Energy Regulatory Commission (Commission) as Service Agreement No. 8 to PG&E Electric Tariff, Sixth Revised Volume No. 5.

Copies of this filing have been served upon LMEC, Calpine Corporation, the California Independent System Operator Corporation, and the California Public Utilities Commission.

Comment Date: April 8, 2002.

8. Pacific Gas and Electric Company

[Docket No. ER02–1332–000]

Take notice that on March 18, 2002, Pacific Gas and Electric Company (PG&E) tendered for filing three executed Generator Interconnection Agreements (GIAs) to replace the unexecuted placeholder GIAs that are part of the Generator Special Facilities Agreements (GSFAs) between PG&E and each of the following generators, Fresno Cogeneration Partners, LP (Fresno), NEO Corporation, NEO California Power LLC, Chowchilla (NEO Chowchilla) and NEO Corporation, NEO California Power LLC, Red Bluff (NEO Red Bluff). These Agreements provide for the parallel operation of the generating facilities of Fresno, NEO Chowchilla and NEO Red Bluff and the PG&E-owned electric system and are on file with the Commission as Service Agreement Nos. 11, 13 and 14 to PG&E Electric Tariff, Fourth Revised Volume No. 5. The GIAs provide no rates for services, and there are no associated sales or revenue.

Copies of this filing have been served upon Fresno, NEO Chowchilla, NEO Red Bluff, the California Independent System Operator Corporation and the California Public Utilities Commission.

Comment Date: April 8, 2002.

9. PJM Interconnection, L.L.C.

[Docket No. ER02–1333–000]

Take notice that on March 18, 2002, PJM Interconnection, L.L.C. (PJM) tendered for filing proposed changes to the PJM Open Access Transmission Tariff. PJM states that the proposed changes add new, standardized terms and conditions for interconnection of generation facilities with the PJM Transmission System and related forms of service agreements, and make conforming changes to various provisions of the existing Part IV of the PJM Tariff.

PJM further states that copies of this filing have been served on all parties to Docket No. RT01–2–000, as well as on all PJM Members and the state electric regulatory commissions in the PJM region.

PJM requests an effective date of June 1, 2002 for the proposed tariff changes.

Comment Date: April 8, 2002.

Standard Paragraph:

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EG02–104–000, et al.]

PPL Sundance Energy, LLC, et al.; Electric Rate and Corporate Regulation Filings

March 19, 2002.

Take notice that the following filings have been made with the Commission. Any comments should be submitted in accordance with Standard Paragraph E at the end of this notice.

1. PPL Sundance Energy, LLC

[Docket N. EG02–104–000]

Take notice that on March 15, 2002, PPL Sundance Energy, LLC (Applicant), having its principal place of business at Two North Ninth Street, Allentown, Pennsylvania, filed with the Federal Energy Regulatory Commission (Commission) an application for determination of exempt wholesale generator status pursuant to Part 365 of the Commission's regulations.

The Applicant is a Delaware limited liability company formed for the purpose of operating the 450 MW Sundance generating plant, located in Pinal County, Arizona. The Applicant is an indirect subsidiary of PPL Corporation, a public utility holding company exempt from registration under section 3(a)(1) of the Public Utility Holding Company Act of 1935.

Comment Date: April 9, 2002.

2. PPL University Park, LLC

[Docket No. EG02–105–000]

Take notice that on March 15, 2002, PPL University Park, LLC (Applicant), having its principal place of business at Two North Ninth Street, Allentown, Pennsylvania, filed with the Federal Energy Regulatory Commission ("Commission") an application for determination of exempt wholesale generator status pursuant to Part 365 of the Commission's regulations.

The Applicant is a Delaware limited liability company formed for the purpose of operating the 540 MW University Park generating plant, located in University Park, Illinois. The Applicant is an indirect subsidiary of PPL Corporation, a public utility holding company exempt from registration under Section 3(a)(1) of the Public Utility Holding Company Act of 1935.

Comment Date: April 9, 2002.

3. Wolverine Power Supply Cooperative, Inc.

[Docket No. ER02–1321–000]

Take notice that on March 14, 2002, Wolverine Power Supply Cooperative, Inc., submitted for filing an executed Non-Firm Point-to-Point Transmission Service Agreement between Wolverine Power Supply Cooperative, Inc. and the Tower Kleber Limited Partnership dated January 1, 2002. Wolverine requests that this Agreement be designated as Service Agreement No. 3 under its FERC Electric Tariff, First Revised Volume No. 1.

Wolverine requests an effective date of January 1, 2002, for this Agreement.

Wolverine states that a copy of this filing has been served upon Tower Kleber Limited Partnership and the Michigan Public Service Commission.

Comment Date: April 4, 2002.

4. Wolverine Power Supply Cooperative, Inc.

[Docket No. ER02–1322–000]

Take notice that on March 14, 2002, Wolverine Power Supply Cooperative, Inc., submitted for filing an executed Generator Interconnection and Operation Service Agreement between Wolverine Power Supply Cooperative, Inc. and the Tower Kleber Limited Partnership dated January 1, 2002. Wolverine requests that this agreement be designated as Service Agreement No. 4 under its FERC Electric Tariff, First Revised Volume No. 1.

Wolverine requests an effective date of January 1, 2002, for this Agreement.

Wolverine states that a copy of this filing has been served upon Tower Kleber Limited Partnership and the Michigan Public Service Commission.

Comment Date: April 4, 2002.

5. Allegheny Power Service Corporation, on behalf of Monongahela Power Company, The Potomac Edison Company, and West Penn Power Company (Allegheny Power)

[Docket No. ER02–1323–000]

Take notice that on March 14, 2002, Allegheny Energy Service Corporation on behalf of Monongahela Power Company, The Potomac Edison Company and West Penn Power Company (Allegheny Power), filed First Revised Service Agreement No. 110 and Supplement No. 1 to First Revised Service Agreement No. 110 under Allegheny Power's Open Access Transmission Service Tariff. Service Agreement No. 110 was accepted for filing by the Federal Energy Regulatory Commission on July 24, 1997 in Docket No. ER97–3137–000. First Revised Service Agreement No. 110 and its Supplement No. 1 consist of an unexecuted Network Integration Transmission Service Agreement and Network Operating Agreement with the Borough of Tarentum and replace Service Agreement No. 110.

Allegheny Power requests that First Revised Service Agreement No. 110 and its Supplement No. 1 have an effective date of March 16, 2002.

Copies of the filing have been provided to the Customer and all parties of record.

Comment Date: April 4, 2002.

6. Mt. Carmel Cogen, Inc.

[Docket No. ER02–1324–000]

Take notice that on March 15, 2002, Mt. Carmel Cogen, Inc. (Mt. Carmel), filed with the Federal Energy Regulatory Commission an application for approval of its initial tariff (FERC Electric Tariff Original Volume No. 1), and for blanket approval for market-based rates pursuant to Part 35 of the Commission's regulations.

Mt. Carmel is a corporation formed under the laws of Delaware. Mt. Carmel owns and operates a 45–MW generating

plant located in Mount Carmel, Pennsylvania.

Comment Date: April 5, 2002.

7. PPL Sundance Energy, LLC

[Docket No. ER02–1325–000]

Take notice that on March 15, 2002, PPL Sundance Energy, LLC (PPL Sundance) filed with the Federal Energy Regulatory Commission (Commission) an application for authority to sell electric energy, capacity and certain ancillary services at market-based rates.

Comment Date: April 5, 2002.

8. PJM Interconnection, L.L.C.

[Docket No. ER02–1326–000]

Take notice that on March 15, 2002, PJM Interconnection, L.L.C. (PJM), filed amendments to the PJM Open Access Transmission Tariff and the Amended and Restated PJM Operating Agreement to implement an Economic Load Response Program on a multi-year basis.

Copies of this filing were served upon all PJM members and each state electric utility regulatory commission in the PJM region.

PJM requests an effective date of June 1, 2002 for the amendments.

Comment Date: April 5, 2002.

9. PPL University Park, LLC

[Docket No. ER02–1327–000]

Take notice that on March 15, 2002, PPL University Park, LLC filed with the Federal Energy Regulatory Commission (Commission) an application for authority to sell electric energy, capacity and certain ancillary services at market-based rates.

Comment Date: April 5, 2002.

Standard Paragraph

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at *http://www.ferc.gov* using the "RIMS" link, select "Docket#" and follow the instructions (call 202–208–2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

Linwood A. Watson, Jr.,

Acting Secretary.

[FR Doc. 02–7149 Filed 3–25–02; 8:45 am]

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

March 20, 2002.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. Application Type: Extension of Temporary Amendment of License.

b. Project No.: 2899–105.

c. Date Filed: March 18, 2002.

d. Applicant: Idaho Power Company.

e. Name of Project: Milner Hydroelectric Project.

f. Location: The Milner hydroelectric project is located on the Snake River in Twin Falls and Cassia Counties, Idaho. The project includes 109 acres of land administered by the Bureau of Land Management.

g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Applicant Contact: Mr. Nathan F. Gardiner, Idaho Power Company, 1221 West Idaho Street, P.O. Box 70, Boise, Idaho 83707; (208) 388–2676.

i. FERC Contact: Questions about this notice can be answered by Kenneth Hogan at (202) 208–0434 or e-mail address: *Kenneth.Hogan@ferc.gov*. The Commission cannot accept comments, recommendations, motions to intervene or protests sent by e-mail; these documents must be filed as described below.

j. Deadline for filing comments, terms and conditions, motions to intervene, and protests: 30 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Comments, recommendations, terms and conditions, protests and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at: *www.ferc.gov*.

k. Idaho Power Company (IPC) filed an application for an extension of the temporary amendment authorized by the Commission's order dated May 8, 2001, which temporarily waived the minimum flow requirement set forth in Article 407, and approved the dewatering of the Milner bypass reach between May 8, 2001, and March 31, 2002. Article 407 reads as follows:

The licensee shall discharge from Milner Dam a target flow of 200 cubic feet per second as measured at the Milner gage located in the bypass reach. The licensee shall release water from the Idaho Water Bank and/or make releases from upstream storage controlled by the licensee to provide the necessary flow to achieve the 200-cfs target. The main powerhouse shall not operate during any time the target flow is not met. The target flow may be temporarily reduced if required by operating emergencies beyond the control of the licensee or for short periods upon mutual agreement between the licensee and Idaho Department of Fish and Game.

Idaho Power requests that the May 8, 2001 order, superceding Article 407, be extended to the end of the irrigation season, October, 2002.

l. A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room at 888 First Street NE, Room 2A, Washington, DC 20426, or by calling (202) 208–1371. The application may be viewed on the Web at *http://www.ferc.gov*. Call (202) 208–2222 for assistance. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Any filings must bear in all capital letters the title "COMMENTS," "RECOMMENDATIONS FOR TERMS AND CONDITIONS," "PROTEST," or "MOTION TO INTERVENE," as applicable, and the Project Number of the particular application to which the filing refers. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Linwood A. Watson, Jr.,

Deputy Secretary.

Electricity Market Design and Structure (RTO Cost Benefit Analysis Report); Notice Organizing Staff Technical Conference on RTO Cost Benefit Report

March 20, 2002.

This Notice provides organizational details regarding the March 25, 2002, technical conference relating to the report on "Economic Assessment of RTO Policy" issued February 26, 2002.[1] The conference will begin at 10:00 a.m. at the Federal Energy Regulatory's Commission's offices, 888 First Street, NE, Washington, DC. All interested persons are invited to attend.

The conference will utilize a question and answer format. Members of the Commission staff and ICF Consulting will be available to respond to questions concerning the results and methodology of the RTO Policy report. No presentations will be made either by staff or participants.

The conference will be transcribed, so those not attending can review the proceedings. Those interested in obtaining transcripts of the conference need to contact Ace Federal Reporters, at 202–347–3700. Transcripts will be available on the Commission's web site 10 days after receipt from Ace-Federal Reporters. Anyone interested in purchasing videotapes of the conference should call VISCOM at 703–715–7999.

The Capitol Connection offers all Open and special FERC meetings live over the Internet as well as via telephone and satellite. For a reasonable fee, you can receive these meetings in your office, at home or anywhere in the world. To find out more about The Capitol Connection's live Internet, phone bridge, or satellite coverage, contact David Reininger or Julia Morelli at 703–993–3100 or visit the Web site, *www.capitolconnection.gmu.edu*.

The Capitol Connection also offers FERC Open Meetings through its Washington, DC area television service. In addition, National Narrowcast Network's Hearing-On-The-Line service covers all FERC meetings live by telephone so that interested persons can listen at their desks, from their homes, or from any phone, without special equipment. Billing is based on time on-line. Call 202–966–2211.

For further information about the conference, please contact either:

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. AD02–13–000]

Conference on Energy Infrastructure; Notice of Conference

March 20, 2002.

The Federal Energy Regulatory Commission (FERC) will hold a conference on energy infrastructure issues in the southeastern states on Thursday, May 9, 2002 at the Orlando World Center Marriott Resort and Convention Center, 8701 World Center Drive, Orlando, Florida.

The conference is for the purpose of discussing the adequacy of the electric, gas and other energy infrastructure in the Southeast, and related matters. In addition to specialized panelists, the Governors and state utility commissioners of the southeastern states are being invited to participate. The goal is to identify present infrastructure needs, investment and other barriers to expansion, and environmental and landowner concerns. We look forward to an informative discussion of the issues to clarify how we can facilitate and enhance a comprehensive collaborative approach to energy infrastructure development and reliability for the southeastern states. It is our firm belief that until we have an adequate, well-functioning energy infrastructure, we cannot expect workable, competitive markets.

The one-day meeting will begin at 9:00 a.m. and conclude at 4:30 p.m. All interested parties are invited to attend. Hotel rooms have been blocked at the Marriott under the name of the Federal Energy Regulatory Commission for any attending guests to reserve a one- or two-night stay but will be released by April 17. You can still reserve a room after April 17, but on a room availability and rate basis. The hotel can be reached at 1–800–621–0638.

To attend, please register online on the Commission Web site at *http://www.ferc.gov/calendar/courses-outreach/coursesoutreach.htm*. Scroll down and click on "Southeast Energy Infrastructure Conference". There is no registration fee. We will issue further details on the conference, including the agenda and a list of participants, as plans evolve. For additional information, please contact Carol

ENVIRONMENTAL PROTECTION AGENCY

[FRL–7163–8]

Annual Conference on Analysis of Pollutants in the Environment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Announcement of conference.

SUMMARY: The Office of Science and Technology and Battelle, co-sponsors, will hold the "25th Annual Conference on Analysis of Pollutants in the Environment" to discuss all aspects of environmental measurement. The conference is open to the public.

DATES: The annual conference will be held on May 7–9, 2002. On May 7, 2002, the conference will begin at 8:45 a.m. and adjourn at 5 p.m. A workshop on "Surviving a Laboratory Audit" will be presented from 1:30 p.m. to 5 p.m.

On May 8, 2002, the conference will begin at 8:45 a.m. and adjourn at 4:15 p.m. On May 9, 2002, the conference will begin at 8:30 a.m. and adjourn at 12 p.m.

ADDRESSES: The conference will be held at the Sheraton Norfolk Waterside Hotel, 777 Waterside Drive, Norfolk, Virginia, 23510.

FOR FURTHER INFORMATION CONTACT: Conference and workshop arrangements are being conducted by Battelle. For information on registration, hotel rates, transportation, social events, and reservations call Andrea Grew, Battelle, at (781) 952–5290 or by facsimile at (781) 934–2124.

If you need special accommodations at this meeting, including wheelchair access, you should contact Andrea Grew, Battelle, at least five business days prior to the meeting so that we can make appropriate arrangements. If you have technical questions regarding the conference or workshop programs, please contact Marion Kelly, e-mail: *kelly.marion@epa.gov,* (202) 566–1045 or by facsimile at (202) 566–1053.

SUPPLEMENTARY INFORMATION: The "25th Annual Conference on Analysis of Pollutants in the Environment" is designed to bring together representatives of regulated industries, commercial environmental laboratories, State and Federal regulators, municipal water and wastewater laboratories, and environmental consultants and contractors to discuss all aspects of environmental measurement with a particular focus on environmental water regulations, compliance monitoring, and related issues.

The draft program agenda for the conference follows:

Tuesday, May 7, 2002

Welcome and Status of Office of Water Activities

8:45 a.m. Welcome—Robert G. Beimer, Battelle

9:00 a.m. Opening Remarks—William Telliard, U.S. EPA Office of Science & Technology, Engineering and Analysis Division

9:15 a.m. Office of Water Activities—James Hanlon, Acting Deputy Assistant Administrator, U.S. EPA Office of Water, Field Techniques

9:45 a.m. Comparison of Field Collection Techniques and Filtration Procedures for Determination of Chlorophyll in Ambient Waters—R.E. Stewart, D.H. Smith, and T.Y. Du, Virginia Department of Environmental Quality

10:15 a.m. Break

Bacteriological Tracking

10:30 a.m. Microbial Source Tracking: Principles and Practice—Mansour Samadpour, University of Washington

11:00 a.m. Source Tracking of Bacteria: A Case Study—Ward Staubitz, U.S. Geological Survey Site Investigation

11:30 a.m. The Destruction of the World Trade Center and PCBs, PBDEs, PCDD/Fs, PBDD/Fs, and Chlorinated Biphenylenes in Water, Sediment, and Sewage Sludge—Simon Litten, New York State Department of Environmental Conservation; D. McChesney, U.S. EPA Region II; and Brian Fowler and M.C. Hamilton, Axys Analytical Services

12:00 Noon—Lunch

Workshop

1:30 p.m.—5:00 p.m. Surviving a Laboratory Audit—U.S. EPA Staff: Nancy Wentworth, Office of Research and Development, Quality Assurance Division; Joseph Slayton, U.S. EPA Region III, Environmental Science Center; U.S. EPA Drinking Water Representative; Steve Baker, State of Arizona

5:00 p.m. Adjourn

Wednesday, May 8, 2002

Organics Analysis

8:45 a.m. Determination of the Congener Distribution in Aroclors to the Sub-ppm Level—Coreen Hamilton, Katherine Kaye, and Brian Fowler, Axys Analytical Services

9:15 a.m. Application of Aroclor Toxicity Equivalents to Historic Aroclor Data and to Non-detects—Andy Beliveau, U.S. EPA Region I

9:45 a.m. Navigating EPA's Alternate Test Procedure for Development of an Alternate Chlorophenolics Procedure: Process and Results—Diana Cook, Glenn Wilson, and Michelle Wrabel, National Council for Air and Stream Improvement

10:00 a.m. Break

10:15 a.m. Polybrominated diphenyl ethers: An Emerging Environmental Problem—Mehran Alaee, Canadian Center for Inland Waters

10:45 a.m. Polybrominated diphenyl ethers by Gas Chromatography with an Electron Capture Detector—Robert Rieck, U.S. EPA Region X, Manchester Laboratory

11:15 a.m. Polybrominated diphenyl ethers by HRGC/HRMS—Coreen Hamilton, Brian Fowler, and Louis Haviland, Axys Analytical Services

11:45 a.m. Lunch

Sample Preservation and Holding Times

1:00 p.m. Study Supporting Extension of the Unpreserved Mercury Holding Time to 28 Days—Mark Bruce, Scott Irwin, and Patrick O'Meara, Severn Trent Laboratory, Canton, Ohio

1:30 p.m. Effect of Freezing on Concentrations of Classical Pollutants—Khouane Ditthavong, U.S. EPA Office of Science & Technology, Engineering and Analysis Division

2:00 p.m. Effect of Starting Temperature, Ice Placement, and Other Variables on Length of Time that Samples Remain Below 4 °C in a Picnic Cooler—William Telliard, U.S. EPA Office of Science & Technology, Engineering and Analysis Division

2:30 p.m. Break

Metals Analysis

2:45 p.m. Determination of Arsenic Species in Fish and Their Impact on Fish Advisories— Eric Crecelius, Margaret O'Neill, and Tim Fortman, Battelle Marine Sciences Laboratory

3:15 p.m. Results of the Interlaboratory Validation of EPA Method 245.7: Mercury in Water by Cold-vapor Atomic Fluorescence—Maria Gomez-Taylor, U.S. EPA Office of Science & Technology, Engineering and Analysis Division

Bioassay

3:45 p.m. Comparison of Results of Determination of Dioxin-like Toxicity by Cell-line Bioassays and HRGC/HRMS—Harry McCarty, DynCorp Information & Enterprise Technology, Inc.

4:15 p.m. Adjourn

5:30 p.m. Conference Reception

Thursday, May 9, 2002

Whole Effluent Toxicity

8:30 a.m. Grading on a Curve: How to Use Laboratory Control Charts and Other QA/QC Data to Interpret Toxicity Test Results—Tim Moore, Risk Sciences; and Jim Pletl, Hampton Roads Sanitation District

Microbiological Methods

9:00 a.m. Interlaboratory Validation of EPA Method 1605 for Aeromonas in Water—Misty Pope, Ken Miller, Kevin Connell, Jessica Pulz, Chris Maynard, Ben Meadows, and Kyle May, DynCorp Information & Enterprise Technology, Inc.; and Mary Ann Feige, U.S. EPA Office of Ground Water and Drinking Water Technical Support Center, Cincinnati

9:30 a.m. Are Current Microbiological Method Holding Times Meaningful? An Assessment of the Stability of Multiple Pathogens in Wastewater at Multiple Times and Temperatures—Robin Oshiro, U.S. EPA Office of Science and Technology, Engineering and Analysis Division; and Misty Pope, Kevin Connell, Jessica Pulz, Ken Miller, and Yildiz Chambers, DynCorp Information & Enterprise Technology, Inc.

10:00 a.m. Break

10:15 a.m. Special Session: Demonstration of E. coli and Enterococci Methods Proposed by EPA for Use in Recreational Water Monitoring—Robin Oshiro, U.S. EPA Office of Science and Technology, Engineering and Analysis Division

12:00 Noon—Adjourn

Dated: March 19, 2002.

Geoffrey H. Grubbs,

Director, Office of Science and Technology.

BILLING CODE 6560–50–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed continuing information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the U.S. Fire Administration's National Fire Academy Long-term Course Evaluation Forms.

SUPPLEMENTARY INFORMATION: The data collection from the long-term evaluation forms—one for students and one for the student's supervisor—will obtain course specific feedback regarding the impact of course content on job performance. This data is needed to improve instructional delivery and curriculum design. Demographic data are needed to identify differentials in course impact. The information collection also supports the Government Performance and Results Act.

Collection of Information

Title: National Fire Academy Long-term Evaluation Form for Supervisors, National Fire Academy Long-term Evaluation Form for Students.

Type of Information Collection: Renewal of existing collection in use with OMB approval.

OMB Number: 3067–0260.

Form Numbers: Form F–8872–NETC; F–8873–NETC.

Abstract: The National Fire Academy's long-term evaluation forms—one for students and one for the student's supervisor—will obtain course specific feedback regarding impact of course content on job performance. The information is needed to improve instruction and content. Demographic data are needed to identify differentials in course impact.

Affected Public: Individuals.

Estimated Total Annual Burden Hours: 375.

FEMA Forms	Number of respondents (A)	Frequency of response (B)	Hours per response (C)	Annual burden hours (A × B × C)
Student	750	1	.33	247.50
Superv	750	1	.17	127.50
Total	1,500			375

Estimated Cost: $105,000.

Comments: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.

ADDRESSES: Interested persons should submit written comments to Muriel B. Anderson, Chief, Records Management Section, Program Services and Systems Branch, Facilities and Services Management Division, Administration and Resource Planning Directorate, Federal Emergency Management Agency, 500 C Street, SW, Room 316, Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: Ms. Terry Gladhill, Program Analyst, National Fire Academy, (301) 447–1239 for additional information. You may contact Ms. Anderson for copies of the proposed collection of information at telephone number (202) 646–2625 or facsimile number (202) 646–3347 or e-mail *muriel.Anderson@fema.gov.*

BILLING CODE 6718–01–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on the proposed revised information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the Public Assistance Progress Report and various forms used to administer the Public Assistance Program.

SUPPLEMENTARY INFORMATION: The Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93–288, as amended, authorizes the President to provide assistance to State and local governments to help them to respond to and recover from a disaster. In order to receive Federal assistance (i.e., Federal grants) State and local officials and officials of eligible private nonprofit organizations who have a responsibility for response to a major disaster and for the restoration of facilities in the aftermath of such events must provide information to FEMA. The information is required in accordance with FEMA regulations 44 CFR, § 206.204(f), § 206.203(c), § 206.203(d)(i) and guidance published in FEMA 322, Public Assistance Guide, and FEMA 323, Public Assistance Applicant Handbook.

Collection of Information

Title: Public Assistance Progress Report and Program Forms.

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 3067–0151.

Form Numbers: FEMA Form 90–49, Request for Public Assistance, FEMA Form 90–91, Project Worksheet (PW), FEMA Form 90–91A, Damage Description and Scope of Work Continuation Sheet, FEMA Form 90–91B, Cost Estimate Continuation Sheet, FEMA Form 90–91C, Maps and Sketches Sheet, FEMA Form 90–91D, Photo Sheet, FEMA Form 90–120, Special Considerations Questions, FEMA Form 90–121, PNP Facility Questionnaire, FEMA Form 90–123, Force Account Labor Summary Record, FEMA Form 90–124, Materials Summary Record, FEMA Form 90–125, Rented Equipment Summary Record, FEMA Form 90–126, Contract Work Summary Record, FEMA Form 90–127, Force Account Equipment Summary Record, FEMA Form 90–128, Applicant's Benefits Calculation Worksheet.

Abstract: Progress Report ensures that FEMA and the State have up-to-date information on Public Assistance (PA) program grants. The State submits reports quarterly to the Regional Director for construction projects for which a final payment has not been made. The date of the report will be determined jointly by the State and the Disaster Recovery Manager. The progress report describes the status of project completion dates, and circumstances that could delay a project. The State is expected to impose some reporting requirements for applicants so that they can prepare quarterly reports. Request for Public Assistance—The Request is FEMA's official application form. The Grantee has 30 days from the date of the designation of the area where the damage occurred to submit a completed Request to the Regional Director for each applicant who requests public assistance. Project Worksheet (PW)—The PW identifies the eligible scope of work and includes a quantitative estimate for the eligible work. FEMA or the applicant (sub-grantee), assisted by the State, will prepare a PW for each project. The applicant will have 60 days to identify and report damages to FEMA. Federal funds are obligated to the State based on the approved PW. The State will then approve sub-grantees based on the PW approved for each applicant. PW Damage Description and Scope of Work Continuation Sheet—The *Damage Description and Dimensions* and *Scope of Work* should be listed in the areas provided on the PW. The optional PW—Damage Description and Scope of Work Continuation Sheet provides additional space, if needed, to describe the work necessary to restore the facility to its pre-disaster design. PW Cost Estimate Continuation Sheet—The cost estimate is the estimated cost of repair for the damages described in the *Project Description* of the PW. The optional PW Cost Estimate Continuation Sheet provides additional space, if needed, to estimate the cost to restore the facility to its pre-disaster condition. PW Maps and Sketches Sheet—The optional PW Maps and Sketches Sheet assist applicants in organizing project documentation. The exact location of the facility is described and a sketch of the facility will assist the applicant in describing the damage in terms of facility features or items requiring repair. PW Photo Sheet—The optional PW Photo Sheet assist applicants in organizing project documentation. The Photo Sheet provides field personnel with specific information that enables facility damages to be documented before work is accomplished. Force Account Labor Summary Record—The optional Force Account Labor Summary Record, is used to record applicant personnel cost. Force Account Equipment Summary Record—The optional Force Account Equipment Summary Record, is used to record applicant equipment costs. Materials Summary Record—The optional Materials Summary Record, is used to record the supplies and materials an applicant may take out of stock or purchase. Contract Work Summary Record—The optional Contract Work Summary Record, is used to record the costs of work that an applicant has done by contract. Rented Equipment Summary Record—The optional Rented Equipment Summary Record, is used to record the cost of rented or leased equipment. Special Considerations Questions—The key to expedited review and approval of emergency- or permanent-work projects is early identification of factors that affect compliance with environmental resources, disaster assistance, and historic preservation legislation and Executive Orders on floodplain, wetlands, and environmental justice. The optional Special Considerations Questions, assists applicants in organizing project documentation. It is more important that any considerations simply be noted on the PW thus alerting FEMA early on in the process to any problems or circumstances expected to result in noncompliance with the approved grant. A condition of all FEMA funded projects is that they conform to State and local laws and ordinances. Applicant's Benefits Calculation Worksheet—The optional Applicant's Benefits Calculation Worksheet is used to record the costs of fringe benefits for force account labor. PNP Facility Questionnaire—The optional PNP Facility Questionnaire is used to help determine the eligibility of specific Private Non-Profit facilities.

Affected Public: State, Local or Tribal government, and Not-For-Profit Institutions.

Estimated Total Annual Burden Hours: 94,243.

FEMA forms	Number of respondents (A)	Frequency of response (B)	Hours per response (C)	Annual burden hours (A × B × C)	Hourly cost estimate for personnel/staff	Annual cost
Progress Report	25	4	25	2,500	$40	$100,000
FEMA Form 90–49	114	53	[1]10	1,007	25	25,175

Total	222,488			94,243		2,617,790

[1] Minutes.

Estimated Cost: All projects approved under the State disaster assistance grants will be subject to the cost sharing provisions established in the FEMA State Agreement and the Stafford Act. The cost to respondents for this information collection is estimated to be $2,617,790.

Comments: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.

ADDRESSES: Interested persons should submit written comments to Muriel B. Anderson, Chief, Records Management Section, Program Services and Systems Branch, Facilities Management and Services Division, Administration and Resource Planning Directorate, Federal Emergency Management Agency, 500 C Street, SW., Room 316, Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: James Walke, Branch Chief, Public Assistance Branch, Recovery Division, (202) 646–2751 for additional information. You may contact Ms. Anderson for copies of the proposed collection of information at telephone number (202) 646–2625 or facsimile number (202) 646–3347 or e:mail *muriel.anderson@fema.gov.*

Dated: March 18, 2002.

BILLING CODE 6718–01–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed [new, revised, or continuing—select one] information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the end-of-course evaluation form used for National Fire Academy field (off-campus) and State Weekend Program courses.

SUPPLEMENTARY INFORMATION: The National Fire Academy (NFA) is mandated under the Fire Prevention and Control Act of 1974, Public Law 93–498, to provide training and education to the Nation's fire and emergency response personnel. The programs offered by the Academy serve as models of excellence. To maintain the quality of these programs, it is necessary to evaluate them on an on-going basis. This National Fire Academy Course Evaluation Form is a key component for the measurement of quality assurance for NFA field (off-campus) and State Weekend Program courses. This form is used for courses delivered both on-campus and throughout the Nation.

Collection of Information

Title: National Fire Academy Course Evaluation Form.

Type of Information Collection: Extension of existing approved collection.

OMB Number: 3067–0233.

Form Numbers: FEMA Form 95–45.

Abstract: This National Fire Academy Course Evaluation Form is used in all field two-day (off-campus) and State Weekend Program courses. The form is primarily used to assess the effectiveness of the course materials and instructor delivery. The demographic information is used in developing needs assessments for future course development/revision efforts.

Affected Public: Individuals.

Estimated Total Annual Burden Hours: 6250.

BILLING CODE 6718–01–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed continuing information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the renewal of the Standard Flood Hazard Determination form.

SUPPLEMENTARY INFORMATION: FEMA is seeking to extend the use of the Standard Flood Hazard Determination form, which is required by Title V of the National Flood Insurance Reform Act of 1994. No changes in the information collected will be made. Changes to the form's instructions, to include the purpose of the form, have been made.

Collection of Information

Title: Standard Flood Hazard Determination form.

Type of Information Collection: Extension.

OMB Number: 3067–0264.

Form Numbers: FEMA 81–93 Standard Flood Hazard Determination form.

Abstract: On September 23, 1994, the President signed the Riegle Community Development and Regulatory Improvement Act of 1994. Title V of this Act is the National Flood Insurance Reform Act (NFIRA). Section 528 of the NFIRA requires that FEMA develop a standard hazard determination form for recording the determination of whether a structure is located within an identified Special Flood Hazard Area and whether flood insurance is available. Section 528 of the NFIRA also requires the use of this form by regulated lending institutions, federal agency lenders, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, and the Government National Mortgage Association for any loan made, increased, extended, renewed or purchased by these entities. The form developed to comply with the above requirements is the Standard Flood Hazard Determination form (FEMA form 81–93, dated October 1998). This form will be completed by federally regulated lending institutions when making, increasing, extending, renewing or purchasing each loan for the purpose of documenting the factors considered as to whether flood insurance is required and available. An estimated 20,000,000 such uses are made each year. This number is entirely driven by the volume of mortgage transactions, of which fluctuations in interest rates is a principal factor.

Affected Public: Business or other for-profit, Federal Government.

Estimated Total Annual Burden Hours: Completing the Standard Flood Hazard Determination form is estimated to average approximately 20 minutes per form. An estimated 20,000,000 forms per year, multiplied by 0.33 hours per form, results in an estimated burden of approximately 6,600,000 hours.

Estimated Cost: An estimated 0.33 hour per form multiplied, by 20 million forms per year, multiplied by $29 per hour results in an estimated annualized cost of $191,400,000.

Comments: Written comments are solicited to: (a) Evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.

ADDRESSES: Interested persons should submit written comments to: Muriel B. Anderson, Chief, Records Management Section, Program Services and Systems Branch, Facilities Management and Services Division, Administration and Resource Planning Directorate, Federal Emergency Management Agency, 500 C Street, SW., Room 316, Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: Contact Frederick Sharrocks, Mapping Support Branch Chief, Federal Insurance and Mitigation Administration, 202.646.2796, for additional information. Contact Ms. Anderson at (202) 646–2625 (voice), (202) 646–3347(facsimile), or e-mail address: *muriel.anderson@fema.gov* for copies of the proposed information collection.

Dated: March 19, 2002.

Virginia A. Akers,

Acting Chief, Program Services and Systems Branch, Facilities Management and Services Division, Administration and Resource Planning Directorate.

BILLING CODE 6718–01–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning information required by FEMA to amend or revise National Flood Insurance Program Maps to remove certain property from the 1-percent annual chance floodplain.

ADDRESSES: Interested persons should submit written comments to Muriel B. Anderson, Chief, Records Management Section, Program Services and Systems Branch, Facilities Management and Services Division, Administration and Resource Planning Directorate, Federal Emergency Management Agency, 500 C Street, SW, Room 316, Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: Contact Ms. Cecelia Lynch, FEMA, Federal Insurance and Mitigation Administration at (202) 646–7045 for additional information. You may contact Ms. Anderson for copies of the proposed collection of information at telephone number (202) 646–2625 or facsimile number (202) 646–3347 or e:mail *muriel.Anderson@fema.gov*.

SUPPLEMENTARY INFORMATION: With the passage of the Flood Disaster Protection Act of 1973, an owner of a structure, with a federally backed mortgage, located in the 1-percent annual chance floodplain, was required to purchase federal flood insurance. This was in response to the escalating damage caused by flooding and the unavailability of flood insurance from commercial insurance companies. As part of this effort, FEMA mapped the 1-percent annual chance floodplain in communities. However, due to scale limitations, individual structures that may be above the base flood cannot always be shown as being out of the 1-percent annual chance floodplain. FEMA will issue a Letter of Map Amendment (LOMA) or a Letter of Map Revision—Based on Fill (LOMR–F) to waive the Federal requirement for flood insurance when data is submitted to show that the property or structure is "reasonably safe from flooding" and at or above the elevation of the base flood.

Collection of Information

Title: Right to Submit Technical or Scientific Data to Correct Mapping Deficiencies.

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 3067–0147.

Form Numbers: FEMA Forms 81–87, 81–87A, 81–87B.

Abstract: The certification forms (referred to as MT–1 series forms) are designed to assist requesters in gathering information that FEMA needs to determine whether a certain property is likely to be flooded during the flood event that has a 1-percent annual chance of being equaled or exceeded in any given year (base flood).

FEMA Form 81–87, Property Information, describes the location of the property, what is being requested, and what data are required to support the request.

FEMA Form 81–87A, Elevation Information, indicates what the Base (1-percent annual chance) Flood Elevation (BFE) for the property is, how the BFE was determined, the lowest ground elevation on the property, and/or the elevation of the lowest adjacent grade to any structures on the property. This information is required in order for FEMA to determine if the property that the requester would like removed from the SFHA is at or above the BFE.

FEMA Form 81–87B, Community Acknowledgment, requires that a community official certify that the request complies with minimum floodplain management criteria specified in 44 CFR 60.3, as per NFIP regulations 44 CFR 65.5(a)(4).

Estimated Total Annual Burden Hours:

FEMA forms	No. of respondents (A)	Frequency of response (B)	Hours Per response (C)	Annual burden hours (A x B x C)
81–87	3,300	Annual	1.63	5,379
81–87A	3,300	Annual	0.67	2,211
81–87B	3,300	Annual	0.88	2,904
Total	3,300		3.18	10,494

Estimated Cost. Cost to respondents is estimated to be $346,459 annually, while the cost to the Federal Government is estimated to be $900,000 annually.

Comments

Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

VOL 67 ISS 58 MR 26 2002 UMI

(c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.

Dated: March 20, 2002.

Reginald Trujillo,

Branch Chief, Program Services and Systems Branch, Facilities Management and Services Division, Administration and Resource Planning Directorate.

BILLING CODE 6718–01–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Submission for OMB Review; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency has submitted the following proposed information collection to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3507).

Title: Request for Mitigation Assistance-Cerro Grande Mitigation Proposal.

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 3067–0286.

Abstract: The information collected on the Request for Mitigation Assistance—Cerro Grande Mitigation Proposal, (FFCG–4) will be collected by claimants with the assistance of a FEMA mitigation specialist and will be used by mitigation specialist to determine if mitigation funding will be awarded to claimants. The information collection is addressed in the Cerro Grande Fire Assistance Act Final Rule published in the **Federal Register** on March 21, 2001. This data collection will continue until the closing data of August 28, 2003.

Affected Public: Individual or Households.

Number of Respondents: 800.

Estimated Time per Respondent: 3 hours.

Estimated Total Annual Burden Hours: 2,400.

Frequency of Response: On Occasion.

Comments: Interested persons are invited to submit written comments on the proposed information collection to the Desk Officer for the Federal Emergency Management Agency, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 within 30 days of the date of this notice.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection should be made to Muriel B. Anderson, Chief, Records Management Section, Program Services and Systems Branch, Facilities Management and Services Division, Administration and Resource Planning Directorate, Federal Emergency Management Agency, 500 C Street, SW., Room 316, Washington, DC 20472, telephone number (202) 646–2625 or facsimile number (202) 646–3347, or e-mail *muriel.anderson@fema.gov*.

Dated: March 18, 2002.

Reginald Trujillo,

Branch Chief, Program Services and Systems Branch, Facilities Management and Services Division, Administration and Resource Planning Directorate.

BILLING CODE 6718–01–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

Fee Schedule for National Flood Insurance Program Map and Insurance Products

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This Notice contains the revised fee schedule for processing requests for the National Flood Insurance Program (NFIP) map and insurance products available through the FEMA Map Service Center (MSC). The changes in the fee schedule will allow FEMA to reduce further the expenses to the NFIP by recovering more fully the costs associated with producing, retrieving, and distributing particular NFIP map and insurance products. This year, with the implementation of the MSC's new e-commerce site and conversion of the paper maps and studies to digital files, the MSC is also recommending fee charges for the new online Internet requests and CD products.

DATES: The revised fee schedule is effective for all requests dated, May 1, 2002, or later.

FOR FURTHER INFORMATION CONTACT: Frederick H. Sharrocks, Jr., Chief, Mapping Support Branch, Federal Insurance and Mitigation Administration, 500 C Street SW., Washington, DC 20472; by telephone at (202) 646–2796 or by facsimile at (202) 646–4596 (not toll-free calls), by e-mail at *Frederick.Sharrocks@fema.gov*.

SUPPLEMENTARY INFORMATION: Throughout this Notice, we use "we," "our," and "us" to refer to FEMA.

This Notice contains the revised fee schedule for processing requests for NFIP map and insurance products available through the MSC.

Effective Date

The revised fee schedule is effective for all written requests, on-line Internet requests made through the FEMA Flood Map Store, and all telephone requests received on or after May 1, 2002. The revised fee schedule supersedes the current fee schedule for requests for Map and Insurance products, established May 3, 2000.

Evaluations Performed

To develop the revised fee schedule for requests for particular NFIP map and insurance products, we first evaluated the actual costs incurred at the MSC for producing, retrieving, and distributing those products. We then analyzed historical sales, cost data, and product unit costs for unusual trends or anomalies; analyzed the effect of program changes, new products, technology investments, and other factors on future sales and product costs. The products covered by this Notice are discussed in detail below.

Periodic Evaluation of Fees

As indicated in the Notice published in the **Federal Register** on May 3, 2000, a primary component of the fees is the prevailing private sector rates charged to FEMA for labor and materials. Because these rates and the actual production, retrieval, and distribution costs may vary from year to year, we will evaluate the fees periodically and publish a revised fee schedule, when appropriate, as a notice in the **Federal Register** Fee Schedule for Requests for Map and Insurance Products.

Our MSC distributes a variety of NFIP map and insurance products to a broad range of our customers, including Federal, State, and local government officials; real estate professionals; insurance providers; appraisers; builders; land developers; design engineers; surveyors; lenders; homeowners; and other private citizens. Specifically, our MSC distributes the following products:

- Paper (printed) copies of Flood Hazard Boundary Maps (FHBMs);
- Paper (printed) copies of Flood Insurance Rate Maps (FIRMs);
- Paper (printed) copies of Digital Flood Insurance Rate Maps (DFIRMs);
- Paper (printed) copies of Flood Insurance Study (FIS) reports, including the narrative, tables, Flood Profiles, photographs, and other graphics;
- Paper (printed) copies of Flood Boundary and Floodway Maps (FBFMs), when they are included as an exhibit in the FIS;
- Digital Q3 Flood Data files, which FEMA developed by scanning the published FIRM and vectorizing a thematic overlay of flood risks;
- Digital Q3 Flood Data files for Coastal Barrier Resource Areas (CBRA Q3 Flood Data files);
- Community Status Book, which is a report generated by FEMA's Community Information System database that provides pertinent map status information for all identified communities;
- Flood Map Status Information Service (FMSIS), through which FEMA provides status information for effective NFIP maps;
- Letter of Map Change (LOMC) Subscription Service, through which FEMA makes certain types of LOMCs available biweekly on CD-ROM;
- NFIP Insurance Manual (Full Manual), which provides vital NFIP information for insurance agents nationwide;
- NFIP Insurance Manual (Producer's Edition), which is used for reference and training purposes; and
- Community Map Action List (CMAL), which is a bimonthly list of communities and their NFIP status codes.

Based on our review of actual cost data and future trends, we revised our fee schedule for the products listed above to reflect actual production costs (i.e., printing and operating costs). Specifically, we increased both the processing fee and the shipping costs for paper copies of FHBMs, FIRMs, DFIRMs, FBFMs, and FIS reports, and we increased the shipping cost only for the Q3 Flood Data Files, CBRA Flood Data Files, Community Status Book, FMSIS, LOMC Subscription Service, NFIP Insurance Manuals, and CMAL. Federal, State, and local governments continue to be exempt from paying fees for the map products.

The MSC is now preparing to distribute its products in several new ways. While we will continue to ship paper products, we are ready to begin distributing digital products for download directly from the Internet and on CD. The following is a description of the MSC's new digital products:

- Maps on the Web—raster images of the FIRMs and Floodways in TIFF format.
- FIS on the Web—raster images of FIS in PDF format.
- Flood Map CDs without a Database—includes only the raster images of the maps and can be purchased by panel or in community, county, or state kits.
- F–MIT Light on the Web—a free downloadable flood map image view tool, to be used in conjunction with viewing TIFF images that supports panning, zooming, and creating a "firmette". A firmette is a user-defined "cut-out" section of the map at 100% map scale designed for printing on a standard office printer.
- F–MIT Light on CD—same as F–MIT Light on the Web, designed for use with the Flood Map CD without a Database.
- FEMA's *Guidelines and Specifications for Flood Hazard Mapping Partners on CD:* This document combine previous FEMA publications, guidance documents, and memorandums regarding Flood Hazard Mapping. The Guidelines reflect recent changes to processes and products associated with the implementation of the Map Modernization Program, including the Cooperating Technical Partners initiative, new Project Scoping procedures, and digital Flood Insurance Rate Map (DFIRM) specifications.

For more information on the map and insurance products available from the MSC, we invite interested parties to visit our MSC Web site at *http://www.fema.gov/msc*.

We show the revised fee schedule for the current products and the proposed fee schedule for the new products in the table below:

	Fee	Shipping
Paper Product or Service:		
Paper copies of FHBM, FIRM, DFIRM, or FBFM panels.	$2.00 per panel	$0.37 per panel for first 10 panels plus $0.03 for each additional panel.
Paper copies of FIS (not including FBFM panels that are included as exhibit).	$5.00 per FIS volume	$4.00 for first FIS plus $0.40 for each additional FIS.
Hurry Charge for FHBM, FIRM, DFIRM, FBFM, or FIS.	$33.00 per order	Based on product and units shipped; no additional shipping charge if customer provides own shipping account.
Q3 Flood Data Files	$50.00 per CD–ROM	$3.65 for first 4 CD–ROMs, plus $0.10 for each additional CD–ROM in the same order
CBRA Q3 Flood Data Files	$50.00 per CD–ROM	$3.65 for first 4 CD–ROMs, plus $0.10 for each additional CD–ROM in the same order.
Community Status Book (Individual Orders)	$2.50 per state	$1.00 per state
	$20.50 for entire U.S.	$4.26 for entire U.S.
Community Status Book (Annual Subscription).	$50.00 per state	Not applicable.
	$250.00 for entire U.S..	
FMSIS (Individual Orders)	$13 per state	$3.65 for first 4 CD–ROMs, plus $0.10 for each additional CD–ROM in the same order.
	$38 for entire U.S.	
FMSIS (Annual Subscription)	$148 per state	Not appllicable.
	$419 for entire U.S..	
LOMC Subscription Service (Individual Orders).	$85 per per issue	$3.65 for first 4 CD–ROMs, plus $0.10 for each additional CD–ROM in the same order.
LOMC Subscription Service (Annual Subscription).	$2,000	Not applicable.

	Fee	Shipping
NFIP Insurance Manual: (Full Manual)	$25.00 per copy for complete manual	$4.85 for the initial manual, plus $1.32 for each semi-annual update.
NFIP Insurance Manual (Producer's edition).	$15.00 per copy	$4.85 for the initial manual, plus $1.32 for each semi-annual update.
CMAL	No charge	$1.00 for each list.
Internet Products (Downloaded from the web):		
FIRMs	$1.50 per map panel	None.
FIS	$4.00 per study plus $1.50 per floodway	None.
F–MIT Light (view tool for map images)	Free	N/A.
CD Products:		
Maps on CD without County Database	$1.50 per panel	$3.65 for the first 4 CDs plus $0.10 for each additional CD.
FIS on CD	$4.00 per study plus $1.50 per floodway	$3.65 for the first 4 CDs plus $0.10 for each additional CD.
Priority Handling Charge added to regular charge.	$33.00	N/A.
F–MIT Light on CD (view tool for map images).	Free	$3.65.
FEMA's *Guidelines and Specifications for Flood Hazard Mapping Partners on CD.*	$2.60	$3.65.

Payment Submission Requirements

Fee payments for non-exempt requests must be made to us in advance of services being rendered. These payments shall be made in the form of a check or money order or by credit card payment. Checks and money orders must be made payable, in U.S. funds, to the *National Flood Insurance Program.*

We will deposit all fees collected to the National Flood Insurance Fund, which is the source of funding for providing these services.

Dated: March 20, 2002.

Robert F. Shea,

Acting Administrator, Federal Insurance and Mitigation Administration.

BILLING CODE 6718–04–P

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisition of Shares of Bank or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the office of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than April 9, 2002.

A. Federal Reserve Bank of Chicago (Phillip Jackson, Applications Officer) 230 South LaSalle Street, Chicago, Illinois 60690–1414:

1. Thomas Mark Huston, Columbus Junction, Iowa; to retain voting shares of CJSB Bancorporation, Columbus Junction, Iowa, and thereby indirectly retain voting shares of Columbus Junction State Bank, Columbus Junction, Iowa.

Board of Governors of the Federal Reserve System, March 20, 2002.

Robert deV. Frierson,

Deputy Secretary of the Board.

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than April 19, 2002.

A. Federal Reserve Bank of New York (Betsy Buttrill White, Senior Vice President) 33 Liberty Street, New York, New York 10045–0001:

1. CSB Financial Corporation, Teaneck, New Jersey; to become a bank holding company by acquiring 22.6 percent of the voting shares of Community State Bank, Teaneck, New Jersey.

Board of Governors of the Federal Reserve System, March 20, 2002.

FEDERAL TRADE COMMISSION

Public Workshop: Consumer Information Security

AGENCY: Federal Trade Commission (FTC).

ACTION: Notice Announcing Public Workshop; Requesting Public Comment and Participation; and Correcting Earlier Notice With Respect to Dates of Public Workshop.

SUMMARY: The FTC is planning to host a public workshop to explore issues relating to the security of consumers' computers and the personal information stored in them or in company databases. This notice provides the correct dates for the public workshop.

DATES: The workshop will be held on Monday, May 20, 2002, from 9 a.m. to 5 p.m., and Tuesday, May 21, 2002, from 9 a.m. to 2 p.m., at the Federal Trade Commission, 600 Pennsylvania Avenue, NW, Washington, DC 20580.[1]

Pre-registration: The event is open to the public and there is no fee for attendance. However, attendees are strongly encouraged to pre-register, as seating will be limited. To pre-register, please email your name and affiliation by April 29, 2002, to *securityworkshop@ftc.gov.*

Requests to participate as a panelist: As discussed below, written requests to participate as a panelist in the workshop must be filed on or before April 1, 2002. Persons filing requests to participate as a panelist will be notified on or before April 22, 2002, if they have been selected to participate.

Written comments: Whether or not selected to participate, persons may submit written comments on the Questions to be Addressed at the workshop. Such comments must be filed on or before April 29, 2002. For further instructions on submitting comments and requests to participate, please see the "From and Availability of Comments" and "Requests to Participate as a Panelist in the Workshop" sections below. To read our policy on how we handle the information you may submit, please visit *http://www.ftc.gov/ftc/privacy.htm.*

ADDRESSES: Written comments and requests to participate as a panelist in the workshop should be submitted to: Secretary, Federal Trade Commission, Room 159, 600 Pennsylvania Avenue, NW., Washington, DC 20580. Alternatively, they may be e-mailed to *securityworkshop@ftc.gov.*

FOR FURTHER INFORMATION CONTACT: L. Mark Eichorn, Division of Advertising Practices, 202–326–3053, Ellen Finn, Division of Financial Practices, 202–326–3296, or Laura Berger, Division of Financial Practices, 202–326–2471. The above staff can be reached by mail at: Federal Trade Commission, 600 Pennsylvania Avenue, NW., Washington, DC 20580.

SUPPLEMENTARY INFORMATION:

Background and Workshop Goals

The security of consumers' home computers is an issue of growing importance. The terms "virus," "worm," and "Trojan horse" have gained new meanings as "Melissa,"

[1] An earlier **Federal Register** notice inadvertently provided incorrect dates for the public workshop. *See* 67 FR 10213 (March 6, 2002). This notice provides the correct dates for the public workshop, and is in all other respects substantively identical to the earlier **Federal Register** notice and to the notice and news release posted on the Commission website at http://www.ftc.gov/opa/2002/03/security.htm.

"ILOVEYOU," and "Code Red" infected computers across the globe. News of hackers' "exploits" make front page news. At the same time, more and more consumers access the Internet through "always on" DSL or cable Internet connections, which allow quick access to Internet content but also may be vulnerable to attack even when the consumer is not actively using the Internet. As consumers use their computers as repositories for sensitive information such as passwords, financial records, and health information, the potential destruction or disclosure of that information is cause for concern.

Another aspect of consumer security is whether consumers' personal information held by businesses is secure. When consumers interact with businesses—whether to check a bank account balance, register to receive information, or purchase a product or service—those businesses become custodians of consumers' personal information. An employee processing a consumer's payment or a consumer checking his or her account balance may want access to this information, but at the same time businesses face the challenge of securing it from access by external threats such as hackers or even by unauthorized insiders. Should a hacker gain access to a business' customer credit card database, for example, that intrusion may not only have serious consequences for that particular business and the consumer's financial well-being, but may also affect consumers' confidence and willingness to engage in e-commerce generally.

This workshop provides an opportunity for the Commission to explore information security issues that affect consumers. The questions to be addressed at the workshop would include:

1. The Current State of Information Security

- What are the security risks facing consumers?
- Are consumers aware of the risks?
- What are the costs to consumers of security measures and of security failures?
- Do consumers accurately assess security risks?
- How does consumers' security affect the network as a whole?

2. Security Issues Relating to Consumers' Home Information Systems

- What steps can consumers take to reduce their security risks?
- What information resources or security products are available to help consumers protect themselves?
- If consumers' lack of awareness or technical expertise lead to security vulnerabilities, what steps can be taken to raise awareness or educate consumers?
- What types of awareness and education initiatives are currently being pursued?
- What are the "best practices" being implemented by businesses to assist consumers in safeguarding their home information system?

3. Security Issues for Businesses that Maintain Consumers' Personal Information

- What practical challenges do businesses face in securing their computer systems, and specifically consumers' personal information that is stored on them?
- What are the costs to businesses of security measures and of security failures?
- What measures can businesses, especially smaller businesses, take to secure their computer systems and the consumer information stored on them?
- What information resources are available to help these businesses?
- What are the "best practices" being implemented by businesses to address these issues?

4. Emerging Business Models, Technologies, and Best Practices

- What are the existing business models for security, and are they sustainable over the long term?
- What technologies, business models, or initiative are emerging in the marketplace to address the security of consumers' information?

5. Revising the OECD Security Guidelines

Commissioner Orson Swindle is leading the U.S. delegation to the Organization for Economic Cooperation and Development ("OECD") Experts Group reviewing the OECD Guidelines for the Security of Information Systems. These voluntary guidelines contain principles which provide a framework for participants to think about information and network security practices, policies, and procedures. The guidelines discuss cultivating a "culture of security" and contain nine policy principles for the security of information systems and networks, as well as principles relating to the life cycle of information systems and networks. The guidelines specifically address: raising awareness of security risks; responsibility for the security of information systems; designing security into system architecture; and risk management, assessment, and monitoring. Because the principles provide a helpful framework for thinking about security issues, the Commission plans to present a panel discussion on the Security Guidelines.

Form and Availability of Comments

The FTC requests that interested parties submit written comments on the above questions to facilitate greater understanding of the issues. Of particular interest are any studies, surveys, research, and empirical data. Comments should indicate the number(s) of the specific question(s) being answered, provide responses to questions in numerical order, and use a separate page for each question answered. Comments should be captioned "Consumer Information Security Workshop—Comment, P024512," and must be filed on or before April 29, 2002.

Parties sending written comments should submit an original and two copies of each document. To enable prompt review and public access, paper submissions should include a version on diskette in PDF, ASCII, WordPerfect, or Microsoft Word format. Diskettes should be labeled with the name of the party, and the name and version of the word processing program used to create the document. Alternatively, comments may be mailed to *securityworkshop@ftc.gov*.

Written comments will be available for public inspection in accordance with the Freedom of Information Act, 5 U.S.C. 552, and FTC regulations, 16 CFR part 4.9, Monday through Friday between the hours of 8:30 a.m. and 5:00 p.m. at the Public Reference Room 130, Federal Trade Commission, 600 Pennsylvania Avenue, NW., Washington, DC 20580. This notice and, to the extent technologies possible, all comments will also be posted on the FTC website at *www.ftc.gov/securityworkshop*.

Registration Information

The workshop will be open to the public and there is no fee for attendance. As discussed above, pre-registration is strongly encouraged, as seating will be limited. To pre-register, please email your name and affiliation to *securityworkshop@ftc.gov* by April 29, 2002. A detailed agenda and additional information on the workshop will be posted on the FTC's website at *www.ftc.gov/securityworkshop* before May 20, 2002.

Requests To Participate as a Panelist in the Workshop

Those parties who wish to participate as panelists in the workshop must notify the FTC in writing of their interest in participating on or before April 1, 2002, either by mail to the Secretary of the FTC or by e-mail to *securityworkshop@ftc.gov*. Requests to participate as a panelist should be captioned "Consumer Information Security Workshop—Request to Participate, P024512." Parties are asked to include in their requests a statement setting forth their expertise in or knowledge of the issues on which the workshop will focus and their contact information, including a telephone number, facsimile number, and email address (if available), to enable the FTC to notify them if they are selected. An original and two copies of each document should be submitted. Panelists will be notified on or before April 22, 2002 whether they have been selected.

Using the following criteria, FTC staff will select a limited number of panelists to participate in the workshop. The number of parties selected will not be so large as to inhibit effective discussion among them.

1. The party has expertise in or knowledge of the issues that are focus on the workshop.
2. The party's participation would promote a balance of interests being represented at the workshop.
3. The party has been designated by one or more interested parties (who timely file requests to participate) as a party who shares group interests with the designator(s). In addition, there will be time during the workshop for those not serving as panelists to ask questions.

By direction of the Commission.

Donald S. Clark,

Secretary.

BILLING CODE 6750–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Committee on Vital and Health Statistics: Meeting

Pursuant to the Federal Advisory Committee Act, the Department of Health and Human Services Announces the Following Advisory Committee Meeting

Name: National Committee on Vital and Health Statistics (NCVHS), Subcommittee on Standards and Security.

Time and Date: 9 a.m. to 5 p.m., April 9, 2002;9 a.m. to 3 p.m., April 10, 2002.

Place: Hubert H. Humphrey Building, Room 800, 200 Independence Avenue, SW., Washington, DC.

Status: Open.

Purpose: This meeting will be conducted as a hearing. The Subcommittee will hear testimony and discussion on two topics: One, the potential replacement of the International Classification of Diseases, Ninth Revision, Clinical Modification (ICD–9–CM) Volume 3 (procedures) with the International Classification of Diseases Procedure Coding System (ICD–10–PCS); and two, gaps in the current Health Insurance Portability and Accountability Act of 1996 (HIPAA) medical data code sets.

For More Information Contact: Substantive program information as well as summaries of meetings and a roster of Committee members may be obtained from Karen Trudel, Senior Technical Advisor, Security and Standards Group, Centers for Medicare and Medicaid Services, MS: N2–14–17, 7500 Security Boulevard, Baltimore, MD 21244–1850, telephone: 410–786–9937; or Marjorie S. Greenberg, Executive Secretary, NCVHS, National Center for Health Statistics, Centers for Disease Control and Prevention, Room 1100, Presidential Building, 6525 Belcrest Road, Hyattsville, Maryland 20782, telephone: (301) 458–4245. Information also is available on the NCVHS home page of the HHS Web site:*http://www.ncvhs.hhs.gov/* were an agenda for the meeting will be posted when available.

Dated: March 19, 2002.

James Scanlon,

Director, Division of Data Policy, Office of the Assistant Secretary for Planning and Evaluation.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Health Care Policy and Research Special Emphasis Panel (SEP); Meeting

In accordance with section 10(d) of the Federal Advisory Committee Act (5 U.S.C., Appendix 2), announcement is made of a Health Care Policy and Research Special Emphasis Panel (SEP) meeting.

The Health Care Policy and Research Special Emphasis Panel is a list of experts in fields related to health care research who are invited by the Agency for Healthcare Research and Quality (AHRQ) and agree to be available, to conduct, on an as needed basis, scientific reviews of applications for AHRQ support. Individual members of the Panel do not meet regularly and do not serve for fixed or long terms. Rather, they are asked to serve for particular review meetings which require their type of expertise.

Substantial segments of the upcoming SEP meeting listed below will be closed to the public in accordance with the Federal Advisory Committee Act, section 10(d) of 5 U.S.C., Appendix 2 and 5 U.S.C. 552b(c)(6). Grant applications for Small Research Project Awards are to be reviewed and discussed at this meeting. These discussions are likely to include personal information concerning individuals associated with these applications. This information is exempt from mandatory disclosure under the above-cited statutes.

1. *SEP Meeting on:* Health Services Research Small Research Projects.

Date: March 26, 2002 (Open on March 26, from 2:30 p.m. to 2:40 p.m. and closed for remainder of the teleconference meeting).

Place: Agency for Healthcare Research and Quality, 2101 East Jefferson Street, 5th Floor Conference Room, 5W4, Rockville, MD 20852.

Contact Person: Anyone wishing to obtain a roster of members or minutes of this meeting should contact Mrs. Bonnie Campbell, Committee Management Officer, Office of Research Review, Education and Policy, AHRQ, 2101 East Jefferson Street, Suite 400, Rockville, Maryland 20852, Telephone (301) 594–1846.

Agenda items for this meeting are subject to change as priorities dictate.

Dated: March 19, 2002.

Lisa Simpson,

Deputy Director.

Contract Review Meeting

In accordance with section 10(a) of the Federal Advisory Committee Act as amended (5 U.S.C., Appendix 2), announcement is made of an Agency for Healthcare Research and Quality (AHRQ) Technical Review Committee (TRC) meeting. This TRC's charge is to review contract proposals and provide recommendations to the Director, AHRQ, with respect to the technical merit of proposals submitted in response to a Request for Proposals (RFP) regarding an "Evidence-Based Practice Center (EPC II)". The RFP was published in the Commerce Business Daily on January 31, 2002.

The upcoming TRC meeting will be closed to the public in accordance with the Federal Advisory Committee Act (FACA), section 10(d) of 5 U.S.C.,

[60Day–02–32]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498–1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project: Symptoms Associated with the Convalescent Period of a Dengue Infection—New—National Center for Infectious Diseases (NCID), Centers for Disease Control and Prevention (CDC).

Dengue is a vector-borne febrile disease of the tropics transmitted most often by the mosquito *Aedes aegypti.* Symptoms of the acute disease include fever, headache, rash, retro-orbital pain, myalgias, arthralgias, vomiting, abdominal pain and hemorrhagic manifestations.

Many symptoms are mentioned in the medical literature as associated with the convalescent period (3–8 weeks) after dengue infection, including depression, dementia, loss of sensation, paralysis of lower and upper extremities and larynx, epilepsy, tremors, manic psychosis, amnesia, loss of visual acuity, hair loss, and peeling of skin. No epidemiologic study has been conducted to define the timing, frequency and risk factors for these symptoms. The objective of this study is to examine the incidence and characteristics of mental health disorders and other complications associated with dengue infection and convalescence.

The study will be conducted in Puerto Rico, where dengue is endemic and causes severe sporadic epidemics. Laboratory positive confirmed cases of dengue, laboratory negative suspected dengue cases and neighborhood controls will be prospectively enrolled in the study. Person-to-person interviews with adults (age 18 years or greater) will be conducted and information will be collected regarding symptoms experienced during the convalescent phase of the infection. There are no costs to respondents.

Respondents	Number of respondents	Number of responses/respondent	Average burden/response (in hours)	Total burden (in hours)
Laboratory positive confirmed dengue	200	2	1	400
Dengue negative control	200	2	1	400
Neighborhood control	200	2	1	400
Total				1200

Dated: March 18, 2002.

Nancy Cheal,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

ICD–9–CM Coordination and Maintenance Committee Meeting; National Center for Health Statistics (NCHS), Data Policy and Standards Staff, Announces the Following Meeting

Name: ICD–9–CM Coordination and Maintenance Committee meeting.

Time and Date: 9 a.m.–5 p.m., April 18–19, 2002.

Place: Centers for Medicare and Medicaid Services (CMS) Auditorium, 7500 Security Boulevard, Baltimore, Maryland.

Status: Open to the public.

Purpose: The ICD–9–CM Coordination and Maintenance (C&M) Committee will hold its first meeting of the 2002 calendar year cycle on Thursday and Friday April 18–19, 2002. The C&M meeting is a public forum for the presentation of proposed modifications to the International Classification of Diseases, Ninth-Revision, Clinical Modification.

Matters To Be Discussed: Agenda items include: Asthma, Neurologic topics, Myasthenia gravis in crisis, Sickle Cell disease, delayed separation of umbilical cord, Facial droop, long-term antiplatelet/antithrombotic (aspirin) use, artificial heart status/complications of artificial heart, encounter for insulin pump titration and training, ICD–10 Procedure Classification System (PCS)—Update Classic Infrafascial Semm Hysterectomy (CISH), Laparoscopic Assisted Supracervical Hysterectomy (LASH), intra-arterial blood gas monitoring, multi-level spinal fusion, vascular access device, addenda.

Contact Person for Additional Information: Amy Blum, Medical Classification Specialist, Data Policy and Standards Staff, NCHS, 6526 Belcrest Road, Room 1100, Hyattsville, Maryland 20782, telephone 301/458–4106 (diagnosis), Amy Gruber, Health Insurance Specialist, Division of Acute Care, CMS, 7500 Security Blvd., Room C4–07–07, Baltimore, Maryland, 21244 telephone 410–786–1542 (procedures).

Notice: In the interest of security, (CMS) has instituted stringent procedures for entrance into the building by non-government employees. Persons without a government I.D. will need to show a photo I.D. and sign-in at the security desk upon entering the building.

Notice: This is a public meeting. However, because of fire code requirements, should the number of attendants meet the room capacity, the meeting room will be closed.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both CDC and the Agency for Toxic Substances and Disease Registry.

Dated: March 15, 2002.

Alvin Hall,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

Centers for Disease Control and Prevention

Advisory Committee for Injury Prevention and Control (ACIPC) Family and Intimate Violence Prevention Subcommittee: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following subcommittee meeting.

Name: ACIPC Family and Intimate Violence Prevention Subcommittee.

Time and Date: 8:30 a.m.–12 p.m., April 16, 2002.

Place: The Holiday Inn Select Atlanta-Decatur Hotel and Conference Plaza, 130 Clairmont Avenue, Decatur, Georgia 30030.

Status: Open to the public, limited only by the space available.

Purpose: To advise and make recommendations to ACIPC and the Director, National Center for Injury Prevention and Control (NCIPC), regarding feasible goals for prevention and control of family and intimate violence and sexual assault. The Subcommittee will make recommendations regarding policies, strategies, objectives and priorities.

Matters to be Discussed: The Subcommittee will discuss the (1) FY 2002 Activities of NCIPC and the Division of Violence Prevention (DVP), and (2) Overview of Proposed Changes to the ACIPC.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Ms. Pamela Chin, Deputy Director, Office of the Director, DVP, NCIPC, CDC, 4770 Buford Highway, NE, M/S K60, Atlanta, Georgia 30341–3724, telephone 770/488–1378.

Name: Science and Program Review Subcommittee (SPRS) and the Advisory Committee for Injury Prevention and Control (ACIPC): Meetings.

Time and Date: 8 a.m.–12 p.m., April 16, 2002.

Place: The Holiday Inn Select Atlanta-Decatur Hotel and Conference Plaza, 130 Clairmont Avenue, Decatur, Georgia 30030.

Status: Open to the public, limited only by the space available.

Purpose: The Subcommittee provides advice on the needs, structure, progress and performance of the National Center for Injury Prevention and Control (NCIPC) programs. The Subcommittee provides second-level scientific and programmatic review for applications for research grants, cooperative agreements, and training grants related to injury control and violence prevention, and recommends approval of projects that merit further consideration for funding support. The Subcommittee also advises on priorities for research to be supported by contracts, grants, and cooperative agreements and provides concept review of program proposals and announcements.

Matters to be Discussed: Agenda items include updates from the Subcommittee's Executive Secretary, the role of the Subcommittee, fiscal year 2002 research Request for Applications, dissemination of extramural research findings, and a progress report on completing and implementing the research agenda.

Name: Advisory Committee for Injury Prevention and Control.

Time and Dates: 1:30 p.m.–5:30 p.m., April 16, 2002. 8:30 a.m.–3 p.m., April 17, 2002.

Place: The Holiday Inn Select Atlanta-Decatur Hotel and Conference Plaza, 130 Clairmont Avenue, Decatur, Georgia 30030.

Status: Open to the public, limited only by the space available.

Purpose: The Committee advises and makes recommendations to the Secretary, Health and Human Services, the Director, CDC, and the Director, NCIPC, regarding feasible goals for the prevention and control of injury. The Committee makes recommendations regarding policies, strategies, objectives, and priorities, and reviews progress toward injury prevention and control. The Committee provides advice on the appropriate balance of intramural and extramural research, and also provides guidance on the needs, structure, progress and performance of intramural programs, and on extramural scientific program matters. The Committee provides second-level scientific and programmatic review for applications for research grants, cooperative agreements, and training grants related to injury control and violence prevention, and recommends approval of projects that merit further consideration for funding support. The Committee also recommends areas of research to be supported by contracts and cooperative agreements and provides concept review of program proposals and announcements.

Matters to be Discussed: Agenda items include an update from the Director, NCIPC; a review and determination on committee rules and draft criteria for subcommittees and workgroups; workgroup reports; reports from the Science and Program Review Subcommittee and the Family and Intimate Violence Prevention Subcommittee; a presentation and discussion on state health departments and their role in injury prevention and control; current status of injury prevention and control in states; Association of State and Territorial Health Officials' perspective on the challenges of building capacity for injury control and prevention in state health departments;

UMI

implementing an injury prevention program in the states; training needs and issues to build capacity in state health departments for injury prevention and control; broadening the focus of injury prevention programs in the areas of intentional and unintentional injury; a presentation on how NCIPC is moving forward; discussion and recommendations from the Committee; progress report on the research agenda; update on NCIPC's Tenth Anniversary Events; and recommendations for presentation to the Committee.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Ms. Louise Galaska, Executive Secretary, ACIPC, NCIPC, CDC, 4770 Buford Highway, NE, M/S K02, Atlanta, Georgia 30341–3724, telephone 770/488–4694.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: March 15, 2002.

Alvin Hall,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Statement of Organization, Functions, and Delegations of Authority

Part C (Centers for Disease Control and Prevention) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (45 FR 67772–76, dated October 14, 1980, and corrected at 45 FR 69296, October 20, 1980, as amended most recently at 66 FR 56562–63, dated November 8, 2001) is amended to establish the organizational structure within the National Center on Birth Defects and Developmental Disabilities, Centers for Disease Control and Prevention.

Section C–B, Organization and Functions, is hereby amended as follows:

After the mission statement for the *National Center on Birth Defects and Developmental Disabilities (CF),* insert the following:

Office of the Director (CF1). (1) Directs, manages, and coordinates the activities of the National Center on Birth Defects and Developmental Disabilities (NCBDDD); (2) develops goals and objectives; provides leadership, policy formulation, scientific oversight, and guidance in program planning and development; (3) coordinates NCBDDD program activities with other CDC components, Federal agencies, international organizations, State and local health agencies, business and industry, voluntary organizations, and community-based organizations; (4) coordinates technical assistance to states, other nations and international organizations; (5) coordinates with medical, scientific, and other professional organizations interested in birth defects prevention, pediatric genetics, developmental disabilities prevention, and disabilities and health; (6) advises the Director, CDC, on policy matters concerning NCBDDD activities.

Resource Management Office (CF12). (1) Plans, coordinates, and provides administrative and management advice and guidance for NCBDDD; (2) provides and coordinates Center-wide administrative, management, and support services in the areas of fiscal management, personnel, travel, procurement, facility management, and other administrative services; (3) prepares annual budget plans and budget justifications; (4) coordinates NCBDDD requirements relating to contracts, grants, cooperative agreements, and reimbursable agreements; (5) develops and implements administrative policies, procedures, and operations, as appropriate, for NCBDDD, and prepares special reports and studies, as required, in the administrative management areas; (6) maintains liaison with related staff offices and other officials of CDC.

Division of Birth Defects and Developmental Disabilities (CF2). (1) Conducts research to determine the causes and prevention of birth defects and developmental disabilities; (2) maintains and expands support for state-based surveillance; (3) evaluates the effectiveness of efforts to prevent birth defects and developmental disabilities; (4) conducts and disseminates findings of epidemiologic research, investigations, demonstrations, and programs directed toward the prevention of selected adverse reproductive outcomes that are environmentally related; (5) provides assistance to State and local health departments on community exposures to terotogenic, mutagenic, embryotoxic, other environmental agents, and genetic influences adversely interfering with normal growth and development; (6) conducts research and develops programs to identify women at high risk of an alcohol-exposed pregnancy and to fund epidemiologic and clinical research studies aimed at early identification and intervention of children affected by prenatal alcohol exposure; (7) works closely with international organizations and entities in developing strategies and programs for reducing the number of birth defects and developmental disabilities; (8) develops and evaluates prevention strategies and provides training, technical consultation, and assistance to States and localities in developing their capacity for planning, establishing, and maintaining surveillance and prevention programs; (9) maintains and oversees funding and technical assistance to state-based institutions (e.g., the Centers for Birth Defects Research and Prevention that seek causes and promotes prevention of birth defects; (10) plans, develops, establishes, and maintains systems of surveillance including registries for monitoring, evaluating and disseminating information; (11) assists in increasing the capacity of States to prevent and control birth defects and developmental disabilities through training, technology transfer, grants, cooperative agreements, contracts, and other means; (12) provides information and education to the public; (13) provides services, consultation, technical assistance, and information to States, localities, other Federal agencies, international organizations, and other public and private organizations; (14) provides training in the epidemiology to professionals throughout the U.S. and abroad; and (15) collaborates and coordinates activities with other CIOs and HHS agencies.

Division of Human Development and Disability (CF3). (1) Conducts, analyzes, and disseminates disability surveillance data to identify: the distribution of disabilities in state populations; health conditions that occur with greater frequency among people with disabilities relative to those without disability; and risk and protective behaviors compared to people without disabilities; (2) assists States and localities with the development, monitoring and evaluation of blood spot screening and early hearing detection and intervention (EHDI) tracking and surveillance systems; (3) plans, establishes, and maintains systems of surveillance, including registries, for monitoring, evaluating, and disseminating information on disability and related conditions and detrimental child outcomes; (4) oversees and manages grants, cooperative agreements, contracts, and other funding instruments related to Division

programs; (5) assists States and localities in developing their capacity for serving individuals with disabilities and secondary conditions (e.g., developing prevention strategies, providing training and technical consultation); (6) collaborates with universities, Federal, national, and State organizations to identify and address knowledge and research gaps in disability, hearing and vision loss, child development, and blood spot screening; (7) collaborates with universities and other organizations to investigate environmental, social, and technological supports to promote social participation and human development; (8) conducts applied research on public health aspects of normal and abnormal child development (e.g., early childhood, behavior problems in children); (9) conducts research on etiology of hearing loss and associated disabilities, cost and effectiveness of EHDI programs, family issues related to the EHDI programs and long-term benefits of early identification and intervention; (10) conducts research on interventions to prevent adverse child developmental outcomes; (11) conducts and disseminates research findings about people with disabilities, with special emphasis on women, children, and older persons; (12) develops and disseminates information on public health aspects of normal and abnormal child development (e.g., early childhood, hearing loss, behavior problems in children); (13) provides information and education to the public on disabilities; and (14) develops programs that seek to identify health risks, protective factors and measure the effectiveness of health promotion activities for prevention of conditions related to disability.

Dated: March 15, 2002.

Jeffrey P. Koplan,

Director.

BILLING CODE 4160–18–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare and Medicaid Services

[CMS–P–0015SPA]

Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collection referenced below. In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. We are requesting an emergency review because the collection of this information is needed before the expiration of the normal time limits under OMB's regulations at 5 CFR part 1320. Due to the events of September 11, 2001, the timing of this proposed information collection has been negatively affected. We are requesting Emergency OMB review for this supplement since this is a beneficial survey and it can do no harm if OMB acted upon this sooner than the normal timeframe. The 60-day **Federal Register** notice was published on January 8, 2002, for which we solicited public comment. CMS is requesting OMB review and approval of this collection by April 25, 2002, with a 180-day approval period. Written comments and recommendations will be accepted from the public if received by the individuals designated below by April 22, 2002.

Type of Information Collection Request: New collection; *Title of Information Collection:* Medicare Current Beneficiary Survey—Supplement on Patient Activation; *Form No.:* CMS–P–0015SPA (OMB# 0938–NEW); *Use:* A primary theme of the NMEP education efforts has been to help Medicare beneficiaries make choices. Simply providing uniform information to an undifferentiated audience is not sufficient. CMS needs to know whether beneficiaries have the communication skills, motivation and basic knowledge of their own health status to be partners in their own health care. The purpose of this survey supplement is to assess the degree to which Medicare beneficiaries participate actively in their own health care decisions.; *Frequency:* One-time; *Affected Public:* Individuals or households; *Number of Respondents:* 16,000; *Total Annual Responses:* 16,000; *Total Annual Hours:* 2,666.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS's Web Site address at *http://www.hcfa.gov/regs/prdact95.htm,* or e-mail your request, including your address, phone number, OMB number, and CMS document identifier, to *Paperwork@hcfa.gov,* or call the Reports Clearance Office on (410) 786–1326.

Interested persons are invited to send comments regarding the burden or any other aspect of these collections of information requirements. However, as noted above, comments on these information collection and recordkeeping requirements must be mailed and/or faxed to the designees referenced below, by April 22, 2002: Centers for Medicare and Medicaid Services, Office of Information Services, Security and Standards Group, Division of CMS Enterprise Standards, Room N2–14–26, 7500 Security Boulevard, Baltimore, MD 21244–1850. Fax Number: (410) 786–0262. Attn: Dawn Willinghan, CMS–P–0015SPA; and, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10235, New Executive Office Building, Washington, DC 20503, Fax Number: (202) 395–6974 or (202) 395–5167, Attn: Allison Eydt, CMS Desk Officer.

Dated: March 20, 2002.

Julie Brown,

Acting, CMS Reports Clearance Officer, CMS, Office of Information Services, Security and Standards Group, Division of CMS Enterprise Standards.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare and Medicaid Services

[CMS–250 through 254, CMS–10008, and CMS–287]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

(1.) *Type of Information Request:* Revision of a currently approved collection; *Title of Information Collection:* Medicare Secondary Payer Information Collection and Supporting Regulations in 42 CFR 411.25, 489.2, and 489.20; *Form Number:* CMS–250 through CMS–254 (OMB# 0938–0214); *Use:* Medicare Secondary Payer (MSP) is essentially the same concept known in the private insurance industry as coordination of benefits and refers to those situations where Medicare does not have primary responsibility for paying the medical expenses of a Medicare beneficiary. CMS contracts with health insuring organizations, herein referred to as intermediaries and carriers, to process Medicare claims. CMS charges its Medicare intermediaries and carriers with various tasks to detect MSP cases; develops and disseminates tools to enable them to better perform their tasks; and monitors their performance in achievement of their assigned MSP functions. Because intermediaries and carriers are also marketing health insurance products that may have liability when Medicare is secondary, the MSP provisions create the potential for conflict of interest. Recognizing this inherent conflict, CMS has taken steps to ensure that its intermediaries and carriers process claims in accordance with the MSP provisions, regardless of what other insurer is primary. These information collection requirements describe the MSP requirements and consist of the following:

1. Initial enrollment questionnaire
2. MSP claims investigation, which consists of first claim development, trauma code development, self-reporting MSP liability development, notice to responsible third party development (411.25 notice), secondary claims development, and "08" development (involving claims where information cannot be obtained from the beneficiary)
3. Provider MSP development, which requires the provider to request information from the beneficiary or representative during admission and other encounters; *Frequency:* On occasion; *Affected Public:* Individuals or households, business or other for-profit, and not-for-profit institutions; *Number of Respondents:* 867,863,540; *Total Annual Responses:* 867,863,540; *Total Annual Hours Requested:* 2,779,942.

(2.) *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Recognition of Pass-Through Payment for Drugs and Biologicals Under the Outpatient Prospective Payment System and Supporting Regulations in 42 CFR 419.43 formerly known as "Recognition of New Technology/Pass-Through Items Under the Prospective Payment System for Hospital Outpatient Services"; *Form No.:* CMS–10008 (OMB# 0938–0802); *Use:* This information is necessary to determine items eligible for payment as new technology within the ambulatory payment classification (APC) system as well as items eligible for the transitional pass-through payment provision as required by section 201 of the BBRA. This collection will enable CMS to implement those special payment provisions; *Frequency:* On Occasion; *Affected Public:* Business or other for-profit; *Number of Respondents:* 55; *Total Annual Responses:* 55; *Total Annual Hours:* 193.

(3.) *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Home Office Cost Statement and Supporting Regulations in 42 CFR 413.17 and 413.20; *Form No.:* CMS–287 (OMB# 0938–0202); *Use:* Medicare law permits components of chain organizations to be reimbursed for certain costs incurred by the chain home offices. The Home Office Cost Statement is required by the fiscal intermediary to verify Home Office Costs claimed by the components. *Frequency:* Annually; *Affected Public:* Not-for-profit institutions and business or other for-profit; *Number of Respondents:* 1,231; *Total Annual Responses:* 1,231; *Total Annual Hours Requested:* 573,646.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS' Web Site address at *http://www.hcfa.gov/regs/prdact95.htm*, or e-mail your request, including your address, phone number, OMB number, and CMS document identifier, to *Paperwork@hcfa.gov*, or call the Reports Clearance Office on (410) 786–1326. Written comments and recommendations for the proposed information collections must be mailed within 30 days of this notice directly to the OMB desk officer:

OMB Human Resources and Housing Branch, Attention: Allison Eydt, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: March 12, 2002.

John P. Burke, III,

CMS Reports Clearance Officer, CMS Office of Information Services, Security and Standards Group, Division of CMS Enterprise Standards.

BILLING CODE 4120–03–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare and Medicaid Services

[CMS–339]

Emergency Clearance: Public Information Collection Requirements Submitted to the Office of Management and Budget (OMB)

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

We are, however, requesting an emergency review of the information collection referenced below. In compliance with the requirement of section 3506(c)(2)(A) if the Paperwork Reduction Act of 1995, we have submitted to the Office of Management and Budget (OMB) the following requirements for emergency review. We are requesting an emergency review because the collection of this information is needed before the expiration of the normal time limits under OMB's regulations at 5 CFR part 1320. This is necessary to ensure compliance with 5 U.S.C. 1395g and 42 CFR 413.20 and 413.24. We cannot reasonably comply with the normal clearance procedures because the approval for this collection was inadvertently allowed to lapse. The CMS–339's purpose is to assist the provider in preparing an acceptable cost report and to minimize subsequent contact between the provider and its intermediary. If the information is not collected, then the fiscal intermediary will have to go onsite to each provider to get this information. Consequently, it is far less burdensome and extremely cost effective to capture this information through the CMS–339. It is essential to have this information to maintain the provider profile and to scope (i.e., special, limited or full) the audit.

We are currently working on elimination of form CMS–339 and including the applicable questions on the individual cost report forms. In an effort to eliminate the requirement for information no longer needed, we reviewed the comments received from the Federation of American Hospitals, American Hospital Association, and others. This resulted in our issuance of Program Memorandum A–01–137, entitled Modification to Form CMS–339 Requirements, Provider Cost Reimbursement Questionnaire. This has deleted Exhibit 6, Providers Owners/Management Personnel Compensation Exhibit. It has eliminated several questions from other exhibits for all providers. Exhibits 2, 3, and 4, Provider-Based Physicians, were eliminated for many providers.

We intend to revise the CMS–339 if the revisions planned for the cost reports are not operational before we have completely implemented the revised forms CMS–885 (Provider enrollment) (there are redundancies between the forms CMS–339 and 855). Those forms will not have been collected from all providers until three years after OMB approval. If the cost reports are revised to include the pertinent questions from the form CMS–339 (and the latter form eliminated) before the end of that three year period, we will then remove those questions from the cost reports.

CMS is requesting OMB review and approval of this collection by March 29, 2002, with a 180-day approval period. Written comments and recommendations will be accepted from the public if received by the individuals designated below by March 28, 2002. We published a separate **Federal Register** notice announcing the initiation of an extensive 60-day agency review and public comment period on these requirements on February 8, 2002. We will submit the requirements for OMB review and an extension of this emergency approval during the 180-day approval period.

Type of Information Collection Request: Reinstatement of a previously approved collection.

Title of Information Collection: Medicare Provider Cost Report Reimbursement Questionnaire and Supporting Regulations in 42 CFR 413.20, 413.24, 415.50, 415.55, 415.60, 415.70, 415.150, 415.152, 415.160, and 415.162.

Form No.: CMS–339 (OMB# 0938–0301).

Use: The Medicare Provider Cost Report Reimbursement Questionnaire must be completed by all providers to assist in preparing an acceptable cost report, to ensure proper Medicare reimbursement, and to minimize subsequent contact between the provider and it fiscal intermediary. It is designed to answer pertinent questions about key reimbursement concepts found in the cost report and to gather information necessary to support certain financial and statistical entries on the cost report. In addition, it provides an audit trail for the fiscal intermediary.

Frequency: Annually.

Affected Public: Business or other for-profit, not-for-profit institutions, and State, local and tribal government.

Number of Respondents: 33,144.

Total Annual Responses: 33,144.

Total Annual Hours: 1,342,332.

We have submitted a copy of this notice to OMB for its review of these information collections. A notice will be published in the **Federal Register** when approval is obtained.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS's Web Site address at *http://www.hcfa.gov/regs/prdact95.htm*, or e-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@hcfa.gov, or call the Reports Clearance Office on (410) 786–1326.

Interested persons are invited to send comments regarding the burden or any other aspect of these collections of information requirements. However, as noted above, comments on these information collection and recordkeeping requirements must be mailed and/or faxed to the designees referenced below, by March 28, 2002.

Centers for Medicare and Medicaid Services, Office of Information Services, Security and Standards Group, Division of CMS Enterprise Standards, Room N2–14–26, 7500 Security Boulevard, Baltimore, MD 21244–1850. Fax Number: (410) 786–0262. Attn: Julie Brown, CMS–339, and,

Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10235, New Executive Office Building, Washington, DC 20503, Fax Number: (202) 395–6974 or (202) 395–5167 Attn: Allison Eydt, CMS Desk Officer.

Dated: March 20, 2002.

Julie Brown,

Acting CMS Reports Clearance Officer, CMS, Office of Information Services, Security and Standards Group, Division of CMS Enterprise Standards.

BILLING CODE 4120–03–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

[Program Announcement No. 93631–02–01]

Developmental Disabilities: Notice of Availability of Financial Assistance and Request for Applications To Fund Family Support Model Demonstration Projects Under the Projects of National Significance Program

AGENCY: Administration on Developmental Disabilities (ADD), ACF, DHHS.

ACTION: Notice.

SUMMARY: The Administration on Developmental Disabilities (ADD), Administration for Children and Families (ACF), is accepting

applications for Fiscal Year 2002 Family Support Demonstration Projects.

This Program Announcement No. 93631–02–01 consists of five parts. Part I, the Introduction, discusses the goals and objectives of ACF and ADD. Part II provides background information on ADD for applicants. Part III describes the application review process. Part IV contains several components including: description of eligible applicants, purpose of project funds, requirements of project design, and evaluation criteria. Part V describes the process for preparing and submitting the application.

Grants will be awarded under this Program Announcement subject to the availability of funds for support of these activities.

DATES: The closing date for submittal of applications under this announcement is May 28, 2002.

Deadline

Applications Submitted by Mail

Mailed applications shall be considered as meeting an announced deadline if they are received on or before the deadline time and date at the U.S. Department of Health and Human Services, ACF/Office of Grants Management, 370 L'Enfant Promenade SW., Mail Stop 326F, Washington, DC 20447–0002, Attention: Lois B. Hodge. Any applications received after 4:30 p.m. on the deadline date will not be considered for competition.

Applicants must ensure that a legibly dated U.S. Postal Service postmark or a legibly dated, machine produced postmark of a commercial mail service is affixed to the envelope/package containing the application(s). To be acceptable as proof of timely mailing, a postmark from a commercial mail service must include the logo/emblem of the commercial mail service company and must reflect the date the package was received by the commercial mail service company from the applicant. Private metered postmarks shall not be acceptable as proof of timely mailing.

Application Submitted by Courier

Applications *handcarried* by applicants, applicant couriers, other representatives of the applicant, or by overnight/express mail couriers shall be considered as meeting an announced deadline if they are received on or before the deadline date, between the hours of 8 a.m. and 4:30 p.m., EST, Monday through Friday (excluding Federal holidays), at the U.S. Department of Health and Human Services, ACF/Office of Grants Management, ACF Mailroom, 2nd Floor (near Loading Dock), Aerospace Center, 901 D Street, SW., Washington, DC 20024. Applicants using express/overnight services should allow two working days (Monday through Friday, excluding holidays) prior to the deadline date for receipt of applications. (**Note** to applicants: Express/overnight mail services do not always deliver at the time to which they agreed.)

Receipt of Applications: Applications must either be hand delivered or mailed to the addresses listed above (under DEADLINE). ACF cannot accommodate transmission of applications by fax or through other electronic media. Applications transmitted electronically will not be accepted. Videotapes and cassette tapes may not be included as part of a grant application for panel review.

Additional material will not be accepted, or added to an application, unless it is postmarked by the deadline date.

Late Applications: Applications that do not meet the criteria above are considered late applications. ADD shall notify each late applicant that its application will not be considered in the current competition.

Extension of Deadlines: The Administration for Children and Families (ACF) may extend application deadlines when circumstances such as acts of God (e.g., floods, hurricanes) occur, or when there is widespread disruption of the mail service. Determinations to extend or waive deadline requirements rest with the Chief Grants Management Officer.

FOR FURTHER INFORMATION CONTACT: For information about the application process, program information and application materials contact, Administration for Children and Families (ACF), Joan Rucker, 370 L'Enfant Promenade, SW., Mail Stop 300–F, Washington, DC, 20447, 202/690–7898; or *add@acf.dhhs.gov*.

Copies of this program announcement and many of the required forms may be obtained electronically at the ADD World Wide Web Page: *http://www.acf.dhhs.gov/programs/add/*.

Notice of Intent To Submit Application: If you intend to submit an application, please contact, Joan Rucker of ADD at (202) 690–7898 within 15 days of the date of this announcement. Please give the number, and title of this announcement, your organization's name and address, and your contact person's name, phone and fax numbers, and e-mail address. The information will be used to determine the number of expert reviewers needed and to update the mailing list for Program Announcements.

SUPPLEMENTARY INFORMATION:

Part I. General Information

A. Goals of the Administration on Developmental Disabilities

The Administration on Developmental Disabilities (ADD) is located within the Administration for Children and Families (ACF), Department of Health and Human Services (DHHS). ADD shares goals with other ACF programs that promote the economic and social well being of families, children, individuals and communities. ACF and ADD envision:

- Families and individuals empowered to increase their own economic independence and productivity;
- Strong, healthy, supportive communities having a positive impact on the quality of life and the development of children;
- Partnerships with individuals, front-line service providers, communities, States and Congress that enable solutions which transcend traditional agency boundaries;
- Services planned and integrated to improve client access;
- A strong commitment to working with Native Americans, persons with developmental disabilities, refugees and migrants to address their needs, strengths and abilities; and
- A community-based approach that recognizes and expands on the resources and benefits of diversity.

These goals will enable individuals, including people with developmental disabilities; to live productive and independent lives integrated into their communities.

B. Purpose of the Administration on Developmental Disabilities

The Administration on Developmental Disabilities (ADD) is the lead agency within ACF and DHHS responsible for planning and administering programs to promote the self-sufficiency and protect the rights of persons with developmental disabilities. ADD implements the Developmental Disabilities Assistance and Bill of Rights Act (the DD Act) that was reauthorized in 2000. The DD Act defines developmental disabilities, reauthorizes four major programs under ADD, devolves advocacy authority to the States, promotes consumer oriented systems change and capacity building activities and facilitates network formations.

This Act supports and provides assistance to States, public, private nonprofit agencies, and organizations to assure that individuals with developmental disabilities and their families participate in the design of and have access to culturally competent services, supports, and other assistance and opportunities that promote independence, productivity, integration and inclusion into the community.

The Act established, in part, as the policy of the United States:

- Individuals with developmental disabilities have competencies, capabilities and personal goals that should be recognized, supported, and encouraged, and any assistance to such individuals should be provided in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of the individual;
- Individuals with developmental disabilities and their families are the primary decision makers regarding the services and supports such individuals and their families receive; and play decision making roles in policies and programs that affect the lives of such individuals and their families; and
- Services, supports, and other assistance should be provided in a manner that demonstrates respect for individual dignity, personal preference, and cultural differences.

Toward these ends, ADD seeks: to enhance the capabilities of families in assisting people with developmental disabilities to achieve their maximum potential; to support the increasing ability of people with developmental disabilities to exercise greater choice and self-determination; to engage in leadership activities in their communities; as well as to ensure the protection of their legal and human rights.

The four programs funded under the DD Act are:

(1) State Council on Developmental Disabilities that engage in advocacy, capacity building and systematic change activities.

(2) Protection and Advocacy System (P&A's) that protect the legal and human rights of individuals with developmental disabilities.

(3) The National Network of University Centers for Excellence in Developmental Disabilities (UCDD's) that engages in training, outreach and dissemination activities.

(4) The Projects of National Significance (PNS), including Family Support Grants, support the development of family centered and directed systems for families of children with disabilities.

All ADD programs must engage in activities related to advocacy, capacity building and systems change in one or more areas of emphasis. These areas of emphasis are: child-care related activities; early intervention and education activities; employment-related activities; health-related activities; housing-related activities; recreation-related activities; transportation-related activities; and quality assurance activities.

C. Statutory Authorities Covered Under This Announcement

This announcement is covered under the Developmental Disabilities Assistance and Bill of Rights Act of 2000, 42 U.S.C. 15000, *et.seq.* The Projects of National Significance are Part E of the Developmental Disabilities Assistance and Bill of Rights Act of 2000, 42 U.S.C. 15081, *and et.seq.* Provisions under this section provides for the award of grants, contracts, or cooperative agreements for projects of national significance that support the development of national and state policies that reinforce and promote the self-determination, independence, productivity, and integration and inclusion in all facets of community life of individuals with developmental disabilities through family support activities, data collection and analysis, technical assistance to entities that provide family support and data collection activities and other projects of sufficient size and scope that hold promise to expand or improve opportunities for individuals with developmental disabilities.

Part II. Background Information For Applicants

A. Description of Family Support Program

The Developmental Disabilities Assistance and Bill of Rights Act of 2000, 42 U.S.C., *et. Seq.* was authorized on October 30, 2000. The DD Act includes a new Title II, the "Families of Children With Disabilities Support Act of 1999". The purpose of this new family support program is for states to create or expand statewide systems change. It allows for the award of competitive, grants to conduct training, technical assistance, and other national activities designed to address the problems that impede the self-sufficiency of families with children with disabilities. Although funds have never been appropriated, ADD intends to promote the intent of Title II, by awarding Family Support Grants through the provisions stated in Subtitle E—Projects of National Significance.

Part III. The Application Review

A. Eligible Applicants

Only public or non-profit private entities, *not individuals*, are eligible to apply under this announcement. All applications developed jointly by more than one agency or organization must identify only one organization as the lead organization and the official applicant. The other participating agencies and organizations can be included as co-participants, subgrantees or subcontractors.

Any nonprofit organization submitting an application must submit proof of its nonprofit status in its application at the time of submission. The nonprofit agency can accomplish this by submitting a copy of the applicant's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in section 501(c)(3) of the IRS code, *or* by providing a copy of a valid IRS tax exemption certificate, *or* by providing a copy of the articles of incorporation bearing the seal of the State in which the corporation is located. ADD cannot fund a nonprofit applicant without acceptable proof of its nonprofit status.

Before applications under this Program Announcement are reviewed, each one will be screened to determine whether the applicant is eligible for funding. Applications from organizations that do not meet eligibility requirements will not be considered or reviewed in the competition, and the applicant will be so informed.

Faith-based organizations are eligible to apply for these family support grants if they meet the eligibility requirements stated above. All applicants must submit a letter of designation as the lead entity for coordinating the planning, development, implementation (or expansion and enhancement), and evaluation of a statewide system of family support services for families of children with disabilities. The designation must be by the Chief Executive Officer of their State.

B. Review Process and Funding Decisions

Applications from eligible applicants received by the deadline date will be reviewed and scored by experts in the field, generally persons from outside of the Federal Government. Reviewers will use the evaluation criteria listed elsewhere in this announcement to review and to score the applications. The results of this review are a primary factor in making funding decisions.

ADD reserves the option of discussing applications with, or referring them to, other Federal or non-Federal funding

VOL
67
ISS
58
MR
26
2002
UMI

sources when this is determined to be in the best interest of the Federal Government or the applicant.

Grantees funded by ADD may be requested to cooperate in evaluation efforts funded by ADD. The purpose of these evaluation activities is to learn from the combined experience of multiple projects funded under a particular program description.

ADD expects all applications to focus on or feature: services to culturally diverse or ethnic populations among others; a substantially innovative strategy with the potential to improve theory or practice in the field of human services; a model practice or set of procedures that holds the potential for replication by organizations administering or delivering of human services; substantial involvement of volunteers; substantial involvement (either financial or programmatic) of the private sector; a favorable balance between Federal and non-Federal funds available for the proposed project; the potential for high benefit for low Federal investment; a programmatic focus on those most in need; and/or substantial involvement in the proposed project by national or community foundations.

This year, an additional five (5) points will be awarded in scoring for any project that demonstrates in their application a partnership and collaboration with any of the 140 Empowerment Zones/Enterprise Communities. To receive the 5 points, the application must specify how the involvement of the EZ/EC is related to the objectives and/or the activities of the project. The application must also include a letter from an authorized representative of the EZ/EC indicating its agreement to participate and describing its role in the project. Applications submitted for implementation funds must include a letter from the EZ/EC pledging its continued support.

To the greatest extent possible, efforts will be made to ensure that funding decisions reflect an equitable distribution of assistance among the States and geographical regions of the country, rural and urban areas, and ethnic populations. In making these decisions, ADD may also take into account the need to avoid unnecessary duplication of effort.

C. Evaluation Process

Using the evaluation criteria below, a panel of at least three reviewers (primarily experts from outside the Federal Government) will review and score the applications. To facilitate this review, applicants should ensure that they address each minimum requirement in the program description under each section of the Project Narrative Statement.

Reviewers will: determine the strengths and weaknesses of each application in terms of the evaluation criteria listed below, provide comments, and assign numerical scores. The point value following each criterion heading indicates the maximum numerical weight that each applicant may receive per section in the review process.

D. Structure of Program Description

The program description is composed of the following sections:

- *Eligible Applicants*: This section specifies the type of organization that is eligible to apply under the particular program description. Specific restrictions are also noted, where applicable.
- *Purpose*: This section presents the basic focus and/or broad goal(s) of the program description.
- *Background Information*: This section provides the legislative background as well as the current state-of-the-art and/or current state-of-practice that supports the need for the particular program activity. Relevant information on projects previously funded by ACF and/or other State models are noted, where applicable.
- *Evaluation Criteria*: This section presents the basic set of issues that must be addressed in the application. Typically, they relate to need for assistance, results expected, project design, and organizational and staff capabilities. Inclusion and discussion of these items is important since the information provided will be used by the reviewers in evaluating the application against the evaluation criteria.
- *Minimum Requirements for Project Design*: This section presents the basic set of issues that must be addressed in the application. Typically, they relate to project design, evaluation, and community involvement. This section also asks for specific information on the proposed project. Inclusion and discussion of these items is important since they will be used by the reviewers to evaluate the applications against the evaluation criteria. Project products, continuation of the project after Federal support ceases, and dissemination/utilization activities, if appropriate, are also addressed.
- *Project Duration*: This section specifies the maximum allowable length of the project period; it refers to the amount of time for which Federal funding is available.
- *Federal Share of Project Costs*: This section specifies the maximum amount of Federal support for the project.
- *Matching Requirement*: This section specifies the minimum non-Federal contribution, either cash or in-kind match, required.
- *Anticipated Number of Projects to Be Funded*: This section specifies the number of projects ADD anticipates funding under the program description.
- *CFDA*: This section identifies the Catalog of Federal Domestic Assistance (CFDA) number and title of the program under which applications in this program description will be funded. This information is needed to complete item 10 on the SF 424.

Applications that are more clearly focused on, and directly responsive to, the concerns of the program description usually score better than those that are less specific and generally defined. Applicants are encouraged to tailor their responses according to the specific requirements of the program description.

E. Available Funds

Subject to the availability of funding, ADD intends to award new grants resulting from this announcement during the fourth quarter of fiscal year 2002. The size of the awards will vary. The program description includes information on the maximum Federal share of the project costs and the anticipated number of projects to be funded.

The term "budget period" refers to the interval of time (usually 12 months) into which a multi-year period of assistance (project period) is divided for budgetary and funding purposes. The term "project period" refers to the total time a project is approved for support, including any extensions.

F. Grantee Share of Project Costs

Grantees must match $1 for every $3 requested in Federal funding to reach 25% of the total approved cost of the project. The total approved cost of the project is the sum of the ACF share and the non-Federal share. Cash or in-kind contributions may meet the non-Federal share, although applicants are encouraged to meet their match requirements through cash contributions. Therefore, a project requesting $100,000 in Federal funds (based on an award of $100,000 per budget period) must include a match of at least $33,333 (total project cost is $133,333, of which $33,333 is 25%).

An exception to the grantee cost-sharing requirement relates to applications originating from American Samoa, Guam, the Virgin Islands, and the Commonwealth of the Northern Mariana Islands. Applications from these areas are covered under Section 501(d) of P. L. 95–134, as amended, which requires that the Department waive any requirement for local matching funds for grants under $200,000.

The applicant contribution must generally be secured from non-Federal sources. Except as provided by Federal statute, a cost sharing or matching requirement may not be met by costs borne by another Federal grant. However, funds from some Federal programs benefiting Tribes and Native American organizations have been used to provide valid sources of matching funds. If this is the case for a Tribe or Native American organization submitting an application to ADD, that organization should identify the programs which will be providing the funds for the match in its application. If the application successfully competes for PNS grant funds, ADD will determine whether there is statutory authority for this use of the funds. The Administration for Native Americans and the DHHS Office of General Counsel will assist ADD in making this determination.

G. General Instructions for the Uniform Project Description

The following ACF Uniform Project Description (UPD) has been approved under OMB Control Number 0970–0139.

Applicants required to submit a full project description should prepare the project description statement in accordance with the following instructions.

Project summary/abstract: Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and need for assistance: Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Results or benefits expected: Identify the results and benefits to be derived. Extent to which the applicant is consistent with the objectives of the application, and the extent to which the application indicates the anticipated contributions to policy practice, theory and/or research. Extent to which the proposed project cost is reasonable in view of the expected results.

Approach: Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors which might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished. When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

Organizational Profile: Provide information on the applicant organization(s) and cooperating partners such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission. The non-profit agency can accomplish this by providing a copy of the applicant's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in Section 501(c)(3) of the IRS code, *or* by providing a copy of the currently valid IRS tax exemption certificate, *or* by providing a copy of the articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.

H. Closed Captioning for Audiovisual Efforts

Applicants must include closed captioning and audio description in the development of any audiovisual products.

Part IV. Fiscal Year 2002 Families of ChildrenWith Disabilities Support Projects—Description and Requirements

Eligible Applicants: Eligibility applicants include a State entity, unit or office designated by the chief executive officer of the state as the lead agency for this project. Proof of designation as lead agency by the governor/CEO must be submitted with the application. Applicants awarded new and implementation grants last year (FY 2001) under this announcement are not eligible. Applicants awarded grants in Fiscal Year 2000 are eligible to apply for implementation funds. Applicants who have never received grants under this announcement are eligible to apply for funds.

Purpose: Project funds must be utilized to support systems change activities to assist each State with developing, implementing, expanding or enhancing, a statewide system of family support for families of children with disabilities designed to be family-centered, family-directed, culturally competent, community-centered, and comprehensive. This system will:

(1) Ensure the full participation, choice and control of families of children with disabilities in decisions related to the provision of such family support for their family;

(2) ensure the active involvement of families of children with disabilities in the planning, development, implementation, and evaluation of such a statewide system;

(3) increase the availability of, funding for, access to, and provision of family support for families of children with disabilities;

(4) promote training activities that are family-centered and family-directed and that enhance the ability of family members of children with disabilities to

VOL

ISS
58
MR
26
2002
UMI

increase participation, choice, and control in the provision of family support for families of children with disabilities;

(5) increase and promote interagency coordination among State agencies, and between State agencies and private entities that are involved in these projects; and

(6) increase the awareness of laws, regulations, policies, practices, procedures, and organizational structures that facilitate or impede the availability or provision of family support for families of children with disabilities.

Background Information: Promoting family support for families with a child with a disability is a new stage in the federal goal development of disability policy. Historically, families with a child with a severe disability would only receive support once the child was placed in a state institution. In recent decades, disability policies have progressed to promote a more family-centered approach to service provision; indeed, many states have initiated family support legislation. This accomplishment is often the result of initiatives developed by the state developmental disabilities councils. Currently, all the states plus the District of Columbia offer some type of family support program. This support consists of any community-based service administered or financed by the state MR/DD agency providing for vouchers, direct cash payments to families, reimbursement, or direct payments to service providers which the state agency itself identified as family support. A broad range of services that fall within family support including—cash subsidy payments, respite care, family counseling, architectural adaptation of the home, in-home counseling, sibling support programs, education and behavior management services and the purchase of specialized equipment. Family support is a growing expenditure in state budgets. Family support expenditures advanced from $569 million for 279,266 families in 1996 to $1.0 billion for 385,414 families in 2000. Family support spending constituted 3.6 percent of total MR/DD state resources in 2000, up from 2.3% in 1996. All 50 states reported a family support initiative in either cash subsidy, or other family support activity. (Braddock, D., Hemp, R., Rizzolo, M.C., Parish, S. & Pomeranz, A. (2002). The State of the States in Developmental Disabilities: 2002 Study Summary. Boulder, CO: Coleman Institute for Cognitive Disabilities & Department of Psychiatry, University of Colorado).

The Federal government's involvement in family support began in 1982 with what is known as the "Katie Beckett Waiver". This provision amended the Medicaid law to give states the option to waive the deeming of parental income and resources for any child eighteen years of age and under who is eligible for placement in a Medicaid certified long term care institution or hospital, ICF/MR or nursing home. This waiver allows parents access to an array of family, home and community supports. Many states use this option, which requires states to determine that (1) the child requires the level of care provided in an institution; (2) it is appropriate to provide care outside the facility; and (3) the cost of care at home is no more than the cost of institutional care. In states that use this option, parents may choose either institutional or community care for their Medicaid eligible children.

Federal disability policy in the 1980s increasingly began to reflect the principles of family-centered, community-based, coordinated care as Federal programs were established or reauthorized. Among these were:

(1) The Temporary Respite Care and Crisis Nurseries Act of 1986 that funded a variety of in-home and out-of-home respite programs;

(2) a new Part H for infants, toddlers, and their families was added in 1986 to the then Education of the Handicapped Act;

(3) the reauthorization of the Maternal and Child Health Care Block grant in 1989 emphasized these principles in it's Children with Special Health Care Needs program; and

(4) a definition of family support services was added in 1990 to the Developmental Disabilities Assistance and Bill of Rights Act.

Minimum Requirements for Project Design: ADD expects grant funds to maximize opportunities for systems change to ensure the provision of family support to families of children with disabilities through the collaboration and strengthening of community action service organizations. Project activities should accomplish any of the following:

- Establishment of a state policy council of families with children with disabilities or utilize an existing council which will advise and assist the lead entity in the performance of activities of this application. The State Policy Council shall be composed of a majority of participants who are family members of children with disabilities and/or who are youth with disabilities (ages 18–21);
- Training and technical assistance for family members, service providers, community members, professionals, members of the Policy Council, state agency staff, students and others;
- Interagency coordination of Federal and State policies, resources, and services; interagency workgroups to enhance public funding options and coordination; and other interagency activities that promote coordination;
- Outreach to locate families who are eligible for family support and to identify groups who are underserved or unserved;
- Policy studies that relate to the development and implementation, or expansion and enhancement, of a statewide system of family support for families of children with disabilities;
- Hearings and forums to solicit input from families of children with disabilities regarding family support programs, policies, and plans for such families;
- Public awareness and education to families of children with disabilities, parent groups and organizations, public and private agencies, students, policymakers, and the general public;
- Needs assessment;
- Data collection and analysis related to the statewide system of family support for families of children with disabilities;
- Implementation plans to utilize generic community service organizations in innovative partnerships to include families of children with disabilities;
- Pilot demonstration projects to demonstrate new approaches to the provision of family support for families of children with disabilities;
- Evaluation system using measurable outcomes based on family satisfaction indicators. Indicators include the extent to which a service or support meets a need, solves a problem, or adds value for a family, as determined by the individual family.

ADD expects to fund applications that include or incorporate into these activities one or more of the following populations relevant to their state: (1) Unserved and underserved populations which includes populations such as individuals from racial and ethnic minority backgrounds, economically disadvantaged individuals, individuals with limited-English proficiency, and individuals from underserved geographic areas (rural or urban); (2) aging families of adult children with disabilities who are over age 21 with a focus on assisting those families and their adult child to be included as self-determining members of their communities; (3) foster/adoptive families of children with disabilities; (4) families participating in the state's Temporary Assistance to Needy Families Program (TANF) , welfare-to-work, and/or SSI program; (5) veterans with families having a child with a disability; (6) parents with disabilities, especially with cognitive disabilities, having children with or without disabilities; and 7) families of children with behavioral/emotional issues.

ADD intends to fund those applications that describe how the project intends to:

- Ensure consumer/self-advocate orientation and participation.
- Include key project personnel with direct life experience with living with a disability.
- Have strong advisory components that consist of a majority of individuals with disabilities and a structure where individuals with disabilities make real decisions that determine the outcome of the grant.
- If applicable, research should reflect the principles of participatory action.
- Consider cultural competency ("cultural competency" as defined in the DD Act as—services, supports, or other assistance that is conducted or provided in a manner that is responsive to the beliefs, interpersonal styles, attitudes, language, and behavior of individuals who are receiving the services, supports or other assistance, and in a manner that has the greatest likelihood of ensuring their maximum participation in the program involved.
- Will allow individuals with disabilities and their families to be involved in all aspects of the design, implementation, and evaluation of the project.
- Attention to unserved and inadequately served individuals, having a range of disabilities from mild to severe, from multicultural backgrounds, rural and inner-city areas, migrant, homeless, and refugee families, with severe disabilities.
- Comply with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973 as amended by the Rehabilitation Act amendments of 1998 (Pub. L. 105–220).
- Use collaboration through partnerships and coalitions.
- Develop the capacity to communicate and disseminate information and technical assistance through e-mail and other effective, affordable, and accessible forms of electronic communication.
- Develop and establish system change activities beyond project period.

Disseminate models, products, best practices, and strategies for distribution between networks and beyond.

Applications must also include provisions for the travel of a key staff person during the project period to Washington, DC.

(1) *Evaluation Criteria:* Four (4) criteria will be used to review and evaluate each application under this announcement. Each of these criterion should be addressed in the project description section of the application. The point values indicate the maximum numerical weight possible for a criterion in the review process. The specific information to be included under each of these headings is described in Section G of Part III, General Instructions for the Uniform Project Description. Additional information that must be included is described below.

Criterion 1: Objectives and Need for Assistance (Maximum 25 points)

The application must describe the context of the proposed demonstration project, including the geographic location, environment, magnitude and severity of the problem(s) to be solved and the needs to be addressed. Those eligible applicants applying for implementation funds, in addition to providing the following information, please submit a summary/abstract of the project goals and accomplishments during the first year of your grant.

Applicant must:

(1) Pinpoint any relevant physical, economic, social, financial, institutional, or other problems requiring a solution; (7 points)

(2) Demonstrate the need for the assistance and state the principal and subordinate objectives for the project; (8 points)

(3) Provide supporting documentation or other testimonies from concerned interests other than the applicant; (5 points)

(4) Provide any relevant data based on planning studies; and (4 points) provide maps and other graphic aids. (1 point)

Criterion 2: Results or Benefits Expected (Maximum 20 points)

Identify results and benefits to be derived. The anticipated contribution to policy, practice, theory and/or research should be indicated.

Applicant must:

(1) Clearly describe project benefits and/or results as they relate to the objectives of the project; (10 points); and

(2) Provide information as to the extent to which the project will build on current theory, research, evaluation and best practices to contribute to increased knowledge of understanding the problems, issues or effective strategies and practices in family support. (10 points)

Criterion 3: Approach (Maximum 35 points)

Discuss the criteria to be used to evaluate the results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the results and benefits identified are being achieved. Applicants are expected to present a plan that (1) reflects an understanding of the characteristics, needs and services currently available to the targeted population; (2) provides services that directly address the needs of the target population; (3) is evidence based and grounded in theory and practice; (4) is appropriate and feasible; (5) can be reliably evaluated; and (6) if successfully implemented, can be sustained after Federal funding has ceased.

Applicant must:

(1) Outline a plan of action pertaining to the scope and detail how the proposed work will be accomplished for each project. Define goals and specific measurable objectives for the project; (8 points)

(2) Cite factors which might accelerate or decelerate the work and provide reasons for taking this approach as opposed to others; (3 points)

(3) Describe any unusual features of the project, such as design or technological innovation, reductions in cost or time, or extraordinary social and community involvement; (5 points)

(4) Provide for each assistance program quantitative projects of the accomplishments to be achieved, if possible. When accomplishments cannot be quantified, the activities should be listed in chronological order to show the schedule of accomplishments and their target dates; (4 points)

(5) Identify the kinds of data to be collected and maintained, and discuss the criteria to be used to evaluate the results and success of the project. Describe how the proposed project will be evaluated to determine the extent to which it has achieved its stated goals and objectives; and whether the methods of evaluation include the use of performance measures that are clearly related to the intended outcomes of the project; (8 points)

(6) Describe the products to be developed during the implementation of the proposed project. This can include questionnaires, interview guides, data collection instruments, software, internet applications, reports, article outcomes and evaluation results. Also present a dissemination plan for conveying the information; (4 points)

(7) List each organization, operator, consultant, or other key individuals

VOL
67
ISS
58
MR
26
2002
UMI

who will work on the project along with a short description of the nature of their effort of contribution. (3 points)

Criterion 4: Organizational Profile (20 points)

This section should consist of a brief (two to three pages) background description of how the applicant organization (or the unit with the organization that will have responsibility for the project) is structured, the types and quantity of services, and/or the research and management capabilities it possesses. Applicants need to demonstrate that they have the capacity to implement the proposed project. Capacity includes (1) experience with similar projects; (2) experience with the target population; (3) qualifications and experience of the project leadership; (4) commitment to developing sustaining work among key stakeholders; (5) experience and commitment of any proposed consultants and subcontractors; and (6) appropriateness of the organizational structure, including its management information system, to carry out the project.

Applicant must:

(1) Identify the background of the project director/principal investigator and key project staff (including name, address, and training, educational background and other qualifying experience) and the experience of the organization to demonstrate the applicant's ability to effectively and efficiently administer this project; present brief resumes; (5 points)

(2) Provide a brief background description of how the applicant organization is organized, the types and quantity of services it provides, and/or the research and management capabilities it possesses; (5 points)

(3) Provide an organization chart showing the relationship of the project to the current organization; (5 points) and

(4) Describe the competence of the project team and its demonstrated ability to produce a final product that is readily comprehensible and usable. (5 points)

Project Duration: This announcement is soliciting applications for a project period up to seventeen (17) months under this area. Awards, on a competitive basis, can be up to a seventeen-month (17) budget period.

Federal Share of Project Costs: The maximum Federal shares for first time applicants shall not exceed $200,000 for a state or $100,000 for a territory for the budget period. The maximum Federal share for applicants requesting implementation funds shall not exceed $100,000 for a state and not to exceed $50,000 for a territory.

Matching Requirement: Grantees must match $1 for every $3 requested in Federal funding to reach 25% of the total approved cost of the project. The total approved cost of the project is the sum of the ACF share and the non-Federal share. Cash or in-kind contributions may meet the non-Federal share, although applicants are encouraged to meet their match requirements through cash contributions. Therefore, a project requesting $200,000 in Federal funds (based on an award of $200,000 per budget period) must include a match of at least $66,666 (the total project cost is $266,666, of which $66,666 is 25%).

Anticipated Number of Projects to be Funded: It is anticipated that up to twenty-seven (27) projects will be funded.

CFDA: ADD's CFDA (Code of Federal Domestic Assistance) number is 93.631—Developmental Disabilities—Projects of National Significance. This information is needed to complete item 10 on the SF 424.

Part V. Instructions for the Development and Submission of Applications

This Part contains information and instructions for submitting applications in response to this announcement. Application forms and other materials can be obtained by any of the following methods: Joan Rucker, ADD, 370 L'Enfant Promenade SW, Mailstop 300F, Washington, DC, 20447, 202/690–7898; *http://www.acf.dhhs.gov/programs/add*; or *add@acf.dhhs.gov*. Please copy and use these forms in submitting an application.

Potential applicants should read this section carefully in conjunction with the information contained in the program description in Part IV of this announcement.

A. Required Notification of the State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, Intergovernmental Review of Department of Health and Human Services Program and Activities. Under this Order, States may design their own process for reviewing and commenting on proposed Federal assistance under covered programs.

Note: State/territory participation in the intergovernmental review process does not signify applicant eligibility for financial assistance under a program. A potential applicant must meet the eligibility requirements of the program for which it is applying prior to submitting an application to its single point of contact (SPOC), if applicable, or to ACF.

As of November 20, 1998, all States and territories, except Alabama, Alaska, American Samoa, Colorado, Connecticut, Hawaii, Idaho, Kansas, Louisiana, Massachusetts, Minnesota, Montana, Nebraska, New Jersey, Ohio, Oklahoma, Oregon, Palau, Pennsylvania, South Dakota, Tennessee, Vermont, Virginia, and Washington, have elected to participate in the Executive Order process and have established a State Single Point of Contact (SPOC). Applicants from these jurisdictions, or for projects administered by federally recognized Indian Tribes, need not take any action regarding E.O. 12372. Otherwise, applicants should contact their SPOCs as soon as possible to alert them of the potential applications and to receive any necessary instructions.

Applicants must submit all required materials to the SPOC as soon as possible. This will enable the program office to obtain and to review SPOC comments as part of the award process. It is imperative that an applicant submit all required materials and indicate the date of the submittal (or date SPOC was contacted, if no submittal is required) on the SF 424, item 16a.

Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application due date to comment on proposed new or competing continuation awards. These comments are reviewed as part of the award process. Failure to notify the SPOC can result in delays in awarding grants.

SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those Official State process recommendations that may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to: Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, 370 L'Enfant Promenade, SW, Mail Stop 326F, Washington, DC 20447, Attn: 93.631 ADD—Projects of National Significance.

Contact information for each State's SPOC is found at the ADD Web site, (*http://www.acf.dhhs.gov/programs/add*), or by contacting Joan Rucker, ADD, 370 L'Enfant Promenade SW, Mailstop 300F, Washington, DC, 20447, 202/690–7898.

B. Notification of State Developmental Disabilities Planning Councils

A copy of the application must also be submitted for review and comment to the State Developmental Disabilities Council in each State in which the applicant's project will be conducted. A list of the State Developmental Disabilities Councils can be found at ADD's Web site: *http:///www.acf.dhhs.gov/programs/add* or by contacting "Joan Rucker, ADD, 370 L'Enfant Promenade SW, Mailstop 300F, Washington, DC, 20447, 202/690–7898.

C. Instructions for Preparing the Application and Completing Application Forms

The SF 424, SF 424A, SF 424A-Page 2 and Certifications/ Assurances are contained in the application package that can be accessed as mentioned earlier in this announcement. Please prepare your application in accordance with the following instructions:

1. SF 424 Page 1, Application Cover Sheet

Please read the following instructions before completing the application cover sheet. An explanation of each item is included. Complete only the items specified.

Top of Page. Please indicate if you are applying for first time funding or implementation funds.

Item 1. "Type of Submission"—Preprinted on the form.

Item 2. "Date Submitted" and "Applicant Identifier" —Date application is submitted to ACF and applicant's own internal control number, if applicable.

Item 3. "Date Received By State"—State use only (if applicable).

Item 4. "Date Received by Federal Agency"—Leave blank.

Item 5. "Applicant Information".

"Legal Name"—Enter the legal name of applicant organization. For applications developed jointly, enter the name of the lead organization only. There must be a single applicant for each application.

"Organizational Unit"—Enter the name of the primary unit within the applicant organization which will actually carry out the project activity. Do not use the name of an individual as the applicant. If this is the same as the applicant organization, leave the organizational unit blank.

"Address"—Enter the complete address that the organization actually uses to receive mail, since this is the address to which all correspondence will be sent. Do not include both street address and P.O. box number unless both must be used in mailing.

"Name and telephone number of the person to be contacted on matters involving this application (give area code)"—Enter the full name (including academic degree, if applicable) and telephone number of a person who can respond to questions about the application. This person should be accessible at the address given here and will receive all correspondence regarding the application.

Item 6. "Employer Identification Number (EIN)"—Enter the employer identification number of the applicant organization, as assigned by the Internal Revenue Service, including, if known, the Central Registry System suffix.

Item 7. "Type of Applicant"—Self-explanatory.

Item 8. "Type of Application"—Preprinted on the form.

Item 9. "Name of Federal Agency"—Preprinted on the form.

Item 10. "Catalog of Federal Domestic Assistance Number and Title"—Enter the Catalog of Federal Domestic Assistance (CFDA) number assigned to the program under which assistance is requested and its title. For ADD's priority area, the following should be entered, "93.631—Developmental Disabilities: Projects of National Significance."

Item 11. "Descriptive Title of Applicant's Project"—Enter the project title. The title is generally short and is descriptive of the project, not the priority area title.

Item 12. "Areas Affected by Project"—Enter the governmental unit where significant and meaningful impact could be observed. List only the largest unit or units affected, such as State, county, or city. If an entire unit is affected, list it rather than subunits.

Item 13. "Proposed Project"—Enter the desired start date for the project and projected completion date.

Item 14. "Congressional District of Applicant/Project"—Enter the number of the Congressional district where the applicant's principal office is located and the number of the Congressional district(s) where the project will be located. If Statewide, a multi-State effort, or nationwide, enter "00."

Items 15. Estimated Funding Levels

In completing 15a through 15f, the dollar amounts entered should reflect, for a 17-month or less project period, the total amount requested. If the proposed project period exceeds 17 months, enter only those dollar amounts needed for the first 12 months of the proposed project.

Item 15a. Enter the amount of Federal funds requested in accordance with the preceding paragraph. This amount should be no greater than the maximum amount specified in the priority area description.

Items 15b–e. Enter the amount(s) of funds from non-Federal sources that will be contributed to the proposed project. Items b–e are considered cost sharing or "matching funds." The value of third party in-kind contributions should be included on appropriate lines as applicable. For more information regarding funding as well as exceptions to these rules, see Part III, Sections E and F, and the specific priority area description.

Item 15f. Enter the estimated amount of program income, if any, expected to be generated from the proposed project. Do not add or subtract this amount from the total project amount entered under item 15g. Describe the nature, source and anticipated use of this program income in the Project Narrative Statement.

Item 15g. Enter the sum of items 15a–15e.

Item 16a. "Is Application Subject to Review By State Executive Order 12372 Process? Yes."—Enter the date the applicant contacted the SPOC regarding this application. Select the appropriate SPOC from the listing provided at the end of Part IV. The review of the application is at the discretion of the SPOC. The SPOC will verify the date noted on the application.

Item 16b. "Is Application Subject to Review By State Executive Order 12372 Process? No."—Check the appropriate box if the application is not covered by E.O. 12372 or if the program has not been selected by the State for review.

Item 17. "Is the Applicant Delinquent on any Federal Debt?"—Check the appropriate box. This question applies to the applicant organization, not the person who signs as the authorized representative. Categories of debt include audit disallowances, loans and taxes.

Item 18. "To the best of my knowledge and belief, all data in this application/preapplication are true and correct. The document has been duly authorized by the governing body of the applicant and the applicant will comply with the attached assurances if the assistance is awarded." —To be signed by the authorized representative of the applicant. A copy of the governing body's authorization for signature of this application by this individual as the official representative must be on file in the applicant's office, and may be requested from the applicant.

Item 18a–c. "Typed Name of Authorized Representative, Title, Telephone Number"—Enter the name, title and telepl one number of the

authorized representative of the applicant organization.

Item 18d. "Signature of Authorized Representative" —Signature of the authorized representative named in Item 18a. At least one copy of the application must have an original signature. Use colored ink (not black) so that the original signature is easily identified.

Item 18e. "Date Signed"—Enter the date the application was signed by the authorized representative.

2. SF 424A—Budget Information—Non-Construction Programs

This is a form used by many Federal agencies. For this application, Sections A, B, C, E and F are to be completed. Section D does not need to be completed.

Sections A and B should include the Federal as well as the non-Federal funding for the proposed project covering (1) the total project period of 17 months or less or (2) the first year budget period, if the proposed project period exceeds 15 months.

Section A—Budget Summary. This section includes a summary of the budget. On line 5, enter total Federal costs in column (e) and total non-Federal costs, including third party in-kind contributions, but not program income, in column (f). Enter the total of (e) and (f) in column (g).

Section B—Budget Categories. This budget, which includes the Federal as well as non-Federal funding for the proposed project, covers (1) the total project period of 17 months or less or (2) the first-year budget period if the proposed project period exceeds 17 months. It should relate to item 15g, total funding, on the SF 424. Under column (5), enter the total requirements for funds (Federal and non-Federal) by object class category.

A separate budget justification should be included to fully explain and justify major items, as indicated below. The type of information to be included in the justification are indicated under each category. For multiple year projects, it is desirable to provide this information for each year of the project. The budget justification should immediately follow the second page of the SF 424A.

Personnel—Line 6a. Enter the total costs of salaries and wages of applicant/grantee staff. Do not include the costs of consultants; this should be included on line 6h, "Other."

Justification: Identify the principal investigator or project director, if known. Specify by title or name the percentage of time allocated to the project, the individual annual salaries, and the cost to the project (both Federal and non-Federal) of the organization's staff who will be working on the project.

Fringe Benefits—Line 6b. Enter the total costs of fringe benefits, unless treated as part of an approved indirect cost rate.

Justification: Provide a break-down of amounts and percentages that comprise fringe benefit costs, such as health insurance, FICA, retirement insurance, etc.

Travel—6c. Enter total costs of out-of-town travel (travel requiring per diem) for staff of the project. Do not enter costs for consultant's travel or local transportation, which should be included on Line 6h, "Other."

Justification: Include the name(s) of traveler(s), total number of trips, destinations, length of stay, transportation costs and subsistence allowances.

Equipment—Line 6d. Enter the total costs of all equipment to be acquired by the project. For State and local governments, including Federally recognized Indian Tribes, "equipment" is tangible, non-expendable personal property having a useful life of more than one year and acquisition cost of $5,000 or more per unit.

Justification: Equipment to be purchased with Federal funds must be justified. The equipment must be required to conduct the project, and the applicant organization or its subgrantees must not have the equipment or a reasonable facsimile available to the project. The justification also must contain plans for future use or disposal of the equipment after the project ends.

Supplies—Line 6e. Enter the total costs of all tangible expendable personal property (supplies) other than those included on Line 6d.

Justification: Specify general categories of supplies and their costs.

Contractual—Line 6f. Enter the total costs of all contracts, including (1) procurement contracts (except those which belong on other lines such as equipment, supplies, etc.) and (2) contracts with secondary recipient organizations, including delegate agencies. Also include any contracts with organizations for the provision of technical assistance. Do not include payments to individuals on this line. If the name of the contractor, scope of work, and estimated total costs are not available or have not been negotiated, include on Line 6h, "Other."

Justification: Attach a list of contractors, indicating the names of the organizations, the purposes of the contracts, and the estimated dollar amounts of the awards as part of the budget justification. Whenever the applicant/grantee intends to delegate part or the entire program to another agency, the applicant/grantee must complete this section (Section B, Budget Categories) for each delegate agency by agency title, along with the supporting information. The total cost of all such agencies will be part of the amount shown on Line 6f. Provide backup documentation identifying the name of contractor, purpose of contract, and major cost elements.

Construction—Line 6g. Not applicable. New construction is not allowable.

Other—Line 6h. Enter the total of all other costs. Where applicable, such costs may include, but are not limited to: insurance; medical and dental costs; noncontractual fees and travel paid directly to individual consultants; local transportation (all travel which does not require per diem is considered local travel); space and equipment rentals; printing and publication; computer use; training costs, including tuition and stipends; training service costs, including wage payments to individuals and supportive service payments; and staff development costs. Note that costs identified as "miscellaneous" and "honoraria" are not allowable.

Justification: Specify the costs included.

Total Direct Charges—Line 6i. Enter the total of Lines 6a through 6h.

Indirect Charges—6j. Enter the total amount of indirect charges (costs). If no indirect costs are requested, enter "none." Generally, this line should be used when the applicant (except local governments) has a current indirect cost rate agreement approved by the Department of Health and Human Services or another Federal agency.

Local and State governments should enter the amount of indirect costs determined in accordance with HHS requirements. When an indirect cost rate is requested, these costs are included in the indirect cost pool and should not be charged again as direct costs to the grant.

In the case of training grants to other than State or local governments (as defined in title 45, Code of Federal Regulations, part 74), the Federal reimbursement of indirect costs will be limited to the lesser of the negotiated (or actual) indirect cost rate or 8 percent of the amount allowed for direct costs, exclusive of any equipment charges, rental of space, tuition and fees, post-doctoral training allowances, contractual items, and alterations and renovations.

For training grant applications, the entry under line 6j should be the total indirect costs being charged to the project. The Federal share of indirect costs is calculated as shown above. The applicant's share is calculated as follows:

(a) Calculate total project indirect costs (a*) by applying the applicant's approved indirect cost rate to the total project (Federal and non-Federal) direct costs.

(b) Calculate the Federal share of indirect costs (b*) at 8 percent of the amount allowed for total project (Federal and non-Federal) direct costs exclusive of any equipment charges, rental of space, tuition and fees, post-doctoral training allowances, contractual items, and alterations and renovations.

(c) Subtract (b*) from (a*). The remainder is what the applicant can claim as part of its matching cost contribution.

Justification: Enclose a copy of the indirect cost rate agreement. Applicants subject to the limitation on the Federal reimbursement of indirect costs for training grants should specify this.

Total—Line 6k. Enter the total amounts of lines 6i and 6j.

Program Income—Line 7. Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount.

Justification: Describe the nature, source, and anticipated use of program income in the Program Narrative Statement.

Section C—Non-Federal Resources. This section summarizes the amounts of non-Federal resources that will be applied to the grant. Enter this information on line 12 entitled "Totals." In-kind contributions are defined in title 45 of the Code of Federal Regulations, Parts 74.51 and 92.24, as "property or services which benefit a grant-supported project or program and which are contributed by non-Federal third parties without charge to the grantee, the subgrantee, or a cost-type contractor under the grant or subgrant."

Justification: Describe third party in-kind contributions, if included.

Section D—Forecasted Cash Needs. Not applicable.

Section E—Budget Estimate of Federal Funds Needed For Balance of the Project. This section should only be completed if the total project period exceeds 17 months.

Totals—Line 20. For projects that will have more than one budget period, enter the estimated required Federal funds for the second budget period (months 13 through 24) under column "(b) First." If a third budget period will be necessary, enter the Federal funds needed for months 25 through 36 under "(c) Second." Columns (d) and (e) are not applicable in most instances, since ACF funding is almost always limited to a three-year maximum project period. They should remain blank.

Section F—Other Budget Information.

Direct Charges—Line 21. Not applicable.

Indirect Charges—Line 22. Enter the type of indirect rate (provisional, predetermined, final or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

Remarks—Line 23. If the total project period exceeds 17 months, you must enter your proposed non-Federal share of the project budget for each of the remaining years of the project.

3. Project Summary/Abstract

Clearly mark this separate page with the applicant name as shown in item 5 of the SF 424, the priority area number as shown at the top of the SF 424, and the title of the project as shown in item 11 of the SF 424. The summary description should not exceed 300 words. These 300 words become part of the computer database on each project.

Provide a summary description that accurately and concisely reflects the proposal. The summary should describe the objectives of the project, the approaches to be used and the expected outcomes. The description should also include a list of major products that will result from the proposed project, such as software packages, materials, management procedures, data collection instruments, training packages, or videos (please note that audiovisuals must be closed captioned and audio described). The project summary description, together with the information on the SF 424, will constitute the project "abstract." This is a major source of information about the proposed project and is usually the first part of the application that the reviewers read in evaluating the application.

4. Project Description

The Project Description is a very important part of an application. It should be clear, concise, and address the specific requirements mentioned under the priority area description in Part IV. The narrative should also provide information concerning how the application meets the evaluation criteria, using the following headings:

(a) Objectives and Need for Assistance;

(b) Results and Benefits Expected;

(c) Approach; and

(d) Organization Profile.

The specific information to be included under each of these headings is described in Section G of Part III, General Instructions for the Uniform Project Description, and under Part IV, and Evaluation Criteria.

The narrative should be typed double-spaced on a single-side of an 8½" × 11" plain white paper, with 1" margins on all sides, using black print no smaller than 12 pitch or 12 point size. All pages of the narrative (including charts, references/footnotes, tables, maps, exhibits, etc.) must be sequentially numbered, beginning with "Objectives and Need for Assistance" as page number one. Applicants should not submit reproductions of larger size paper, reduced to meet the size requirement.

The length of the application, including the application forms and all attachments, should not exceed 75 pages. This will be strictly enforced. A page is a single side of an 8½ × 11" sheet of paper. Applicants are requested not to send pamphlets, brochures or other printed material along with their application as these pose copying difficulties. These materials, if submitted, will not be included in the review process if they exceed the 75-page limit. Each page of the application will be counted to determine the total length.

5. Part V—Assurances/Certifications

Applicants are required to file a SF 424B, Assurances—Non-Construction Programs and the Certification Regarding Lobbying. Both must be signed and returned with the application. Applicants must also provide certifications regarding: (1) Drug-Free Workplace Requirements; and (2) Debarment and Other Responsibilities. These two certifications are self-explanatory. Copies of these assurances/certifications can be obtained from the ADD Web site, *http://www.acf.dhhs.gov/programs/add,* or by contacting Joan Rucker, ADD, 370 L'Enfant Promenade SW., Mailstop 300F, Washington, DC, 20447, 202/690-7447. These forms can be reproduced, as necessary. A duly authorized representative of the applicant organization must certify that the applicant is in compliance with these assurances/certifications. *A signature on the SF 424 indicates compliance with the Drug Free Workplace Requirements, and Debarment and Other Responsibilities certifications, and need not be mailed back with the application.*

In addition, applicants are required under section 162(c)(3) of the Act to provide assurances that the human rights of all individuals with

VOL 67 ISS 58 MR 26 2002 UMI

VOL
67
ISS
58
MR
26
2002
UMI

developmental disabilities (especially those individuals without familial protection) who will receive services under projects assisted under Part E will be protected consistent with section 110 (relating to the rights of individuals with developmental disabilities). Each application must include a statement providing this assurance.

For research projects in which human subjects may be at risk, a Protection of Human Subjects Assurance may be required. If there is a question regarding the applicability of this assurance, contact the Office for Research Risks of the National Institutes of Health at (301) 496–7041.

E. Checklist for a Complete Application

The checklist below is for your use to ensure that your application package has been properly prepared.

—One original, signed and dated application, plus two copies.Applications for different priority areas are packaged separately;
—Application is from an organization that is eligible under the eligibility requirements defined in the priority area description (screening requirement);
—Application length does not exceed 75 pages, unless otherwise specified in the priority area description.

A complete application consists of the following items in this order:

—Application for Federal Assistance (SF 424, REV 4–88);
—A completed SPOC certification with the date of SPOC contact entered in line 16, page 1 of the SF 424 if applicable.
—Budget Information—Non-Construction Programs(SF 424A, REV 4–88);
—Budget justification for Section B—Budget Categories;
—Proof of designation as lead agency;
—Table of Contents;
—Letter from the Internal Revenue Service, etc. to prove non-profit status, if necessary;
—Copy of the applicant's approved indirect cost rate agreement, if appropriate;
—Project Description (See Part III, Section C);
—Any appendices/attachments;
—Assurances—Non-Construction Programs (Standard Form 424B, REV 4–88);
—Certification Regarding Lobbying;
—Certification of Protection of Human Subjects, if necessary; and
—Certification of the Pro-Children Act of 1994 (Environmental Tobacco Smoke), signature on the application represents certification.

F. The Application Package

Each application package must include an original and two copies of the complete application. Each copy should be stapled securely (front and back if necessary) in the upper left-hand corner. All pages of the narrative (including charts, tables, maps, exhibits, etc.) must be sequentially numbered, beginning with page one. In order to facilitate handling, please do not use covers, binders or tabs. Do not include extraneous materials as attachments, such as agency promotion brochures, slides, tapes, film clips, minutes of meetings, survey instruments or articles of incorporation.

G. Paperwork Reduction Act of 1995 (Pub. L. 104–13)

The Uniform Project Description information collection within this announcement is approved under the Uniform Project Description (0970–0139), Expiration Date 12/31/2003.

Public reporting burden for this collection of information is estimated to average 10 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

(Federal Catalog of Domestic Assistance Number 93.631 Developmental Disabilities—Projects of National Significance)

Dated: March 19, 2002.

Patricia Morrissey,

Commissioner, Administration on Developmental Disabilities.

BILLING CODE 4184–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 02N–0102]

Agency Information Collection Activities; Proposed Collection; Comment Request; Guidance for Industry: Notification of a Health Claim or Nutrient Content Claim Based on an Authoritative Statement of a Scientific Body

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish a notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on the collection of information associated with the submission of notifications of health claims or nutrient content claims based on authoritative statements of scientific bodies of the U.S. Government.

DATES: Submit written or electronic comments on the collection of information by May 28, 2002.

ADDRESSES: Submit electronic comments on the collection of information to http://www.accessdata.fda.gov/scripts/oc/dockets/edockethome.cfm. Submit written comments on the collection of information to the Dockets Management Branch (HFA–305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. All comments should be identified with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Peggy Schlosburg, Office of Information Resources Management (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–1223.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed extension of existing collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Guidance for Industry: Notification of a Health Claim or Nutrient Content Claim Based on an Authoritative Statement of a Scientific Body (OMB Control No. 0910–0374)—Extension

Section 403(r)(2)(G) and (r)(3)(C) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 343(r)(2)(G) and (r)(3)(C)), as amended by the Food and Drug Administration Modernization Act of 1997 (FDAMA), provides that a food producer may market a food product whose label bears a nutrient content claim or a health claim that is based on an authoritative statement of a scientific body of the U.S. Government or the National Academy of Sciences. Under these sections of the act, a food producer that intends to use such a claim must submit a notification of its intention to use the claim 120 days before it begins marketing the product bearing the claim. In the **Federal Register** of June 11, 1998 (63 FR 32102), FDA announced the availability of a guidance entitled "Guidance for Industry: Notification of a Health Claim or Nutrient Content Claim Based on an Authoritative Statement of a Scientific Body." The guidance provides the agency's interpretation of terms central to the submission of a notification and the agency's views on the information that should be included in the notification. The agency believes that the guidance will enable food producers to meet the criteria for notifications that are established in section 403(r)(2)(G) and (r)(3)(C) of the act. In addition to the information specifically required by the act to be in such notifications, the guidance states that the notifications should also contain information on analytical methodology for the nutrient that is the subject of a claim based on an authoritative statement. FDA intends to review the notifications it receives to ensure that they comply with the criteria established for them by the act.

FDA estimates the burden of this collection of information as follows:

TABLE 1.—ESTIMATED ANNUAL REPORTING BURDEN[1]

Basis of Burden	No. of Respondents	No. of Responses per Respondent	Total Annual Responses	Hours per Response	Total Hours
Section 403(r)(2)(G) nutrient content claims	1	1	1	250	250
Section 403(r)(3)(C) health claims	2	1	2	450	900
Guidance for notifications	3	1	3	1	3
Totals	3	1	3		1,153

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

These estimates are based on FDA's experience with health claims and nutrient content claims and with other similar notification procedures that fall under its jurisdiction. Because the claims are based on authoritative statements of certain scientific bodies of the Federal Government or the National Academy of Sciences or one of its subdivisions, FDA believes that the information submitted with a notification will either be provided as part of the authoritative statement or readily available as part of the scientific literature to firms wishing to make claims. Presentation of a supporting bibliography and a brief balanced account or analysis of this literature should be fairly straightforward.

Dated: March 19, 2002.

Margaret M. Dotzel,

Associate Commissioner for Policy.

Food and Drug Administration

[Docket No. 98N–1215]

Agency Information Collection Activities; Announcement of OMB Approval; Foreign Establishment Registration and Listing

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a collection of information entitled "Foreign Establishment Registration and Listing" has been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995.

FOR FURTHER INFORMATION CONTACT: JonnaLynn P. Capezzuto, Office of Information Resources Management (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–4659.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 27, 2001 (66 FR 59138), the agency announced that the proposed information collection had been submitted to OMB for review and clearance under 44 U.S.C. 3507. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. OMB has now approved the information collection and has assigned OMB control number 0910–0483. The approval expires on March 31, 2005. A copy of the supporting statement for this information collection is available on the Internet at http://www.fda.gov/ohrms/dockets.

Dated: March 19, 2002.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 02N–0077]

Agency Emergency Processing Under OMB Review; Emergency Medical Device Shortage Program Survey

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for emergency processing under the Paperwork Reduction Act of 1995 (the PRA). The proposed collection of information concerns a telephone survey used to assist FDA in implementing an emergency medical device shortage program so that the agency can respond quickly to medical device shortages that might arise in the aftermath of a bioterrorist attack.

DATES: Submit written comments on the collection of information by April 25, 2002.

ADDRESSES: Submit written comments on the collection of information to the Office of Information and Regulatory Affairs, OMB, New Executive Office Bldg., 725 17th St. NW., rm. 10235, Washington, DC 10503, Attn: Stuart Shapiro, Desk Officer for FDA. All comments should be identified with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Peggy Schlosburg, Office of Information Resources Management (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–1223.

SUPPLEMENTARY INFORMATION: FDA has requested emergency processing of this proposed collection of information under section 3507(j) of the PRA (44 U.S.C. 3507(j) and 5 CFR 1320.13). This information is needed immediately so that the agency can respond quickly to medical device shortages that might arise in the aftermath of a terrorist attack.

FDA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Emergency Medical Device Shortage Program Survey

Under section 903(d)(2) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 393(d)(2)), the Commissioner of FDA is authorized to implement general powers (including conducting research) to carry out effectively the mission of FDA. Section 510 of the act (21 U.S.C. 360) requires that domestic establishments engaged in the manufacture, preparation, propagation, compounding, assembly, or processing of medical devices intended for human use and commercial distribution register their establishments and list the devices they manufacture with FDA. Section 522 of the act (21 U.S.C. 360(l)) authorizes FDA to require manufacturers to conduct postmarket surveillance of medical devices. Section 705(b) of the act (21 U.S.C. 375(b)) authorizes FDA to collect and disseminate information regarding medical products or cosmetics in situations involving imminent danger to health, or gross deception of the consumer. These sections of the act enable FDA to enhance consumer protection from risks associated with medical devices usage that are not foreseen or apparent during the premarket notification and review process.

FDA is compiling a list of medical devices that would be needed to treat patients in the event of a biological or chemical weapon attack. FDA plans to collect manufacturing and inventory information concerning the devices on this list, starting with those devices that are considered critical to patient care. This information will allow FDA to identify quickly sources and locations of medical devices in the event that they are needed in an emergency. It will also help to identify logistical problems in the event that borders are closed or transportation has been disrupted. In addition, FDA plans to maintain a list of telephone contacts for the manufacturers so that communication channels with manufacturers will be in place in the event that they are needed.

This telephone survey's primary respondents will be medical device manufacturers and wholesalers.

FDA estimates the burden of this collection of information as follows:

TABLE 1.—ESTIMATED ANNUAL REPORTING BURDEN [1]

Activity	No. of Respondents	Annual Frequency per Response	Total Annual Responses	Hours per Response	Total Hours
Telephone Survey	7,000	1	7,000	.1	700

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

FDA has based these estimates on conversations with industry and trade association representatives, and from internal FDA estimates.

The total number of manufacturers is estimated to be 70,000. FDA estimates that approximately 10 percent of these manufacturers would be contacted in a 1-year period, due to limitations on FDA staff. It is estimated also that the survey will take approximately 6 minutes to complete over the telephone. Therefore, 7,000 respondents (10 percent of the FDA manufacturer base) times 1/10 of an hour (i.e., 6 minutes) would equal a total of 700 hours.

Dated: March 19, 2002.

Margaret M. Dotzel,

Associate Commissioner for Policy.

[FR Doc. 02–7146 Filed 3–25–02; 8:45 am]

BILLING CODE 4160–01–S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Health Resources and Services Administration (HRSA) publishes abstracts of information collection requests under review by the Office of Management and Budget, in compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). To request a copy of the clearance requests submitted to OMB for review, call the HRSA Reports Clearance Office on (301)–443–1129.

The following request has been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1995:

Proposed Project: Hepatitis B and C Among Health Care for the Homeless Program Clients—New

The Health Care for the Homeless Clinicians' Network (HCHCN) of the National Health Care for the Homeless Council, Inc., through a cooperative agreement with the Bureau of Primary Health Care, Health Resources and Services Administration, proposes to conduct epidemiological research regarding hepatitis B and C. The study will be of adult homeless clients and will be conducted using laboratory tests and patient interviews. The study is designed to estimate the prevalence of lifetime hepatitis B and C infection among homeless adults and the rate of comorbidity of hepatitis B and C infection, identify high-risk groups, describe health service utilization specific to hepatitis B and C, and assess patient knowledge and attitudes regarding hepatitis B and C. The participants will be recruited from eight clinics of the national Health Care for the Homeless Program.

The estimated response burden is as follows:

Respondent	Number of respondents	Responses per respondent	Hours per response	Total hour burden
Clients	400	1	1	400

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: John Morrall, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503.

Dated: March 20, 2002.

Jane M. Harrison,

Director, Division of Policy Review and Coordination.

BILLING CODE 4165–15–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Program Support Center; Statement of Organization, Functions and Delegations of Authority

Part P (Program Support Center) of the Statement of Organization, Functions and Delegations of Authority for the Department of Health and Human Services (HHS) (60 FR 51480, October 2, 1995, and as last amended at 66 FR 58740–41, dated November 23, 2001) is being amended to reflect the following changes in Chapter PG within Part P, Program Support Center, HHS.

The changes to the above chapter establish Division-level organizations for the *Federal Occupational Health Service.*

Program Support Center

Under *Part P, Section P–20, Functions,* after the title and statement for *Chapter PG, Federal Occupational Health Service (PG)* add the following:

Office of the Director (PGA)

Provides executive direction, policy, guidance and supervision, and coordinates long- and short-range planning for the Federal Occupational Health Service (FOHS). In addition the office provides management expertise to the FOHS divisions in the areas of: fiscal controls, management information, program support services, operations support, and is responsible for FOHS' strategic planning and performance measurement. Operations consist of: (1) Evaluation and consultation of Federal managers concerning the management and delivery of the full scope of agency occupational health programs; (2) nationwide assistance in planning, implementing and monitoring health programs for Federal agencies on a reimbursable basis including improved environmental, educational, promotional, clinical, information management, and managerial services; (3) health evaluations, science and engineering assessments training, and demonstration projects; (4) developing standards and criteria; (5) promoting workforce productivity and reducing absenteeism, lost time and related Federal liability; (6) development and operation of shared services for contracting, cost comparison, analysis and program formulation; (7) maintaining relationships with health officials in other Federal agencies and private organizations; and (8) participating in Federal occupational health related policy and program development and implementation.

Division of Clinical Services (PGB)

Designs and delivers comprehensive occupational health clinical services (including wellness/fitness) throughout the Nation to assist client agencies to improve and maintain the physical health of their workforce and meet or exceed regulatory compliance standards regarding occupational health. Services are aimed at promoting healthy work and lifestyle habits and detecting and intervening in those conditions which are deleterious to wellness and productivity. Specifically: (1) Adopts standards of practice, protocols, and procedures by which clinical services are provided that meet or exceed the highest standards established by professional bodies representing appropriate clinical disciplines; (2) maintains a formal, written system of ancillary program policies to ensure that clinical services are delivered to all clients in accordance with interagency agreements, regardless of location or actual provider of service; (3) conducts periodic reviews and program audits, and uses total quality management/continuous quality improvement techniques to assure that the highest quality clinical services are delivered in a compliant, effective, efficient, and consistent manner; (4) conducts applied research, training, and demonstration projects to address clinical needs, including specific programs requested by clients; (5) designs and delivers customized programs and services including facility and workplace designs for clients with special needs; (6) develops methods for evaluation of clinical services and conducts such evaluations on request; (7) maintains clinical services information and records; and (8) assures that all clinical consultation and services have been fully reimbursed by customers.

Division of Employee Assistance Program Services (PGC)

Designs and delivers comprehensive employee assistance program (EAP) services throughout the Nation to assist clients with the complete spectrum of personal problems and workplace issues. Services are aimed at promoting healthy work and lifestyle habits and detecting and intervening in those conditions that are deleterious to wellness and productivity. Specifically: (1) Adopts standards of practice, protocols, and procedures by which EAP services are provided that meet or exceed the highest standards established by professional bodies representing appropriate EAP disciplines; (2) maintains a formal, written system of ancillary program policies to ensure that EAP services are delivered to all clients in accordance with interagency agreements, regardless of location or actual provider of service; (3) conducts periodic reviews and program audits, and uses total quality management/ continuous quality improvement techniques to assure that the highest quality EAP services are delivered in a compliant, effective, efficient, and consistent manner; (4) conducts applied research, training, and demonstration projects to address EAP needs, including specific programs requested by clients; (5) designs and specialized EAP agency standards, programs, and facility and workplace designs for clients with special needs; (6) develops and implements methods for evaluation of EAP services; (7) maintains EAP services information and records; and (8) assures that all EAP services have been fully reimbursed by customers.

Division of Environmental Health Services (PGE)

Designs and delivers comprehensive occupational health (EH) services throughout the Nation to assist clients with the complete spectrum of EH concerns. Services are aimed at promoting healthy work and lifestyle habits and detecting and intervening in those conditions which are deleterious to wellness and productivity. Specifically: (1) Adopts standards of practice, protocols, and procedures by which EH services are provided that meet or exceed the highest standards established by professional bodies representing appropriate EH disciplines; (2) maintains a formal, written system of ancillary program policies to ensure that EH services are delivered to all clients in accordance with interagency agreements, regardless of location or actual provider of service; (3) conducts periodic reviews and program audits, and uses total quality management/ continuous quality improvement techniques to assure that the highest quality EH services are delivered in a compliant, effective, efficient, and consistent manner; (4) conducts applied research, training, and demonstration projects to address EH needs, including specific programs requested by clients; (5) designs and specialized EH agency standards, programs, and facility and workplace designs for clients with special needs; (6) develops methods for evaluation of EH services and conducts such evaluations on request; (7) maintains the EH services information and records; and (8) assures that all clinical consultation and services have been fully reimbursed by customers.

Dated: March 19, 2002.

Curtis L. Coy,

Director, Program Support Center.

BILLING CODE 4168–17–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4463–N–09]

Notice of FHA Debenture Call

AGENCY: Office of the Assistant Secretary for Housing-FederalHousing Commissioner, HUD.

ACTION: Notice.

SUMMARY: This Notice announces a debenture recall of certain Federal Housing Administration (FHA) debentures, in accordance with authority provided in the National Housing Act.

FOR FURTHER INFORMATION CONTACT: Richard Keyser, Room 3119P, L'Enfant Plaza, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone (202) 755–7510, X137. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: In accordance with sections 204(c) and 207(j) of the National Housing Act, 12 U.S.C. 1710(c) and 1713(j), and in accordance with HUD's regulation at 24 CFR 203.409 and 207.259(e)(3), the Federal Housing Commissioner, with the approval of the Secretary of the Treasury, announces the call of all FHA debentures, with a coupon rate of 7.125 percent or above, except for those debentures subject to "debenture lock agreements", that have been registered on the books of the Bureau of Public Debt, Department of the Treasury, and are, therefore, "outstanding" as of March 29, 2002. The date of the call is July 1, 2002.

The debentures will be redeemed at par plus accrued interest. Interest will cease to accrue on the debentures as of the call date. Final interest on any called debentures will be paid with the principal at redemption.

During the period from the date of this Notice to the call date, debentures that are subject to the call may not be used by the mortgagee for a special redemption purchase in payment of a mortgage insurance premium.

No transfer of debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after May 15, 2002. This does not affect the right of the holder of a debenture to sell or assign the debenture on or after this date. Payment of final principal and interest due on July 1, 2002, will be made automatically to the registered holder.

Dated: March 20, 2002.

John C. Weicher,

Assistant Secretary for Housing, Federal Housing Commissioner.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–4572–D–20]

Delegation of Authority to Regional Directors

AGENCY: Office of the Secretary, HUD.

ACTION: Notice of Delegation of Authority to Regional Directors in the HUD Regional Offices.

SUMMARY: In this notice the Deputy Secretary, through the Assistant Deputy Secretary for Field Policy and Management, delegates operational management authority to the HUD Regional Directors. The delegation provides the authority necessary to manage programs and resources located in HUD regional and field offices nationwide. Currently the Regional Directors are located in Region I (Boston, MA); Region II (New York, NY); Region III (Philadelphia, PA); Region IV (Atlanta, GA); Region V (Chicago, IL); Region VI (Ft. Worth, TX); Region VII (Kansas City, KS); Region VIII (Denver, CO); Region IX (San Francisco, CA); and Region X (Seattle, WA). Pursuant to this authority, HUD Regional Directors are delegated specific authorities pertaining to cross program coordination, personnel management, administrative management, resource management, and representation regarding matters under their respective jurisdictions. Except as otherwise specified, Regional Directors are authorized to redelegate operational management authority to Field Office Directors under their respective jurisdictions. In accordance with this delegation, performance elements will be standardized for all field managers and supervisors. In addition to overall management and supervision, the elements shall include communication, customer service, representation, equal employment opportunity, and a subject-matter specific critical element. Regional Directors are also authorized to provide input into the performance assessment of program managers in their jurisdictions. To the extent practicable, 40% weight will be given to the assessment provided by the Regional Director. This delegation further authorizes the Regional Directors to enter into co-sponsorship agreements with the concurrence of the General Counsel and the relevant program Assistant Secretary or equivalent. Under this delegation, the title of the ten Field Assistant General Counsel is changed to Regional Counsel.

EFFECTIVE DATE: March 18, 2002.

FOR FURTHER INFORMATION CONTACT: Bob Etchison, Office of Field Policy and Management, Department of Housing and Urban Development, 451 7th Street, SW, Washington, DC 20410, (202) 708–1123. (This is not a toll-free number.) This number may be accessed via TTY by calling the Federal Information Relay Service at 1–800–877–8339.) Comments or questions can be submitted through the Internet to *Bob—Etchison@hud.gov.*

SUPPLEMENTARY INFORMATION: These Delegations of Authority are designed to improve efficiency, effectiveness, and accountability of management operations. They are intended to provide a managerial framework, promote customer service, and encourage coordination among and within the field offices.

Accordingly, the Deputy Secretary, through the Assistant Deputy Secretary for Field Policy and Management, delegates to each Regional Director authority within his or her respective jurisdiction as follows:

Section A: Authority Delegated

1. *Cross-Program Coordination.* Each Regional Director is delegated the following duties to aid cooperation among different programs, program directors, and offices:

- Developing and implementing Management Plans;
- Coordinating cross-program projects and Field Office Quality Management Reviews;
- Preparing briefing papers and hot issues documents;
- Leading disaster relief efforts; and
- Consulting with program directors on major program decisions. Regional Directors can trigger Headquarter's review of decisions made by program directors. Where the Regional Director and relevant program director disagree regarding a major program decision, the Assistant Deputy Secretary for Field Policy and Management may raise the matter with the relevant Assistant Secretary or equivalent. The relevant Assistant Secretary or equivalent makes the final determination, subject to review by the Deputy Secretary, if necessary.

2. *Personnel Management.* Each Regional Director is delegated the following personnel management responsibilities for field offices within his or her jurisdiction:

- Providing input on the performance ratings of managers and supervisors within the region. To the extent practicable, 40% weight will be given to the assessment provided by the Regional Director. The performance for the Directors of the Homeownership Centers; Troubled Agency Recovery Centers; Administrative Service Centers; Satellite Field Directors of the Departmental Enforcement Centers; and the Regional Counsel will be evaluated within their respective organizations, with consultation provided by the Assistant Deputy Secretary for Field Policy and Management;
- Approving short-term details across program area lines (up to sixty days);
- Approving leave requests for managers and supervisors;
- Regional Directors are authorized to serve as part of the recommending and hiring process for managers and supervisors within their respective jurisdictions. The Assistant Secretary, or equivalent, makes the final selection regarding their managers and supervisors;
- Acting as supervisor, or when necessary assigning a supervisor, to out-stationed staff; and
- Managing and conducting labor/ management relations.

3. *Administrative Management.* Each Regional Director is delegated the following administrative duties for field offices under his or her jurisdiction:

- Determining official office hours, opening, closing, and emergency procedures.

4. *Resource Management.* Each Regional Director is delegated the following resource allocation responsibilities under his or her jurisdiction:

- Managing the administrative budget, e.g., training, equipment, etc.;
- Approving program travel requests; and
- Redistributing up to 20% of travel funds among program areas.

5. *Representation.* Each Regional Director is delegated the following duties as the Region's primary contact person and HUD representative regarding:

- Developing and maintaining the lead point of contact with local officials;
- Maintaining the role as principal point of contact with industry groups;
- Managing all inquiries and correspondence, including Freedom of Information Act requests, Congressional and Intergovernmental communications;
- Responding to all media inquiries in conjunction with Headquarters and the Office of Public Affairs;
- Administering the local office's web page and internet sources;
- Monitoring and evaluating customer service; and
- Entering into co-sponsorship agreements, with the concurrence of the General Counsel and the relevant program Assistant Secretary or equivalent.

Section B: Authority Revoked

The redelegations of authority from the Assistant Secretaries to the Secretary's Representatives pertaining to the waiver of program directives and handbook provisions are revoked. These redelegations were published in the **Federal Register** at 61 FR 35800 (July 8, 1996) PIH; 61 FR 35801 (July 8, 1996) Housing; 61 FR 35802 (July 8, 1996) CPD; and 61 FR 35803 (July 8, 1996) FHEO. Today's delegation also revokes the further redelegations from the Secretary Representative to the Southeast/Caribbean State and Area Coordinators published in the **Federal Register** at 61 FR 59236 (November 21, 1996) Housing; 61 FR 59236 (November 21, 1996) PIH; 61 FR 59237 (November 21, 1996) FHEO; and FR 59237 (November 21, 1996) CPD. All previous delegated or redelegated authority inconsistent with this Delegation of Authority is hereby revoked.

Section C: Authority To Redelegate

This authority may be redelegated, as appropriate, from Regional Directors to Field Office Directors within their respective jurisdictions. The authority to enter into co-sponsorship agreements may not be redelegated below the level of Regional Director.

Authority: Section 7(d) of the Department of HUD Act, 42 U.S.C. 3535(d); 66 FR 18790, Delegation of Concurrent Authority to the Deputy Secretary (April 11, 2001).

BILLING CODE 4210–32–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Migratory Bird Hunting; Draft Environmental Impact Statement on Resident Canada Goose Management

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of meetings.

SUMMARY: The U.S. Fish and Wildlife Service (Service) has prepared a Draft Environmental Impact Statement (DEIS) on resident Canada goose management which is available for public review. The DEIS analyzes the potential environmental impacts of several management alternatives for addressing problems associated with overabundant resident Canada goose populations. The Service is issuing this notice to invite further public participation in the review process, identify the location, date, and time of public hearings, and identify the Service official to whom questions and comments may be directed.

DATES: Written comments regarding the DEIS should be submitted by May 30, 2002, to the address below. Dates for eleven public scoping meetings are identified in the **SUPPLEMENTARY INFORMATION** section.

ADDRESSES: Requests for copies of the DEIS should be mailed to Chief, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms 634—ARLSQ, 1849 C Street NW., Washington, DC 20240. Comments on the DEIS should be sent to the above address. Copies of the DEIS can be downloaded from the Division of Migratory Bird Management web site at *http://migratorybirds.fws.gov* Comments on the DEIS should be sent to the above address. Alternatively, comments may be submitted electronically to the following address: *canada_goose_eis@fws.gov*. Locations for eleven public hearings are identified in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Jon Andrew, Chief, Division of Migratory Bird Management, (703) 358–1714; or Ronald Kokel (703) 358–1714.

SUPPLEMENTARY INFORMATION: On August 19, 1999, a notice was published in the **Federal Register** (64 FR 45269) announcing that the Service intended to prepare an Environmental Impact Statement for resident Canada goose management. On March 1, 2002, the Environmental Protection Agency notified the public of the availability of the DEIS in the **Federal Register** (67 FR 9448). In the March 1, 2002 notice, we indicated that the comment period would end on May 30, 2002. This notice is provided pursuant to Fish and Wildlife Service regulations for implementing the National Environmental Policy Act of 1969 (40 CFR 1506.6).

Public Scoping Meetings

Eleven public hearings will be held on the following dates at the indicated locations and times:

1. April 1, 2002; Dallas, Texas, at the Hyatt Regency Downtown, 300 Reunion Boulevard, 7 p.m.
2. April 23, 2002; Palatine, Illinois, at the Holiday Inn Express, 1550 E. Dundee Road, 7 p.m.
3. April 24, 2002; Waupun, Wisconsin, at the Waupun High School, 801 E. Lincoln, 7 p.m.
4. May 7 2002; Franklin, Tennessee, at Franklin Cool Springs Marriott, 700 Cool Springs Blvd., 7 p.m.
5. May 14, 2002; Bloomington, Minnesota, at the Minnesota Valley National Wildlife Refuge Visitors Center, 3815 East 80th Street, 7 p.m.
6. May 15, 2002; Brookings, South Dakota, at Brookings Area Multiplex, 824 32nd Avenue, 7 p.m.
7. May 20, 2002; Richmond, Virginia, at the Comfort Inn Conference Center, 3200 W. Broad Street, 7 p.m.
8. May 21, 2002; Danbury, Connecticut, at the Holiday Inn, 80 Newtown Road, 7 p.m.
9. May 22, 2002; North Brunswick, New Jersey, at the Ramada Inn, 999 U.S. Route 1 South, 7 p.m.
10. May 29, 2002; Denver, Colorado, at the Colorado Department of Wildlife, Northeast Region Service Center, Hunter Education Building, 6060 Broadway, 7 p.m.
11. May 30, 2002; Bellevue, Washington, at the DoubleTree Hotel, 300—112th Avenue S.E., 7 p.m.

In order to be considered, comments must include your name and postal mailing address; we will not consider anonymous comments. All comments received, including names and addresses, will become part of the public record. The public may inspect comments during normal business hours in Room 634—Arlington Square Building, 4401 N. Fairfax Drive, Arlington, Virginia. Requests for such comments will be handled in accordance with the Freedom of Information Act and the Council on Environmental Quality's National Environmental Policy Act regulations (40 CFR 1506.6(f)). Our practice is to make comments available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. If a respondent wishes us to withhold his/her name and/or address, this must be stated prominently at the beginning of the comment.

The DEIS evaluates alternative strategies to reduce, manage, and control resident Canada goose populations in the continental United States and to reduce goose-related damages. The objective of the DEIS is to provide a regulatory mechanism that would allow State and local agencies, other Federal agencies, and groups and individuals to respond to damage complaints or damages by resident Canada geese. The DEIS is a comprehensive programmatic plan intended to guide and direct resident Canada goose population growth and management activities in the conterminous United States. The DEIS analyzes seven management alternatives: (1) No Action (Alternative A); (2) Increase Use of Nonlethal Control and Management (excludes all permitted activities) (Alternative B); (3) Increase Use of Nonlethal Control and Management (continued permitting of those activities generally considered nonlethal) (Alternative C); (4) New Regulatory Options to Expand Hunting Methods and Opportunities (Alternative D); (5) Integrated Depredation Order Management (consisting of an Airport Depredation Order, a Nest and Egg Depredation Order, a Agricultural Depredation Order, and a Public Health Depredation Order) (Alternative E); (6) State Empowerment (PROPOSED ACTION) (Alternative F); and (7) General Depredation Order (Alternative G). Alternatives were analyzed with regard to their potential impacts on resident Canada geese, other wildlife species, natural resources, special status species, socioeconomics, historical resources, and cultural resources.

Our proposed action (Alternative F) would establish a regulation authorizing State wildlife agencies (or their authorized agents) to conduct (or allow) management activities, including the take of birds, on resident Canada goose populations. Alternative F would authorize indirect and/or direct population control strategies such as aggressive harassment, nest and egg destruction, gosling and adult trapping and culling programs, expanded methods of take to increase hunter harvest, or other general population reduction strategies. The intent of Alternative F is to allow State wildlife management agencies sufficient flexibility, within predefined guidelines, to deal with problems caused by resident Canada geese within their respective States. Other guidelines under Alternative F would include criteria for such activities as special expanded harvest opportunities during a portion of the Migratory Bird Treaty closed period (August 1–31), airport, agricultural, and public health control, and the non-permitted take of nests and eggs.

Dated: March 7, 2002.
Steve Williams,
Director.

BILLING CODE 4310–55–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Roanoke River National Wildlife Refuge

ACTION: Notice of intent.

SUMMARY: This notice advises the public that the Fish and Wildlife Service intends to prepare an environmental impact statement to analyze the alternatives in the Draft Comprehensive Conservation Plan under development for the Roanoke River National Wildlife Refuge in North Carolina, pursuant to the National Environmental Policy Act and implementing regulations. Initial public scoping and review meetings were held in May 2001. A Wilderness Review of Roanoke River National Wildlife Refuge was conducted in accordance with the Wilderness Act of 1964, as amended, and Refuge Planning Policy 602 FW, Chapters 1, 2, and 3.

ADDRESSES: Comments and requests for information concerning this refuge may be addressed to: Bob Glennon, 1106 West Queen Street, PO Box 329, Edenton, North Carolina 27932; telephone 252/482–2364; fax 252/482–3855; cell 252/337–5284. Information concerning this refuge may be found at the following Web site: *http://rtncf-rci.ral.r4.fws.gov.*

If you wish to comment, you may submit your comments by any one of several methods. You may mail comments to the above address. You may also comment via the Internet to the following addresses: *bob_glennon@fws.gov* or *FW4_FR_Planning@fws.gov*. Please submit Internet comments as an ASCII file avoiding the use of special characters and any form of encryption. Please also include your name and return address in your Internet message. If you do not receive a confirmation from the system that we have received your Internet message, contact Bob Glennon directly at the above address. Finally, you may hand-deliver comments to Mr. Glennon at 1106 West Queen Street, Edenton, North Carolina. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law.

SUPPLEMENTARY INFORMATION: It is the policy of the Fish and Wildlife Service to have all lands within the National Wildlife Refuge System managed in accordance with an approved comprehensive conservation plan. The plan guides management decisions and identifies the goals, objectives, and strategies for achieving refuge purposes. Public input into this planning process is encouraged. The plan will provide other agencies and the public with a clear understanding of the desired conditions of the refuge and how the Service implements management decisions and sets forth goals, objectives, and strategies needed to accomplish refuge purposes and identify the Service's best estimate of future needs. These plans detail program planning levels that are sometimes substantially above current budget allocations and, as such, are primarily for Service strategic planning and program prioritization purposes. The plans do not constitute a commitment for staffing increases, operational and maintenance increases, or funding for future land acquisition. Roanoke River National Wildlife Refuge was established in August 1989, to protect and enhance wooded wetlands consisting of bottomland hardwoods and swamps with high waterfowl value along the Roanoke River.

Authority: The Service is furnishing this notice in compliance with the National Wildlife Refuge System Administration Act of 1966, as amended (16 U.S.C. 668dd *et seq.*), to (1) advise other agencies and the public of our intentions, and (2) to obtain suggestions and information on the alternatives to include in the environmental impact statement.

Dated: February 15, 2002.
Sam D. Hamilton,
Regional Director.

BILLING CODE 4310–55–M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Spokane Tribe of Indians Liquor Code

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This notice publishes the Spokane Tribal Liquor Code. The Code regulates the control, possession, and sale of liquor on the Spokane Tribe of Indians trust lands, in conformity with the laws of the State of Washington, where applicable and necessary. Although the Code was adopted on January 3, 2001, it does not become effective until published in the **Federal Register** because the failure to comply with the ordinance may result in criminal charges.

DATES: This Code is effective on March 26, 2002.

FOR FURTHER INFORMATION CONTACT: Kaye Armstrong, Office of Tribal Services, 1849 C Street NW., MS 4631–MIB, Washington, DC 20240–4001; telephone (202) 208–4400.

SUPPLEMENTARY INFORMATION: Pursuant to the Act of August 15, 1953, Public Law 83–277, 67 Stat. 586, 18 U.S.C. 1161, as interpreted by the Supreme Court in *Rice* v. *Rehner*, 463 U.S. 713 (1983), the Secretary of the Interior shall certify and publish in the **Federal Register** notice of the adopted liquor ordinances for the purpose of regulating liquor transaction in Indian country. The Spokane Tribal Liquor Code, Resolution No. 2001–098, was duly adopted by the Spokane Tribal Business Council on January 3, 2001. The Spokane Tribe of Indians, in furtherance of its economic and social goals, has taken positive steps to regulate retail sales of alcohol and use revenues to combat alcohol abuse and its debilitating effect among individuals and family members within the Spokane Tribe.

This notice is published in accordance with the authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 Departmental Manual 9.

I certify that by Resolution No. 2001–098, the Spokane Tribal Liquor Code, was duly adopted by the Spokane Tribal Business Council on January 3, 2001.

Dated: March 11, 2002.

Neal A. McCaleb,

Assistant Secretary—Indian Affairs.

The Spokane Tribal Liquor Code, Resolution No. 2001–098, reads as follows:

CHAPTER 24—LIQUOR CODE

Section 24–1. Purpose

The Spokane Tribe possesses the sovereignty to decide whether to allow liquor transactions on its Reservation. If the Spokane Tribe allows liquor transactions, it also possesses the sovereignty to regulate those transactions. By the enactment of this Code, the Spokane Tribe is permitting liquor transactions that are in conformity with this Code and 18 U.S.C. 1161. The Spokane Tribe also intends this Code to regulate and control the sale, distribution and possession of liquor. This code is adopted pursuant to Article VIII of the Constitution of the Spokane Tribe of Indians.

Section 24–2. Title and Jurisdiction

24–2.01. Title. This Chapter shall be known as the Spokane Tribal Liquor Code.

24–2.02. Jurisdiction. The Spokane Tribe of Indians enacts this Code to apply to all lands under its jurisdiction, namely all lands and water areas within the exterior boundaries of the Spokane Reservation, any extensions of the Reservation, and all Spokane Tribal and allotted Indian lands outside the exterior boundaries of the Spokane Indian Reservation, as well as those lands that fulfill the definition of Indian Country as defined in 18 U.S.C. 1151 and 1154.

Section 24–3. Definitions.

24–3.01. Definitions. For the purposes of this Chapter, unless otherwise required by the context, the following words and phrases shall have the designated meanings:

(1) *Alcohol.* That substance known as ethyl alcohol, hydrated oxide of ethyl, or spirit of wine, which is commonly produced by the fermentation or distillation of grain, starch, molasses, or sugar, or other substances including all dilutions and mixtures of this substance. This term does not include alcohol which is intended to be or has been denatured and used as a fuel for use in motor vehicles, farm implements and machines or implements of husbandry.

(2) *Beer.* Any beverage obtained by the alcoholic fermentation of an infusion or decoction of pure hops, or pure extract of hops and pure barley malt or other wholesome grain or cereal in pure water containing not more than 4% of alcohol by weight, and not less than one-half of 1% of alcohol volume. For purposes of this Chapter any such beverage, including ale, stout and porter containing more than 4% of alcohol by weight shall be regulated the same as beer.

(3) *Business Council.* The Spokane Tribal Business Council.

(4) *Commercial Sale.* The transfer, exchange or barter, in any manner or by any means whatsoever for a consideration, by any person, association, partnership, or corporation of liquor and beer products.

(5) *Licensed Operator.* That person licensed by the Spokane Liquor Commission to operate a liquor outlet.

(6) *Liquor.* Includes the four varieties of liquor herein defined (alcohol, spirits, wine and beer), and all fermented, spirituous, vinous, or malt liquor, or combinations thereof, and mixed liquor, a part of which is fermented, spirituous, vinous or malt liquor, or otherwise intoxicating; and every liquid or solid or semi-solid or other substance, patented or not, containing alcohol, spirits, wine and beer, and all drinks or drinkable liquids and all preparations or mixtures capable of human consumption, and any liquid, semi-solid, or other substance, which contains more than 1% of alcohol by weight shall be conclusively deemed to be intoxicating.

(7) *Liquor Outlet.* A tribally licensed retail sales business selling liquor products by the package or the drink on the lands under the jurisdiction of the Tribe and this Code.

(8) *Package.* Any container or receptacle used for holding liquor.

(9) *Public Place.* Includes streets and alleys of towns; highways or roads; buildings and grounds used for school purposes; public halls and grounds adjacent thereto; those parts of establishments where beer or liquor may be sold under this title, soft drink establishments, public buildings, public meeting halls, lobbies, halls of tribal buildings, restaurants, theaters, stores, garages and filling stations which are open to and are generally used by the public and to which the public is permitted to have unrestricted access; publicly owned parks and/or playgrounds; tribal fairgrounds, and all other places of like or similar nature to which the general public has unrestricted right of access, and which are generally used by the public.

(10) *Regulations.* Those rules and policy regulations made by the Spokane Liquor Commission.

(11) *Spirits.* Any beverage which contains alcohol obtained by distillation, including wines exceeding 24% of alcohol by volume.

(12) *Spokane Liquor Commission.* The Board that shall administer this Chapter and is empowered as set out in Section 24–4 of this Chapter.

(13) *Tribe.* The Spokane Tribe of Indians.

(14) *Wine.* Any alcoholic beverage obtained by fermentation of fruits (grapes, berries, apples, et. cetera) or other agricultural product containing sugar, to which any saccharine substances may have been added before, during or after fermentation, and containing not more than twenty-four percent of alcohol by volume, including sweet wines fortified with wine spirits, such as port, sherry, muscatel and angelica, not exceeding twenty-four percent of alcohol by volume.

Section 24–4. Membership and Powers of the Spokane Liquor Commission

24–4.01. Membership. The Spokane tribal Business Council shall be the Spokane Liquor Commission. The Council may, if it so wishes, appoint others as a Commission to serve in its stead. That Commission shall be composed of no less than five and no more than seven members.

24–4.02. General Powers. The Commission is empowered to:

(1) Administer this Code by exercising general control, management, and supervision of all liquor sales, places of sale and sales outlets as well as exercising all powers necessary to accomplish the purposes of this Code;

(2) Adopt and enforce rules and regulations in furtherance of the purposes of this Code and in the performance of its administrative functions;

(3) License each liquor outlet within the jurisdiction of the Spokane Tribe of Indians;

(4) Examine the records of each liquor outlet at a time and place convenient to both the licensed operator and the Commission;

(5) Revoke any license issued to a liquor outlet at its informed discretion;

(6) Inspect the physical premises of each liquor outlet;

(7) Designate any area, upon application of the owner, where public consumption of liquor may occur;

Section 24–5. Licensing of Liquor Outlet

24–5.01. License Required. Each liquor outlet is required to possess a license granted by the Commission.

Section 24–6. Application for Liquor Outlet License

24–6.01. Application. Applications for a liquor outlet license may be obtained at the Tribal Office. Completed applications shall be submitted to the Liquor Commission. Members of the Spokane Tribe of Indians shall have preference over other applicants for licenses.

24–6.02. Application Fee. Each application shall be accompanied by an application charge or fee of $100.00, which shall be non-refundable, even if the applicant is not granted a license. The application fee for special use liquor license to be issued under 24–6.04 shall be $15.00.

24–6.03. Grant of License. The Commission shall review the application and may, if it deems necessary, request additional information and documentation from the applicant. If the Commission is satisfied that the applicant is a suitable and reputable person, the Commission may issue a license for the sale of liquor products. The Commission shall state on the license whether the license is for the sale of liquor by the drink, by the package, or both. A license shall only entitle the operator to one outlet. A license may be granted for the sale of only beer or wine by the drink.

24–6.04. License Renewal. A license shall be issued for the period of two years. This license shall be non-transferrable. The license shall be renewable every two years at the discretion of the Commission, with the operator filing a new application and paying the filing fee. The Commission may also issue a special use liquor permit to persons paying the necessary application fee under 24–6.02 for a maximum period of three (3) days as long as the liquor to be sold or distributed is in conjunction with regularly scheduled community or social events.

24–6.05. Limitation on Licenses. The Commission shall carefully limit the number of licenses and limit the location of the licenses to protect the health, safety and welfare of the people. The number and location of the licenses is within the sole discretion of the Commission.

24–6.06. Designation of Public Use Area. An applicant may apply for a designation as a public use area. The applicant shall be responsible for obtaining a liquor license and shall so indicate in its application that the application is for the purpose of consumption of liquor on the premises. All provisions of this Chapter shall apply to any area so designated unless specifically excluded.

Section 24–7. Restrictions on Liquor Outlets

24–7.01. Sales to Minors. No licensed operator shall give, sell or otherwise supply liquor to any person under 21 years of age, either for his or her own use or for the use of his or her parents or for the use of any other person.

24–7.02. Consumption of Liquor Upon Licensed Premises Prohibited. No licensed operator shall permit any person to open or consume liquor on his or her premises or any premises adjacent thereto and in his or her control, unless the operator has a license to sell liquor by the drink or has otherwise been designated under this chapter as a location where public consumption of liquor may occur.

24–7.03. Conduct on Licensed Premises

(1) No Tribal operator shall be disorderly, boisterous or intoxicated on the licensed premises or on any public premises adjacent thereto which are under his or her control, nor shall he or she permit any disorderly, boisterous or intoxicated person to be thereon; nor shall he or she use or allow the use of profane or vulgar language thereon.

(2) No operator or employee shall consume liquor, beer or wine while working on the licensed premises.

(3) No operator shall permit suggestive, lewd or obscene conduct or acts on his or her premises.

24–7.04. Employment of Minors. No person under the age of 21 years shall be employed in any service in connection with the sale or handling of liquor, either on a paid or voluntary basis, except as otherwise provided herein. Employees 18 years or older may sell and handle beer or wine not to be consumed on the premises provided that there is direct supervision by an adult 21 years of age or older.

24–7.05. Display of License. Any Tribal operator issued a license shall frame under glass and display the license on the premises.

24–7.06. Operator's Premises Open to Commission Inspection. The premises of all Tribal operators, including vehicles used in connection with liquor sales, shall be open at all times to inspection by the Commission.

24–7.07. Hours of Operation. All liquor outlets, with the exception of grocery stores or convenience stores selling only beer or wine, shall close by 3:00 a.m. and not reopen before 6:00 a.m.

24–7.08. Records Confidential. All records of the Commission shall be confidential.

Section 24–8. Sovereign Immunity Preserved

24–8.01. No Waiver of Sovereign Immunity. Nothing in this Chapter is intended or shall be construed as a waiver of the sovereign immunity of the Spokane Tribe of Indians or its officials. No official, agent or employee of the tribe is authorized, nor shall he or she attempt, to waive the immunity of the Tribe or its officials.

Section 24–9. Tribal Liability and Credit

24–9.01. No Liability by Tribe. An operator is forbidden to represent or give the impression to any supplier or any other person with whom he or she does business that he or she is an official representative of the Tribe or Commission authorized to pledge Tribal credit or financial responsibility for any of the expenses of his or her business operation. The operator shall hold the Spokane Indian Tribe and the Spokane Liquor Commission harmless from all claims of liability of whatever nature.

Section 24–10. Insurance

24–10.01. Insurance. The operator shall maintain at his or her expense adequate insurance covering liability, fire, theft, vandalism and other insurable risks. The Commission or the Tribal Business Committee may establish as a condition of any license higher limits and any additional coverage it deems advisable.

Section 24–11. Revocation of Operator's License

24–11.01. Grounds for Revocation. Failure of an operator to abide by the provisions of this Chapter and any additional regulations or requirements imposed by the Spokane Liquor Commission will constitute grounds for revocation of the operator's license.

24–11.02. Notice of Revocation. If by a majority vote of the members of the Spokane Liquor Commission, it is decided that grounds exist for the revocation of a license of any operator, notice shall be given to the operator of a hearing at which the grounds and evidence of such a revocation shall be presented by the Commission, and an opportunity shall be presented to the operator to answer any charges, produce evidence, and make argument on his or her behalf. Such hearing shall be held within ten days of such notice, but may be continued to a later date if both the Commission and the operator consent.

24–11.03. Request for a Rehearing. If after notice and hearing, the Commission revokes an operator's license, the operator may within ten days after such revocation, petition the Commission for a rehearing. The

VOL
67
ISS
58
MR
26
2002
UMI

petition shall state the basis for a rehearing, including all newly discovered evidence or information not before the Commission at the first hearing. The Commission shall grant or deny the request for a rehearing within twenty days of the receipt of the petition.

24–11.04. Judicial Review of Revocation. An operator whose license was revoked may petition the Spokane Tribal Court for review of the decision within twenty days of the written decision of the Commission. The appeal shall be on the record and shall not be heard de novo. If the Court finds that the order of the Spokane Liquor Commission was arbitrary and capricious, clearly erroneous, in violation of the Constitution of the Spokane Tribe of Indians, in violation of the Constitutional rights of Indians as set forth in 25 U.S.C. 1301–1303, made upon unlawful procedures or some other error of law, the Court shall vacate the order of the Commission and remand to the Commission for the re-issuance of a license.

24–11.05. Scope of Review Limited to Issue of Revocation. By authorizing such a review of its decision, the Spokane Tribe is not waiving its sovereign immunity explicitly or implicitly, but providing operators with a judicial review of its decisions. Thus suits against the Spokane tribe of Indians or its officials for damages or any other relief are not authorized by this Chapter.

24–11.06. Judicial Review Not Granted to Those Denied a License Upon Application. An application for a liquor license is a privilege and not a right. Thus a simple denial of an application for a license is not entitled to judicial review in the Spokane Tribal Court.

24–11.07. Emergency Powers. If for an extremely serious reason, such as the keeping of the peace or the health and welfare of the people, the Commission finds it necessary to close the premises of a liquor outlet, it may do so provided that a hearing is provided to the licensed operator within three days (excluding weekends and holidays) of the closing of the liquor outlet.

Section 24–12. Violations

24–12.01. Any person(s) who shall violate any provision of this Chapter shall be subject to one or all of the following civil remedies:

(1) A civil penalty of up to $500.00 per occurrence per day and confiscation of all proceeds of such activities.

(2) A civil injunction against continued violations of this Chapter.

(3) Exclusion from the Spokane Reservation in conformity with Chapter 21 of the Spokane Tribal Code.

(4) If licensed operators, the revocation of the liquor outlet license.

Section 24–13. Severability

24–13.01. Severability. If any provision of this Chapter or its application to any person or circumstance is held invalid, the remainder of the Chapter or the application of the provision to other persons or circumstances is not affected.

Section 24–14. Previous Liquor Codes and Ordinances Abrogated

24–14.01. Previous Code Provisions Abrogated. It is the intent of the Spokane Indian Tribe and of the Spokane Business Committee that this liquor code cited above totally supersedes and stands in the place of any previously existing codes and ordinances relating to liquor.

DEPARTMENT OF THE INTERIOR

National Park Service

General Management Plan Abbreviated Final Environmental Impact Statement Death Valley National Park, California/Nevada; Notice of Approved Record of Decision

SUMMARY: The Department of the Interior, National Park Service, has prepared a Record of Decision on the Final General Management Plan and Abbreviated Final Environmental Impact Statement for Death Valley National Park. The Record of Decision includes background on the conservation planning effort, a description of the decision made and synopses of other alternatives considered, the basis for the decision, findings on impairment of park resources and values, a description of the environmentally preferable alternative, a discussion of measures to minimize environmental harm, and an overview of public and agency involvement in the decision-making process. The new General Management Plan will be used by park staff as a "blueprint" for managing the park over the next 10–15 years.

Decision (Selected Action): As detailed in the Record of Decision, the National Park Service (NPS) will implement Alternative 1, the proposed action, described in the Revised Draft Environmental Impact Statement and General Management Plan and the Abbreviated Final Environmental Impact Statement and General Management Plan. As a public service subsequent to the approval of the Record of Decision, the NPS will excerpt and reprint the final General Management Plan (the selected alternative) as a stand-alone Presentation Plan document. The selected alternative was both the agency-preferred alternative and the environmentally preferred alternative.

The selected plan represents the best mix of actions, policies, and strategies for the management of Death Valley National Park, given diverse public opinion and varying mandates. The General Management Plan (GMP) envisions the park as a natural environment and a cultural landscape (an arid ecosystem overlain by many layers of human occupation and use from prehistoric to historic to the present time), where the protection of native desert ecosystems and processes is assured for future generations. The protection and perpetuation of native species in a self-sustaining environment is a primary long-term goal. The GMP seeks to manage the park to perpetuate the sense of discovery and adventure that currently exists. This means limiting new development inside the park. The GMP envisions adjacent "gateway" communities as providing increased support services (food, gas, and lodging) for visitors, but also seeks to retain current opportunities for roadside camping, backcountry camping, and access to the backcountry via existing primitive roads, consistent with the NPS mission. The current park management strategies and policies will apply to the new park lands and put in place the necessary planning and management components to adequately address the Wilderness designation of 95% of the park lands. The GMP also fulfills the NPS mission of resource preservation and provision of visitor services while achieving other mandates from Congress. A stated goal of the GMP is to seek funding to purchase private property within the park from willing sellers.

Other Alternatives Considered: In addition to the proposal, other alternatives considered included "existing management" and an "optional management" approach. The existing management alternative (Alternative 2) describes the continuation of current management strategies. It is commonly referred to as the no-action or status quo alternative. It provides a baseline from which to compare other alternatives, to evaluate the magnitude of proposed changes, and to assess the potential environmental

effects of those changes. This "no new actions" concept follows the guidance of the Council on Environmental Quality, which describes the No Action Alternative as no change from the existing management direction or level of management intensity. It does not mean that no agency management actions would be taken. Death Valley National Park would continue managing the park according to policies and strategies identified in the 1989 GMP.

The optional approach (Alternative 3) is similar to the proposed action, except this alternative identifies the closing and restoration to a natural condition of the Chicken Strip airstrip at Saline Valley (adversely affecting those people who visit the area by airplane). This alternative also proposes closing the historic Emigrant campground because of potential flood hazards. All areas within the Eureka-Saline wilderness road corridor would be open for roadside camping. Designated car camping sites would be established in the area of the Saline Valley warm springs. Additional distinctions were detailed in the approved Record of Decision.

Basis for Decision: The selected GMP provides a logical, systematic and proactive approach to management of the Park in compliance with NPS laws, regulations and policies. The further rationale for selecting Alternative 1 over the no-action Alternative is based on the lessened environmental impacts that would be anticipated to occur by seeking funds and implementing activities identified in the proposed plan. Public opinion also helped inform the NPS's preferred approach over Alternative 3. In particular, preserving the natural quiet and sounds associated with the physical and biological resources of the park, management of Wilderness for maximum protection, funding of the full removal of feral burros, enhanced interpretive information to educate the public on desert ecosystems, geological processes, and the prehistoric, historical and Native American record, and improved administrative operations are among the key elements of the new GMP.

No Impairment of Park Resources and Values: The NPS may not allow the impairment of park resources and values unless directly and specifically provided for by legislation or by the proclamation establishing the park. Impairment that is prohibited by the NPS's Organic Act and the General Authorities Act is an impact that, in the professional judgment of the responsible manager, would harm the integrity of park resources or values, including the opportunities that otherwise would be present for the enjoyment of those resources or values. In determining whether impairment may ensue from an action, park managers consider duration, severity, and magnitude of the impact; resources and values affected; and direct, indirect, and cumulative effects of the action. According to NPS Policy, "An impact would be more likely to constitute an impairment to the extent that it affects a resource or value whose conservation is: (a) Necessary to fulfill specific purposes identified in the establishing legislation or proclamation of the park; (b) Key to the natural or cultural integrity of the park or to opportunities for enjoyment of the park; or (c) Identified as a goal in the park's general management plan or other relevant National Park Service planning documents." (NPS Management Policies, 2001).

This policy does not prohibit impacts to park resources and values. The NPS has the discretion to allow impacts to park resources and values when necessary and appropriate to fulfill the purposes of a park, so long as the impacts do not constitute impairment. Moreover, an impact is less likely to constitute impairment if it is an unavoidable result of an action necessary to preserve or restore the integrity of park resources or values.

Human activity and past development have resulted in the ongoing disruption of natural systems and processes in Death Valley National Park for generations. The no-action alternative would result in future unplanned and uncoordinated actions that are merely reactive to immediate concerns. Furthermore, these actions would likely be responsive to immediate, short-term, adverse impacts that demand attention, but may result in long term impairment to park values and resources. Thus, the ability of the public to experience, understand, appreciate, and enjoy the park could be impaired under the no-action alternative.

The NPS has determined that implementing Alternative 1 will not constitute an impairment to Death Valley National Park's resources and values. This conclusion is based on a thorough analysis of the environmental impacts described in the Revised Draft EIS/GMP, the Abbreviated Final EIS/GMP, the public comments received, relevant scientific studies, and the professional judgment of the decision-maker guided by the direction in NPS Management Policies. While the plan may result in some minor negative impacts, in all cases these adverse impacts are the result of proactive strategies intended to implement the NPS mission, policies, and regulations in the management of Death Valley National Park. None of the proposals would result in impacts that would impair the integrity of park resources or values, including opportunities that would otherwise be present for the enjoyment of those resources or values. Overall, the plan results in major, long-term benefits to park resources and values and opportunities for their enjoyment; it does not result in their impairment.

The actions comprising Alternative 1 will achieve the goals of the California Desert Protection Act and NPS management policies (which include protecting and enhancing the natural and cultural resources of Death Valley and providing opportunities for high-quality, resource-based visitor experiences) in a comprehensive, integrated manner that takes into account the interplay between resource protection and visitor use. Actions implemented under Alternative 1 that would cause overall negligible adverse impacts, minor adverse impacts, short term impacts, and beneficial impacts to park resources and values, as described in the Revised Draft EIS/GMP and the Abbreviated Final EIS/GMP, will not constitute impairment. This is because these impacts have limited severity and/or duration and will not result in appreciable irreversible commitments of resources. Beneficial effects identified during the NEPA process include effects related to removal of exotic burros and protecting threatened park resources and values. Beneficial effects do not constitute impairment.

The collective actions discussed in Alternative 1 are proposed as a means of managing Death Valley National Park in a manner that would result in a protected native desert ecosystem that functions without interference from human activities, while allowing visitor use and Congressionally mandated resource consumptive activities. While some of these activities may seem contrary to the NPS preservation mission (e.g. grazing, mining), Congress specifically provides for these activities (under NPS regulation) in the park pursuant to the California Desert Protection Act. These activities may only be allowed subject to other applicable laws and regulations. This proposal outlines management strategies for these activities, and others, that would be implemented to minimize potential impacts from these activities to levels below the threshold of impairment. For example, all future mining operations would be required to undergo NPS review and impact analysis under 36 CFR part 9, subpart A. Also, a grazing management plan would

VOL
67
ISS
58
MR
26
2002
UMI

be developed to manage the one remaining cattle grazing permit so that park resources are protected. The proposed actions included in this alternative would establish an overall management approach that would allow activities to occur in the park without impairing the integrity of park resources or values, including opportunities that would otherwise be present for the enjoyment of those resources or values.

In addition, the NPS has determined that the environmentally preferable alternative is Alternative 1. In aggregate, Alternative 1 best achieves the six conditions prescribed under § 101 of NEPA. While some of the actions in other alternatives may be similar to Alternative 1 in their effect and consequence, Alternative 1: (1) Provides the highest level of protection of natural and cultural resources while concurrently attaining the widest range of beneficial uses of the environment without degradation; (2) maintains an environment that supports diversity and variety of individual choice; and (3) integrates resource protection with opportunities for an appropriate range of visitor uses.

Measures to Minimize Environmental Harm: The NPS investigated all practical means to avoid or minimize environmental impacts that could result from implementating the various actions. The measures are fully incorporated into Alternative 1 (as analyzed in the Revised Draft EIS/GMP and the Abbreviated Final EIS/GMP (see Appendix E in Revised Draft EIS/GMP). Monitoring and enforcement programs will supplement the implementation of mitigation measures. These programs will assure compliance monitoring, biological and cultural resource protection, traffic management, noise and dust abatement, noxious weed control, pollution prevention measures, visitor safety and education, and other mitigation measures. Mitigation measures will also be applied to all future actions that are guided by this plan. In addition, the NPS will conduct specific compliance reviews (i.e., National Environmental Policy Act, Wilderness Act, National Historic Preservation Act, Endangered Species Act, and other relevant legislation) for any future actions.

Background of Planning Process: This extensive conservation planning effort was prompted by the enactment of the California Desert Protection Act (CDPA) on October 31, 1994. CDPA transferred over 3 million acres of California desert lands from the Bureau of Land Management (BLM) to the NPS and designated nearly 8 million acres of Wilderness on NPS and BLM lands. In addition, CDPA redesignated Death Valley as a national park (likewise Joshua Tree National Park, and Mojave National Preserve was created). Wide ranging changes confronting the management of the public lands in the California desert, including increasing wildland development, mounting public use pressures, the formal listing of the desert tortoise, and passage of CDPA itself prompted NPS, BLM, and U.S. Fish and Wildlife Service desert managers to address these and other anticipated changes through development of updated or new management plans.

The significant expansion of Death Valley National Park with 1.3 million additional acres and the designation of over 95% of the park's lands as Wilderness clearly warranted the development of a new general management plan (GMP) to update and replace a 1989 GMP written for the former Monument. The GMP will serve as the overall management strategy for the next 10–15 years, and is a "blueprint" under which more detailed activity or implementation plans are to be prepared (the new GMP is general rather than specific in nature, and focuses on purposes of the unit, significant attributes, overall mission of the agency, what activities are appropriate within these constraints, resource protection strategies, provides guidelines for visitor use and development of facilities for visitor enjoyment and administration of the park). The goal of the GMP is to determine how best to manage the park to meet Congressional intent as expressed in the CDPA and the mission of the NPS. It was the stated intention of this conservation planning effort to explore only alternatives that would result in an implementable management plan for the park. Alternatives that would require legislation before they could be implemented, were contrary to specific Congressional direction or NPS regulations or policy, or require vast sums of funding to implement, would create unreasonable expectations on the part of the public and would not serve the need of creating an implementable management plan for this unit. Therefore, only alternatives that explore the range of options for managing uses mandated by Congress were evaluated.

Preparation of this GMP began in 1995 with the selection and stationing of a planning team in Barstow, California. The Notice of Intent was published in the **Federal Register** on September 5, 1995. The planning team conducted 20 public scoping meetings in September 1995 and April 1997 to gather public input on the management direction for the park and BLM lands. In addition, a number of agency scoping meetings were held. From this input and meetings with interested parties (such as county departments, special interest groups, state agencies, Native American tribes, etc.) and discussions with NPS and BLM staff, proposed management plans were developed.

In September 1998 the Draft Environmental Impact Statement/ General Management Plan (EIS/GMP) was released for public review. Approximately 450 printed copies (and 100 CD–ROMs) of the Draft EIS/GMP were distributed for review; the entire document was also posted on the internet with links from the park's homepage and the Northern and Eastern Mojave planning page. The notice of filing of the Draft EIS/GMP was published in the **Federal Register** by the Environmental Protection Agency (EPA) on September 11, 1998 (FR 48727). Written comments were accepted from September 11, 1998, through January 15, 1999, a period of 127 days. Eleven public meetings were held in October 1998 throughout the planning region of southern California and southern Nevada. In addition, the planning team participated in numerous meetings of the Death Valley Advisory Commission to obtain their feedback, concerns, and direction regarding the development of the GMP. Death Valley received approximately 600 comment letters from government agencies, tribes, interest groups, and individuals. In addition, members of environmental groups sent approximately 1,800 identical postcards. Several additional letters and postcards were received after the closing date for public comments.

Due to the large number of substantial changes required as a result of public comment on the 1998 Draft EIS/GMP, the NPS decided to rewrite the document. In September 2000, a Revised Draft Environmental Impact Statement and General Management Plan was released for 92 days of public review. Responses to written public comments on the 1998 Draft EIS/GMP were addressed in a separately bound report. A notice of filing was published in the **Federal Register** by the EPA on September 6, 2000 (FR 54062–54064). Eleven more public meetings on the revised materials were held in southern California and southern Nevada during October and November 2000. During the public comment period, a total of 47 written comments were received. All substantive comments on the 1998 Draft DEIS/GMP were addressed in a separate document that was made available concurrent with the Revised EIS/GMP.

After consideration of substantive public comments on the Revised EIS/ GMP (which surfaced no new major issues or information gaps), the NPS decided to prepare an Abbreviated Final Environmental Impact Statement and General Management Plan, dated June 2001. The abbreviated format was used because changes to the revised draft document were minor and confined primarily to factual corrections, which do not modify the analysis. This abbreviated format requires that the material be integrated with the Revised Draft Environmental Impact Statement and General Management Plan to comprise the full record of the environmental impact analysis and public comment.

Conclusion: Alternative 1 provides the most comprehensive and proactive strategy among the alternatives considered for meeting the NPS's purposes, goals, and criteria for managing Death Valley National Park in accordance with Congressional direction, federal laws, and NPS management policies. The selection of Alternative 1, as reflected by the analysis contained in the environmental impact statement, would not result in the impairment of park resources and would allow the NPS to conserve park resources and provide for their enjoyment by visitors. To obtain a copy of the Presentation Plan document when it becomes available, or for the complete Record of Decision at this time, requests may be sent to the Superintendent, Death Valley National Park, Death Valley, California, 92328.

Dated: September 27, 2001.

Patricia L. Neubacher,

Acting Regional Director, Pacific West Region, National Park Service.

BILLING CODE 4310–70–P

DEPARTMENT OF THE INTERIOR

National Park Service

Grand Portage National Monument, MN; General Management Plan

AGENCY: National Park Service, Interior.

ACTION: Notice of availability of the draft general management plan/draft environmental impact statement for Grand Portage National Monument, Minnesota.

SUMMARY: Pursuant to section 102(2) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of the draft general management plan/draft environmental impact statement (DGMP/DEIS) for Grand Portage National Monument (hereafter "the Monument"). This notice also announces public open houses for the purpose of explaining the DGMP/DEIS and receiving public comments on the DGMP/DEIS.

DATES: There will be a 60-day public review period for comments on this DGMP/DEIS. Comments on the DGMP/ DEIS must be received 60-days after the Environmental Protection Agency publishes its notice of availability in the **Federal Register** or following an announcement in local papers, whichever is published later. Public open houses for information about, or to make comment on the DGMP/DEIS will be held in Grand Marais and other locations within the State of Minnesota. Information about time and place will be available by contacting the park at the address below. Open house schedules will be published in state and local papers.

ADDRESSES: Copies of the DCMP/DEIS are available by request by writing to Grand Portage National Monument, P.O. Box 668, Grand Marais, MN 55604–0668, by phone 218–387–2788. The document can be picked-up in person at the Monument's Headquarters, 315 S. Broadway, Grand Marais, MN.

FOR FURTHER INFORMATION CONTACT: Superintendent, Grand Portage National Monument, P.O. Box 668, Grand Marais, MN 55604–0668, or at telephone number 218–387–2788.

SUPPLEMENTARY INFORMATION: The purpose of the general management plan is to set forth the basic management philosophy for the Monument and to provide the strategies for addressing issues and achieving identified management objectives. The DDMP/ DEIS describes and analyzes the environmental impacts of a proposed action and three action alternatives for the future management direction of the Monument. A no action alternative is also evaluated. The preferred alternative, Alternative E, is an alternative that was developed to combine actions from the other alternatives to achieve desired results. It would include a year-round heritage center and an Ojibwe Culture Center. Alternative B would attempt to transport visitors back to the 1790's, with maritime transportation along the historic waterfront and additional interpretation of Lake Superior and connecting waterways. Visitors could learn about the maritime aspects of the fur trade, as well as about the Ojibwe culture and heritage. Alternative C would offer a multifaceted visitor experience: several newly reconstructed structure and interpretive exhibits, a combined heritage center/headquarters open year-round, and an Ojibwe Heritage Cultural Center. Interpretation would encompass prehistoric, historic, and contemporary activities. Alternative D would include a large multifunctional heritage center, which would offer a glimpse into the history of the Grand Portage and its inhabitants. Alternative A is the no-action alternative, which provides a baseline for comparing other action alternatives.

Persons wishing to comment may do so by one of several methods. They may attend the open house noted above. They may mail comments to Superintendent, Grand Portage National Monument, P.O. Box 668, Grand Marais, MN 55604–0668. They also may hand-deliver comments to the Grand Portage National Monument headquarters located at 315 S. Broadway, Grand Marais, MN.

If individuals submitting comments request that their name and/or address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently in the beginning of the comments. As always, the NPS will make available to public inspection all submissions from organizations or businesses and from persons identifying themselves as representatives or officials of organizations and businesses. Anonymous comments will not be considered.

The responsible official is Mr. William Schenk, Midwest Regional Director, National Park Service.

Dated: January 22, 2002.

David N. Given,

Acting Regional Director, Midwest Region.

[FR Doc. 02–7256 Filed 3–25–02; 8:45 am]

BILLING CODE 4310–70–M

DEPARTMENT OF THE INTERIOR

National Park Service

Environmental Statements; Notice of Intent

AGENCY: National Park Service, Interior.

ACTION: Notice of intent to prepare a general management plan and environmental impact statement for Fallen Timbers Battlefield and FortMiamis National Historic Site, Ohio.

SUMMARY: The National Park Service (NPS) will prepare a general management plan (GMP) and an associated environmental impact statement (EIS) for Fallen Timbers Battlefield and Fort Miamis National Historic Site in accordance with section

VOL
67
ISS
58
MR
26
2002
UMI

102(2)(C) of the National Environmental Policy Act of 1969 (NEPA). This notice is being furnished as required by NEPA Regulations 40 CFR 1501.7.

To facilitate sound planning and environmental assessment, the NPS intends to gather information necessary for the preparation of the EIS, and to obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS. Comments and participation in this scoping process are invited.

Participation in the planning process will be encouraged and facilitated by various means. Notification of all public involvement opportunities will be announced in the local press and in NPS mailings. To begin the public process, the NPS will conduct a scoping meeting to explain the planning effort and to solicit opinion about issues to address in the GMP/EIS.

DATES: Two public scoping meetings will be held on Tuesday, March 12, 2002. An afternoon session will be held from 3:30 p.m. to 5:30 p.m.; and an evening session will be held from 7:00 p.m. to 9:00 p.m. Both meetings will be held at the Toledo-Lucas County Public Library, Maumee Branch, 501 River Road, Maumee, Ohio. More information about the meetings is available from the Site Manager, Metroparks of the Toledo Area, at the address and telephone number below.

ADDRESSES: Written comments and information concerning the scope of the EIS and other matters, or requests to be added to the project mailing list should be directed to: Public Information Officer, Metroparks of the Toledo Area, 5100 West Central Avenue, Toledo Ohio 43615; phone: 419–535–3057 extension 126.

FOR FURTHER INFORMATION CONTACT: Metroparks of the Toledo Area, Public Information Officer, at the address and telephone number above.

SUPPLEMENTARY INFORMATION: Public Law 106–164, signed into law on December 9, 1999, provides for the establishment of Fallen Timbers Battlefield and Fort Miamis National Historic Site as an affiliated unit of the National Park System. The purpose of the National Historic Site is to recognize, preserve, interpret and link Fort Miamis and the Fallen Timbers Battlefield. The Battle of Fallen Timbers played an important role in the history of the Nation's early Northwest frontier and was the culminating event which demonstrated the tenacity of the American people in their efforts to expand settlement westward through the struggle for dominance of the Old Northwest Territory.

In accordance with NPS Park Planning policy, the GMP will ensure the Historic Site has a clearly defined direction for resource preservation and visitor use. It will be developed in consultation with servicewide program managers, interested parties, and the general public. It will be based on an adequate analysis of existing and potential resource conditions and visitor experiences, environmental impacts, and costs of alternative courses of action.

The environmental review of the GMP/EIS for the Historic Site will be conducted in accordance with requirements of the NEPA (42 U.S.C. 4371 et seq.), NEPA regulations (40 CFR 1500–1508), other appropriate Federal regulations, and National Park Service procedures and policies for compliance with those regulations.

Dated: January 22, 2002.

David N. Given,

Acting Regional Director.

BILLING CODE 4310–70–P

DEPARTMENT OF THE INTERIOR

National Park Service

Environmental Statement; Notice of Intent

AGENCY: National Park Service, Interior.

ACTION: Notice of intent to prepare a general management plan and environmental impact statement for First Ladies National Historic Site, Ohio.

SUMMARY: The National Park Service (NPS) will prepare a general management plan (GMP) and an associated environmental impact statement (EIS) for First Ladies National Historic Site, Ohio, in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA). This notice is being furnished as required by NEPA Regulation 40 CFR 1501.7.

To facilitate sound planning and environmental assessment, the NPS intends to gather information necessary for the preparation of the EIS, and to obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS. Comments and participation in this scoping process are invited.

Participation in the planning process will be encouraged and facilitated by various means. Notification of all public involvement opportunities will be announced in the local press and in NPS mailings. To begin the public process, the NPS will conduct a scoping meeting to explain the planning effort and to solicit opinion about issues to address in the GMP/EIS.

DATES: A public scoping meeting will be held on Monday, February 25, 2002 at 2:00 p.m. at the Saxton House, 331 S. Market Avenue, Canton, Ohio. More information about the meetings is available from the Site Manager, First Ladies National Historic Site, at the address and telephone number below.

ADDRESSES: Written comments and information concerning the scope of the EIS and other matters, or requests to be added to the project mailing list should be directed to: Ms. Carol J. Spears, Site Manager, First Ladies National Historic Site, 8095 Mentor Avenue, Mentor, OH 44060. Telephone: 440–974–2993.

FOR FURTHER INFORMATION CONTACT: Site Manager, First Ladies National Historic Site, at the address and telephone number above.

SUPPLEMENTARY INFORMATION: First Ladies National Historic Site was established to preserve and interpret the role and history of First Ladies for the benefit, inspiration, and education of the people of the United States.

In accordance with NPS Park Planning policy, the GMP will ensure the National Historic Site has a clearly defined direction for resource preservation, visitor use, and facilities development. It will be developed in consultation with servicewide program managers, interested parties, and the general public. It will be based on an adequate analysis of existing and potential resource conditions and visitor experiences, environmental impacts, and costs of alternative courses of action.

The environmental review of the GMP/EIS for the historic site will be conducted in accordance with requirements of the NEPA (42 U.S.C. 4371 *et seq.*), NEPA regulations (40 CFR 1500–1508), other appropriate Federal regulations, and NPS procedures and policies for compliance with those regulations.

Dated: January 18, 2002.

David N. Given,

Acting Regional Director, Midwest Region.

BILLING CODE 4310–70–M

DEPARTMENT OF THE INTERIOR

National Park Service

Rosie the Riveter/World War II Home Front National Historical Park; Richmond, California; Notice of Intent To Prepare an Environmental Impact Statement

SUMMARY: In accordance with § 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4321 *et. seq.*), the National Park Service (NPS) is undertaking a conservation planning and environmental impact analysis process to determine what approaches to take concerning resource protection and visitor use in the development of the Rosie the Riveter/World War II Home Front National Historical Park in Richmond, Contra Costa County, California. Notice is hereby given that a public scoping process has been initiated to prepare an Environmental Impact Statement (EIS) and General Management Plan (GMP). The purpose of the scoping process is to elicit public comment regarding the spectrum of issues and concerns, including a suitable range of alternatives, and the nature and extent of potential environmental impacts and appropriate mitigation strategies which should be addressed in the planning and environmental analysis process.

Background

As authorized by Pub. L. 106–352, the NPS is preparing a General Management Plan for the Rosie the Riveter/World War II Home Front National Historical Park in Richmond, California. The Rosie the Riveter/World War II Home Front National Historical Park includes the Ford Assembly Building, the Richmond Shipyard #3 (currently known as the Port of Richmond, Terminals 5, 6 and 7), the Maritime and Ruth Powers Child Development Centers, Atchison Village housing, Kaiser Field Hospital, Fire Station 67A, the Rosie the Riveter Memorial, the S.S. Red Oak Victory, and city parks referred to in the authorizing legislation as Shimada Peace Memorial Park, Westshore Park (now known as Lucretia Edwards Park), Sheridan Observation Point Park, Vincent Park, and the Bay Trail/Esplanade. The National Park Service does not own or manage these sites, but is authorized to interpret the story of Rosie the Riveter and the World War II home front, conduct and maintain oral histories, operate an education center, provide visitor services, provide technical assistance, enter into agreements to support preservation and interpretation, and acquire technical assistance, enter into agreements to support preservation and interpretation, and acquire certain structures from willing sellers. The NPS will work in cooperation with the public and private owners of these sites to plan for and encourage their preservation and use.

Pub. L. 106–352 requires the General Management Plan to include a plan to preserve the historic setting of the Rosie the Riveter/World War II Home Front National Historical Park, which must be jointly developed and approved by the City of Richmond. Legislation also requires the General Management Plan to include a determination of whether there are additional representative sites in Richmond that should be added to the park, or sites elsewhere in the United States that relate to the industrial, governmental, and citizen efforts during World War II that should be linked to and interpreted at the park.

In preparing the General Management Plan, the NPS will develop management prescriptions for each area of the park. These management prescriptions will specify desired resource conditions, desired visitor experiences, and appropriate types and levels of management, use and development. The General Management Plan will serve as a blueprint for the next ten to fifteen years to guide park management decisions relating to park operations, facilities, staffing, interpretation and community involvement.

Scoping Comments

Formal scoping for the General Management Plan and EIS is hereby initiated. Public meetings will be held at various locations in Richmond, CA, and in other parts of the San Francisco Bay Area, with locations and dates to be determined. These public meetings will be announced via local and regional news media and by direct mail. All interested individuals, organizations and agencies wishing to provide comments, suggestions, or relevant information, or those wishing to be added to the project mailing list, should respond to: National Park Service, Attn: Martha Crusius, Planning and Partnerships, 1111 Jackson St. #700, Oakland, CA 94607. All written comments must be postmarked not later than August 30, 2002.

If individuals submitting comments request that their name or/and address be withheld from public disclosure, their requests will be honored to the extent allowable by law. Such requests must be available to public inspection all submissions from organizations or businesses and from persons identifying themselves as representatives or officials of organizations and businesses. Anonymous comments may not be considered.

Decision Process

Availability of the draft GMP/EIS for review and written comment will be announced by **Federal Register** notice, via local and regional news media, and direct mailing. At this time the draft GMP/EIS is anticipated to be available for public review in 2003, and that subsequently a final GMP/EIS will be completed in 2004. To afford additional opportunity to comment on the draft GMP/EIS after it is distributed, public meetings will be held in the City of Richmond and San Francisco Bay Area (dates and locations to be determined). Notice of the availability of the final GMP/EIS will likewise be published in the **Federal Register**. As this is a delegated EIS, the official responsible for approval is the Regional Director, Pacific West Region, National Park Service; subsequently the official responsible for implementation will be the Superintendent of Rosie the Riveter/World War II Home Front National Historical Park.

Dated: January 11, 2002.

John J. Reynolds,

Regional Director, Pacific West Region.

BILLING CODE 4310–70–P

DEPARTMENT OF THE INTERIOR

National Park Service

Fire Management Plan; Santa Monica Mountains National Recreation Area Lost Angeles and Ventura Counties, California; Notice of Scoping to Prepare Environmental Document

SUMMARY: Notice is hereby given, in accordance with the provisions of the National Environmental Policy Act (42 U.S.C. 4321 *et. seq.*) that public scoping has been initiated for a conservation planning and impact analysis process for updating the current fire management plan at Santa Monica Mountains National Recreation Area. The purpose of the scoping process is to elicit early public comment regarding issues and concerns, a suitable range of alternatives and appropriate mitigating measures, and the nature and extent of potential environmental impacts which should be addressed.

Background: The Santa Monica Mountains National Recreation Area is a 150,000 acre unit of the National Park System. Naturally occurring fire is an

VOL
67
ISS
58
MR
26
2002
UMI

important ecological process in maintaining the native plant communities of the park, but wildfire poses a hazard to life and property at the urban/wildland interface areas. The park has had a fire management program since 1986; the plan was updated in 1994. The park utilizes a limited number of forms of fire management to achieve natural and cultural resource management and hazard fuel reduction goals including complete suppression, prescribed burning and mechanical fuel reduction.

The current environmental impact analysis of the park's fire management program was initiated in 1986 and culminated in a Finding Of No Significant Impact. Since that time, a spectrum of new issues, improved information, and unforeseeable constraints have emerged which have the potential to affect the future direction of the fire management program within the park. Some of these factors include but are not limited to: a potential decline in ecosystem health due to anthropogenically increased fire frequency, increased hazards and costs associated with fire suppression at the urban/wildland interface, and more stringent air quality regulations.

Information and Comment: As noted, the National Park Service will undertake a conservation planning and environmental impact analysis effort to address issues and concerns regarding any update in the current fire management program, and identify new alternatives for fire management in the Santa Monica Mountains National Recreation Area. At this time, it has not been determined whether an Environmental Assessment or Environmental Impact Statement will be prepared, however, this scoping process will aid in this determination.

As an early step in this undertaking, a series of four public scoping meetings will be conducted in April, 2002. California cities where scoping meetings will be held are: Calabasas/Agoura Hills, Malibu, Beverly Hills, and Thousand Oaks. For those unable to attend meetings, a scoping document will be available upon request. The main topics to be addressed in the scoping document and meetings are: background information on the fire management program; a review of relevant policy and law affecting the fire management program; an assessment of current fire management needs; and the identification of issues and potential alternatives related to future fire management in the park. All interested individuals, organizations, and agencies are encouraged to provide comments or suggestions. Written comments regarding the fire management program update must be postmarked no later than August 31, 2002.

For confirmed details about the scoping meetings, or to request a copy of the scoping background material and provide comments, please contact: Superintendent, Santa Monica Mountains National Recreation Area; Attn: Corrina Marote B—Fire Management Plan; 401 West Hillcrest Drive, Thousand Oaks, California 91360 or via telephone at (805) 370–1845.

If individuals submitting comments request that their name or/and address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently in the beginning of the comments. There also may be circumstances wherein the NPS will withhold a respondent's identity as allowable by law. As always: NPS will make available to public inspection all submissions from organizations or businesses and from persons identifying themselves as representatives or officials of organizations and businesses; and, anonymous comments may not be considered.

Decision: The official responsible for final approval is the Regional Director, Pacific West Region, National Park Service. Subsequently, the official responsible for implementation would be the Superintendent, Santa Monica Mountains National Recreation Area. The draft fire management plan and environmental document are expected to be available for public review in June, 2002. At this time it is anticipated that the final plan and environmental document are to be completed in October, 2002.

Dated: February 8, 2002.

John J. Reynolds,

Regional Director, Pacific West.

[FR Doc. 02–7249 Filed 3–25–02; 8:45 am]

BILLING CODE 4310–70–P

DEPARTMENT OF THE INTERIOR

National Park Service

General Management Plan; Middle and South Forks Kings River Wild and Scenic River Comprehensive Management Plan; North Fork Kern River Wild and Scenic River Comprehensive Management Plan; Sequoia and Kings Canyon National Parks Tulare and Fresno Counties, California; Notice of Intent to Prepare an Environmental Impact Statement

SUMMARY: The National Park Service (NPS) will prepare Comprehensive Management Plans for the Middle and South Forks Kings River and the North Fork Kern River, which in 1987 were designated as components of the National Wild and Scenic Rivers System. The purpose of these Comprehensive Management Plans is to provide direction and overall guidance on managing these wild and scenic rivers within the boundaries of Sequoia and Kings Canyon National Parks. These plans will be prepared concurrently with the park's ongoing General Management Plan (GMP), in accord with 40 CFR 1501.7 and 40 CFR 1508.22 of the regulations of the President's Council on Environmental Quality for the National Environmental Policy Act of 1969 (Pub.L. 91–190). This notice supersedes a previous Notice of Intent which was published in the October 28, 1997 **Federal Register** (V62.N208.PP55827–28). The forthcoming Environmental Impact Statement (EIS) for the GMP will be expanded to include Comprehensive Management Plans for these river segments.

Background

Congress directed the NPS to revise the GMP for these parks to recognize these designations. The EIS will include an evaluation of the potential impacts, if any, and appropriate mitigation strategies, associated with implementing Comprehensive Management Plans (CMP) for wild and scenic river management. The CMPs will establish boundaries and identify appropriate classification of segments, and the GMP and CMPs will ensure that no development or use of park lands will be undertaken that is inconsistent with the designation of these river segments.

Comments

Comments concerning the scope of the CMPs, and any new information regarding the GMP, are encouraged at this time. Scoping comments regarding the GMP received previously are recorded in the administrative record and will also continue to be addressed (a synopsis of issues and concerns received overall will be available). Written comments concerning the CMPs or/and GMP should be sent to: Superintendent, Sequoia and Kings Canyon National Parks, 47050 Generals Highway, Three Rivers, CA 93271–9651. All written responses must be postmarked not later than March 29, 2002. For additional info, or requests to be added to the project mailing list, contact Dr. David Graber, GMP Coordinator, at the above address or via telephone at (559) 565–3173.

If individuals submitting comments request that their name or/and address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently in the beginning of the comments. There also may be circumstances wherein the NPS will withhold a respondent's identity as allowable by law. As always: NPS will make available to public inspection all submissions from organizations or businesses and from persons identifying themselves as representatives or officials of organizations and businesses; and, anonymous comments may not be considered.

Decision

As a delegated EIS, the official responsible for the final decision is the Regional Director, Pacific West Region; subsequently the official responsible for implementation is the Superintendent, Sequoia and Kings Canyon National Parks. At this time it is anticipated that the Draft EIS for the GMP/CMPs will be available for public review in the fall of 2002. Distribution of the document will be duly noted in the **Federal Register** and announced via local and regional press. Thereafter the Final EIS would be completed in the spring of 2003.

Dated: January 16, 2002.

Cynthia Ip,

Acting Regional Director, Pacific West Region.

BILLING CODE 4310–70–P

DEPARTMENT OF THE INTERIOR

National Park Service

Funding Assistance for Non-Federal Acquisition of Civil War Battlefield Land

AGENCY: National Park Service, Interior.

ACTION: Availability of Funding for Acquisition of Civil War Battlefield Land.

SUMMARY: The National Park Service (NPS) announces the availability of funds to assist States and local communities in acquiring for permanent protection lands, or interests in lands, at significant Civil War battlefield sites.

ADDRESSES: Funding proposals should be mailed to: Hampton Tucker, National Park Service, Heritage Preservation Services, 1849 C Street, NW., NC 200, Washington, DC, 20240, telephone (202) 343–3580.

FOR FURTHER INFORMATION CONTACT: Paul Hawke, National Park Service, Heritage Preservation Services, 1849 C Street, NW., NC 200, Washington, DC, 20240, telephone (202) 343–1005.

SUPPLEMENTARY INFORMATION: The National Park Service's American Battlefield Protection Program (ABPP) announces the availability of funds from the Land and Water Conservation Fund to help States and local communities acquire and preserve our nation's threatened Civil War Battlefields, as authorized by the FY 2002 Department of the Interior Appropriations Act (Pub. L. 107–63). The $11 million available for matching grants will be administered by the ABPP and awarded through a competitive process over three years (fiscal years 2002 through 2004). Each grant requires a dollar-for-dollar non-Federal match. Grants are available for the fee simple acquisition of land, or for the acquisition of permanent, protective interests in land, at Civil War Battlefields listed in the Civil War Sites Advisory Commission's (CWSAC) 1993 Report on the Nation's Civil War Battlefields. Higher consideration will be given to proposals for acquisition at battlefields defined as Priority 1 or 2 sites in the CWSAC Report. The CWSAC Report and a listing of battlefields' priority status can be found on the ABPP's Web site at *http://www2.cr.nps.gov/abpp/priority.htm.*

Who May Apply

Battlefield Land Acquisition Grants will be awarded to units of State and local governments. In any case where a private non-profit organization seeks to acquire battlefield land with assistance from this program, that organization must apply in partnership with a State or local government agency. The government agency may then subgrant the federal funds to the non-profit organization. In any case where a local government or a private non-profit organization acquires land or an interest in land with assistance from this program, it must convey an acceptable perpetual protective easement on the land to the State Historic Preservation Officer or other governmental agency acceptable to the National Park Service, in accordance with the Administrative Requirements set out below.

What Is Funded

Grants must be used to acquire battlefield land or to acquire a permanent, protective interest (i.e., a perpetual easement) in battlefield land. Additional costs associated with the acquisition—such as appraisal costs, survey fees, title insurance, and other closing costs—are also eligible grant costs. Eligible battlefields are those listed in the CWSAC's 1993 Report on the Nation's Civil War Battlefields. CWSAC Priority 1 & 2 sites will be given highest consideration. Eligible acquisitions should lie within the "core" areas of these battlefields, as defined by the CWSAC. Proposals for acquisition of battlefield land outside the "core" area but within the "study" area as defined by the CWSAC are eligible but will be considered a lower priority than "core" area land. Land lying entirely outside of the CWSAC "study area" is not eligible for assistance from this program. In any case where the land proposed for acquisition lies partially within the study area and partially outside the study area, the majority of the land must be within the study area. Contact the ABPP to confirm core and study area boundaries. There is no minimum grant request. Typically, $500,000 will be the maximum award, though NPS will entertain larger requests under special circumstances. Past acquisition grants have ranged from $50,000 to $500,000, with an average grant of $220,000.

Ordinarily, grant funds will be awarded for acquisitions that take place following the award of the grant. However, a State or local government may apply on behalf of a non-profit organization that has borrowed money in order to acquire land immediately in order to prevent its imminent sale for development, provided that the land in question is not currently protected by public ownership of a permanent, protective interest in the land. Grant assistance for the retirement of such privately held debt must result in the public ownership of either the fee simple interest or a permanent, protective interest in the land, in accordance with the other terms of this offering. However, the fact of such prior purchase creates no additional priority for funding assistance from NPS.

Administrative and Funding Requirements

- A dollar-for-dollar non-Federal match is required for all projects; Federal appropriations or other Federal grants may not be used for match. Matching funds should be "in-hand" or otherwise committed at the time that the acquisition proposal is submitted to NPS. NPS will accept proposals from applicants who have not yet secured their matching share, but it reserves the right to provide such applicants with a conditional response pending the availability of matching funds within a specified period of time. If partners will not commit matching funds without the leverage provided by this acquisition grant, applicants may provide a letter from potential funding sources guaranteeing that receipt of a battlefield acquisition grant will release matching funds.

VOL
67
ISS
58
MR
26
2002
UMI

• Section 6.f. of the Land and Water Conservation Act requires that the land acquired with these funds shall not be converted to other uses without the express written consent of the Secretary of the Interior, but must be preserved in perpetuity. These provisions must be included in any conveyance documents of land or interests in lands acquired with grant funds. All Battlefield Acquisition grantees must agree that a permanent record will be kept in the relevant public property records and be available for public inspection to the effect that this property was acquired with Federal assistance, and that it will not be converted to other than preservation uses without the written approval of NPS. All grantees further agree, therefore, that the appropriate remedy in the event of a breach by the grantee of this agreement shall be the specific performance of this agreement, and that the amount of the grant cannot be repaid to negate the requirements of this agreement.

• Because the Section 6.f. "non-conversion" clause noted above is not necessarily sufficient to protect the historic features of the battlefield, NPS also requires that all Battlefield Acquisition grantees or subgrantees must encumber the title to the acquired battlefield property with a preservation easement running with the land, in favor of and enforceable in court by the State Historic Preservation Office, or by another government agency acceptable to NPS, in perpetuity. In cases where a State government agency will acquire and manage the property, the State must enter into a letter of agreement with NPS, stating that the State will preserve and maintain the property and its historic features for future generations. This letter will be recorded with the deed for the property and will run with the land in perpetuity.

• The fundamental purpose of the Land and Water Conservation Fund is to assist in the acquisition and/or development of public outdoor recreation areas. Accordingly, grantees must provide for the appropriate public access to and enjoyment of any lands or interests in lands acquired with assistance from this program, subject to necessary and reasonable measures on the part of the grantee to protect the historic features of the battlefield from damage or loss.

• Prior to the expenditure of grant funds for the purchase of real property, a current appraisal must be obtained. This appraisal must have an effective date within 180 calendar days of the signing of the contract to purchase the property. A professional appraiser licensed and certified in accordance with Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA), as amended, in the State where the appraised property is located must perform the appraisal. A copy of the appraisal must be submitted to NPS for review to support the proposed acquisition cost. Appraisal preparation, documentation and reporting must be made in conformance with the standards and practices of the Uniform Appraisal Standards for Federal Land Acquisitions (UASFLA), as codified in 49 CFR 24.103, and the Uniform Standards of Professional Appraisal Practices (USPAP Standards 1 and 2) published by the Interagency Land Acquisition Conference. A copy of the appraisal standards can be obtained from the Department of Justice Web site at *http://www.usdoj.gov/enrd/land-ack/fwd*. Appraisals will be reviewed by NPS for conformance with the Federal appraisal requirements. The cost of the appraisal is an allowable cost for this grant.

• Grantees may not charge costs for administering the project to the grant or to the required matching share.

Proposal Package

Each proposal should include the following elements (all must be present before the proposal will be accepted by the ABPP):

(1) CWSAC Priority Listing and Map

The applicant must include the CWSAC priority listing and document that the proposed acquisition lies within the battlefield core and/or study area, as defined by the CWSAC. Applicants must submit a USGS quadrangle map with the boundaries of the proposed acquisition clearly drawn.

(2) Threat to the Battlefield

The applicant must demonstrate that the battlefield is imminently threatened. The nature, the extent, and the level of severity of the threat to the battlefield must be clearly and convincingly stated. Further, the applicant must describe how and to what extent the proposed acquisition addresses the described threat.

(3) Ability to Secure Non-Federal Match

An applicant that has secured matching funds must list all sources of those funds. The applicant must certify that the non-federal matching funds are either "in-hand" or otherwise committed in writing at the time of application. Third-party matching share commitments must be documented by letter from the third party. Matching share commitments contingent upon receipt of federal funds from this program are acceptable.

An applicant that has not yet secured matching funds must submit a specific, credible plan for raising the necessary matching funds. The plan must identify potential sources of funds. It must include a proposed schedule, usually not more than 120 days, for securing funds or commitments of funds.

(4) Immediacy of Acquisition

The applicant must demonstrate that the owner of the property to be acquired is willing to sell the land at an agreed-upon price. Acceptable documentation includes a contract or contingent contract to buy the land, or a letter from the owner indicating willingness to enter into such a contract at a specified price. The applicant should include a schedule for completion of the acquisition within the near future.

For Additional Information

Questions and requests may be addressed to Paul Hawke, Chief, American Battlefield Protection Program, at 202–343–1005.

Proposal Submission

Proposal packages must be submitted in hard copy. Faxed proposals and proposals submitted electronically will not be accepted. Incomplete proposals will not be considered. Unsuccessful applicants may resubmit a more complete proposal for consideration in a later round of awards.

A complete proposal package contains all of the following items

• A carefully drawn map on a USGS Quadrangle Map that defines the boundaries of the battlefield and identifies within those boundaries the specific lands to be acquired.

• A statement defining the threat to the battlefield. The statement should highlight the impact of this threat on the proposed acquisition parcel.

• A statement from the property owner indicating a willingness to sell or to negotiate for the sale of the property.

• A list of sources of the required non-Federal matching share. Verification of the availability of these funds must be included with this proposal.

Application Deadlines

Applicants may submit their proposals to NPS at any time. Applications for Priority 1 and 2 battlefields will be reviewed as they are received. NPS will notify the applicant of its decision within 30 days of receipt of the application. Applications for Priority 3 and 4 battlefields will be reviewed every four months beginning on June 1, 2002, and thereafter on October 1, 2002, February 1, 2003, June 1, 2003, and October 1, 2003, or until funds are no longer available. For example, a Priority 3 or 4 application received on June 2, 2002 would not be reviewed until October 1, 2002. NPS will notify Priority 3 and 4 applicants of its decision within 45 days of the pertinent deadline above.

Dated: February 13, 2002.

Hampton Tucker,

Grants Management Specialist, Heritage Preservation Services.

DEPARTMENT OF JUSTICE

Federal Bureau of Investigation

Agency Information Collection Activities: New Collection, Comments Requested

ACTION: 60 Day emergency notice of information collection under review: new collection; voluntary appeal file brochure.

The Department of Justice (DOJ), Federal Bureau of Investigation (FBI) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with emergency review procedures of the Paperwork Reduction Act of 1995. OMB approval has been requested by March 1, 2002. The proposed information collection is published to obtain comments from the public and affected agencies. If granted, the emergency approval is only valid for 180 days. Comments should be directed to the OMB, Office of Information and Regulatory Affairs, Attn: Department of Justice Desk Officer, (202) 395–6466, Washington, DC, 20530.

During the first 60 days of this same review period, a regulator review of this information collection is also being undertaken. All comments and suggestions, or questions regarding additional information, to include obtaining a copy of the proposed information collection instrument with instructions, should be directed to Natalie Goff-Haggerty, Program Analyst, Federal Bureau of Investigation, CJIS Division, Module A–3, 1000 Custer Hollow Road, Clarksburg, West Virginia 26306, or facsimile at (304) 625–2356.

Request written comments and suggestions from the public and affected agencies concerning the proposed collection of information. Your comments should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of the information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information:

(1) *Type of Information Collection:* New data collection.

(2) *Title of the Form:* Voluntary Appeal File Brochure.

(3) *Agency Form Number, if any, and the applicable component of the department sponsoring the collection:* Form Number: None.

Sponsor: Criminal Justice Information Services Division of, Federal Bureau of Investigation, Department of Justice

(4) *Affected Public who will be asked or required to respond, as well as a brief abstract: Primary:* Any individual requesting entry into the FBI/NICS Voluntary Appeal File (VAF).

Brief Abstract: Under the NICS final rule, 28 CFR 25.9(b)(1), (2), (3), published on (DATE), the NICS must destroy all identifying information on allowed transactions before the start of the next NICS operational day. If a potential purchaser is delayed or denied a firearm, then successfully appeals the decision, the NICS would not be able to retain the record(s) of the appeal or any supporting documentation/information. The purchaser would be continually if the record could not be updated, would be required to appeal the decision and resubmit documentation/information to overtime the appeal on subsequent purchases. The proposed change in the regulation would permit lawful purchasers to request that the NICS maintain documentation/information on the individual in a VAF will be maintained by the NICS for the purpose of preventing the future lengthy delays or denials of a firearm transfer.

The application contained on the VAF brochure will be the means for an individual to request entry into the VAF. This form will be available to the public through Federal Firearm Licensees, state points of contacts for gun checks, and on the NICS website at he internet address: www.fbi.gov/programs/nics/index/htm.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The number of persons requesting entry into the VAF is estimated to be 24,000 individuals. It takes an average of five minutes to read and complete all areas of the application, an estimated two hours for the process of fingerprinting including travel, and 25 minutes to mail the form for a total of two and a half hours estimated burden to the respondent.

(6) *An estimate to the total burden (in hours) associated with the collection:* The number of persons requesting entry into the VAF is estimated to be 24,000 individuals. The time it takes each individual to complete the process is 2.5 hours. The total public burden hours is 24,000 respondents times 2.5 hours which would equal 60,000 total burden hours.

If additional information is required contact Mr. Robert B. Briggs, Department Clearance Officer, Information Management and Security Staff, Justice Management Division, United States Department of Justice, Patrick Henry Building, Suite 1600, 601 D Street, NW., Washington, DC 20530.

Dated: March 20, 2002.

Robert B. Briggs,

Department Clearance Officer, Department of Justice.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–395]

South Carolina Electric & Gas Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of South Carolina Electric & Gas Company (the licensee) to withdraw its May 24, 2001, application for proposed amendment to Facility Operating License No. NPF–12 for the Virgil C. Summer Nuclear Station, Unit No. 1, located in Fairfield County, South Carolina.

The proposed amendment would have revised the technical specifications to include the emergency feedwater system automatic isolation valves into the surveillance requirements.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on August 8, 2001 (66 FR 41625). However, by letter dated October 30, 2001, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated May 24, 2001, and the licensee's letter dated October 30, 2001, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, *http://www.nrc.gov/reading-rm.html*. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1–800–397–4209, or 301–415–4737 or by e-mail to *pdr@nrc.gov*.

Dated at Rockville, Maryland, this 20th day of March 2002.

For the Nuclear Regulatory Commission.

Gordon E. Edison, Sr.

Project Manager, Section 1, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on the Medical Uses of Isotopes; Renewal Notice

AGENCY: Nuclear Regulatory Commission.

ACTION: This notice is to announce the renewal of the Advisory Committee on the Medical Uses of Isotopes (ACMUI) for a period of two years.

SUPPLEMENTARY INFORMATION: The U. S. Nuclear Regulatory Commission (NRC) has determined that the renewal of the charter for the Advisory Committee on the Medical Uses of Isotopes for the two year period commencing on March 20, 2002 is in the public interest, in connection with duties imposed on the Commission by law. This action is being taken in accordance with the Federal Advisory Committee Act, after consultation with the Committee Management Secretariat, General Services Administration.

The purpose of the ACMUI is to provide advice to NRC on policy and technical issues that arise in regulating the medical use of byproduct material for diagnosis and therapy. Responsibilities include providing guidance and comments on current and proposed NRC regulations and regulatory guidance concerning medical use; evaluating certain non-routine uses of byproduct material for medical use; and evaluating training and experience of proposed authorized users. The members are involved in preliminary discussions of major issues in determining the need for changes in NRC policy and regulation to ensure the continued safe use of byproduct material. Each member provides technical assistance in his/her specific area(s) of expertise, particularly with respect to emerging technologies. Members also provide guidance as to NRC's role in relation to the responsibilities of other Federal agencies as well as of various professional organizations and boards.

BILLING CODE 7590–01–M

NUCLEAR REGULATORY COMMISSION

Reactor Pressure Vessel Head Degradation and Reactor Coolant Pressure Boundary Integrity Issue

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of issuance.

SUMMARY: The Nuclear Regulatory Commission (NRC) has issued Bulletin (BL) 2002–01 to all holders of operating licenses for pressurized-water nuclear power reactors, except those who have permanently ceased operations and have certified that fuel has been permanently removed from the reactor pressure vessel. It addresses the recent discovery of degradation in the reactor pressure vessel head at the Davis-Besse Nuclear Power Station and the concerns this has raised about the structural integrity of the reactor coolant pressure boundary throughout the pressurized-water reactor (PWR) industry. The purpose of the bulletin is to require PWR licensees to submit (1) information related to the integrity of the reactor coolant pressure boundary including the reactor pressure vessel head, at their respective facilities, and the extent to which inspections have been undertaken to satisfy applicable regulatory requirements, and (2) the basis for concluding that their plants satisfy applicable regulatory requirements related to the structural integrity of the reactor coolant pressure boundary and future inspections will ensure continued compliance with applicable regulatory requirements. This information is necessary to permit the assessment of plant-specific compliance with NRC regulations. The information will also be used by the NRC staff to determine the need for and to guide the development of additional regulatory actions to address reactor coolant pressure boundary integrity.

DATES: The bulletin was issued on March 18, 2002.

FOR FURTHER INFORMATION CONTACT: Kenneth J. Karwoski, at (301) 415–2752 or by e-mail to *kjk1@nrc.gov*.

SUPPLEMENTARY INFORMATION: Bulletin 2002–01 may be examined and/or copied for a fee at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and is accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, *http://www.nrc.gov/reading-rm.html*. The ADAMS Accession No. for the bulletin is ML020770497.

If you do not have access to ADAMS or if there are problems in accessing documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 301–415–4737 or 1–800–397–4209, or by e-mail to *pdr@nrc.gov*.

Dated at Rockville, Maryland, this 19th day of March 2002.

For the Nuclear Regulatory Commission.

David B. Matthews,

Director, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. IC–25467; 812–12214]

Bear Stearns Funds, et al.; Notice of Application

March 20, 2002.

AGENCY: Securities and Exchange Commission ("Commission").

ACTION: Notice of application for an order under sections 6(c), 12(d)(1)(J), and 17(b) of the Investment Company Act of 1940 ("Act") for exemptions from sections 12(d)(1)(A) and (B) and 17(a) of the Act, and under section 17(d) of the Act and rule 17d–1 thereunder to permit certain joint transactions.

SUMMARY OF APPLICATION: Applicants request an order to permit (a) certain registered investment companies to pay an affiliated lending agent a fee based on a share of the revenue derived from securities lending activities; (b) the registered investment companies to use uninvested cash ("Uninvested Cash") and cash collateral from securities lending transactions ("Cash Collateral") to purchase shares of certain money market funds; and (c) the registered investment companies to lend portfolio securities to affiliated broker-dealers.

APPLICANTS: The Bear Stearns Funds ("BSF"), Bear, Stearns & Co. Inc. ("Bear Stearns"), Bear Stearns Securities Corp. ("BSSC"), Bear Stearns Asset Management Inc. ("BSAM"), Bear Stearns Funds Management Inc. ("BSFM"), and Custodial Trust Company ("CTC").

FILING DATES: The application was filed on August 9, 2000 and amended on March 15, 2002.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the Commission's Secretary and serving applicant with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m. on April 15, 2002, and should be accompanied by proof of service on applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Commission's Secretary.

ADDRESSES: Secretary, Commission, 450 Fifth Street, NW, Washington, DC 20549–0609. Applicants: c/o Jay G. Baris, Kramer Levin Naftalis & Frankel LLP, 919 Third Avenue, New York, NY 10022.

FOR FURTHER INFORMATION CONTACT: Jaea F. Hahn, Senior Counsel, at (202) 942–0614, or Nadya B. Roytblat, Assistant Director, at (202) 942–0564 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee at the Commission's Public Reference Branch, 450 Fifth Street, NW., Washington, DC 20549–0102 (tel. 202–942–8090).

Applicants' Representations

1. BSF is a Massachusetts business trust registered under the Act as an open-end management investment company. BSF currently consists of 12 separate portfolios (together with future series, the "Portfolios") with varying investment objectives and management policies, one of which is the Prime Money Market Portfolio ("PMMP"), a money market fund that complies with the requirements of rule 2a–7 under the Act. BSAM, a wholly owned subsidiary of The Bear Stearns Companies, Inc. ("BSCI"), is registered as an investment adviser under the Investment Advisers Act of 1940. BSAM serves as each Portfolio's investment adviser. BSFM, a wholly owned subsidiary of BSCI, serves as each Portfolio's administrator. Bear Stearns, an affiliate of BSAM, serves as each Portfolio's distributor.

2. CTC, a wholly owned subsidiary of BSCI, serves as custodian of each of the existing Portfolios (other than the Emerging Markets Debt Portfolio) and as lending agent with BSSC, a wholly owned subsidiary of BSCI (each of CTC and BSSC, the "Lending Agent"). BSSC is a broker-dealer registered under the Securities Exchange Act of 1934.

3. Applicants request that any relief granted pursuant to the application also apply to (a) any other registered investment company or series thereof for which BSAM or any person controlling, controlled by or under common control with BSAM (included in the term "BSAM") now or in the future serves as investment adviser (such investment company or series thereof included in the term "Portfolio"), (b) any other broker-dealer now or in the future controlling, controlled by or under common control with BSSC (together with BSSC, "Affiliated Broker-Dealers"), and (c) any investment entity excluded from the definition of investment company under section 3(c)(1) or section 3(c)(7) of the Act, advised by BSAM, and established for the purpose of investment of Cash Collateral in connection with the securities lending program described below (each, a "PIF").[1] Each PIF will comply with the requirements of rule 2a–7 under the Act.

4. CTC currently administers a securities lending program ("Lending Program") pursuant to a securities lending policy with the respective Portfolios that participate in the securities lending program (the "Lending Portfolios"). Each Lending Portfolio is permitted by its investment policies to lend its portfolio securities, and its prospectus or statement of additional information will disclose that it may engage in portfolio securities lending. BSF's Board of Trustees (the "Board"), including a majority of the trustees who are not interested persons within the meaning of section 2(a)(19) of the Act ("Disinterested Trustees"), have approved BSF's participation in the Lending Program, and will monitor the Lending Program on an ongoing basis.

5. Under the Lending Program, the Lending Agent will enter into agreements ("Securities Loan Agreements") with certain entities ("Borrowers") that wish to borrow portfolio securities owned by the respective Lending Portfolios. The Securities Loan Agreements will require that loans be continuously secured by collateral equal at all times to at least the market value of the securities loaned. Collateral for such loans may include Cash Collateral or other collateral, such as U.S. government securities.

6. Under the Lending Program, the Lending Agent will be responsible for soliciting Borrowers for each Lending Portfolio's securities, monitoring daily the value of the loaned securities and collateral, and requesting Borrowers to add to the collateral when required by the Securities Loan Agreements. The Lending Agent may manage Cash Collateral only in accordance with specific parameters established by a Lending Portfolio. These guidelines include permissible investment of Cash

[1] All existing entities that currently intend to rely on the requested relief have been named as applicants. All existing entities currently intending to rely on the requested order have been named as applicants.

UMI

Collateral as well as a list of eligible types of investments.[2]

7. With respect to securities loans that are collateralized by assets other than cash, the Lending Portfolio involved will receive a loan fee paid by the Borrower equal to a percentage of the market value as specified in the applicable Securities Loan Agreement. With respect to securities loans collateralized by cash, the Borrower will be entitled to receive a fixed Cash Collateral fee based on the amount of cash held as collateral. The Lending Portfolio in such a case will be compensated on the spread between the net amount earned on the investment of the Cash Collateral and the Borrower's Cash Collateral Fee.

8. Portfolios may have Uninvested Cash that comes from a variety of sources, including dividend or interest payments received on portfolio securities, unsettled securities transactions, reserves held for investment strategy purposes, scheduled maturity of investments, liquidation of portfolio securities to meet anticipated redemptions, as well as new monies received from investors.

9. The applicants request relief to permit: (a) The Lending Portfolios to pay the Lending Agent a fee based on a share of the revenue derived from securities lending activities; (b) the Portfolios to use Cash Collateral and Uninvested Cash (together, "Cash Balances") to purchase shares of PMMP, PIFs and any future registered open-end management investment company that complies with rule 2a–7 under the Act (together with PMMP, "Money Market Funds"); and (c) the Lending Portfolios to lend portfolio securities to Affiliated Broker-Dealers.

Applicants' Legal Analysis

A. Payment of Lending Agent Fees

1. Section 17(d) of the Act and Rule 17d–1 thereunder prohibit any affiliated person of or principal underwriter for a registered investment company or any affiliated person of such person or principal underwriter, acting as principal, from effecting any transaction in connection with, any joint enterprise or other joint arrangement or profit-sharing plan, in which the investment company participates unless the Commission has approved the transaction. Section 2(a)(3) of the Act defines an affiliated person of another person to include any person directly or indirectly controlling or controlled by, or under common control with, such other person. Applicants state that CTC and BSAM are wholly owned subsidiaries of BSCI, and therefore CTC may be deemed to be an affiliated person of BSAM, the investment adviser for each Lending Portfolio. Because a fee arrangement between a Lending Agent and a Lending Portfolio, under which compensation is based on a percentage of the revenue generated by securities lending transactions, may be a joint enterprise or other joint arrangement or profit sharing plan within the meaning of section 17(d) and rule 17d–1, applicants request an order to permit each Lending Portfolio to pay, and the Lending Agent to accept, such fees in connection with services provided by the Lending Agent to a Lending Portfolio.

2. Applicants state that each Lending Portfolio will adopt the following procedures to ensure that the proposed fee arrangement and the other terms governing the relationship with CTC or BSSC, as Lending Agent, will meet the standards of rule 17d–1 under the Act:

(a) In connection with the approval of CTC or BSSC as Lending Agent for a Lending Portfolio and implementation of the proposed fee arrangement, a majority of the Board, including a majority of Disinterested Trustees, will determine that (i) the contract with the Lending Agent is in the best interests of the Lending Portfolio and its shareholders, (ii) the services to be performed by the Lending Agent are appropriate for the Lending Portfolio, (iii) the nature and quality of the services provided by the Lending Agent are at least equal to those provided by others offering the same or similar services for similar compensation, and (iv) the fees for the Lending Agent's services are fair and reasonable in light of the usual and customary charges imposed by others for services of the same nature and quality.

(b) Each Lending Portfolio's contract with CTC or BSSC for lending agent services will be reviewed annually and will be approved for continuation only if a majority of the Board (including a majority of the Disinterested Trustees) makes the findings referred to in paragraph (a) above.

(c) In connection with the initial implementation of the proposed fee arrangement whereby CTC or BSSC will be compensated as Lending Agent based on a percentage of the revenue generated by a Lending Portfolio's participation in the Lending Program, the Board will obtain competitive quotes with respect to lending agent fees from at least three independent lending agents to assist the Board in making the findings referred to paragraph (a) above.

(d) The Board, including a majority of the Disinterested Trustees, will (i) determine at each regular quarterly meeting that the loan transactions during the prior quarter were effected in compliance with the conditions and procedures set forth in the application and (ii) review no less frequently than annually the conditions and procedures set forth in the application for continuing appropriateness.

(e) Each Lending Portfolio will (i) maintain and preserve permanently in an easily accessible place a written copy of the procedures and conditions (and modifications thereto) described in the application and (ii) maintain and preserve for a period of not less than six years from the end of the fiscal year in which any loan transaction pursuant to the Lending Program occurred, the first two years in an easily accessible place, a written record of each such loan transaction setting forth a description of the security loaned, the identity of the person on the other side of the loan transaction, the terms of the loan transaction, and the information or materials upon which the determination was made that each loan was made in accordance with the procedures set forth above and the conditions to the application.

B. Investment of Cash Balances in Money Market Funds and PIFs

1. Section 12(d)(1)(A) of the Act provides that no registered investment company may acquire securities of another investment company representing more than 3% of the acquired company's outstanding voting stock, more than 5% of the acquiring company's total assets, or, together with the securities of other investment companies, more than 10% of the acquiring company's total assets. Section 12(d)(1)(B) of the Act provides that no registered open-end investment company may sell its securities to another investment company if the sale will cause the acquiring company to own more than 3% of the acquired company's voting stock, or if the sale will cause more than 10% of the acquired company's voting stock to be owned by investment companies. Section 12(d)(1)(J) of the Act provides that the Commission may exempt any person or transaction from any provision of section 12(d)(1) if, and to the extent that, the exemption is consistent with the public interest and the protection of investors.

2. Applicants request an exemption under section 12(d)(1)(J) to permit each Portfolio to use Cash Balances to acquire shares of the Money Market Funds in excess of the limits imposed by section 12(d)(1)(A), and the Money Market Funds to sell its shares to the Portfolios in excess of the percentage limits in section 12(d)(1)(B).

3. Applicants state that none of the abuses meant to be addressed by sections 12(d)(1)(A) and (B) of the Act are created by the proposed investment of Cash Balances in PMMP. Applicants state that the arrangement will not result in an inappropriate layering of fees because PMMP will not charge a sales load, redemption fee, asset-based sales charge or service fee (as defined in rule 2830(b)(9) of the National Association of Securities Dealers, Inc. Conduct Rules ("NASD Conduct Rules")), or if such shares are subject to any such fees, BSAM will waive its advisory fee for each Portfolio in an amount that offsets the amount of such fees incurred by the Portfolios. In addition, before approving any advisory contract for a Portfolio, the Board, including a majority of the Disinterested Trustees, will consider the extent to which the advisory fees charged to the Portfolio by BSAM should be reduced or waived to account for reduced services provided to the Portfolio by BSAM as a result of Uninvested Cash being invested in PMMP or PIF. If PMMP offers more than one class of shares, each Portfolio will invest its Cash Balances only in the class with the lowest expense ratio at the time of investment. Neither PMMP nor any PIF whose shares are acquired by a Portfolio will acquire securities of any other investment company in excess of the limits contained in section 12(d)(1)(A).

4. Sections 17(a)(1) and (2) of the Act prohibit an affiliated person of a registered investment company, or any affiliated person of the affiliated person, acting as principal, from selling any security to, or purchasing any security from, the registered investment company. Section 2(a)(3) of the Act defines an "affiliated person" of another person to include, among other things, any person 5% or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by such other person or any person directly or indirectly controlling, controlled by, or under common control with, such other person. Applicants state that to the extent that a Portfolio owns 5% or more of the voting securities of PMMP or PIF, PMMP or PIF could be deemed to be an affiliated person of the Portfolio. In addition, to the extent that the Portfolios, PMMP and PIF share a common investment adviser and the Portfolios and PMMP share a common Board, applicants state that the Portfolios, PMMP and PIF may be considered to be under common control and therefore be affiliated persons. As a result, section 17(a) may prohibit the sale of shares of PMMP or PIF to a Portfolio, and the redemption of such shares by PMMP or PIF from the Portfolio.

5. Section 17(b) of the Act authorizes the Commission to exempt a transaction from section 17(a) if the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, and the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act. Section 6(c) of the Act authorizes the Commission to exempt any person or transaction from any provision of the Act if the exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

6. Applicants request an order under sections 6(c) and 17(b) of the Act to permit the Portfolios to use Cash Balances to purchase shares of PMMP or PIF and to permit the redemption of the shares. Applicants maintain that the terms of the proposed transaction are reasonable and fair because the Portfolios will purchase and sell shares of PMMP or PIF on the same terms and on the same basis as other shareholders. Applicants assert that the proposed transactions comply with each Portfolio's investment restrictions and policies. Applicants further state that the investment of Cash Collateral in PMMP or a PIF will comply with all present and future Commission and staff positions concerning securities lending. Applicants also state that the PIFs will comply with the major substantive provisions of the Act, including the prohibitions against affiliated transactions, leveraging and issuing senior securities, and rights of redemption.

7. Section 17(d) of the Act and rule 17d–1 under the Act generally prohibit joint transactions involving registered investment companies and their affiliates unless the Commission has approved the transaction. Applicants state that the Portfolios, BSAM (by managing assets of the Portfolios and PIFs), and PMMP or a PIF (by selling shares to and redeeming shares from the Portfolios) may be deemed to be participants in a joint enterprise or arrangement within the meaning of section 17(d) and rule 17d–1. Applicants request an order pursuant to section 17(d) and rule 17d–1 to permit the described transactions relating to investments of Cash Balances in PMMP or PIFs. For the reasons discussed above, applicants believe that the proposed transactions meet the standards of rule 17d–1.

C. Lending to Affiliated Broker-Dealers

1. Section 17(a)(3) of the Act makes it unlawful for any affiliated person of or principal underwriter for a registered investment company, to borrow money or other property from the registered investment company. Applicants state that because an Affiliated Broker-Dealer may be deemed to be a person under common control with BSAM, an Affiliated Broker-Dealer may be considered an affiliated person, or a second-tier affiliate, of a Lending Portfolio. Accordingly, section 17(a)(3) would prohibit the Affiliated Broker-Dealers from borrowing securities from the Lending Portfolios.

2. As noted above, section 17(d) and rule 17d–1 generally prohibit joint transactions involving registered investment companies and their affiliates unless the Commission has approved the transaction. Applicants request relief under sections 6(c) and 17(b) of the Act exempting them from section 17(a)(3), and under section 17(d) and rule 17d–1 to permit the Lending Portfolios to lend portfolio securities to Affiliated Broker-Dealers.

3. Applicants state that each loan to an Affiliated Broker-Dealer by a Lending Portfolio will be made with a spread that is no lower than that applied to comparable loans to unaffiliated broker-dealers.[3] In this regard, applicants state that at least 50% of the loans made by the Lending Portfolios, on an aggregate basis, will be made to unaffiliated Borrowers. Moreover, all loans will be made with spreads that are no lower than those set forth in a schedule of spreads established by the Board, including a majority of the Disinterested Trustees, and all transactions with Affiliated Broker-Dealers will be reviewed periodically by an officer of the Lending Portfolio. The Board, including a majority of the Disinterested Trustees, also will review quarterly reports on all lending activity.

[2] The personnel who will provide day-to-day lending agency services to the Lending Portfolios do not and will not provide investment advisory services to the Lending Portfolios, or participate in any way in the selection of the portfolio securities or other aspects of the management of the Lending Portfolios.

[3] A "spread" is the compensation earned by a Lending Portfolio from a securities loan, which compensation is in the form either of a lending fee payable by the Borrower of the Lending Portfolio (when non-cash collateral is posted) or of the excess retained by the Lending Portfolio over a rebate rate payable by the Lending Portfolio to the Borrower (when Cash Collateral is posted and then invested by the Lending Portfolio).

Applicants' Conditions

Applicants agree that any order granting the requested relief will be subject to the following conditions:

A. General

1.Each Portfolio, Money Market Fund and PIF that relies on the requested order will be advised by BSAM.

2. The securities lending program of each Lending Portfolio will comply with all present and future applicable Commission and staff positions regarding securities lending arrangements.

3. Before a Lending Portfolio may participate in the Lending Program, a majority of the Board, including a majority of the Disinterested Trustees, will approve the Lending Portfolio's participation in the Lending Program. The Board will evaluate the Lending Program and its results no less frequently than annually and a majority of the Board, including a majority of the Disinterested Trustees, will determine that investing Cash Collateral in PMMP or a PIF is in the best interests of the shareholders of the Lending Portfolio.

B. Investment of Cash Balances in PMMP and PIF

1. The shares of PMMP or a PIF sold to and redeemed from the Portfolios will not be subject to a sales load, redemption fee, asset-based sales charge, or service fees (as defined in the NASD Conduct Rules).

2. If BSAM collects a fee from PMMP or a PIF for acting as its investment adviser with respect to assets invested by a Portfolio, before the next meeting of the Board on behalf of the Portfolio is held for the purpose of voting on an advisory contract under section 15 of the Act, BSAM will provide the Board with specific information regarding the approximate cost to BSAM for, or portion of the advisory fee under the existing advisory contract attributable to, managing the Uninvested Cash of the Portfolio that can be expected to be invested in PMMP or the PIF. Before approving any advisory contract under section 15, the Board, on behalf of the Portfolio, including a majority of the Disinterested Trustees, shall consider to what extent, if any, the advisory fees charged to the Portfolio by BSAM should be reduced to account for the fee indirectly paid by the Portfolio because of the advisory fee paid by PMMP or a PIF to BSAM. The minute books of each Portfolio will record fully the Board's considerations in approving the advisory contract, including the considerations relating to the fees referred to above.

3. Each of the Portfolios will invest Uninvested Cash in, and hold shares of, PMMP and PIFs only to the extent that the Portfolio's aggregate investment of Uninvested Cash in PMMP and PIF does not exceed 25% of the Portfolio's total assets. For purposes of this limitation, each Portfolio or series thereof will be treated as a separate investment company.

4. Investment in shares of PMMP and PIFs will be in accordance with each Portfolio's respective investment restrictions and policies as set forth in its prospectus and statement of additional information.

5. Neither PMMP nor any PIF will acquire securities of any investment company in excess of the limits contained in section 12(d)(1)(A) of the Act.

6. A majority of the Board of a Portfolio, including a majority of the Disinterested Trustees of such Portfolio, will initially and at least annually thereafter, determine that investment of Uninvested Cash in shares of PMMP or a PIF is in the best interests of the shareholders of the Portfolio.

7. A Portfolio's Uninvested Cash will be invested in PMMP or a PIF only if PMMP or the PIF invests solely in the types of instruments that the Portfolio has authorized for the investment of its Uninvested Cash.

8. Each PIF in which a Portfolio invests will comply with rule 2a–7 under the Act. Each PIF will value its shares, as of the close of business on each business day, using the amortized cost method to determine its net asset value per share. BSAM, as the managing member of the PIF, will adopt and monitor the procedures described in rule 2a–7(c)(7) under the Act and BSAM will take such other actions as are required to be taken pursuant to such procedures. A Portfolio may purchase shares of a PIF only if BSAM determines on an ongoing basis that the PIF is operating as a money market fund in compliance with rule 2a–7. BSAM will preserve for a period of not less than six years from the date of determination, the first two years in an easily accessible place, a record of such determination and the basis upon which the determination was made. This record will be subject to examination by the Commission and the Staff .

9. Each PIF in which a Portfolio invests will comply with sections 17(a), (d) and (e) and 18 of the Act as if the PIF were an open-end registered investment company. With respect to all redemption requests made by a Portfolio, the PIF will comply with section 22(e) of the Act. BSAM, as managing member, will adopt procedures designed to ensure that the PIF complies with sections 17(a), (d) and (e), 18 and 22(e) of the Act. BSAM will also periodically review and update as appropriate such procedures and will maintain books and records describing such procedures, and maintain the records required by rules 31a–1(b)(1), 31a–1(b)(2)(ii) and 31a–1(b)(9) under the Act. All books and records required to be made pursuant to this condition will be maintained and preserved for a period of not less than six years from the end of the fiscal year in which any transaction occurred, the first two years in an easily accessible place, and will be subject to examination by the Commission and the staff.

10. The net asset value per share of a PIF in which a Portfolio may invest will be determined by dividing the value of the assets belonging to the PIF, less the liabilities of the PIF, by the number of shares of the PIF outstanding.

11. Each Portfolio will purchase and redeem shares of a PIF on the same basis as of the same time and at the same price, and will receive dividends and bear its proportionate share of expenses on the same basis as other shareholders investing in the same PIF. A separate account will be established in the shareholder records of the PIF for the account of each applicable Portfolio.

C. Loans to Affiliated Broker-Dealers

1. The Lending Portfolios, on an aggregate basis, will make at least 50% of their portfolio securities loans to unaffiliated Borrowers.

2. The total value of securities loaned to any one broker-dealer on the approved list of Borrowers of securities from a Lending Portfolio will be in accordance with a schedule to be approved by the Board, but in no event will the total value of securities lent to any one Affiliated Broker-Dealer exceed 10% of the net assets of the Lending Portfolio, computed at market value.

3. A Lending Portfolio will not make any loan to an Affiliated Broker-Dealer unless the income attributable to such loan fully covers the transaction costs incurred in making such loan.

4. (a) All loans will be made with spreads no lower than those set forth in a schedule of spreads which will be established and may be modified from time to time by the Board and by a majority of the Disinterested Trustees ("Schedule of Spreads").

(b) The Schedule of Spreads will set forth rates of compensation to the Lending Portfolio that are reasonable and fair and that are determined in light of those considerations set forth in the application.

(c) The Schedule of Spreads will be uniformly applied to all Borrowers of the Lending Portfolios' portfolio securities, and will specify the lowest allowable spread with respect to a loan of securities to any Borrower.

(d) If a security is loaned to an unaffiliated Borrower with a spread higher than the minimum set forth in the Schedule of Spreads, all comparable loans to an Affiliated Broker-Dealer will be made at no less than the higher spread.

(e) Each Lending Portfolios' portfolio securities lending program will be monitored on a daily basis by an officer of the Lending Portfolio who is subject to section 36(a) of the Act. This officer will review the terms of each loan to an Affiliated Broker-Dealer for comparability with loans to unaffiliated Borrowers and conformity with the Schedule of Spreads, and will periodically, and at least quarterly, report his or her findings to the Board, including a majority of the Disinterested Trustees.

5. The Board, including a majority of the Disinterested Trustees, (a) will determine no less frequently than quarterly that all transactions with Affiliated Broker-Dealers effected during the preceding quarter were effected in compliance with the requirements of the procedures adopted by the Board and the conditions of this order if granted and that such transactions were conducted on terms which were reasonable and fair; and (b) will review no less frequently than annually such requirements and conditions for their continuing appropriateness.

6. The Lending Portfolios will maintain and preserve permanently in an easily accessible place a written copy of the procedures (and any modifications thereto) which are followed in lending securities and shall maintain and preserve for a period of not less than six years from the end of the fiscal year in which any loan occurs, the first two years in an easily accessible place, a written record of each loan setting forth the number of shares loaned, the face amount of the securities loaned, the fee received (or the rebate rate remitted), the identity of the borrower, the terms of the loan and any other information or materials upon which the finding was made that each loan made to an Affiliated Broker-Dealer was fair and reasonable and that the procedures followed in making such loan were in accordance with the procedures and the other undertakings set forth herein.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–45593; File No. SR–GSCC–2001–08]

Self-Regulatory Organizations; Government Securities Clearing Corporation; Notice of Filing and Order Granting Accelerated Approval of a Proposed Rule Change Revising Margin Factor and Offset Class Schedules

March 19, 2002.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on July 11, 2001, the Government Securities Clearing Corporation ("GSCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which items have been prepared primarily by GSCC. The Commission is publishing this notice and order to solicit comments from interested persons and to grant accelerated approval of the proposal.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change refines GSCC's "margin factor and offset class schedules" and "disallowance percentage schedules."

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, GSCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. GSCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.[2]

(A) Self-Regulatory Organizotion's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

GSCC netting members are required to maintain deposits in a clearing fund account. Each member's required deposit is calculated daily to ensure that enough funds are on hand to cover the risks associated with that member's activities. GSCC calculates the margin amount on a member's net settlement positions using factors (percentages) that are based on an assessment of historical daily price volatility data. In order to give "credit" for offsetting net settlement positions to the extent appropriate, GSCC established offset classes for securities of varying maturity and disallowance percentages among those different offset classes.

As a result of GSCC's ongoing monitoring of its risk management processes, GSCC has determined to refine its "margin factor and offset class schedules" and its "disallowance percentage schedules" to take into account (i) its growing business in non-mortgage-backed agency securities ("Agencies") and in mortgage-backed agency securities ("MBS"),[3] (ii) potential differences in price volatility between its regular settlement services ("DVP service") and its GCF Repo service, and (iii) the recent establishment of a daily data feed from GSCC's clearing banks that provides GSCC with accurate information regarding the specific securities which its members deliver against generic CUSIP numbers established for the GCF Repo service.

In the revised margin factor and offset class schedules, GSCC has established a different margin factor for MBS. Although it has retained the same margin factors for Agencies as it uses for Treasury securities,[4] the format of the new schedules will enable GSCC to more easily establish different margin factors for Agencies in the future if the need arises. The clearing bank data feed now permits GSCC to classify each security settled in the GCF Repo service according to its true remaining maturity instead of requiring GSCC to categorize each security as if it had the longest remaining maturity of all the securities within the same generic CUSIP number. It should be noted that for the present

[1] 15 U.S.C. 78s(b)(1).

[2] The Commission has modified the text of the summaries prepared by GSCC.

[3] Mortgage-backed agency securities are only processed in the GCF Repo service at GSCC and not in GSCC's regular services.

[4] Price volatility studies indicate that there is currently no need to establish different margin factors for Treasuries and Agencies. GSCC monitors price volatility on an ongoing basis.

VOL 67 ISS 58 MR 26 2002 UMI

time. GSCC has assigned the same conservative margin factor to all MBS.

In the revised margin factor and offset class schedules, GSCC has segregated (i) Treasury securities settled in the DVP service, (ii) Treasury securities settled in the GCF Repo service, (iii) Agencies settled in the DVP service, (iv) Agencies settled in the GCF Repo service, and (v) MBS settled in the GCF Repo service into separate offset classes.

The revised disallowance percentage schedules provide for offsets among the different offset classes. These schedules take into account the increasing volatility in the interest rate spreads between Treasury securities and Agencies. The schedules also permit offsets between MBS on the one hand and Treasury securities and Agencies on the other. It should be noted that these offsets are based on a more conservative model than GSCC uses with respect to other securities it processes because it assumes that GSCC would need an extra business day to liquidate pools of securities and to correct for model risk that is inherent in MBS.

GSCC believes that the proposed rule change is consistent with the requirements of Section 17A of the Act and the rules and regulations thereunder because it will enable GSCC to modify its margining and offsetting schedules to promote a more prudent and accurate margining process.

(B) Self-Regulatory Organization's Statement on Burden on Competition

GSCC does not believe that the proposed rules changes will have an impact or impose a burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments relating to the proposed rule change have not yet been solicited or received. Members will be notified of the rule change filing and comments will be solicited by an Important Notice. GSCC will notify the Commission of any written comments received by GSCC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder and particularly with the requirements of section 17A(b)(3)(F).[5] Section 17A(b)(3)(F) requires that the rules of a clearing agency be designed to assure the safeguarding of securities and funds that are in its custody or control or for which it is responsible. The Commission believes that the revised margin factor and offset class schedules enables GSCC to promote a more accurate margining process. As such, the Commission believes GSCC's proposal is consistent with its obligation to assure the safeguarding of securities and funds that are in its custody or control or for which it is responsible.

GSCC has requested that the Commission approve the proposed rule change prior to the thirtieth day after publication of the notice of the filing. The Commission finds good cause for approving the rule change prior to the thirtieth day after publication because such approval will allow GSCC to immediately employ the revised schedules in its daily margin calculations.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549–0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of GSCC. All submissions should refer to File No. SR–GSCC–2001–08 and should be submitted by April 16, 2002.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[6] that the proposed rule change (File No. SR–GSCC–2001–08) be and hereby is approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.[7]

Margaret H. McFarland,

Deputy Secretary.

SMALL BUSINESS ADMINISTRATION

Reporting and Recordkeeping Requirements Under OMB Review

AGENCY: Small Business Administration.

ACTION: Notice of reporting requirements submitted for OMB review.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35), agencies are required to submit proposed reporting and recordkeeping requirements to OMB for review and approval, and to publish a notice in the **Federal Register** notifying the public that the agency has made such a submission.

DATES: Submit comments on or before April 25, 2002. If you intend to comment but cannot prepare comments promptly, please advise the OMB Reviewer and the Agency Clearance Officer before the deadline.

Copies: Request for clearance (OMB 83–1), supporting statement, and other documents submitted to OMB for review may be obtained from the Agency Clearance Officer.

ADDRESSES: Address all comments concerning this notice to: Agency Clearance Officer, Jacqueline White, Small Business Administration, 409 3rd Street, SW., 5th Floor, Washington, DC 20416; and OMB Reviewer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Jacqueline White, Agency Clearance Officer, (202) 205–7044.

SUPPLEMENTARY INFORMATION:

Title: Requests from borrowers (Financial Statement).

No: 770.

Frequency: On Occasion.

Description of Respondents: SBA Borrower's or guarantor's who request a compromise.

Responses: 5,000.

Annual Burden: 5,000.

Jacqueline White,

Chief, Administrative Information Branch.

DEPARTMENT OF STATE

[Public Notice 3953]

M/DGHR/MED/EX; 60-Day Notice of Proposed Information Collection: Form DS–1622, Medical History and Examination for Foreign Service—For Children 11 Years and Under; Form DS–1843, Medical History and Examination for Foreign Service—For Persons 12 Years and Over; (OMB# 1405–0068)

ACTION: Notice.

SUMMARY: The Department of State is seeking Office of Management and Budget (OMB) approval for the information collection described below. The purpose of the notice is to allow 60 days for public comment in the **Federal Register** preceding submission to OMB. This process is conducted in accordance with the Paperwork Reduction Act of 1995.

The following summarizes the information collection proposal to be submitted to OMB:

Type of Request: Extension of a current collection.

Originating Office: Office of Medical Services, M/DGHR/MED.

Title of Information Collection: Medical History and Examination for Foreign Service—For Children 11 years and Under; Medical History and Examination for Foreign Service—For Persons 12 Years and Over.

Frequency: Biennially.

Form Number: DS–1622 and DS–1843.

Respondents: Candidates for Foreign Service Positions and their Eligible Family Members.

Estimated Number of Respondents: 12,000.

Average Hours Per Response: One Hour.

Total Estimated Burden: 12,000 hours.

Public comments are being solicited to permit the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including through the use of automated collection techniques or other forms of technology.

Coast Guard

[USCG 2001-11237]

Information Collection Under Review by the Office of Management and Budget (OMB): 2115-0596 and 2115-0597

AGENCY: Coast Guard, DOT.

ACTION: Request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, this request for comments announces that the Coast Guard has forwarded two Information Collection Reports (ICRs) abstracted below to the Office of Information and Regulatory Affairs (OIRA) of the Office of Management and Budget (OMB) for review and comment. Our ICRs describe the information we seek to collect from the public. Review and comment by OIRA ensures that we impose only paperwork burdens commensurate with our performance of duties.

DATES: Please submit comments on or before April 25, 2002.

ADDRESSES: To make sure that your comments and related material do not enter the docket [USCG 2001-11237] more than once, please submit them by only one of the following means:

(1)(a) By mail to the Docket Management Facility, U.S. Department of Transportation, room PL-401, 400 Seventh Street SW., Washington, DC 20590-0001. (b) OIRA, 725 17th Street NW., Washington, DC 20503, to the attention of the Desk Officer for the Coast Guard. Caution: Because of recent delays in the delivery of mail, your comments may reach the Facility more quickly if you choose one of the other means described below.

(2)(a) By delivery to room PL-401 at the address given in paragraph (1)(a) above, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202-366-9329. (b) OIRA, at the address given in paragraph (1)(b) above, to the attention of the Desk Officer for the Coast Guard.

(3) By fax to (a) the Docket Management Facility at 202-493-2251 or (b) OIRA 202-395-7285, attention: Desk Officer for the Coast Guard.

(4)(a) Electronically through the Web Site for the Docket Management System at *http://dms.dot.gov*. (b) OIRA does not have a Web site on which you can post your comments.
